BILL ON FIRST READING

The following bill was read for the first time by title:

LEGISLATIVE BILL 1040A. Introduced by Warner, 25th District.

A BILL FOR AN ACT to appropriate funds to aid in carrying out the provisions of Legislative Bill 1040, Ninetieth Legislature, Second Session, 1988; to provide an operative date; and to declare an emergency.

ATTORNEY GENERAL'S OPINION

Opinion No. 88014

DATE: February 25, 1988

SUBJECT: Whether county superintendents, pursuant to LB 128, as amended, can constitutionally be appointed rather than elected.

REQUESTED BY: Senators Ron Withem and Chris Abboud
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Harold Mosher, Assistant Attorney General

LB 128, as amended, would repeal selected statutes which provide for the election of county superintendents. Section 6 of LB 128, as amended, would grant to the county board of each county the power to appoint a county superintendent {except that no county superintendent shall be appointed in those counties (a) having population of three thousand inhabitants or less and (b) which have been organized into a single school district under the direction of a single board of education and a superintendent of schools elected by that board of education}. If a county board chose not to appoint a county superintendent and the duties of that officer are not assumed by a superintendent of schools within the exception stated above, the county board of education has a duty to contract pursuant to Neb.Rev.Stat. §79-320.01 (Reissue 1987) for the performance of all the duties imposed by law upon the county superintendents. The question immediately arises as to whether it is constitutional under LB 128, as amended, to appoint, rather than elect, county superintendents. In order to answer that question it is necessary to determine if county superintendents are public officers.

It is a universal rule that in order to indicate a public office the duties thereof must partake for a time in being some degree of the sovereign powers of the state, either legislative, executive or judicial. As stated by the Nebraska Supreme Court in State ex rel. O'Conner

v. Tusa, 130 Neb. 528, 536, 265 N.W. 524 (1936): "A public officer is an incumbent of a public office, which is the right, duty and authority conferred by law, by which for a given period, an individual is invested with some portion of the sovereign functions of government for the benefit of the public."

Section 6(4) of LB 128, as amended, refers to the county superintendent as an "office." It is also to be noted that LB 128, as amended, does not repeal or amend existing statutory powers and duties of that office. Rather, LB 128, as amended, repeals and amends selected existing statutes which provide the manner by which the office is filled. Thus if LB 128, as amended, became operative law, the individuals appointed to that position would be invested with the same sovereign functions of government which are currently invested in individuals who are elected to that office.

Under our system of government the people of our state cannot be denied the opportunity to elect county officers. Article IX, section 4 of the Constitution of Nebraska provides "The Legislature shall provide by law for the election of such county and township officers as may be necessary and for the consolidation of county offices for two or more counties; Provided, that each of the counties affected may disapprove such consolidation by a majority vote in each of the counties." We are therefore of the opinion that so much of LB 128, as amended, which pertains to the appointment of county superintendents is in violation of Article IX, section 4, of the Constitution of Nebraska.

Respectfully submitted,
ROBERT M. SPIRE
Attorney General

MESSAGES FROM THE GOVERNOR

March 4, 1988

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bill 316 was received in my office on March 3, 1988.

This bill was signed by me on March 4, 1988, and delivered to the Secretary of State.

Sincerely,
(Signed) KAY A. ORR
Governor

March 3, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Senators:

I am returning LB 519 without my signature and with my objections.

LB 519 establishes in state statute the make-up of the collective bargaining unit for the Nebraska State Patrol. My objection does not lie with the composition of the bargaining unit. My objection is to the bill's encroachment upon the the collective bargaining structure established by the Legislature in LB 661 enacted in 1987. This would set a precedent for determining bargaining units by statute rather than through the collective bargaining process.

This veto should not be construed as a challenge to the make-up of the State Patrol bargaining unit. As you know, the bargaining unit defined in LB 519 is the same as the one already determined by the Commission on Industrial Relations. I'm supportive of that determination. The unit has already been established. Neither the enactment of LB 519 nor my veto will affect its composition.

Sincerely,
(Signed) KAY A. ORR

and Members of the Legislature

Dear Mr. President and Senators:

I am returning LB 853 without my signature and with my objections.

LB 853 increases the amount that counties can levy for constructing and maintaining buildings without a vote of the people and lowers the number of signatures needed on a citizen's petition authorizing the county board to make a special assessment for county buildings.

Although I recognize the need for giving flexibility to elected officials, it is important to have the voters approve substantial construction projects. This bill tips the balance too far away from the voters.

Sincerely,

ATTORNEY GENERAL'S OPINIONS

Opinion No. 88016

DATE: March 1, 1988

SUBJECT: Authority of legislature to delegate legislative functions to private persons

REQUESTED BY: Senator Richard Peterson
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Marilyn B. Hutchinson, Assistant Attorney General

You have asked two questions about a proposed amendment to Neb.Rev.Stat. §71-1,107.17 (Reissue 1986), a statute pertaining to physician assistants. The amendment would permit a physician assistant, other than one with a temporary certificate, to practice without the personal presence of any supervising physician at a site away from the primary practice site of such physician if such physician determines the physician assistant is competent to do so and such physician establishes the standards of supervision which will assure that the physician assistant is rendering quality care there.
1. Is this an unconstitutional delegation of legislative authority? We have concluded that it probably is, as discussed below.

The legislature may not delegate to private persons a legislative function. Rowe v. Ray, 120 Neb. 118, 231 N.W. 689 (1930). In that case the claim was made that the legislature had conferred a legislative function upon private individuals, contrary to the provisions of Section 1, Article II and Section 1, Article III of the Nebraska Constitution.

The court agreed. "The legislature may prescribe and fix the terms and conditions on which a law may come into operation." Then it may leave to some officer or official body the determining whether the prescribed terms and conditions exist. Supra at 122. But it may not delegate such functions to private individuals. Id. at 123.

In the present case the legislative functions being delegated to private individuals are the authority to determine whether a physician assistant is competent to practice without the personal presence of a

supervising physician and the authority to determine what supervision is required to assure that such physician assistant is rendering quality care. (These are necessarily the questions of minimum competency and minimum supervision. The supervising physician can always require more from the physician assistant for whom he or she has agreed to be liable.)

The legislature has made the required supervision of a physician assistant the critical distinction between the practice of medicine by a certified physician assistant and by a licensed physician and surgeon. Neb.Rev.Stat. §71-1,107.29. The legislature has set the boundaries of practice by a physician assistant: (1) Delegation of health care tasks must be consistent with the patient's health and welfare. Neb.Rev.Stat. §71-1,107.15(2). (2) Supervision must be sufficient to provide quality medical care. Neb.Rev.Stat. §71-1,107.16(5). If the legislature now delegates to private individuals the determination of when those conditions are met, it will be reenacting the case presented in Rowe v. Ray.

2. Would this provision restrict the Department of Health from promulgating rules and regulations on the supervision of physician assistants? We have concluded it would, as discussed below.

Under present law, the Board of Examiners in Medicine and Surgery, with the approval of the Department of Health, is authorized to adopt rules and regulations which will "assure that every physician assistant performs his or her services under the responsible supervision and control of a physician or group of physicians." Neb.Rev.Stat. §71-1,107.24. That board, with the concurrence of the department, certifies applicants who meet the statutory requirements. Neb.Rev.Stat. §§71-1,107.16(4) and 71-1,107.19(1). That board, with the concurrence of the department, approves physicians to supervise such certified physician assistants. Neb.Rev.Stat. §71-1,107.20(2).

Specific legislation relating to a particular subject takes precedence over general legislation on that subject when there is a conflict between them. See, Duerfeldt v. State Game and Parks Comn, 184 Neb. 242, 166 N.W.2d 737 (1969) and Hall v. Cox Cable, 212 Neb. 887, 327 N.W.2d 595 (1982). Thus, to the extent that the proposed amendment would authorize the supervising physician to determine questions of competency and supervision, there is an infringement of the exercise of those functions by the board with the approval or concurrence of the department.

Sincerely yours,

Opinion No. 88017

DATE: March 3, 1988

SUBJECT: Definition of "Person" in Neb.Rev.Stat. §25-21,186 (Reissue 1985)

REQUESTED BY: Senator Carol McBride Pirsch
Dictrict No. 10

WRITTEN BY: Robert M. Spire, Attorney General
Lisa D. Martin-Price, Assistant Attorney General

QUESTION: 1. Whether a "person" who renders emergency care pursuant to Neb.Rev.Stat. §25-21,186 (Reissue 1985) includes individuals only, or does the term also include organizations?

CONCLUSION: 1. Pursuant to Neb.Rev.Stat. §49-801 (Reissue 1984), the term "person" in this context includes organizations as well as individuals.

You have asked whether a "person" who renders care pursuant to Section 25-21,186 encompasses both individuals and organizations. Our reading of the pertinent statutes indicates that the term "person" in this statute does indeed include individuals as well as organizations.

Neb.Rev.Stat. §49-801 (Reissue 1984) defines words and phrases used in statutes. It provides in part:

> Unless the context is shown to intend otherwise, words and phrases in statutes of Nebraska hereafter enacted are used in the following sense: (16) Person includes bodies politic and corporate, societies, communities, the public generally, individuals, partnerships, joint stock companies, and associations." (Emphasis added.)

After reviewing Section 25-21,186, we do not find that the context of the statute requires a different interpretation of the term "person" than the general definition provided in Section 49-801.

Sincerely,
ROBERT M. SPIRE
Attorney General

AM2351

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. There is hereby created the Railroad Personal Property Tax Fund and the Carline Personal Property Tax Fund to be administered by the Tax Commissioner. Any money in the funds available for investment shall be invested by the state investment officer pursuant to sections 72-1237 to 72-1269 and any income shall be credited to the respective fund. Any balance in either fund on June 30, 1989, shall lapse to the General Fund.

Sec. 2. (1) The county treasurer of each county shall, on or before May 1, 1988, certify to the Tax Commissioner for each taxing subdivision in his or her county (a)(i) the amount of loss for budget year 1987-88 of railroad personal property valuation, as determined under section 77-604, in the subdivision and within the county due to any lawsuit challenging current laws on the taxation of such property and (ii) the amount of loss for budget year 1987-88 of railroad carline personal property valuation in the subdivision and within the county due to any lawsuit challenging current laws on the taxation of such property and (b) the levy of the taxing subdivision for the budget year 1987-88.

(2)(a) Of the amount appropriated for fiscal year 1988-89 for reimbursement of the loss of railroad personal property tax revenue to the Railroad Personal Property Tax Fund, the Tax Commissioner shall distribute to the county treasurers as provided in subsection (3) of this section (i) on July 1, 1988, four million five hundred thousand dollars and (ii) on December 1, 1988, the remainder of the money so appropriated.

(b) On January 1, 1989, the Tax Commissioner shall distribute from the Carline Personal Property Tax Fund to the county treasurers as provided in subsection (3) of this section the money appropriated for fiscal year 1988-89 to such fund for reimbursement of the loss of railroad carline personal property tax revenue.

(3) The Tax Commissioner shall make the distribution to the county treasurer in amounts which are proportionate to the amounts lost by all taxing subdivisions in the county as compared to all taxing subdivisions in the state. The county treasurer shall distribute to each of the taxing subdivisions within his or her county the amount provided for the subdivision by the Tax Commissioner. If any of the lawsuits pending on the effective date of this act challenging the taxation of railroad and carline property are resolved or settled prior to the distribution of funds by the Tax Commissioner so that such taxation is retained in whole or in part, the Tax Commissioner and the county treasurer shall adjust the payments to the extent to which the funds have not already been distributed in order to make the distribution consistent with the amount of tax revenue actually lost by the subdivision for both types of railroad property for budget year 1987-88.

Sec. 3. If any of the lawsuits pending as of the effective date of this act challenging the taxation of railroad and carline property are resolved or settled so that such taxation is retained in whole or in part, then state aid to any taxing subdivision which has received from the state any funds to reimburse the subdivision for the loss of taxes from such property shall be reduced for the first fiscal year following resolution of the lawsuit. The reduction shall be in an amount equal to that certified by the Tax Commissioner to the State Treasurer as being the amount received by the subdivision as reimbursement for losses of taxes which the resolution or settlement of the lawsuit later upheld. The State Treasurer is hereby directed to so reduce from the amount appropriated for state aid for that fiscal year the aid to those subdivisions.

Sec. 4. That section 84-612, Revised Statutes Supplement, 1987, be amended to read as follows:

84-612. (1) There is hereby created within the state treasury a fund known as the Cash Reserve Fund which shall be under the direction of the State Treasurer. The fund shall only be used pursuant to subsections (2), (4), ~~and~~ (5), and (6) of this section.

(2) The State Treasurer shall transfer funds from the Cash Reserve Fund to the General Fund upon

certification by the Director of Administrative Services that the current cash balance in the General Fund is inadequate to meet current obligations. Such certification shall include the dollar amount to be transferred.

(3) Any transfers made pursuant to subsection (2) of this section shall be reversed upon notification by the Director of Administrative Services that sufficient funds are available.

(4) On September 15, 1985, the State Treasurer shall transfer eight million five hundred thousand dollars from the Cash Reserve Fund to the General Fund to pay Tort Claim Number 4-302. Such transfer shall be reversed after July 1, 1989, but before September 1, 1989.

(5) For the period July 1, 1985, to June 30, 1986, the State Treasurer shall transfer five million dollars from the Cash Reserve Fund to the General Fund. Such transfer shall be reversed after July 1, 1989, but before September 1, 1989.

(6) On June 15, 1988, the State Treasurer shall transfer nine million dollars from the Cash Reserve Fund to the Railroad Personal Property Tax Fund and two million two hundred thousand dollars from the Cash Reserve Fund to the Carline Personal Property Tax Fund.

Sec. 5. Sections 1 and 2 of this act shall terminate on July 1, 1989.

Sec. 6. That original section 84-612, Revised Statutes Supplement, 1987, is repealed.

ATTORNEY GENERAL'S OPINION

Opinion No. 88018

DATE: March 7, 1988

SUBJECT: Constitutionality of the Ten Cent Fee Imposed Upon Each Acre of Agricultural Land Under the Provisions of LB 911; Excise Taxes

REQUESTED BY: Senator W. Owen Elmer,
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

By letter dated February 5, 1988, you requested our opinion concerning several questions involving the constitutionality of LB 911. Subsequent conversations with you indicated that your primary question concerned the constitutionality of that portion of LB 911 which provides for the levy of a noxious weed fee for purposes of funding the Noxious Weed Control Act. Due to your concerns involving time, we gave you an informal response to your question. The purpose of this opinion is to formalize our earlier response.

Article VIII, Section 1A of our Nebraska Constitution provides, "the state shall be prohibited from levying a property tax for state purposes." The obvious import of this Constitutional provision is to leave property taxing authority to Nebraska's governmental subdivisions and to prevent the state from levying such a tax.

LB 911 would promulgate the Noxious Weed Control Act, and the bill contains various provisions for administering and enforcing noxious weed control requirements. Section 18 of the bill provides, "There is hereby levied a one-time noxious weed fee of ten cents per acre of land classified for purposes of taxation as agricultural or horticultural. The fee shall be collected by the county treasurers by February 1, 1989, and forwarded to the State Treasurer who shall deposit the fees in the Noxious Weed Revolving Fund which is hereby created." The constitutionality of this particular taxing provision turns upon a determination of whether this tax provides for a form of property tax or a form of excise tax. If Section 18 imposes a property tax, then the tax is unconstitutional under Article VIII, Section 1A set out above. If Section 18 imposes an excise tax, that constitutional provision does not come into play.

Our Supreme Court most recently considered the distinction between excise taxes and property taxes in State v. Galyen, 221 Neb. 497, 378 N.W.2d 182 (1985). In that case, the court stated,

Black's Law Dictionary (5th Edition, 1979) at 506 defines an excise tax as "a tax imposed on the performance of an act....tax laid on manufacture, sale, or consumption of commodities...." On the other hand, Black's Law Dictionary, supra at 1097 defines a property tax as "a tax levied on both real and personal property; the amount of the tax being dependent on the value of the property, generally expressed as a uniform rate per thousand of valuation."

Id at 500, 378 N.W.2d at 185. The court went on to add,

"An excise tax, using the term in its broad meaning as opposed to a property tax, includes taxes sometimes designated by statute or referred to as privilege taxes, license taxes, occupation taxes, and business taxes."

....On a number of occasions this court has similarly recognized that a tax imposed upon the doing of an act is an excise tax and not a property tax.

Id at 500, 501, 378 N.W.2d at 185.

Under the Galyen standard, it is not entirely clear whether the "noxious weed fee" of Section 18 of LB 911 is a property tax or an excise tax. On the one hand, the fee is levied by the Legislature, it in no way is based upon the value of the property in question, and it is not subject to assessment procedures by local county assessors as are forms of property tax. On the other hand, the fee is imposed without the "doing of an act," as required by Galyen, for example the sale of a particular commodity. In the Galyen case, the fee in question was paid per head on cattle as they were sold.

Because it is not clear whether the fee imposed by LB 911 is a property tax or an excise tax under Nebraska law, we reviewed case law from other jurisdictions which deals with this issue. Several of those cases shed some light upon this question.

Several cases from other jurisdictions indicate that a tax on a particular use of property is an excise tax. For example in Eastler v. State Tax Assessor, 449 A.2d 921 (Maine 1985), the court indicated that an excise tax is not confined to a tax on business but also embraces any tax imposed on a particular use of property or a particular power over property which is incidental to its ownership. Similarly, in Weaver v. Prince George's County, 281 Md. 349, 379 A.2d 399 (1977), the court indicated that a tax on the use of property as distinguished from a tax based on ownership exclusively is in the nature of an excise tax. See also, Mount Tivy Winery, Inc. v. Louis, 134 F.2d 120 (1943); State v. Wynne, 134 Tex. 455, 133 S.W.2d 951 (1939).

Other cases from other jurisdictions focus on the methods used to impose the tax and on the methods used to determine the amount of

the tax itself. For example, in Black v. State, 67 Wash.2d 97, 406 P.2d 761 (1965), the court indicated that a tax imposed directly by the legislature without assessment measured by the amount of business done or the extent to which conferred privileges have been used or exercised by the taxpayer irrespective of the nature or value of the taxpayer's assets, is an excise tax. In contrast, a tax computed on valuation of property and assessed by assessors either where it is situated or at the owner's domicile is a property tax. See also, Weaver v. Prince George's County supra; City of Phoenix v. Bowles, 65 Ariz. 315, 180 P.2d 222 (1947).

It appears to us that the fee imposed by Section 18 of LB 911 could be characterized as imposing a tax on the use of property since it is levied only upon "land classified for purposes of taxation as agricultural or horticultural." In other words, the fee here is imposed upon use of the property as agricultural land. In addition, this tax is levied by the Legislature and is not in any way based upon valuation of the property. Therefore, the fee set out in Section 18 of LB 911 may be considered an excise tax. As such, it does not violate Article VIII, Section 1A of our State Constitution which prohibits the imposition of a property tax for state purposes.

Sincerely yours,
ROBERT M. SPIRE

UNANIMOUS CONSENT - Print in Journal

Mr. Haberman asked unanimous consent to print the following amendment to LB 1083 in the Journal. No objections. So ordered.

AM2340

1. Strike the original sections and insert the following new sections:

"Section 1. The Legislature finds and determines that the state and its political subdivisions can often achieve significant economies of scale and interest and issuance cost savings, as well as better coordination and utilization of available federal and state assistance programs, by conducting their normal borrowings through joint arrangements and that such joint arrangements are in the interest of the state and its citizens. The purpose of this act is to authorize political subdivisions to develop alternative joint-financing programs. This act is not intended to enlarge or diminish the authority of a political subdivision to issue or incur obligations or acquire

property or to change the existing requirements or restrictions pertaining to a political subdivision. All such programs are to be conducted for the benefit of the citizens of the state and the affected political subdivision generally and specifically for the public purposes set forth in this act and not for the primary benefit of any single person or organization.

Sec. 2. Political subdivision shall mean (1) any county, municipality, city, town, village, township, school district, or any other district or political subdivision of the state, (2) the state, or (3) any association of any of the entities described in subdivisions (1) and (2) of this section but shall not include sanitary and improvement districts.

Sec. 3. Any two or more political subdivisions may enter into a cooperative agreement in accordance with the Interlocal Cooperation Act and, pursuant to the Interlocal Cooperation Act, may exercise any power granted in section 4 of this act for the benefit of and with respect to the political subdivisions which are parties to such agreement.

Prior to carrying out any such power, the participating political subdivisions shall adopt and promulgate rules and regulations governing such activities, including any or all of the following:

(1) How the activities will effectuate the public purposes of the participating political subdivisions;

(2) The nature and amount of fees, if any, to be charged to provide for expenses and reserves;

(3) Participation in any related federal or state funding programs;

(4) Such requirements as are appropriate to ensure that the exercise of such power is prudent and reasonable; and

(5) Any other matters related to the duties or exercise of the power granted by this section.

Any such exercise of cooperative authority by participating political subdivisions is intended to be self-supporting, and no money derived directly or indirectly from taxes may be used to pay any costs or expenses incurred in connection with such activities. The cooperative agreement shall provide for the employment of an independent person, experienced in

financial matters, to monitor the ongoing compliance of the participating political subdivisions with all covenants pertaining to such political subdivisions.

Sec. 4. ATTORNEY GENERAL'S OPINIONS

Opinion No. 88019

DATE: March 4, 1988

SUBJECT: (1) Whether LB 1225 unlawfully delegates power which is reserved to the Legislature; and
(2) Whether LB 1225 permits the creation of a special board of education in violation of the "one man-one vote" rule?

REQUESTED BY: Senator Ron Withem
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Harold Mosher, Assistant Attorney General

If enacted into operative law, LB 1225 of the Ninetieth Legislature, Second Session (1988) would amend certain statutes and provide procedures whereby Class I school district, or portions thereof, may combine with a Class II, III, IV, or V school district to create an affiliation of school districts. The stated procedures include the filing of a petition with the county superintendent signed by not less than a stated percentage of the legal voters of the Class I school district. The petition, pursuant to section 6 of LB 1225, shall include:

(a) A description of the proposed boundaries of the affiliation of school districts and the legal name by which the affiliation shall be known;

(b) A map of the area described in (a) above;

(c) A specification of the grade levels to be provided by the affiliation of school districts;

(d) Specific accounting procedures to be used by the affiliation of school districts to differentiate the expenditures of the parent Class II, III, IV, or V school district for those grades not provided by the affiliation from the expenditures of the affiliation of school

districts for facilities, staff, administrative costs, transportation expenses, if any, debt service, and any other costs;

(e) Transportation plans, if any, will be provided;

(f) The number of board members to constitute the special board of education of the affiliation of school districts and the number of board members who shall come from the parent district and the number of members who shall come from affiliate districts or portions thereof;

(g) A statement of presumed value of the assets owned by the parent Class II, III, IV, or V school district to be used whether in whole or in part for the delivery of services for the affiliation of school districts (but no statement of presumed value of the assets owned by the Class I school district need be stated); and

(h) The existing bonded indebtedness, if any, which will be assumed by the affiliation of school districts.

Other procedures in LB 1225 include the acceptance or rejection of the petition by the board of education of the Class II, III, IV or V school district and certain powers and duties of the special board of education of an affiliation of school districts authorized by this legislative bill. The questions submitted are discussed in the order stated.

A STATUTE REPOSING, IN EFFECT, AN ABSOLUTE UNREGULATED AND UNDEFINED DISCRETION IN THE CREATION OF A POLITICAL OR GOVERNMENTAL SUBDIVISION UNLAWFULLY DELEGATES LEGISLATIVE POWER.

A proposal to create an affiliation of school districts is initiated, as noted above, by a petition which must include, among other things, the number of board members to constitute the special board of education of the affiliation of school districts and the number of board members who shall come from the parent Class II, III, IV, or V school district and the number of board members who shall come from the Class I school districts who would affiliate with the parent school district pursuant to the proposal. See, section 6(2)(g) of LB 1225. It is to be noted that the minimum and maximum number of members of a special board of education of an affiliation of school districts is not stated in LB 1225, but is left to the absolute unregulated discretion of those who propose the creation of an affiliation of school districts. Likewise, the number of members of the special board of education who are to come from the parent Class II, III, IV or V school district is not stated in LB 1225, nor is the number of members of the special board of education who are to come from the affiliate Class I school districts stated. In each case, the number who are to come from each class of school districts is left

to the absolute unregulated discretion of those who propose the creation of an affiliation of school districts. This absolute and unregulated discretion is, in our opinion, an impermissible delegation of legislative power. See, Terry Carpenter, Inc. v. Nebraska Liquor Control Commission, 175 Neb. 26, 120 N.W.2d 374 (1963). Accordingly, we are of the opinion that section 6(2)(g) of LB 1225 violates Article II, section 1, of the Constitution of Nebraska.

THE EQUAL PROTECTION CLAUSE OF THE FOURTEENTH AMENDMENT REQUIRES SUBSTANTIAL EQUALITY IN POPULATION AMONG VOTING DISTRICTS OF A POLITICAL SUBDIVISION.

As noted above, a petition which proposes the creation of an affiliation of school districts must include, among other things, the number of board members which constitutes the special board of education of the affiliation of school districts and the number of board members who shall come from the parent Class II, III, IV, or V school district and the number of board members who shall come from the Class I school district(s) who would affiliate with the parent school district pursuant to the proposal. The actual number of each is left to the absolute unregulated discretion of those who initiate the proposal.

It is well established law that the constitutionality of a statute is to be tested, not by what has been done or may be done under it, but what the law authorizes to be done under its provisions. City of Beatrice v. Wright, 72 Neb. 689, 101 N.W. 1039 (1904); Anderson v. Carlson, 171 Neb. 741, 107 N.W.2d 535 (1961). Application of that legal principle to LB 1225 discloses that an individual(s) who initiates a petition to create an affiliation of school districts could designate in the petition a particular Class III school district with a population of 15,000 people shall have 15 members on the special board of education and the Class I school district(s) with a combined population of 3,000 people who would be given the opportunity to affiliate with the parent Class III school district is to have but 2 members on the special board of education.

To state the obvious, pursuant to LB 1225, the members of the special board of education represent different classes of school districts which are not of equal population. The problem here is compounded by the fact that members of the special board of education are chosen by elected local boards of education which represent school districts of unequal population. This is not a case where candidates must be residents of certain districts which may contain an unequal number of people but who are elected at large. Nor is this a case where elected local school boards send a delegate to a biennial meeting and those delegates elect a county board which

performs essentially administrative functions. Rather, LB 1225 contemplates the exercise of governmental powers by a special board of education of an unknown number who are chosen by the elected governing bodies of school districts of unequal population which comprise the affiliation. Class I school districts have local elected boards of education of either three or six members. Neb.Rev.Stat. §§79-601 and 79-601.01 (Reissue 1986). LB 1225 grants the unknown total combined membership of all the elected boards of education of Class I school districts which are affiliated the power and duty to choose from their membership a statutory unknown unregulated number of members to serve on the special board of education which governs the affiliation. A Class II, III, IV or V school district has an elected local board of education of either six, seven, nine or twelve members, some of whom may be elected from districts within the parent school district. Neb.Rev.Stat. §§79-601, 79-601.01, 79-701, 79-803, 79-803.07, 79-902.01 and 79-1003 (Reissue 1986). Members of the elected board of education of a parent Class II, III, IV or V school district likewise have the power and duty to choose from their members a statutory unknown unregulated number of members to serve on the special board of education. Query, does LB 1225 violate the Fourteenth Amendment?

In our opinion, a qualified elector is no more nor less so because he or she lives in the city or on the farm. Indeed, that is an essential concept of a government of laws and not men. To the extent that a citizen's right to vote is debased or diluted, he or she is that much less a citizen. Thus the Fourteenth Amendment grants voters the right to have their votes given the same weight as other voters. Wessberry v. Sanders, 376 U.S. 1, 11 L.Ed.2d 481, 84 S.Ct. 526 (1964). Here, the total number of members elected to the local boards of the affiliate Class I school districts may, and in some situations will, exceed the number of board members elected to the board of a parent Class II, III, IV or V school district yet in some situations the total combined population of the affiliate Class I school districts will be less than the population of the parent school district. Moreover, the board members of the local Class I school districts which affiliate could, pursuant to LB 1225, choose a greater number of members to serve on the special board of education of the affiliated school district than the board members of the parent Class II, III, IV or V school board will be permitted to choose. That, in our opinion, violates the "one man-one vote" rule.

Respectfully submitted,

Opinion No. 88020

DATE: March 7, 1988

SUBJECT: Whether LB 1097 Unconstitutionally Delegates Legislative Authority

REQUESTED BY: Senator Don Wesely, Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Yvonne E. Gates, Assistant Attorney General

You have requested our opinion on two questions concerning LB 1097. First, does this bill provide an unlawful delegation of legislative authority by allowing an eye care professional to determine whether an applicant who fails to meet minimum visual standards should obtain a driver's license? Second, is the legislation unconstitutionally vague because it does not provide sufficient guidelines for the eye care professional to apply in making the determination? The answer to both questions is yes, LB 1097 is unconstitutional.

Regulating the use of public roadways and protecting the public safety on those roadways is a proper exercise of the state's police power. Schultz v. State, 89 Neb. 35, 130 N.W. 972 (1911). While practical administration may require delegation of that responsibility, it has long been established that the legislature may not delegate legislative functions to private individuals. Rowe v. Ray, 123 Neb. 118, 23d N.W. 689 (1930). In Fulmer v. Jensen, 221 Neb. 582, 379 N.W.2d 736 (1986), the Nebraska Supreme Court recognized that powers delegated to a governmental agency by the legislature could be further delegated to agency subordinates and assistants "... to any extent, so long as the agency preserves for itself the right to make the final decision." Id, at 585 quoting 2 Am.Jur. 2d §224 at 54-55.

As originally drafted, LB 1097 clearly delegates the final decision regarding the issuance of the license to any doctor or optometrist, allowing that professional to stipulate what restrictions, if any, are to be placed on the license. The amendment by the Transportation

Committee requires that an ophthalmologist issue the certificate. Additionally, it places the final decision back in the agency by requiring the individual to satisfactorily complete a drive test before the license can be issued. However, neither version of the bill overcomes the obstacle addressed in your second question.

LB 1097 is invalid because neither it nor any other statute in pari materia with it contain any limitation or standards for the determination of safe visual acuity. Neb.Rev.Stat. §60-406.06 requires the Director of Motor Vehicles to adopt such rules and regulations as may be necessary to carry out the provisions of the Motor Vehicle Operator's License Act. On that authority the Department has set the standards of eyesight required for issuance of the license. By permitting eye care professionals to issue certificates for individuals who otherwise could not obtain a license, LB 1097 in effect obviates the standards. "A statute which in effect reposes an absolute unregulated and undefined discretion in an administrative body bestows arbitrary powers and is an unlawful delegation of legislative powers." School District No. 39 v. Decker, 159 Neb. 693, 700, 68 N.W.2d 354 (1955). Presuming that an ophthalmologist will exercise good judgment does not sustain the delegation of unregulated discretion to either a private individual or an administrative agency. If passed, LB 1097 would fail a constitutional challenge.

Sincerely,
ROBERT M. SPIRE

WHEREAS, the United States District Court ruled that the state and its political subdivisions are prohibited from levying and collecting personal property taxes from Trailer Train Co. and its subsidiaries; and

ATTORNEY GENERAL'S OPINION

Opinion No. 88021

DATE: March 9, 1988

SUBJECT: Constitutionality of LB 377 Concerning Penalties for DWI and Implied Consent Refusal

REQUESTED BY: Senator Don Wesely
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Yvonne E. Gates, Assistant Attorney General

LB 377 requires the Director of the Department of Motor Vehicles to revoke the motor vehicle operator's license for refusal to submit to a chemical test unless the licensee pleads guilty or is convicted of driving while under the influence of alcoholic liquor or a drug (DWI). A possible amendment provides for waiver of the revocation only when the licensee enters a plea of guilty. You have requested our opinion regarding the constitutionality of both the bill and the amendment. Either version is constitutionally permissible.

To declare what shall constitute a crime and how it is to be punished is a power vested solely and exclusively in the Legislature. State v. Cutright, 193 Neb. 303, 226 N.W.2d 771 (1975). In the implied consent statute the Legislature has provided that an individual who refuses to submit to a chemical analysis of his or her blood breath or urine "shall be subject to the administrative revocation procedures of the Director of Motor Vehicles . . . and shall be guilty of a crime. . . ." Neb.Rev.Stat. §39-669.08 (Cum.Supp. 1987). LB 377 does not propose to change that aspect of the statute.

Whether an individual waives or exercises the right to trial, the criminal penalties are the same. Likewise with the crime of refusal.

Since all parties are treated equally, LB 377 does not violate the Equal Protection Clause.

An argument might be raised that the disparate treatment in the civil action is violative of this right. However, the Nebraska Supreme Court has repeatedly ruled that while the same motor vehicle operation may give rise to two separate and distinct proceedings, each action proceeds independently of the other and the outcome of one action is of no consequence to the other. Ziemba v. Johns, 183 Neb. 644, 163 N.W.2d 780 (1968). See also, Neil v. Peterson, 210 Neb. 378, 314 N.W.2d 275 (1982) and Raymond v. Department of Motor Vehicles, 219 Neb. 821, 366 N.W.2d 758 (1985).

Nebraska case law consistently indicates that "if the statute involves economic or social legislation not implicating a fundamental right or suspect class, courts will ask only whether a rational relationship exists between a legitimate state interest and the statutory means selected by the legislature to accomplish that end." State v. Michalski, 221 Neb. 380, 385, 377 N.W.2d 510 (1985). The Nebraska Supreme Court has consistently ruled that driving is not a fundamental right. Porter v. Jensen, 223 Neb. 438, 390 N.W.2d 511 (1986), Michalski, supra.

Equal protection of the law requires that similarly situated persons be treated equally by the government; however, "It does not foreclose government from classifying persons or from differentiating one class from another when enacting legislation." Lindsley v. Natural Carbonic Gas Co., 220 U.S. 61, 31 S.Ct. 337, 55 L.Ed. 369 (1911). Should the Legislature decide that it is in the public interest to encourage motorists to submit to a chemical test by permitting admitted or convicted drunk drivers to avoid civil penalties, that is clearly within its prerogative. The classification made in LB 377 is related to the legitimate state interest of deterring drug and alcohol use by motorists.

Although the wisdom of such an action may be subject to challenge, the constitutionality of the bill, on equal protection grounds, is unmistaken.

Sincerely,
ROBERT M. SPIRE
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 88022

DATE: March 11, 1988

SUBJECT: Constitutionality of Proposed Amendments to Legislative Bill 655 Relating to Adjustment of Retirement Benefits of the Nebraska State Patrolmen's Retirement System

REQUESTED BY: Senator Rex Haberman, Chairperson
Nebraska Retirement Systems Committee

WRITTEN BY: Robert M. Spire, Attorney General
Fredrick F. Neid, Assistant Attorney General

QUESTION ONE: Would the proposed amendments which provide for increases to retirement annuity benefits based on federal guidelines constitute an unconstitutional delegation of legislative authority?

CONCLUSION: Yes. The language of the proposed amendments to LB 655 does not incorporate by reference an existing federal law or regulation with sufficient description.

QUESTION TWO: Whether the minimum benefit for retired employees and their families would violate Article III, Section 19 of the Nebraska Constitution "since it is not directly tied to changes in the wage levels or the cost of living"?

CONCLUSION: Yes. There is no provision in Legislative Bill 655 or the proposed amendments that the increases are adjustments due to changes in the cost of living and wage levels that have occurred subsequent to retirement.

The first question relates to the provisions of Section 2 of the proposed amendments to Legislative Bill 655. Section 2 provides that retirement annuity benefits "shall be adjusted to an amount not less than the amount of the federal Office of Management and Budget poverty guideline applicable to this state and the size of the recipient's family unit."

Generally, the courts have determined that adoption by reference of laws and regulations of another jurisdiction are unconstitutional delegations of legislative power when the power delegated is overly broad or because of the nature of the power delegated. Particular instances where delegations of legislative power have been found to be unconstitutional include: 1) proposals where the laws or regulations are not final or in existence at the time of adoption; and 2) when the laws or regulations to be adopted are in conflict with existing state laws.

While there are limits to the delegation of legislative power, the Nebraska Legislature may lawfully adopt an existing law or regulation of another jurisdiction. In Anderson v. Tiemann, 182 Neb. 393, 155 N.W.2d 322 (1967), the Nebraska Supreme Court considered whether statutes which base a state income tax law upon laws of the United States was an unconstitutional delegation of legislative power. The Court held that incorporation by reference of tax laws was a permissible delegation of legislative power.

In Lincoln Dairy Co. v. Finigan, 170 Neb. 777, 784; 104 N.W.2d 227, 232 (1960), our Supreme Court stated: "We do not hold that the Legislature may not adopt a law or regulation of another jurisdiction by reference. It may even adopt such insofar as it is not in conflict with existing laws of this state." In this case, the Court held that the statutes which delegated discretion to adopt federal regulations to an administrative officer was an unconstitutional delegation of legislative power.

In applying these principles to the proposed amendment(s), it appears that the objective to be attained would be a permissible delegation of legislative power. However, the proposed amendment may be subject to constitutional challenge because the law or regulation, as stated, may not be final or is subject to change by the federal government. The proposed language does not reference an existing federal law or regulation with sufficient specificity so that it

is known that the law or regulation adopted is in existence or is subject to future regulation or revision.

The general language of the proposed amendment would adopt a federal guideline which is open to future revision by the federal government. This is a technical deficiency which may be cured by reference to a specific federal code enactment or regulation which is currently in existence and provides for the guideline which the Legislature is desirous of adopting. Referencing the specific federal code enactment or regulation presently in existence would narrow the power delegated and serve to remove constitutional objection to incorporation by reference of the federal guideline.

Your second question is whether the proposed amendment would be violative of the constitutional prohibition which forbids the granting of additional compensation to public officers or employees after services have been rendered. Article III, Section 19 of the Nebraska Constitution, in part, states:

> The Legislature shall never grant any extra compensation to any public officer, agent, or servant after the services have been rendered nor to any contractor after the contract has been entered into, except that retirement benefits of retired public officers and employees may be adjusted to reflect changes in the cost of living and wage levels that have occurred subsequent to the date of retirement. . . . (Emphasis added).

The express exception to the constitutional prohibition permits adjustments only to reflect changes in the cost of living and wage levels which have occurred subsequent to retirement.

Review of the proposed amendment reflects that there is no express provision that increases are adjustments due to changes in the cost of living and wage levels that have occurred subsequent to retirement. Accordingly, it is our opinion that the proposed amendment providing for increases to retirement benefits would be violative of the Nebraska Constitution.

Sincerely,
ROBERT M. SPIRE
Attorney General

77-2716. (1) The following adjustments to federal adjusted gross income or, for corporations, federal taxable income shall be made for interest or dividends received:

(a) There shall be subtracted interest or dividends received by the owner of obligations of the United States and its territories and possessions or of any authority, commission, or instrumentality of the United States to the extent includable in gross income for federal income tax purposes but exempt from state income taxes under the laws of the United States;

(b) There shall be added interest or dividends received by the owner of obligations of the District of Columbia, other states of the United States, or their political subdivisions, authorities, commissions, or instrumentalities to the extent excluded in the computation of gross income for federal income tax purposes;

(c) There shall be added the total dividends and other income received from a regulated investment

company to the extent excluded for federal income tax purposes, except that when a regulated investment company has reported to the recipient that as of the end of each quarter of the tax year of the company at least eighty percent of its total assets were (i) obligations described in subdivision (a) of this subsection, the total dividends and other income may be excluded or (ii) obligations described in subdivision (b) of this subsection and obligations issued under the laws of Nebraska that are exempt for federal income tax purposes, the dividends and other income may be excluded to the extent they are attributable to obligations issued under the laws of Nebraska that are exempt for federal income tax purposes; and

(d)(i) Any amount subtracted under this subsection shall be reduced by any interest on indebtedness incurred to carry the obligations or securities described in this subsection or the investment in the regulated investment company and by any expenses incurred in the production of interest or dividend income described in this subsection to the extent that such expenses, including amortizable bond premiums, are deductible in determining federal taxable income.

(ii) Any amount added under this subsection shall be reduced by any expenses incurred in the production of such income to the extent disallowed in the computation of federal taxable income.

(2) There shall be allowed a net operating loss derived from or connected with Nebraska sources computed under rules and regulations adopted and promulgated by the Tax Commissioner consistent, to the extent possible under the Nebraska Revenue Act of 1967, with the laws of the United States. For a resident individual, the net operating loss computed on the federal income tax return shall be adjusted by the modifications contained in this section. (3) There shall be subtracted from federal

adjusted gross income for all taxable years beginning on or after January 1, 1988, the amount of any state income tax refund to the extent such refund is included in federal adjusted gross income.

(4) Federal adjusted gross income shall be modified to exclude the portion of the income or loss received from a small business corporation with an election in effect under subchapter S of the Internal Revenue Code that is not derived from or connected with Nebraska sources as determined in section 77-2734.01.

(5) There shall be subtracted from federal adjusted gross income or, for corporations, federal taxable income dividends received or deemed to be received from corporations which are not subject to the Internal Revenue Code.

(6) There shall be subtracted from federal taxable income a portion of the income earned by a corporation subject to the Internal Revenue Code of 1986 that is actually taxed by a foreign country or one of its political subdivisions at a rate in excess of the maximum federal tax rate for corporations. The taxpayer may make the computation for each foreign country or for groups of foreign countries. The portion of the taxes that may be deducted shall be computed in the following manner:

(a) The amount of federal taxable income from operations within a foreign taxing jurisdiction shall be reduced by the amount of taxes actually paid to the foreign jurisdiction that are not deductible solely because the foreign tax credit was elected on the federal income tax return;

(b) The amount of after-tax income shall be divided by one minus the maximum tax rate for corporations in the Internal Revenue Code; and

(c) The result of the calculation in subdivision (b) of this subsection shall be subtracted from the amount of federal taxable income used in subdivision (a) of this subsection. The result of such calculation, if greater than zero, shall be subtracted from federal taxable income.

(7)(a) For all taxable years beginning or deemed to begin on or after January 1, 1989, for corporations required to file a combined report pursuant to Nebraska law, any affiliated corporation with eighty

percent or more of the average of its payroll and property assignable to locations outside the United States and the District of Columbia, and any distributions therefrom, shall be excluded from such combined report.

(b) Not withstanding subdivision (a) of this subsection:

(i) For 1989, corporations shall include in the combined report eighty percent of the income and apportionment factors of companies excluded in subdivision (a) of this subsection. (ii) For 1990, corporations shall include in the combined report sixty percent of the income and apportionment factors of companies excluded in subdivision (a) of this subsection. Such corporations otherwise excluded under subdivision (a) of this subsection shall be allowed fifty percent of the deduction allowed in subsection (6) of this section;

(iv) For 1992 and thereafter, corporations shall include in the combined report twenty percent of the after-tax income and twenty percent of the apportionment factors of companies excluded in subdivision (a) of this subsection. Such corporations otherwise excluded under subdivision (a) of this subsection shall not be allowed the deduction allowed in subsection (6) of this section.

ATTORNEY GENERAL'S OPINION

Opinion No. 88023

DATE: March 14, 1988

SUBJECT: LB 981; Authority of Cities of the Metropolitan Class Including Omaha to Impose Mandatory

Fees for the Collection and Disposal of Refuse and Garbage

REQUESTED: Senator Paul Hartnett and the Members of the Urban Affairs Committee

WRITTEN BY: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

LB 981 is apparently intended to provide specific statutory authority for cities of the metropolitan class, including Omaha, to charge a fee for the collection and disposal of garbage and refuse. Legal research provided to the Urban Affairs Committee indicated that metropolitan cities may already have such authority under current law, and that LB 981 is unnecessary. You therefore requested our opinion as to whether the City of Omaha has authority to impose a mandatory fee for the collection and disposal of refuse and garbage under current law. You also requested our opinion as to whether there is a legal distinction between garbage and refuse in connection with any such authority of the City of Omaha. For the reasons set out below, we have concluded that the city has no clear authority for such a garbage or refuse collection charge. This is true whether the material to be collected is garbage or other forms of refuse.

Neb.Rev.Stat. §14-102(28) (Cum.Supp. 1986) provides that cities of the metropolitan class may establish "plants for the removal and disposal of garbage", and may "make contracts for the removal or disposal of garbage, or for both, except as hereinafter provided." The statute also states:

> Before the city council shall make specifications therefore, bids shall be advertised for as now provided by law, and the contract shall be let to the lowest and best bidder, who shall furnish bond to the city conditioned upon his or her carrying out the terms of the contract, the bond to be approved by the city council.

In addition to this specific authority dealing with garbage disposal, subsection (25) of §14-102 provides for police regulation in general, and states, in part, that cities of the metropolitan class have authority to:

> Make and enforce all police regulations for the good government, general welfare, health, safety, and security of the city and the citizens thereof, in addition to the police powers expressly granted herein; and in the exercise of the police power, they may pass all needful and proper ordinances, ...

Other than these particular statutes dealing with garbage disposal and the general police power, there are no statutes pertinent to cities of

the metropolitan class which detail further authority concerning the disposal of garbage or refuse.

The statutory sections set out above obviously contain no specific authority which would allow cities of the metropolitan class including Omaha to charge property owners fees for the collection and disposal of garbage or refuse. Therefore, if Omaha has such authority under current law, it must based upon case law which would indicate that such authority to charge fees is inherent in the city's police power.

You have referred us to a series of older Nebraska cases which concern the police power of Nebraska municipalities and its application to garbage collection and removal. See, Urbach v. City of Omaha, 101 Neb. 314, 163 N.W. 307 (1917); Kelley v. Broadwell, 3 Neb. Unof. 617, 92 N.W. 643 (1902); Iler v. Ross, 64 Neb. 710, 90 N.W. 869 (1902); Coombs v. MacDonald, 43 Neb. 632, 62 N.W. 41 (1895); Smiley v. MacDonald, 42 Neb. 5, 60 N.W. 355 (1894). These various cases stand for the propositions that cities can, under their general police power, provide for the removal and disposal of garbage, can grant exclusive contracts for the removal and disposal of garbage, and apparently, can set prices for the contractors who engage in such removal and disposal operations. These cases also appear to indicate that rules pertaining to the general police power of cities regarding garbage disposal apply to garbage defined as putrescible material as opposed to general refuse, and there is some distinction as to the latter material which we assume is the basis for the second question which you posed to us. Nowhere do these various older cases squarely face the issue of whether a city has authority under its general police power to assess charges and fees for the removal and disposal of garbage.

Our research indicates that cases from other jurisdictions and other authorities indicate that cities have such authority to charge fees under their general police power. For example, in McQuillan, Municipal Corporations, it is stated at §24.250, "A special charge, tax, or assessment may be made by a municipal corporation, reasonably commensurate to the cost of removal of garbage and refuse." See also, Mayor and Aldermen of City of Milledgeville, 221 Ga. 498, 145 S.E.2d 507 (1965); Tayloe v. City of Wahpeton, 62 N.W.2d 31 (N.Dak. 1953); 56 Am.Jur.2d, Municipal Corporations, §461.

Whatever the rule in other jurisdictions, our Supreme Court has not dealt directly with this issue. Moreover, the clear rule in Nebraska appears to be that:

> .... a municipal corporation may exercise only such powers as are expressly granted, those necessarily or fairly implied in or incidental to powers expressly granted, and those essential to the

> declared objects and purposes of a municipality. Statutes granting powers to municipalities are to be strictly construed, and where doubt exists, such doubt must be resolved against the grant.

Briar West Inc. v. City of Lincoln, 206 Neb. 172, 175, 176, 291 N.W.2d 730, 732 (1980). See, Nebraska League of Savings and Loan Associations v. Johnson, 215 Neb. 19, 337 N.W.2d 114 (1983); Chase v. County of Douglas, 195 Neb. 838, 241 N.W.2d 334 (1976). In one case, our Supreme Court indicated that:

> .... legislative charters wherein cities are empowered to perform certain acts or functions are construed with a greater degree of strictness than ordinary civil statutes, and the rule in Nebraska is that they shall be strictly construed. Their authority to perform municipal acts will not be extended beyond the plain import of the language of the charter.

Metropolitan Utilities District v. City of Omaha, 171 Neb. 609, 614, 107 N.W.2d 397, 402 (1961).

Given the Nebraska case law cited above calling for strict construction of municipal authority, and in light of the absence of Nebraska cases or statutes directly authorizing municipalities to impose a charge or fee for the collection of garbage, we cannot say that current case law or statutes give cities of the metropolitan class including Omaha the authority to charge a fee for the collection and disposal of garbage or refuse. This is true whether the material to be collected is "garbage" as opposed to any other form of refuse. LB 981 would obviously correct that problem, and clearly authorize such action by the City of Omaha.

Sincerely Yours,
ROBERT M. SPIRE

AM2609
1 1. Strike the original sections and all

amendments thereto and insert the following new sections:

"Section 1. (1) There is hereby created the Railroad and Car Company Personal Property Reimbursement Fund to be administered by the State Treasurer. Any money in the Railroad and Car Company Personal Property Reimbursement Fund available for investment shall be invested by the state investment officer pursuant to sections 72-1237 to 72-1269. There is hereby appropriated four million one hundred thousand dollars for fiscal year 1988-89 from the Cash Reserve Fund for deposit into the Railroad and Car Company Personal Property Reimbursement Fund for distribution by the State Treasurer. The State Treasurer shall distribute, on or before August 31, 1988, to the school districts of Nebraska, as reimbursement for the dollar loss resulting from the injunction granted to the railroads in the discrimination lawsuit for tax year 1987 an amount equal to the amount that exceeds one percent of the tax dollars anticipated from property tax sources excluding bonded indebtedness as determined by the Tax Commissioner. The State Treasurer shall distribute on or before August 31, 1988, to the cities in Nebraska, as reimbursement for the dollar loss resulting from the injunction granted to the railroads in the discrimination lawsuit for tax year 1987, an amount equal to the amount that exceeds one percent of the tax dollars anticipated from property tax sources as determined by the Tax Commissioner. The State Treasurer shall distribute, on or before August 31, 1988, to the technical community colleges of Nebraska, as reimbursement for the dollar loss resulting from the injunction granted to the railroads in the discrimination lawsuit for tax year 1987, an amount equal to the amount that exceeds one percent of the tax dollars anticipated from property tax sources, excluding bonded indebtedness, as determined by the Tax Commissioner. Anticipated car company receipts shall be equal to the amount distributed during calendar year 1987 as determined by the Tax Commissioner.

(2) If the amount appropriated in this section is not sufficient to cover the reimbursement provided for in this section, the amount appropriated shall be prorated by the Tax Commissioner in conformance with this section.

(3) If any of the lawsuits pending as of the effective date of this act challenging the taxation of railroad and car company property are resolved so that such taxation is retained in whole or in part, state aid to any taxing subdivision which has received from the state any funds to reimburse the subdivision for the loss of taxes from such property shall be reduced for the first fiscal year following resolution of the lawsuit. The reduction shall be in an amount equal to that certified by the Tax Commissioner to the State Treasurer as being the amount received by such subdivision as reimbursement for losses of taxes which the resolution of the lawsuit later upheld. The State Treasurer is hereby directed to so reduce from the amount appropriated for state aid for that fiscal year the aid to any such subdivision.

Sec. 2. That section 84-612, Revised Statutes Supplement, 1987, be amended to read as follows:

(Amendments to Standing Committee amendments, AM2197)

1. Insert the following new section:

"Sec. 2. That section 60-110, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

60-110. The provisions of article 9, Uniform Commercial Code, shall never be construed to apply to or to permit or require the deposit, filing, or other record whatsoever of a security agreement, conveyance intended to operate as a mortgage, trust receipt, conditional sales contract, or similar instrument, or any copy of the same covering a motor vehicle. Any mortgage, conveyance intended to operate as a security agreement as provided by article 9, Uniform Commercial Code, trust receipt, conditional sales contract, or other similar instrument covering a motor vehicle, if such instrument is accompanied by delivery of such

manufacturer's or importer's certificate and followed by actual and continued possession of same by the holder of ~~said~~ such instrument or, in the case of a certificate of title, if a notation of same has been made by the county clerk on the face thereof, shall be valid as against the creditors of the debtor, whether armed with process or not, and subsequent purchasers, secured parties, and other lienholders or claimants but otherwise shall not be valid against them, except that during any period in which a motor vehicle is inventory, as defined in subdivision (4) of section 9-109, Uniform Commercial Code, held for sale by a person or corporation who is licensed as provided in Chapter 60, article 14, and is in the business of selling motor vehicles, the filing provisions of article 9, Uniform Commercial Code, as applied to inventory, shall apply to a security interest in such motor vehicle created by such person or corporation as debtor without the notation of lien on the instrument of title. A buyer at retail from a licensed dealer of any vehicle which is subject to Chapter 60, article 14, in the ordinary course of business shall take such vehicle free of any security interest. Subject to the foregoing, all liens, security agreements, and encumbrances, noted upon a certificate of title, shall take priority according to the order of time in which the same are noted thereon by the county clerk. Exposure for sale of any motor vehicle by the owner thereof with the knowledge or with the knowledge and consent of the holder of any lien, security agreement, or encumbrance ~~thereon~~ on such motor vehicle, shall not render the same void or ineffective as against the creditors of such owner or holder of subsequent liens, security agreements, or encumbrances upon such motor vehicle. The holder of a security agreement, trust receipt, conditional sales contract, or similar instrument, upon presentation of such instrument to the clerk of the county where such certificate of title was issued together with the certificate of title and the fee prescribed by sections 60-102 to 60-117, may have a notation of such lien made on the face of such certificate of title. The county clerk shall enter ~~said~~ such notation and the date thereof over the signature of such officer or deputy and the seal of office, and shall also note such lien and the date thereof on the

duplicate of same on file and on that day shall notify the Department of Motor Vehicles, which shall do likewise. The county clerk shall also indicate by appropriate notation and on such instrument itself the fact that such lien has been noted on the certificate of title. The county clerk, upon receipt of a lien instrument duly signed by the owner in the manner prescribed by law governing such lien instruments together with the fee prescribed for notation of lien, shall notify the first lienholder to deliver to the county clerk, within fifteen days from the date of notice, the certificate of title to permit notation of such junior lien and, after such notation of lien, the county clerk shall deliver the certificate of title to the first lienholder. The holder of a certificate of title~~,~~ who refuses to deliver a certificate of title to the county clerk~~,~~ for the purpose of showing a junior lien on such certificate of title, within fifteen days from the date when notified to do so by the county clerk, shall be liable for damages to such junior lienholder for the amount of damages such junior lienholder suffered by reason of the holder of the certificate of title refusing to permit the showing of such lien on the ~~said~~ certificate of title. When such lien is discharged, the holder ~~thereof~~ shall~~,~~ ~~execute a notarized release~~ within fifteen days after payment is received~~,~~ ~~. Such release shall contain the certificate of title number, the amount of the lien and the date of the notation thereof. The holder shall also~~ note a cancellation of ~~same~~ the lien on the face of the certificate of title over his, her~~,~~ or its signature and deliver the ~~release and~~ certificate of title to the county clerk, who shall note the cancellation of ~~said~~ such lien on the face of the certificate of title and on the records of such office and on the same day notify the department which shall do likewise. The county clerk shall then return the certificate of title to the owner or as otherwise directed by the owner. ~~Said~~ Such cancellation of lien shall be noted on the certificate of title by the county clerk without charge.".

LEGISLATIVE BILL 1092. Placed on General File as amended.
Standing Committee amendment to LB 1092:

AM2536

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. That section 81-1578, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

81-1578. Sections 81-1578 to 81-15,116 and sections 4 and 6 to 12 of this act shall be known and may be cited as the Low-Level Radioactive Waste Disposal Act.

Sec. 2. That section 81-1579, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

81-1579. (1) The Legislature hereby declares that it is the policy of the State of Nebraska, in furtherance of its responsibility to cooperate and coordinate with the Central Interstate Low-Level Radioactive Waste Compact Commission and to protect the health, safety, and welfare of its citizens and the environment:

(a) To provide for the availability of capacity either within or outside the state for the commercial disposal of low-level radioactive waste generated within the state at commercial low-level radioactive waste disposal facilities as designated by the Central Interstate Low-Level Radioactive Waste Compact Commission, except for waste generated as a result of defense or federal research and development activities;

(b) To recognize that low-level radioactive waste can be most safely and efficiently managed on a regional basis; and

(c) To institute and maintain a regulatory program for commercial disposal of low-level radioactive waste at such facilities.

(2) It is also the policy of the State of Nebraska that the cost of disposal of low-level radioactive waste be borne by the generators of such waste. In furtherance of such policy, the state shall not be liable for any financial subsidy of the construction and maintenance of a low-level radioactive waste disposal facility without prior legislative approval.

(3) The Legislature hereby finds that it is the policy of the state that a facility for the disposal of low-level radioactive waste shall be established at a location that best protects the health and safety of its citizens and the environment. In selecting such location, the developer shall emphasize geologic, topographic, demographic, hydrologic, and other technical factors that contribute to such protection and shall construct, operate, and maintain such facility in a manner consistent with state and federal requirements.

It is the intent of the Legislature that potential host communities be actively and voluntarily involved in the siting process. To the extent possible, consistent with the highest level of protection for the health and safety of the citizens of the state and protection of the environment, the developer shall make every effort to locate the facility where community support is evident.

Sec. 3. That section 81-1581, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

81-1581. For purposes of the Low-Level Radioactive Waste Disposal Act, unless the context otherwise requires, the definitions found in sections 81-1582 to 81-1597 and section 4 of this act shall be used.

Sec. 4. Developer shall mean any person or commercial entity seeking to site, license, or operate a facility within this state.

Sec. 5. That section 81-15,104, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

81-15,104. (1) The department shall collect fees or surcharges established by the council for radiation protection services provided pursuant to the Low-Level Radioactive Waste Disposal Act and the Central Interstate Low-Level Radioactive Waste Compact. Services for which fees or surcharges may be established include (a) issuance, amendment, and renewal of licenses for facilities, (b) inspection of licensees, (c) environmental custodial care activities to assess the radiological impact of activities conducted by licensees, (d) certification of personnel to operate the facility, (e) such other activities of department

personnel which are reasonably necessary to assure that the licensed facility is being operated in accordance with the Low-Level Radioactive Waste Disposal Act and which reasonably should be borne by the licensee, ~~and~~ (f) the budget of the Central Interstate Low-Level Radioactive Waste Compact Commission pursuant to Article IV, section (h)(2), of the compact, and (g) payment of all reasonable and necessary costs of the local monitoring committee as prescribed in subsection (3) of this section.

(2) In determining the amount of such fees, the council shall set the fees in an amount sufficient to reimburse the state for its direct and indirect costs of the services specified in subsection (1) of this section. The council shall take into account any special arrangements between the state and a licensee, another state, or a federal agency from which the cost of the service is partially or fully recovered.

(3) In determining allowable costs of the local monitoring committee under subdivision (1)(g) of this section, the department shall collect fees or surcharges to pay reasonable and necessary costs required of the local monitoring committee, not to exceed twenty thousand dollars per year, to carry out its duties pursuant to section 81-15,101.01. Such costs may include securing technical professional services reasonably necessary for the local monitoring committee to assure the protection of the public health and safety and the protection of the air, land, and water resources of the area. The local monitoring committee shall not hire personnel or purchase, lease, or otherwise acquire any personal or real property but may contract for necessary services.

(4) When a licensee fails to pay the applicable fee or surcharge, the department may suspend or revoke the license or may issue an appropriate order.

~~(4)~~ (5) Any fees or surcharges collected pursuant to this section shall be deposited in the department's Low-Level Radioactive Waste Cash Fund, which is hereby created. Any money in the fund available for investment shall be invested by the state investment officer pursuant to sections 72-1237 to 72-1269.

Sec. 6. It is the intent of the Legislature

that the Central Interstate Low-Level Radioactive Waste Compact Commission shall establish an office in the State of Nebraska prior to the commencement of construction of the facility.

Sec. 7. No low-level radioactive waste produced as a result of decommissioning a nuclear reactor shall be stored or disposed of at the facility until the department has determined that such facility is designed to safely store or dispose of such waste.

Sec. 8. Class C low-level radioactive waste as defined by 10 C.F.R. 61.55 in effect on January 26, 1983, shall be stored or disposed of separately from other types of low-level radioactive waste in containers which can be easily monitored and retrieved and shall be handled, stored, and disposed of in a manner consistent with the zero-release objective described in section 81-1580.

Sec. 9. Waste which is defined by the Nuclear Regulatory Commission or the federal Environmental Protection Agency as mixed waste shall be solidified, neutralized, and stabilized to the maximum degree practicable prior to shipment to the facility. Mixed waste which has not been treated to the degree required by this section shall not be disposed of at the facility.

Sec. 10. (1) Any owner of real property that is contiguous to the original boundary of the facility on the date a license for such facility is granted who believes that his or her property has declined in value as a result of construction of the facility may apply for compensation as provided in this section. Any application for compensation shall be filed within five years of the date the facility first begins accepting low-level radioactive waste. Upon application by a real property owner, the county board of the county in which the facility is located shall hold a hearing to determine whether a loss of real property value has occurred. In reaching a decision, the county board shall consider the value of such property on the date a license is granted to the developer, using appraisals, valuations made by the county assessor of the county, data developed by the Department of Revenue, and any other relevant data, including appraisals which the county board may order. If the real property owner

establishes by a preponderance of the evidence that his or her property has suffered loss which has not previously been compensated due to the construction of the facility, the developer shall provide compensation to the real property owner for the amount of the loss. Compensation shall be provided by the developer from fees assessed upon generators of low-level radioactive waste at the time such waste is delivered to the facility. Any real property owner aggrieved by a final decision of the county board shall be entitled to an appeal in the same manner as appeals are taken pursuant to section 23-135.

(2) As used in this section, real property owner shall mean the owner of record in the county register of deeds on the date a license is granted to the developer as provided in section 81-15,101.

Sec. 11. Any person engaged in the disposal of low-level radioactive waste shall be subject to liability for acts or omissions which result in property damage, bodily injury, or death resulting from such disposal.

Sec. 12. The department shall not accept any applications for licensure as provided in section 81-15,101 prior to October 1, 1989.

Sec. 13. That original sections 81-1578, 81-1579, 81-1581, and 81-15,104, Reissue Revised Statutes of Nebraska, 1943, are repealed.

Sec. 14. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.".

RESOLUTION

LEGISLATIVE RESOLUTION 336. Introduced by Conway, 17th District; Ashford, 6th District; Landis, 46th District.

PURPOSE: The purpose of this interim study is to examine the effectiveness and utilization of resources in our county attorney system. Nebraska has ninety-three counties which range in population from nearly four hundred thousand to fewer than one thousand persons. This presents a great variety of challenges in prosecution and legal representation. Factors of distance and comparable compensation may create difficulties in the hiring and retention of competent attorneys in some counties. County attorneys have many important responsibilities in our system, including prosecution of the state's criminal laws, overseeing child support collection, and acting as the county's legal representative. Such responsibilities mandate competent and effective county attorneys. In order to accomplish its purpose, the study shall include, but not be limited to, the following:

(1) Examination of the current county attorney system, including problems in criminal prosecution, child support enforcement, and legal representation of the county;

(2) Examination of problems in the hiring and retention of county attorneys;

(3) Proposals aimed at increasing the effectiveness of county attorneys;

(4) District and county attorney systems in other jurisdictions; and

(5) Any other matters necessary for a complete analysis of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

AM2659

1. Insert the following new sections:

"Section 1. That section 53-164.01, Revised Statutes Supplement, 1986, be amended to read as follows:

53-164.01. Payment of the tax provided for in section 53-160 on alcoholic liquors shall be paid by the manufacturer or distributor as ~~herein~~ provided in this section. All such manufacturers or distributors, except for farm winery producers, whether within or without this state, shall, on or before the twenty-fifth day of each calendar month commencing on the twenty-fifth day of the calendar month following the month in which the shipments are made, make a report under oath to the ~~Nebraska Liquor Control Commission~~ commission upon forms to be furnished by the commission for the purpose of showing the exact total amount in gallons of alcoholic liquors, or fractional parts thereof, shipped by such manufacturer or distributor, whether within or without the State of Nebraska, during the preceding calendar month. All beer distributors shall, on or before the twenty-fifth day of each calendar month following the month in which the shipments are made, make a report under oath to the commission upon forms furnished by the commission for the purpose of showing the exact total amount in gallons of beer, or fractional parts thereof, shipped by all manufacturers, whether within or without the State of Nebraska, during the preceding calendar month to such distributor. Farm winery producers shall, on or before the twenty-fifth day of each calendar month commencing on the twenty-fifth day of the calendar month following the month in which the wine is packaged or bottled for sale, make a report under oath to the ~~Nebraska Liquor Control Commission~~ commission upon forms furnished by the commission for the purpose of showing the exact total amount in gallons of wine, or fractional parts thereof, packaged or bottled by such producer during the preceding calendar month. Such report shall also contain a statement of the exact total amount in

gallons, or fractional parts thereof, of alcoholic liquors, except beer, shipped to holders of retailers' licenses within this state. All reports submitted by each manufacturer, distributor, or farm winery producer, as required by this section, shall contain such other information as the commission may require. The ~~manufacturer,~~ distributor~~,~~ or farm winery producer shall, at the time of the filing of the report, pay to the commission the amount of the tax due ~~on beer shipped to distributors within this state and~~ on alcoholic liquors, except beer, shipped to holders of retailers' licenses within this state at the rate fixed in accordance with section 53-160. The tax due on beer shall be paid by the distributor on beer shipped from all manufacturers. Such tax shall be due on the date the report is due, less a discount of one percent of such tax on alcoholic liquors~~, as defined by subdivision (6) of section 53-103.~~ Such discount shall be deducted from the payment of such tax before remittance ~~thereof~~ of the tax to the commission, shall be shown in such report to the commission as required in this section, and shall be a commission for the making of such report and for the timely payment of such tax, but if such tax is not paid within the time provided ~~herein~~ in this section, then such discount shall not be allowed and the ~~same~~ discount shall not be deducted from the payment of such tax.

A penalty of ten percent of the amount of the tax shall be collected by the commission if the report is not filed by the twenty-fifth day of the calendar month or if the tax is not paid to the commission by the twenty-fifth day of the calendar month, and in addition thereto interest on the tax shall be collected at the rate, of one percent per month, or fraction of a month, from the date the tax became due until paid.

No tax shall be levied or collected on alcoholic liquors manufactured within the State of Nebraska and shipped or transported outside the State of Nebraska for sale and consumption outside the State of Nebraska.

In order to insure the payment of all state taxes imposed by law on alcoholic liquors together with all interest and penalties thereon, all persons required to make reports and payment of such tax shall first

enter into a surety bond with corporate surety, both such bond form and surety to be approved by the commission. In lieu of such corporate surety bond, there may be filed a personal bond in such form as the commission may prescribe and secured by the pledge of property having a net value over and above any encumbrance or encumbrances thereon at least double the amount of the bond required. Subject to the limitations hereinafter specified, the amount of such bond required of any taxpayer shall be fixed by the commission and may be increased or reduced by it at any time. In fixing the amount, the commission shall require a bond in a total amount equal to the amount of the taxpayer's estimated maximum monthly excise tax, ascertained in such manner as the commission may deem proper. Nothing contained in this section shall be construed to prevent or prohibit the commission from accepting and approving bonds which run for a term longer than the license period. In any event, the amount of such bond required of any one taxpayer shall not be less than one thousand dollars. These bonds shall be filed with the commission.

No person shall order or receive alcoholic liquors in this state which have been shipped directly to him or her from outside this state by any person other than a holder of a permit for a license year issued by the commission. The commission may issue such permits to manufacturers which shall allow the permittee to ship alcoholic liquors to and only to holders of a distributor's license issued under this section. A fee of two hundred dollars shall be charged by the commission for each permit issued. The application for such permit and the permit shall be in such form as the commission shall prescribe. The application shall contain all such provisions as the commission shall deem proper and necessary to effectuate the purpose of any section of the Nebraska Liquor Control Act and the rules and regulations of the commission that apply to manufacturers and shall include, but without limitation by reason of this special mention, a provision that the permittee, in consideration of the issuance of a permit, agrees:

(1) To comply with and be bound by this section in the making and filing of a bond, the making

and filing of returns, the payment of taxes, penalties, and interest, and the keeping of records;

(2) That he or she will permit and be subject to all of the powers granted by this section to the commission or its duly authorized employees or agents for inspection and examination of his or her premises and records and will pay his or her actual expenses, excluding salary, reasonably attributable to such inspections and examinations made by duly authorized employees of the commission, if within the United States; and

(3) That if any such permittee violates any of the provisions of his or her application, ~~or of~~ any section of the Nebraska Liquor Control Act, or the rules and regulations of the commission that apply to manufacturers, the commission may revoke or suspend such permit for such period of time as it may determine.

When a manufacturer or distributor shall sell and deliver alcoholic liquor upon which the tax has been paid to any instrumentality of the armed forces of the United States engaged in resale activities as provided in section 53-160.01, the manufacturer or distributor shall be entitled to a credit in the amount of the tax paid upon such alcoholic liquor sold and delivered to such person or persons in the event no tax is due on such alcoholic liquor as provided in section 53-160.01, and the amount of the credit, if any, shall be deducted from the tax due on the following monthly report, as provided by this section to be filed, or shall be allowed as a credit on subsequent reports until liquidated.

Sec. 3. Sections 1 and 5 of this act shall become operative on September 1, 1988. The remaining sections of this act shall become operative on their effective date.

Sec. 5. That original section 53-164.01, Revised Statutes Supplement, 1986, is repealed.".

RESOLUTION

LEGISLATIVE RESOLUTION 352. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Hall, 7th District; Higgins, 9th District; Johanns, 27th District; Korshoj, 16th District; Labedz, 5th District; Smith, 33rd District.

PURPOSE: The purpose of this resolution shall be to study Nebraska's municipal annexation and extraterritorial jurisdiction statutes as they relate to developed areas surrounding cities and villages.

During the course of this and the last legislative session, considerable debate and discussion have been devoted to the need for municipal control over the areas immediately surrounding the cities and villages of the state to ensure proper development and control of nuisances and public safety hazards for the benefit of the city's current and future residents.

Residents of the extraterritorial jurisdiction have raised concerns about the lack of representation they have on city boards and the city council and the consequent lack of control or input they have on city decisions regarding their land.

This study would investigate Nebraska's current laws on the subject and proposed statutory changes aimed at balancing the concepts. The study shall include, but not be limited to, an investigation of:

(1) Financial and developmental standards for annexation;

(2) Liberalization of current city and village formation laws;

(3) Implications of unannexed developed areas for municipal growth;

(4) Greater representation of nonresidents in city decisionmaking bodies; and

(5) The appropriate role of county government in development decisions in the extraterritorial area.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Urban Affairs Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

RESOLUTIONS

LEGISLATIVE RESOLUTION 353. Introduced by Goodrich, 20th District.

PURPOSE: The University of Nebraska Medical Center (UNMC) operates as both a health care provider and a primary medical instructional institution. Health care cost containment efforts may

have contributed to the reduction in occupancy rates and decreased patient volume in Nebraska. The reduction in patient volume, in turn, impacts on the ability of the UNMC to achieve its educational imperative.

The purpose of this resolution is

(1) To examine the UNMC's impact on health care cost containment in Omaha and the state as UNMC competes for patients in sufficient numbers to meet its instructional mandates;

(2) To examine the operation and organization of the UNMC;

(3) To examine the revenue sources and fund mixes used to support the operation of UNMC and its instructors, and;

(4) To examine the admissions policy of the UNMC with respect to the number, type, and qualifications of individuals selected to participate in medical training.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of it study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 354. Introduced by McFarland, 28th District.

PURPOSE: The purpose of this resolution is to study the current state of educational programs for gifted students in Nebraska and to examine various methods which might be utilized to improve those programs and to expand them through improved identification of Nebraska's gifted children.

The study proposed by this resolution would examine the feasibility of estabishing a state-sponsored summer program, a year-round learning environment for selected gifted students, and the coordination of Nebraska programs with other regional programs which are or may be established. It shall also look at what other states have accomplished in the area of gifted education for programs which may be similarly established in our educational system. Such study should be conducted in cooperation with the State Department of Education and the University of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

RESOLUTIONS

LEGISLATIVE RESOLUTION 355. Introduced by Remmers, 1st District.

PURPOSE: The purpose of this resolution is to study the necessity, feasibility, and desirability of rewriting, updating, and reorganizing Nebraska's insurance statutes. Much of Nebraska's basic statutory framework governing insurance was first enacted in 1913 and has been amended and expanded in a piecemeal fashion during the subsequent decades. The business of insurance and the administrative regulation thereof grow continually more complex and sophisticated. Therefore, it is in the best interests of the citizens of Nebraska for the Legislature to carefully examine the appropriateness of modernizing the insurance statutes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study, in cooperation with the Department of Insurance, to carry out the purposes of this resolution. The committee should solicit the input

of interested persons and groups as it deems necessary and beneficial to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 356. Introduced by Rogers, 41st District; Peterson, 21st District; Lamb, 43rd District; Remmers, 1st District.

PURPOSE: The purpose of this resolution is to study issues concerning automobile insurance and financial responsibility and to consider whether amendments in the legislative framework would be appropriate.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee and the Transportation Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

RESOLUTIONS

LEGISLATIVE RESOLUTION 357. Introduced by Conway, 17th District; Labedz, 5th District.

WHEREAS, the issue of Nebraska's boundaries continues to be unresolved and continues to be an area in need of additional study; and

WHEREAS, the issue of Nebraska's boundaries should be further addressed to arrive at a disposition of its boundaries with neighboring states,

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EXECUTIVE BOARD OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That, pursuant to section 50-404, a Special Committee of the Legislature be established to address the matters enumerated in this resolution and any related matters.

2. That Senator Gerald Conway serve as chairperson of such committee and that the Executive Board appoint six additional members.

3. That a majority of the Special Committee shall constitute a quorum for all purposes. A member who fails to attend three consecutive of five total meetings shall no longer be deemed as a member of the special committee.

4. That the Special Committee shall serve to focus and coordinate legislative attention on state boundary issues.

5. That the Special Committee shall evaluate the performance and impact of previous attempts to resolve state boundary disputes.

6. That the Special Committee shall develop recommendations for the Legislature on what Nebraska State Government may do to resolve state boundary disputes.

7. That the activities of the Special Committee shall not interfere with or supersede the normal activities of existing committees.

8. That the Special Committee terminate on December 31, 1988, and a final report be due upon termination of the Committee.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 358. Introduced by Beyer, 3rd District.

PURPOSE: The purpose of this resolution is to propose a comprehensive study of the history, philosophy, and methods used in the practice of naturopathy, including, but not limited to, the accreditation and educational institutions offering degrees in naturopathic medicine, statutes from other states allowing for the licensure or registration of naturopathic physicians, information from all fifty states regarding their regulations of the practice of naturopathy and whether or not the services of naturopathic physicians are covered by insurance in states where such physicians are licensed.

There is great public interest in alternative medicine and a number of Nebraskans have indicated their strong interest in pursuing licensure of naturopathic physicians in the state. However, there seems to be a great deal of misunderstanding of the scope of practice of naturopathic physicians and this study would benefit the Legislature as it attempts to deal with the many questions regarding this type of alternative health care.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 359. Introduced by Beyer, 3rd District.

PURPOSE: The purpose of this resolution is to propose a study of the licensing of private investigators in the State of Nebraska, including what standards should be set for educational requirements and experience before licensure is granted. This study will include research into what requirements are necessary for licensure or registration in other states for comparison purposes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 360. Introduced by Beyer, 3rd District; Ashford, 6th District; Wesely, 26th District.

PURPOSE: The purpose of this resolution is to propose a study to determine the feasibility of reinstating the annual motor vehicle inspection law. The study would include a review of laws relating to motor vehicle inspection in other states and the effect on motor vehicle safety of these laws as well as the effect of the repeal of the motor vehicle safety inspection law in Nebraska.

The study would establish what alternatives as to administration of the program are available and to what extent the state should become involved in the actual inspection process. Another aspect of the study would involve determination of a fair and reasonable inspection fee.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

AM2709

(Amendments to Standing Committee amendments, AM1908)

1. Insert the following new section:

"Sec. 24. That section 21-2035, Revised Statutes Supplement, 1987, be amended to read as follows:

21-2035. All corporate powers shall be exercised by or under the authority of, and the business and affairs of a corporation shall be managed under the direction of, a board of directors, except as may be otherwise provided in the Nebraska Business Corporation Act or in the articles of incorporation. If any provision is made in the articles of incorporation, the powers and duties conferred or imposed upon the board of directors by such act shall be exercised or performed to such extent and by such person or persons as shall be provided in the articles of incorporation. Directors need not be residents of this state or shareholders of the corporation unless the articles of incorporation or bylaws so require. The articles of incorporation or bylaws may prescribe other qualifications for directors, but any change in qualifications that the articles of incorporation or bylaws may make shall not affect the incumbent directors during the term for which they were elected. The board of directors shall have authority to fix the compensation of directors unless otherwise provided in the articles of incorporation.

In addition to any duties that he or she might have as an officer, shareholder, or agent of the corporation, a ~~A~~ director shall, based on facts then known to the director, perform his or her duties as a director, including his or her duties as a member of any committee of the board upon which he or she may serve, in good faith, in a manner he or she reasonably believes

to be in the best interests of the corporation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances. For purposes of this section, facts then known to the director shall include information or knowledge actually possessed, or which reasonably should have been possessed, by a director and information and facts contained in material given or presented, either orally or in writing, to a director by other directors or by officers, employees, agents, or professionals engaged by or representing the corporation.

In performing his or her duties, a director shall be entitled to rely on information, opinions, reports, or statements, including financial statements and other financial data, in each case prepared or presented by:

(1) One or more officers or employees of the corporation whom the director reasonably believes to be reliable and competent in the matters presented;

(2) Counsel, public accountants, or other persons as to matters which the director reasonably believes to be within such person's professional or expert competence; or

(3) A committee of the board upon which he or she does not serve, duly designated in accordance with a provision of the articles of incorporation or the bylaws, as to matters within its designated authority, which committee the director reasonably believes to merit confidence, but the director shall not be considered to be acting in good faith if he or she has knowledge concerning the matter in question that would cause such reliance to be unwarranted. A person who so performs his or her duties shall have no liability by reason of being or having been a director of the corporation.

A director may, but need not, in considering the best interests of the corporation, consider, among other things, the effects of any action on employees, suppliers, creditors, and customers of the corporation and communities in which offices or other facilities of the corporation are located.

In addition to the matters required to be set forth in the articles of incorporation by section 21-2052, the articles of incorporation may also contain

a provision eliminating or limiting the personal liability of an outside director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director. Such a provision shall not eliminate or limit the liability of an outside director for:

(a) Any act or omission not in good faith or which involves intentional misconduct or a knowing violation of the law;

(b) Any transaction from which the outside director derived an improper personal benefit;

(c) Paying a dividend or approving a stock repurchase which was in violation of the Nebraska Business Corporation Act;

(d) Any act or omission which violates a declaratory or injunctive order obtained by the corporation or its shareholders; and

(e) Any act or omission occurring prior to the date such provision becomes effective.

For purposes of this section, outside director shall mean a member of the board of directors of a corporation as defined and organized under the Nebraska Business Corporation Act who is not an officer, shareholder, or person who may affect the conduct of the corporation through any devise or relationship, including, but not limited to, management agreements, voting trusts, directorships in related corporations, or any other means.

A director of a corporation who is present at a meeting of its board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken unless his or her dissent is entered in the minutes of the meeting or unless he or she files his or her written dissent to such action with the secretary of the meeting before the adjournment thereof or forwards such dissent by certified or registered mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.".

2. On page 21, line 10, after "That" insert "original section 21-2035, Revised Statutes Supplement, 1987, and also".

3. Insert underscoring in original sections 1

to 23.

4. Renumber remaining sections accordingly.

RESOLUTIONS

LEGISLATIVE RESOLUTION 361. Introduced by Baack, 47th District; Hannibal, 4th District.

PURPOSE: The Legislature enacted the County Purchasing Act, sections 23-3101 to 23-3114, in 1985. Under the act, counties must go through a competitive bidding process in conjunction with the purchase of property valued at ten thousand dollars or more. In awarding the contract to a given supplier, counties are allowed to consider a number of factors relating to the bids in addition to the dollar figures submitted by potential suppliers. The purpose of this resolution is to undertake a study of the County Purchasing Act to determine: (1) How well the competitive bidding process is functioning; (2) whether it is serving the best interests of the public; (3) whether the specification-writing process is being used to exclude certain potential suppliers from the bidding process; and (4) whether any changes need to be made in the act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

PURPOSE: Cruelty to animals and neglect of animals are offensive and detrimental practices. State law concerning such cruelty and neglect have not been recently updated in a comprehensive manner. A bill to adopt the Animal Protection Act was introduced during the 1988 legislative session and was not advanced in order that the issue

of updating state law relating to cruelty and neglect may be studied in depth.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 363. Introduced by Wesely, 26th District.

PURPOSE: The purpose of this resolution is to study cancer-control programs in Nebraska. The study should examine methods to facilitate and encourage cancer-control programs so that illness, death, and the cost related to cancer diagnosis and treatment can be avoided. Cancer ranks second only to heart disease as the leading cause of death among Nebraskans. Cancer has claimed a progressively larger proportion of Nebraska deaths in recent decades increasing from fifteen and nine-tenths percent of all deaths in 1960 to twenty and nine-tenths percent in 1985.

The study should include, but not be limited to:

(1) The identification and evaluation of existing data sources to determine the current burden of cancer on Nebraskans; and

(2) The initiation of new or modification of existing cancer-prevention programs at the state level.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Health and Human Services Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 364. Introduced by Wesely, 26th District.

PURPOSE: The purpose of this resolution is to determine the extent of hunger in Nebraska. The emphasis of the study shall be to identify ways to eliminate hunger in Nebraska. The study shall include, but not be limited to:

(1) A determination of the extent of hunger in Nebraska;

(2) The identification of current public and private programs to combat hunger in Nebraska;

(3) A determination of who is served by current programs;

(4) The identification of methods to encourage participation in existing programs;

(5) The identification of gaps in current programs;

(6) The identification of new programs that may be needed;

(7) The identification of current coordination of hunger programs in Nebraska; and

(8) The determination of methods to facilitate coordination of hunger programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 365. Introduced by Smith, 33rd District.

PURPOSE: The purpose of this resolution is to conduct an in-depth review of driver safety education as it relates to both motor vehicle drivers and motorcycle riders. Driver education offers both immediate and long-range benefits to students, parents, and the community and state at large. Students who complete driver education tend to have better collision and violation records, appreciate property more, and become more effective drivers. Having well educated drivers also benefits businesses who employ drivers. The same is also true for riders who complete a motorcycle safety education program.

Everyone who intends to drive a motor vehicle needs driver education. Toward that goal, over ninety-two percent of the nation's

high schools include driver education in their curricula. The state should also have the goal of insuring that motorcycle rider safety education has a similar availability. The cost of driver education and motorcycle education is small when compared to the alternative costs of increased hospital, medical, and rehabilitation expenses that result from accidents that could be avoided by proper safety education. The goal of both driver education and motorcycle safety education should be to ensure that defensive driving skills become an everyday habit for both motorcyclists and automobile drivers.

While programs currently exist which offer driver education and motorcycle safety education, the Legislature should review the structure and curricula of the programs to assure that the programs are adequate to meet their goals and to determine whether any new innovations can be incorporated into the programs. Furthermore, the state should ensure to the extent possible that both education programs attempt to develop mutual awareness between motorcyclists and motor vehicle drivers of the other's presence on the road through defensive driving techniques.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 366. Introduced by General Affairs Committee: Morehead, 30th District, Chairperson; Bernard-Stevens, 42nd District; Elmer, 38th District; Hartnett, 45th District; Higgins, 9th District; R. Johnson, 34th District; Miller, 37th District; Smith, 33rd District.

PURPOSE: Gambling in its various forms is an ever increasing activity in this state. Constitutional amendments have successfully been submitted to the voters to allow and broaden the various forms of gambling. Currently, the State Racing Commission regulates wagering on horseraces and the Charitable Gaming Division of the Department of Revenue regulates bingo, pickle card lotteries, lotteries, and raffles. The purpose of this resolution is to determine the feasibility or desirability of regulating gambling in Nebraska by a separate gaming commission.

A number of states regulate gambling by a separate gaming commission which, in most cases, is appointed by the Governor. With the expansion of the various types of gambling in Nebraska the option of a separate gaming commission to regulate it should be explored.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 367. Introduced by General Affairs Committee: Morehead, 30th District, Chairperson; Bernard-Stevens, 42nd District; Elmer, 38th District; Hartnett, 45th District; Higgins, 9th District; R. Johnson, 34th District; Smith, 33rd District.

PURPOSE: Current Nebraska Statute requires that the owner or owners of a Nebraska-bred horse, as defined in section 2-1213, be a bona fide citizen or citizens of Nebraska continually from January 1

of the year of conception through the date of foaling and, if the owner is a corporation, all stockholders must also have been bona fide citizens of Nebraska. A bill before the Ninetieth Legislature, Second Session, 1988, would have removed the requirement that the owner be a bona fide citizen.

The purpose of this resolution is to review the citizenship requirement relating to Nebraska-bred horses prescribed in section 2-1213. The importance of this definition is that the purpose of this section is to encourage agriculture and horse breeding in Nebraska, and every licensed racetrack must hold at least one race on each racing day limited to Nebraska-bred horses. In addition, three percent of the first money of every purse won by a Nebraska-bred horse shall be paid to the breeder of the horse.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 368. Introduced by Lamb, 43rd District.

WHEREAS, the year 1988 marks the one-hundredth anniversary of Rock County; and

WHEREAS, in 1871 J. W. Bassett, for whom the town of Bassett is named, brought a large herd of cattle into the present Rock County and built a house and sheds southwest of the present townsite. When the territory was open for homesteading, the Bassett Cattle Company sold its sheds, tools, and other equipment to the homesteaders who arrived there; and

WHEREAS, another early settler in the Sioux Territory was Isem Recor who ran a ferry boat on the Niobrara; and

WHEREAS, Chippewa Robinson and Newton Turpin came with their families in 1878 and were the first to break the virgin soil in what is now Rock County; and

WHEREAS, the hardy citizens of Rock County have survived prairie fires, droughts, dust storms, blizzards, depressions, and many other trials and tribulations; and

WHEREAS, Rock County was separated from Brown County on November 6, 1888, by a vote of the people; and

WHEREAS, a centennial celebration offers a unique opportunity for the citizens of a county to reflect upon those former citizens who developed the county and have contributed to its growth and vitality; and

WHEREAS, June 17 through June 19 will be a time of celebration in Rock County.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the members of the Legislature recognize and commend Rock County citizens for their centennial celebration.

2. That the Clerk of the Legislature mail a copy of this resolution to the Board of Commissioners of Rock County and to the Rock County Centennial Committee of Bassett.

Laid over.

LEGISLATIVE RESOLUTION 369. Introduced by Nelson, 35th District; Schellpeper, 18th District.

PURPOSE: The purpose of this resolution is to study the need for a program of assistance for nursing education designed to attract members of the nursing profession to areas where there exists a shortage of nurses. Such study shall include, but not be limited to, an analysis of educational assistance programs in other fields, such as the Nebraska Medical Student Assistance Act and the Nebraska Mathematics and Science Teacher Tuition Assistance Act, as well as models from other states.

A recent survey by the Nebraska Hospital Association showed the following rates of vacancies for registered nursing positions: (1) Twelve and six-tenths percent in southeast Nebraska; (2) eleven and five-tenths percent in the panhandle and sand hills; (3) nine and three-tenths percent in Lincoln; (4) five and six-tenths percent in south-central Nebraska; (5) three and nine-tenths percent in metropolitan Omaha; (6) three and seven-tenths percent in northeast Nebraska; and (7) six percent statewide.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 370. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Hall, 7th District; Johanns, 27th District; Korshoj, 16th District.

PURPOSE: The purpose of this resolution is to study the feasibility of a statewide plumbing code. Currently, only the larger cities in Nebraska have a plumbing code.

Plumbing codes protect the health and safety of individuals by establishing standards for the protection of drinking water and the proper installation of plumbing. The adoption of a state plumbing code would protect the health and safety of all Nebraskans regardless of his or her hometown.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 371. Introduced by Coordsen, 32nd District; Hall, 7th District; Johanns, 27th District; Korshoj, 16th District.

PURPOSE: The purpose of this resolution is to study the impact of Legislative Bill 474, Ninetieth Legislature, First Session, 1987, which increased the state minimum wage law to equal the federal minimum wage law without the federal exemptions. The study shall include, but not be limited to, the following issues:

(1) To determine whether LB 474 decreased job opportunities for people eighteen years of age and younger;

(2) To determine whether part-time, temporary, or seasonal jobs which have traditionally been filled by people eighteen years of age and younger have been eliminated or whether such jobs are now being filled by older persons on a part-time or full-time basis;

(3) To examine whether LB 474 has been an undue burden on employers who have traditionally hired people eighteen years of age and younger on a part-time or temporary basis; and

(4) To examine whether LB 474 hinders entry-level employment opportunities for people eighteen years of age and younger.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 372. Introduced by R. Johnson, 34th District; Bernard-Stevens, 42nd District; Hefner, 19th District; Miller, 37th District; Barrett, 39th District; Coordsen, 32nd District; Elmer, 38th District; Chambers, 11th District.

PURPOSE: Aquaculture provides a source of quality food, provides a market for the state's grain, and offers opportunities for new jobs, increased farm income stability, and agricultural diversification. Encouragement for a state policy designed to promote the development of aquaculture must be in harmony with state policy designed to control disease in aquatic plants and animals and to control the introduction of aquatic plants and animal species into the waters of the state. The purpose of this resolution is to study ways the State of Nebraska can encourage the development and expansion of aquaculture while maintaining its duty to protect the waters of the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 373. Introduced by R. Johnson, 34th District; Bernard-Stevens, 42nd District; Wehrbein, 2nd District; Warner, 25th District; Miller, 37th District; Hefner, 19th District; Coordsen, 32nd District; Morehead, 30th District; Chambers, 11th District.

PURPOSE: Beef cattle are Nebraska's largest agricultural commodity with annual sales in excess of three billion dollars. Cattle

are fed in every county in Nebraska by some thirty-three thousand farmers and ranchers statewide. The mode of business for these producers varies from small cow-calf operations to intermediate yards to huge feedlots.

The purpose of this resolution is to study how cattle are marketed in Nebraska and the varying effects of such marketing on different sizes and types of cattle operations. The study may examine the buying practices of packers, the present and potential distribution of packing plants, the competitiveness of cattle pricing, the effects of the move toward branded beef, and the consequences for producers of a consumer-driven beef market in general.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 374. Introduced by R. Johnson, 34th District; Bernard-Stevens, 42nd District; Hefner, 19th District; Miller, 37th District; Morehead, 30th District; Coordsen, 32nd District; Elmer, 38th District; Chambers, 11th District.

PURPOSE: The failure to control noxious weeds in this state is a serious problem which is detrimental to the production of crops and livestock and to the health and welfare of Nebraskans and can result in removing land from the tax base, thereby reducing tax revenue. A framework for the control of noxious weeds is needed which delineates the responsibilities of landowners and state and local governments. In addition, a funding mechanism is needed in instances when private or public funds are not otherwise available for necessary noxious weed control measures. The purpose of this resolution is to study the control of noxious weeds, including a review of the control methods prescribed in Legislative Bill 911, with an eye towards resolving the problem of the failure to control such noxious weeds.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 375. Introduced by Morehead, 30th District; Wesely, 26th District; Bernard-Stevens, 42nd District.

PURPOSE: The statistics and emotional trauma involved in teen pregnancies are alarming and the State of Nebraska is affected fiscally and socially. Life skills, such as positive self esteem and good decision making, are important in preventing teen pregnancy.

The purpose of this resolution is to develop a program for the provision of life skills education for the children and teens of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 376. Introduced by Withem 14th District; Hartnett, 45th District.

PURPOSE: The purpose of this resolution is to examine the feasibility of enforcing standard code licensing provisions by establishing penalties for such code violations. Currently all cities and villages may adopt a set of standard codes which establish terms, conditions, provisions, and limitations of a plumbing code, electrical code, fire prevention code, building code, and any other code which sets forth rules and regulations as noted by city or village ordinance.

Because the penalties for complying with a standard code are minimal, cities and villages do not have an effective means of punishing violators and enforcing the codes. Standard codes are adopted to protect the public, and sufficient penalties for code violations need to be established to ensure that public health and safety standards are consistently maintained. The study shall include, but not be limited to, the following:

(1) An examination and recommendation of penalties for violations of licensing provisions of standard codes;

(2) A review of the extent to which codes are complied with;

(3) A review of current penalties in effect for code violations as maintained by participating entities; and

(4) A proposal aimed at differentiating between routine or in-house maintenance and maintenance or installation requiring licensure.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

2. That the Clerk of the Legislature send a copy of this resolution to John Rosenow, National Arbor Day Foundation, Lincoln, Nebraska, Jack McIntire, Mayor of Nebraska City, and Sheryl Vollertsen, Nebraska City Chamber of Commerce.

Laid over.

LEGISLATIVE RESOLUTION 379. Introduced by Withem, 14th District.

PURPOSE: The purpose of this interim study is to examine bumper height requirements for trucks and passenger cars. The Legislature recognizes the possible dangers caused by bumpers that have been modified or raised. High-rise trucks and similar motor vehicles directly contribute to a greater number of fatal accidents than the standard manufactured vehicle. Further, this interim study is proposed to safeguard citizens in standard vehicles by reducing the exposure caused by the excessive height on raised motor vehicles. Other problems with raised motor vehicles include deterioration of braking, steering, and handling features and the glare received from improperly placed headlights. The study shall include, but not be limited to:

(1) Examining and recommending bumper height requirements, including lowered bumper height, taking into consideration the standard manufacturers safety features;

(2) Examine and compare other states' legislation relative to bumper height;

(3) Consider placing the notation on a motor vehicle accident report regarding a modified bumper height. Currently there is no mention of a bumper height on Nebraska's accident report form;

(4) Examine various insurance company premium's in relationship to a modified bumper; and

(5) Access the necessity of placing bumper height restrictions on emergency vehicles to include vehicles used for "meals on wheels" purposes or any other home-based service for handicapped or elderly persons.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 381. Introduced by Chizek, 31st District; Conway, 17th District.

PURPOSE: An increasing number of legislative measures have been introduced in recent legislative sessions dealing with the granting of

various degrees of immunity from civil liability. Significant interest has been shown in recent years by various individuals, professions, proprietary entities, governmental subdivisions, and not-for-profit organizations in the area of immunity from civil liability. Political subdivisions have been seeking immunity for various activities which would differ from civil liability for personal injury and property damage caused by entities not covered by the Political Subdivisions Tort Claims Act. Many standing committees of the Legislature have been faced with liability issues on parts of bills within their jurisdiction. The purpose of this resolution is to conduct a study of immunity from liability granted to individuals, professions, not-for-profit organizations, political subdivisions, and others in Nebraska law. The study shall be comprehensive in nature and shall include, but not be limited to:

(1) Various national developments in the area of immunity from civil liability;

(2) The existence in Nebraska law of immunities now granted;

(3) Various alternatives in the areas of immunity; and

(4) The categorizing and standardizing of the levels of immunity allowed to parties and entities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

PURPOSE: The purpose of this resolution is to conduct an interim study of current statutes, policies, procedures, and decision making relating to the highway construction and maintenance program of the State of Nebraska. In conducting this study consideration shall be given to:

(1) The current organization of the Department of Roads and possible alternatives for restructuring the department, including the need to increase the involvement of the office of the Governor, the Legislature, and local government in the development and implementation of the state roads program;

(2) The current and future needs of the state highway system and the method by which such needs are determined and prioritized; and

(3) The current method of financing highway construction and maintenance in this state. The study shall include examination of possible funding alternatives such as the use of highway bonds and shall also examine the current role of registration fees charged to all classes of motor vehicles in financing the needs of the state highway system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 389. Introduced by Withem, 14th District.

PURPOSE: The purpose of this resolution is to study the data system describing the elementary and secondary school system of the state. In the Legislative Resolution 181 study report, it was found that the state has a need to improve the collection, analysis, and distribution of data describing the quality, efficiency and performance of Nebraska schools. The purpose of the study is to provide legislative direction to the State Department of Education in revamping its data system to provide usable information to local and state education policy makers consistent with the goals of enhanced

accountability to the public, parents, and taxpayers for effective school evaluation, diagnosis, and improvement.

The study should address the adequacy of current measures of indicators of the educational inputs, processes, and outcomes, including, but not limited to: The learning environment, pupil capabilities and difficulties, resources available to school districts, educational goals and opportunities, pupil participation, and pupil outcomes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

The study shall provide: (1) An assessment of student aid currently available from all sources, including direct and indirect state assistance, federal assistance, institutional assistance, and private-sector assistance; (2) an estimation of unmet needs for student assistance with a focus on those groups of students with the greatest unmet needs; and (3) a compilation and analysis of alternative mechanisms to provide student assistance including state tax-exempt savings accounts, prepaid tuition plans, and other programs being developed by other states, postsecondary institutions, the federal government, and the student assistance lending industry.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 391. Introduced by Withem, 14th District; Bernard-Stevens, 42nd District.

PURPOSE: The purpose of this resolution is to establish a study of the methods by which the state may encourage the internal restructuring of schools in order to promote quality and innovation. The second wave of educational reform which is now covering the nation has seriously brought into question the utility of the industrial model of education in the information age. Many experts have suggested that true reform will occur only within the context of organic changes in school structure and leadership.

The attributes of school restructuring include: Decentralized, individual-school-based decision making; greater involvement of teachers, parents, and communities in the planning and setting of priorities; flexible use of time; personalization of the school environment; and an emphasis on higher-order thinking skills. One specific goal of the study shall be to assess the extent to which current rules and regulations may inhibit creativity and experimentation with restructuring by school boards, teachers, administrators, parents, students, and community.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Education Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 392. Introduced by Withem, 14th District; Korshoj, 16th District.

PURPOSE: The purpose of this resolution is to study the current system by which legal opinions are requested by members of the Legislature and rendered by the office of the Attorney General. The study should address the utility, promptness, impartiality, and quality of legal opinions to members of the Legislature. In addition, the study should consider methods by which the Legislature may focus

or limit requests for legal opinions in order to address the problem of the high volume of opinions requested of the Attorney General who has limited resources and staff available to answer such requests.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Executive Board of the Legislative Council shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Executive Board shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 396. Introduced by Wesely, 26th District.

PURPOSE: The purpose of this study is to determine the needs of caregivers for the elderly. It is estimated that over eighty percent of the care given to frail, elderly persons is provided by family and friends. There is an increasing awareness that this valuable resource of individual caregivers needs support from the public and private sectors. The study shall include but not be limited to:

(1) An analysis of the need for services including respite care allowances and support for inhome services;

(2) An identification of methods available for information and referral; and

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

PURPOSE: In 1986, LB 965 was enacted which mandates that the Department of Economic Development create and keep current a comprehensive and long-term strategy for economic development and develop an independent program of performance review of the activities of the department. The purpose of this study is to review the Department of Economic Development's progress in developing a comprehensive long-term strategy for economic development in the state and a program of performance review.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 399. Introduced by R. Johnson, 34th District.

PURPOSE: There are certain segments of Nebraska's system of rivers and streams which, in their present state possess great scenic beauty, provide important wildlife habitat, and offer valuable recreation opportunities for our citizens. The intrinsic value of these river and stream segments and the heritage they represent for future generations are such that Nebraskans should, as a matter of public policy, give consideration to preserving and protecting them in their present state. There is a need, therefore, to examine Nebraska's system of rivers and streams for the purpose of identifying those which may merit such protection and preservation and to identify and consider the social and economic costs and benefits of this preservation and protection.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 400. Introduced by Lynch, 13th District.

PURPOSE: The purpose of this resolution is to study the feasibility of state licensure of stationary engineers in order to ensure the safe operation of boilers. In the past several years there have been cases of boiler explosions due to faulty boilers and inexperienced operators. While Nebraska provides for the inspection of boilers, it does not have requirements for boiler operators. State licensure of stationary engineers would establish education and performance criteria for boiler operators for the health and safety of Nebraskans.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 401. Introduced by Lynch, 13th District.

PURPOSE: The purpose of this resolution is to study the feasibility of the State of Nebraska becoming fiscally responsible for the provision of medical, health, and hospital care and services to medically indigent persons. Particular attention should be given to studying (1) the property tax burden that is imposed upon county government to provide such medical, health, and hospital care and services, (2) whether such property tax burden can be alleviated through the state takeover of funding such medically indigent services, and (3) whether there are efficiencies and economies that can be gained by the state operating and administering the medicaid program and providing medical, health, and hospital care and services for the medically indigent.

These issues have been reviewed and continue to need review by the Legislature to determine the appropriate legislative responses.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 403. Introduced by Moore, 24th District.

PURPOSE: The purpose of this resolution is to examine and analyze the process which the Department of Social Services uses to refer children to foster care or to public and private institutions with whom it contracts. The passage of Laws 1987, LB 637, indicated a policy of placing children in foster homes. Taking into consideration a possible shortage of foster homes in the state, an examination of that process must be done to develop alternative strategies. This study shall include, but not be limited to, the study of federal law and other states laws as well as interpretation of those laws. Also included in this study should be an examination of referral programs in other states.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 404. Introduced by Health and Human Services Committee: Wesely, 26th District, Chairperson; Bernard-Stevens, 42nd District; Beyer, 3rd District; Goodrich, 20th District; Lynch, 13th District; Morehead, 30th District; Schellpeper, 18th District.

PURPOSE: The State of Nebraska is affected fiscally and socially by the need for and provision of human service programs and by the health status of its citizens. These human service and health issues include, but are not limited to: Acquired Immune Deficiency Syndrome; certificate of need; cost containment for health care services; availability of nurses; discipline for chemically impaired professionals; emergency medical services; health care for the medically indigent; laboratory testing; long-term care for the elderly; maternal and infant care; medical record access; mental health; mental retardation; substance abuse; poverty; regulation of new health professions; rural health care availability; teenage pregnancy; asbestos removal; and work and training mandates for recipients of public aid. These issues have been reviewed and continue to need review by the Legislature to determine the appropriate legislative responses.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 405. Introduced by Moore, 24th District.

PURPOSE: The purpose of this resolution is to study the quality of education in Nebraska elementary and secondary schools and to examine various methods which might be utilized to measure or improve the quality of education in such schools. This study shall include, but not be limited to, examination of student testing and various concepts of merit pay and master teacher programs as methods of measuring the quality of education and instruction in Nebraska. This study shall be conducted by the Education Committee of the Legislature, and the committee shall appoint an ad hoc advisory committee of business persons, members of the educational community, and interested citizens to aid it in assessing the need for accountability and improvement in elementary and secondary education.

The taxpayers of this state are demanding a system of primary and secondary education which is accountable to them. Such accountability in education is necessary before the taxpaying citizens will be amenable to further increases in funding for elementary and secondary education in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 406. Introduced by Moore, 24th District.

PURPOSE: The purpose of this resolution is to examine and analyze the process for the titling, licensing, and registering of motor vehicles in the state. County officials have been interpreting difficult statutes and are looking for the Legislature to make clear laws relating to these areas. This study shall include, but not be limited to, (1) the process of titling, licensing, and registering vehicles, (2) possible clarification and codification of statutes relating to these areas, and (3) other procedures and regulations indirectly relating to these areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 407. Introduced by Moore, 24th District.

PURPOSE: The purpose of this resolution is to study all-terrain vehicles and their usage on the roads of the State of Nebraska. Taking into consideration all aspects of safety set forth by the federal government and laws existing in this state, the intent of this resolution is to formulate public policy which allows for the usage of all-terrain vehicles on the road in the safest way to protect the interest of those who own and wish to use these viable vehicles in the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study for the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 408. Introduced by Moore, 24th District.

PURPOSE: The purpose of this resolution is to examine and study the pornography laws of other states and of the federal government in an attempt to determine good public policy in this area for the State of Nebraska. It is the top priority of the state to protect, yet not infringe upon, the people of the state regarding published materials. A study of pornography laws in other states will allow us to look at other areas in the nation and help determine problem areas which may need to be addressed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Judiciary Committee shall upon the conclusion of this study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 409. Introduced by Chambers, 11th District; Baack, 47th District; Conway, 17th District; Wesely, 26th District.

PURPOSE: The purpose of this resolution is to cause a detailed study of the mission, role, organization, governance, oversight, and operation of the Nebraska State Historical Society. In recent years, controversy has arisen regarding the role and governance of the Nebraska State Historical Society. Occasional attention has been given, on a piece-meal basis, to a variety of issues pertaining to the society. In 1980, the Governor's Task Force for Government Improvement suggested that the historical society be converted to a code agency. In 1985, an interim study of the Legislature focused attention upon the organizational structure of the historical society and questions have also arisen from time-to-time regarding the jurisdiction of the historical society over historical sites and artifacts. Although there have been occasional changes in the state statutes concerning the historical society, there has never been a comprehensive enactment of statutes pertaining to the operation,

organization, governance, and oversight of the historical society. There has not been a detailed interim study of and a report issued on the Nebraska State Historical Society since 1944.

It is the intent of this resolution to cause a detailed and comprehensive study of the mission, role, organization, governance, oversight, and operation of the Nebraska State Historical Society. Particular attention shall be given to the proper mission of the historical society, the role of the historical society in state government, the organization of the historical society, the proper role of the Legislature and the Governor in the oversight of the historical society, the need for legislation which includes additional provisions regarding the governance, organization, and operation of the historical society, the proper role of the bylaws of the historical society and the relationship of those bylaws to statutory provisions, the management of funds received by the historical society in the form of gifts and donations, the relationship of the historical society to the Historical Society Foundation, and the jurisdiction of the historical society over historic sites and artifacts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a select committee, appointed by the Executive Board of the Legislative Council, shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the select committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 410. Introduced by Wesely, 26th District; McFarland, 28th District; Landis, 46th District; Marsh, 29th District; Warner, 25th District.

PURPOSE: The purpose of this study is to review new information and developments regarding the 1983 collapse of Commonwealth Savings Company. The study is needed because:

(1) It is important for the citizens of the State of Nebraska to have confidence in their financial institutions and in their state regulatory system;

(2) Commonwealth Savings Company, an industrial loan and investment company, was determined to be insolvent by the Department of Banking and Finance on November 1, 1983;

(3) The Nebraska Depository Institution Guaranty Corporation Act provided for a guarantee of the deposits of industrial loan and investment companies;

(4) Over three years have elapsed since the Legislature's Special Commonwealth Committee issued its report on the collapse of Commonwealth;

(5) Numerous follow-up Commonwealth-related investigations, trials, and actions have developed new information since this report was issued by the Special Commonwealth Committee;

(6) It is in the best interest of the State of Nebraska to have the Legislature review this new information so that we might know the full truth about the Commonwealth case; and

(7) It is important to reconsider and update the 1984 Commonwealth report to reflect the new information which has been revealed since the report was issued.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Executive Board of the Legislative Council conduct an interim study to review new information and developments regarding the 1983 collapse of Commonwealth Savings Company and update the subsequent 1984 Final Report of the Special Commonwealth Committee of the Eighty-eighth Legislature, Second Session.

2. That the Executive Board of the Legislative Council report to the next session of the Legislature its findings and recommendations.

Referred to the Executive Board.

UNANIMOUS CONSENT - Print in Journal

Messrs. Landis and Ashford asked unanimous consent to print the following amendment to LB 1083 in the Journal. No objections. So ordered.

AM2747

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. The Legislature hereby finds and determines that the state and its political subdivisions may achieve interest and issuance cost savings, as well as better coordination and utilization of available federal and state assistance programs, by conducting their normal borrowings through joint arrangements and that such joint arrangements may be in the interest of the state and its citizens. The purpose of this act is to authorize political subdivisions, as well as the Nebraska Investment Finance Authority, to develop alternative joint-financing programs. However, this act is not intended to enlarge or diminish the authority of a political subdivision to issue or incur obligations or

acquire property or to change the existing requirements or restrictions pertaining to a political subdivision. All such programs are to be conducted for the benefit of the citizens of the state and the affected political subdivision generally and specifically for the public purposes set forth in this act and not for the primary benefit of any single person or organization.

Sec. 2. As used in this act, unless the context otherwise requires:

(1) Association shall mean any entity created under an interlocal agreement between political subdivisions or between political subdivisions and the authority;

(2) Authority shall mean the Nebraska Investment Finance Authority; and

(3) Political subdivision shall mean the state or any county, municipality, city, town, village, township, school district, or other district or political subdivision of the state.

Sec. 3. Any two or more political subdivisions may enter into an interlocal agreement in accordance with the Interlocal Cooperation Act and, pursuant to the act, may form an association which may exercise any power granted to the authority in section 4 of this act for the benefit of and with respect to the political subdivisions which are a party to such interlocal agreement.

Prior to carrying out any such power, the participating political subdivisions shall adopt and promulgate rules and regulations governing such activities, including, but not limited to, any or all of the following:

(1) How the activities will effectuate the public purposes of the participating political subdivisions;

(2) The nature and amount of fees, if any, to be charged to provide for expenses and reserves;

(3) Participation in any related federal or state funding programs;

(4) Such requirements as are appropriate to ensure that the exercise of such power is prudent and reasonable; and

(5) Any other matters related to the duties or exercise of the power granted by this section.

Any such exercise of cooperative authority is intended to be self-supporting, and no money derived directly or indirectly from taxes may be used to pay any costs or expenses incurred in connection with such activities. The interlocal agreement shall provide for the employment of an independent person experienced in financial matters to monitor the ongoing compliance of the participating political subdivisions with all covenants pertaining to such political subdivisions.

Sec. 4. (1) To assist political subdivisions in financing their governmental activities, the authority may, but only upon entering into a joint-financing agreement pursuant to the Interlocal Cooperation Act with each political subdivision participating in each particular joint-financing arrangement with the authority, (a) cooperate with such participating political subdivisions, (b) make loans to such participating political subdivisions, (c) purchase, pledge, or sell obligations of political subdivisions which are parties to such respective interlocal agreements, and (d) in conjunction with the sale of bonds of the authority and pursuant to such joint-financing agreement, acquire by sale, lease, or otherwise any real or personal property or equipment for lease, sale, or other financial contractual arrangement with such participating political subdivisions. These powers are intended to enable the authority to develop alternative financing programs for political subdivisions and in no way enlarge or diminish the authority of a political subdivision to issue or incur obligations or acquire property or change the requirements or restrictions pertaining to a political subdivision.

(2) Prior to carrying out any such power, the authority shall adopt and promulgate, for each joint-financing arrangement, rules and regulations governing such activities, including rules and regulations relating to any or all of the following:

(a) How the activities will effectuate the public purposes of the authority;

(b) The nature and amount of fees, if any, to be charged by the authority to provide for expenses and reserves of the authority;

(c) Participation in any related federal or

state funding programs; and

(d) Any other matters related to the duties or exercise of the power granted by this section.

Sec. 5. The authority or any association may invest any funds derived from the issuance of its bonds for each joint-financing agreement in higher-yielding obligations which may from time to time be legally purchased by governmental subdivisions of this state pursuant to section 77-2341 or in any obligations permitted by the indenture or resolution securing the related bonds, so long as any such earnings in excess of those necessary to pay debt service on the bonds and such program costs of the authority or association, as the case may be, permitted by the governing joint-financing agreement are returned to the participating political subdivisions in direct proportion to the amount which each respective participating political subdivision's obligation under the governing joint-financing agreement bears to the total size of such bonds. Any participating political subdivision which issues bonds, a portion of which constitute a reserve for the benefit of its obligations under the joint-financing agreement, upon the payment of its obligations to the joint-financing agreement, shall receive a refund in full of its reserve together with all earnings thereon.

Sec. 6. Neither the authority nor any association shall issue bonds in an amount which exceeds, by more than twenty-five percent, the amount of obligations which will be purchased by the authority or the association under a joint-financing agreement and be actually issued by the participating political subdivisions within one hundred twenty days of the date of issuance of the authority's or association's bonds in accordance with the particular joint-financing agreement and the reasonable costs of the issuance of the authority's or association's bonds plus an amount for a bond reserve fund not to exceed the greater of ten percent of the net proceeds of the authority's or association's bonds or one year of average annual debt service on such bonds. For the purpose of this subsection, average annual debt service shall be computed upon the bonds issued under a joint-financing arrangement as if such bonds were amortized annually on

an even basis to the stated maturity.

Proceeds of bonds issued pursuant to a joint-financing arrangement shall be used to purchase obligations at, above, or below par from such participating political subdivisions as are parties to the particular joint-financing arrangement as of the date of the issuance of the bonds by the authority or association and only within one hundred twenty days of the issuance of such bonds. The maturity of the bonds authorized to be issued pursuant to this act shall not be less than one year nor exceed by more than one year the maturity of the underlying obligations.

Sec. 7. If the authority or association determines that the rates of interest to be received upon the deposits described in this section are comparable to the prevailing rates offered generally within the State of Nebraska, it shall offer to deposit the proceeds from the sale of its respective bonds issued pursuant to a joint-financing arrangement and any money which constitute sinking funds for its respective bonds issued pursuant to such joint-financing arrangement in such qualifying depositories as may be found within the geographical boundaries of the political subdivisions participating in each respective joint-financing arrangement. For purposes of this section, qualifying depository shall mean a depository which is otherwise qualified to receive funds of any political subdivision of the state. If no such qualifying depository may be found within the geographical limits of any of the participating political subdivisions, then the proceeds from such bonds or such sinking fund money shall be deposited in such other qualifying depository as may be located within the state. If the bonds issued pursuant to a joint-financing arrangement are to be rated by a national rating agency, such a deposit shall not be required if such deposit results in the reduction or loss of such rating.

Sec. 8. The dollar amount of all bonds issued by the authority under this act shall not exceed the sum of forty million dollars for each of the calendar years 1988, 1989, and 1990 nor forty-five million dollars for each of the calendar years 1991 and 1992. In addition, the authority may issue such amount of bonds as is

necessary to refund any bonds theretofore issued or to carry out any federal or state program requiring an issuer with statewide jurisdiction. The dollar amount of all bonds issued under this act by an association formed pursuant to the Interlocal Cooperation Act in any one year shall not exceed the sum of ten million dollars.

Sec. 9. Neither the authority nor any association shall issue any obligations or initiate any other joint-financing arrangements contemplated by this act after December 31, 1992.

Sec. 10. If any section in this act or any part of any section shall be declared invalid or unconstitutional, such declaration shall not affect the validity or constitutionality of the remaining portions thereof.".

RESOLUTION

LEGISLATIVE RESOLUTION 417. Introduced by Schellpeper, 18th District; Scofield, 49th District.

PURPOSE: The purpose of this resolution is to undertake a study of financial and liability issues relating to radioactive waste disposal.

This study is necessary because:

(1) Nebraska has been chosen to be the host state for the Central Interstate Low-Level Radioactive Waste Compact;

(2) The state and its political subdivisions may be required to bear liabilities which are as yet undetermined. Such potential liabilities should be determined to the degree possible including examination of legal issues, potential remedial action scenarios, and liabilities which have occurred as a result of radioactive waste disposal in other states;

(3) The amount of various funds intended to provide guarantees, compensation, or reimbursement to the state or local political subdivisions and the accounting for such funds is uncertain; and

(4) The economic viability of a radioactive waste facility in the compact needs to be examined.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINION

Opinion No. 88026

DATE: March 22, 1988

SUBJECT: Constitutionality of LB 1207 - Valuation of agricultural land for tax purposes.

REQUESTED BY: Senator Rex Haberman
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion on three questions relating to specific portions of LB 1207. Generally, LB 1207 proposes to amend various Nebraska statutory provisions concerning the valuation of agricultural land for tax purposes. The specific provisions of LB 1207 to which your questions relate will be discussed below in reference to each particular question you have presented for our consideration.

Your initial question concerns certain language contained in Section 1 of LB 1207 which proposes to amend Neb.Rev.Stat. §77-1358 (Reissue 1986) by adding the following language: "The Legislature finds that the effect of Amendment IV of 1984 to Article VIII, Section 1, of the Constitution of Nebraska is to permit the Legislature to adopt a valuation method which values agricultural land and horticultural land in a non-uniform manner relative to other classes of property." You ask whether, in light of the recent Nebraska Supreme Court decision in Banner County v. State Board of Equalization and Assessment, 226 Neb. 236, 411 N.W.2d 35 (1987) {Banner County}, this legislative declaration as to the effect of the enactment of amendment four is sufficient to permit the non-uniform valuation and taxation of agricultural land.

In Banner County, the Nebraska Supreme Court discussed the language added to Article VIII, Section 1, of the Nebraska Constitution by virtue of the adoption of amendment four in 1984, providing: "The Legislature may provide that agricultural land and horticultural land used solely for agricultural and horticultural purposes shall constitute a separate and distinct class of property for purposes of taxation." The opinion addressed at length the court's view as to the intent and meaning of the language adopted under amendment four, and the effect of such language on the applicability of the uniformity requirement contained in Article VIII, Section 1, as to the separate class of agricultural land established for tax purposes by the enactment of LB 271 in 1985 after the passage of amendment four. In particular, the court stated the following:

> The State Constitution requires that taxes be levied "by valuation uniformly and proportionately upon all tangible property" except motor vehicles. The constitutional amendment,

upon which LB 1207 is based, amendment four, permits agricultural property to be treated as a separate class for purposes of property tax. The amendment did not repeal the uniformity clause.

* * *

Since amendment four did not repeal the uniformity clause, expressly or by implication, the two clauses must be read in such a way as to give effect to both clauses. Thus, L.B. 271 must meet the requirements of both clauses to pass the test of constitutionality. Specifically, amendment four permitted the Legislature to classify property as a separate class, but the uniformity clause required the Legislature to treat that class in a uniform manner with other tangible property.

* * *

Since the uniformity clause was not repealed, the Legislature can divide the class of tangible property into different classifications, but these classifications remain subdivisions of the overall class of "all tangible property," and there must be a correlation between them to show uniformity. Such a correlation is made by evidence that all tangible property has been uniformly assessed.

No evidence of such a correlation is present in the record before us or in the statutes implementing amendment four. In fact, our review of the statutes shows the correlation requirement was entirely disregarded.

* * *

{The statutes} provide for the separate classification and valuation of agricultural property and are consistent with amendment four. Conspicuously absent from these statutes, however, is a requirement that the resulting values obtained for agricultural land be correlated with the values obtained for other real property as required by the uniformity clause.

Id. at 252-254, 411 N.W.2d at 45-46.

On the basis of the foregoing, it is evident that, while the court's statements could arguably be viewed as dicta, we believe the court has clearly stated that the adoption of amendment four (and the subsequent enactment of LB 271) did not exempt agricultural land from the requirement of maintaining uniformity in relation to all other tangible property, as required by Article VIII, Section 1.

In light of the preceding statements by the court in Banner County, you have asked us to consider what impact the legislative declaration contained in Section 1 of LB 1207 as to the effect of amendment four may have in permitting the non-uniform valuation and taxation of agricultural land. It is true, of course, that legislative

construction of a constitutional provision, while not conclusive, will be given due consideration by the courts in determining the meaning of a constitution. See generally 16 Am.Jur.2d Constitutional Law §125 (1979). In this particular instance, however, we do not believe that the legislative statement of findings as to the effect of amendment four in Section 1 of LB 1207 would alter the court's interpretation of the intent and effect of this constitutional amendment as expressed in the Banner County decision.

As you are no doubt aware, this office filed a motion for rehearing following the issuance of the court's opinion in Banner County, specifically requesting the court to reconsider its conclusion that the adoption of amendment four was not intended to permit non-uniform valuation and taxation of agricultural land. In the brief filed on behalf of the State Board in support of the motion for rehearing, as well as in an amici curiae brief filed by a number of Nebraska farm organizations in support of the request for rehearing, arguments were advanced urging the court to determine that the history behind the adoption of amendment four (and the subsequent enactment of LB 271) demonstrated that the intent and effect of the amendment was to specifically except agricultural land from the requirement of uniform taxation contained in Article VIII, Section 1. The court overruled the motion for rehearing sought on this basis. Under these circumstances, we believe it is extremely unlikely that the court will alter its position regarding the intent and effect of amendment four as expressed in Banner County, and that the legislative finding as to the effect of this amendment contained in Section 1 of LB 1207 would not cause the court to change its determination that amendment four did not remove the constitutional requirement of uniformity in relation to the taxation of agricultural land.

Your second question relates to the limitations placed on county boards of equalization under Sections 7 and 8 of LB 1207 regarding the authority of such boards to make adjustments to valuations placed on agricultural land. Generally, Section 7 would amend Neb.Rev.Stat. §77-1504 (Reissue 1986) to limit the authority of a county board of equalization to making specific types of corrections in relation to agricultural or horticultural land. Section 8 would amend Neb.Rev.Stat. §77-1506.02 (Reissue 1986) by eliminating the authority of a county board of equalization to make a percentage adjustment to the class of agricultural land, or to make a percentage adjustment to a subclass of agricultural land. Your specific question with regard to such limitations on the authority of county boards of equalization concerns whether these provisions result in a denial of due process to owners of agricultural land seeking to challenge their valuations.

In a previous opinion, our office concluded that, under the statutory provisions in existence at that time, a county board of equalization possessed the authority to establish values of land different from those set forth in appraisal manuals prepared by the State Tax Commissioner. Report of Attorney General 1979-80, Opinion No. 296, p. 427. In this opinion, we quoted the following language from 16A Am.Jur.2d Constitutional Law §853 (1979):

> Due process of law requires a hearing before a court or other tribunal having jurisdiction of the cause either in equity or at law. The tribunal must be appointed by law and be governed by rules of law previously established. It must be a legally constituted body for determining the right in question.

Relying upon this principle, we concluded that if land owners were not permitted to contest their valuations before the county board of equalization, they would effectively be precluded from ever contesting their valuations at any stage. We further concluded that the absence of any such ability to contest valuations in this manner would violate due process, and determined that a county board could place values on property different from those in the manuals, if warranted by evidence presented before the county board. Report of Attorney General 1979-80, Opinion No. 269, at 429.

In analyzing your concern as to the potential deprivation of due process resulting from the limitations on the authority of county boards of equalization under LB 1207 to alter valuations of agricultural land determined pursuant to the Land Manual, it is necessary to consider whether the removal of such authority from county boards of equalization prohibits agricultural land owners from contesting the valuations placed on their property. While the guarantee of due process requires that a party be provided the opportunity to raise issues and be heard before a competent tribunal empowered to determine the right in question, the stage at which that hearing occurs, and the manner in which it is provided, if not unreasonably inconvenient, is a matter of legislative discretion. See 16A Am.Jur.2d Constitutional Law §§843, 844 (1979). In this regard, we note that Section 9 of LB 1207 proposes to amend Neb.Rev.Stat. §77-1510 (Reissue 1986) to permit taxpayers challenging values as determined by the Land Manual to contest their valuations in district court. The district court, upon consideration of the evidence presented, is empowered to alter valuations as determined by the Land Manual. Under these circumstances, we do not believe that the limitations imposed on county boards of equalization under LB 1207 result in an unconstitutional deprivation of the due process rights of owners of agricultural land, as such taxpayers are provided a judicial

forum in which to contest the valuations placed on their property for tax purposes.

In addition to your concerns as to the due process implications raised by virtue of the limitations in Sections 7 and 8 of LB 1207, you also question whether the distinctions drawn between owners of agricultural and non-agricultural land, by virtue of the different authority granted to county boards to act in performing their equalization functions, results in a violation of the guarantee of equal protection of the law. See U.S. Const., Amend. 14.

In considering questions as to the validity of legislation under the equal protection clause, it must be remembered that the Legislature has a broad range of discretion in drawing distinctions for purposes of statutory classification. Under traditional equal protection analysis, the guarantee of equal protection merely requires "...that distinctions drawn by a challenged statute bear some rational relationship to a conceivable legitimate state interest or purpose." 16A Am.Jur.2d Constitutional Law §750 (1979). See Porter v. Jensen, 223 Neb. 438, 390 N.W.2d 511 (1986). Upon analyzing the differences between the procedures for challenging valuations of agricultural land and non-agricultural land (by virtue of the limits imposed on county boards in altering agricultural land values), we cannot conclude that the distinctions created in this instance are wholly without any conceivable rational basis.

With the adoption of amendment four in 1984, the Legislature was permitted to classify agricultural land separately for property tax purposes. As the court noted in Banner County, the placing of agricultural land in a separate class for tax purposes permits the valuation of such land by a method different than that employed to value non-agricultural land. 226 Neb. at 253, 411 N.W.2d at 46. The Legislature has thus adopted an earning capacity method of valuation for agricultural land; has promulgated extensive statutory requirements mandating the method to be utilized in determining agricultural land valuations; and has imposed on the State Tax Commissioner the duty to prepare the agricultural land valuation manual employed to establish such values for all categories of agricultural land in the state. Neb.Rev.Stat. §§77-1358 to 77-1356; and §77-1968 (Reissue 1986 and Supp. 1987). Given the unique manner in which agricultural land is treated in establishing its valuation for tax purposes, and the potentially adverse impact on statewide equalization in the event of significant departures from valuations established by the Land Manual, we cannot say that the different procedures to be followed in seeking adjustments of agricultural land values under LB 1207 are without any rational

basis, and, as such, are not necessarily in conflict with the constitutional guarantee of equal protection of the law.

Your final question concerns whether the operative date of January 1, 1988, contained in Section 10 of LB 1207, violates the constitutional prohibition against the enactment of ex post facto laws. Neb. Const., Art. I, §16. The prohibition against ex post facto laws applies only to penal or criminal matters. In re Estate of Rogers, 147 Neb. 1, 22 N.W.2d 297 (1946). Thus, as the provisions of LB 1207 do not concern criminal penalties or sanctions, we conclude that the operative date established in Section 10 of the bill does not, in any manner, render LB 1207 invalid as an ex post facto law.

Very truly yours,
ROBERT M. SPIRE

CIII-2 "The first power reserved by the people is the initiative whereby laws may be enacted and constitutional amendments adopted by the people independently of the Legislature. This power may be invoked by petition wherein the proposed measure shall be set forth at length. If the petition be for the enactment of a law, it shall be signed by seven ~~per cent~~ percent of the ~~electors~~ registered voters of the state, and if the petition be for the amendment of the Constitution, the petition therefor shall be signed by ten ~~per cent~~ percent of such ~~electors~~ registered voters. In all cases the ~~electors~~ registered voters signing such petition shall be so distributed as to include five ~~per cent~~ percent of the ~~electors~~ registered voters of each of two-fifths of the counties of the state, and when thus signed, the petition shall be filed with the Secretary of State, who shall submit the measure thus proposed to the electors of the state at the first general election held not less than four months after such petition shall have been filed. AM2728

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. There is hereby created the Railroad and Car Company Personal Property Tax Reimbursement Fund to be administered by the State Treasurer. Any money in the fund available for investment shall be invested by the state investment officer pursuant to sections 72-1237 to 72-1269. Any balance in the fund on June 30, 1989, shall lapse to the Cash Reserve Fund.

Sec. 2. (1) On August 31, 1988, the State Treasurer shall make the following distributions from the Railroad and Car Company Personal Property Tax Reimbursement Fund to the taxing subdivisions of the state:

(a) To the school districts in Nebraska, as reimbursement of the dollar loss resulting from the injunction granted to the railroads in the discrimination lawsuits for tax year 1987, an amount equal to the amount that exceeds one percent of the tax dollars anticipated from property tax sources, excluding bonded indebtedness, as determined by the Tax

Commissioner;

(b) To the cities, technical community colleges, and natural resources districts in Nebraska, as reimbursement for the dollar loss resulting from the injunction granted to the railroads in the discrimination lawsuits for tax year 1987, an amount equal to the amount that exceeds one percent of the tax dollars anticipated from property tax sources as determined by the Tax Commissioner; and

(c) To the counties in Nebraska, as reimbursement for the dollar loss resulting from the injunctions granted to the railroads and the car companies in the discrimination lawsuits for tax year 1987, an amount equal to the amount that exceeds one percent of the tax dollars anticipated from property tax sources as determined by the Tax Commissioner.

If the amount appropriated is not sufficient to cover the reimbursement provided for in this subsection, the amount shall be prorated as determined by the Tax Commissioner.

(2) Except as provided in Legislative Bill 1091A, Ninetieth Legislature, Second Session, 1988, of the amount remaining from the distributions made pursuant to subsection (1) of this section, the State Treasurer shall distribute to all qualifying taxing subdivisions in the state an amount equal to the dollar loss resulting from the injunctions granted to the railroads and car companies in the discrimination lawsuits for tax year 1987, except that for subdivisions identified in subsection (1) of this section the amount shall not exceed one percent of the tax dollars anticipated from property tax sources, as determined by the Tax Commissioner. If the amount appropriated is not sufficient to cover the reimbursement provided for in this subsection, the amount shall be prorated as determined by the Tax Commissioner.

(3) For purposes of determining tax dollars anticipated as provided in subsection (1) of this section, anticipated car company receipts shall be equal to the amount distributed during calendar year 1987 as determined by the Tax Commissioner.

(4) If any of the lawsuits pending on the effective date of this act challenging the taxation of railroad and car company personal property are resolved

or settled prior to the distribution of funds as provided in this section so that such taxation is retained in whole or in part, the State Treasurer shall adjust the payments, in amounts determined by the Tax Commissioner, to the extent to which the funds have not already been distributed in order to make the distribution consistent with the amount of tax revenue actually lost by the subdivision for both types of railroad personal property for tax year 1987-88.

Sec. 3. If any of the lawsuits pending as of the effective date of this act challenging the taxation of railroad and car company personal property are resolved or settled so that such taxation is retained in whole or in part, then state aid to any taxing subdivision which has received from the state any funds to reimburse the subdivision for the loss of taxes from such property shall be reduced for the first fiscal year following resolution of the lawsuit. The reduction shall be in an amount equal to that certified by the Tax Commissioner to the State Treasurer as being the amount received by the subdivision as reimbursement for losses of taxes which the resolution or settlement of the lawsuit later upheld. The State Treasurer is hereby directed to so reduce from the amount appropriated for state aid for that fiscal year the aid to those subdivisions. For purposes of this section, state aid shall mean appropriations and distributions made pursuant to sections 77-27,136 to 77-27,137.02 and 79-2651 and the School Foundation and Equalization Act.

Sec. 4. That section 84-612, Revised Statutes Supplement, 1987, be amended to read as follows:

84-612. (1) There is hereby created within the state treasury a fund known as the Cash Reserve Fund which shall be under the direction of the State Treasurer. The fund shall only be used pursuant to subsections (2), (4), ~~and~~ (5), and (6) of this section.

(2) The State Treasurer shall transfer funds from the Cash Reserve Fund to the General Fund upon certification by the Director of Administrative Services that the current cash balance in the General Fund is inadequate to meet current obligations. Such certification shall include the dollar amount to be transferred.

(3) Any transfers made pursuant to subsection

(2) of this section shall be reversed upon notification by the Director of Administrative Services that sufficient funds are available.

(4) On September 15, 1985, the State Treasurer shall transfer eight million five hundred thousand dollars from the Cash Reserve Fund to the General Fund to pay Tort Claim Number 4-302. Such transfer shall be reversed after July 1, 1989, but before September 1, 1989.

(5) For the period July 1, 1985, to June 30, 1986, the State Treasurer shall transfer five million dollars from the Cash Reserve Fund to the General Fund. Such transfer shall be reversed after July 1, 1989, but before September 1, 1989.

(6) On June 15, 1988, the State Treasurer shall transfer from the Cash Reserve Fund to the Railroad and Car Company Personal Property Tax Reimbursement Fund the amount specified in Legislative Bill 1091A, Ninetieth Legislature, Second Session, 1988.

Sec. 5. Sections 1 and 2 of this act shall terminate on July 1, 1989.

Sec. 6. That original section 84-612, Revised Statutes Supplement, 1987, is repealed.

ATTORNEY GENERAL'S OPINION

Opinion No. 88027

DATE: March 22, 1988

SUBJECT: LR 249CA - Proposed constitutional amendment to exempt agricultural land from the uniformity requirement.

REQUESTED BY: Senator Rod Johnson
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General

L. Jay Bartel, Assistant Attorney General

You have requested our opinion on two questions relating to LR 249CA. Generally, this proposed constitutional amendment would amend Article VIII, Section 1, of the Nebraska Constitution, to establish agricultural land as a separate class of property for tax purposes which would be exempt from the uniformity requirement contained in this constitutional provision.

Your initial question is whether the language of the proposed amendment is sufficient to establish an intent to exempt agricultural and horticultural land from the uniformity clause in Article VIII, Section 1, of the Nebraska Constitution.

In Banner County v. State Board of Equalization and Assessment, 226 Neb. 236, 411 N.W.2d 35 (1987), the Nebraska Supreme Court stated that the adoption of Amendment Four in 1984 (permitting the legislature to establish agricultural land as a separate and distinct class of property for tax purposes) did not exempt agricultural land from the requirement of uniformity in relation to all other tangible property, as mandated by Article VIII, Section 1, of the Nebraska Constitution. The language of LR 249CA would repeal the language adopted by the passage of Amendment Four, and would replace such language with the following:

> The Legislature may provide that agricultural land and horticultural land, as defined by the Legislature, used for agricultural and horticultural purposes, shall constitute a separate and distinct class of property for purposes of taxation and may provide that agricultural land and horticultural land be assessed for purposes of taxation by a method which results in values which are not uniform or proportionate with other classes or subclasses of property.

On the basis of the plain meaning of the foregoing language, we believe that the language of LR 249CA clearly expresses an intent to establish agricultural and horticultural land as a separate class of property for purposes of taxation which is not subject to the requirement of uniform and proportionate taxation in Article VIII, Section 1.

Your second question concerns whether the inclusion of language in LR 249CA exempting subclasses of agricultural land from the uniformity requirement is constitutionally permissible if such language is construed to mean that subclasses of agricultural land need not be uniform and proportionate to one another.

Initially, we note that some ambiguity may be presented by the language in LR 249CA permitting the assessment of agricultural land by a method resulting in values which are not uniform "...with other

classes or subclasses of property." (emphasis added). As a result of this language, some question may exist as to whether this provision is intended to eliminate any requirement of uniformity of subclasses within the class of agricultural land. In our view, the plain meaning of the language of the amendment does not necessarily evince an intent to eliminate any requirement of uniformity among subclasses of agricultural land; rather, the amendment speaks only in terms of permitting the assessment of the class of "agricultural and horticultural land" in a manner "which results in values which are not uniform or proportionate with other classes or subclasses of property." Nevertheless, the Statement of Purpose accompanying LR 249CA indicates the intent behind this language is to remove any requirement of uniformity within the agricultural land class. The Statement provides, in pertinent part: "Amendment Four did not address uniformity within the agricultural class itself, but LR 249CA proposes to exempt agricultural subclasses (irrigated, dryland and range) from the uniformity clause also." Committee Statement on LR 249CA, 90th Legislature, Second Session at 1-2. (Emphasis in original). Thus, while the Statement of Purpose indicates the amendment is intended to eliminate any requirement of uniformity within the class of agricultural and horticultural land, we cannot definitively conclude that the current language of the amendment supports such an interpretation. In order to accomplish this stated purpose, we believe it may be necessary to revise the language of the amendment to clearly effectuate the Legislature's intent with regard to the requirement of uniformity within the class of agricultural and horticultural land.

In spite of our conclusion that it is unclear whether the language of LR 249CA removes any requirement of uniformity between subclasses of agricultural land, we will nevertheless consider your question as to whether the elimination of any requirement of uniformity among subclasses of agricultural land would be constitutionally permissible. As you have not raised any particular constitutional question in this regard, we will limit our discussion to whether the adoption of such a provision would violate the guarantee of equal protection of the law mandated under the Fourteenth Amendment to the United States Constitution.

In Banner County v. State Board of Equalization and Assessment, supra, the court indicated some question may exist as to whether a state constitutional amendment permitting agricultural land to be taxed differently than other land utilized to produce income would violate the Equal Protection Clause of the United States Constitution. 226 Neb. at 255, 411 N.W.2d at 47. In raising this concern, the court cited the U.S. Supreme Court decision in

Sioux City Bridge Co. v. Dakota County, 260 U.S. 441 (1923), in which the Court held that the failure to provide a taxpayer with equal tax treatment in accordance with the state constitutional requirement of uniform taxation resulted in a violation of the due process and equal protection guarantees contained in the Fourteenth Amendment of the United States Constitution. In view of the Nebraska Supreme Court's reference to this issue in the Banner County case, it is possible that, if presented with a question as to the validity of a constitutional provision permitting unequal treatment among owners of different classes of agricultural land, the court may conclude that such disparate treatment violates the guarantees of due process and equal protection of the law.

It should be noted, however, that recent decisions concerning the validity of state taxation under the Equal Protection Clause have upheld the classification of property for tax purposes, provided the distinctions drawn by virtue of such classification schemes rest upon some difference that bears a rational and reasonable relationship to the object of the act. F.S. Royster Guano Co. v. Virginia, 253 U.S. 412 (1920); See Anderson v. Tiemann, 182 Neb. 393, 155 N.W.2d 322 (1967); Comment, Preferential Assessment of Agricultural Property in South Dakota, 22 S.D.L.Rev. 632, 650 (1977). Courts from various jurisdictions have upheld the validity of legislative classifications of property for tax purposes based on the use of the property against challenges asserting such classification schemes violated the Equal Protection Clause. Howell v. Malone, 388 So.2d 908 (Ala. 1980); Holzwasser v. Brady, 262 S.C. 481, 205 S.E.2d 701 (1974). A number of states have adopted either constitutional or statutory provisions allowing classification of real property for tax purposes, Note, Classification of Real Property for Tax Purposes in Illinois - Hoffman v. Clark, 28 DePaul L.Rev. 849, 849n.9 (1979), and many states specifically provide for the separate classification of agricultural land for tax purposes. Note, Separate Property Tax Classification for Agricultural Land: Cure or Disease?, 64 Neb.L.Rev. 313, 315n.9 (1985).

In Stahmer v. State, 192 Neb. 63, 218 N.W.2d 893 (1974), the court, in upholding the validity of legislation which gave preferential treatment with respect to the taxation of property used in agricultural production, reiterated the general rule that it is competent for the Legislature to classify property for purposes of legislation, provided the classification rests on some reason of public policy, or some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. The criteria outlined in Stahmer with regard to the validity of classifications scrutinized under our

State Constitution are equally applicable in considering whether legislative classifications satisfy the requirements of the Equal Protection Clause of the Federal Constitution.

As was noted, Sioux City Bridge Co. v. Dakota County, supra, involved a challenge under the Equal Protection Clause based on a failure to provide uniform tax treatment of property within the same class, as mandated under the State Constitution. LR 249CA, however, would specifically exempt agricultural land from the general uniformity requirement, and, in addition, could also be construed to eliminate any uniformity requirement among subclasses of agricultural land. Under these circumstances, the appropriate question to consider in analyzing the impact of the Equal Protection Clause with regard to disparate treatment which may result within the agricultural class may be whether a rational basis exists to justify different treatment within the class of agricultural land. We are not aware of any legislative declarations or findings supporting a basis for permitting disparities in the taxation of subclasses of the class of agricultural land, nor can we readily discern any clear basis upon which the potential for different tax treatment within the agricultural class could be supported. Accordingly, we cannot say that any disparity in taxation which may result from eliminating the requirement of uniformity among subclasses of agricultural land would withstand attack on equal protection grounds.

Very truly yours,
ROBERT M. SPIRE
Attorney General

PURPOSE: The purpose of this study is to (1) examine government competition with private enterprise and (2) examine whether governmental functions could be performed more efficiently by contracting with private enterprise. (4) Other constitutional offices shall continue to subscribe to the procedures for unit determination in the Industrial Relations Act, except that the commission is further directed to determine the bargaining units in such manner as to (a) reduce the effect of overfragmentation of bargaining units on the efficiency of administration and operations of the constitutional office and (b) be consistent with the administrative structure of the constitutional office. AM2797

(Amendments to Standing Committee amendments, AM1908)

1. Insert the following new section:

"Sec. 24. That section 21-2035, Revised Statutes Supplement, 1987, be amended to read as follows:

21-2035. (1) All corporate powers shall be exercised by or under the authority of, and the business and affairs of a corporation shall be managed under the direction of, a board of directors, except as may be otherwise provided in the Nebraska Business Corporation Act or in the articles of incorporation. If any provision is made in the articles of incorporation, the powers and duties conferred or imposed upon the board of directors by such act shall be exercised or performed to such extent and by such person or persons as shall be provided in the articles of incorporation. Directors need not be residents of this state or shareholders of the corporation unless the articles of incorporation or bylaws so require. The articles of incorporation or bylaws may prescribe other qualifications for directors, but any change in qualifications that the articles of incorporation or bylaws may make shall not affect the incumbent directors during the term for which they were elected. The board of directors shall have authority to fix the compensation of directors unless otherwise provided in the articles of incorporation.

A director shall, based on facts then known to the director, perform his or her duties as a director, including his or her duties as a member of any committee of the board upon which he or she may serve, in good faith, in a manner he or she reasonably believes to be in the best interests of the corporation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances. For purposes of this section, facts then known to the director shall mean information or knowledge actually possessed by a director and information and facts contained in material given or presented, either orally or in writing, to a director by other directors or by officers, employees, agents, or consultants engaged by or representing the corporation.

In performing his or her duties, a director shall be entitled to rely on information, opinions, reports, or statements, including financial statements

and other financial data, in each case prepared or presented by:

~~(1)~~ (a) One or more officers or employees of the corporation whom the director reasonably believes to be reliable and competent in the matters presented;

~~(2)~~ (b) Counsel, public accountants, or other persons as to matters which the director reasonably believes to be within such person's professional or expert competence; or

~~(3)~~ (c) A committee of the board upon which he or she does not serve, duly designated in accordance with a provision of the articles of incorporation or the bylaws, as to matters within its designated authority, which committee the director reasonably believes to merit confidence, but the director shall not be considered to be acting in good faith if he or she has knowledge concerning the matter in question that would cause such reliance to be unwarranted. A person who so performs his or her duties shall have no liability by reason of being or having been a director of the corporation.

A director may, but need not, in considering the best interests of the corporation, consider, among other things, the effects of any action on employees, suppliers, creditors, and customers of the corporation and communities in which offices or other facilities of the corporation are located.

A director of a corporation who is present at a meeting of its board of directors at which action on any corporate matter is taken shall be presumed to have assented to the action taken unless his or her dissent is entered in the minutes of the meeting or unless he or she files his or her written dissent to such action with the secretary of the meeting before the adjournment thereof or forwards such dissent by certified or registered mail to the secretary of the corporation immediately after the adjournment of the meeting. Such right to dissent shall not apply to a director who voted in favor of such action.

(2) In addition to the matters required to be set forth in the articles of incorporation by section 21-2052, the articles of incorporation may also contain a provision eliminating or limiting the personal liability of an outside director to the corporation or

its stockholders for monetary damages for breach of fiduciary duty as a director. Such a provision shall not eliminate or limit the liability of an outside director for:

(a) Any act or omission not in good faith which involves intentional misconduct or a knowing violation of the law;

(b) Any transaction from which the outside director derived an improper direct or indirect financial benefit;

(c) Paying a dividend or approving a stock repurchase which was in violation of the Nebraska Business Corporation Act;

(d) Any act or omission which violates a declaratory or injunctive order obtained by the corporation or its shareholders; and

(e) Any act or omission occurring prior to the date such provision becomes effective.

For purposes of this section, outside director shall mean a member of the board of directors of a corporation incorporated or domesticated under the laws of the State of Nebraska who is not an officer or a person who may control the conduct of the corporation through management agreements, voting trusts, directorships in related corporations, or any other device or relationship.".

2. On page 21, line 10, after "That" insert "original section 21-2035, Revised Statutes Supplement, 1987, and also".

3. Insert underscoring in original sections 1 to 23.

4. Renumber remaining sections accordingly.

2. On page 2, line 24, strike "a facility for the disposal" and insert "low-level radioactive waste be disposed of in a manner which best protects the health and safety of its citizens and the environment. The Legislature finds that community consent is necessary to protect the health and safety of the people and the environment since the people of the local area must deal with the economic and environmental impact of a facility and safe disposal of radioactive waste depends on the cooperation and assistance by the local community, including fire and police protection and road maintenance. Community consent in a democratic society is best expressed by approval of a majority of

the voters of such community voting on that issue.".

Failure to comply with this subsection with respect to a given site shall bar the developer from applying for a license for a facility to be located at such site.

(2) At least ninety but not more than one hundred eighty days after the county board receives the notice prescribed by subsection (1) of this section, a special election shall be held for purposes of voting on the following question:

Shall a low-level radioactive waste facility be built at the proposed site in .....County?

Yes..... No.....

If more than one site is proposed within a county, a separate ballot shall be used for each site and the ballot questions shall distinguish more specifically between the sites.

(3) Any registered voter who is a resident of a county in which a proposed site is to be located may vote on such question. If at least a majority of such registered voters voting on the question for a given site vote no, the application for a license for a facility at such site shall not be approved.

(4) The special election shall be called by the county board of each county in which the proposed site is to be located, and the date for the special election shall be publicly announced by each county board within twenty-one days after the public identification of the site by the person proposing the facility pursuant to subsection (1) of this section.

(5) If the date chosen for the special

AM2796

1. Insert the following new sections:

"Sec. 12. That section 53-164.01, Revised Statutes Supplement, 1986, be amended to read as follows:

53-164.01. Payment of the tax provided for in section 53-160 on alcoholic liquors shall be paid by the

manufacturer or distributor as ~~herein~~ provided in this section. All such manufacturers or distributors, except for farm winery producers, whether within or without this state, shall, on or before the twenty-fifth day of each calendar month commencing on the twenty-fifth day of the calendar month following the month in which the shipments are made, make a report under oath to the ~~Nebraska Liquor Control Commission~~ commission upon forms to be furnished by the commission for the purpose of showing the exact total amount in gallons of alcoholic liquors, or fractional parts thereof, shipped by such manufacturer or distributor, whether within or without the State of Nebraska, during the preceding calendar month. All beer distributors shall, on or before the twenty-fifth day of each calendar month following the month in which the shipments are made, make a report under oath to the commission upon forms furnished by the commission for the purpose of showing the exact total amount in gallons of beer, or fractional parts thereof, shipped by all manufacturers, whether within or without the State of Nebraska, during the preceding calendar month to such distributor. Farm winery producers shall, on or before the twenty-fifth day of each calendar month commencing on the twenty-fifth day of the calendar month following the month in which the wine is packaged or bottled for sale, make a report under oath to the ~~Nebraska Liquor Control Commission~~ commission upon forms furnished by the commission for the purpose of showing the exact total amount in gallons of wine, or fractional parts thereof, packaged or bottled by such producer during the preceding calendar month. Such report shall also contain a statement of the exact total amount in gallons, or fractional parts thereof, of alcoholic liquors, except beer, shipped to holders of retailers' licenses within this state. All reports submitted by each manufacturer, distributor, or farm winery producer, as required by this section, shall contain such other information as the commission may require. The ~~manufacturer,~~ distributor, or farm winery producer shall, at the time of the filing of the report, pay to the commission the amount of the tax due ~~on beer shipped to distributors within this state and~~ on alcoholic liquors, except beer, shipped to holders of retailers' licenses within this state at the rate fixed in

accordance with section 53-160. The tax due on beer shall be paid by the distributor on beer shipped from all manufacturers. Such tax shall be due on the date the report is due, less a discount of one percent of such tax on alcoholic liquors. ~~as defined by subdivision (6) of section 53-103.~~ Such discount shall be deducted from the payment of such tax before remittance ~~thereof~~ of the tax to the commission, shall be shown in such report to the commission as required in this section, and shall be a commission for the making of such report and for the timely payment of such tax, but if such tax is not paid within the time provided ~~herein~~ in this section, then such discount shall not be allowed and the ~~same~~ discount shall not be deducted from the payment of such tax.

A penalty of ten percent of the amount of the tax shall be collected by the commission if the report is not filed by the twenty-fifth day of the calendar month or if the tax is not paid to the commission by the twenty-fifth day of the calendar month, and in addition thereto interest on the tax shall be collected at the rate, of one percent per month, or fraction of a month, from the date the tax became due until paid.

No tax shall be levied or collected on alcoholic liquors manufactured within the State of Nebraska and shipped or transported outside the State of Nebraska for sale and consumption outside the State of Nebraska.

In order to insure the payment of all state taxes imposed by law on alcoholic liquors together with all interest and penalties thereon, all persons required to make reports and payment of such tax shall first enter into a surety bond with corporate surety, both such bond form and surety to be approved by the commission. In lieu of such corporate surety bond, there may be filed a personal bond in such form as the commission may prescribe and secured by the pledge of property having a net value over and above any encumbrance or encumbrances thereon at least double the amount of the bond required. Subject to the limitations hereinafter specified, the amount of such bond required of any taxpayer shall be fixed by the commission and may be increased or reduced by it at any time. In fixing the amount, the commission shall require a bond in a

total amount equal to the amount of the taxpayer's estimated maximum monthly excise tax, ascertained in such manner as the commission may deem proper. Nothing contained in this section shall be construed to prevent or prohibit the commission from accepting and approving bonds which run for a term longer than the license period. In any event, the amount of such bond required of any one taxpayer shall not be less than one thousand dollars. These bonds shall be filed with the commission.

No person shall order or receive alcoholic liquors in this state which have been shipped directly to him or her from outside this state by any person other than a holder of a permit for a license year issued by the commission. The commission may issue such permits to manufacturers which shall allow the permittee to ship alcoholic liquors to and only to holders of a distributor's license issued under this section. A fee of two hundred dollars shall be charged by the commission for each permit issued. The application for such permit and the permit shall be in such form as the commission shall prescribe. The application shall contain all such provisions as the commission shall deem proper and necessary to effectuate the purpose of any section of the Nebraska Liquor Control Act and the rules and regulations of the commission that apply to manufacturers and shall include, but without limitation by reason of this special mention, a provision that the permittee, in consideration of the issuance of a permit, agrees:

(1) To comply with and be bound by this section in the making and filing of a bond, the making and filing of returns, the payment of taxes, penalties, and interest, and the keeping of records;

(2) That he or she will permit and be subject to all of the powers granted by this section to the commission or its duly authorized employees or agents for inspection and examination of his or her premises and records and will pay his or her actual expenses, excluding salary, reasonably attributable to such inspections and examinations made by duly authorized employees of the commission, if within the United States; and

(3) That if any such permittee violates any of

the provisions of his or her application, ~~or of~~ any section of the Nebraska Liquor Control Act, or the rules and regulations of the commission that apply to manufacturers, the commission may revoke or suspend such permit for such period of time as it may determine.

When a manufacturer or distributor shall sell and deliver alcoholic liquor upon which the tax has been paid to any instrumentality of the armed forces of the United States engaged in resale activities as provided in section 53-160.01, the manufacturer or distributor shall be entitled to a credit in the amount of the tax paid upon such alcoholic liquor sold and delivered to such person or persons in the event no tax is due on such alcoholic liquor as provided in section 53-160.01, and the amount of the credit, if any, shall be deducted from the tax due on the following monthly report, as provided by this section to be filed, or shall be allowed as a credit on subsequent reports until liquidated.

LEGISLATIVE RESOLUTION 425. Introduced by Wesely, 26th District.

WHEREAS, each day in our state thousands of parents place their infants and young children, our state's most precious resource, in the hands of child care providers; and

WHEREAS, all children deserve quality child care; and

WHEREAS, child care service providers are the major determinants of child care quality and as such are responsible for our children's futures. Nevertheless, they represent one of the least understood and most poorly rewarded of all professions.

48-816. (1) After a petition has been filed under section 48-811, the clerk shall immediately notify the commission which shall promptly take such preliminary proceedings as may be necessary to insure a prompt hearing and speedy adjudication of the industrial dispute. The commission shall have power and authority upon its own initiative or upon request of a party to the dispute to make such temporary findings and orders as may be necessary to preserve and protect the status of the parties, property, and public interest involved pending final determination of the issues. In the event of an industrial dispute between an employer and an employee or a labor organization when such employer and employee or labor organization have failed or refused to bargain in good faith concerning the matters in dispute, the commission may order such bargaining to begin or resume, as the case may be, and may make any such order or orders as may be appropriate to govern the situation pending such bargaining. The commission shall require good faith bargaining concerning the terms and conditions of employment of its employees by any employer. The commission shall require the parties to an industrial dispute to submit to mediation or factfinding upon request of either party and shall appoint mediators or factfinders for such purpose. Such orders for bargaining, mediation, or factfinding may be issued at any time during the pendency of an action to resolve an industrial dispute. To bargain in good faith shall mean the performance of the mutual obligation of the employer and the labor organization to meet at reasonable times and confer in good faith with respect to wages, hours, and other terms and conditions of employment or any question arising thereunder and the execution of a written contract incorporating any agreement reached if requested by either party, but such obligation does not compel either party to agree to a proposal or require the making of a concession.

(2) Except as provided in the State Employees Collective Bargaining Act, public employers are hereby authorized to recognize

employee organizations for the purpose of negotiating collectively in the determination of and administration of grievances arising under the terms and conditions of employment of their public employees as provided in the Industrial Relations Act and to negotiate and enter into written agreements with such employee organizations in determining such terms and conditions of employment.

(3)(a) Except as provided in ~~subdivisions~~ subdivision (b) ~~and (c)~~ of this subsection, a supervisor shall not be included in a single bargaining unit with any other employee who is not a supervisor.

(b) All firefighters and police officers employed in the fire department or police department of any municipal corporation in a position or classification subordinate to the chief of the department and his or her immediate assistant or assistants holding authority subordinate only to the chief shall be presumed to have a community of interest and may be included in a single negotiating unit represented by an employee organization for the purposes of the Industrial Relations Act. Public employers shall be required to recognize an employees negotiating unit composed of firefighters and police officers holding positions or classifications subordinate to the chief of the fire department or police department and his or her immediate assistant or assistants holding authority subordinate only to the chief when such negotiating unit is designated or elected by employees in the unit.

~~(c) Sergeants, corporals, and patrol officers employed by the Nebraska State Patrol as authorized in section 81-2004 shall be presumed to have a community of interest and may be included in a single bargaining unit represented by an employee organization for purposes of the act. The state shall be required to recognize an employees bargaining unit composed of sergeants, corporals, and patrol officers employed by the Nebraska State Patrol when such bargaining unit is designated or elected by employees in the unit.~~

(4) When an employee organization has been certified as an exclusive collective-bargaining agent or recognized pursuant to any other provisions of the Industrial Relations Act, the appropriate public employer shall be and is hereby authorized to negotiate collectively with such employee organization in the settlement of grievances arising under the terms and conditions of employment of the public employees as provided in such act and to negotiate and enter into written agreements with such employee organizations in determining such terms and conditions of employment, including wages and hours.

(5) Upon receipt by an employer of a request from a labor organization to bargain on behalf of employees, the duty to engage in good faith bargaining shall arise if the labor organization has been

certified by the commission or recognized by the employer as the exclusive bargaining representative for the employees in that bargaining unit.

(6) The commission shall have the authority (a) to make studies and analyses of and act as a clearinghouse of information relating to conditions of employment of public employees throughout the state, (b) to request from any government, and such governments are authorized to provide, such assistance, services, and data as will enable it properly to carry out its functions and powers, (c) to conduct studies of problems involved in representation and negotiation, including, but not limited to, those subjects which are for determination solely by the appropriate legislative body, and make recommendations from time to time for legislation based upon the results of such studies, (d) to make available to employee organizations, governments, mediators, factfinding boards and joint study committees established by governments, and employee organizations statistical data relating to wages, benefits, and employment practices in public and private employment applicable to various localities and occupations to assist them to resolve complex issues in negotiations, and (e) to establish, after consulting representatives of employee organizations and administrators of public services, panels of qualified persons broadly representative of the public to be available to serve as mediators or members of factfinding boards.

(7)(a) Except for those cases arising under section 48-818, the commission shall be required to make findings of facts in all cases in which one of the parties to the dispute requests findings. Such request shall be specific as to the issues on which the party wishes the commission to make findings of fact.

(b) In cases arising under section 48-818, findings of fact shall not be required of the commission unless both parties to the dispute stipulate to the request and to the specific issues on which findings of fact are to be made.

(c) If findings of fact are requested under subdivision (a) or (b) of this subsection, the commission may require the parties making the request to submit proposed findings of fact to the commission on the issues on which findings of facts are requested.

(d) In cases arising under section 48-818, the commission shall issue a recommended decision and order, which decision and order shall become final within ten days of entry unless either party to the dispute files with the commission a request for a posttrial conference. If such a request is filed, the commission shall hold a posttrial conference within ten days of receipt of such request and shall issue an order within ten days after holding such posttrial conference,

which order shall become the final order in the case. The purpose of such posttrial conference shall be to allow the commission to hear from the parties on those portions of the recommended decision and order which is not based upon or which mischaracterizes evidence in the record and to allow the commission to correct any such errors after having heard the matter in a conference setting in which all parties are represented.";

RESOLUTIONS

LEGISLATIVE RESOLUTION 426. Introduced by Withem, 14th District; Baack, 47th District.

WHEREAS, a reliable and illuminating education data system is essential to making informed and progressive policy decisions affecting public elementary and secondary education; and

WHEREAS, a fair and relevant policy system of indicators of educational progress is critical for providing public accountability

and objective information for school evaluation and improvement efforts; and

WHEREAS, a balanced system of educational indicators will provide information on education inputs, processes, and outcomes; and

WHEREAS, the Legislature's study of school evaluation found that Nebraska's system of measuring the progress of its public school system is weighted too heavily in measuring input or quantity variables through the school accreditation process and does not adequately measure performance and process variables such as student outcomes and school environment; and

WHEREAS, it has been noted by various national education experts, including Jonathan P. Sher in his recent report on rural schools, that data is not available to compare the quality, effectiveness, and efficiency of Nebraska's public schools; and

WHEREAS, comments of legislators and guest speakers at the Legislative Issues Symposium indicate that the Legislature would benefit by an improved educational data system; and

WHEREAS, the federal Department of Education and Council of Chief State School Officers are currently undertaking efforts to improve the data system measuring the performance of the school system of the states; and

WHEREAS, information from the Education Commission of the States indicates that Nebraska is one of only five states without a statewide student assessment system; and

WHEREAS, continual assessment, evaluation, diagnosis, and improvement are necessary for state and local education policy makers in order to maintain and enhance the quality of the Nebraska school system, educational opportunities of Nebraska students, and the competitiveness of the Nebraska economy; and

WHEREAS, under sections 79-328 and 79-1247.02, the State Board of Education currently has the authority to implement a statewide system of student testing and to request performance data from approved and accredited schools.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the State Board of Education and the Commissioner of Education are urged to institute planning to improve the educational data system describing the public school system.

2. That the State Board of Education and Commissioner of Education are urged to consider the need for appropriate and fair comparative information on the performance of the schools.

3. That the State Board of Education and Commissioner of Education should consider the findings of the Legislature in the report in Legislative Resolution 181 in the implementation of the performance-based accreditation standards required pursuant to section 79-1247.02.

4. The State Board of Education and Commissioner of Education are urged to implement a statewide system of student assessment measuring the status and progress of the public schools and students in teaching and learning basic and higher order skills and competencies pursuant to authority granted to the board in section 79-328.

5. That the State Board of Education and Commissioner of Education are urged to establish an evaluation and assessment division within the State Department of Education separate from the division of school accreditation and approval.

6. That the State Board of Education and the Commissioner of Education should seriously investigate and consider Nebraska's participation in the National Assessment of Educational Progress (NAEP).

7. That a copy of this resolution be sent to each member of the State Board of Education and the Commissioner of Education.

Laid over.

LEGISLATIVE RESOLUTION 427. Introduced by V. Johnson, 8th District; L. Johnson, 15th District; Hefner, 19th District; Remmers, 1st District; Warner, 25th District; Scofield, 49th District; Labedz, 5th District.

WHEREAS, on March 27, 1986, the Nebraska Legislature adopted LR 384 which authorized the Executive Board of the Legislative Council to appoint a committee to oversee an examination of Nebraska's taxation and spending and the structure and finance of state and local government; and

WHEREAS, the Comprehensive Tax Study Committee, comprised of seven members of the Legislature appointed by the Executive Board, contracted with Syracuse University to conduct an independent and impartial study of all phases of taxation; and

WHEREAS, LR 384 called for study findings and recommendations to be submitted to the committee prior to the commencement of the 1988 regular session of the Legislature; and

WHEREAS, the original contract with Syracuse University has been extended until March 31, 1988, due to circumstances outside of the control of Syracuse University officials; and

WHEREAS, Syracuse University has materially completed the report and submitted the same to the committee.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Comprehensive Tax Study Committee review and analyze the one-thousand-page, sixteen-chapter report submitted by Syracuse University.

A person shall be eligible to contract to provide services pursuant to this subsection if he or she has staff trained and experienced in farm and ranch financial analysis, is familiar with the unique aspects of production agriculture, is able to work effectively with borrowers and creditors, and demonstrates an ability to assist each borrower in developing alternatives and to evaluate such alternatives for potential viability.

The farm mediation service shall notify all the parties and, upon their consent, schedule a meeting with a mediator. ATTORNEY GENERAL'S OPINION

Opinion No. 88029
April 4, 1988

Dear Senator Hall:

This is in reply to your letter requesting an Opinion from this office concerning the constitutionality of the requirement in LB 1232 that charitable organizations be in existence for at least five years before they are eligible for a license to conduct a pickle card lottery.

The starting point of any analysis concerning Legislative authorization or regulation of gambling in Nebraska must begin with §24 Article III of the Nebraska Constitution.

Originally this section of the Nebraska Constitution prohibited the Legislature from authorizing any game of chance or lottery. In 1934 this provision of the constitution was amended to allow horse races by the parimutuel or certificates method within the race track enclosure.

Later amendments to this section of the Constitution permitted the Legislature to license and regulate bingo games conducted by non-profit associations which have been in existence for a period of five years and to authorize and regulate lotteries in which the proceeds are to be used solely for charitable or communities betterment purposes.

In is obvious from reading this section of the constitution and its history that while the Legislature may now authorize wagering on horse races, bingo and charitable lotteries as above described, there is nothing requiring the Legislature to do so.

It is also clear that if the Legislature decides to authorize the limited gambling permitted by the constitution, it may strictly regulate what it authorizes.

In the Supreme Court of Nebraska case of Alcoholic Resocialization Conditioning Help, Inc., et al., v. State of Nebraska, Charles Thone, Governor, et al., appellees, 206 Neb. 788, the plaintiffs contested the constitutionality of certain bingo statutes enacted by the Legislature which provided that not more than two bingo occasions per week could be held within a single structure or building.

The Supreme Court of Nebraska in upholding this statutory restriction on bingo commenced its analysis as follows:

> It is important at the outset to recognize that the activity which the statute regulates is a form of gambling. Gambling is an activity that, for the most part, is prohibited and, where permitted, may be subjected to strict regulation.

The United States Supreme Court in the recent case of Posadas de Puerto Rico Associates etc. v. Tourism Company of Puerto Rico, 478 U.S. ___, 82 L.Ed.2d 266 arrived at a similar conclusion where the plaintiff claimed a legislative ban on casino game advertising was unconstitutional and in conflict with two other U.S. Supreme Court cases, referred to as Carey and Bigelow. In those cases the Supreme

Court had struck down legislative bans on advertisements of contraceptives and abortion clinics. In the casino gambling case, the U.S. Supreme Court put it this way:

> In Carey and Bigelow, the underlying conduct that was the subject of the advertising restrictions was constitutionally protected and could not have been prohibited by the State. Here, on the other hand, the Puerto Rico Legislature surely could have prohibited casino gambling by the residents of Puerto altogether. In our our view, the greater power to completely ban casino gambling necessarily includes the lesser power to ban advertising of casino gambling, and Carey and Bigelow are hence inapposite. (Emphasis added.)

In Pegasus of Omaha, Inc., v. State, 203 Neb. 755, the Supreme Court of Nebraska upheld a statute which prohibited a messenger service from carrying bets to the race track. In recognizing that the service rendered was not gambling in itself, the Supreme Court held that "the activity of Pegasus is so intertwined with gambling that, under its constitutional power to regulate, the Legislature may ban messenger services operating for a fee from accepting bets and conveying the bets to a licensed race track."

The Court later upheld a similar statute which prohibited such messenger services from being operated with or without a fee. Midwest Messenger Services, Inc. v. Spire, 223 Neb. 748.

In upholding the statute, the Nebraska Supreme Court recognized that the Nebraska Legislature had conducted hearings concerning the legislation and had considered a report concerning a number of abuses involving messenger services at race tracks in Illinois. The abuses included the booking of bets without buying the corresponding parimutuel tickets, failure to pay off winners, involvement of organized crime, an increased burden on law enforcement, and a reduction in track attendance and betting with corresponding loss of local and state revenue.

The court concluded in both cases that the legislative ban had a reasonable relationship to the possible abuses. The requirement, that a licensee to conduct a lottery by the sale of pickle cards, be in existence in this state for five years has, in our view, a reasonable relationship to determining whether the past record of an applicant is such that the licensing authority may make an educated determination whether the applicant is likely to use its proceeds for charitable purposes as required, to pay its gambling taxes and to not disappear with the proceeds of the lottery in the middle of the night.

In light of the above discussion that, (1) the constitutional authority to prohibit the activity altogether includes the lesser authority of the legislature to enforce strict regulation, and (2) that

the five year requirement has a reasonable relation to a legitimate State purpose, it is our opinion that the constitutionality of this requirement could be successfully defended.

Respectfully submitted,
ROBERT M. SPIRE

MESSAGE FROM THE GOVERNOR

April 5, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

I am returning Legislative Bill 1041 with my signature but with certain line-item reductions. LB 1041 contains adjustments to the biennial budget passed last session.

My budget presentation to the Legislature in January of this year focused on those items of State spending that are critical to Nebraska's future. In particular, the restoration of previous Special Session reductions in State Aid to education, along with salary improvements for higher education and research funds for the University, emphasize my belief in the central role of education in this quest.

While I respect the opinions of the members of this body, it is necessary to make hard choices about our finances. My reductions to LB 1041 include some items that would obligate us to expand state spending without proper consideration of ongoing needs.

A complete list of line-item reductions is attached to this letter. It is my belief that decisions on these items are more appropriate in the context of our biennial budget deliberations which will commence in a few months. Further, LB 1041 as returned represents a major investment in Nebraska's future. I believe the citizens of this State expect and deserve that we hold off deciding the wisdom of these additional spending items until there is more certainty in our ability to pay for our actions.

I urge the Members to consider our complete fiscal situation as you review these decisions. My determination to avoid financial obligations that cannot be maintained remains strong. Join me in creating a financial atmosphere that will allow us to review spending obligations when all budget considerations are equally before us as they will in the next session of the Legislature.

Sincerely,
(Signed) KAY A. ORR
Governor

LEGISLATIVE RESOLUTION 434. Introduced by Health and Human Services Committee: Wesely, 26th District, Chairperson; Bernard-Stevens, 42nd District; Goodrich, 20th District; Lynch, 13th District; Schellpeper, 18th District.

PURPOSE: The ozone layer, high in the atmosphere, is crucial to life on earth because it screens out lethal ultraviolet radiation from the sun. Fleurocarbons present in many aerosol products and many manufacturing byproducts are slowly destroying the ozone layer. Because the ozone layer is irreplaceable, it is important to develop environmental legislation that will halt any further destruction. The

purpose of this resolution is to conduct a study of the state's role in protecting the ozone layer. The study shall include, but not be limited to:

(1) Background information on the destruction of the ozone layer;

(2) Survey of state efforts to educate the public on this serious environmental problem;

(3) Survey of state efforts to prevent further destruction of the ozone layer; and

(4) Identification of state legislation that could be adopted in Nebraska to protect the ozone layer.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

MESSAGES FROM THE GOVERNOR

April 6, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Senators:

I am returning LB 350 and LB 350A without my signature and with my objections.

LB 350 and LB 350A regulate the mailing of prescription drugs into the State of Nebraska. These restrictions will make it difficult for Nebraska's elderly citizens, especially for those living in rural areas, to get competitive prices for prescription drugs. It has the potential to trigger unnecessary increases in the health care costs paid by public, private, or third party payors. In addition, Nebraska's Attorney General has maintained that this bill (and similar earlier proposals) is unconstitutional.

Overall, the passage of LB 350 and LB 350A, in my judgement, will raise more legal and other health care access issues than any potential quality-related issues it is intended to address. I urge you to sustain my veto.

Sincerely,

(Signed) KAY A. ORR
Governor

April 6, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Senators:

I am returning LB 557 and 557A without my signature and with my objections.

LB 557 establishes a voluntary certification program for nutritionists and dietitians. In my judgment, a voluntary program such as this is unnecessary because it does not ensure that the public will be protected from the harm done by certain incompetent professionals. Additionally, this bill is inconsistent with the recommendations that came out of the credentialing review process established by the Legislature to advise it about the necessity of the state regulation of health professions.

I urge you to sustain my veto.

Sincerely,
(Signed) KAY A. ORR
Governor

April 6, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Senators:

I am returning LB 647 and LB 647A without my signature and with my objections.

LB 647 would provide $1.5 million in new state aid to school districts offering vocational education programs. As you know, one of my paramount objectives for this legislative session has been to assist our schools by restoring $10.7 million in state aid to education.

A $12.2 million increase in non-special education aid this year, however, simply is not advisable in view of other fiscal needs.

Perhaps more important than the amount is the policy change represented by this new program. School boards currently make curriculum choices and spending decisions based on local needs and preferences. The state establishes basic standards but does not make state aid conditional on specific course offerings. LB 647 departs from that precedent by making additional aid available on the basis of local school board decisions concerning vocational education programs.

A final word of caution is in order. Regardless of the merits of "directing" state aid, policymakers should not be under the illusion that an increase such as the one proposed in this bill would not affect the availability of funds for general state aid.

Sincerely,
(Signed) KAY A. ORR
Governor

April 6, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Senators:

I am returning LB 846 without my signature and with my objections.

LB 846 appropriates $150,000 each to the community-based substance abuse and mental health programs. Currently, those two programs receive more than 10 million dollars in State General Fund appropriations. Additional funding for these programs can not be justified at this time. By your actions earlier this session, significant changes were made in the programmatic and funding requirements for community-based mental health programs. It is too early to commit additional state resources to the program before the impact of other statutory changes in service delivery system is known.

I urge you to sustain my veto.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 868 and LB 868A without my signature and with my objections.

Providing for another judge on the Worker's Compensation Court is not fiscally prudent at this time. Further, this measure would trigger a 3% salary increase for the other judges six months earlier than provided for in legislation passed in the 1987 session causing an additional fiscal impact.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 1117A with my signature, but with a line-item reduction.

LB 1117A contains funding for both an electronic network and for distance learning. My decision will provide $243,700 in Fiscal Year 1988-89 and $94,700 in Fiscal Year 1989-90 for development of a distance learning project. The Department of Education and the Educational Telecommunications Commission will be working together to apply the latest technological developments to our childrens' education. The benefits of this program will be felt across the State. My veto will eliminate funding for the electronic network which is a lower priority and not necessary at this time.

Your support in maintaining the budget at a level that can be sustained is appreciated.

Sincerely,
(Signed) KAY A. ORR

Dear Mr. President and Senators:

I am returning LB 1103 and 1103A without my signature and with my objections.

LB 1103 adds health services to the lists of local school student personnel services overseen by the Nebraska Department of Education. It also provides for the hiring of a school nurse consultant by NDE.

While this new activity is a minor item, it raises questions about demonstrated need for additional staff in state government. For instance, it may be possible to monitor student health services at lower cost through a cooperative arrangement with the Nebraska Department of Health.

The bill also may be unnecessary. The State Board of Education already has statutory authority over "all other necessary and appropriate noninstructional services for students."

Sincerely,

Dear Mr. President and Senators:

I am returning LB 863 and LB 863A without my signature and with my objections.

My veto is based on the consideration that the purpose of LB 863, which establishes an advisory board for the Boiler Inspection Act, can be accomplished without using state statutes. I have directed the Commissioner of Labor to set up an advisory group similar to that which would have been created by this Act to provide input to the Department of Labor concerning boiler inspection rules and regulations.

A Resolution to propose an amendment to Article VIII, section 1, of the Constitution of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETIETH LEGISLATURE OF NEBRASKA, SECOND SESSION:

Section 1. That at the general election in November 1988 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article VIII, section 1, of the Constitution of Nebraska, which is hereby proposed by the Legislature:

CVIII-1 "The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, except that: (1) The ~~the~~ Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent as provided by the Legislature and may also establish a separate class for trucks, trailers, semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles; PROVIDED,

that such tax proceeds from motor vehicles taxed in each county shall be allocated to the state, counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of the ~~said~~ county on personal tangible property; and (2) the Legislature may provide that agricultural land and horticultural land, as defined by the Legislature, shall constitute a separate and distinct class of property for purposes of taxation and may provide for a different method of taxing agricultural land and horticultural land which results in values which are not uniform or proportionate (a) with other classes of property or (b) within the class of agricultural land and horticultural land. The Legislature may enact laws to provide that the value of land actively devoted to agricultural or horticultural use shall, for property tax purposes, be that value which such land has for agricultural or horticultural use without regard to any value which such land might have for other purposes or uses, and prescribe standards and methods for the determination of the value of real or other tangible property at uniform and proportionate values. ~~The Legislature may provide that agricultural land and horticultural land used solely for agricultural or horticultural purposes shall constitute a separate and distinct class of property for purposes of taxation.~~ Taxes uniform as to class of property or the ownership or use thereof may be levied by valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing, or other employee benefit plans as defined by the Legislature may be declared to be exempt from taxation. Taxes, other than property taxes, may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature. The Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation and may further provide for reciprocal and proportionate taxation of livestock located in this state for only part of a year.".

Sec. 2. The proposed amendment shall be submitted to the electors in the manner prescribed by Article XVI, section 1, of the Constitution of Nebraska. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

"A constitutional amendment to authorize the Legislature to provide that agricultural land and horticultural land used for agricultural and horticultural purposes constitutes a separate and distinct class of property for purposes of taxation and for a different method of taxing agricultural land and horticultural land which results in values which are not uniform or proportionate

with other classes of property or within the class of agricultural land and horticultural land.

Dear Mr. President and Senators:

I am returning LB 942 without my signature and with my objections.

LB 942 creates an exception in law to establish a community of interest among administrators in Class V school districts. Since the repeal of the Teachers Professional Negotional Act, school districts are under the jurisdiction of the Commission on Industrial Relations. It would be poor policy to intervene in matters which should legitimately be decided by the CIR. As I stated in my veto message for LB 519, this will set a precedent for determining bargaining units by statute rather than through the collective bargaining process.

Sincerely,
(Signed) KAY A. ORR

Dear Mr. President and Senators:

I am returning LB 1221 and LB 1221A without my signature and with my objections.

LB 1221 and LB 1221A require and provide funds for the state to assume the cost of care for persons determined to be incompetent to stand trial and are committed to the regional centers. Currently the counties are responsible for these costs because determination of competency is part of the trial process. In my judgment payment of such costs is a legitimate responsibility of the counties.

I urge you to sustain my veto.

Sincerely,
(Signed) KAY A. ORR

Dear Mr. President and Senators:

I am returning LB 672 without my signature and with my objections.

LB 672 would require a majority of the members of the Parole Board to hold a formal public hearing when an inmate first becomes eligible for parole. Hearings would have to be held even if the inmate is unlikely to be paroled. This would add at least fifty public hearings to the Parole Board's workload each month. There is no evidence that the current system is not working. To change the system to add so greatly to the Board's workload, there must be greater evidence of need.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 1079A without my signature and with my objections.

LB 1079A makes an appropriation to the Department of Social Services for the implementation of the Prompt Payment Act. After further review and discussion with the Department, we have concluded that the bill can be implemented at no additional cost to the Department.

I urge you to sustain my veto.

Sincerely,

and Members of the Legislature

Dear Mr. President and Senators:

I am returning LB 823 without my signature and with my objections.

LB 823 would allow any nonprofit community organization to contract with a willing high school district for use of a school bus within a restricted geographical area. While noble in its intent of assisting community groups, the bill raises serious substantive issues. Unlike commercial bus charter operations, no safety or other regulatory oversight would be provided for such uses. Unfair competition with the private sector would also be likely. Finally, a serious accident could expose school districts to liability.

Prudence dictates that our communities be protected from possible unintended dangerous consequences of this legislation.

Sincerely,

State Capitol

Dear Mr. President and Senators:

I am returning LB 1143 and LB 1143A without my signature and with my objections.

LB 1143 establishes a vacant building committee that is responsible for identifying vacant state buildings and either selling them or leasing them for future state use. In addition LB 1143A

appropriates $200,000 from the General Fund for the implementation of this act. The implementation of this new state program and expenditure of funds is not necessary. Currently we have a state building inventory and review of all state buildings being conducted by the 309 Task Force and the Building Division of the Department of Administrative Services. With this veto I will be directing them to more aggressively work with our state agencies in the review of state building utilization. We do not need to hire more employees and expend $200,000 doing what can be done within our current programs.

I urge you to sustain my veto.

Sincerely,

Dear Mr. President and Senators:

Today I signed and delivered to the Secretary of State LB 940 and LB 940A, a compromise measure that will continue the discussions regarding the structure of elementary-secondary education in Nebraska. The bill preserves the right of elementary-only school districts to exist.

I remain committed to helping our lawmakers develop a fair, effective and constitutional affiliation mechanism. Such a procedure would allow Class I schools to retain their structure, identity and local control, while tying their tax base to a receiving K-12 district for high school purposes. Once that is achieved, Nebraska will have the best of both worlds: sufficient uniformity and tax equity to support a sound K-12 sequence for all students, and, at the same time, the broad flexibility in school structure that is needed to meet the needs of our diverse communities.

Everything from our own heritage to the advice of national experts tells us we need to nurture our rural schools. Together we can develop an educational system that is a model of effectiveness and accountability, and that preserves the high quality of education throughout our state for which Nebraskans are justifiably proud.

Sincerely,

MESSAGE FROM THE GOVERNOR

April 8, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President and Senators:

Today I signed and delivered to the Secretary of State LB 375. The issue of interstate banking has been before the Legislature for a number of years. After listening and giving careful consideration to the arguments on both sides, I believe that the effects of interstate banking on the residents of Nebraska will be beneficial.

The results of a competitive environment based upon a free enterprise system should generally yield better services for the consumer at the lowest cost. Interstate banking should promote such competition in banking. That should mean higher interest rates for depositors, and lower interest rates for borrowers. I do not feel interstate banking poses a concern to our smaller banks, for there will always be a place for a well run community bank. LB 375 stipulates that before banks in other states can enter Nebraska, banks in our state must be given the same privilege in their state.

It pleases me the Legislature has included language in the bill to assure that out of state bank holding companies which seek to acquire Nebraska banks will be good corporate citizens who will invest in Nebraska.

Sincerely,
(Signed) KAY A. ORR
Governor

MESSAGES FROM THE GOVERNOR

April 11, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Today I signed LB 632, which permits the State to issue up to $50 million in bonds for highway construction and rehabilitation. The bill also allows bonding to be used to alleviate cash flow problems resulting from delays in the receipt of federal funds.

At the present time, the need to use this mechanism is not apparent. Any activation of the bonding provisions of LB 632 will be considered very carefully should current conditions change. However, in the foreseeable future, I do not intend to implement the bonding opportunities allowed by this legislation.

My continued pledge is to make the most effective use of our resources in maintaining our state highway system. LB 632 offers another tool in that process while placing additional responsibility on both the Governor and the Legislature to use it judiciously.

Sincerely,
(Signed) KAY A. ORR
Governor

Dear Mr. President and Senators:

I am returning LB 1178 without my signature and with my objections.

The principles governing civil liability in Nebraska are of significant importance to all Nebraskans. The complexity and ramifications of these principles have serious consequences and should not be underestimated.

I have not been persuaded of a need for change. A plaintiff is not barred from recovery under our present rule unless the plaintiff's contributory negligence reaches a certain degree. Under existing law, this decision is up to the jury. I have not been convinced that juries have reached unfair results.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 295A without my signature and with my objections.

LB 295A creates the State Protocol Office and establishes the Protocol Advisory Board. These services could be provided more effectively and efficiently administratively, rather than through the creation of a new separate bureaucracy. I will be working with the Legislature to facilitate such an arrangement.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 1008 and LB 1008A without my signature and with my objections.

Safety can not be compromised by providing such a significant deviation from accepted vision standards. The provisions of LB 1008 lower the minimum vision standards to 20/100 for drivers using bioptic devices. The American Medical Association, the United States Department of Transportation, and the American Association of Motor Vehicle Administrators all recommend that persons whose visual acuity is 20/80 or worse should be denied a drivers license of any type. For safety reasons, I can not allow this bill to become law.

In my judgment, statutory and administrative procedures are currently available to address vision requirements for a motor vehicle operator's license.

Sincerely,
(Signed) KAY A. ORR

Dear Mr. President and Senators:

I am returning LB 1226 without my signature and with my objections.

LB 1226 would provide for the payment of stipends to UNL football players upon the adoption by four Big Eight states of laws treating their football players as employees. Now that the Legislature has registered its strong concern over the plight of student athletes

and the inflexibility and complexity of the NCAA regulations, it is important that the University express itself clearly on this issue.

The Board of Regents is the appropriate forum for dealing with the NCAA. Therefore, I strongly urge the Regents to address this issue and communicate their position to that body. I welcome the needed clarification of the University's position on LB 1226 and on the reasonableness of NCAA rules.

Further, an expression to the NCAA through the enactment of a statute is inappropriate.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 1091A with my signature, but with line-item reductions.

LB 1091A appropriates State aid to political subdivisions as a one-time replacement for property tax revenues that may be lost due to the railroad and carline lawsuits. My line-item reductions reduce the total available for this purpose from $11,200,000 to $7,700,000 for Fiscal Year 1988-89.

With the concurrence of the sponsors, it is my feeling that $7,700,000 is a prudent amount for this purpose, but everyone should recognize this is one-time money. Members are urged to work for a permanent solution to the fiscal stability of our political subdivisions.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 716A without my signature and with my objections.

The original provisions of LB 716A were removed in the last days of the Legislative session. New provisions relating to open heart surgery and Certificate of Need review were placed in the bill. The Attorney General states that such procedure violates the Nebraska Constitution. A copy of his letter is attached.

ATTORNEY GENERAL'S OPINION

DATE: April 13, 1988

SUBJECT: LB 716A

REQUESTED BY: Honorable Kay A. Orr
Governor
P.O. Box 94848
Lincoln, NE 68509-4848

WRITTEN BY: Robert M. Spire, Attorney General

Dear Governor Orr:

You seek our assistance and guidance regarding LB 716A and the manner and method by which it was presented to you.

LB 716A was first read on May 19, 1987, on the eighty-fourth day of the First Session of the Ninetieth Legislature. It was an appropriation bill to fund the provisions of Legislative Bill 716 of the Ninetieth Legislature, First Session. LB 716A was carried over by the same title on January 6, 1988, which was the first day of the Second Session of the Ninetieth Legislature. LB 716A was amended on April 6, 1988, which was the fifty-eighth day of the Second Session of the Ninetieth Legislature.

Thereafter, LB 716A was correctly engrossed on April 6, 1988, on the fifty-eighth day changing LB 716A from an appropriation bill to

an act relating to health care; to amend §§71-5828 and 71-5830, Reissue Revised Statutes of Nebraska, 1943; to change provisions relating to certificates of need; to harmonize provisions; and to repeal the original sections. On April 8, 1988, the sixtieth day of the Ninetieth Legislature, Second Session, LB 716A was signed by the Speaker and presented to you for consideration.

We have done extensive study and legal research in response to your inquiry. Based on this study and research we have concluded:

(1) On April 6, 1988, Legislative Bill 716A ceased to be an appropriation bill to carry out the provisions of LB 716. Instead, it became a completely new bill when it was amended by substantive language new and different from the previous appropriation bill. It was then correctly engrossed so that the title clearly expressed the subject matter of the bill.

(2) Article III, Section 14 of the Constitution of the State of Nebraska requires that (a) every bill and resolution shall be read by title when introduced, (b) a printed copy thereof provided for the use of each member, and (c) the bill and all amendments thereto shall be printed and read at large before the vote is taken upon its final passage. No such vote upon the final passage of any bill shall be taken, however, until five legislative days after its introduction nor until it has been on file for final reading and passage for at least one legislative day. No bill shall contain more than one subject, and the same shall be clearly expressed in the title.

We believe that LB 716A was correctly engrossed and amended on April 6, 1988, the fifty-eighth day of the Ninetieth Legislature, Second Session. LB 716A in its current form has not been before the Legislature for five legislative days and therefore is violative of Article III, Section 14.

Sincerely,
ROBERT M. SPIRE
Attorney General

MESSAGE FROM THE GOVERNOR

April 13, 1988

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Mr. President and Senators:

I am returning LB 1160 with my signature but with certain line-item reductions. LB 1160 contains various budget adjustments to existing programs as well as new funding for renovation of Capitol space.

My reductions in LB 1160 include the $1,000,000 additional funding for the Deferred Building Renewal Act, $2,000,000 of additions to the Nebraska Soil and Water Conservation Fund and $500,000 earmarked for the initiation of renovation in the State Capitol building. By making these reductions we will save state taxpayers $3.5 million without seriously curtailing any state programs.

The Deferred Building Renewal Act, or 309 Task Force as it is commonly known, already has $2.0 million appropriated for the next year which is a sustainable level and approximates the level of appropriation for every year since the creation of the program. Additional funding is not required to keep this excellent program in operation. The current level of funding is adequate to maintain the program and meet the needs of the program next fiscal year.

The Nebraska Soil and Water Conservation program will receive an additional $1.6 million of new funding through Section 1 of this bill which I have approved. This $1.6 million together with $1.9 million already appropriated will provide total funds of $3.5 million for the program. The need for soil and water conservation is great, but the state should not shoulder the full burden of increased funding. A cooperative effort by federal, state, and local governments, together with private landowners, will be required. The 84% increase in state funds represents a good-faith effort on the part of state government. Now, we must work to make sure that available funds are used effectively.

Finally, I have reduced the appropriation for renovation of Capitol space by $500,000 while leaving $3.5 million of funding in this bill in addition to the $220,000 of new funding contained in LB 1041. The $500,000 reduced from next year's appropriation will leave the project with $665,000 of funding for FY 89 and $3,055,000 for FY 90. At this time total project costs are only an estimate and this level of funding appears to be sufficient. In any case, $665,000 should be more than adequate in FY 89 as no actual renovation will begin until FY 90.

Again, let me state my position that a savings of $3.5 million is not as much a reduction in these worthy programs as it is a savings to our taxpayers.

Sincerely,
(Signed) KAY A. ORR
Governor
