(C) When an amendment to add the emergency clause, the severability clause, or provide an operative date is adopted on Select File which does not spell out the standard clause or section and make the necessary change in the title, the Chairperson of Enrollment and Review shall also have the authority to add to the engrossed bill the standard clause or section, assigning to it the appropriate section number, and make the necessary change in the title as a matter of course without including such action in his or her reports and recommendations to the Legislature or making any special record thereof.

(D) To add and/or delete names of introducers to reflect action on the bill while the bill remains in the possession of the Legislature at any stage of consideration.

The appropriate committee is that committee which has subject-matter jurisdiction over the issue or which has traditionally handled the issue.

(ii) All nominations made to the Legislature by the Governor, requiring confirmation by the Legislature shall be referred to the appropriate standing committee and the same procedure shall be followed as governs the handling of other matters before standing committees, unless the Legislature shall otherwise direct by unanimous vote.

(f) Rules Committee.

All proposed rules changes shall be set for public hearing within five legislative days after their referral to the committee. The hearing shall take place within fifteen legislative days after the referral, and the committee shall take final action on the proposal within ten legislative days after the hearing.

(g) Investigating Committees.

The Committee on Committees may appoint other select committees when authorized by the Legislature. No investigating committee of the Legislature shall be created except by resolution which shall set forth, with supporting statements, the reasons for and the purposes of the investigation, and no committee thus established shall function except during the interim between legislative sessions.

Sec. 5. Special Committees. (a) Special committees shall include all authorized committees other than standing and select committees. Unless otherwise specifically provided, special committees shall not have jurisdiction over legislative bills, but shall be subject to the same procedural rules as standing committees, insofar as they are applicable.

(ii) Nebraska Retirement Systems Committee.

The Nebraska Retirement Systems Committee (RRS 50-416) shall have jurisdiction over all bills proposing new or amending existing retirement systems of the state and its political subdivisions.

Sec. 6. Meeting Times. (a) After consultation with the Speaker, the Committee on Committees shall publish a schedule of standing committee meetings, in such manner as to avoid, as far as possible,

conflicts in the assignment of members to committees. Standing committees shall meet at 2:00 p.m. on weekdays, unless otherwise approved by the Legislature.

(b) A standing committee deciding not to hold meetings on the appointed day must receive permission from the Reference Committee.

(c) Any legislative committee shall be subject to the call of its chairperson or to the call of a majority of its members, in accordance with the notice and procedural requirements set forth in its committee rules.

Sec. 7. Chairperson, Vice Chairperson. (a) The chairperson of each standing and select committee shall be selected by secret ballot on the floor of the Legislature.

(b) The chairperson of a special committee shall be selected in the manner provided by the act authorizing the committee, or if not specified, by the Executive Board.

(c) Each committee shall elect from its membership a vice chairperson to serve in the absence of the chairperson.

Sec. 8. Committee Quorum. A majority of the members of a committee shall constitute a quorum. A quorum must be present for the transaction of any committee business except a public hearing.

Sec. 9. Quorum at Committee Hearings. A quorum of committee members should be maintained throughout all committee hearings.

Sec. 10. Conduct During Committee Hearing. No member, staff, media representative, or individual shall smoke or otherwise consume tobacco products during a committee hearing or while the committee conducts an executive session within the hearing room assigned to that committee for such purpose, unless the committee by a vote of the majority, with all the members present, taken at least once a session, decides otherwise.

Sec. 11. Temporary Appointments. (a) When a member is unable to serve, the chairperson of the committee, after a majority vote of the remaining members, shall request that such vacancy be filled by the Committee on Committees. Such committee shall appoint either the

Speaker or a member from a standing committee having eight members to fill each vacancy.

(b) A temporary appointment may be made by the Chairperson of the Committee on Committees for only one day when requested by a chairperson of a standing committee which lacks a quorum. When a member is appointed from an eight-member committee, the consent of the member to be appointed shall first be obtained. The temporary appointee shall have the right to vote only on the bill or bills that actually have been heard by the appointee and provided that the vote is taken on such bills on the day the bill or bills are heard. When such appointment is made in case of an incapacitated member, such appointee shall cease to be a member of such committee upon the return of the incapacitated member for whom he or she was appointed.

Sec. 12. Consideration and Correlation of Bills and Resolutions. (a) Committees shall consider and report without unnecessary delay all bills and resolutions referred to them. Committees shall be authorized to combine and to correlate the provisions of different bills and resolutions referred to them and related to the same subject under the number of one of the correlated bills or resolutions, and when reported out under one bill or resolution number, the remaining bills or resolutions will be reported out as indefinitely postponed. Committees may, before taking final action on any bill or resolution, adopt amendments thereto, for the consideration of the Legislature.

(b) The chairperson of each committee shall set for hearing all bills and resolutions referred to the committee.

Sec. 13. Public Hearing, Notice. Before taking final action on a bill or resolution, a committee shall hold a public hearing thereon and shall give at least seven calendar days' notice, after the bill shall have been printed, by publication in the Legislative Journal. No bill having been set for public hearing shall be withdrawn nor the hearing cancelled within seven calendar days of the date set for said public hearing.

Sec. 14. State Officials Appearing Before Committees. State officials and department heads or their designees and state employees are encouraged to appear before any legislative committee to comment upon bills having an impact on the operations of the administrative agency or department for which they work.

Sec. 15. Executive Sessions and Closed Meetings. (a) Executive session shall mean any meeting or portion of a meeting which is closed to the general public, and the proceedings of which are not electronically recorded and transcribed, unless the committee so provides, but the records of which shall be available for public inspection. Executive sessions shall be open to members of the news media who may report on action taken and on all discussions in executive session.

(b) All other meetings of a committee shall be public unless the committee, by a majority vote of all of its members, determines that a meeting should not be open to the public, including members of the news media, in a particular instance, due to rare and extraordinary circumstances. The meeting shall be reconvened in open session before any formal action may be taken.

Sec. 16. Report of Bill to Legislature. (a) In reporting a bill to the Legislature, whether with or without amendments, a committee shall by vote of a majority of its members, recommend that the bill be placed on General File or that the bill be indefinitely postponed. Such action shall be taken at regularly scheduled meetings only.

(b) A report on a bill or resolution must be made to the Legislature within eight calendar days after the committee has taken final action upon the particular measure.

(c) No bill shall be reported by the committee to be placed on General File unless the amendments, if any, are approved as to form and draftsmanship by the Bill Drafter.

Sec. 17. Indefinitely Postponed Bills. If the committee action on a bill be to postpone indefinitely, the bill shall stand indefinitely postponed; except that such bill may be placed on General File or referred back to the committee by a three-fifths vote of the elected members upon motion made within three legislative days after the committee makes its report to the Legislature, or by a two-thirds vote of the elected members upon motion made more than three legislative days after such committee report. Not more than one bill shall be raised from committee on any one motion. A motion to raise cannot be amended to include any other bill or subject matter. A motion to raise must be disposed of by the Legislature within five legislative days after the motion is available for consideration or it shall be deemed defeated.

Sec. 18. Committee Statement. (a) The chairperson of each committee with the assistance of the legislative staff shall, when reporting a bill, submit with such bill a committee statement which shall contain, but need not be limited to, the following information:

(1) the one-line title and number of the bill;
(2) a roll call vote of final committee action taken on the bill;
(3) the date of the public hearing on the bill;
(4) a list of all individuals testifying for and against the bill and any organization they represent;
(5) a summary of the bill's purpose and a description of all major provisions for change in the bill as written and as amended by the committee;
(6) if committee amendments are to be introduced, a copy of the amendments and an explanation thereof.

(b) A copy of the proposed statement shall be distributed to each committee member within five days after final action on the bill has been taken by the committee. A minority or concurring statement bearing the signature or signatures of its proponents and setting forth objections to the bill, to proposed amendments, or to the majority statement may be filed by its author(s) with the Clerk of the Legislature at any time prior to the first hearing of the bill on General File.

(c) A copy of the committee statement and any minority statements submitted shall be distributed to each senator after filing with the Clerk of the Legislature. Copies of such statements shall be made available to the public.

Sec. 19. Request From Committee, Bills Held. (a) Except for the general appropriation bills necessary for the support of the state government for the biennium, the Legislature may, by vote of a majority of the elected members, request a status report from any committee at any time after said committee shall have been in possession of a bill or resolution for twenty legislative days.

(b) Any senator may move that a bill be placed on General File twenty calendar days or more after the committee hearing, if the committee has not taken final action on the bill, and by a vote of a majority of the elected members, said bill shall be placed on General File. If, at the expiration of eight calendar days from the date final action was taken, the chairperson has not reported the bill, any

senator may file with the Speaker a motion that the chairperson be compelled to submit a report. After determining that final action on the bill has been taken at least eight calendar days prior to the date the motion was submitted, the Speaker shall accept the motion and compel the chairperson to file the committee's report on the matter.

(c) Any time any member attempts to take a bill from committee to be placed on General File, the bill shall stand indefinitely postponed and shall not be subject to reconsideration if the motion fails to receive a majority vote of the members elected to the Legislature. The introducer of the bill must concur with any motion offered under this rule.

Sec. 20. Subpoena Procedure. It is within the inherent power of any legislative committee to gather information pursuant to its regular functions, and to conduct investigations of matters within its subject-matter jurisdiction.

A committee's power of subpoena should not be exercised unless the committee has determined that no other method of securing the desired information would be successful or practicable, and that the matter is of primary importance to the welfare of the State of Nebraska.

A committee of the Legislature conducting an investigation and gathering information, whether pursuant to legislative direction or pursuant to its regular functions of oversight and bill preparation, shall observe the following procedures in addition to regular committee procedures whenever subpoenas are issued:

(A) Issuance of Subpoenas.

(i) A committee may, by a majority vote of all of its members taken at a meeting properly called, issue a subpoena requiring a person to appear before the committee and be examined in reference to any matter within the scope of the inquiry or investigation being conducted by the committee, but only when the committee has received prior approval by a majority vote of the Executive Board to issue subpoenas in connection with the specific inquiry or investigation in question.

(ii) The committee may, in the same manner, issue a subpoena or subpoena duces tecum requiring any person to appear before the committee and bring with him or her any books, papers, or other documents pertinent thereto.

(iii) While the Legislature is in session, a committee deciding to issue subpoenas must promptly report each issuance to the Legislature. A record shall be made in the Journal reflecting the date

the subpoena was issued, to whom it was issued, for what purpose it was issued, and the date on which testimony or production of documents is to take place. Under extraordinary circumstances, the identity of the person subpoenaed may be withheld from publication if necessary to protect the safety of an individual or the confidentiality of the matters to be heard.

(iv) A person subpoenaed to attend a hearing of a committee shall receive the same fees and allowances as a person subpoenaed to give testimony in an action pending in a court of record.

(B) Notice to Witnesses.

(i) Service of a subpoena requiring the attendance of a person at a hearing of a committee shall be made in the manner provided by law for the service of subpoenas in civil actions at least seven days prior to the date of the hearing unless a shorter period of time is authorized by a majority vote of all of the members of the committee in a particular instance when, in their opinion, the giving of seven days' notice is not practicable; but if a shorter period of time is authorized, the person subpoenaed shall be given reasonable notice of the hearing, consistent with the particular circumstances involved.

(ii) Any person who is served with a subpoena to attend a hearing of a committee shall also be served with a copy of the act defining the purpose of the committee, a copy of the rules under which the committee functions, a general statement informing him or her of the subject matter of the committee's investigation or inquiry, and a notice that he or she may be accompanied at the hearing by counsel of his or her own choosing.

(C) Conduct of the Hearing.

(i) No committee which has issued a subpoena directing a witness to appear at a hearing shall question the witness unless a quorum is present throughout the questioning.

(ii) The hearing shall be public unless the committee, by a majority vote of all of its members, determines that a hearing should not be open to the public in a particular instance, due to rare and extraordinary circumstances consistent with Legislative Rule 3, Section 15(b) regarding closed meetings.

(iii) The chairperson of the committee shall preside at all hearings and shall conduct the examination of witnesses himself or herself or supervise the examination by other members of the committee. The committee may, by a majority vote of all its members, authorize the questioning of a witness by the committee's counsel or by special counsel.

(D) Right to Counsel and Submission of Questions.

(i) Every witness at the hearing may be accompanied by counsel of his or her own choosing, who may advise the witness of his or her rights, subject to reasonable limitations which the committee may prescribe to prevent obstruction of or interference with the orderly conduct of the hearing.

(ii) Any witness at the hearing, or a witness' counsel, may submit to the committee proposed questions to be asked of the witness or any other witness relevant to the matters upon which there has been any questioning or submission of evidence, and the committee shall ask such of the questions as it deems appropriate and relevant to the subject matter of the hearing.

(E) Testimony.

(i) The committee shall cause a verbatim record to be made of all proceedings in which testimony or other evidence is demanded or offered, which record shall include rulings of the chair, questions of the committee and its counsel, the testimony or responses of witnesses, sworn written statements submitted to the committee and read into the record, and such other matters as the committee or its chair may direct.

(ii) All testimony given or offered at the hearing shall be under oath or affirmation if the witness has been subpoenaed, and in other cases if a majority of the committee members present at the hearing so decide.

(iii) The presiding member at the hearing may direct a witness to answer any relevant question or furnish any relevant book, paper, or other document, the production of which has been required by subpoena duces tecum. Unless the direction is overruled by a majority vote of the committee members present, disobedience shall constitute a contempt.

(iv) A witness at the hearing or his or her counsel, with the consent of a majority of the committee's members present at the hearing, may file with the committee for incorporation into the record of the hearing sworn written statements relevant to the purpose, subject matter, and scope of the committee's investigation or inquiry.

(v) Testimony and other evidence given or offered at a hearing closed to the public shall not be made public unless authorized by a majority vote of all of the members of the committee, which authorization shall also specify the form and manner in which the testimony or other evidence may be released.

(vi) A witness at a closed hearing, upon request and at his or her own expense, shall be furnished a transcript of his or her testimony at the hearing.

(F) Interested Persons.

(i) Any person whose name is mentioned or who is otherwise identified during the hearing and who, in the opinion of the committee, may be adversely affected thereby, may, upon his or her request or upon the request of any member of the committee, appear personally before the committee and testify in his or her own behalf, or, with the committee's consent, may file a sworn written statement of facts or other documentary evidence for incorporation into the record thereof.

(ii) Upon the consent of a majority of its members, a committee may invite any other person to appear at a hearing or submit a sworn written statement of facts or other documentary evidence for incorporation into the record thereof. No invitation to appear, and no request to appear, appearance, or submission of evidence shall limit in any way the committee's power of subpoena.

(iii) Any person who appears before a committee pursuant to this section shall have all the rights, privileges, and responsibilities of a witness provided to all other witnesses.

(G) Contempt.

A person shall be in contempt if he or she:

(i) Fails or refuses to appear in compliance with a subpoena or, having appeared, fails or refuses to testify under oath or affirmation;

(ii) Fails or refuses to answer any relevant question or fails or refuses to furnish any relevant book, paper, or other document subpoenaed by or on behalf of a committee; or

(iii) Commits any other act or offense against a committee which, if committed against the Legislature, would constitute a contempt.

The chairperson of a committee may apply to the Legislature or, during the interim, to the district court of any county to compel obedience by proceedings for contempt.

(H) Penalties.

(i) A person guilty of contempt under the provision of these rules shall be subject to punishment pursuant to RRS 50-105 and 50-106 during the session, or to RRS 50-407 when the Legislature is not in session.

(ii) If a committee fails in any material respect to comply with the requirements of these rules, any person subject to a subpoena or a subpoena duces tecum who is injured by such failure shall be relieved of any requirement to attend the hearing for which the subpoena was issued or, if present, to testify or produce evidence therein; and such failure shall be a complete defense in any proceeding against such person for contempt or other punishment.

(iii) Any member or employee of the Legislature, other than the witness concerned or his or her counsel who knowingly violates

subsections of these rules concerning the publication of testimony taken at a closed hearing, shall be in contempt of the Legislature or, if a member of the Legislature, shall be subject to sanction or suspension according to the statutes governing the Legislature. The speaker on his or her own motion or on the application of any person claiming to have been injured or prejudiced by an unauthorized disclosure may institute proceedings for the determination of the issue and for the imposition of penalties provided herein. Nothing in this subsection shall limit any power which the Legislature may have to discipline a member or employee or to impose a penalty in the absence of action by a prosecuting officer or court.

(I) Limitation of Rules.

Nothing contained in this section shall be construed to limit or prohibit the acquisition of evidence or information by any committee by any lawful means not provided for herein.

All such studies authorized by the Legislature shall be referred to the appropriate permanent standing or special committee by the Executive Board. The chief introducer of a study resolution shall, if not otherwise a member of the committee to which the resolution is assigned, be an ex officio member of said committee, but such membership shall not extend beyond the convening of the next legislative session and shall be limited to a study of that resolution only.

RRS 50-404.

Sec. 4. Enrollment and Review, Amended Resolutions. All resolutions, if amended, shall pass through the process of Enrollment and Review in the regular course of their consideration.

Sec. 6. Resolutions, Lay Over Requirement. Resolutions shall lay over for consideration at least one legislative day after introduction.

Sec. 7. Engrossed Resolutions. Only those resolutions specified in Sections 2 and 3 of this rule shall be engrossed unless otherwise ordered by the Legislature or unless the Clerk determines the nature of the resolution is such that upon its adoption it must be engrossed to properly achieve the purpose for which it was presented. All resolutions which are engrossed shall be enrolled and signed by the Lieutenant Governor or Speaker and certified to by the Clerk as to the date of final passage.

Const. Art. III, Sec. 14.

Sec. 8. Reference to Committee. Resolutions other than those covered by Sections 2 and 3 of this rule shall be referred to the Reference Committee for referencing to the appropriate committee upon the recommendation of the Speaker of the Legislature.

The provisions of this section shall not apply to resolutions considered as bills pursuant to Rule 4, Section 2.

Sec. 10. Committee Statement. A committee, when reporting out a resolution, shall attach thereto a statement setting forth what is sought to be accomplished and the committee vote. The statement shall be set out in full in the Journal.

RULE 5--BILLS--GENERAL PROVISIONS

Section 1. Drafting of Bills. The Bill Drafter shall prepare all bills and amendments in proper form when requested by members of the Legislature, newly elected members of the Legislature, or heads of executive departments. No bills or major amendments shall be introduced or considered unless the same has been approved as to form and draftsmanship by the Bill Drafter. In order to shorten the length of sections, the Bill Drafter shall, in the drafting of new sections, make each paragraph a separate section except when to do so would be contrary to sound bill drafting practice. The Bill Drafter shall make available a continuing compilation of sections to which amendments are proposed so as to reduce unnecessary duplication of bills. This section index of bills drafted shall be available to all senators, newly elected senators, and other persons entitled to have bills drafted. After January 1 of each year no bill shall be drafted by the Bill Drafter unless requested or authorized by a member of the Legislature.

Sec. 2. Content and Form of Bills. (a) A bill shall be designated as Legislative Bill _____.

Style of bill. Const. Art. III, Sec. 13.

(b) No bill shall contain more than one subject and the same shall be clearly expressed in the title. No law shall be amended, unless the new act contains the section or sections as amended, and the section or sections so amended shall be repealed.

Const. Art. III, Sec. 13.

(c) An amendatory bill or constitutional provision shall be so prepared and printed as to show the new matter proposed, old matter to be retained, and old matter to be omitted from the statutes or constitution.

(d) Appropriations bills and "A" bills shall contain the following elements:

(1) the phrase "there is hereby appropriated";

(2) a specific fund type shall be identified and the fund shall be appropriated;

(3) the amount to be appropriated from such fund shall be identified;

(4) a specific budget program or a specific statement reflecting the purpose for expending such funds shall be identified; and

(5) the time period during which such funds shall be expended shall be identified.

RRS 49-804.

Sec. 3. Revisor Correctional Bills, Preprinting. (a) Preceding each legislative session, the Chairperson or any member of the Executive Board of the Legislative Council, or if the Executive Board so requests, the senator who, in the preceding session served as Chairperson of the Judiciary Committee, shall sign as introducer the Revisor of Statutes' correctional bills. The Clerk of the Legislature shall number these bills consecutively beginning with number 1 and shall show the committee reference to be General File. The Clerk of the Legislature shall have these bills printed before the convening of the next regular session.

(b) In addition to causing to be printed the revisor bills, the Clerk shall number and cause to be printed all bills delivered to him or her by the Executive Board, provided said Board has referred said bills to a standing committee. No bill so printed shall be withdrawn until after the Legislature convenes.

Sec. 4. Introducers Signing Bills. (a) Members shall introduce only such bills as they are willing to endorse and support personally. The last name and district shall be used, unless an initial or name is necessary to identify the introducer.

(b) A standing committee or special committee may introduce a bill for any purpose, including at the request of another senator, provided said bill receives the endorsement of a majority of the committee members whose names shall be on the bill.

(c) No bill shall be introduced after the tenth legislative day of any session, except:

1. "A" bills, appropriation bills, and bills introduced at the request of the Governor may be introduced at any time;

2. A standing committee or special committee may request that the Legislature consider introduction of a bill. A vote of three-fifths of the elected members of the Legislature shall be required for such bill to be introduced, and a copy of the statement of intent for such bill must be placed on each member's desk before introduction of the bill is voted upon;

3. A special committee as created by the Executive Board on December 10, 1983, regarding the Commonwealth investigation and matters related thereto, may introduce bills at any time during the course of the 1984 Legislative Session. Said bills to be introduced must receive endorsement of a majority of the committee members whose names shall appear on the bill in order to fall within the purview of this section.

(d) Individual members shall not be limited as to bill introduction. Each committee shall be limited to 8 bills each session. Bills introduced as a result of an interim study of the Legislative Council shall be included within the limitations prescribed by this section. Special committees created as a result of an interim study resolution and as authorized by the Executive Board shall be considered as separate committees for purposes of the limitations prescribed by this section. Bills introduced under Rule 5, Section 3(a) and bills introduced at the request of the Governor will not be included in the limitation.

(e) The introducers of all bills must submit a statement of intent for each bill to the appropriate committee chairperson at least 24 hours prior to the bill's hearing. The statement of intent should discuss clearly and completely the purposes and effects of the bill.

Sec. 5. Scheduling of Bills, Priority Bills. (a) Each senator may designate one bill as a priority bill. Such priority bill need not be the designator's bill, but the principal introducer must concur with the designation as a priority bill and with the withdrawal of the designation once made.

(b) Each chairperson of those committees which are authorized to hold public hearings on bills may designate two of the committee's bills as priority bills.

(c) The Speaker may designate up to 25 additional priority bills.

(d) Priority bill designations may be made at any time prior to the annual designation deadline which shall be set each year by the Speaker. The designation deadline shall be prior to the 45th legislative day in the ninety day session and prior to the 30th legislative day in the sixty day session.

(e) A senator or committee may withdraw a priority designation at any time, but will not be allowed to designate another bill as a priority bill in its place. The Speaker may withdraw a priority designation made by the Speaker.

(f) All committees shall schedule priority bills for public hearing ahead of all unscheduled, nonpriority bills unless the person or committee making the priority designation shall otherwise agree.

(g) All bills not designated as priority bills shall be heard on General File in the order in which they are reported to the floor by the committees, unless the introducer of the bill and the Speaker agree to delay the hearing of a particular bill. This provision shall not be construed to prevent the Speaker from placing bills reported out of committee with two or less dissenting votes on a consent calendar. Any bill placed on consent calendar shall be removed at the written request of three or more senators.

(h) Priority bills shall generally be considered ahead of all other bills at each stage of debate, except that priority bills requiring the expenditure of appropriated funds shall be held on Final Reading until such time as the annual appropriations bills have been passed. A priority bill which fails to advance after two votes on General File, or after one vote on Select File, shall return to nonpriority status.

(i) No priority bill designated under this rule shall have priority over appropriations bills.

Sec. 6. Fiscal Analyst. (a) A copy of every bill introduced shall be transmitted by the Clerk to the Legislative Fiscal Analyst. The Legislative Fiscal Analyst shall review each bill and make an estimate of the anticipated change in state, county, or municipal expenditures or revenue under the provisions of the bill. The Legislative Fiscal Analyst shall prepare a statement to be known as a fiscal note to be attached to each bill prior to its public hearing by a committee, or its first consideration on General File if the bill is referred directly to General File. The fiscal note shall set forth the fiscal impact of the bill and the governmental subdivision affected by the fiscal impact as determined by the Legislative Fiscal Analyst. No bill which has a fiscal impact shall be heard by a committee or considered on General File unless the fiscal note is attached.

(b) In determining the fiscal impact of any bill, the Legislative Fiscal Analyst shall request the appropriate department or other entity of state government or subdivision thereof, or appropriate association which will be affected by the bill, to prepare the fiscal note within five calendar days.

(c) The Legislative Fiscal Analyst shall review the fiscal note so prepared and shall also request a review of such fiscal note by the Budget Division of the Department of Administrative Services. The statement by the Budget Division of the Department of Administrative Services shall be attached to and become a part of the fiscal note. The Legislative Fiscal Analyst shall include in the fiscal note any exceptions to the conclusions of the department or other entity and of the Budget Division of the Department of Administrative Services.

(d) The fiscal note shall be delivered by the Legislative Fiscal Analyst to the Clerk within ten calendar days of receipt of a copy of the bill for analysis. The Clerk shall attach the fiscal note to the bill and to all copies prepared for members.

(e) When amendments to a bill are adopted by the Legislature and such amendments would change the fiscal impact of the bill, the appropriate changes shall be made in the fiscal note each time the bill is advanced to Enrollment and Review or upon the written request of a member of the Legislature.

(f) When any bill proposes adoption of a new program or change of an existing program either of which would require an appropriation to implement in the ensuing fiscal year, an appropriation bill for the purposes of funding the provisions of such bill shall be prepared from the information contained in the fiscal note. Such appropriation bill shall be prepared at the direction of the Chairperson of the Appropriations Committee. Such bill shall be placed on General File and considered as introduced by the introducer of the original bill or by the committee which offered the amendments creating the expenditure, and shall bear the number of the original bill with the letter "A" added, and shall accompany the original bill through all stages of the legislative process. All bills for which an "A" bill is prepared shall be bracketed on Final Reading until the "A" bill is advanced to Final Reading.

(e) At any stage of consideration of a bill, a motion to bracket or to bracket to a day certain or to unbracket shall, if made by the primary introducer of the bill, require a majority of those voting. The unfinished business in which the Legislature was engaged at the

adjournment of the last preceding sitting shall have preference in the special order of the day.

(e) Upon call for the introduction of bills, any member or any standing committee to which bills are referred for consideration may introduce one or more bills.

(B) Voting Machine

Sec. 2. Voting, Electric Roll Call. (a) All votes shall be taken viva voca unless otherwise provided for herein. Questions shall be distinctly put in this form, to wit: "Those who are in favor of the question say 'aye'; those who are opposed to the question say 'nay.' "

(b) If a machine vote is called for or if the presiding officer is in doubt, he or she shall cause the result to be obtained by means of the electric roll call system, and in such event shall accept only machine tallied votes except that voice votes shall be accepted on a motion before the house while the house is under call. The presiding officer may vote by voice. Only the totals shall be printed in the Journal. Once having voted aye or nay, senators may call in a change to not voting prior to the locking of the voting board.

(c) Upon the final passage of a bill, or of a resolution if the same required the same consideration as a bill, the vote shall be by yeas and nays, and the electric roll call system shall be used. Voice votes shall be accepted on Final Reading.

(d) Whenever the "ayes" and "nays" are taken by machine vote, no member shall be permitted to vote after the decision is announced by the presiding officer or the Clerk. Votes not registered on the electric roll call system shall not be counted for or against a proposition. In announcing such vote, the Clerk shall announce the ayes, the nays, those present and not voting, those absent and not voting, and those excused and not voting, and on any action to advance or amend bills, these totals shall be set forth in the Journal. Voice votes shall be accepted on roll call or record votes.

(e) Only senators physically in the legislative chamber may vote.

(C) Motions

Sec. 3. Motion, in Writing, Withdrawal. (a) A motion shall be either stated by the presiding officer or read by the Clerk before a vote is taken. All motions shall be submitted in writing if requested by the presiding officer or any senator.

Once motions are stated they may be withdrawn or modified by the mover before a decision, amendment, or ordering of a vote has been made. A motion to reconsider may be withdrawn only with unanimous consent or a majority vote of the elected members.

When a question is under debate, no motion shall be considered except one of the following, which motions shall take precedence in the order stated.

a. To adjourn
b. For the previous question
c. To postpone to a time certain
d. To recommit to a committee
e. To amend
f. To postpone indefinitely

Such motions shall have precedence in the order in which they are arranged, except that motions to postpone indefinitely and amend do not yield to each other.

When any of the following motions shall be made, any action on such motion shall be delayed at least one legislative day and the motion shall be printed in the Legislative Journal:

a. Motion to postpone indefinitely on General File or Select File, unless the introducer(s) of the bill, or the committee chairperson in the case of committee bills, request(s) that the motion to postpone indefinitely be considered immediately without the one day delay.
b. Motion to advance bills from committee.
c. Motion to place bills on General File, notwithstanding the action of a standing committee.

(b) When a motion or other proposition is under consideration, a motion to amend and a motion to amend that amendment shall be in order.

(c) Amendments to the title shall be made by the Enrollment and Review Committee.

(d) No motion, proposition, or subject, different from that under consideration, shall be admitted under color of amendment. Any amendment that is not germane is out of order. Germane amendments relate only to details of the specific subject of the bill and must be in a natural and logical sequence to the subject matter of the original proposal. A nongermane amendment includes one that relates to a substantially different subject or accomplishes substantially different purpose than that of the original bill to which it is proposed.

(e) Any member may call for the division of a question, which shall be divided if it comprehends propositions in substance so distinct that, one being taken away, a substantive proposition shall remain for the decision of the Legislature. A motion to strike out and insert shall be deemed indivisible, but a motion to strike out being lost, shall not preclude an amendment or a motion to strike out or insert.

(f) When motions are made for reference of the same subject to a select committee and to a standing committee, the question on reference to the standing committee shall be considered first.

Sec. 4. Shall the Debate Cease. The previous question shall be in this form, "Shall the debate now close?"

The previous question shall be made only in the normal course of speaking order and shall be in order when demanded by five or more members, and must be sustained by the vote of a majority of the elected members, and until decided shall, except as provided in this section of this rule, preclude further debate and all amendments and motions, except one motion to adjourn. The presiding officer may rule the previous question out of order if in the presiding officer's opinion a full and fair debate has not been afforded, due to the complexity of the subject matter. The ruling of the presiding officer shall be subject to overrule in accordance with Rule 1, Section 12 of these rules.

On a previous question there shall be no debate. All incidental questions of order, arising after a motion is made for a previous

question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

When the previous question shall have been ordered on a proposition under debate, the mover, proponent, or introducer of such proposition shall be given the right to close the debate thereon.

Sec. 5. Call of the House. A call of the house may be made by any member in the manner following: "I move for a call of the house." The presiding officer shall direct that the board be cleared and the members shall then vote on placing themselves under call. If a majority of the senators present and voting, vote in favor of such a motion, then the Legislature shall be deemed to be under call. Each member present shall indicate his or her presence upon the electric roll call system and shall remain in his or her seat during the call. After the Clerk shall note the names of the absentees, proceedings under the call may be suspended at any time by a majority vote of the members then present, and when so suspended shall not again be ordered on the proposition pending, except by a majority vote of the members elected. If all absentees were to vote on one side of the question, and if their combined vote would be insufficient to change the result of the vote, the President shall declare the call raised.

Lieutenant Governor votes only when Legislature equally divided. Rule 1, Section 14.
Voice vote while house under call. Rule 7, Section 2b.

Sec. 6. Postpone to Time Certain. No motion to postpone to a time certain, to commit, or to postpone indefinitely being decided, shall again be allowed on the same day at the same stage of the bill or proposition.

Sec. 7. Reconsideration. (a) When a question has been decided, it shall be in order for any member voting with the prevailing side, or not voting, to move for a reconsideration thereof. A motion to reconsider must be made on the same day the original question was decided or on the next legislative day, except when it be to reconsider the vote on a bill which lacked the constitutional majority on a Final Reading. In such case, it must be made on the same day the original question was decided or on one of the next three legislative days. A motion to reconsider must be disposed of by the Legislature within five legislative days after making the same or it shall be deemed defeated. If the Legislature shall refuse to reconsider, or upon reconsideration

shall affirm its first decision, no further motion to reconsider shall be in order unless by unanimous consent.

Motion to reconsider cannot be withdrawn without leave. Rule 7, Section 3.

(b) Every motion to reconsider shall take preference over all other questions, except a motion to adjourn.

(c) For its adoption, a motion to reconsider shall require the vote of a majority of the elected members, except:

i Where such motion be to reconsider the vote on a bill which lacked the constitutional majority on a Final Reading, then a three-fifths vote shall be required for adoption.

ii Where such motion be to reconsider the vote on a bill which lacked the constitutional majority on a Final Reading with the emergency clause attached, but which received the constitutional majority with the emergency clause stricken and the purpose of the motion is to again add the emergency clause, then a two-thirds vote of the elected members shall be required for adoption.

(d) For a bill on General File, no motion to reconsider shall be in order until the bill has failed to advance three times; for a bill on Select File, no motion to reconsider shall be in order until the bill has failed to advance two times; for a bill passed on Final Reading, no motion to reconsider shall be in order except by the introducer of the bill, for technical or clarifying amendments.

(e) Whenever a bill is returned from the Governor for further action pursuant to the Legislature's request for such return, motions for reconsideration necessarily incident to opening a bill for further action shall be admitted regardless of the time limitation otherwise imposed by this rule.

Sec. 8. Strike the Enacting Clause. A motion to strike the enacting clause, if adopted, is equivalent to rejection of the bill. It shall not have precedence over a motion to amend nor a motion to indefinitely postpone.

Sec. 9. Motion to Adjourn. A motion to adjourn shall be in order, except:

a. While a member is speaking.
b. When a motion to adjourn has just been defeated.
c. After the Final Reading of a bill and during roll call thereon.

A motion to adjourn to a time certain shall have precedence over a motion to adjourn. A motion to recess shall take precedence over either of such motions.

When a motion to adjourn or recess has been made, the Speaker shall be privileged to speak to the motion prior to any vote on such motion. A motion to adjourn or recess is not debatable.

A motion to adjourn or recess shall be adopted if approved by a majority of members voting.

RULE 8--APPROPRIATIONS PROCESS

Sec. 4. Standing Committee Appropriations Review. The chairperson of the standing committee shall coordinate the scheduling of such hearings with the Chairperson of the Appropriations Committee. The standing committee shall obtain a determination from the Executive Board that the budget to be reviewed is within its subject matter jurisdiction. It may make recommendations with regard to proposed appropriations to the Appropriations Committee.

(b) The chairperson of each committee may, when the budget review hearing on each agency, board, and commission is complete,

submit a standing committee appropriations review statement which shall contain, but need not be limited to, the following information:

(1) the identity of the agency, board, or commission budget reviewed,

(2) the date of the hearing,

(3) a list of all the individuals testifying with regard to the budget,

(4) a summary of requested and proposed changes to the original agency, board, or commission budget, and

(5) a summary and explanation of standing committee recommendations on the agency, board, or commission budget in such form as the standing committee deems appropriate.

(c) A copy of the proposed standing committee appropriations review statement shall be distributed to each committee member within five days after final committee action on the budget review hearing has been taken by the committee. A minority or concurring statement bearing the signature or signatures of its proponents and setting forth objections to the standing committee appropriations review statement may be filed by its author(s) with the Clerk of the Legislature at any time prior to the first hearing of the Appropriations Bill on General File.

(d) A copy of the standing committee appropriations review statement and any minority statements submitted shall be distributed to each senator after filing one copy with the Appropriations Committee Chairperson and one with the Clerk of the Legislature. Distribution to senators shall be the responsibility of the Clerk of the Legislature.

(e) The Appropriations Committee shall review each standing committee appropriations review statement prior to final action by the Appropriations Committee and placement of the appropriations bills on General File, if such statement is received prior to final action on the permanent budget. The Appropriations Committee shall not be bound to adopt the recommendations in the standing committee appropriations review statement.

(f) The Appropriations Committee shall make available to the appropriate standing committee all currently available information at its disposal.

Sec. 5. Bills, Held on Final Reading. The report of the Appropriations Committee shall include a recommended dollar amount of the

General Fund biennium appropriation which shall be allocated for the funding of "A" bills, bills that result in the net reduction of revenue to the General Fund, tax expenditure bills, and amendments to the appropriations bills as reported to General File by the Appropriations Committee. All "A" bills which, when considered with their companion bill, appropriate general funds resulting in a net loss; all bills resulting in the reduction of revenue to the General Fund; and all tax expenditure bills shall not be read on Final Reading until the appropriations bills are passed by the Legislature. Provided the Appropriations Committee shall place appropriations bills on General File no later than the 70th legislative day in a 90 day session and the 40th legislative day in a 60 day session. If this deadline is not met, the Legislature shall consider the appropriations bills as introduced by the Governor. The appropriations bills shall be passed no later than the 80th legislative day in a 90 day session and the 50th legislative day in a 60 day session. The appropriation provided for in an "A" bill shall be for not less than two fiscal years.

Sec. 6. Bill, Setting Tax Rates. The Legislature's tax rate bill shall be passed no later than the 85th legislative day in a 90 day session and the 55th legislative day in a 60 day session.

RULE 9--SPECIAL SESSIONS

Section 1. Purpose. The purpose of this rule is to establish special procedures for the Legislature to utilize during a special session. This rule recognizes the necessity of the Legislature to address the business for which it is called together in an expeditious and fair fashion and provides that certain legislative procedures established for regular sessions shall not unduly burden the activities of the Legislature during a special session.

Sec. 2. Convening of the Legislature. Pursuant to the directive contained in the proclamation issued by the Governor, either upon the concurrence of two-thirds of the members of the Legislature according to the procedure established by section 50-125 or upon the call of the Governor under the authority of Article IV, section 8, of the Nebraska Constitution, the Legislature shall convene in special session. The first item of business shall be the introduction of bills and resolutions, both of which shall be numbered consecutively beginning with the number one. Bills and resolutions offered by the Speaker at the request of the Governor or offered pursuant to the statement filed with the Secretary of State and agreed to by two-thirds of the members of the Legislature shall be introduced ahead of all other proposals. After introduction, all bills and resolutions shall be handled in the manner provided in this rule. Bills and resolutions shall be introduced only during the first three days of the session.

Sec. 3. Committee Hearings. Within one legislative day following the introduction of bills and resolutions, the Reference Committee shall review each bill and resolution and refer the matter to the appropriate standing committee. The committee to which the bill or resolution is referred shall provide as much public notice of the time and place of the hearing on the matter as is reasonable under the circumstances by publication in the Legislative Journal, but in no case shall the hearing be more than five calendar days after the date the bill or resolution has been referred to the committee.

Sec. 4. Report of Bill or Resolution to Legislature. The committee to which a bill or resolution has been referred shall make a report on the bill or resolution to the Legislature within twenty-four hours after the committee has taken final action on the matter. If, at the expiration of twenty-four hours from the time final action was taken, the chairperson has not reported the bill or resolution, any senator may file with the Speaker a motion that the chairperson be compelled to

submit a report. After determining that final action on the bill or resolution has been taken at least twenty-four hours prior to the time the motion was submitted, the Speaker shall accept the motion and compel the chairperson to file the committee's report on the matter.

Sec. 5. Indefinitely Postponed Bills and Resolutions. If the committee action on a bill or resolution is to postpone indefinitely, the bill shall stand indefinitely postponed, except that such bill or resolution may be placed on General File or referred back to the committee by a majority vote of the elected members. Not more than one bill or resolution shall be raised from committee on any one motion. A motion to raise shall not be amended to include any other bill, resolution, or subject matter. A motion to raise shall take precedence in order over all other motions, except a motion to adjourn.

Sec. 6. Bills and Resolutions Held by Committee. If the committee has not taken final action on a bill or resolution within two days after the committee hearing, any senator may move that the bill or resolution be placed on General File. If a majority of the elected members vote in favor of the motion, the bill shall be placed on General File.

Sec. 7. Pending Proposals Indefinitely Postponed. At the conclusion of a special session, all bills and resolutions which have not been enacted shall stand indefinitely postponed and shall not carry over to the next legislative session.

Sec. 8. Rules Controlling When Conflict Exists. When a conflict exists between the provisions of this rule and other provisions of the Rules of the Nebraska Legislature, the provisions of this rule shall apply.

CARRYOVER RESOLUTIONS

LEGISLATIVE RESOLUTION 1.

Introduced by Warner, 25th District; Hartnett, 45th District; L. Johnson, 15th District.

WHEREAS, federal courts have ordered various petroleum producers to refund to consumers of petroleum products overcharges they made to the consumers on petroleum products sold during the period of time federal price controls on such products were in effect;

WHEREAS, these refunds have been allocated by the federal courts to the State of Nebraska on behalf of the petroleum consumers within the state for distribution for energy conservation and restitutionary purposes;

WHEREAS, the Legislature acknowledges that through the federal court orders various restrictions and conditions have been placed on the allowable uses of these overcharge funds, including approval by the federal court or United Stated Department of Energy of proposed uses;

WHEREAS, although initial plans for uses of some of these overcharge funds have been submitted to the United States Department of Energy for approval, final approval and assurances have not yet been received from the department;

WHEREAS, the Legislature acknowledges the existence of time constraints on the state's determination of how these funds should be used and consequently the need for prompt completion by the state of this responsibility;

WHEREAS, the Legislature acknowledges that selection of the projects for which the overcharge funds may be used rests initially and primarily with the Governor and his or her designee;

WHEREAS, however, the Legislature as representatives of the people of the State of Nebraska has a legitimate interest in how the proposed uses of these overcharge funds would best benefit the public and provide restitution to petroleum consumers;

WHEREAS, the Legislature as sole appropriating authority of these funds in the state treasury has a legitimate interest in considering possible future fiscal impacts to the state that may result from proposed uses of these funds;

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature has a responsibility to ensure that there is public accountability for determination of the uses of these energy

overcharge funds;

2. That the Legislature respectfully requests that the Governor and Attorney General of the State of Nebraska not approve the disbursement of any of these energy overcharge funds until the Legislature has had an opportunity to promptly consider appropriate legislation to establish a procedure and policy for the state's determination and selection of the uses, and the Legislature's appropriation, of these funds.

CXIII-2 "Notwithstanding any other provision in the Constitution, the Legislature may authorize any county, or incorporated city or village, including cities operating under home rule charters, to acquire, own, develop, and lease real and personal property suitable for use by manufacturing or industrial enterprises and to issue revenue bonds for the purpose of defraying the cost of acquiring and developing such property by construction, purchase, or otherwise. Such bonds shall not become general obligation bonds of the governmental subdivision by which such bonds are issued. Any real or personal property acquired, owned, developed, or used by any such county, city, or village pursuant to this section, shall be subject to taxation to the same extent as private property during the time it is leased to or held by private interests, notwithstanding the provisions of Article VIII, section 2, of the Constitution. The acquiring, owning, developing, and leasing of such property shall be deemed for a public purpose, but the governmental subdivision shall not have the right to acquire such property by condemnation. The principal of and interest on any bonds issued may be secured by a pledge of the lease and the revenue therefrom and by mortgage upon

such property. No such governmental subdivision shall have the power to operate any such property as a business or in any manner except as the lessor thereof. The Legislature may also authorize any incorporated city or village, including cities operating under home rule charters, to appropriate from its general fund such sums of money as may be deemed necessary for an economic or industrial development project or program, subject to approval by a majority vote of the qualified electors of such city or village voting upon the question.".

LEGISLATIVE RESOLUTION 22CA.

Introduced by Hefner, 19th District.

A Resolution to propose an amendment to Article III, section 22, of the Constitution of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, FIRST SESSION:

Section 1. That at the general election in November 1988 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article III, section 22, of the Constitution of Nebraska, which is hereby proposed by the Legislature:

CIII-22 "Each Legislature shall make appropriations for the expenses of the Government. And whenever it is deemed necessary to make further appropriations for deficiencies, the same shall require a two-thirds vote of all the members elected to the Legislature. Bills making appropriations for the pay of members and officers of the Legislature, and for the salaries of the officers of the Government, shall contain no provision on any other subject.

After January 1, 1989, if the Legislature requires that any new program or service be provided by any municipality, county, or other political subdivision or if the Legislature requires the expansion of or a change in any existing program or service, which creation, expansion, or change will result in an increased expenditure of funds by the affected political subdivision, the Legislature shall appropriate the necessary funds for the benefit of the affected political subdivision each and every year during which the program or service is required to continue, except that if any municipality, county, or other political subdivision requests the Legislature to create, expand, or change any program or service, the Legislature shall not be required to appropriate the funds necessary to fund the created, expanded, or changed program or service.

After January 1, 1989, if the Legislature removes property from the tax base of any political subdivision or reduces the taxing allowance or authority of any political subdivision, the Legislature shall appropriate funds to the affected political subdivision in an amount equivalent to the revenue lost to such political subdivision as a result of such removal or reduction each and every year during which the removal or reduction remains in effect.".

Sec. 2. The proposed amendment shall be submitted to the electors in the manner prescribed by Article XVI, section 1, of the Constitution of Nebraska. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

"A constitutional amendment to require the Legislature to appropriate funds for certain newly created, expanded, or changed programs and services provided by political subdivisions and for revenue lost by political subdivisions due to tax exemptions or reduced taxing allowance or authority.

For

Against".

LEGISLATIVE RESOLUTION 29.

Introduced by Dierks, 40th District; Hefner, 19th District.

WHEREAS, the technical and economic feasibility of using shelled corn as a boiler fuel in place of coal should be explored and encouraged; and

WHEREAS, given the low price of corn, the surplus of corn, and

the pollution which results from the burning of coal, corn is an attractive substitute for coal for purposes of providing boiler fuel; and

WHEREAS, the development of corn as a boiler fuel could reduce our dependence on foreign sources of energy which are costly and unreliable; and

WHEREAS, the University of Nebraska, the public power districts, and the Corn Development, Utilization, and Marketing Board are encouraged to explore the use of shelled corn as a boiler fuel.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature encourages the development of shelled corn as a boiler fuel.

2. That all of the public power districts operating coal fired power plants in Nebraska begin using a mixture of 5% corn with coal, as soon as possible, so that corn surpluses may be productively utilized.

3. That a copy of this resolution be sent to the Board of Regents of the University of Nebraska, the Corn Development, Utilization, and Marketing Board, and the governing boards of public power districts.

Dear Governor Orr:

This is to inform you that I wish to resign from my 22nd District legislative seat, effective December 31, 1987.

I have enjoyed representing my constituents in state government for the past five years, so I resign with some reluctance.

We speak constantly of economic development, the health and welfare of our citizens, education and just building a better Nebraska. I now recognize that much of this can be accomplished only with a strong state university system, and I look forward to helping maintain that.

Thank you.

Sincerely,
(Signed) Lee Rupp

ATTORNEY GENERAL'S OPINIONS

Opinion No. 87092

DATE: July 21, 1987

SUBJECT: Is an amendatory bill passed by the Legislature which incorrectly cites the sections which it amends constitutional under Article III, Section

14 of our State Constitution? If so, what language should be printed in the Nebraska Revised Statutes when the amendatory bill which was passed contains outdated statutory language?

REQUESTED BY: Joanne M. Pepperl
Revisor of Statutes and Bill Drafter
Nebraska Unicameral Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

In 1985, the First Session of the Eighty-Ninth Nebraska Legislature passed LB 496 which was duly signed by the Governor on June 5, 1985. That bill, which generally required seat belts to be worn in an automobile, contained seven separate sections which were placed in the Nebraska Revised Statutes by the Revisor of Statutes at Neb.Rev.Stat. §§39-6,103.04 through 6,103.08, and at Neb.Rev.Stat. §§39-669.26 and 39-6,171. The operative language of the bill requiring the use of seat belts was set out at §39-6,103.04. The 1985 Cumulative Supplement to the Nebraska statutes contained LB 496 within those various sections.

Subsequent to the passage of LB 496, there was a successful referendum petition drive to submit section 1 of the bill to the voters for their approval or rejection. Since that referendum was scheduled for November, 1986, the 1986 Cumulative Supplement to the Nebraska statutes published in the summer of 1986 contained the language of LB 496 then still in force.

On November 4, 1986, the Nebraska voters repealed section 1 of LB 496. All other sections of LB 496 were unchanged by the voter referendum, and remained in effect as set out in the Cumulative Supplement of 1986.

In 1987, the First Session of the Ninetieth Nebraska Legislature passed LB 430 and later, LB 224, which amended Neb.Rev.Stat. §39-669.26 pertaining to the Nebraska point system for drivers licenses. Although the version of §39-669.26 contained in LB 496 and the 1986 Cumulative Supplement remained in effect, the bill drafter, through inadvertence, used the outdated language of the 1984 Reissue §39-669.26 in those 1987 bills, and referred to the 1984 Reissue section number in naming the sections amended. In light of this error, you have now asked whether LB 430 and LB 224 were passed in violation of Article III, Section 14 of our State Constitution which provides, in part, "And no law shall be amended unless the new act

contain the section or sections as amended and the section or sections so amended shall be repealed." You have also inquired as to what version of §39-669.26 should be included in the 1987 Cumulative Supplement to the Nebraska Revised Statutes.

At the outset, several general rules established by our Supreme Court have application to the questions which you have raised. First of all, there is a presumption of the constitutionality of a statute duly enacted by the Legislature, and any reasonable doubt must be resolved in favor of its constitutionality. Bodenstedt v. Rickers, 189 Neb. 407, 203 N.W.2d 110 (1972); Board of Commissioners of the County of Sarpy v. McNally, 168 Neb. 23, 95 N.W.2d 153 (1959). The constitutional provisions dealing with amendments should receive a reasonable and liberal construction with a view to upholding the acts of the Legislature. State ex rel. Kaspar v. Lehmkuhl, 127 Neb. 812, 257 N.W. 229 (1934). The purpose of the provisions contained in Article III, Section 14 of our State Constitution is to prevent surreptitious legislation and impermissible confusion in the enactment of amendatory statutes, and to provide certainty in legislation. Bodenstadt v. Rickers, supra; Midwest Popcorn Company v. Johnson, 152 Neb. 867, 43 N.W.2d 174 (1950).

Your first question concerning the constitutionality of LB 430 and LB 224 is based upon their failure, through inadvertence, to name the proper sections which they amended as required by Article III, Section 14 of our State Constitution. (Both bills should have indicated that they amended §39-669.26 of the Cumulative Supplement of 1986 rather than §39-669.26 of the 1984 Reissue volume, and both bills should have included language from the 1986 Cumulative Supplement.) In an early case, our Supreme Court indicated that all that is required by the language in our Constitution concerning amendments to bills is that the amendments are plain and may be carried out, even though the section numbers of the original act and of the amendments are in confusion. State v. Babcock, 21 Neb. 599, 33 N.W. 247 (1887). If the amendments in question are not inductive of surreptitious legislation, then Article III, Section 14 is not violated. Mehrens v. Greenleaf, 119 Neb. 82, 227 N.W. 325 (1929). It is our view that the amendments in LB 430 and in LB 224 are plain, and that it is clear which section of our statutes they intend to amend. It is also our view that the situation here is not, in any way, conducive to the passage of surreptitious legislation. Consequently, we believe that the passage of LB 430 and the passage of LB 224 were constitutional.

Our conclusion as to the constitutionality of these most recent amendments to §39-669.26 is bolstered by several older Nebraska cases where the facts before our Supreme Court were similar to the

present instance. Those cases also offer guidance as to your second question concerning what language is now appropriate for §39-669.26 in the 1987 Cumulative Supplement.

In Fenton v. Yule, 27 Neb. 758, 43 N.W. 1,140 (1889), our Supreme Court considered the propriety of an amendatory act, passed in 1889, the title of which indicated that it was to amend certain sections of the Compiled Statutes of 1887. The Compiled Statutes in question included the language of a bill passed on March 30, 1887, and ignored the language of another superseding amendment to the same section passed on March 31, 1887. Therefore, the amendatory reference, as in the present case, was to statutory sections already superseded. The court held the Act of 1889 to be valid, and also held that the 1889 amendment was directed to the March 31, 1887 Act rather than to the March 30, 1887 Act even though the March 30, 1887 Act was set out in the Compiled Statutes which were referenced.

In State v. City of Kearney, 49 Neb. 325, 68 N.W. 533 (1896) and in State v. City of Wahoo, 62 Neb. 40, 86 N.W. 923 (1901), the Nebraska Supreme Court considered the same sequence of amendatory bills. On March 10, 1885, the Legislature passed a bill to amend "Section 69 of the Act of 1879." That 1879 statute had been amended in 1881 and again on March 2, 1885, yet no reference to those later amendments was made, and the 1885 Act, in effect, referred to a repealed statute. In State v. City of Kearney, supra, the Supreme Court held that the March 10, 1885 Amendment was valid. In State v. City of Wahoo, supra, the Court held that the March 10, 1885 Amendment "superseded" the March 2, 1885 Act at least so far as the two were in conflict.

On the basis of these various cases, it is our opinion that LB 430 and LB 224 amended the 1986 Cumulative Supplement version of §39-669.26, even though the title referenced and bill language itself referred to the 1984 Reissue version of that section. It is further our opinion that the language of LB 430 and LB 224 superseded the 1986 Cumulative Supplement language from LB 496 to the extent that they are inconsistent. We therefore recommend that you print the language of LB 224, as the conformed version of LB 430 and LB 224, in the 1987 Supplement without any language from LB 496 or the 1986 Cumulative Supplement.

Sincerely yours,
ROBERT M. SPIRE

DATE: July 30, 1987

SUBJECT: Osteopaths as Health Care Providers Under the Hospital-Medical Liability Act, Neb.Rev.Stat. §§44-2801 to 44-2855

REQUESTED BY: Senator Rex Haberman
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Marilyn B. Hutchinson, Assistant Attorney General

You have asked whether legislation is needed to assure that an osteopath comes within the definition of "physician" in Neb.Rev.Stat. §44-2804 so that he or she is a "health care provider" under Neb.Rev.Stat. §44-2803 who may qualify as provided in §44-2824 for limited personal liability under the Hospital-Medical Liability Act. Then any excess judgment against him or her would be paid from the Excess Liability Fund unless a patient elected not to come under the act as provided in §44-2821. As discussed below, we have concluded that clarifying legislation is needed.

"Physician" is defined as "a person with an unlimited license to practice medicine in this state pursuant to sections 71-1,102 to 71-1,107.14." (Emphasis added.) Neb.Rev.Stat. §44-2804. That definition is controlling. See, Neb.Rev.Stat. §44-2802.

Under §71-1,141, the scope of practice under an osteopathy license depends upon when the licensee graduated from osteopathy college and which examinations he or she has successfully passed. The maximum scope of practice is the license to practice osteopathic medicine and surgery. That is the one issued under §71-1,139.01 which requires not only passing of the examination for physicians and surgeons but also two years of postgraduate training in surgery. Such an osteopath may engage in the unlimited practice of medicine and surgery, the same as any one licensed to practice medicine and surgery; other osteopaths may not.

The confusion in the definition of "physician" arises because a license to practice osteopathic medicine and surgery is not issued

"pursuant to sections 71-1,102 to 71-1,107.14." Within those sections, §71-1,103(11) exempts such a licensee from the need to be licensed as a physician and surgeon, but a license to practice osteopathic medicine and surgery is actually issued pursuant to §§71-1,137, 71-1,139.01 and 71-1,141.

Arguably it is the unlimited practice of medicine, not the issuance of the license, which must be "pursuant to sections 71-1,102 to 71-1,107.14." There is a rule of statutory construction which supports such an interpretation. That is, referential and qualifying words in a statute, where no contrary intention appears, refer solely to the last antecedent. See, Haiar v. Kessler, 188 Neb. 312, 196 N.W.2d 380 (1972). Also, there is no rational basis for treating differently licensees who are equivalent practitioners. In fact, to do so would be contrary to an intent stated in §44-2801(1) "to assure continuing availability of medical care and to encourage physicians to enter into the practice of medicine in Nebraska and to remain in such practice as long as such physicians retain their qualifications." Thus it would raise equal protection problems if osteopathic physicians and surgeons are not within the definition and therefore are treated differently. See, Galloway v. Wolfe, 117 Neb. 824, 223 N.W.2d 1 (1929). A statute should be given an interpretation which meets constitutional requirements if it can reasonably be done. Scott v. State ex rel. Board of Nursing, 196 Neb. 681, 688, 244 N.W.2d 683 (1976), quoting Stahmer v. State, 192 Neb. 63, 218 N.W.2d 893 (1974). It can be done in this case by interpreting §44-2804 as including in the definition of "physician" both persons licensed as physicians and surgeons and persons licensed as osteopathic physicians and surgeons in this state.

Because statutory interpretation is needed to reach that conclusion, a safer course is to amend §44-2804 expressly to include osteopathic physicians and surgeons licensed pursuant to §71-1,139.01 in the definition of "physician."

SUBJECT: Questions Related to the Certificate of Need Law

REQUESTED BY: Senator James E. Pappas
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Marilyn B. Hutchinson, Assistant Attorney General

1. Creation of an independent review panel.

As part of a task force developing legislation to change the Certificate of Need law, you want to propose legislation that will create a review panel which is independent of the Department of Health and which is a quasi-judicial body.

These objectives appear to be mutually exclusive. An administrative agency with only judicial functions would be judicial, not quasi-judicial. That is, its judicial functions would not be merely practical discretion reasonably incident to the exercise of ministerial police power by that review panel. See, Department of Banking v. Hedges, 136 Neb. 382, 401, 286 N.W. 277 (1939), and Hadden v. Aitken, 156 Neb. 215, 225, 55 N.W.2d 620 (1952). Therefore, creation of such an agency would be in violation of the constitutional requirement that the executive and judicial branches of government be separate. See, Neb. Const., Art. II, sec. 1.

2. Providing legal counsel for such independent review panel.

You want the independent review panel you create to be represented by a lawyer to rule on evidentiary matters. You ask if such a panel would be able to hire a lawyer independently or if such a lawyer would need to be from this office.

Current law makes the Attorney General the attorney for the state and for enumerated state officers who may not use state funds to pay for any special counsel without written authorization of the Governor or the Attorney General. See, Neb.Rev.Stat. §84-205 (Reissue 1981). The head of an independent review panel would arguably be covered by that section.

Thus, such an independent agency could not hire a lawyer independently without the consent of the Governor or the Attorney General. An attorney on the staff of the Department of Health could

not represent an independent appeal panel. An attorney from this office could.

Opinion No. 87106

DATE: October 28, 1987

SUBJECT: Legislative delegation of authority in LB 428 regarding motorcycle helmet standards.

REQUESTED BY: Senator Dan C. Lynch
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Yvonne E. Gates, Assistant Attorney General

Question: Whether a state statute which incorporates federal safety standards by reference unconstitutionally delegates legislative authority.

Conclusion: Probably not, the amended version of LB 428 merely requires the application of specified standards.

The issue of how far the Legislature should go in filling in the details of standards which an administrative agency is to apply has been addressed by the Nebraska Supreme Court. In Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445, 283 N.W.2d 12 (1979), the court ruled the "standards in conferring discretionary power upon an administrative agency must be reasonably adequate, sufficient, and definite for the guidance of the agency in the exercise of the power conferred upon it. . ." Id. at 465. Additionally, the court has indicated that the laws of another jurisdiction, including the United States and standards adopted pursuant to those laws, may be adopted by reference by the Nebraska Legislature. See, Lincoln Dairy Company v. Finigan, 170 Neb. 777, 104 N.W.2d 227 (1960).

In that regard LB 428 does not pose a delegation of authority problem. It directs the Department of Motor Vehicles to compile a list of motorcycle helmets that meet certain requirements. Those requirements are stated expressly in the legislation or incorporated by reference to federal standards. "Where the Legislature has settled the guiding principles and standards of policy. . .the act should be upheld." Anderson v. Tiemann, 182 Neb. 393, 402, 155 N.W.2d 322, 328 (1967).

LB 428, Section 2 designates that "such helmet shall consist of lining, padding, visor and chin strap and shall meet or exceed the standards established in the United States Department of Transportation's Federal Motor Vehicle Safety Standard No. 218, as amended for motorcycle helmets." Thus, the Department of Motor Vehicles is not authorized, expressly or impliedly, to establish any standards. The legislation proposed specifies the standards required and makes the administrative agency responsible for enforcing those standards.

However, an argument could be raised that the federal standards incorporated in LB 428 are too indefinite to be valid. It refers to "Standard No. 218 as amended for motorcycle helmets" without identifying any specific amendment. Should that be construed as incorporating amendments passed after enactment of LB 428 it would be unconstitutional. "{I}ncorporation by reference is permitted if the incorporation is of existing law or regulation," State v. Workman, 186 Neb. 467, 469, 183 N.W.2d 911 (1971).

While the Department of Motor Vehicles may look to 49 C.F.R. §517.218 (1986) to determine whether a particular helmet passes tests for impact, penetration and retention and has the proper configuration, projections and labelling, it is not directed to do so by this legislation. Hence LB 428, if enacted as is, may withstand an unconstitutional delegation of authority challenge; it would most likely avoid such challenge by making specific reference to the code.

SUBJECT: Suspension of Driving Privileges as Punishment for Minor in Possession (MIP) Convictions (LB 207)

REQUESTED BY: Senator Ron Withem
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Yvonne E. Gates, Assistant Attorney General

QUESTION: If enacted would enforcement of LB 207 result in a violation of the due process or equal protection rights of the individual involved?

CONCLUSION: No.

LB 207 provides that whenever an individual 13 years or older but under 18 years of age is convicted of a minor in possession charge such individual shall have the privilege to drive suspended. If the minor has not yet obtained or applied for driving privileges such privileges, when applied for, shall be denied up to 90 days for the first offense and up to one year for subsequent convictions. You ask if it is legal to prevent a 16 year old from receiving a driver's license for an offense which could be as much as three years old. You also question whether it is permissible to hold a different standard of justice for one group than another. LB 207 is similar to legislation proposed in 1979 imposing a one month suspension of driving privileges for the first MIP conviction with 3 months and 1 year suspensions for subsequent convictions. Attorney General Opinion No. 90, issued April 18, 1979, concluded that the legislation was constitutionally valid.

Since that time the State of Oregon has enacted Or.Rev.Stat. §482.593 (Repealed), replaced by Or.Rev.Stat. §809.260 (1986), containing provisions identical to LB 207. In State v. Day, 84 Or.App. 291, 733 P.2d 937 (1987) the Oregon statute withstood constitutional challenges based on equal protection and cruel and unusual punishment arguments.

Nebraska case law repeatedly indicates that "if the statute involves economic or social legislation not implicating a fundamental right or suspect class, courts will ask only whether a rational relationship exists between a legitimate state interest and the statutory means

selected by the legislature to accomplish that end." State v. Michalski, 221 Neb. 380, 385, 377 N.W.2d 510 (1985).

The Nebraska Supreme Court has consistently ruled that driving is not a fundamental right. Porter v. Jensen, 223 Neb. 438, ____ N.W.2d ____ (1986), Michalski, supra.

In Day, supra at 938 the Oregon court noted: "The group to whom the privilege is denied is not based on an immutable personal characteristic that can be suspected of reflecting 'invidious' social or political premises, i.e., 'prejudice or stereotyped prejudgments,' and therefore it is not a suspect classification."

Equal protection of the law requires that similarly situated persons be treated equally by the government; however, "It does not foreclose government from classifying persons or from differentiating one class from another when enacting legislation." Lindsley v. Natural Carbonic Gas Co., 220 U.S. 61, 31 S.Ct. 337, 55 L.Ed. 369 (1911). The classification made in LB 207 is one rationally related to the legitimate state interest of deterring drug and alcohol possession and use among young people.

Moreover, the minor's entitlement to an operator's license is outweighed by the state's goal of promoting highway safety. The suspension of a driver's license requires procedural due process guaranteed by the Fourteenth Amendment, State v. Michalski, 221 Neb. 380, 377 N.W.2d 510 (1985). LB 207 directs that the suspension be imposed by the court that convicts the individual of the MIP charge. This assures that the minor is afforded a proper forum and a meaningful opportunity to be heard before the punishment is ordered. That amounts to due process.

The fact that complete compliance with the court's order may be delayed for several years, until the minor is old enough to drive, does not violate the constitution. The Legislature has the power to select such punishment as it deems most effective in the suppression of crime. State v. Ruzicka, 218 Neb. 598, 357 N.W.2d 457 (1984). Temporary denial of current driving privileges or of subsequently applied for privileges indicates a legislative determination that such punishment is an effective deterrent to alcohol or drug use by minors. We are of the opinion that LB 207 as submitted for our review is not constitutionally suspect.

Sincerely,
ROBERT M. SPIRE

Opinion No. 87113

DATE: December 3, 1987

SUBJECT: Authority of Legislature to impose a fee on persons applying for review of a proposal under the "407 review process," i.e., Neb.Rev.Stat. §§71-6201 to 71-6230 or "the act."

REQUESTED BY: Don Wesely, Chairperson
Health and Human Services Committee

WRITTEN BY: Robert M. Spire, Attorney General
Marilyn B. Hutchinson, Assistant Attorney General

You have asked whether the Legislature can constitutionally impose a fee on the applicant for review of a proposal under the "407 review process." We have concluded it may, as discussed below.

1. The legislative power of the state is vested in the Legislature.

The legislative power of the state is vested in the Legislature. Art. III, sec. 1 of the Nebraska Constitution. This includes police power to make laws necessary to protect the health, safety and welfare of its citizens, subject to judicial review. State v. Drayton, 82 Neb. 254, 117 N.W. 768 (1908).

"A citizen clearly has the right to engage in any occupation not detrimental to the public health, safety, and welfare." Lincoln Dairy Co. v. Finigan, 170 Neb. 777, 785, 104 N.W.2d 227 (1960). Thus before the Legislature can regulate any occupation, it must determine that the public interest demands it. The Legislature has recognized this in the act, particularly in §§71-6202, 71-6211, 71-6221 and 71-6222.

Thus it is the Legislature which must determine whether the regulation of a health care occupation is necessary to protect the public.

2. The Legislature may delegate legislative functions to administrative agencies under certain conditions.

Art. II, sec. 1 of the Nebraska Constitution prohibits the executive branch of the state from exercising power properly belonging to the legislative department. (To do so would "deny the equal protection of the law and violate the due process provisions of the Fourteenth Amendment of the federal Constitution." See, Smithberger v. Banning, 129 Neb. 651, 657, 262 N.W. 492 (1935).) However, delegation of legislative power to the executive department has been upheld as administrative authority, not legislative power, where there is an express legislative purpose and designated limitations or standards prescribed in the legislative act. See, Terry Carpenter, Inc. v. Nebraska Liquor Control Commission, 175 Neb. 26, 36, 120 N.W.2d 374 (1963).

Whether the proposed regulation is necessary to protect the health, safety and welfare of the public is a decision the Legislature must make before it can regulate a health profession under its police power. In the "407 review process" the Legislature has enlisted the help of the Director of Health, the Board of Health and a technical committee, appointed by the Director of Health with the advice and consent of the Board of Health, in making that determination. In doing so the Legislature has expressed its purpose and set out explicit standards. It has asked for a recommendation, not a final decision, on whether the application should be granted or denied. (Asking for a recommendation saved a delegation of authority from unconstitutionality in Blackledge v. Richards, 194 Neb. 188, 194, 231 N.W.2d 319 (1975).)

Thus, the Legislature has delegated "administrative authority" in this case to facilitate its own decision-making process in the exercise of the police power.

3. The Legislature may assess a reasonable fee to defray costs incurred in the exercise of the police power.

Art. VIII, sec. 1 of the Nebraska Constitution provides that the necessary revenue of the state shall be raised by taxation in such manner as the Legislature may direct to be levied by valuation uniformly and proportionately upon all tangible property and franchises. There are some exceptions not applicable here.

In Gates v. Howell, 204 Neb. 256, 265, 282 N.W.2d 22 (1979), plaintiffs claimed a fee required to obtain a permit violated Art. VIII, sec. 1 and Art. III, sec. 18 of the Constitution of the State of Nebraska. The court disagreed:

> The purpose of requiring registration, however, is not for the purpose of raising revenue, but rather for the purpose of fulfilling the lawful authority of the state with regard to the public health,

safety, and welfare. We find nothing wrong with the state requiring the registration of mobile homes and the assessing of a reasonable fee to defray the costs of registration and inspection, if any.

In conclusion, a fee imposed by the Legislature on applicants seeking a 407 review in order to defray the costs incurred in such exercise of the police power would not violate Art. VIII, sec. 1 of the Nebraska Constitution.

4. The Legislature may classify the objects of legislation for the purpose of legislating with reference thereto under certain conditions.

Art. III, sec. 18 of the Nebraska Constitution prohibits the Legislature from passing local or special laws in particular cases. The Fourteenth Amendment of the federal constitution prohibits any state from denying to any person within its jurisdiction the equal protection of the laws.

The applicable rule was quoted in McDonald v. Rentfrow, 176 Neb. 796, 800, 127 N.W.2d 480 (1964):

"The Legislature may make reasonable classifications of the objects of legislation for the purpose of legislating with reference thereto. The power of classification rests with the Legislature and it will not be interfered with by the courts if real and substantial differences exist which afford a rational basis for classification." (Emphasis supplied.) And, as stated by Commissioner Roscoe Pound in Cleland v. Anderson, 66 Neb. 252, 92 N.W. 306, 5 L. R. A. N. S. 136: "On the other hand, if the legislature has made a reasonable classification, -not a mere cloak or cover for an arbitrary exemption of certain persons or a certain class of persons, but a natural and proper selection of those who, upon a reasonable view of the mischiefs to be met, should be subject to the regulations prescribed, -and the law is made to operate generally and uniformly upon all of the class so constituted, the constitutional provision in question is not violated."

The "407 review process" covers proposals by any health professional group or organization, any individual, or any other interested person to regulate any health professional group not previously regulated and proposals to change the scope of practice of a regulated health profession. Neb.Rev.Stat. §§71-6204 and 71-6223. "{A}n applicant group shall submit an application to the director on forms prescribed by the director." Id.

That application is not a legislative bill. Section 71-6223 requires that it include specified items, including the problem and why regulation or change of scope of practice is necessary to protect the

public health, safety and welfare. Filing it triggers a three-tiered review process, culminating in a recommendation to the Legislature by the Director of Health on whether legislative action should be taken on the proposal and, if so, how. There is no provision in the act barring introduction of a bill containing such a proposal if there has been no 407 review or if the recommendation of the director is that no legislative action be taken.

Thus the class that would be affected by a fee which is made a required part of an application for 407 review would be only those groups or individuals who elect to avail themselves of the benefits of that process in order to persuade the Legislature that the rights of other persons should be infringed for the protection of the public. The fee would operate generally and uniformly on everyone in that class. So long as that fee is reasonably related to the costs incurred in making such a review, we conclude the classification is a permissible one.

Conclusion

We have concluded that the Legislature may impose a fee as a required part of the application for a 407 review without violating the constitutional provisions discussed above so long as that fee bears a reasonable relationship to the costs incurred in the process.

Sincerely yours,
ROBERT M. SPIRE

AM1558

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. The Legislature hereby finds and declares that head injuries that occur to motorcyclists which could be prevented or lessened by the wearing of helmets are a societal problem and that the financial and emotional costs of such injuries cannot be viewed solely on a personal level. It is the intent of the Legislature to prevent injuries and fatalities which occur due to motorcycle accidents and to prevent the subsequent damage to society which results due to the cost of caring for injured people, the pain and suffering which accompanies such injuries and fatalities, and the loss of productive members of society from such injuries.

Sec. 2. Commencing January 1, 1989, a person shall not operate or be a passenger on a motorcycle or moped on any highway, as defined in section 39-602, in

this state unless such person is wearing a protective helmet of the type and design manufactured for use by operators of such vehicles and unless such helmet is secured properly on his or her head with a chin strap while the vehicle is in motion. All such protective helmets shall be designed to reduce injuries to the user resulting from head impacts and shall be designed to protect the user by remaining on the user's head, deflecting blows, resisting penetration, and spreading the force of impact. Each such helmet shall consist of lining, padding, visor, and chin strap and shall meet or exceed the standards established in the United States Department of Transportation's Federal Motor Vehicle Safety Standard No. 218, 49 C.F.R. section 571.218, for motorcycle helmets.

Sec. 3. The Department of Motor Vehicles shall within sixty days after the effective date of this act publish a list of approved protective helmets which meet the requirements of section 2 of this act. Such list shall not be inclusive. Any person wearing a protective helmet which meets the requirements established pursuant to section 2 of this act shall be deemed to be in compliance with this act.

Sec. 4. Any person using a protective helmet purchased prior to the effective date of this act which is labeled to show that it conforms with applicable federal motor vehicle safety standards shall be deemed to be in compliance with section 2 of this act.

Sec. 5. Any person who violates section 2 of this act shall be guilty of a traffic infraction and shall be fined fifty dollars.

Sec. 6. That section 39-669.26, Revised Statutes Supplement, 1987, be amended to read as follows:

39-669.26. In order to prevent and eliminate successive traffic violations, there is hereby provided a point system dealing with traffic violations as disclosed by the files of the Director of Motor Vehicles. The following point system shall be adopted.

(1) Conviction of motor vehicle homicide -- 12 points;

(5) Driving a motor vehicle while under the influence of alcoholic liquor or any drug or when such person has a concentration of ten-hundredths of one gram or more by weight of alcohol per one hundred milliliters of his or her blood or urine or per two hundred ten liters of his or her breath in violation of any city or village ordinance or of section 39-669.07 -- 6 points;

All such points shall be assessed against the driving record of the operator as of the date of the violation for which conviction was had. Points may be reduced by the department under section 39-669.37.

In all cases, the forfeiture of bail not vacated shall be regarded as equivalent to the conviction of the offense with which the operator was charged.

Sec. 7. That original section 39-669.26, Revised Statutes Supplement, 1987, is repealed.".

Whenever the state is so redistricted the members elected prior to the redistricting shall continue in office, and the law providing for such redistricting shall where necessary specify the newly established district which they shall represent for the balance of their term.

Commencing in 1990, members of the Board of Regents shall be appointed by the Governor. The Governor shall appoint eight members to serve on the board. Such appointed members shall be selected from their respective regent districts as such districts exist at

CIII-2 "The first power reserved by the people is the initiative whereby laws may be enacted and constitutional amendments adopted by the people independently of the Legislature. This power may be invoked by petition wherein the proposed measure shall be

set forth at length. If the petition be for the enactment of a law, it shall be signed by seven percent of the ~~electors~~ registered voters of the state, and if the petition be for the amendment of the Constitution, the petition therefor shall be signed by ten per cent of such ~~electors~~ registered voters. In all cases the ~~electors~~ registered voters signing such petition shall be so distributed as to include five per cent of the ~~electors~~ registered voters of each of two-fifths of the counties of the state, and when thus signed, the petition shall be filed with the Secretary of State, who shall submit the measure thus proposed to the electors of the state at the first general election held not less than four months after such petition shall have been filed. The same measure, either in form or in essential substance, shall not be submitted to the people by initiative petition, either affirmatively or negatively, oftener than once in three years. If conflicting measures submitted to the people at the same election be approved, the one receiving the highest number of affirmative votes shall thereby become law as to all conflicting provisions. The constitutional limitations as to the scope and subject matter of statutes enacted by the Legislature shall apply to those enacted by the initiative.

CIII-3 The second power reserved is the referendum which may be invoked, by petition, against any act or part of an act of the Legislature, except those making appropriations for the expense of the state government or a state institution existing at the time of the passage of such act. Petitions invoking the referendum shall be signed by not less than five per cent of the ~~electors~~ registered voters of the state, distributed as required for initiative petitions, and filed in the office of the Secretary of State within ninety days after the Legislature at which the act sought to be referred was passed shall have adjourned sine die or for more than ninety days. Such petition shall set out the title of the act against which the referendum is invoked, and, in addition thereto, when only a portion of the act is sought to be referred, the number of the section or sections or portion of sections of the act designating such portion. When the referendum is thus invoked, the Secretary of State shall refer the same to the electors for approval or rejection at the first general election to be held not less than thirty days after the filing of such petition.

When the referendum is invoked, as to any act or part of act, other than emergency acts or those for the immediate preservation of the public peace, health, or safety, by petition signed by not less than ten per cent of the ~~electors~~ registered voters of the state , distributed as aforesaid, it shall suspend the taking effect of such act or part of act until the same has been approved by the electors of the state.".

(B) Study resolutions may be introduced up to the 80th legislative day in odd number years and the 50th legislative day in even number years. However, each standing committee may introduce one additional study resolution prior to adjournment sine die. The Executive Board shall refer the study resolutions to the appropriate

standing committees or to select interim committees created by it to conduct such studies.

(F) The chief sponsor of a study resolution, if not otherwise a member of the committee to which the resolution is referred, shall be an ex officio member of the committee during and only for the conduct of the study.

(G) On or before December 1 of each year, each standing and select interim committee shall file a report, on a form prescribed by the Clerk, with the Executive Board on the disposition of the study resolutions referred to them. These reports shall be printed in the Journal at the beginning of the next session of the Legislature.

AM1585

(Amendments to Standing Committee amendments)

1. Strike amendment 1 and insert the following new amendment:

"1. Strike the original sections and insert the following new sections:

'Section 1. It is the intent of the Legislature through this act to help in the treatment and elimination of drug and alcohol use and abuse in the work place while protecting the employee's rights. Nothing in this act shall be construed to require employers to conduct drug and alcohol testing of their employees nor shall this act be determinative of the cases or circumstances under which such tests may be given.

Sec. 2. As used in this act, unless the context otherwise requires:

(1) Alcohol shall mean any product of distillation of any fermented liquid, whether rectified or diluted, whatever may be the origin thereof, synthetic ethyl alcohol, four varieties of liquor defined in subdivisions (2) to (5) of section 53-103, alcohol, spirits, wine, and beer, every liquid or solid, patented or not, containing alcohol, spirits, or wine, or beer, and alcohol used in the manufacture of denatured alcohol, flavoring extracts, syrups, or medicinal, mechanical, scientific, culinary, and toilet preparations;

(2) Breath testing device shall mean intoxilyzer model 4011AS or other scientific testing equivalent as approved by and operated in accordance with the department rules and regulations:

(3) Breath testing device operator shall mean a person who has obtained or been issued a permit pursuant to the department rules and regulations;

(4) Department shall mean the Department of Health of the State of Nebraska;

(5) Department rules and regulations shall mean the techniques and methods authorized pursuant to section 39-669.11;

(6) Drug shall mean any substance, chemical, or compound as described, defined, or delineated in sections 28-405 and 28-419 or any metabolite or conjugated form thereof, except that any substance, chemical, or compound containing any product as defined in subdivision (1) of this section may also be defined as alcohol;

(7) Employee shall mean any person who receives any remuneration, commission, bonus, or other form of wages in return for such persons actions which directly or indirectly benefit an employer; and

(8) Employer shall mean the State of Nebraska and its political subdivisions, all other governmental entities, any individual, association, or corporation, or other organization doing business in the State of Nebraska unless it, he, or she employs a total of less than six full-time and part-time employees at any one time.

Sec. 3. Any results of any test performed on the body or breath specimen of an employee, as directed by the employer, to determine the presence of drugs or alcohol shall not be used to deny any continued employment or in any disciplinary or administrative action unless the following requirements are met:

(1) A positive finding of drugs by preliminary screening procedures has been subsequently confirmed by gas chromatography-mass spectrometry or other scientific testing technique which has been or may be approved by the department; and

(2) A positive finding of alcohol by preliminary screening procedures is subsequently confirmed by either:

(a) Gas chromatography with a flame ionization detector or other scientific testing technique which has been or may be approved by the department; or

(b) A breath testing device operated by a breath testing operator. Nothing in this subdivision shall be construed to preclude an employee from immediately requesting further confirmation of any breath testing results by a blood sample if the employee voluntarily submits to give a blood sample taken by qualified medical personnel in accordance with the rules and regulations adopted and promulgated by the department. If the confirmatory blood test results do not confirm a violation of the employers work rules, any disciplinary or administrative action shall be rescinded.

Except for a confirmatory breath test as provided in subdivision (2)(b) of this section, all confirmatory tests shall be performed by a clinic, hospital, or laboratory which is licensed pursuant to the federal Clinical Laboratories Improvement Act of 1967, 42 U.S.C. 263a, or which is accredited by the College of American Pathologists.

Sec. 4. Except for breath test specimens as provided in subdivision (2)(b) of section 3 of this act, all specimens which result in a finding of drugs or alcohol shall be refrigerated and preserved in a sufficient quantity for retesting for a period of at least one hundred eighty days.

Sec. 5. Except for breath test specimens as provided in subdivision (2)(b) of section 3 of this act, a written record of the chain of custody of the specimen shall be maintained from the time of the collection of the specimen until the specimen is no longer required.

Sec. 6. The employer or its, his, or her agents shall not release or disclose the test results to the public, except that such results shall be released as required by law or to the employee upon request. Test results may be released to those officers, agents, or employees of the employer who need to know the information for reasons connected with their employment.

Sec. 7. Nothing in sections 1 to 6 of this act shall be construed to establish any rule, right, or duty not expressly provided for in such sections.

Sec. 8. (1) It shall be unlawful to provide,

acquire, or use body fluids for the purpose of altering the results of any test to determine the presence of drugs or alcohol.

(2) Any employee who violates subsection (1) of this section may be subjected to the same discipline as if the employee had refused the directive of the employer to provide a body fluid or breath sample.

(3) Any person, including an employee, who violates subsection (1) of this section shall be guilty of a Class I misdemeanor.

Sec. 9. (1) No person shall tamper with or aid or assist another in tampering with body fluids at any time during or after the collection or analysis of such fluids for the purpose of altering the results of any test to determine the presence of drugs or alcohol.

(2) Any employee who violates subsection (1) of this section may be subjected to the same discipline as if the employee had refused the directive of the employer to provide a body fluid or breath sample.

(3) Any person, including an employee, who violates subsection (1) of this section shall be guilty of a Class I misdemeanor.

MOTION - Escort Governor

Speaker Barrett moved that a committee of five be appointed to escort the Governor to the Chamber to deliver her State of the State and Budget Message.

The motion prevailed.

The Chair appointed Mesdames Langford, Morehead, Campbell, Labedz, and Ms. Scofield to serve on said committee.

The committee returned and escorted Governor Kay Orr to the Rostrum where she delivered the following State of the State and Budget Address.

STATE OF THE STATE ADDRESS

Mr. President, Mr. Speaker, ladies and gentlemen of the Legislature, my fellow Nebraskans:

It is my duty this morning and, indeed, a pleasure to report to you and to all Nebraskans on the state of our great state.

Based on an objective assessment of our progress and with proper regard for the challenges before us, I can report to you the following:

*Conditions in Nebraska are measurably improved.

*We are living within our means.

*As promised, we have not had any special sessions.

*The spirit of our citizens is healthy.

*There is sound reason for optimism and confidence.

*The foundation we have laid for a better Nebraska is a good one.

We have demonstrated that we can make a difference in the future of Nebraska. The course we charted together last year reflects vision and dreams of what can be. Together, let us continue on that course of progress.

Today I want to review with you...where we were...where we are today...and where we are going.

First...where we were: When we assembled here in January of last year,

*The general fund balance was near zero.

*We were confronted with approximately 20 million dollars in deficits.

*The Legislature had just finished the fourth budget-cutting Special Session in six years.

There was doubt about the ability of state government to manage its economic affairs. There was disagreement across the state concerning the future of our state's educational system.

We were confronted with a drastic change in the federal tax structure, a change which required us to take action at the state level.

There was pessimism in the business community across the state about the long-term viability of our economy. And there was evidence that our young adults lacked confidence in their future in Nebraska.

How did we respond? We...you as the Legislature and I as the Governor...took bold and decisive action...even though that action was not without risk...to come to grips with our problems.

I'm grateful for the support you gave to the initiatives of my administration to restructure our individual income tax system into a program that is fair to all our citizens...a program that restores stability...a program that maintains a simplicity of administration.

Your enactment of LB 775...with its performance-based incentives...is destined to produce more and better jobs for our citizens. The adoption of LB 270, and equally important measure, offers economic incentives to small business growth and job creation in both rural and urban areas...and includes farming and ranching operations.

In my Inaugural Address I brought you a message of optimism, tempered with realism; a message of hope leavened by pragmatism. While many challenges still remain, we are turning the corner. I am pleased to report that our optimism was not unfounded. This is where we are today. The people of this state are feeling a renewed confidence...and, more important, that confidence is reflected in their actions.

I have experienced this new spirit in each of the communities where we have established our "Capital for a Day"...and in my many other contacts with the people of our state. We truly have made a difference.

People's faith in their government in being restored because they have seen that government can act effectively and wisely.

There is something good happening in Nebraska...something that reflects a renewed vitality, a restored confidence, a reason to look forward to a better tomorrow. While difficulties remain, we have seen some improvement over the past year in the income of many Nebraskans engaged in production agriculture.

The way has been led by the livestock sector, and that is significant because nearly two-thirds of our state's gross income from agriculture is derived from livestock. That is good news. Still...we must not forget those farm families and rural communities where social and financial stress continue.

There is no single all-encompassing solution to this problem. It will take all our best efforts, working together, in a variety of ways, to steer the course for Nebraska in these times of transition.

As a result of the Legislature's action last year, an agricultural promotion and development unit has been established in the Department of Agriculture.

Its prime purpose is to help find new markets for our farm products. This unit, in collaboration with our commodity checkoff

boards and the University of Nebraska Food Processing Center, is working hard to open doors to new value-added markets.

Similar to our successful statewide economic development conference this past summer, planning is now underway for a statewide conference on agriculture to explore new means for strengthening our No. 1 industry.

The thrust of the conference will be to assess the opportunities available to us to adapt to the global changes in agriculture and to enhance our ability to compete in world markets.

While working toward the long term viability of agriculture, we must not forget one specific challenge which must be faced immediately.

That is, to determine a constitutional and equitable formula which will recognize the income-producing potential of agricultural land as an appropriate means of determining value for tax purposes.

We have already seen the success of performance-based programs in economic development: Thousands of new jobs are being created across the state.

We've reported to you on numerous occasions the number of companies that have applied, the projected dollar investments, and the number of jobs that will be created. It's a statistical record of which we can all be proud.

While the numbers are impressive, what we're really talking about is people, and their jobs, their attitudes, and their futures. A job is not just a number. It is the opportunity for those born and educated in our state to have a meaningful life in Nebraska. It's self-esteem and confidence...a family kept together and cared for...the mortgage being paid...dollars for educating our children. We have made a good beginning.

But if we are able to realize the potential which is ours, we must apply all our diligence, all our intellect, and all our available resources to address a disturbing trend which threatens our future.

There is a saying: "Solutions can't be found until problems are stated correctly." Let me state the problem: Nebraska has experienced substantial migration from our small towns and rural areas in the first 6 years of this decade. Only 6 of our 93 counties had net population growth during this period. There is evidence that in the last 2 years there has been a net population decrease due to outmigration. The largest outmigration was by a group we can least afford to lose, those between 25 and 39 years old...highly trained employees, managerial, professional, technical and skilled labor. If this loss continues, it is predicted that Nebraska's average population will be both older and less affluent. This loss will reverberate through future generations.

Why are productive young citizens leaving Nebraska? The answer is deceptively simple: They feel that they lack opportunity here. While we sometimes express satisfaction that our unemployment rates are relatively low, the harsh fact is that during the 1980's, employment in Nebraska has increased at a pace below the national average. While this trend is disturbing, it represents both a challenge and an opportunity...if only we have the will and the dedication to seize them. We cannot rest. It is our responsibility to build on the progress we have made...progress that in just one year is remarkable. But we still have so far to go.

We must provide for those who want to make a life in Nebraska the opportunity to work and earn a good living here. I'm talking about our sons and daughters, our nieces and nephews, and our neighbors and friends and their children.

The formula is a simple one: New jobs and a diversified economy mean less outmigration and an expanded tax base. Impatient as we all are to meet this challenge, we must recognize that the problems we face were not created overnight, nor will they be immediately overcome. We must stay the course, building on the foundation we have established.

Let me just say: The answer does not lie in increasing taxes. The answer lies in bolstering the economic vitality of our state by providing Nebraskans the means to earn a good living. That is where we are.

Now...in looking forward to where we are going, let us remember that during the past legislative session we charted a visionary course and adopted policies to provide for Nebraska's future in a changing economic world.

Our goal was to sustain and build upon our heritage of the good life in Nebraska...to become competitive for jobs...to develop opportunities, and to provide a basis for economic diversification and growth. We must continue to build upon the foundation we established last year.

We have now returned to a Biennial appropriation process, the first in twenty years. It is incumbent upon us to ensure that this process works. During the first session of the 90th Legislature, appropriations were made for the two year period which began last July 1.

Those actions taken by your body and approved by this Governor were intended to meet the continuing funding needs of state government...to provide those services which are essential for the good of our citizens and which are within their ability to finance.

The General Fund appropriations already established for this biennium include 886.7 million dollars for the current year and 915.1

million dollars for the upcoming fiscal year. The budget for the second year of the biennium includes already approved increases of 28.4 million dollars or 3.2%. Included in this increase are 11.8 million dollars for salary increases, 14.9 million dollars for increased aid to individuals and local governments, and 1.6 million dollars for additional operations of state government.

If we are to make the biennial budget process work, we must avoid approaching the budget on an annual basis. It is extremely important that the decisions we make today can be sustained in the future. We must not allow ourselves to succumb to the temptation to allocate funds to new programs, for which funding cannot be sustained. There is nothing more disruptive to the operation of government than mid-year special session budget cuts.

While we must continue to be prudent, the opportunity exists to make carefully selected investments in the future of our state...but...we must do so WITHIN CURRENT TAX RATES.

The Nebraska Economic Forecasting Advisory Board advises us that we can expect additional revenues of 45 million dollars in the current biennium. Those revisions will allow for limited new initiatives which I strongly encourage be directed toward the education of our young people.

There is no single issue more important to the future of Nebraska than education. Currently, funding for education represents 47% of our state's expenditures. This reflects the deep support Nebraskans have for education. I want to strengthen our tradition of that strong support because I believe it reflects our visions and dreams of what can be done, and what must be done, for our children.

We Nebraskans should be proud of our educational system. By virtually any standard of participation and educational attainment, our system compares favorably with those in other states. But because previous tax and planning policies made our state's fiscal condition very volatile, long term educational goals and essential government programs were not allowed to reach their full potential in the environment of constant mid-year cuts.

Last year I proposed several initiatives to reverse that trend. These programs to increase funding to improve the quality of education in our state must be continued. Using the additional revenues projected, I propose a number of budget initiatives in the field of education. There may be people who will say that the recommendations I am about to outline represent too much, too soon. To them, let me say that education plays a vital role in every aspect of our society.

It affects economic development. It has a profound impact on the quality of our life. It is the foundation on which we build and achieve

greatness. Education prepares our children for the future. It provides our citizens with the tools to make meaningful lives for themselves.

There also may be those who will say my proposals are too little...too late. To them, let me say the people of the State of Nebraska already are making a significant investment in education.

We must make certain that Nebraskans get the absolute maximum out of each dollar they invest in education. Taxpayers have a right to expect accountability for the investment we are making in our future, particularly for our children who are, after all, our most precious resource.

Improving our educational system is not a sprint...It is a marathon. Our additional investments must be made with the long view, and they must be carried forward into 1989 and beyond.

Today's kindergarteners will be the high school graduates of the year 2,000. The challenge we face is to see that they are prepared to compete successfully in the 21st Century.

I am, therefore, recommending the restoration of 10.7 million dollars for state aid to schools to prepare for opportunities in the future.

The needs for quality special education programs are compelling. Therefore, I am adding a total of 10.6 million dollars to provide for the deficit incurred in FY88 as well as provide a supplement for FY89.

We also just learned that the Nebraska Teacher Retirement System needs an infusion of 3.5 million dollars. We must stand by commitments made and consequently I am prepared to recommend this amount.

As I announced last summer, an additional appropriation of 4 million dollars to the University is specifically earmarked for research. In subsequent years it is intended that an additional 4 million dollars be provided each year for a five-year period.

This will result in total additional appropriations of 60 million dollars for University research and will increase the state-funded research base by 20 million dollars. The limited research capacity at the University of Nebraska has been forcefully...and repeatedly... brought to our attention. Basic research is a well-spring for innovation and economic growth and is a necessary component of the policies for economic progress to which we have committed ourselves.

Equally important to our educational goals is the retention and attraction of faculty and staff of the highest quality to our University and college systems.

Therefore, I am recommending to you today 10 million dollars for University and State College salaries. This amount is in addition to the 6.3 million dollars already appropriated for FY89. Together with

substantially enhanced research funding and internal reallocations, these recommendations, once adopted, will go a long way toward addressing the critical needs of our post-secondary education system.

This reconfirms our commitment and is in clear recognition of the need for creative talent to perform the teaching, research, and public service functions that the people of this state deserve.

I am also recommending a scholarship assistance program with an initial appropriation of 750,000 dollars. Funding of this program has been neglected for several years.

It is now time to move forward on commitments made in the past to ease the financial burden of obtaining a higher education.

As you are aware, I am recommending 1.7 million dollars for the Nebraska School of Technical Agriculture at Curtis. These funds will provide an important resource for transferring new knowledge and skills in technology from the University to the students at Curtis who are entering a rapidly changing agricultural environment.

Also, I am proposing the establishment of a scholarship fund at Curtis through the dedication of sales tax proceeds from the Farm Aid III ticket sales. It is hoped that additional scholarship funds will be forthcoming from alumni and businesses which benefit from the Curtis programs.

Just as we are working hard on the revitalization of our state's economy, we must begin the same type of effort on our educational system. These initiatives provide a springboard for excellence.

I am recommending the restoration of state aid to cities, counties, and natural resource districts in the amounts required by law. I am pleased to report that the collective bargaining process, established by LB 661, has resulted in a voluntary agreement with the NAPE/AFSCME bargaining unit representing approximately 6,500 employees...and a voluntary agreement with the NACE/AFSCME bargaining unit representing approximately 600 employees. These agreements provide for an across-the-board increase and a performance-based merit plan.

To address the needs of both union and non-union employees, collective bargaining was approached from the standpoint that results of any agreement be comparable and affordable...and that it recognize the many dedicated and hard working state employees. I am therefore recommending that those employees within the State Personnel System be afforded benefits in keeping with contracts recently signed. This administration will continue to work in the future to insure fair and equitable treatment of all state employees.

The Federal Government is requiring that states establish a revolving loan fund for waste water treatment construction. On my behalf LB 766 was introduced last year, and I urge you to enact this

bill into law. I am recommending 300,000 dollars as the initial cash flow requirement to fund this program.

I have asked Speaker Barrett to introduce legislation to create a Department of Natural Resources to house within one structure the responsibility for managing and planning the protection and preservation of our valued water and land resources.

Too often, the goals of sound planning and careful investment in our critical natural resources have been frustrated by lack of coordination among the many state organizations charged with the responsibility for providing leadership. The protection and preservation of our natural resources are far too important to be allowed to continue under the current organizational structure.

These initiatives plus funding for "A" bills amount to a 37.1 million dollar increase. We have received General Fund deficit and supplemental requests for an additional 33.3 million dollars. I am recommending funding of 23.4 million dollars of that request. Included are additional funds for special education, as mentioned earlier, and 4.3 million dollars for medicaid. These two entitlement programs require payment pursuant to a statutory formula.

In addition, there is included 538,000 dollars for asbestos removal at Wayne State College, a critically needed project. Included in the recommendation is 1.3 million dollars for the Attorney General to continue our efforts to protect Nebraskans' interests in the Deercreek lawsuit--although we are continuing to pursue negotiations in hope of an out-of-court settlement.

For the new Central Data Processing/Print Shop Building, as anticipated in the bond agreement, there is included 2.1 million dollars. I am recommending 800,000 dollars to the University for increased Health Insurance premiums. As you will recall, the University indicated in the budget submission last year that a rate of adjustment could be required during the second year of the biennium however, at that time the dollar amount of the adjustment was not known.

These adjustments, as well as a limited number of others in lesser amounts, are needed; and I recommend them for your consideration and approval.

Those actions plus 400,000 dollars for miscellaneous claims would require that the budget for the current fiscal year be increased by 10.6 million dollars and that the second year of the biennium be increased by 13.1 million dollars.

Actions already taken provide that any funds not spent during the first year are carried over into the second year and are available to be expended.

My recommendations including deficits, supplemental appropriations and new initiatives total 897.7 million dollars for FY 88 and 965.0 million dollars for FY 89, for a biennial appropriation of 1 Billion 863 Million dollars. This level of funding allows a reserve of 4.5 percent on a biennial basis.

Given the uncertainties that we face and the requirement that funding decisions made this year must be sustainable in the future, this level of reserve is prudent and responsible.

To commit to greater spending levels will not provide for the stability that we so urgently need and will almost certainly insure that future actions will be required to either increase taxes or cut budgets, neither of which is acceptable.

Therefore, I urge you to approach these off-year budget adjustments with caution and restraint. Responsible action dictates nothing less.

Ladies and Gentlemen--We are at a critical point in the history of our state. The cold weather of recent days reminds me of the story about a man alone in the wilderness who is building a fire to save his life. He has carefully prepared his kindling and just as it is ready to burst into flames snow falls from a branch above and extinguishes his efforts.

This story holds much for us today. The carefully prepared kindling has received the spark, and Nebraska's fire has started to glow. But the flame is fragile; and unless we proceed responsibly to tend that flame, it too could be extinguished.

We must gradually move ahead, avoiding the temptation to expect too much from our fire too soon. Dramatic spending increases, major policy reversals of the course set last session, new programs with large future commitments--will smother the flame.

On the other hand, if we progress prudently and steadily, and not expect too much too soon, we can continue to move Nebraska forward on the path we began last year...prepared to meet the challenges and opportunities which lie before us as we move boldly into the 21st century.

The committee escorted Governor Orr from the Chamber.

BILL ON FIRST READING

The following bill was read for the first time by title:

LEGISLATIVE BILL 1145. Introduced by Dierks, 40th District; Schellpeper, 18th District.

A BILL FOR AN ACT relating to vocational education; to create a fund; to provide matching funds for certain federal funds; and to provide for management of the fund.

RESOLUTION

LEGISLATIVE RESOLUTION 263. Introduced by Education Committee: Withem, 14th District, Chairperson; Chizek, 31st District; Dierks, 40th District; McFarland, 28th District; Nelson, 35th District; and Abboud, 12th District; Korshoj, 16th District; Remmers, 1st District.

WHEREAS, the school district of Oakland-Craig, in the County of Burt, in the State of Nebraska, is a duly accredited Class III school district and municipal corporation created by the Legislature under the laws of the State of Nebraska; and

WHEREAS, the Oakland-Craig School District was sued under the Political Subdivision Tort Claims Act for a school bus accident which occurred on November 6, 1984, for a total sum of twenty-two million dollars; and

WHEREAS, on November 10, 1985, the Oakland-Craig School District's insurance company was declared insolvent by a district court in Polk County, Iowa; and

WHEREAS, the suit was not subject to the one-million-dollar limitation for tort claims brought under the Political Subdivision Tort Claims Act against municipal corporations because such limitation did not become effective until November 16, 1985, and was not retroactive; and

WHEREAS, such suit could potentially have cost the State of Nebraska millions of dollars; and

WHEREAS, such suit was settled and a judgment was entered against the Oakland-Craig School District on December 2, 1987, for a total sum of one and one-half million dollars; and

WHEREAS, in the order approving the settlement and entering the judgment, the court stated that had the case not been settled, the court could have awarded the plaintiff "an amount substantially in excess of the one and one-half million dollars in payments to be made under the . . . settlement"; and

WHEREAS, only one million dollars of the judgment was paid by the Nebraska Property and Liability Insurance Guaranty Association and the insolvent insurance company, placing the responsibility on the Oakland-Craig School District's taxpayers to pay five hundred thousand dollars; and

WHEREAS, the payment of the five-hundred-thousand-dollar judgment will have a devastating financial impact upon the Oakland-Craig School District, its teachers and students, and the community and its citizens; and

WHEREAS, because of the lawsuit and section 77-1623, the entire board of education of the Oakland-Craig School District was forced to resign to avoid personal liability, leaving the school district without a governing body; and

WHEREAS, without a governing body, the taxpayers were forced to place the Oakland-Craig School District into receivership in the district court of Burt County, Nebraska; and

WHEREAS, the Oakland-Craig School District is still in receivership in the district court of Burt County, Nebraska and is still without a board of education; and

WHEREAS, without a board of education or governing body, the Oakland-Craig School District cannot by statute establish a budget for the next fiscal year, and the Oakland-Craig School District is prevented by statutory provisions from budgeting sufficient funds to pay the five-hundred-thousand-dollar judgment or any portion thereof; and

WHEREAS, the current tax levy of the Oakland-Craig School District is one of the highest in the State of Nebraska; and

WHEREAS, the Legislature, when it passed the Political Subdivision Tort Claims Act subjecting municipal corporations such as the Oakland-Craig School District to liability for tort claims, anticipated a result similar to that which is now confronting the Oakland-Craig School District and, as a part of the Political Subdivision Tort Claims Act, enacted section 23-2415 which authorizes a municipal corporation, in a situation such as the situation involving the Oakland-Craig School District, to make application to the State Treasurer for a loan; and

WHEREAS, the judgment is valid and the Oakland-Craig School District does not have the ability to pay such judgment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. Based upon the above findings and determinations which are hereby made by the Legislature, the Legislature requests the State Treasurer, upon application by the Oakland-Craig School District, to make such loan to the Oakland-Craig School District pursuant to section 23-2415 and the findings and determinations herein made, in the total sum of five hundred thousand dollars from funds available for investment in the state treasury, upon such terms and conditions

as required by law and as agreeable by the State Treasurer to insure the loan will be repaid.

SPEAKER'S ANNOUNCEMENT

Pursuant to Rule 4, Sec. 8, LR 263 was referred to the Reference Committee.

RESOLUTION

LEGISLATIVE RESOLUTION 264. Introduced by Hall, 7th District; Coordsen, 32nd District.

WHEREAS, the 1987 Nebraska Legislative Issues Symposium devoted significant attention to the issues stemming from the trends and needs of rural communities; and

WHEREAS, even as we witness renewed growth and revitalization in some areas of the state, we face new challenges and serious problems in other areas; and

WHEREAS, the 1980's have produced a dramatic contrast to the rural renaissance of the 1970's when people were moving into small towns, and economic conditions in most rural areas have worsened; and

WHEREAS, the farm crises of the 1980's has exacerbated concerns about the future of rural communities, as well as fomenting divisions between Nebraskan's rural and urban sectors; and

WHEREAS, it is clear that opportunities are appearing to develop strong, effective responses to the needs of rural communities and to the healing of rural-urban divisions; and

WHEREAS, historically rural and urban Nebraska have been bound together by common interests; and

WHEREAS, there is no coordinated vision, consensus, or policy to assist rural renewal in Nebraska; and

WHEREAS, there is no statewide coordination of rural renewal programs and policies or any sharing of innovations and successful efforts among rural renewal practitioners; and

WHEREAS, a special research effort is needed regarding the state's lack of a comprehensive policy on rural communities; and

WHEREAS, solutions to rural community revitalization must be driven by the innovation, creativity, and leadership of Nebraska's people, rural and urban, public and private.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Executive Board of the Legislative Council establish a Select Committee on Rural-Urban Renewal and Restoration. The committee shall be composed of ten members of the Legislature, five of whom represent predominately rural districts and five of whom represent predominately urban districts. One rural member shall be appointed by the Speaker and serve as a cochairperson. One urban member shall be appointed by the Chairperson of the Executive Board of the Legislative Council and serve as a cochairperson. Two members each, one rural and one urban, shall be appointed respectively by the Chairpersons of the Agriculture, Natural Resources, Transportation, and Urban Affairs Committees of the Legislature.

2. That among its tasks the select committee shall: (a) Identify and inventory rural development and revitalization service providers and programs; (b) assess rural revitalization practices in Nebraska and in other states; (c) analyze programs and practices with a view to their policy implications; (d) identify and assess how rural and urban Nebraskans were bound together in the past and how they are bound together for the future; and (e) develop recommendations on statewide policies for rural revitalization and the restoration of rural-urban links.

3. That staff assistance for this research effort be coordinated by the Legislative Research Division.

Referred to the Executive Board.

Constitution of Nebraska, which is hereby proposed by the Legislature:

CXII-8 "That Article XII of the Constitution of the State of Nebraska be amended by adding a new section numbered 8 and subsections as numbered, notwithstanding any other provisions of this Constitution.

Sec. 8. (1) No corporation or syndicate shall acquire, or otherwise obtain an interest, whether legal, beneficial, or otherwise, in any title to real estate used for farming or ranching in this state, or engage in farming or ranching.

(5) Neither the director nor the state shall be subrogated to or assigned any future right of the applicant to medical support from the assets to which the applicant's spouse is entitled.

Sec. 3. For purposes of determining the right to and obligation of medical support pursuant to sections 68-716, 68-1020, and 68-1026, a qualified recipient's spouse shall be entitled to a portion of the aggregate assets of such spouse and the qualified

recipient, whether owned jointly or singly. Subject to section 8 of this act, if a qualified recipient and such recipient's spouse exercise their right to such entitlement for the recipient's spouse:

(1) The assets to which the recipient's spouse is entitled shall not be considered to be available to the recipient for future medical support and the recipient's spouse shall have no duty of future medical support of the recipient from such assets;

(2) Neither the director nor the state may recover from the assets to which the recipient's spouse is entitled any amount paid for future medical assistance provided to the recipient; and

(3) Neither the director nor the state shall be subrogated to or assigned any future right of the recipient to medical support from the assets to which the recipient's spouse is entitled.

Sec. 4. If a qualified applicant or recipient and such applicant's or recipient's spouse choose to exercise their right to the spouse's entitlement pursuant to section 2 or 3 of this act, the spouse shall be entitled to assets having a combined value of one-half of the value of the aggregate assets, up to a combined value of twenty-five thousand dollars.

Sec. 5. An exercise of the right to an entitlement to assets pursuant to section 2 or 3 of this act shall be evidenced by a written and signed interspousal agreement to designate such assets and to make any transfers necessary to carry out the entitlement. In the case of a qualified recipient, such agreement shall be provided to the director on or before January 1, 1989, and the entitlement shall apply to assets owned as of October 1, 1988. Failure to complete any transfers necessary to carry out the agreement within a reasonable time specified by rules and regulations of the director may render a person ineligible for assistance in accordance with such rules and regulations.

Sec. 6. The Department of Social Services shall furnish to each qualified applicant for and each qualified recipient of medical assistance a clear and

Sec. 7. Once an applicant for or recipient of medical assistance has exercised the right to an entitlement to a portion of the assets for a spouse pursuant to section 2 or 3 of this act, such applicant or recipient may not thereafter again exercise such right for such spouse or any subsequent spouse.

Sec. 8. If a recipient of medical assistance and such recipient's spouse have exercised their right to an entitlement to a portion of their assets for the spouse as provided by section 2 or 3 of this act, upon the death of the recipient or the recipient's spouse, the total amount paid for medical assistance provided to the recipient, without interest, shall be filed as a claim against the estate. ATTORNEY GENERAL'S OPINION

Opinion No. 88004

DATE: January 28, 1988

SUBJECT: Whether LB 1146 adequately protects workers' compensation beneficiaries in the event of bankruptcy by a self-insured employer.

REQUESTED BY: Senator Timothy J. Hall
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Yvonne E. Gates, Assistant Attorney General

The issue of whether trust assets are property of the estate in the debtor's bankruptcy proceedings has been litigated considerably in various jurisdictions. To determine if the debtor has any interest in trust assets the court examines the trust document and assesses the trustor's property rights based on state statutes. The majority of those cases involve situations where the debtor is the beneficiary of the trust, as in spendthrift trusts. Those courts held the trust assets are not property of the estate. See, In the Matter of Rueben Leimer, 54 B.R. 587 (Neb. 1985). Yet, in those cases where the trustor declared bankruptcy and was also a beneficiary of the trust, as in retirement trusts, the courts have found the assets to be included in the bankruptcy estate. See In Re Shuman, 68 B.R. 290 (Nev. 1986); In Re Goff, 812 F.2d 931 (1987). Where the trustor has no legal or equitable interest in the trust, trust assets are clearly not property of the estate. George v. Kitchens by Rice Brothers, 665 F.2d 7 (1981); In the Matter of Lenk, 48 B.R. 867 (DC 1985).

The correctness of this application of the bankruptcy code is clearly established by the legislative history which indicates: "However, only the debtor's interest in such property becomes property of the estate. If the debtor holds bare legal title or holds property in trust for another, only those rights which the debtor would have otherwise had emanating from such interest pass to the estate under section 541." 124 Cong.Rec. H32399, (September 28, 1978) (remarks of Rep. Edwards); 124 Cong Rec. S33999, (October 5, 1978) (remarks of Senator DeConcini).

LB 1146 §2 attempts to legislate the degree of interest retained by the debtor/trustor in the event of bankruptcy, regardless of the provisions in the trust document. Yet, the determination of what property constitutes property of the debtor's estate is made exclusively by application of the Federal Bankruptcy Code. See, Elliott v. Bumb, 356 F.2d 749 (1966).

11 U.S.C. § 541(a) explicitly states "Such estate is comprised of all the following property, wherever located and by whomever held: (1) Except as provided in subsections (b) and (c)(2) of this section, all legal or equitable interests of the debtor in property as of the commencement of the case." Therefore, whatever rights the debtor is granted in the trust assets by the trust agreement will become property of the bankruptcy estate. In those situations where the trustor retains any interest in the trust assets and becomes insolvent, LB 1146 § 2 does not totally protect workers' compensation

beneficiaries. The trust document controls to what extent and how adequately beneficiaries are protected.

However, there are exceptions to what property enters the debtor's estate. 11 U.S.C. § 541 (c)(1) directs

> (c)(1) Except as provided in paragraph (2) of this subsection, an interest of the debtor in property becomes property of the estate under subsection (a)(1), (a)(2), or (a)(5) of this section notwithstanding any provision in an agreement, transfer instrument, or applicable nonbankruptcy law--
>
> (A) that restricts or conditions transfer of such interest by the debtor; or
>
> (B) that is conditioned on the insolvency or financial condition of the debtor, on the commencement of a case under this title, or on the appointment of or taking possession by a trustee in a case under this title or a custodian before such commencement, and that effects or gives an option to effect a forfeiture, modification, or termination of the debtor's interest in property.
>
> (2) A restriction on the transfer of a beneficial interest of the debtor in a trust that is enforceable under applicable nonbankruptcy law is enforceable in a case under this title. (Underscoring added.)

Paragraph 2 has been used as the justification for the rulings in the spendthrift trust cases. Since this is a question of first impression, we cannot say with any degree of certainty that the language of LB 1146 §2, would qualify for the exception permitted by paragraph 2. Because LB 1146 §2 is conditioned on the debtor's insolvency and attempts to exclude the trust assets from the debtor's estate (which is not enforceable under nonbankruptcy law) we believe it is unenforceable.

An alternative would be for the statute to require that any security, indemnity, trust agreement or bond under this section must include provisions restricting beneficial interest to those of the employees of the self insurer, regardless of the solvency or insolvency of the employer. Such language is more likely to qualify for a paragraph 2 exception and adequately protect the workers' compensation beneficiaries to the same extent as spendthrift trust beneficiaries.

Sincerely,
ROBERT M. SPIRE
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 88005

DATE: January 29, 1988

SUBJECT: Constitutionality of LB 180 - Regulation of Automatic Dialing-Announcing Devices (ADAD's).

REQUESTED BY: Senator Don Wesely

Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion regarding the constitutionality of LB 180. Generally, LB 180 would amend existing statutory provisions relating to the regulation of automatic dialing-announcing devices (ADAD's). The bill would prohibit sequential dialing or dialing emergency numbers when using ADAD's. In addition, the bill provides for an increase in the charge for a permit to operate such devices, and requires the renewal of permits every two years.

The principal issue to be addressed in assessing the constitutionality of LB 180 concerns whether the regulation of ADAD's in the manner proposed under the bill constitutes a valid exercise of the state's police power.

The police power is an attribute of state sovereignty, and, within the limitations of state and federal Constitutions, the state may, in its exercise, enact laws for the promotion of public safety, health, morals and generally for the public welfare. Louis Finocchiaro, Inc. v. Nebraska Liquor Control Commission, 217 Neb. 487, 351 N.W.2d 701 (1984); Montgomery v. Blazek, 161 Neb. 349, 73 N.W.2d 402 (1955); State v. Geest, 118 Neb. 562, 225 N.W. 709 (1929); Union Pacific Railroad Co. v. City of Lincoln, 97 Neb. 198, 149 N.W. 419 (1914). The police power extends to all great needs of the state and may be invoked to sanction what is found to be greatly or immediately necessary to the public welfare. United States Brewers' Association v. State, 192 Neb. 328, 220 N.W.2d 544 (1974); Fitch v. State, 102 Neb. 361, 167 N.W. 417 (1918). The power is not stagnant but develops to meet the changing conditions of the state. Pettis v. Alpha Alpha Chapter of Phi Beta Pi, 115 Neb. 525, 213 N.W. 835 (1927).

Within constitutional limits, the Legislature is the sole judge as to what laws should be enacted for the protection and welfare of the people and when and how the police power should be exercised. By its very nature, the power has no set parameters. State ex rel. Baldwin v. Strain, 152 Neb. 763, 42 N.W.2d 796 (1950); State v. Drayton, 82 Neb. 24, 117 N.W. 768 (1908).

The test for whether the power has been used constitutionally is whether the legislature has acted reasonably. Goldblatt v. Town of Hempstead, New York, 369 U.S. 590, 82 S.Ct. 987, 8 L.Ed.2d 130 (1962). The legislative enactment must bear a reasonable relationship to the purpose sought to be accomplished. Louis Finocchiaro, Inc. v. Nebraska Liquor Control Commission, supra; Eckstein v. City of

Lincoln, 202 Neb. 741, 277 N.W.2d 91 (1979); Golden v. Bartholomew, 140 Neb. 65, 299 N.W. 356 (1941); State ex rel. Krittenbrink v. Withnell, 91 Neb. 101, 135 N.W. 376 (1912); State ex rel. Baldwin v. Strain, Supra.

Applying these principles to the provisions of LB 180, we cannot say the bill, on its face, represents an unconstitutional exercise of the state's power to enact legislation promoting the public welfare. The state has a legitimate interest in preventing potential abuses associated with the use of ADAD's, and may validly act to limit and regulate the use of such devices. Furthermore, the state has a valid interest in establishing appropriate limits and restrictions on the use of such devices in the public interest.

In Harriman v. City of Beverly Hills, 275 Cal.App.2d 918, 80 Cal.Rptr. 426 (1969), the court considered a constitutional challenge to a city ordinance regulating telephone answering services. The ordinance at issue required the obtaining of a permit prior to advertising or operating a telephone answering service, and further required the furnishing to the police department of detailed information about employees, including photographs and fingerprints. Id. at ___, 80 Cal.Rptr. at 428. The court upheld the constitutionality of the ordinance, determining the regulation of such businesses in the manner provided was a valid exercise of the city's police power. Id. at ___, 80 Cal.Rptr. at 431-32. While the decision in Harriman involved municipal regulation in an area different than that proposed under LB 180, we believe this decision demonstrates the regulation of telecommunications-related matters clearly falls within the scope of the exercise of the police power.

We note, however, that a recent amendment to LB 180 would increase from $50.00 to $500.00 the application fee for a permit to operate ADAD's. Legislative Journal, Ninetieth Session, p. 233. As a general rule, fees charged for licensing or permits must not be established at a level which is unreasonable or confiscatory. The amount of regulatory license fee need not, however, be limited to the expense associated with the issuance of the license. The charge may properly take into consideration the cost of supervision and enforcement, including such matters as inspection and examination. 51 Am.Jur.2d Licenses and Permits §§114, 115 (1970); See also City of Ord v. Biemond, 175 Neb. 333, 122 N.W.2d 6 (1963). While the determination of what amount constitutes a reasonable fee under such circumstances is a matter to be determined initially by the Legislature, we believe the substantial increase in the application fee proposed under the bill as amended raises a question as to the reasonableness of the charge. We are not, however, able to definitively conclude the fee established is inherently unreasonable.

In conclusion, except for certain reservations we have with respect to the reasonableness of the application fee established in the bill as amended, it is our opinion that the regulatory provisions relating to ADAD's provided under LB 180 represent a valid and constitutional exercise of the state's police power.

Very truly yours,
ROBERT M. SPIRE

LEGISLATIVE BILL 1170. Placed on General File.

LEGISLATIVE BILL 160. Placed on General File as amended.
Standing Committee amendment to LB 160:
AM1839

1. Strike the original sections and insert the following new sections:

"Section 1. That section 79-1522.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1522.01. In lieu of the school retirement allowance provided by section 79-1522, any member who is not an employee of a Class V school district and who becomes eligible to make application for and receive a school retirement allowance under section 79-1520 may receive a formula annuity retirement allowance.

Subject to the other provisions of this section, the monthly formula annuity in the normal form shall be determined by multiplying the number of years of service for which such member would otherwise receive the service annuity provided by section 79-1522 (1) by one and one-quarter percent of his or her final average compensation, (2) by one and one-half percent of his or her final average compensation, or (3) by one and sixty-five hundredths percent of his or her final average compensation. If the annuity begins prior to the sixty-fifth birthday of the member and the member has completed thirty-five or more years of creditable service and is at least sixty years of age, the annuity shall not be reduced. If the annuity begins prior to the sixty-fifth birthday of the member and the member has completed five or more but less than thirty years of creditable service, the annuity at the date it begins shall be reduced by three percent for each year after the member's sixtieth birthday and prior to his or her sixty-fifth birthday. If the annuity begins on or after

the sixtieth birthday of the member and the member has completed at least thirty but less than thirty-five years of creditable service, the annuity at the date it begins shall be reduced by three percent for each year by which the member's years of creditable service is less than thirty-five years or for each year by which the member is less than sixty-five years of age, whichever provides the greater annuity. A member ~~must~~ shall have acquired the equivalent of one-half year of service or more as a public school employee under the school retirement system following August 24, 1975, to be eligible for computation of his or her formula annuity using one and one-quarter percent of his or her final average compensation as one of the factors, ~~must~~ shall have acquired the equivalent of one-half year of service or more as a public school employee under the school retirement system following July 17, 1982, to be eligible for computation of his or her formula annuity using one and one-half percent of his or her final average compensation as one of the factors, or ~~must~~ shall have acquired the equivalent of one-half year of service or more as a public school employee under the school retirement system following July 1, 1984, to be eligible for computation of his or her formula annuity using one and sixty-five hundredths percent of his or her final average compensation as one of the factors.

The normal form of the formula annuity shall be an annuity payable monthly during the remainder of the member's life with the provision that in the event of his or her death before sixty monthly payments have been made the monthly payments shall be continued to his or her estate or to such beneficiary as he or she shall have designated until sixty monthly payments have been made. A member may elect to receive in lieu of the normal form of annuity an actuarially equivalent annuity in any optional form provided by section 79-1530.

Final average compensation for full-time employees shall be determined by dividing the member's total compensation subject to required deposits for the three fiscal years in which such compensation was the highest by thirty-six. Final average compensation for part-time employees shall be determined by dividing total adjusted compensation subject to required deposits for the three fiscal years in which such adjusted

compensation was the highest by thirty-six. If a member has such compensation for less than three such fiscal years his or her final average compensation shall be determined by dividing his or her total compensation in all such years by twelve times the total number of years of his or her service therefor. Adjusted compensation for any year shall be equal to actual pay times the ratio of one to the actual credited service for such year. A member ~~must~~ shall have acquired the equivalent of one-half year of service or more as a public school employee under the school retirement system following August 24, 1975, to be eligible for computation of his or her formula annuity using only five fiscal years in the determination of his or her final average compensation.

All formula annuities shall be paid from the Annuity Reserve Fund. Upon the granting of a formula annuity, there shall be transferred to the Annuity Reserve Fund: (a) From the Service Annuity Fund, the value of the service annuity which would otherwise be payable; (b) from the School Employees' Savings Fund, the accumulated contributions of the member; and (c) from the School Employer's Deposit Fund, the value of the formula annuity in excess of the amounts transferred from the Service Annuity Fund and the School Employees' Savings Fund. The amounts transferred from the Service Annuity Fund at any time after such member attains sixty years of age and prior to his or her sixty-fifth birthday or thirty-five years of creditable service shall be on an actuarially reduced basis.

For the purpose of providing the funds to be transferred from the School Employer's Deposit Fund for formula annuities, every employer shall be required to make deposits in the School Employer's Deposit Fund. Such deposits shall be a uniform percentage of the required contributions of the school employees of each employer and shall be transmitted to the retirement board at the same time and in the same manner as such required employee contributions. ~~In the fiscal year commencing July 1, 1968, such uniform percentage shall be twenty percent of the required school employee contributions. For each fiscal year thereafter, such~~ The uniform percentage shall be determined by the retirement board upon recommendation of the actuary and

shall be determined by deducting from the then present value of all future amounts to be transferred from the School Employer's Deposit Fund the amount then credited to such fund and dividing the remainder by the present value of the prospective future required contributions of all employees of the school districts covered by this section.

Sec. 2. That section 79-1522.02, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1522.02. No provision of section 79-1512, 79-1522.01, 79-1531, 79-1533, or 79-1540 which would result in an increase in benefits that would have been payable prior to July 1, 1984, shall apply to any person until that person has acquired the equivalent of one-half year of service or more as a school employee under the school retirement system following July 1, 1984.

No provision of sections 79-1522.01, 79-1529, 79-1531, or 79-1533 which would result in an increase in benefits that would have been payable prior to July 1, 1986, shall apply to any person until that person has acquired the equivalent of one-half year of service or more as a school employee under the school retirement system following July 1, 1986.

No provisions of sections 79-1522.01, 79-1529, 79-1531, or 79-1533 which would result in an increase in benefits that would have been payable prior to the effective date of this act shall apply to any person unless he or she is employed on such date and has acquired five hundred sixteen or more hours as a school employee under the school retirement system during or after fiscal year 1987-88.

Sec. 3. That section 79-1529, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1529. If any member ceases to be a school employee for any reason other than death, before qualifying for retirement under section 79-1520, the board shall, upon request, issue him or her a certified service record and statement of accumulated contributions and retain such member's accumulated contributions. In such event, no further contributions shall be required, interest on accumulated contributions

shall continue to be credited to his or her account, and none of the member's retirement rights shall be canceled. At age sixty-five or after thirty-five years of creditable service, such member shall become eligible to the retirement allowance provided in sections 79-1522 and 79-1522.01. Any deferred formula annuity provided shall be based on the member's salary preceding the date of termination as if the member had retired on his or her date of termination. At the option of the terminating member and if such member has completed at least five but less than thirty-five years of creditable service, such annuity may commence at any time after such member attains the age of sixty and before his or her sixty-fifth birthday and shall be reduced by the percentages prescribed in section 79-1522.01. Such election by the terminating member may be made at any time prior to the commencement of the annuity payments.

Sec. 4. That original sections 79-1522.01, 79-1522.02, and 79-1529, Reissue Revised Statutes of Nebraska, 1943, are repealed.

Sec. 5. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.".

ATTORNEY GENERAL'S OPINION

Opinion No. 88006

DATE: February 1, 1988

SUBJECT: Impact of LB 258 on the Liability of Volunteer Firefighters and Certified Ambulance Attendants.

REQUESTED BY: Senator Don Wesely
District No. 26

WRITTEN BY: Robert M. Spire, Attorney General
Lisa D. Martin-Price, Assistant Attorney General

QUESTION: 1. Do the liability limitations which were previously incorporated into Neb.Rev.Stat. Sections 71-5111, 71-5511 and 35-107 still apply, or will the provisions of LB 258 replace them?

CONCLUSION: 1. The liability limitations incorporated into Nev.Rev.Stat. Sections 71-5111, 71-5511 and 35-107 will still apply. Our review of pertinent caselaw indicates that special provisions in a statute covering a subject will prevail over general provisions in other statutes.

QUESTION: 2. LB 258 amended Section 23-2402 Paragraph 3 to provide that "volunteer firefighters, and volunteer rescue squad personnel" are "employee(s) of a political subdivision." Of what political subdivisions are they considered to be employees, since services are often provided to more than one political subdivision?

CONCLUSION: 2. We cannot answer this question without more specific information about particular factual situations, because the answer depends on the particular facts of any given situation.

QUESTION: 3. If the certified ambulance attendant is liable only for gross negligence, does this standard also apply to the political subdivision, or is it still liable for the simple negligence of this employee?

CONCLUSION: 3. If a more specific liability standard applies to an employee of the political subdivision, it probably applies to the political subdivision as well.

QUESTION: 4. What constitutes a "single occurrence" for the purposes of Section 23-2416.03?

CONCLUSION: 4. For the purposes of Section 23-2416.03, a "single occurrence" can be defined as any injuries or causes of action arising out of one incident or accident.

QUESTION: 5. Section 23-2402 Paragraph 3 uses the terminology "volunteer rescue squad personnel." Section 71-5102 mandates the licensing of an "ambulance or rescue service." Are "rescue squads" the same as "ambulance or rescue services"?

CONCLUSION: 5. Not entirely. Our review of the relevant statutes indicates that, logically, the reference to "rescue squads" in Section 23-2402 encompasses both the ambulance or rescue services provided for in Section 71-5102 and the "volunteer fire department {or} volunteer first aid, rescue, or emergency squad which provides emergency public first aid and rescue services" referred to in Section 35-107. That is, this provision applies to both rescue services provided by certified ambulance attendants and volunteer firefighters as well as other emergency rescue squad personnel.

QUESTION: 6. If a certified ambulance attendant is acting as a volunteer firefighter, which liability limitation standard is applicable, Section 35-107 or 71-5111? Conversely, if a volunteer firefighter is acting as a certified ambulance attendant, which liability limitation is applicable?

CONCLUSION: 6. Again, the answer to this question depends on the facts of a given situation. However, in its most simplistic form, if a certified ambulance attendant is acting only as a volunteer firefighter and is not employing any of his skills as a certified ambulance attendant, the liability limitation standard in Section 35-107 would logically apply. This analysis would also apply to the converse fact situation.

In questions one and three of your opinion request, you ask essentially the same question: Do the liability limitations which were previously incorporated into Neb.Rev.Stat. Sections 71-5111, 71-5511 and 35-107 still apply, or will the provisions of LB 258 replace them? Before we can answer this question, reference needs to be made to the relevant statutes.

LB 258, which has since been enacted as the Political Subdivisions Tort Claims Act, provides in Nev.Rev.Stat. §23-2416.01 (1987 Supp.) that:

(1) No suit shall be commenced against any employee of a political subdivision for money on account of damage to or loss of property or personal injury to or the death of any person caused by any negligent or wrongful act or omission of the employee while acting

in the scope of his or her office or employment occurring after May 13, 1987, unless a claim has been submitted in writing to the governing body of the political subdivision within one year after such claim accrued in accordance with section 23-2404. (Emphasis added.)

Neb.Rev.Stat. §23-2402 (1987 Supp.) was amended by LB 258 to include volunteer firefighters and volunteer rescue squad personnel as employees of political subdivisions. Thus, the general provisions of the Political Subdivisions Tort Claims Act provide that a political subdivision is liable for the simple negligence of its employees.

However, Neb.Rev.Stat. §71-5111 (1987 Supp.) and §35-107 (Reissue 1984) provide that certified ambulance attendants and volunteer firefighters or other volunteer first aid, rescue or emergency squads, respectively, are not liable for damages resulting from his or her act or omission as long as he acts in good faith, unless he or she causes damage by a willful, wanton or grossly negligent act or omission.

Although it appears that these statutes are inconsistent, the Nebraska Supreme Court has established guidelines for interpreting conflicting provisions in different statutes. In Glockel v. State Farm Mutual Automobile Insurance Company, 219 Neb. 222, 361 N.W.2d 559 (1985), the court noted:

It is a well established rule that special provisions of a statute in regard to a particular subject will prevail over general provisions in the same or other statutes so far as there is a conflict. Houser v. School Dist. of South Sioux City, 189 Neb. 323, 202 N.W.2d 621. Where general and special provisions of statues are in conflict, the general law yields to the special, without regard to priority of dates in enacting the same, and a special law will not be repealed by general provisions unless by express words or necessary implication. Bass v. County of Saline, 171 Neb. 538, 106 N.W.2d 860. (Emphasis added.)

Id. at 231, 361 N.W.2d at 565; Kibbon v. School Dist. of Omaha, 196 Neb. 293, 298-99, 242 N.W.2d 634, 637 (1976).

Thus, it is apparent that the special provisions in Sections 71-5111 and 35-107 limiting the liability of certified ambulance attendants and volunteer firefighters and other rescue or emergency squad personnel to wanton, willful or grossly negligent acts or omissions applies even if they are employed by a political subdivision. That is, unless LB 258 repealed these special provisions "by express words or necessary implication," they should be applied over the general provisions.

To aid in making this determination, the Nebraska Supreme Court set forth the following guidelines regarding the construction of statutes:

> The legislative intent is the cardinal rule in the construction of statutes. All statutes relating to the same subject are considered as parts of a homogeneous system and later statutes are considered as supplementary to preceding enactments. Statutes relating to the same subject, although enacted at different times, are in pari materia and should be construed together.

Northwest High School District No. 82 v. Hessel, 210 Neb. 219, 223, 313 N.W.2d 656, 658 (1981). After reviewing the legislative history behind LB 258, it is clear that the legislature did not intend to repeal Sections 71-5111 and 35-107 setting forth special standards of liability for certain employees; rather, it was intended to prescribe a uniform method for filing tort suits against employees of political subdivisions. It was also intended to place a ceiling on the limit of liability to a political subdivision for the negligence of its employees. There is no language in the legislative history reflecting an intent to repeal any special standards for employee liability. The provision stating that a political subdivision is liable for the simple negligence of its employees takes effect in the absence of some statutory provisions setting forth a special liability standard for a certain employee.

In your second inquiry, you state that LB 258 provides that "volunteer firefighters, and volunteer rescue squad personnel" are "employee(s) of a political subdivision." In this regard, you ask of which political subdivision are they considered to be employees, since services are often provided to more than one political subdivision? The answer to this question depends upon the specific facts in a particular situation. Without any factual information, we can only speculate as to the situations that may arise where it is unclear as to which political subdivision employs the person in question. Therefore, we are unable to answer your question at this time.

Thirdly, you ask if a certified ambulance attendant is liable only for gross negligence, does this standard also apply to the political subdivision, or is it still liable for the simple negligence of this employee? Although this is a grey area, after reviewing the statutes and pertinent caselaw, we conclude that, if a more specific liability standard applies to an employee of the political subdivision, it probably applies to the political subdivision as well.

In the Political Subdivisions Tort Claims Act, a tort claim is defined as follows:

> Tort claim shall mean any claim against a political subdivision for money only on account of damage to or loss of property or on account of personal injury or death, caused by the negligent or wrongful act or omission of any employee of the political subdivision, while acting within the scope of his or her office or

> employment, under circumstances in which the political subdivision, if a private person, would be liable to the claimant for such damage, loss, injury, or death, but shall not include any claim accruing before January 1, 1970. (Emphasis added.)

Neb.Rev.Stat. §23-2402(4) (1987 Supp.). From this, it is apparent that the Legislature intended that a political subdivision be held liable only for the negligent acts of its employees if it could be held liable as a private person or corporation. The liability provisions in the Act are most analogous to the liability limits in the doctrine of respondeat superior, which makes the employer liable to the same extent as its employee. 53 Am.Jur.2d, Master and Servant, §407.

Moreover, as discussed previously, the specific liability provisions contained in Sections 71-5111 and 35-107 control over the general liability provisions contained in Section 23-2416.01. Thus, since certified ambulance attendants and volunteer rescue squad personnel would only be liable for their willful, wanton, or grossly negligent acts, it would be absurd to hold the political subdivision liable for their simple negligence. In this regard, the Nebraska Supreme Court has stated:

> A sensible construction will be placed upon a statute to effectuate the object of the legislation rather than a literal meaning that would have the effect of defeating the legislative intent. . . . It is a fundamental rule of construction that in construing statutes this court will, if possible, try to avoid a construction which leads to absurd, unjust, or unconscionable results.

Adkisson v. City of Columbus, 214 Neb. 129, 133-134, 333 N.W.2d 661, 664-665 (1983).

Significantly, the legislative history of the Act does not demonstrate that the legislature intended to hold a political subdivision to a standard of liability greater than that of its employees. Clearly, the Act provides that a political subdivision is liable for the simple negligence of its employees if there are no specific statutory provisions subjecting them to a more limited standard of liability. For example, a truck driver or common laborer would be subject to liability for his simple negligence. However, if there are more specific statutory provisions setting forth the standard of liability for an employee, these prevail over the general provisions of the Act as it pertains to the employee and the political subdivision.

The next issue you raise is what constitutes a "single occurrence" for the purposes of Section 23-2416.03? Neb.Rev.Stat. §23-2416.03 (1987 Supp.) provides:

> The total amount recoverable against any employee for claims filed pursuant to section 23-2416.01 or 23-2416.02 arising out of

an occurrence after May 13, 1987, shall be limited to: (1) One million dollars for any person for any number of claims arising out of a single occurrence; and (2) five million dollars for all claims arising out of a single occurrence. (Emphasis added.)

The meaning of the phrase "single occurrence" can be inferred from its usage in some negligence cases in this state. For example, in P.R. Halligan Post 163 v. Schultz, 212 Neb. 329, 331, 322 N.W.2d 657, 658 (1982), this court stated: "The judicial unit for an appeal is the final determination of the issues arising from a set of facts involved in the same transaction or occurrence, and not the determination of an individual issue not disposing of the action." Looking at this language in conjunction with the plain language of the statute, we interpret the phrase "single occurrence" to mean any injuries or causes of action arising out of one incident or accident.

In your fifth inquiry, you state that Section 23-2402 Paragraph 3 uses the terminology "volunteer rescue squad personnel." Additionally, Section 71-5102 mandates the licensing of an "ambulance or rescue service." You then ask the question whether or not "rescue squads" are the same as "ambulance or rescue services"? Our interpretation of this phrase is based upon a logical analysis of the statutes involved.

In drafting this portion of the Political Subdivisions Tort Claims Act, we think that the legislature used the phrase "volunteer firefighters and volunteer rescue squad personnel" to encompass both the "ambulance or rescue services" provided for in Section 71-5102 and the "volunteer first aid, rescue, or emergency squad which provides emergency public first aid and rescue services" referred to in Section 35-107. That is, this provision incorporates the rescue services provided by certified ambulance attendants with the services provided by volunteer firefighters and other emergency rescue squad personnel into a single reference.

Finally, you ask if a certified ambulance attendant is acting as a volunteer firefighter, which liability standard is applicable, Section 35-107 or 71-5111? Conversely, if a volunteer firefighter is acting as a certified ambulance attendant, which liability limitation is applicable? Again, the answer to this question depends upon the specific facts of a given situation. For this reason, we can not provide you with an in-depth answer to your question. However, if we break your question down to its most simplistic form, it is apparent that if a certified ambulance attendant is acting only as a volunteer firefighter and is not employing any of his skills as a certified ambulance attendant, the liability limitation standard in Section 35-107 would logically apply. This analysis would also apply to the converse fact situation.

ROBERT M. SPIRE

MOTION - Return LB 180 to Select File

Mr. Schmit moved to return LB 180 to Select File for the following specific amendment:
AM1730

(Amendment to Final Reading Copy)

1. Insert the following new sections:

"Section 1. The Public Service Commission shall regulate the provision of the service of providing information to telephone callers for a fee, including, but not limited to, dial data and 976 service, by

telecommunications companies and others. Such regulation shall include the regulation of rates charged for such service.

Sec. 2. That section 86-803, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

86-803. (1) Except as provided in sections 86-801 to 86-811, telecommunications companies shall be subject to regulation by the commission. Telecommunications companies shall not, however, be subject to any rate regulation by the commission and shall not be subject to provisions as to rates and charges prescribed in Chapter 75, articles 1 and 6, other than rate regulation permitted under section 1 of this act. Telecommunications companies shall, instead, file rate lists for their telecommunications services which shall be effective after ten days' notice to the commission with the exception of monthly rates for basic local exchange services.

(2) Except as provided in subsection (4) of this section, monthly basic local exchange rates may be changed by a telecommunications company effective after sixty days' notice to all affected subscribers. Such notice shall include (a) the reasons for the rate increase, (b) a description of the affected service, (c) an explanation of the right of the subscriber to petition the commission for a public hearing on the rate increase, (d) a list of exchanges which are affected by the proposed rate increase, and (e) the dates, times, and places for the public informational meetings required by this section. A telecommunications company which proposes to increase its basic local exchange rate shall hold at least one public informational meeting in each commission district as established by section 5-107 in which it provides basic local exchange service prior to the effective date of the rate increase. If the telecommunications company presently charges different rates for residential or business basic service among various exchanges, increases or decreases in basic local exchange rates need not be uniform for all exchanges until all residential basic local exchange rates are fully equalized and all business basic local exchange rates are fully equalized. Thereafter, the amount of any increase or decrease in a business basic local

exchange rate or residential basic local exchange rate made pursuant to this section shall be the same for all business service subscribers or for all residential service subscribers within the local service area of the telecommunications company making such increase or decrease. For purposes of this section, local service area shall mean the total area within the state for which a basic local exchange service is provided by a telecommunications company.

(3) The commission shall review basic local exchange rates set by any telecommunications company only upon formal complaint signed by (a) five percent of all affected subscribers if the telecommunications company has up to fifty thousand access lines in service, (b) three percent of all affected subscribers if the telecommunications company has fifty thousand but not more than two hundred fifty thousand access lines in service, or (c) two percent of all affected subscribers if the telecommunications company has more than two hundred fifty thousand access lines in service. The complaint shall specifically set forth the particular rate or charge as to which review is requested, the reasons for the requested review, and the relief which the complainants desire. If a proper complaint is presented to the commission within sixty days from the date notice of the rate change was sent to subscribers, the commission shall accept and file the complaint and, upon proper notice, may suspend the rates and charges at issue during the pendency of the proceedings and reinstate the rates and charges previously in effect and shall hold and complete a hearing thereon within ninety days after filing to determine if the rates as proposed are fair, just, and reasonable. The commission may, within sixty days after close of the hearing, enter an order adjusting the rates and charges at issue, except that the commission may not set any rate or charge below the actual cost of providing such service as established by the evidence received at the hearing. In such order, the commission may order a refund of amounts collected in excess of the rates and charges as approved at the hearing which may be paid as a credit against billings for future services. A telecommunications company shall not increase its rates without the approval of the commission for six months from the date the commission

enters such order. If the commission fails to enter any order within sixty days after the close of the hearing, the complaint shall be deemed denied and the rates and charges shall be deemed approved for all purposes including for purposes of appeal. For purposes of this section, actual cost shall also include a ratable portion of administrative expenses and overhead incurred by the telecommunications company in its operations and the appropriate amortization of previously deferred accounting costs. This subsection shall terminate on August 31, 1991.

(4) A telecommunications company may at any time file an application with the commission requesting the commission to prescribe fair and reasonable rates for the company or such telecommunications company may elect to proceed, if eligible, under section 75-609.01. Such proceedings shall be governed by Chapter 75, articles 1 and 6, and shall not be limited by subsection (2) of this section. Any rate so set may thereafter be adjusted as provided in subsections (1) and (2) of this section.

(5) In setting rates for interexchange services, telecommunications companies that provide such services shall continue to average their rates for all such services on a statewide basis until August 31, 1991, unless the commission, upon application and hearing, orders otherwise. This subsection shall not prohibit volume discounts or other discounts based on reasonable business purposes. With regard to interexchange telecommunications services, nothing in sections 86-801 to 86-811 shall preempt or affect any right, liability, cause of action, duty, or obligation arising from any law with regard to unfair business practices or anticompetitive activity.

(6) The commission shall retain quality of service regulation over the services provided by all telecommunications companies and shall investigate and resolve subscriber complaints concerning quality of telecommunications service, subscriber deposits, and disconnection of service. If such complaint cannot be resolved informally, then, upon petition by the subscriber, the commission shall set the matter for hearing in accordance with the commission's rules and regulations for notice and hearing and may by order

render its decision granting or denying in whole or in part the subscriber's petition or provide such other relief as is reasonable based on the evidence presented to the commission at the hearing. Any such order of the commission may be enforced against any telecommunications company as provided in sections 75-140 to 75-145 and may be appealed.

(7) Except as provided in subsection (4) of this section, the commission may, on its own motion, review basic local exchange rates of any telecommunications company if the company has increased such rates by more than ten percent within any consecutive twelve-month period. The commission shall hold and complete a hearing on such rates within ninety days after first giving notice of such hearing to the telecommunications company to determine if the rates as proposed are fair, just, and reasonable. The commission may, within sixty days after close of the hearing, enter an order adjusting the rates and charges at issue, except that the commission may not set any rate or charge below the actual cost of providing such service as established by the evidence received at the hearing. In such order, the commission may order a refund of amounts collected in excess of the rates and charges as approved at the hearing which may be paid as a credit against billings for future services. If the commission fails to enter any order within sixty days after the close of the hearing, the rates and charges shall be deemed approved for all purposes, including for purposes of appeal. For purposes of this subsection, actual cost shall also include a ratable portion of administrative expenses and overhead incurred by the telecommunications company in its operations and the appropriate amortization of previously deferred accounting costs.

(8) The commission may order that flat rate services shall be available whenever measured service is implemented and that for such services the price restrictions prescribed in sections 86-801 to 86-811 shall be retained. Measured service shall mean basic local exchange service, the rate for which is a combination of a flat rate access line charge plus usage charges which may be based upon number of calls, length of call, distance, and time of day.

(9) Rates being charged by telecommunications

companies on January 1, 1987, shall be deemed to be the effective rates until changed or altered pursuant to sections 86-801 to 86-811.

(10) No telecommunications company may change its basic local exchange rate within ninety days after entry of a final order adjusting such rate pursuant to subsections (3), (4), and (7) of this section.

(11) Any order of the commission entered pursuant to authority granted in sections 86-801 to 86-811 may be appealed by any party to the proceeding in accordance with sections 75-136 to 75-139.".

3. On page 2, line 2, after the semicolon insert "to harmonize provisions;".

SPECIAL COMMITTEE REPORT
Nebraska Retirement Systems

LEGISLATIVE BILL 879. Placed on General File as amended.
Special Committee amendments to LB 879:
AM1901

1. Strike original sections 1 to 6 and 9 and insert the following new sections:

"Section 1. That section 79-1522.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read

as follows:

79-1522.01. In lieu of the school retirement allowance provided by section 79-1522, any member who is not an employee of a Class V school district and who becomes eligible to make application for and receive a school retirement allowance under section 79-1520 may receive a formula annuity retirement allowance.

Subject to the other provisions of this section, the monthly formula annuity in the normal form shall be determined by multiplying the number of years of service for which such member would otherwise receive the service annuity provided by section 79-1522 (1) by one and one-quarter percent of his or her final average compensation, (2) by one and one-half percent of his or her final average compensation, or (3) by one and sixty-five hundredths percent of his or her final average compensation. If the annuity begins prior to the sixty-fifth birthday of the member, the annuity at the date it begins shall be reduced by three percent for each year after the member's sixtieth birthday and prior to his or her sixty-fifth birthday. A member ~~must~~ shall have acquired the equivalent of one-half year of service or more as a public school employee under the school retirement system following August 24, 1975, to be eligible for computation of his or her formula annuity using one and one-quarter percent of his or her final average compensation as one of the factors, ~~must~~ shall have acquired the equivalent of one-half year of service or more as a public school employee under the school retirement system following July 17, 1982, to be eligible for computation of his or her formula annuity using one and one-half percent of his or her final average compensation as one of the factors, or ~~must~~ shall have acquired the equivalent of one-half year of service or more as a public school employee under the school retirement system following July 1, 1984, to be eligible for computation of his or her formula annuity using one and sixty-five hundredths percent of his or her final average compensation as one of the factors.

The normal form of the formula annuity shall be an annuity payable monthly during the remainder of the member's life with the provision that in the event of his or her death before sixty monthly payments have been made the monthly payments shall be continued to his

or her estate or to such beneficiary as he or she shall have designated until sixty monthly payments have been made. A member may elect to receive in lieu of the normal form of annuity an actuarially equivalent annuity in any optional form provided by section 79-1530.

Final average compensation for full-time employees shall be determined by dividing the member's total compensation subject to required deposits for the three fiscal years in which such compensation was the highest by thirty-six. Final average compensation for part-time employees shall be determined by dividing total adjusted compensation subject to required deposits for the three fiscal years in which such adjusted compensation was the highest by thirty-six. If a member has such compensation for less than three such fiscal years his or her final average compensation shall be determined by dividing his or her total compensation in all such years by twelve times the total number of years of his or her service therefor. Adjusted compensation for any year shall be equal to actual pay times the ratio of one to the actual credited service for such year. A member ~~must~~ shall have acquired the equivalent of one-half year of service or more as a public school employee under the school retirement system following August 24, 1975, to be eligible for computation of his or her formula annuity using only five fiscal years in the determination of his or her final average compensation.

All formula annuities shall be paid from the Annuity Reserve Fund. Upon the granting of a formula annuity, there shall be transferred to the Annuity Reserve Fund: (a) From the Service Annuity Fund, the value of the service annuity which would otherwise be payable; (b) from the School Employees' Savings Fund, the accumulated contributions of the member; and (c) from the School Employer's Deposit Fund, the value of the formula annuity in excess of the amounts transferred from the Service Annuity Fund and the School Employees' Savings Fund.

~~For the purpose of providing the funds to be transferred from the School Employer's Deposit Fund for formula annuities, every employer shall be required to make deposits in the School Employer's Deposit Fund. Such deposits shall be a uniform percentage of the~~

~~required contributions of the school employees of each employer and shall be transmitted to the retirement board at the same time and in the same manner as such required employee contributions. In the fiscal year commencing July 1, 1968, such uniform percentage shall be twenty percent of the required school employee contributions. For each fiscal year thereafter, such uniform percentage shall be determined by the retirement board upon recommendation of the actuary and shall be determined by deducting from the then present value of all future amounts to be transferred from the School Employer's Deposit Fund the amount then credited to such fund and dividing the remainder by the present value of the prospective future required contributions of all employees of the school districts covered by this section.~~

Sec. 2. That section 79-1531, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1531. (1) For the purpose of providing the funds to be transferred from the School Employees' Savings Fund for formula annuities, every employee shall be required to make deposits in the School Employees' Savings Fund. Such deposits shall be a percentage of total compensation and shall be transmitted at the same time and in the same manner as required employer contributions. For each fiscal year, such percentage shall be determined by the retirement board upon recommendation of the actuary and shall be equal to forty-nine and seventy-five hundredths percent of the amount determined by deducting from the then actuarial present value of all future liabilities to be funded by transfers from the School Employer's Deposit Fund and the School Employees' Savings Fund the amount then credited to such funds and dividing the remainder by the actuarial present value of one percent of future compensation for current active members.

(2) For the purpose of providing the funds to be transferred from the School Employer's Deposit Fund for formula annuities, every employer shall be required to make deposits in the School Employer's Deposit Fund. Such deposits shall be one hundred one percent of the required contributions of the school employees of each employer and shall be transmitted to the retirement

board at the same time and in the same manner as such required employee contributions. ~~Each member of the retirement system shall be required to make a deposit, or have a deposit made on his or her behalf, in the School Employees' Savings Fund equal to five and four-tenths percent of all compensation. All amounts deposited by or on behalf of any school employee shall be held for the benefit of the individual school employee in the School Employees' Savings Fund and shall be credited to his or her account in this fund for the purpose of providing an annuity or other benefit as provided in sections 79-1501 to 79-1557.~~

~~(2)~~ (3) The employer shall pick up the member contributions required by this section for all compensation paid on or after January 1, 1986, and the contributions so picked up shall be treated as employer contributions in determining federal tax treatment under the United States Internal Revenue Code, except that the employer shall continue to withhold federal income taxes based upon these contributions until the Internal Revenue Service, or the federal courts, rule that, pursuant to section 414(h) of the United States Internal Revenue Code, these contributions shall not be included as gross income of the member until such time as they are distributed or made available. The employer shall pay these member contributions from the same source of funds which is used in paying earnings to the member. The employer shall pick up these contributions by a salary deduction either through a reduction in the cash salary of the member or a combination of a reduction in salary and offset against a future salary increase. Member contributions picked up shall be treated for all purposes of sections 79-1501 to 79-1565 in the same manner and to the same extent as member contributions made prior to the date picked up.

Sec. 3. That section 79-1533, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

79-1533. Every employer shall deduct and withhold an amount from the compensation as a school employee of each member on each and every payroll period after such school employee becomes a member of the retirement system ~~five and four-tenths percent of such compensation of such member~~ pursuant to section 79-1531.

The employer, through its proper agents, the city or county superintendent, or the secretary of the school board or board of education, shall transmit monthly, quarterly, or semiannually if the retirement board shall so direct a copy of such payroll, in such form as shall be approved by the retirement board, and a remittance payable to the order of the State Treasurer for all deductions from the compensation of members on such payroll. The remittances may be by draft, money order, check, or otherwise according to ~~the rule~~ rules and regulations adopted and promulgated by the retirement board. All such amounts due to the retirement board shall bear interest at the rate of six percent per annum if the payment of the same is delayed more than thirty days after the time prescribed for payment. The proceeds of the interest charge shall be used to reimburse the account of each school employee, deprived of interest by the delay, with regular interest, and the balance shall be paid into the School Employees' Savings Fund. ~~of the retirement system.~~

Sec. 7. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.".

2. On page 17, line 16, strike "79-1540, 79-1549, 79-1558,".

LEGISLATIVE BILL 256. Placed on General File as amended.
Standing Committee amendment to LB 256:
AM1912

1. Strike the original sections and insert the following new sections:

"Section 1. This act shall be known and may be cited as the Nebraska Health Care Information Access Act.

Sec. 2. The Legislature finds that patients need to be able to obtain access to their own health care information as a matter of fairness. Access to health care information will enable patients to make informed decisions about their health care and permit patients to correct inaccurate or incomplete information about themselves.

Sec. 3. As used in the Nebraska Health Care Information Access Act, unless the context otherwise requires:

(1) Health care shall mean any care, service, or procedure provided by a health care provider (a) to diagnose, treat, or maintain a patient's physical or mental condition or (b) that affects the structure or any function of the human body;

(2) Health care facility shall mean a hospital, clinic, nursing home, laboratory, office, or other location where a health care provider provides health care to patients;

(3) Health care information shall mean any information in any form or medium, that identifies or can readily be associated with the identity of a patient and relates to the patient's health care. Health care information shall include any record of disclosures of a patient's health care information;

(4) Health care provider shall mean a person who is licensed, certified, or otherwise authorized by the law of this state to provide health care in the ordinary course of business or the practice of a profession. Health care provider shall not include a person who provides health care solely through the sale or dispensing of drugs or medical devices;

(5) Maintain, as related to health care information, shall mean to hold, possess, preserve, retain, store, or control health care information;

(6) Patient shall mean an individual who receives or has received health care. Patient shall also include a deceased individual who has received health care; and

(7) Person shall mean an individual, corporation, government, governmental subdivision or agency, business trust, estate, trust, partnership, or association or any other legal entity.

Sec. 4. (1) Upon receipt of a written request

from a patient to examine or copy all or part of the patient's health care information, a health care provider, as promptly as required under the circumstances but not later than twenty-one working days after receiving the request, shall:

(a) Make the health care information or a summary of the health care information available for examination during regular business hours consistent with the reasonable rules and regulations of the health care provider and provide a copy of the health care information or summary of the health care information, if requested, to the patient;

(b) Inform the patient if the health care information does not exist or cannot be found;

(c) If the health care provider does not maintain the health care information, inform the patient and provide the name and address, if known, of the health care provider who maintains the health care information;

(d) If the health care information is in use or unusual circumstances have delayed handling the request, inform the patient and specify in writing the reasons for the delay and the earliest date the health care information will be available for examination or copying or when the request will otherwise be disposed of; or

(e) Deny the request, in whole or in part, pursuant to section 5 of this act and inform the patient.

(2) Upon request, the health care provider shall provide an explanation of any code or abbreviation used in the health care information. If health care information is not maintained by the health care provider in the requested form, the health care provider shall not be required to create a new record or reformulate an existing record to make the health care information available in the requested form. The health care provider may charge a reasonable fee for providing health care information or a summary of the health care information and shall not be required to permit examination or copying of such information or summary until the fee is paid.

Sec. 5. (1) A health care provider may deny access to health care information by the patient if the

health care provider reasonably concludes that:

(a) Knowledge of the health care information would be injurious to the health of the patient;

(b) Knowledge of the health care information could reasonably be expected to lead to the identification of the individual who provided the information in confidence and under circumstances in which confidentiality was appropriate;

(c) Knowledge of the health care information could reasonably be expected to cause danger to the life or safety of any individual;

(d) The health care information was compiled and is used primarily for litigation, quality assurance, peer review, or administrative purposes; or

(e) Access to the health care information is otherwise prohibited by law.

(2) If a health care provider denies an examination and copying request pursuant to this section, the health care provider, to the extent possible, shall segregate health care information for which access has been denied pursuant to this section from health care information for which access cannot be denied and permit the patient to examine or copy the disclosable health care information or a summary of the health care information.

(3) If a health care provider denies a patient's request for examination and copying, in whole or in part, pursuant to subdivision (1)(a) or (1)(c) of this section, the health care provider shall permit examination and copying of the health care information by another health care provider selected by the patient who is licensed, certified, or otherwise authorized under the laws of this state to practice the same profession as the original health care provider.

Sec. 6. For purposes of accuracy or completeness, a patient may request in writing that a health care provider correct or amend the patient's health care information to which a patient has access under section 4 of this act. As promptly as required under the circumstances, the health care provider shall make the requested correction or permit the patient to add a statement to the patient's health care information.

Sec. 7. Any person aggrieved by a violation

of the Nebraska Health Care Information access act may maintain an action for relief. The court may order the health care provider or other person to comply with the act and may order any other appropriate relief. If the court determines that there is a violation of the act, the aggrieved person shall be entitled to recover damages for pecuniary losses sustained as a result of the violation. In any action or proceeding under the act, the court in its discretion may allow the prevailing party a reasonable attorney's fee as part of the costs. Any action under the Nebraska Health Care Information Access Act shall be barred unless the action is commenced within two years after the cause of action arises.

Sec. 8. The Nebraska Health Care Information access act shall not restrict a health care provider from complying with obligations imposed by federal health care payment programs or federal law.

Sec. 9. A person authorized to consent to health care for another may exercise the rights of such other person under the Nebraska Health Care Information Access Act to the extent necessary to effectuate the terms or purposes of the grant of authority. A patient who is a minor who receives health care without parental consent as authorized under the laws of this state may exclusively exercise the rights of a patient under the act as to information pertaining to health care to which the minor lawfully consented. A person authorized to act for a patient shall act in good faith to represent the best interests of the patient.

Sec. 10. A personal representative of a deceased patient may exercise all of the deceased patient's rights under the Nebraska Health Care Information Access Act. If there is no personal representative or upon discharge of the personal representative, a deceased patient's rights under such act may be exercised by any person who is authorized by law to act for the deceased patient.

Sec. 11. Except as expressly provided in the Nebraska Health Care Information Access Act, the act shall not be construed to establish, diminish, or abrogate current law in this state concerning the release or disclosure of health care information.

Sec. 12. The Nebraska Health Care Information

Access Act shall not affect any other law which more severely restricts the disclosure of specific types of health-record information to any person other than the subject of such information.

Sec. 12. If any section in this act or any part of any section shall be declared invalid or unconstitutional, such declaration shall not affect the validity or constitutionality of the remaining portions thereof.".

UNANIMOUS CONSENT - Print in Journal

Mr. V. Johnson asked unanimous consent to print the following amendment to LB 122 in the Journal. No objections. So ordered.

AM1943

1. Insert the following new sections:

"Sec. 2. That section 29-1912, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

29-1912. (1) When a defendant is charged with a felony or when a defendant is charged with a misdemeanor or a violation of a city or village ordinance for which imprisonment is a possible penalty, he or she may request the court where the case is to be tried or magistrate where the preliminary hearing is to be held, at any time after the filing of the indictment, information, or complaint, to order the prosecuting attorney to disclose to the defense counsel all of the material and information within the prosecuting attorney's possession or control or within that of any law enforcement agency or member of the agency including, but not limited to:

(a) Any written or recorded statements and the substance of any oral statements made by the defendant or made by a codefendant; ~~permit the defendant to inspect and copy or photograph:~~

~~(a) The defendant's statement, if any. For purposes of this subdivision statement shall mean a written statement made by the defendant and signed or otherwise adopted or approved by him or her, or a stenographic, mechanical, electrical, or other~~

~~recording, or a transcription thereof, which is a substantially verbatim recital of an oral statement made by the defendant to an agent of the prosecution, state, or political subdivision thereof, and recorded contemporaneously with the making of such oral statement;~~

(b) The defendant's prior criminal record or that of a codefendant, if any;

(c) ~~The defendant's recorded testimony before a grand jury~~ Those portions of grand jury minutes containing testimony of witnesses;

(d) The names and addresses of witnesses ~~on whose evidence the charge is based~~ together with their relevant written or recorded statements;

(e) ~~The results and reports of physical or mental examinations, and of scientific tests, or experiments made in connection with the particular case, or copies thereof~~ Any reports or statements made by experts in connection with the particular case, including results of mental or physical examinations and scientific tests, experiments, or comparisons; and

(f) Documents, papers, books, accounts, letters, photographs, objects, or other tangible things of whatsoever kind or nature which could be used as evidence by the prosecuting authority.

(2) When the information is within the prosecuting attorney's possession or control, the prosecuting attorney shall inform the defense counsel:

(a) If relevant, recorded grand jury testimony has not been transcribed;

(b) If the defendant's conversations or premises have been subjected to electronic surveillance, including wiretapping;

(c) If the prosecuting attorney intends to conduct scientific tests, experiments, or comparisons which may consume or destroy the subject of the test or intends to dispose of relevant physical objects; and

(d) If the prosecuting attorney intends to offer, as part of the proof that the defendant committed the offense charged, evidence of other offenses.

(3) The prosecuting attorney shall disclose to the defense counsel any material or information within the prosecuting attorney's possession or control which tends to negate the guilt of the defendant as to the

offense charged or which would tend to reduce the punishment of the defendant.

(4) The prosecuting attorney's obligations under this section extend to material and information in the possession or control of members of the prosecuting attorney's staff and of any others who either regularly report or, with reference to the particular case, have reported to the prosecuting attorney's office.

(5) The court or magistrate shall permit the defendant at his or her cost to inspect and copy or photograph any of the items described in this section, including investigatory reports.

(6) ~~(2)~~ The court or magistrate may issue ~~such an order~~ any orders pursuant to ~~the provisions of~~ this section. In the exercise of its judicial discretion, the court shall consider among other things whether:

(a) The request is material to the preparation of the defense;

(b) The request is not made primarily for the purpose of harassing the prosecution or its witnesses;

(c) The request, if granted, would not unreasonably delay the trial of the offense and an earlier request by the defendant could not have reasonably been made;

(d) There is no substantial likelihood that the request, if granted, would preclude a just determination of the issues at the trial of the offense; or

(e) The request, if granted, would not result in the possibility of bodily harm to, or coercion of, witnesses.

(7) ~~(3)~~ Whenever the court refuses to grant an order pursuant to ~~the provisions of~~ this section, it shall render its findings in writing together with the facts upon which the findings are based.

(8) ~~(4)~~ Whenever the prosecuting attorney believes that the granting of an order under ~~the provisions of~~ this section will result in the possibility of bodily harm to witnesses or that witnesses will be coerced, the court may permit him or her to make such a showing in the form of a written statement to be inspected by the court alone. The statement shall be sealed and preserved in the records of the court to be made available to the appellate court

in the event of an appeal by the defendant.

Sec. 3. That original section 29-1912, Reissue Revised Statutes of Nebraska, 1943, and also sections 29-1922 to 29-1924, Reissue Revised Statutes of Nebraska, 1943, are repealed.".

ATTORNEY GENERAL'S OPINION

Opinion No. 88007

DATE: February 10, 1988

SUBJECT: Constitutionality of LB 350, an Act to Regulate the Shipping or Mailing of Prescription Drugs into the State of Nebraska

REQUESTED BY: Senator Chris Abboud
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

You have requested our opinion as to the constitutionality of certain portions of LB 350, the Mail Service Prescription Drug Act. Specifically, you question whether §2(1)(c) of the Act, which provides that a person operating outside the State of Nebraska may not mail or deliver prescription drugs into the state unless that person is operating in a state in which the requirements and qualifications for obtaining and maintaining a pharmacy license are substantially equivalent to those of Nebraska, is constitutional under the Commerce Clause of the United States Constitution. We have reviewed the applicable law in light of the question which you raised, and it is our view that §2(1)(c) is pre-empted by the existing Federal law in this area, and therefore unconstitutional under the Federal constitutional provision which you cited.

This opinion is the third in a series of opinions which this office has produced in connection with several various bills attempting to regulate the interstate sale of prescription drugs through the mail. In our opinion number 57, dated April 9, 1985, we considered the constitutionality of LB 578 which provided that pharmacies operating outside of the State of Nebraska which sold or mailed prescription drugs into the state must hold a pharmacy license issued by the Nebraska Department of Health and must comply with Nebraska law, rules and regulations governing the practice of pharmacy. We determined that LB 578 was unconstitutional under the Commerce Clause of the United States Constitution because the state's regulatory interest in policing mail order drug sales was not great enough to justify the burden which the bill would place on interstate commerce, particularly given the extensive system of Federal statutes governing the same industry. In our opinion number 86016, dated February 14, 1986, we considered the constitutionality of a version of LB 578 which would have required all out-of-state

pharmacies dispensing prescription drugs into the state to hold a pharmacy permit issued by the Department of Health in Nebraska, but which would have exempted any out-of-state pharmacies holding a pharmacy permit in the state where they were located if the requirements and qualifications for such permit were substantially equivalent to those contained in specific portions of the Nebraska statutes. In that opinion, we questioned the propriety of attempting to police another state to assure that an applicant for a permit complied with Nebraska law based upon the notion that each state's sovereign power ends at its boundaries. We suggested that the exemption proposed for LB 578 become the general rule; that is, all out-of-state pharmacies dispensing prescription drugs into the state should hold a pharmacy permit from the state in which the pharmacy is located.

LB 350, the current attempt to regulate the delivery of prescription drugs in Nebraska by out-of-state pharmacies, provides that no person operating outside the State of Nebraska shall mail or in any manner deliver dispensed prescription drugs into the state unless such person: a. is licensed as a pharmacist in the United States, b. has filed with the Department of Health evidence of a pharmacy license or permit issued by and valid in the state in which the person is located and from which such prescription drugs will be shipped, c. is located and operating in a state in which the requirements and qualifications for obtaining and maintaining a pharmacy license or permit are considered by the Department of Health, with the approval of the Board of Examiners in Pharmacy, to be substantially equivalent to the requirements imposed upon Nebraska pharmacists under the pertinent statutes, and d. has designated the Secretary of State as his agent for service of process in Nebraska. You are concerned with section c requiring substantially equivalent qualifications for obtaining a pharmacy license.

As we pointed out in our 1985 opinion, LB 350 involves an attempt by the State of Nebraska to regulate a form of interstate commerce since it would apply to pharmacies outside the state which ship or otherwise deliver dispensed prescription drugs into the state. Any attempt to regulate interstate commerce by a state must be tested under the Commerce Clause of the United States Constitution. The Commerce Clause gives the United States Congress full plenary power to regulate interstate commerce, and therefore, Federal statutes passed by Congress and Federal administrative rules and regulations passed under proper authority from Congress are capable of pre-empting any state legislation or regulation of the same subject. In Re Rules and Regulations Nos. 31 and 32, 193 Neb. 59, 225 N.W.2d 401 (1975); 81A C.J.S. States §24. Consequently, the

threshold question in the present case concerns whether there is any Federal legislation which has pre-empted any portion of LB 350.

As we noted in our previous opinions, Congress passed the Drug Abuse Prevention and Control Act, 21 U.S.C. §§801 et seq., in 1970. The various provisions of that Act comprehensively regulate the distribution and dispensing of controlled substances in interstate commerce throughout the United States. Section 903 of the Act, 21 U.S.C. §903, states:

> No provision of this subchapter shall be construed as indicating an intent on the part of Congress to occupy the field in which that provision operates, including criminal penalties, to the exclusion of any State law on the subject matter which would otherwise be within the authority of the State, unless there is a positive conflict between that provision of this subchapter and that State law so that the two cannot consistently stand together.

As a result, under §903 of the Act, the Federal legislation would not pre-empt LB 350 unless provisions of that bill and the Federal statute are in positive conflict.

LB 350 requires a person delivering dispensed prescription drugs into the State of Nebraska to be licensed as a pharmacist in the United States, and further provides that the person holding the pharmacy license or permit must operate in a state where the requirements and qualifications for obtaining the license or permit are substantially equivalent to those of Nebraska. Under the provisions of the bill, it is therefore possible that a person holding a pharmacy license in a particular state would not be allowed to dispense prescription drugs into the State of Nebraska if there was a determination that the requirements for obtaining a pharmacy license in the particular state were not substantially equivalent to those in Nebraska.

In contrast to LB 350, §802(21) of the Federal Act, 21 U.S.C. §802(21), defines the term "practitioner" (which includes a pharmacist along with physicians, dentists, and so forth) to include persons licensed, registered or otherwise permitted by the jurisdiction in which they practice to distribute or administer a controlled substance in the course of professional practice. Moreover, in the duly enacted regulations concerning the Federal Act established by the United States Department of Justice, the term "pharmacist" means: "Any pharmacist licensed by a State to dispense controlled substances, and shall include any other person (e.g. a pharmacist intern) authorized by a State to dispense controlled substances under the supervision of a pharmacist licensed by such State." The Federal statutes and regulations allow pharmacists to fill prescriptions and otherwise dispense prescription drugs.

As a result, the Federal statutes and regulations require only that an individual be licensed or permitted to dispense prescription drugs in a given jurisdiction or a state so as to be entitled to do so under Federal law. In contrast, LB 350 would require out-of-state pharmacists dispensing drugs into Nebraska by mail to not only have a pharmacy license from another state, but also to be licensed in a state with requirements substantially identical to those of Nebraska. This latter state standard is more stringent than that established by the Federal statute and regulations. It appears to us to be in direct conflict with those portions of the Federal law which allow anyone holding a pharmacy license to dispense prescription drugs. Moreover, our Supreme Court has indicated that no state law can hinder or obstruct the free use of a license granted under an act of Congress. ATS Mobile Telephone, Inc. v. General Communications Co., Inc., 204 Neb. 141, 282 N.W.2d 16 (1979). Therefore, it appears that §2(1)(c) of LB 350 which you questioned in your opinion request letter is pre-empted by the existing Federal statutes in this area. The state may properly require a pharmacist dispensing prescription drugs into the state by mail to possess a pharmacy license from another state. It may not impose additional, more stringent requirements concerning the nature of that pharmacy license itself.

Sincerely yours,
ROBERT M. SPIRE

UNANIMOUS CONSENT - Print in Journal

Mr. Landis asked unanimous consent to print the following amendment to LB 1207 in the Journal. No objections. So ordered.

AM1999

1. Strike original sections 1 and 7 and insert the following new sections:

"Sec. 6. That section 77-1368, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-1368. The Tax Commissioner shall adopt and promulgate the agricultural land valuation manual in accordance with the procedures set forth in the Administrative Procedure Act.

The Department of Revenue shall update the information used in the agricultural land valuation manual annually. Commencing January 1, 1987, a new statewide agricultural land valuation manual shall be prepared and adopted by the Tax Commissioner when the commissioner determines that the actual value of all agricultural land and horticultural land in any crop reporting district exceeds one hundred five percent or is less than ninety-five percent of the actual value of all such land as determined using the most recently adopted and promulgated version of the agricultural land valuation manual.

When a new agricultural land valuation manual is prepared and a change in valuations is proposed, the Tax Commissioner shall hold a series of four statewide hearings to explain the information used to calculate the new values and consider any proposed corrections in the method of valuation. Such hearings shall be held at locations convenient to the county assessors and residents of each crop reporting district or land manual area. One of such hearings shall be designated an official meeting of the Agricultural Land Valuation Advisory Board. The Tax Commissioner shall notify each county assessor and county board of equalization of the time and place of such hearing and provide a copy of the

proposed land valuation manual to each county assessor at least thirty days prior to the hearing and shall publish notice of such hearing in a newspaper of general circulation in each county at least ten days prior to the hearing on the manual in which such county's proposed agricultural land values will be considered.

Sec. 7. That section 77-1504, Revised Statutes Supplement, 1987, be amended to read as follows:

77-1504. The county board of equalization shall fairly and impartially equalize the valuation of real and personal property in the county, except agricultural land and horticultural land as defined in section 77-1359, so that all real and personal property is assessed uniformly and proportionately. The county board of equalization may consider and correct the assessment of any tract, lot, or parcel of real property or the assessment of any or all items of personal property by raising, after due notice has been given to the owner or agent at his or her last-known address, or by lowering the assessment of such property. No action shall be taken by the county board of equalization pursuant to this section before April 1 nor after May 31 of each year.

For agricultural land or horticultural land, as defined in section 77-1359, the county board of equalization shall have the authority to make the following corrections:

(1) Descriptions of ownership;

(2) Land-use categorization;

(3) Assignment of soil classification, when such soil classification is at variance with the classification issued by the Tax Commissioner; and

(4) Such other adjustments as are provided for in the Nebraska Land Valuation Manual developed under section 77-1362.

Sec. 8. That section 77-1506.02, Revised Statutes Supplement, 1987, be amended to read as follows:

77-1506.02. Upon the completion of the equalization of individual assessments of real or personal property pursuant to sections 77-1502 and 77-1504, the county board of equalization may increase or decrease by a percentage the valuation of all of a

class or subclass of property, as defined by the Tax Commissioner, except agricultural land or horticultural land as defined in section 77-1359. Any adjustment made pursuant to this section shall be made to achieve the uniform and proportionate valuation of the classes or subclasses within the county. Notice shall be given by publication in a newspaper of general circulation within the county. Such notice shall be given at least ten days before the final action of the county board of equalization is taken. Nonresident owners of real property affected by such action shall be notified by mail of any changes in the valuation, if the nonresident owner has an address of record on file with the county assessor as of January 1 of each year. No action shall be taken by the county board of equalization pursuant to this section after June 15 of each year. ~~Upon completion of equalization of assessments of individual parcels of lands and improvements and of assessments of personal property of individuals, pursuant to sections 77-1502 and 77-1504, the county board of equalization shall have authority to raise or lower by percentage the valuation of all of a class or all of a subclass, as defined by the Tax Commissioner by rule and regulation, of property within the county if public notice shall be given by publication in a newspaper of general circulation within the county stating the intention of the board. Such notice shall be given ten days before final action is taken by the board in regard to such matters. Nonresidents of the county in which such real estate is situated shall be notified by mail of increases in valuation if such nonresident owners shall have an address of record on file with the county assessor as of January 1 annually. No action shall be taken by the county board of equalization pursuant to this section after June 15 of each year.~~

Sec. 11. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.".

2. On page 4, lines 15 to 19, strike the new matter and insert "The Legislature finds that the effect of Amendment 4 of 1984 to Article VIII, section 1, of the Constitution of Nebraska is to permit the Legislature to adopt a valuation method which values agricultural land and horticultural land in a nonuniform

The commission shall have power and authority upon its own initiative or upon request of a party to the dispute to make such temporary findings and orders as may be necessary to preserve and protect the status of the parties, property, and public interest involved, pending final determination of the issues. In the event of an industrial dispute between an employer and an employee or a labor organization when such employer and employee or labor organization have failed or refused to bargain in good faith concerning the matters in dispute, the commission may order such bargaining to begin or resume, as the case may be, and may make any such order or orders as may be appropriate to govern the situation pending such bargaining. The commission shall require good faith bargaining concerning the terms and conditions of employment of its employees by any employer. The commission shall require the parties to an industrial dispute to submit to mediation or factfinding upon request of either party and shall appoint mediators or factfinders for such purpose. Such orders for bargaining, mediation, or factfinding may be issued at any time during the pendency of an action to resolve an industrial dispute. To bargain in good faith shall mean the performance of the mutual obligation of the employer and the labor organization to meet at reasonable times and confer in good faith with respect to wages, hours, and other terms and conditions of employment or any question arising thereunder and the execution of a written contract incorporating any agreement reached if requested by either party, but such obligation does not compel either party to agree to a

proposal or require the making of a concession.

(2) Except as provided in the State Employees Collective Bargaining Act, public employers are hereby authorized to recognize employee organizations for the purpose of negotiating collectively in the determination of and administration of grievances arising under the terms and conditions of employment of their public employees as provided in the Industrial Relations Act and to negotiate and enter into written agreements with such employee organizations in determining such terms and conditions of employment.

(3)(a) Except as provided in ~~subdivision~~ subdivisions (b) and (c) of this subsection, a supervisor shall not be included in a single bargaining unit with any other employee who is not a supervisor.

(b) All firefighters and police officers employed in the fire department or police department of any municipal corporation in a position or classification subordinate to the chief of the department and his or her immediate assistant or assistants holding authority subordinate only to the chief shall be presumed to have a community of interest and may be included in a single negotiating unit represented by an employee organization for the purposes of the Industrial Relations Act. Public employers shall be required to recognize an ~~employee's~~ employees negotiating unit composed of firefighters and police officers holding positions or classifications subordinate to the chief of the fire department or police department and his or her immediate assistant or assistants holding authority subordinate only to the chief when such negotiating unit is designated or elected by employees in the unit.

(c) Sergeants, corporals, and patrol officers employed by the Nebraska State Patrol as authorized in section 81-2004 shall be presumed to have a community of interest and may be included in a single bargaining unit represented by an employee organization for purposes of the act. The state shall be required to recognize an employees bargaining unit composed of sergeants, corporals, and patrol officers employed by the Nebraska State Patrol when such bargaining unit is designated or elected by employees in the unit.

(4) When an employee organization has been

certified as an exclusive collective-bargaining agent or recognized pursuant to any other provisions of the Industrial Relations Act, the appropriate public employer shall be and is hereby authorized to negotiate collectively with such employee organization in the settlement of grievances arising under the terms and conditions of employment of the public employees as provided in such act and to negotiate and enter into written agreements with such employee organizations in determining such terms and conditions of employment, including wages and hours.

(5) Upon receipt by an employer of a request from a labor organization to bargain on behalf of employees, the duty to engage in good faith bargaining shall arise if the labor organization has been certified by the commission or recognized by the employer as the exclusive bargaining representative for the employees in that bargaining unit.

(6) The commission shall have the authority (a) to make studies and analyses of and act as a clearinghouse of information relating to conditions of employment of public employees throughout the state, (b) to request from any government, and such governments are authorized to provide, such assistance, services, and data as will enable it properly to carry out its functions and powers, (c) to conduct studies of problems involved in representation and negotiation, including, but not limited to, those subjects which are for determination solely by the appropriate legislative body, and make recommendations from time to time for legislation based upon the results of such studies, (d) to make available to employee organizations, governments, mediators, factfinding boards and joint study committees established by governments, and employee organizations statistical data relating to wages, benefits, and employment practices in public and private employment applicable to various localities and occupations to assist them to resolve complex issues in negotiations, and (e) to establish, after consulting representatives of employee organizations and administrators of public services, panels of qualified persons broadly representative of the public to be available to serve as mediators or members of factfinding boards.

(7)(a) Except for those cases arising under section 48-818, the commission shall be required to make findings of facts in all cases in which one of the parties to the dispute requests findings. Such request shall be specific as to the issues on which the party wishes the commission to make findings of fact.

(b) In cases arising under section 48-818, findings of fact shall not be required of the commission unless both parties to the dispute stipulate to the request and to the specific issues on which findings of fact are to be made.

(c) If findings of fact are requested under subdivision (a) or (b) of this subsection, the commission may require the parties making the request to submit proposed findings of fact to the commission on the issues on which findings of facts are requested.

(d) In cases arising under section 48-818, the commission shall issue a recommended decision and order, which decision and order shall become final within ten days of entry unless either party to the dispute files with the commission a request for a posttrial conference. If such a request is filed, the commission shall hold a posttrial conference within ten days of receipt of such request and shall issue an order within ten days after holding such posttrial conference, which order shall become the final order in the case. The purpose of such posttrial conference shall be to allow the commission to hear from the parties on those portions of the recommended decision and order which is not based upon or which mischaracterizes evidence in the record and to allow the commission to correct any such errors after having heard the matter in a conference setting in which all parties are represented.".

Sec. 2. No person shall sell or install any sunscreening product or material upon the windshield or side or rear windows of any motor vehicle if such product or material (1) reduces the driver's clear view through the windshield or side or rear windows of a motor vehicle or (2) substantially impairs the ability to see into a motor vehicle, except:

(a) Front-side-wing vents and side or rear windows may have visors or other shade devices which are not attached to the window with glazing material, which are easily moved aside or removable, which are normally used by a vehicle operator during daylight hours, and which do not impair the driver's field of vision;

(b) Front side windows of a motor vehicle may be installed or have a sunscreening product or material applied in conjunction with a glazing compound, which have luminous reflectance of not more than thirty-five percent or light transmission of not less than thirty-five percent;

RESOLUTIONS

LEGISLATIVE RESOLUTION 280. Introduced by Coordsen, 32nd District; Morehead, 30th District.

WHEREAS, the risk of flooding is always a constant threat, and in the past several years it has been a real and specific threat to the residents of DeWitt, Nebraska, and the surrounding area; and

WHEREAS, flood control structures are needed in the Swan Creek Watershed Project to protect the area's residents and their property from the dangers and destruction of severe flooding; and

WHEREAS, if flood control structures would be completed on the Swan Creek Watershed Project, such structures would not only protect residents in the DeWitt area, but would also protect residents who live along the Big Blue River; and

WHEREAS, the State of Nebraska is unable to provide state funds for the Swan Creek Watershed Project because appropriation of a specific amount of money for the construction of improvements to be owned by a political subdivision within the State of Nebraska, financed by state funds, constitutes a local and special act which clearly violates Article III, section 18, of the Constitution of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature hereby requests and urges that the United States Congress specifically appropriate $600,000 for fiscal year 1989 and $687,000 for fiscal year 1990 for the Swan Creek Watershed Project for the construction of flood control structures to prevent the dangers and destruction of severe flooding for the residents of the DeWitt area and for the residents who live along the Big Blue River.

2. The Legislature also requests and urges that the United States Congress increase federal funding for all unfinished Nebraska watershed projects to protect residents of the State of Nebraska from the dangers and destruction of severe flooding.

3. That the Clerk of the Legislature mail a copy of this resolution to all of the representatives to Congress and United States Senators from Nebraska, Senator John C. Stennis, Congressional Representative Jamie L. Whitten, Secretary of Agriculture Richard Lyng, Galen Bridge, Herman H. Calhoun, and Ron E. Hendricks.

Laid over.

LEGISLATIVE RESOLUTION 281. Introduced by Higgins, 9th District.

WHEREAS, his dedicated service, knowledge, and expertise have benefited the State of Nebraska in general and the University of Nebraska and the Task Force for Building Renewal in particular; and

WHEREAS, over fifty years of dedicated service to the State of Nebraska is deserving of recognition.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature acknowledges the dedicated service, knowledge, and expertise Phil Kruse has contributed to the State of Nebraska.

2. That a copy of this resolution be presented to Phil Kruse as a token of the appreciation of the members of the Legislature.

Laid over.

LEGISLATIVE RESOLUTION 282. Introduced by Landis, 46th District.

WHEREAS, the Home Builders Association of Lincoln Remodelors Council is an organization dedicated to improving the quality and affordability of the remodeling industry; and

WHEREAS, the members of the Home Builders Association of Lincoln Remodelors Council believe their paramount responsibility is to the consuming public, their community, their state, and their country; and

WHEREAS, in cooperation with Neighborhood Housing Services of Lincoln and Malone Community Neighborhood volunteers, the Home Builders Association of Lincoln Remodelors Council renovated a vacant, deteriorated home in an effort to revitalize one of Lincoln's oldest neighborhoods; and

WHEREAS, the National Association of Home Builders Remodelors Council has awarded the Home Builders Association of Lincoln Remodelors Council the "Council Award for Demonstrating Remodelors' Excellence" for community service.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the members of the Legislature extend their appreciation to the Home Builders of Lincoln Remodelors Council for their service to the community and congratulations for achieving national recognition.

RESOLUTION

LEGISLATIVE RESOLUTION 283. Introduced by Coordsen, 32nd District; Warner, 25th District; Bernard-Stevens, 42nd District; Rogers, 41st District; Elmer, 38th District; Schellpeper, 18th District; Campbell, 22nd District; Scofield, 49th District; Wehrbein, 2nd District.

WHEREAS, production agriculture is the foundation of Nebraska's economy; and

WHEREAS, many Nebraska businesses and the communities in which they are located directly depend on Nebraska's agricultural economy for their survival; and

WHEREAS, Nebraska's agriculture has been enduring hardships the past few years due to declining prices and increasing production costs, and the United States Congress has assisted agriculture in the past by implementing farm assistance legislation; and

WHEREAS, the proposed tax of fifteen and one-half cents per gallon on diesel fuel would amount to over twenty-five million dollars annually that Nebraska farmers would have to remit to the United States Government; and

WHEREAS, this twenty-five million dollars is not a tax liability of Nebraska agriculture and would be entirely refundable, but if the tax is implemented, it would have a dramatic negative impact on Nebraska farmers' cash flow at a time of the year that they desperately need money to finance their farming operations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature encourages the United States Treasury Department and the Internal Revenue Service to add agriculture to the list of exempt entities who use diesel fuel for nonhighway purposes.

2. That the Legislature encourages the United States Congress to enact legislation to exempt agriculture from these fuel tax requirements if the United States Treasury Department and Internal Revenue Service fail to create such an exemption in an expeditious manner.

3. That copies of this resolution be sent to the United States Department of the Treasury, the Internal Revenue Service and members of the Nebraska Congressional Delegation.

Laid over.

STANDING COMMITTEE REPORT

LEGISLATIVE BILL 1190. Indefinitely postponed.

(Signed) D. Paul Hartnett, Chairperson

PRESENTED TO THE GOVERNOR

Presented to the Governor on February 19, 1988, at 10:55 a.m., were the following bills: 646, 814, 758, 639A, and 693.

(Signed) Pam Moravec, Enrolling Clerk

RESOLUTION

LEGISLATIVE RESOLUTION 286. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Hall, 7th District; Johanns, 27th District; Smith, 33rd District.

PURPOSE: To study Nebraska's statutes on municipal ownership and operation of utilities and determine the quality and status of such operations in the state.

In the debate surrounding LB 1190 in this legislative session and LB 663 in the last session the role of municipalities in the ownership and regulation of natural gas utilities was spotlighted. With new interest in joint municipal ownership and operation of natural gas utilities the need for a review of current state statutes has become important.

Since the Legislature last addressed the issue of municipal utilities the energy needs of and energy costs to Nebraska citizens have become a matter of paramount importance. With federal deregulation and consequent swings in the cost of basic energy sources the need for a review of current legislation has become vitally important.

This study would involve a review of current and proposed municipal utility operations, the quality of service provided, the costs involved with such operations, the services provided to consumers, the appropriate terms for future municipal operation, and statutory changes necessary in the current economy to guarantee the best service possible to Nebraska municipal consumers.

The study would include a review of municipal proprietary operations in other states, levels of state oversight and regulation in those states, current federal laws and their implications for Nebraska municipal operations, and an appropriate role for the State of Nebraska in the operations of municipal utilities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Sec. 33. That section 71-1,136.01, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

71-1,136.01. Each Nebraska-licensed optometrist in active practice within the State of Nebraska shall be required on or before August 1 of each even-numbered year, commencing in 1986, to attend thirty-two hours biennially <u>of which sixteen hours shall be earned annually each year commencing August 1, 1990,</u>

of such approved scientific schools, clinics, forums, lectures, or optometric educational seminars, as may be announced and approved by the Board of Examiners in Optometry, as a prerequisite for the licensee's next subsequent license renewal if at least sixteen hours of such educational program are conducted annually in the State of Nebraska and at least thirty-two hours of such educational program are conducted biennially in the State of Nebraska.

Each licensed optometrist in active practice within the State of Nebraska shall, on or before August 1 of each even-numbered year, certify on forms provided by the Board of Examiners in Optometry that he or she has complied with sections 71-1,133 to 71-1,136 and this section during the preceding two-year period. Such board of examiners shall, on or before August 1 of each even-numbered year, report all licensees who have complied with the educational requirements to the Director of the Bureau of Examining Boards. Licensees who have not complied with such requirements shall not be issued a renewal license unless exempt or excused for good cause shown. The department, on the recommendation of the Board of Examiners in Optometry, may waive continuing education requirements, in part or in total, for any two-year licensing period when a licensee submits documentation that circumstances beyond his or her control prevented completion of such requirements. Such circumstances shall include situations in which:

(1) The licensee holds a Nebraska license but is not practicing optometry in Nebraska;

(2) The licensee has served in the regular armed forces of the United States during part of the twenty-four months immediately preceding the license renewal date;

(3) The licensee has submitted proof that he or she was suffering from a serious or disabling illness or physical disability which prevented completion of the required number of continuing education hours during the twenty-four months immediately preceding any license renewal date; and

(4) The licensee was first licensed within the twenty-four months immediately preceding the renewal date provided in section 71-110.

The department, with the consent of the Board

of Examiners in Optometry, may adopt and promulgate rules and regulations not inconsistent with this section pertaining to waiver of continuing education requirements.

Each licensee shall provide a sworn affidavit listing continuing education activities in which he or she participated or attended, the amount of credit received for each activity, and the date, location, and name of the approved provider which sponsored the activity on a separate form or portion of the license renewal application as may be designed by the department. Each licensee shall be responsible for maintaining in his or her personal files such certificates or records of credit from continuing education activities received from approved providers.

LEGISLATIVE BILL 1079. Placed on General File as amended.
Standing Committee amendment to LB 1079:
AM2126

1. Strike the original sections and insert the following new sections:

"Section 1. This act shall be known and may be cited as the Prompt Payment Act.

Sec. 2. As used in the Prompt Payment Act, unless the context otherwise requires:

(1) Agency shall mean the state and any agency, department, office, commission, board, panel, or division;

(2) Bill shall mean a proper billing or invoice which requests a payment and which is supplemented by all necessary verification and forms required by agency rules and regulations to process payments;

(3) Creditor shall mean any person, corporation, association, or other business concern engaged in a trade or business, either on a for-profit or not-for-profit basis, and providing any goods or services to an agency;

(4) Good faith dispute shall mean:

(a) A contention by the agency that goods delivered or services rendered were of less quantity or quality than ordered or specified by contract, faulty, or installed improperly; or

(b) Any other reason giving cause for the withholding of payment by the agency until the dispute is settled, except that failure to give notice as prescribed in section 5 of this act shall preclude an agency from claiming a good faith dispute in the case of a defective or improper billing;

(5) Goods shall mean any goods, supplies, materials, equipment, or other personal property but shall not mean any real property; and

(6) Services shall mean any contractual services, including, but not limited to, architectural,

engineering, medical, financial consulting, or other professional services, any construction services, and any other personal services but shall not mean any services performed as an officer or employee of any agency.

Sec. 3. (1) Except as provided in subsection (2) of this section, each agency shall make payment in full for all goods delivered or services rendered on or before the forty-fifth calendar day after (a) the date of receipt by the agency of the goods or services or (b) the date of receipt by the agency of the bill for the goods or services, whichever is later, unless other provisions for payment are agreed to in writing by the creditor and the agency.

(2) Any agency making payment for goods or services provided for third parties shall make payment is full for such goods or services on or before the sixtieth calendar day after the date of receipt by the agency of the bill.

No goods or services shall be deemed to be received by an agency until all such goods or services are completely delivered and finally accepted by the agency. For purposes of determining whether payment was made in accordance with this section, payment in full by an agency shall be considered to be made on the date the warrant or check for such payment was mailed or otherwise transmitted.

Sec. 4. Any creditor of an agency not receiving payment in full for goods delivered or services rendered within the forty-five-day or sixty-day time period, whichever is applicable, may charge the agency interest on the unpaid principal balance at the rate specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature. Interest charges shall begin to accrue on the thirty-first day after (1) the date of receipt by the agency of the goods or services or (2) the date of receipt by the agency of the bill for the goods or services, whichever is later, and shall terminate on the date on which payment in full of the amount due is made. Each agency shall pay the interest charge upon request unless the bill is the subject of a good faith dispute between the agency and the creditor. No claim by a creditor for interest charges shall be allowed unless

the agency is requested to pay the interest charges within three months from the date on which payment in full is due.

Sec. 5. When a bill submitted to an agency is filled out incorrectly or when there is any defect or impropriety in a bill submitted, the agency shall notify the creditor in writing prior to the date on which payment in full is due. The notice shall contain a description of the defect or impropriety and any additional information necessary to enable the creditor to correct the bill. Upon receiving a properly corrected bill, the agency shall make payment in full of the bill on or before the forty-fifth calendar day after the receipt of the corrected bill or, when the agency is making payment for goods or services provided by a third party, on or before the sixtieth calendar day after the receipt of the corrected bill.

Sec. 6. Nothing in the Prompt Payment Act shall be construed to prohibit full or partial payments by agencies for goods or services whether or not such goods or services have been completely received or finally accepted by the agencies.

Sec. 7. The Prompt Payment Act shall not apply to the following:

(1) Claims subject to good faith dispute if notice of the dispute is conveyed to the creditor in writing before the time required for payment, except the Prompt Payment Act shall take effect on the date that the dispute is resolved;

(2) Contracts related to highway or road construction, reconstruction, or maintenance; and

(3) Claims, contracts, or projects which are to be paid for exclusively with federal funds.

Sec. 8. Each agency shall report monthly to the Director of Administrative Services and the Legislative Fiscal Analyst any account that has not been paid within the applicable time period prescribed by section 3 of this act. Each agency shall report annually any interest charge on a past-due account, whether paid or unpaid, to the Governor and to the Appropriations Committee of the Legislature.

Sec. 9. That sections 81-1111.01 to 81-1111.03, Reissue Revised Statutes of Nebraska, 1943, are repealed.".

LEGISLATIVE RESOLUTION 263. Reported to the Legislature for further consideration with the following amendments:
AM2149

1. Strike beginning with the first "WHEREAS" on page 1 through page 5 and insert the following:

"WHEREAS, the school district of Oakland-Craig, in the County of Burt, in the State of Nebraska, is a duly accredited Class III school district and municipal corporation created by the Legislature under the laws of the State of Nebraska; and

WHEREAS, the Oakland-Craig School District was sued under the Political Subdivision Tort Claims Act for a school bus accident which occurred on November 6, 1984, for a total sum of twenty-two million dollars; and

WHEREAS, on November 10, 1985, the Oakland-Craig School District's insurance company was declared insolvent by a district court in Polk County, Iowa; and

WHEREAS, the suit was not subject to the

one-million-dollar limitation for tort claims brought under the Political Subdivision Tort Claims Act against municipal corporations because such limitation did not become effective until November 16, 1985, and was not retroactive; and

WHEREAS, such suit could potentially have cost the school district millions of dollars; and

WHEREAS, such suit was settled and a judgment was entered against the Oakland-Craig School District on December 2, 1987, for a total sum of one and one-half million dollars; and

WHEREAS, in the order approving the settlement and entering the judgment, the court stated that had the case not been settled, the court could have awarded the plaintiff "an amount substantially in excess of the one and one-half million dollars in payments to be made under the . . . settlement"; and

WHEREAS, only one million dollars of the judgment was paid by the Nebraska Property and Liability Insurance Guaranty Association and the insolvent insurance company, placing the responsibility on the Oakland-Craig School District's taxpayers to pay five hundred thousand dollars; and

WHEREAS, the payment of the five-hundred-thousand-dollar judgment will place a hardship upon the Oakland-Craig School District, its teachers and students, and the community and its citizens; and

WHEREAS, because of the lawsuit and section 77-1623, the entire board of education of the Oakland-Craig School District resigned to avoid personal liability, leaving the school district without a governing body; and

WHEREAS, without a governing body, the taxpayers were forced to place the Oakland-Craig School District into receivership in the district court of Burt County, Nebraska; and

WHEREAS, the Oakland-Craig School District is still in receivership in the district court of Burt County, Nebraska and is still without a board of education; and

WHEREAS, without a board of education or governing body, the Oakland-Craig School District cannot by statute establish a budget for the next fiscal year,

and the Oakland-Craig School District is prevented by statutory provisions from budgeting sufficient funds to pay the five-hundred-thousand-dollar judgment or any portion thereof; and

WHEREAS, the current tax levy of the Oakland-Craig School District is one of the highest in the State of Nebraska; and

WHEREAS, section 23-2415 authorizes a political subdivision such as a school district to make application to the State Treasurer for a loan to help pay a judgment against the subdivision for a tort claim when the governing body is statutorily or constitutionally unable to levy for the entire judgment; and

WHEREAS, the judgment is valid and because it has no school board the Oakland-Craig School District does not currently have the ability to make a levy to pay such judgment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. The Legislature recognizes that the State Treasurer is charged with duties under section 23-2415 and that the implementation of such section provides for no legislative role.

2. The Legislature requests the State Treasurer, upon application by the Oakland-Craig School District, to give appropriate consideration to making such loan to the Oakland-Craig School District pursuant to section 23-2415 from funds available for investment in the state treasury, in such total amount and upon such terms and conditions as allowed by law and as judged by the State Treasurer to be appropriate to assist the district in paying the judgment while minimizing the loss of funds to the state and insuring the loan will be repaid.

3. It is the express understanding of the Legislature that this may be a unique situation and, if the State Treasurer does agree to make such a loan, it shall not be construed as being a precedent for the application of section 23-2415 to other situations where a political subdivision merely may have difficulty

paying a judgment.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 88009

DATE: February 17, 1988

SUBJECT: Constitutionality of LB 951, Required Arbitration of Construction Liens

REQUESTED BY: Senator Brad Ashford,
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

LB 951 would amend certain portions of §52-125 of the Nebraska Construction Lien Act, Neb.Rev.Stat. §§52-125 et seq. (Reissue 1984), to read as follows:

> Any lien of less than $10,000.00 recorded pursuant to §52-137 shall be subject to arbitration under the Uniform Arbitration Act if any interested party files a request for arbitration within thirty days of the recording of such lien. The recording of the lien shall be deemed to be consent to arbitration by the claimant.

You have inquired as to whether this provision requiring binding arbitration under the Uniform Arbitration Act is constitutional. We conclude that it is not, and our reasoning is set out below.

In our Opinion #87029, dated March 6, 1987, we considered the constitutionality of those portions of LB 661 and LB 71 dealing with

arbitration. LB 71 was ultimately enacted into law and codified as the Uniform Arbitration Act, Neb.Rev.Stat. §§25-2601 et seq. (Supp. 1987). We began our analysis of the constitutionality of binding arbitration by noting that, in a series of cases beginning in 1889 and culminating in Overland Constructors v. Millard School District, 220 Neb. 220, 369 N.W.2d 69 (1985), our Supreme Court has consistently held that binding arbitration agreements entered into before a dispute arises are contrary to public policy and not enforceable. In Overland Constructors, the Supreme Court stated:

> While this Court is supportive of parties resolving their differences through arbitration, if possible, we have consistently held that an arbitration agreement entered into before a dispute arises, denying to the parties their right to seek the assistance of the courts, is contrary to public policy and is not enforceable. In a long line of cases . . . we have consistently held that a contract to compel parties to arbitrate future disputes and, thus, to oust the courts of jurisdiction to settle such disputes is against public policy and is void.

Id. at 224, 369 N.W.2d at 73. We also noted that the Nebraska rule against arbitration does not appear to be a blanket prohibition against all forms of that remedy, and we listed agreements to arbitrate existing disputes and agreements which would allow a full review of the arbitrator's decision on the merits by the district court as examples of acceptable arbitration. As a result, the propriety of arbitration in each instance appears to involve a twofold determination: first, does the agreement to arbitrate concern future disputes, and, second, to what extent is the arbitration agreement binding without recourse to the courts.

In our 1987 opinion, we then reviewed the provisions of LB 71 to determine to what extent an arbitrator's decision under that Act would be reviewed by a district court. We determined that a district court, under LB 71, could in no way consider the merits of the controversy, and that the district court would be limited, in great part, to questions concerning fraud or partiality. Because those standards were so narrow as to effectively deny parties to the arbitration the assistance of the courts, we determined that the general arbitration provisions of LB 71 were unconstitutional under the rule established in Overland Constructors and its companion cases. We did, however, point out that the arbitration provisions under LB 71 which provided for arbitration of existing controversies would be permissible.

The Uniform Arbitration Act contains the limited standard for district court review set out in LB 71. See, Neb.Rev.Stat. §25-2613 (Supp. 1987). Therefore, to the extent that the Uniform Arbitration

Act would be applied to future controversies of any kind, it appears to us that the arbitration procedures under the Act would be unconstitutional and unenforceable.

LB 951, the subject of your concern, provides that construction liens under $10,000 shall be subject to arbitration under the provisions of the Uniform Arbitration Act if any interested party files a request for arbitration within 30 days of the recording of such lien. It seems to us that this proposed statute would require the arbitration of future controversies as provided in the Uniform Arbitration Act. Given the narrow and restricted judicial review of an arbitrator's determination under the provisions of the Act, it is our view that LB 951 would require an unconstitutional and unenforceable form of arbitration.

Sincerely,
ROBERT M. SPIRE

SUBJECT: Limitation on Distribution of Smokeless Tobacco Products -- LB 861 (1988)

REQUESTED BY: Senator Arlene Nelson, 35th District

WRITTEN BY: Robert M. Spire, Attorney General
Linda L. Willard, Assistant Attorney General

You have requested an opinion as to whether the limitations on distribution of smokeless tobacco products as set out in LB 861 (1988) are in violation of the Commerce Clause or First Amendment of the United States Constitution or in violation of Article III, Section 18 of the Constitution of the State of Nebraska. In our opinion LB 861, as amended, does not violate any of these authorities.

We have reviewed LB 861 with the amendments adopted by the Judiciary Committee. There is nothing in the bill, as amended, that

is in conflict with the Commerce Clause or First Amendment of the United States Constitution. Nor is the bill in conflict with Article III, Section 18 of the Constitution of the State of Nebraska. Additionally, similar statutes have been successfully adopted in other states.

Opinion No. 88011

DATE: February 23, 1988

SUBJECT: Branching of National Banks in Nebraska

REQUESTED BY: Senator Loran Schmit

WRITTEN BY: Robert M. Spire, Attorney General
LeRoy W. Sievers, Assistant Attorney General

QUESTION: Would the branching provisions of LB 877 which apply to savings and loan associations also apply to national banks?

CONCLUSION: No.

LB 877 proposes to amend portions of Neb.Rev.Stat. §§8-331 and 343 to expressly indicate that savings and loan associations may establish branches in and outside of Nebraska under specified conditions. In your request for an opinion, you ask whether those provisions that authorize branching of savings and loan associations would also be applied to national banks doing business in Nebraska or wishing to do business in Nebraska as a result of the holding in the case of Department of Banking and Consumer Finance v. Clarke, 809 F.2d 266 (5th Cir.) cert. denied ___ U.S. ___, 107 S.Ct. 3240, 7 L.Ed.2d 745 (1987). The decision in that case was rendered by the Court of Appeals for the Fifth Circuit that is headquartered in New Orleans, Louisiana. Because that decision was made by the Court of

Appeals for the Fifth Circuit, it is not controlling on federal or state courts in Nebraska which might be faced with similar issues.

The Court of Appeals for the Eighth Circuit reached a decision in Dakota National Bank and Trust Company v. First National Bank and Trust Company of Fargo, 554 F.2d 345 (8th Cir.) cert. denied 434 U.S. 877 (1977), which appears to be directly contrary to the holding in the Department of Banking and Consumer Finance v. Clarke. In that case, the court decided that the ability of national banks to branch is restricted by the provisions of state law that control the branching of privately-owned state chartered banks. This decision was in part based upon the court's determination that the maintenance of competitive equality between state chartered and national banks is embodied in the McFadden Act, including 12 U.S.C. §§36(c).

Because the State of Nebraska is located within the jurisdiction of the Court of Appeals for the Eighth Circuit, the decision of the Eighth Circuit would be controlling on federal courts in Nebraska. Thus, it would appear that provisions applicable to state chartered savings and loans, which do not apply to state chartered banks, will not be applicable to national banks with offices in Nebraska. As a result, the decision in the Department of Banking and Consumer Finance v. Clarke, would not require the branching provisions of LB 877 which apply to savings and loan institutions to also be applied to national banks doing business in Nebraska or wishing to do business in Nebraska.

Sincerely,
ROBERT M. SPIRE

Opinion No. 88012

DATE: February 23, 1988

SUBJECT: Identification and Election Relative to Low-Level Radioactive Waste Facility Site

REQUESTED BY: Senator Gerald A. Conway, Senator Stan Schellpeper, Senator Sandra K. Scofield, and Senator David Bernard-Stevens

WRITTEN BY: Robert M. Spire, Attorney General
Linda L. Willard, Assistant Attorney General

You have inquired whether the provisions of LB 882 of the 1988 Session are inconsistent with or in conflict with any provisions of the Central Interstate Low-Level Radioactive Waste Compact, the Nebraska state statutes, the Nebraska Constitution, or existing federal laws or regulations. The proposal for identification of the facility site and submission of said facility site to a vote of local electors is not in conflict, at least in theory, with any of the authorities you have identified. However, if the procedure results in a delay in construction of the facility by the Federal government and Central Interstate Commission and could result in fines and/or other sanctions against the state for unreasonable delay. The amount of any fines and type of sanctions would be up to the Federal government and the Commission--within the limits of Public Law 99-240 and the Central Interstate Compact. Final determination of whether the state's actions were arbitrary and capricious and if any penalty imposed is appropriate could be appealed to the federal courts.

We do have two areas of concern with LB 882. The first concern is with the determination of the "affected area" which in turn determines the scope of the electorate. Our second concern is with the definition provided for approval of a site.

The Statement submitted by Nebraska's Governor and approved by the Central Interstate Compact Commission calls for the "community's consent." Both the Governor's Statement as well as the minutes of the December 8, 1987, Commission meetings used the term "community" in the context of community consent or compensation to the host community.

Since neither the Governor's Statement nor the Commission amendment provide for a definition of "community," it should be given its ordinary meaning. Black's Law Dictionary, Fifth Edition, defines "community" in part as: "Neighborhood; vicinity; synonymous with locality. People who reside in a locality in more or less proximity. A society or body of people living in the same place, under the same laws and regulations, who have common rights, privileges, or interests." (Citations omitted). In Lukens Steel Company v. Perkins, 107 F.2d 627, 631 (D.C. Cir. 1939) the federal court defined "community" as follows:

The word community connotes a congeries of common interests arising from associations--social, business, religious, governmental, scholastic, recreational--involving considerations of public health, fire protection, water, sewage, transportation, and other services, which bind together the people of such a community or set them quarreling with each other.

LB 882 not only uses a different term for defining the scope of the area involved in a consent vote it provides a definition for that term that is well beyond the reasonable limitations of the ordinary meaning of the term "community." LB 882 calls for a consent vote by the electorate in the "affected county." "Affected county" is defined in LB 882 as: "The county in which a proposed site is located and any county the boundary of which is within a radius of 20 miles of the proposed site." In almost all cases within Nebraska this would involve more than one county and in some instances may involve as many as six or seven counties.

In the case of In Re Arrigo, 98 Neb. 134, 137, 152 N.W. 319 (1915), the Nebraska Supreme Court held: "The concept which a word conveys is that which custom has accorded it. There is no reason why a legislature may not expand the definition of a word to a reasonable degree and include within the circle of its definition for the purpose of an act, ideas which are related to that concept but not ordinarily included therein." (Emphasis added.) LB 882 uses an entirely different term to define the area eligible to vote on consent then the term presented to and adopted by the Commission. Further, it provides a definition for that term which is well beyond the ordinary definition for "community" or "host community."

Expansion of the community's consent to a multi-county consent could be viewed by the Central Interstate Compact Commission as contrary to the intent of the Commission and their passage of the proposal. Should the expansion of the community to multi-county result in delay in construction of the facility, it could well subject the State to sanctions by both the Federal government and the Central Interstate Compact Commission under federal law and the terms of the Compact.

We also have a concern with Section 2(4) of LB 882 which provides in part: "If at least forty percent of such electors voting on the question for a given site vote no, the facility shall not be built at such site." In such a case, it is still possible that 60 percent of the electors would be in favor of the proposal. This would result in rule by the will of the minority.

"It is a fundamental principle of popular government that in elections the will of the majority, expressed in the manner authorized by law, must prevail unless the constitution provides otherwise." 29

C.J.S. §242, p. 674. A determination of the will of the people whereby a clear minority could prevail is not only contrary to the democratic form of government but would surely be viewed by the Federal authorities as well as the Commission as being arbitrary and capricious actions on the part of the State of Nebraska to needlessly delay the selection of a facility site and the subsequent construction of said facility. This in turn could subject the state to Federal and Compact penalties.

ROBERT M. SPIRE

ATTORNEY GENERAL'S OPINION

Opinion No. 88013

DATE: February 18, 1988

SUBJECT: LB 890, Ninetieth Legislature, Second Session, with specific reference to the Standing Committee amendments thereto as stated in the Legislative Journal on pages 665-670 (February 3, 1988). In connection therewith three (3) questions are asked:

1. Is it constitutional for the Legislature to delegate to the Coordinating Commission for Postsecondary Education or to the Education Committee the authority to develop a comprehensive plan for nursing education, which includes the nursing education programs of the University of Nebraska?

2. Does such a grant of authority contradict the decision of the Nebraska Supreme court in Board of Regents v. Exon, 199 Neb. 146, 256 N.W.2d 146 (1977)?

3. If the Legislature may delegate authority to the Coordinating Commission for Postsecondary Education or the Education Committee to develop a comprehensive Plan for nursing education, including the nursing education programs of the University of Nebraska, would the Board of Regents be required to implement

such plan as it relates to the nursing education programs of the University of Nebraska?

REQUESTED BY: Senator Arlene Nelson
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Harold Mosher, Assistant Attorney General

If LB 890, as amended on February 3, 1988, became operative law, the University of Nebraska, the technical community college areas, the state colleges, the Nebraska Coordinating Commission for Postsecondary Education (hereinafter, NCCPE) and the Department of Health would be required to establish a joint advisory committee to ensure coordinated program development and delivery in nursing education and the allied health professions. This joint advisory committee would be charged with a duty to submit a comprehensive plan for nursing education to the NCCPE by November 30, 1988. The plan, as stated in section 3(2) of LB 890, as amended,

> {S}hall include, but not be limited to (a) the identification of current and future nursing personnel needs and nursing education needs, (b) the identification of all necessary existing nursing programs and those nursing programs which may need to be added over the next five years, (c) the identification of procedures to articulate nursing programs and an identification of those existing nursing programs which are currently articulated and (d) the identification of procedures and standards which will ensure that qualified faculty are employed and that adequate clinical facilities exist which will promote the maintenance or attainment of fully articulated programs.

NCCPE, pursuant to LB 890, as amended, is granted the power to review the plan and to "make any changes it deems appropriate" and thereafter it is required to forward the plan to the Education Committee of the Nebraska Legislature by not later than February 1, 1989. The Education Committee, at its discretion, may require a hearing on the plan. If no hearing is held before April 15, 1989, the plan shall be deemed operational. The questions stated above are discussed in the order stated.

A STATUTE REPOSING, IN EFFECT, AN ABSOLUTE UNREGULATED AND UNDEFINED DISCRETION IN AN ADMINISTRATIVE BODY, BESTOWS ARBITRARY POWERS AND UNLAWFULLY DELEGATES LEGISLATIVE POWER.

It is well settled law that the constitutionality of a statute is to be tested, not by what has been done or may be done under it, but what the law authorizes to be done under its provisions. City of Beatrice v. Wright, 72 Neb. 689, 101 N.W. 1039 (1904); Anderson v. Carlson, 171 Neb. 741, 107 N.W.2d 535 (1961). It is also well settled law that the Legislature, in creating an administrative body, cannot delegate power which is conferred solely upon the Legislature. Smithberger v. Banning, 129 Neb. 651, 262 N.W. 492 (1935); Terry Carpenter, Inc. v. Nebraska Liquor Control Commission, 175 Neb. 26, 120 N.W.2d 374 (1963). Here, LB 890, as amended, creates a joint advisory committee which is charged with a duty to submit a comprehensive plan for nursing education to the NCCPE which is granted the power to "make any changes" in the plan "it deems appropriate" without any designated limitations and the duty to forward it to the Education Committee of the Nebraska Legislature on or before a day certain who in turn may hold a hearing thereon but if it does not hold a hearing, the plan, as forwarded by the NCCPE, becomes operative law. In our opinion, the unregulated and undefined discretion granted to the NCCPE to "make any changes" in the plan "it deems appropriate" is an impermissible delegation of legislative power reserved to the Legislature and consequently LB 890, as amended, violates Article II, section 1, of the Constitution of Nebraska.

THE GENERAL GOVERNMENT OF THE UNIVERSITY OF NEBRASKA VESTS IN THE BOARD OF REGENTS AND CANNOT BE DELEGATED.

Pursuant to Article VII, section 10, of the Constitution of Nebraska, the voting members of the Board of Regents are elected by the people. In Board of Regents v. Exon, 199 Neb. 146, 256 N.W.2d 330 (1977), the Nebraska Supreme Court stated that the purpose of the constitutional provision cited "was to remove the University from the plenary control of the Legislature and establish the Board of Regents as an independent body charged with the power and responsibility to manage and operate the University as free from political influence and control as possible." 199 Neb. at 148.

As noted above, LB 890, as amended, authorizes a joint committee to prepare a comprehensive plan for nursing education and the NCCPE, whose members are not elected by the people, is granted the power to "make any changes" in the plan "it deems appropriate." As a result, the NCCPE could, pursuant to LB 890, as amended, dictate to the Board of Regents a comprehensive plan for nursing education at the University of Nebraska and how it was to be managed and operated. In our opinion, that grant of power to NCCPE violates Article VII, section 10, of the Constitution of

Nebraska. The general government of the University of Nebraska vests in the Board of Regents and cannot be delegated.

CONCLUSION

In our opinion, LB 890, as amended, is unconstitutional for the reasons stated above. It is therefore unnecessary to consider your third and last question.

Respectfully submitted,
ROBERT M. SPIRE
Attorney General

Assistant Attorney General
