The Honorable Kay Orr

Dear Governor Orr:

This is to announce that I am resigning my seat in the Nebraska Legislature, effective January 3, 1988. Following many months of introspection, I decided that it was time for me to move on.

I have enjoyed our warm relationship and the pleasure in serving with the Legislature. A finer group of individuals cannot be found anywhere else.

As far as I am concerned, I have given to my constituents the best of my judgment and my abilities. I have appreciated their reciprocating through their many letters, phone calls, and heartfelt prayers. In my book, no finer group of constituents exists anywhere else.

My staff is most devoted and energetic. I thank each member for his or her time and services.

I should tell you that I have no intention of dropping my concern for issues, particularly those items that impact the lives of the less fortunate. Without question, I will appear over the years at public hearings and through many letters, phone calls, and personal contacts.

Sincerely,  
(Signed) Vard R. Johnson

**UNANIMOUS CONSENT - Print in Journal**

Mr. Lynch asked unanimous consent to print the following proposed rule changes in the Journal. No objections. So ordered.

1. Amend Rule 3, Section 4(e) by adding new subsections.

(iii) The Clerk of the Legislature's Office shall be responsible for the collection of pertinent information on gubernatorial appointments. That information will be distributed to the appropriate standing committee prior to the time of the confirmation hearing. The Clerk's Office shall be the "depository" for background information on the individual, a statement of financial interests if applicable and other biographical information that the committee chair feels is appropriate for the committee to have before it during the confirmation process.

(iv) The committees to which a gubernatorial appointee has been referred for confirmation shall conduct a confirmation hearing. Each appointee shall be required to appear in person before the committee conducting the confirmation hearing. The appearance of the appointee may be waived for good cause shown by a majority vote of the members assigned to the committee conducting the hearing.

The committee shall prepare a report either approving or rejecting the appointment. Said report shall be filed with the Clerk of the Legislature. The Legislature shall then have the opportunity to accept or reject the report of the committee.

(v) Any appointment letter received by the Clerk of the Legislature during the last eight calendar days of any regular legislative session shall not be acted upon. Acknowledgement of receipt of the appointment shall be deferred until the next regular or special session of the Legislature.

Amend Rule 3, Section 13 by adding the following language:

Sec. 13. Public Hearing, Notice. Before taking final action on a bill, or resolution, or gubernatorial appointment, a committee shall hold a public hearing thereon and shall give at least seven calendar days' notice, after the bill or pronouncement of the appointee shall have been printed, by publication in the Legislative Journal. No bill or resolution having been set for public hearing shall be withdrawn nor the hearing cancelled within seven calendar days of the date set for said public hearing.

Amend Rule 9, Section 3 by adding the following language:

Sec. 3. Committee Hearings. Within one legislative day following the introduction of bills and resolutions, or pronouncement of a gubernatorial appointment, the Reference Committee shall review each bill, ~~and~~ resolution and gubernatorial appointment and refer the matter to the appropriate standing committee. The committee to which the bill, ~~or~~ resolution or gubernatorial appointment is referred shall provide as much public notice of the time and place of the hearing on the matter as is reasonable under the circumstances by publication in the Legislative Journal, but in no case shall the hearing be more than five calendar days after the date the bill, ~~or~~ resolution or gubernatorial appointment has been referred to the committee.

2. Amend Rule 2, Section 3 by adding a new subsection (c) and relettering the remaining subsections.

Sec. 3. Chamber, Guests, Distributions of Material. (a) The legislative chamber shall consist of the entire floor of the legislative chamber including the space under the balcony on either side adjacent thereto, or any other space designated by the Legislature or the Executive Board thereof.

(b) No person shall be admitted to the floor of the Legislature, as described in this rule, except the following:

- (i) Members of the Legislature and their immediate families.
- (ii) Officers and employees of the Legislature.
- (iii) Reporters of regularly accredited newspapers and broadcasting stations.

(c) With the permission of the chair, members may invite guests to the legislative chambers. When exercising this privilege, members should be sensitive to the matter under discussion on the floor and

not have guests seated within the chamber who have a direct interest in the matter being discussed.

Any member may object to the presence of a guest within the Chamber on the grounds that the guest has an interest in the matter being debated. If the chair concurs with this judgement, the guest shall be asked to leave the chamber.

No registered lobbyist shall be admitted to the chamber.

(e) (d) The Governor, state officers, former legislators, and other distinguished visitors may be admitted to the floor upon permission from the chair.

(d) (e) No one shall be permitted to be seated beside members of the Legislature except members of their immediate families upon permission from the chair. When bills are being read on Final Reading, no one other than members of the Legislature shall be permitted on the floor of the Legislature, except for employees of the Clerk of the Legislature's office.

(e) (f) No person, other than those hereinbefore excepted, shall be admitted to the members' cloak room or post office, unless accompanied by a member.

(f) (g) No printed or written material of any nature may be placed on the desks of the members or distributed to them in the legislative chamber, unless such material clearly indicates on its face the person responsible for its distribution. The distribution must be approved by at least one member of the Legislature. The Speaker may authorize the Clerk to distribute material prepared by state agencies.

(g) (h) Members shall remain in their seats during the Final Reading of a bill and until the vote thereon has been announced, except when excused by the President or during discussion of amendments or motions offered pursuant to Rule 6, Section 8.

(h) (i) No individual, other than a senator or officer of the Legislature, shall be allowed to address the Legislature except from the podium.

### 3. Amend Rule 7, Section 3(e):

(e) Any member may call for the division of a question, which shall be divided if it comprehends propositions in substance so distinct

that, one being taken away, a substantive proposition shall remain for the decision of the Legislature. A motion to strike out and insert shall be deemed indivisible, but a motion to strike out being lost, shall not preclude an amendment or a motion to strike out or insert. Such call for division shall not be allowed when considering motions under Rule 6, Section 6.

4. Amend Rule 7, Section 4:

Sec. 4. Shall the Debate Cease. The previous question shall be in this form, "Shall the debate now close?"

The previous question shall be made only in the normal course of speaking order and shall be in order when demanded by five or more members, and must be sustained by the vote of a majority of the elected members, and until decided shall, except as provided in this section of this rule, preclude further debate and all amendments and motions, except one motion to adjourn. The presiding officer may rule the previous question out of order if in the presiding officer's opinion a full and fair debate has not been afforded, due to the complexity of the subject matter. The ruling of the presiding officer shall be subject to overrule in accordance with Rule 1, Section 12 of these rules.

On a previous question there shall be no debate. All incidental questions of order, arising after a motion is made for a previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

When the previous question shall have been ordered on a proposition under debate, the mover, proponent, or introducer of such proposition shall be given the right to close the debate thereon.

If the item under consideration at the time debate is ceased is a motion to indefinitely postpone a bill, and the principal introducer of the bill has not been afforded the opportunity to speak on the IPP motion during the normal course of debate, the introducer may speak for five minutes prior to the closing on the IPP motion.

5. Amend Rule 7 by adding a new Section 10 to read as follows:

Sec. 10. At any stage of consideration the introducer of the bill under consideration or the chairperson of the committee, if the bill is introduced by that committee, may move for cloture to the presiding

officer after eight hours of debate on the bill at each stage of consideration, except that the appropriation bills introduced by the Appropriations committee shall be subject to a cloture motion after twelve hours of debate at each stage of consideration. The presiding officer shall immediately recognize such introducer or chairperson and shall then order debate on the pending amendment or motion to cease. A vote on such pending amendment or motion shall be taken immediately. Following the vote on such pending matter, a vote on the cloture motion shall be taken. A two-thirds majority of the elected members shall be required for the cloture motion to be successful. A motion for cloture shall be in order except while a member is speaking, and a motion for cloture is not debatable. If the motion for cloture is successful a vote on the advancement of the bill shall be taken, without debate, immediately following the vote on cloture.

A motion for cloture shall have precedence over other motions except a motion to adjourn.

A motion for cloture following an unsuccessful motion for cloture shall not be in order until one additional hour of debate has passed.

A motion to suspend the rules for the purpose of cloture shall not be in order.

### **UNANIMOUS CONSENT - Print in Journal**

The committee returned and escorted Governor Kay A. Orr to the rostrum where she delivered the following State of the State and Budget Address.

### STATE OF THE STATE ADDRESS

Mr. President, Mr. Speaker, ladies and gentlemen of the Legislature, distinguished guests, and my fellow Nebraskans:

I appreciated the opportunity to be with you last Wednesday and to greet you on your return for the 1989 session of the Legislature.

As I observed then, your presence produces a sense of excitement and energy that pervades this entire Capitol.

I am looking forward to a productive session, building on the considerable accomplishments we have recorded in each of the past two years; to renewing old friendships and to establishing new ones. So again, I'm pleased to say to each of you: "Welcome back."

It is my privilege today to report to you on the State of the State and present a budget for the operations of state government over the next biennium.

And in so doing we have to carefully examine the many roles of state government - and the most important role we have is to listen to the voices of all the people.

Father Val Peter, Executive Director of Boys Town in Omaha, perhaps captured this best when he said: "Any one can sit and look at the seashore and be inspired because it shouts at you. So do the mountains. But the prairie only whispers. You must listen closely and never miss the message."

At times in state government it would be easy for us to hear only the seashore and the mountains...the special interest groups and the power structures, but it is clear that we must listen also to the whispers of the prairie...to the young families, the grandparents, the small business owners, the wage earners, and our children because they all have a part in setting the course to keep Nebraska on the move.

The past months have been a time to listen to the concerns, hear the suggestions, and...yes...see the visions that come from the people who live on the prairie.

With the directors of many state agencies I have traveled far across our state--to the familiar gathering spots of rural Nebraska to the

think-tanks of urban industrialized areas--to the volunteer service clubs in the smallest of Nebraska communities--to the company presidents who serve on our chamber boards and development groups. We've had the opportunity to listen to the people from all walks of life in their home town settings--to hear the whispers of the prairie from a proud people, fiercely loyal Nebraskans who want the best for the future of their communities. These gatherings were an opportunity to exchange ideas and hear first-hand the wants and the needs of our fellow Nebraskans. It was necessary to listen closely so we wouldn't miss the message.

Through the mid-1980's there was a great deal of concern, and many questions were raised about our state's future. There were some who asked: "What's wrong with Nebraska?" There were special sessions to cut budgets, forcing programs to be eliminated, ideas put on hold, promises re-evaluated.

Today I am pleased to say the State of the State is measurably improved over a year ago and substantially stronger than it was when we began our work together in January of 1987.

We are able to talk about "What is right with Nebraska!" The "Can't Do" has been replaced by the "Can Do," and, again, the whispers are being heard from the prairie. We have prosperity as we end this decade and renewed hope for an even greater future in the 1990's.

The fact that we have made so much progress in so short a time is a tribute to the foresight and political courage of this Legislature. Your enactment of landmark legislation in the field of economic development and your commitment to quality education at all levels in Nebraska have mapped a new course for our state, a course whose milestones are more and better jobs for all our people, increased educational opportunities for our students, and a renewed sense of optimism and confidence throughout the state.

We can see and measure the success of our joint efforts in economic development: The commitment of well over \$2 billion in new capital investment and more than 18,000 new jobs.

We can see and measure the improvements in education: significant increases in state aid to local school districts; in additional appropriations for our university and state colleges to make possible faculty salary adjustments and to finance important research activities.

We can see and feel the new spirit that abounds in Nebraskaland. Wherever I travel across this state, whether it is part of our Capital for a Day Program, a state college commencement, or ground breaking for a new plant, there is evidence that our people are more

confident of the future, more secure in their belief in themselves, and more determined to work together to continue our progress.

By working together we have given Nebraskans new hope for the future. From Atkinson to Aurora, Beatrice to Broken Bow, Lexington to Lincoln, from Scottsbluff to South Sioux City communities are once again alive with activity created through legislation passed by this body. Let me share with you a few excerpts from letters received recently in my office.

Jackie Sharp of Nebraska City's Chamber of Commerce reports the most recent quarterly sales were the highest in three years. Sales tax receipts were 25 percent above expectations. Twenty new or expanded business activities started the past year.

Jackie wrote, "Nebraska City is definitely on the up swing. Our community has taken on such a positive attitude."

Leone Green in Albion reported five new or expanded business openings in recent months, with more planned. She said they held a Celebrate Nebraska event in June that will become an annual festival. She concluded by saying, "We're proud of Albion, and feel for a town of two thousand we're certainly holding our own."

Incidentally, Boone County's sales tax receipts are up 27 percent over last year.

Cathy Healey of Gothenburg writes about a youth community improvement program which has brought together 198 young volunteers who have been involved in civic and personal service projects that have recharged spirits and revitalized much of the town.

Keith Ellis in McCook writes "Exciting things are happening in McCook. Retail sales are up 18 percent. The people of McCook and Southwest Nebraska are controlling their own destiny. This is just the start of many success stories we know are going to happen."

Finally, an inspiring letter came from Liz Gerberding of Geneva. She started her letter by taking me back to July of 1986, when the local bank was closed. She said "When a bank in a small town closes, it's like someone dying.

Fortunately a new bank is open now, and what has taken place this past year is simply marvelous."

Liz took me on an imaginary walking tour of Geneva's business district, describing 30 improvements that have taken place. She closed by saying "People in the community are working together, young people are starting businesses...it's looking good."

Those accounts are both gratifying and encouraging. But it would be a mistake for us to suppose that our task is finished.

Improving our economy, strengthening our educational system, protecting our natural resources, bolstering Nebraska agriculture,

revitalizing our towns and villages--all these require constant attention and continuous energy and imagination.

Nebraskans have every reason to be proud of our schools and our teachers who do more than almost any other profession in building the future of the state. For years we've boasted of our graduation rates and outstanding student performances on college entrance examinations. It is imperative that we build on all the progress we have made in education.

Now we need to insure that our educational system is keeping pace with the almost bewildering progress in technology. We must continue to strive to make sure our graduates are trained to compete in a rapidly changing society. We cannot fail to recognize that the jobs of tomorrow are not the jobs of yesterday, or even of today.

Nor can we afford to relax our efforts to strengthen our economy. It would be easy to point to the spectacular success of our economic development incentive programs, dust off our hands and say, "Well, that's taken care of."

It's true that we enjoy one of the nation's lowest unemployment rates. But unemployment rates don't mean much to an unemployed or underemployed worker. We must not only continue the efforts to attract new business and industry to Nebraska and to assist companies already here; we must place renewed emphasis on those efforts.

And the competition is increasing. Neighboring states are aware of the success we have achieved with our performance-based incentives. We can expect renewed efforts by our sister states to get back into the race. We will not only have to work harder; we must work smarter in this fiercely competitive environment.

We must capitalize on our natural advantages like our central location and superior communications to build on our strengths.

And, as part of our overall development scheme, we must find ways to bring about a rural renaissance...a rebirth...to the smaller towns and villages of Nebraskaland.

While a number of communities have made progress in bringing a renewed vitality to main street, many localities have not fully shared in the recent economic upturn in Nebraska.

One difficulty appears to be that the technical expertise and resources for planning an effective economic development program are neither available nor affordable in some of our towns.

Nebraskans must assume responsibility for their own future--a future that belongs to those willing to invest the time, leadership, and resources needed to create a brighter tomorrow. It is in that spirit that I am proposing a comprehensive initiative to stimulate rural and community growth throughout Nebraska.

The proposal involves several agencies of state government working together to focus resources and expertise that will help our communities help themselves.

Civic leaders and small business owners have spoken clearly. They have asked for our help in job training; and they need hands-on assistance in securing financial packaging, federal procurement contracts, and export assistance.

That is why I am proposing the opening of four field offices of the Department of Economic Development in order to make the services of that department directly accessible to the communities.

The economy of our main streets depends heavily on the economy of our agricultural sector. A prosperous and expanding farm economy is of key importance in our efforts to revitalize our rural communities. For those reasons the agriculture component of the proposal is aimed at efforts to expand the markets for the products from our farms and ranches. In order to sustain our ability to produce we must be ever mindful of the need to preserve our natural resources; that is why I am proposing an increase in both the Resources Development Fund and Soil and Water Conservation Fund.

Education at every level has an important role to play in this proposal. Our renewed commitment to education in 1988 strengthened schools across this state. We will continue that commitment this year, including support for job training and financial management programs administered by the University, state, and technical community colleges.

Also, I am recommending additional funding for the Department of Education's "Distance Learning" program and increased appropriations for satellite interconnecting systems. This ensures quality educational resources will be available to every classroom in every corner of this state. Modern technology can and will have a dramatic and positive impact on our students.

The delivery of medical services in some parts of our state is in jeopardy. This problem deserves our urgent attention. I have asked Dr. Gregg Wright, the Director of the Department of Health, to convene a conference of health professionals, administrators, and lay people who will critically re-examine this issue and develop a list of options that the state may consider.

In addition to these initiatives rural renaissance will depend on the ability of communities to attract new capital. The private sector, as well as existing state programs such as the Research and Development Authority, can be a source of capital for new business ventures. I am optimistic we can make real progress in the months and years ahead. But it will require direction and leadership.

It is my intention to be actively involved. Over the next year, I expect to participate personally in a series of sessions with communities throughout Nebraska. The goal of these meetings will be twofold: The first is to work with local leadership in a realistic assessment of their community's strengths and weaknesses and develop a work plan for that community.

The second is to find ways to remove barriers to intergovernmental and inter-community cooperation and assistance. We must make certain that no resource goes unused.

Because these initiatives cut across so many departments and agencies, I am proposing that a new position be created in the Governor's Policy Research Office to coordinate the entire program. This will avoid duplication and overlap and insure the most efficient and effective use of state resources.

This rural emphasis has a high priority because it is imperative that we move promptly and aggressively to make certain our smaller communities share in the economic well being of Nebraska.

I have heard this message from the prairie. The state can...and must...do more to help create success stories on every main street of Nebraska.

These towns and villages represent what is best about Nebraska. They fully deserve our support and assistance. I have every confidence they will respond with enthusiasm and effectiveness.

Both in the context of a rural renaissance and economic development Nebraskans must give serious consideration to upgrading our highway system. The Department of Roads has responded to the Legislature's request for a comprehensive assessment of the state's highway needs over the next two decades.

In general, I found the results of the study to be reasonable and objective. They provide a sound basis for further discussion and consideration.

As with virtually every program of state government, the difficult decisions will revolve around the issue of how highway improvements are to be financed.

We must face the fact that Nebraska, more than most states, depends heavily on an effective and efficient highway system to sustain our economy and to continue our economic expansion. You are assured of my continuing cooperation as we develop solutions to our transportation problems.

Since its days as a territory Nebraska's primary industry has been agriculture. It will remain so into the future.

Our farmers and ranchers have faced many challenges during the past decade, the most recent, the unusually hot, dry summer in 1988. Fortunately, the drought did not severely affect the entire state. It

did remind us, however, that we must always be diligent in conserving our natural resource base. In that light, it is my hope that an even stronger partnership can be forged between state government and the natural resource districts as we seek to preserve our soil and water for generations to come.

New and expanded markets will likely continue to be the primary source of increased profits for agriculture. Therefore, I am requesting additional funding for our Department of Agriculture's Promotion and Development Division. Nebraska agriculture simply must be a major competitor in the world marketplace.

I must report to you on activities surrounding one of the more vexing issues facing state and local government, the continuing uncertainty surrounding local revenue due to the 4-R Act. My administration has been working diligently to find a remedy at the national level through the National Governor's Association and other organizations. Tax Commissioner John Boehm has testified before the Congress and continues to work with national organizations of state and local officials to bring about a solution.

Still, a solution to this problem is not imminent. My administration will continue to seek the cooperation of other states in working with Congress to find solutions which restore the states' control over their own tax systems.

This issue, together with recent Supreme Court decisions regarding ag land values, property tax relief, and state aid to education are all interrelated and inseparable issues that cannot be solved in piecemeal fashion. They must be addressed together, and meaningful solutions sought cooperatively. We must be mindful of the judgments of the Supreme Court in recent decisions and ones they may render in the future. We must be prepared to act forthrightly on recommendations presented by commissions we have jointly empowered. Even more important, we must listen to the whisper of the prairie...seek out and carefully weigh the wishes and desires of Nebraska citizens who have spoken on these issues in the past and who are certain to speak again in the future.

I am willing to work with you in fashioning a comprehensive solution to these complex issues.

Experience has taught me that working together, in a spirit of cooperation we can accomplish much. So today, I renew my pledge to listen with an open mind to your concerns, suggestions, and criticism.

As I present budget recommendations for the next two years, I want you to know how grateful I am for the cordial relationship we have enjoyed these past two years. I have great respect for each of you and the heavy responsibilities you bear.

Before I turn to specifics of the budget, let me say a word about the balance in the state treasury. There is a prudent balance at this time...as, indeed, there should be if we are to maintain fiscal stability. Each of us understands that current balances do not necessarily represent ongoing revenue and should not be used to undertake substantial new programs.

We cannot afford to fund new spending programs that cannot be sustained. Nebraska has been down that road before and has learned the tragic consequences of imprudent stewardship.

The budget I am proposing embodies two key concepts: stability and sustainability. It builds and expands on the commitments we made in the past two years to economic development and to education.

To insure that those commitments are met, I am proposing a budget of one billion, sixty-two million dollars for Fiscal Year 1989-90 and one billion, one hundred twenty-nine million for Fiscal 1990-91.

This represents an increase of 8.9 percent over the current year and of 6.3 percent the second year.

It is a budget that allows us to fulfill needs of our state that have been unmet for too long. It is a forward-looking budget, which is progressive yet prudent; responsive yet restrained.

It allows for a 3.54 percent biennial reserve of \$77.7 million, which is within the statutory reserve requirement and is within the revenue projections of the state forecasting board.

Further, as I announced recently, I will submit legislation for your approval to return to our taxpayers approximately \$18 million that resulted from changes in our tax laws in 1987. This money was not intended for use by state government and should be removed from any spending consideration.

In the last session of the Legislature we made truly remarkable progress toward improvement of our state's educational system. Today I am asking that we proceed with that task.

For the University of Nebraska I am recommending new appropriations of \$22.5 million for the first year and an additional 19.8 million for the second year of the biennium. This represents an 11.4 percent increase the first year and an additional 9 percent in the second.

Included in my proposal is funding for salary increases of 7.5 percent for each year. Four million and eight million dollars respectively have been added in each year for research initiatives.

A million and a half dollars is included for library automation. Automating and upgrading the UNL library is particularly critical for attracting and retaining quality faculty and graduate students.

These proposals are essential for long term efforts to sustain economic progress and improve quality of life in Nebraska. The recommendations of the Nebraska College of Technical Agriculture Review team are included to further develop quality programs at the Curtis campus.

Amounts requested to help solve staffing problems critical to the continued accreditation at the UNL College of Business Administration are included in my proposal, along with funds to upgrade the UNL student financial aid office.

For the State Colleges, I am recommending \$4.5 million the first year and an additional \$3 million in the second year of the biennium. This represents a 14.5 percent increase the first year and an additional 8.2 percent increase in the second. It also includes salary improvements of 7.5 percent per year.

Funds are included to increase library materials, instructional equipment, and other projects at Chadron, Kearney, Wayne, and Peru State Colleges.

I recommend that economic development or business assistance centers receive funding at the state colleges.

The State Colleges serve a vital role in providing expertise for business development in their respective areas, and these additional dollars will bring significant returns for the state's economy.

It is recommended that the Technical Community Colleges receive increased General Fund support of \$4.1 million in the first year and \$5.1 million in the second year of the biennium. This represents an increase of 17.9 percent in the first year and an additional 18.9 percent in the second year of the biennium.

This money is necessary to provide funding levels that will maintain core programs across the state. In addition, my budget recommendations include the dedication of \$300 thousand of revenue and interest earnings to the Technical Community Colleges from the Employment Securities Special Contingent Fund for employee assessment, training, and dislocated worker programs.

This will further aid economic development throughout the state. It is my recommendation the avionics program in the Western Community College area is to be given special consideration for some targeted funds.

Due to age, condition, and repair costs of the current microwave system it has become necessary to search for another means to provide statewide educational telecommunications services. The most cost effective solution is a satellite system. I am recommending funding to put such a system in place, thus continuing quality, statewide distribution of educational broadcasting. Capital construction costs will be \$1.1 million, with operating costs of \$1.2

million. It is important to note, however, that eliminating the microwave system, and its costs, could provide a payback on this investment in as few as four years.

Matching funds have been provided to the ETV Commission to allow Nebraska to participate in a federal grant demonstrating interactive instruction for secondary schools. Nebraska already is a leader in a pilot project. Matching funds will allow the state to utilize a satellite uplink to allow for distance learning in Nebraska schools and schools in 18 other states. I will give consideration to additional funding in this area only after a coordinated plan for Educational Telecommunications Services is completed.

Last year you'll recall, we increased state aid to education by approximately 9 percent. This budget continues that level for the biennium. At the same time we increase funding for Special Education by \$3.9 million in 1990, and \$9.5 million in 1991.

Availability of good books and other resource material enlightens and enriches our citizenry; so I'm recommending that funding for the Library Commission be increased in three areas.

These improved library programs will make quality information resources available to our citizens in rural and urban communities across Nebraska. These budget proposals continue Nebraska's strong commitment to education.

A \$1.3 million annual increase has been budgeted for the Natural Resources Development Fund, and \$500 thousand more for Soil and Water Conservation Funds.

I recommend that the increase in this area be earmarked for critical water quality programs, providing a concentrated effort to stop the effects of erosion and to remove harmful chemicals from our ground water supplies.

Last year this Legislature enacted a state revolving loan fund for constructing wastewater facilities. The federal government provides 80 percent of the cost, with the state responsible for the remaining share.

That cost is \$3.6 million for the biennium. A number of states are now using revenue bonds as an alternative source for obtaining their state matching funds. I would recommend that Nebraska adopt this funding concept, allowing this important environmental program to go forward.

A major increase has been provided for Medicaid services, administered by the Department of Social Services. Expansion of eligibility requirements by the federal government means more Nebraskans will receive assistance to cover the costs of nursing home and other medical care services.

Many older Nebraskans need and are entitled to our help and understanding. An additional 56.1 million dollars over the next two years will help to provide to those in need. Such care cannot be measured in financial terms alone. These commitments we gladly make to those Nebraskans who through over the years hard work and sacrifice built this great state.

Another need has to do with capital construction plans for our campuses. The focus is on basic utility repairs and improvements and related life safety code requirements.

To meet the needs at the University, my recommendation is \$5 million for the biennium.

If the University is to engage in quality research, the basic utility system requires maintenance and upgrading, simply to provide minimum necessary cooling and heating capacity along with electrical requirements.

At the State Colleges, similar funding totaling \$500 thousand is recommended. An additional 3.6 million is needed for the mechanical and electrical system repair project at Wayne State College.

Studies and recommendations by experts indicate this project must be completed as rapidly as possible.

I have also recommended \$383 thousand for planning money for the renovation of and addition to the College of Business Administration at UNL.

It is clear this project is long overdue and critical to the delivery of undergraduate and graduate programs to Nebraskans. I have, however, placed a total project cost limit of \$7.3 million from State funds on this project. If the Regents desire an expansion beyond that amount, the difference should come from non-state sources.

You are aware that we have reached voluntary agreements with our major employee unions regarding compensation and working conditions. Those contract requirements have been funded. For employees who are not members of bargaining units I am recommending salary improvements of 4 percent, beginning on July 1, 1989, and continuing next year; and based on performance further increases, ranging from 1.5 to 2.5 percent to be implemented on the employee's anniversary. A major focus of my budget recommendations relates to services for children and families.

We must work to improve the quality of care for children who cannot live in their own homes and who are the responsibility of the state, while continuing the emphasis on reuniting parents and children. Specifically, we are planning to significantly expand training programs and to strengthen support services for foster parents.

Recruitment efforts will be stepped-up to assure quality placements. I am also including \$3 million to develop community services for children in order to take advantage of the planning and development strategies that evolved in Nebraska's application for funding from the Casey Foundation. The focus will be at the community-level where children and families are appropriately served.

Further, I am submitting legislation as part of my tax cut proposal which would allow families with working parents to claim up to 25 percent of the federal income tax credit on their Nebraska tax return. Much time and effort have gone into the preparation of these proposals. Some difficult decisions had to be made---and were made.

This is a budget designed to keep Nebraska moving forward; to bring improvement to the quality of education in our state; to broaden the range of opportunities for all our citizens; and to brighten the future for our children and for our grandchildren.

These young people represent all our children and grandchildren...they are the reasons we must give them nothing but our best...the best education, the best career opportunities...the best environment in which to grow and mature.

So as you undertake the heavy responsibilities of this session, keep in mind the faces of these children and reflect on how your actions will affect not only their parents and grandparents...but the future of these boys and girls.

You have my every good wish for a most successful session, and my gratitude and that of your fellow Nebraskans for your willingness to serve us all. Thank you and may God Almighty bless each of you.

The committee escorted Governor Orr from the Chamber.

## RESOLUTION

**LEGISLATIVE RESOLUTION 5.** Introduced by Schmit, 23rd District; Chambers, 11th District.

WHEREAS, federal authorities took control of the Franklin Community Federal Credit Union on November 4, 1988, for what they described as "unsafe and unsound practices" and monetary losses; and

WHEREAS, the National Credit Union Administration placed Franklin Community Federal Credit Union into liquidation on November 11, 1988; and

WHEREAS, an estimated thirty-eight million dollars is missing, which has resulted in an ongoing, multi-pronged federal investigation; and

WHEREAS, despite Franklin Community Federal Credit Union being a federally chartered credit union, the National Credit Union Administration failed to comply with federal law by failing to require annual audits since 1984; and

WHEREAS, the failure of Franklin Community Federal Credit Union is the second largest collapse of a Nebraska financial institution in history; and

WHEREAS, Franklin Community Federal Credit Union was paid by the city of Omaha to administer a six million three hundred thousand dollar mortgage loan portfolio despite significant discrepancies in loan records, lack of current and accurate information in loan files, criticism by the federal Department of Housing and Urban Development, and the need for the city to maintain duplicate records for five hundred nineteen active loans because of known Franklin Community Federal Credit Union deficiencies; and

WHEREAS, other significant issues and matters associated with or growing out of the failure of Franklin Community Federal Credit Union and the conduct of its board of directors, advisory board, director, employees, and agents, which could involve violations of state laws, have emerged; and

WHEREAS, various local, county, state, and federal officials, agencies, boards, and commissions and various local, county, state, and federal law enforcement officials and agencies have been or are concerned with or investigating the operation, activities, and failure of Franklin Community Federal Credit Union and issues and matters arising therefrom or associated therewith, including alleged physical and sexual abuse of foster and adopted children; and

WHEREAS, in connection with the failure of Franklin Community Federal Credit Union and associated issues, a determination should be made of:

- (1) What happened;
- (2) How it happened;
- (3) Who was involved and responsible and the degree of their involvement and responsibility; and
- (4) What could or should have been done, and by whom, to prevent it; and

WHEREAS, an examination should be made of the responsibilities and activities, whether policymaking, oversight, regulatory, investigative, law enforcement, or other, as the case may be, in connection with the failure of Franklin Community Federal Credit Union and associated issues, of the following:

- (1) Office of the Governor;
- (2) Office of the Attorney General;
- (3) Department of Social Services;
- (4) Child Protective Services;
- (5) State Foster Care Review Board;
- (6) Office of the Douglas County Attorney;
- (7) Office of the Washington County Attorney;
- (8) Nebraska State Patrol, Omaha Police Department, and other affected law enforcement agencies;
- (9) To the extent feasible, the Federal Bureau of Investigation, the Internal Revenue Service, the United States Attorney, and the National Credit Union Administration; and
- (10) Any other affected agencies, boards, commissions, entities, or persons; and

WHEREAS, by appointing a special committee to address the myriad issues involved with the failure of Franklin Community Federal Credit Union and such other additional business as may come before the committee that touches upon any of the foregoing matters, persons, entities, or issues, the Legislature can develop a cohesive and comprehensive response.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

5. That one hundred thousand dollars be allocated to the special committee from Legislative Council appropriations to be used to retain special counsel and cover other necessary committee expenses.

6. That a majority of the special committee shall constitute a quorum for all purposes. A member who fails to attend three consecutive or five total committee meetings shall no longer be a member of the special committee.

7. That the Rules of the Nebraska Unicameral Legislature should be amended to permit the special committee to introduce legislative bills and resolutions at any time during the session without requiring a floor vote to allow such introduction.

8. That an interim summary report of all activities and findings of the special committee, consistent with the requirements of confidentiality and ongoing investigation, be made on July 1, 1989.

CIX-6 "(1) Any county having a population of more than three hundred thousand inhabitants may adopt a home rule charter for the county by a majority vote of the qualified electors of the county voting on the question, and when so adopted such charter may be changed or amended as provided in this section subject to the Constitution and laws of this state.

**LEGISLATIVE RESOLUTION 13CA.** Introduced by Baack, 47th District.

A Resolution to propose an amendment to the Constitution of Nebraska by amending Article III, sections 2, 3, and 4.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

Section 1. That at the general election in November 1990 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska by amending Article III, sections 2, 3, and 4, which is hereby proposed by the Legislature:

CIII-2 "The first power reserved by the people is the initiative ~~whereby~~ by which laws may be enacted and constitutional amendments adopted by the people independently of the Legislature. This power may be invoked by a petition wherein which may be signed by any individual registered to vote in the state, and in which the proposed measure shall be set forth at length. If the petition be for the enactment of a law, it shall be signed by seven percent of the registered voters of the state, and if the petition be for the amendment of the Constitution, the petition therefor shall be signed by ten percent of such registered voters.

The number of signatures of registered voters that must be affixed to a petition in order for the measure it proposes to be submitted to the voters shall be calculated as a percentage of the total number of votes cast for Governor at the general election next preceding the filing of the petition. The percentages shall be as follows:

(1) When no payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, (a) seven percent if the petition proposes the enactment of a law and (b) ten percent if the petition proposes the adoption of a constitutional amendment; and

(2) When payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, (a) fourteen percent if the petition proposes the enactment of a law and (b) twenty percent if the petition proposes the adoption of a constitutional amendment.

In all cases, the registered voters signing such petition shall be ~~so~~ distributed so as to ~~include~~ include equal at least five percent of the ~~registered voters of votes cast for Governor at the general election next preceding the filing of the petition in~~ registered voters of votes cast for Governor at the general election next preceding the filing of the petition in each of two-fifths

of the counties of the state. ~~When~~ and when thus signed, the petition shall be filed with the Secretary of State who shall submit the measure thus proposed to the ~~electors~~ registered voters of the state at the first general election held not less than four months after such petition ~~shall have been~~ is filed.

The same measure, either in form or in essential substance, shall not be submitted to the people by initiative petition, either affirmatively or negatively, more often than once in every three years. If conflicting measures submitted to the people at the same election ~~be~~ are approved, the one receiving the highest number of affirmative votes shall ~~thereby~~ become law as to all conflicting provisions. The constitutional limitations as to the scope and subject matter of statutes enacted by the Legislature shall apply to those enacted by the initiative."

CIII-3 "The second power reserved is the referendum which may be invoked; by a petition; which may be signed by any individual registered to vote in the state against any act or part of an act of the Legislature; except those making appropriations for the ~~expense~~ expenses of the state government.

The method of calculating the number of signatures of registered voters required in order to invoke the referendum to be submitted to the voters shall be the same as is provided for an initiative petition. When no payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, the percentage required shall be five percent. When payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, the percentage required shall be ten percent. or a state institution existing at the time of the passage of ~~such act.~~ Petitions invoking the referendum shall be signed by ~~not less than five percent of the~~ registered voters of the state, distributed as required for initiative petitions; and filed in the office of the Secretary of State within ninety days after the ~~Legislature at~~ legislative session during which the act sought to be referred was passed ~~shall have~~ has been adjourned sine die or for more than ninety days.

Such petition shall set out the title of the act against which the referendum is invoked and; in addition, ~~thereto;~~ when only a portion of the act is sought to be referred, the number of the section or sections or portion of sections of the act, ~~designating such portion.~~ When the referendum is thus invoked, the Secretary of State shall refer ~~the same~~ it to the ~~electors~~ registered voters for approval

or rejection at the first general election to be held not less than thirty days after the filing of such petition.

When the referendum is invoked as to any act or part of an act, other than emergency acts or those for the immediate preservation of the public peace, health, or safety, by a petition signed by ~~not less than ten percent of the registered voters of the state in the~~ percentage further provided in this section, calculated and distributed as aforesaid required for initiative petitions, it shall suspend the ~~taking effect of such act or part of an act from taking effect until the same~~ it has been approved by the electors registered voters of the state. When no payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, the percentage required shall be ten percent. When payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, the percentage required shall be twenty percent."

CIII-4 ~~"The whole number of votes cast for Governor at the general election next preceding the filing of an initiative or referendum petition shall be the basis on which the number of signatures to such petition shall be computed.~~ The veto power of the Governor shall not extend to measures initiated by or referred to the people. A measure initiated shall become a law or part of the Constitution, as the case may be, when a majority of the votes cast ~~thereon on the measure,~~ on the measure, and not less than thirty-five ~~per cent~~ percent of the total vote cast at the election at which the ~~same measure~~ measure was submitted, are cast in favor ~~thereof, of the measure~~ and shall take effect upon proclamation by the Governor which shall be made within ten days after the official canvass of such votes. The vote upon initiative and referendum measures shall be returned and canvassed in the manner prescribed for the canvass of votes for president. The method of submitting and adopting amendments to the Constitution provided by this section shall be supplementary to the method prescribed in the article of this Constitution; entitled; "Amendments" and the latter shall in no case be construed to conflict ~~herewith~~ with this section. The provisions with respect to the initiative and referendum shall be self-executing, but legislation may be enacted to facilitate their operation. All propositions submitted ~~in pursuance hereof by initiative or referendum~~ shall be submitted in a non-partisan nonpartisan manner and without any indication or suggestion on the ballot that they have been approved or endorsed by any political party or organization.

Only the title or proper descriptive words of measures shall be printed on the ballot. When and when two or more measures have the same title, they shall be numbered consecutively in the order of filing with the Secretary of State, and the number shall be followed by the name of the first petitioner on the corresponding petition.”.

Against”.

Sec. 3. That the proposed amendment, if adopted, shall be in force and take effect immediately upon the completion of the canvass of the votes, at which time it shall be the duty of the Governor to proclaim it as a part of the Constitution of Nebraska.

## CONCLUSION

FACTS

Gerald A. Conway was elected to the Nebraska Legislature on November 8, 1988, winning a majority of the votes cast, and received a certificate of election pursuant to action of the State Canvassing Board. On December 16, 1988, he received a notice of contest of election from Tore Nelson, his opponent in the election; on December 19, 1988, he received a corrected version of this letter. The contest was based on the assertion that Sen. Conway's employment as a faculty member at Wayne State College disqualified him from serving in the Legislature pursuant to several provisions of the Nebraska Constitution. Depositions were taken from both parties on December 30, 1988.

Sen. Conway was certified as elected by the Secretary of State. On January 4, 1989, the Legislature accepted the report of the Credentials Committee taking notice of section 32-1001.22, R.S.S. of Neb. 1943, which states in part that when an election is contested, the person holding the certificate of election shall exercise the duties of office until the election contest is decided.

On January 10, 1989, the Legislature adopted a motion appointing the Committee on Credentials to consider the election contest, directing it to report to the Legislature within 15 calendar days. The committee met on January 11, 1989, and, reviewed the depositions which had been taken by the parties. The committee determined that there were no significant disputes regarding the facts. Rather, the

contest raised essentially legal questions of interpretation of the Nebraska Constitution, resulting in a request by the committee to have each party submit briefs to the committee; Mr. Nelson by January 19, 1989, and Sen. Conway a response by January 24, 1989. Both briefs were timely submitted. On January 24, 1989, the Legislature adopted a motion granting the committee an extension until January 30, 1989, to fully consider the briefs before issuing its report.

The committee has duly and fully considered the contest of election, including the briefs submitted by the parties, and now files the following Report to the Legislature on the election contest for the 17th legislative district. The committee would like to here note that the briefs submitted by both parties were prompt, professional, thorough, and well-researched in presenting to the committee a discussion on the constitutional issues involved.

### FINDINGS

The committee makes the following findings:

1. The contestee, Gerald Conway, meets the eligibility requirements for a member of the Legislature as prescribed in Article III, section 8, of the Nebraska Constitution and has received the majority of votes cast at an election for the office of a member of this Legislature representing the 17th legislative district pursuant to the election laws of this state.

2. The Legislature has the sole and exclusive authority pursuant to Article III, Section 10, to decide whether a person elected to the Legislature may be seated as a member thereof.

3. The Legislature has enacted statutes providing a procedure and basis for election contests (sections 32-1001 et seq.). The Legislature and both contestants should comply with these statutes.

4. The contester, Tore Nelson, has met the jurisdictional requirements of sections 32-1001 et seq., including posting of bond and the giving of timely notice to the contestee, Gerald Conway.

5. The Legislature has jurisdiction under Chapter 32 to consider only the eligibility of the contestee, and that only one of the four grounds for challenge offered by the contester--that ground being Article III, section 9 of the Nebraska Constitution--relates to

eligibility; that section provides that "No person holding office under the authority of the United States, or any lucrative office under the authority of this state, shall be eligible to, or have a seat in the Legislature."

6. Although there is some authority to the contrary, the committee finds stronger arguments to support the proposition that employment as a faculty member at Wayne State College does not render Senator Conway ineligible to run for and have a seat in the Legislature as provided in Article III, section 9.

THEREFORE, the committee recommends that the election contest for the 17th legislative district be denied on the Article III, section 9 ground of contest and dismissed for lack of jurisdiction on the Article II, section 1, Article III, section 7, and Article III, section 16 grounds of contest.

### RATIONALE

#### I. SENATOR CONWAY HAS MET THE ELIGIBILITY REQUIREMENTS OF ARTICLE III, SECTION 8, OF THE NEBRASKA CONSTITUTION.

As a preliminary matter, the committee finds that there is no dispute that Senator Conway is a registered voter, is at least 21 years of age, and resides within the 17th legislative district, thus meeting all the eligibility requirements for membership in the Legislature as set out in Article III, section 8. He, in fact, received the majority of the votes cast at the election held for the seat from the 17th district for the Ninety-First Legislature pursuant to and in compliance with any and all election laws of the state. In addition, the State Canvassing Board certified that Senator Conway received the most votes and, as a result, he was issued a certificate of election.

#### II. THE LEGISLATURE HAS SOLE AND EXCLUSIVE AUTHORITY TO DECIDE WHETHER A PERSON ELECTED TO THE LEGISLATURE MAY BE SEATED.

Article III, section 10, of the Nebraska Constitution provides that "... the Legislature shall ... be the judge of the election, returns, and qualifications of its members".

It is a well-settled principle that constitutional provisions such as Article III, Section 10, vest in the Legislature the sole and exclusive

authority to seat its members, including the right to determine their constitutional qualifications; and the courts are precluded from intervening in or reviewing the Legislature's decision. (Article V, section 2, of the Nebraska Constitution reflects this position by excluding "election contests involving ... members of the Legislature" from the types of cases over which the Supreme Court has original jurisdiction.) The only exception to this rule is where substantial federally protected rights are involved and that exception does not appear to be applicable in this instance. A recent case discussing this principle is State v. Evans, 735 P.2d 29 (Utah 1987), in which the court applied a Utah provision comparable to Nebraska's and declined to exercise jurisdiction over a contest involving seating of a state legislator. The contest was based on a provision comparable to Nebraska's Article III, section 9.

Although there is no such similarly clear and recent enunciation in Nebraska, State ex rel. Norton v. Van Camp, 36 Neb. 91 (1893), was an early affirmation of this rule. A more recent opinion by Lancaster County District Judge Paul W. White (which is included in the 1959 collection of Attorney General's Opinions) expands on this issue in depth, reaching the same conclusion. Clearly, the Legislature is the sole judge of the contest challenging Senator Conway's right to hold a seat in this Legislature.

### III. THE LEGISLATURE AND THE CONTESTER AND CONTESTEE SHOULD COMPLY WITH SECTIONS 32-1001 et seq.

The Legislature has statutorily provided for a procedure for reviewing election contests, including contests of elections of its own members, in sections 32-1001 et seq. A letter from the Attorney General to the legislative committee reviewing the 1975 Carpenter-Nichol contest stated that strict compliance with these statutes was a jurisdictional requirement to an election contest.

In accord with that opinion, the Legislature declined to assume jurisdiction and rejected the challenge to Senator Nichol's election when it was shown that the contester, Carpenter, had failed to file a bond as was required by section 32-1001.31.

The application of that precedent to the present case will assure not only the immediate contestants but any future contestants that the Legislature will follow its own publicly established requirements governing election challenges. Compliance with the statutes'

procedural requirements assures the public that the Legislature will carry out its responsibilities in a forthright, predictable, and responsible manner and at the same time accord full due process to both the contestor and contestee.

Thus, although it is within the power of the Legislature (without review of its decision by the courts) to ignore these procedural statutes, this committee believes that consideration of precedent, fairness, and adherence to the rules of law dictate that strict compliance with sections 32-1001 et seq. by all parties including the Legislature is appropriate.

#### IV. JURISDICTION OF THE LEGISLATURE TO HEAR THE CONTEST

A review of sections 32-1001 et seq. indicates that the contestor, Nelson, has for the most part complied with these prerequisites for an election contest. However, it appears that the necessary compliance with two statutes may be questioned and thus must be addressed.

##### A. The contestor has complied with notice requirements

The first question centers around whether the contestor gave the required notice of the election contest to the contestee within the time limits prescribed in section 32-1001.06. Section 32-1001.06 provides that a person contesting an election must give written notice of the election contest to the person whose election is being contested within 40 days after the election.

Senator Conway received an initial notice on December 16, 1988, the 38th day; he received a "corrected" version on December 19, 1988, the 41st day. The second notice contained a corrected date for taking depositions.

The committee requested the assistance of the Attorney General on this technical question. The Attorney General's view which the committee accepts, is that the notice was timely given. (See attached Attorney General letter dated January 19, 1989.) The committee finds, therefore, that the contestor, Nelson, has met all the statutory requirements for an election contest pursuant to sections 32-1001 et seq.

B. The committee has statutory jurisdiction to review only the ground of challenge based on Article III, section 9.

The second question relates to section 32-1001, which sets out the available grounds for an election contest. Of these, only one--“(2) when the incumbent was not eligible to the office at the time of the election”--would appear to apply in this case.

The contestor has based his challenge of the eligibility of Senator Conway on four constitutional provisions--Article II, section 1 (separation of powers); Article III, section 7 (compensation of legislators); Article III, section 9 (holding of another lucrative office); and Article III, section 16 (conflict of interest).

The brief for the contestee, Senator Conway, notes that,

“The contestor’s brief states that the issue is whether Senator Conway can serve in the Nebraska Legislature while holding a position as a member of the faculty at Wayne State College. To be more specific, the issue is whether the Nebraska constitutional provisions cited render Senator Conway ineligible (emphasis added) to serve as a member of the Legislature while an assistant professor on the faculty of Wayne State College.”

The contestee has properly framed the issue which is to be decided. It is the committee’s view that the first sentence of Article III, section 9 which commits to the Legislature the final authority and duty to determine, the eligibility of a person to be seated as a member of the Legislature is the only provision--of the four offered by the contestor--that applies.

A review of the plain language of the four constitutional provisions indicates that only Article III, section 9, refers to eligibility (“no person... shall be eligible to ... a seat in the Legislature”). “Eligible” has been held to refer to the capacity to be elected or chosen to office, State v. Moore, 52 Neb. 770 (1897), “qualified to be chosen, legally qualified for election or appointment”, State v. Boyd, 31 Neb. 682 (1888). Eligibility refers to provisions on age, citizenship, residence,

and the holding of other offices (emphasis added). 81 CJS States, sec. 42.

The other three constitutional provisions do not address the eligibility, or capacity, of a person to be elected or to become a legislator but, rather, the positions, conflicts, or compensation a person may or may not have after becoming a legislator.

The judgment of the Legislature, in addressing this challenge based on Senator Conway's eligibility, as provided in Article III, Section 9, to a seat in this Legislature does not of itself foreclose the pursuit in some other appropriate forum of other remedies for the issues raised by the contester.

In conclusion, the committee deems the matters of separation of powers as found in Article II, section 1, pay or perquisites as found in Article III, section 7, and conflicts of interest as found in Article III, section 16, to be outside of the purview of the statutes adopted by the Legislature for hearing election contests based on the eligibility of its members.

#### V. SENATOR CONWAY IS NOT INELIGIBLE TO SERVE PURSUANT TO ARTICLE III, SECTION 9.

When applying Article III, section 9, which reads in part,

“No person holding office under the authority of the United States, or any lucrative office under the authority of this state, shall be eligible to, or have a seat in the Legislature.”

the meaning of several terms must be determined as they pertain to the present case. Specifically, what is meant by “lucrative” and “office”?

##### A. What is “lucrative”?

Clearly, the contestee's position with Wayne State College is a “lucrative” position. It is a salaried position “which yields a compensation supposed to be adequate to the services rendered and in excess of the expenses incidental” to the position. The committee finds that the position of a compensated faculty member at a Nebraska state college is “lucrative” within the meaning of Article III, section 9.

B. Is a faculty position at a state college an "office"?

The key determination that must be made when construing the term "office" as it is used in Article III, Section 9, is whether "office" is distinguishable from "employment" and, if so, which term then applies to the position of faculty member at a state college.

There have been no Nebraska cases interpreting this provision of Article III, section 9. There have been Attorney General's Opinions which merely assert, without supporting authority, that a university instructor (Attorney General's Opinions 1951-52, p. 378) or any state employee (Jan. 9, 1984 letter to Director of Personnel) cannot also be a legislator without violating Article III, section 9. The opinion on the instructor was issued in 1952 before the adoption of a 1972 constitutional amendment that struck language on which the Attorney General may have relied and neither opinion cited any authority nor made any supporting explanations on why this section would apply.

The Attorney General's Opinions do not contribute significantly to a resolution of this issue. Nor is the history of constitutional debates on this section particularly helpful, as they also discussed the provision which was later deleted in 1972.

There are numerous cases in other jurisdictions, however, interpreting constitutional provisions similar to Nebraska's Article III, section 9. Some cases have held that a teacher or faculty member cannot serve as a legislator. However, those cases can be distinguished on bases that include (1) the constitutional provision in question prohibited the legislator from holding any state office or other position or employment. (Some of those cases, in fact, recognize that a teacher does not hold an "office"); (2) the position in question was as a member of a governing board; (3) the case was based on a constitutional separation of powers provision; or (4) the case was based on a constitutional conflicts of interest provision.

On the other hand, in a case which is directly on point, Jenkins v. Bishop, 589 P.2d 770 (Utah 1980), the court interpreted a constitutional provision comparable to Nebraska's, and held that a teacher can serve as a legislator.

On the broader issue of distinguishing between an "office" and "employment", many cases have set out criteria for the determination

of whether a position is an "office". The specific tests vary, but generally they require an office to at least (1) be created by the constitution or by legislative act, (2) be vested with a portion of the sovereign power of the state, and (3) enjoy powers and duties which are performed with a certain degree of independence and without the control of a superior power, other than law.

The leading Nebraska case on defining "office", Home Savings & Loan Assn. v. Carrico, 123 Neb. 25 (1932), also reflects these criteria. "(A)public officer is an incumbent of a public office, which is the right, duty, and authority conferred by law, by which, for a given period, an individual is invested with some portion of the sovereign functions of government for the benefit of the public." In the case before us, it appears that Senator Conway's duties as a faculty member, as set out in his brief and deposition and not substantively disputed by the contester, do not require him to exercise sovereign powers of the state. While he has a degree of discretion regarding how he exercises his responsibilities, he remains under the control and supervision of others; he has a contract of employment whose terms are determined not by law but by negotiation with the Board of Trustees; and he was not required to take an oath. These factual characteristics of his position seem to be inconsistent with the generally accepted attributes of an "office" and are more characteristic of "employment".

In cases applying these criteria to teachers or faculty members, the general rule is that "a professor in a state college or university is generally not held to be a public officer, but merely an employee whose relationship is contractual in character." 15A Am.Jur.2d sec 16.

The case of Martin v. Smith, 1 N.W.2d 163 (Wisc. 1941) is a leading case in this area, holding that,

"The president of the state university was an 'employee' and not a 'public officer' ... within the provision of the constitution that no member of Congress nor any person holding any office of profit or trust under the United States ... shall be eligible to hold office of trust, profit or honor in the state".

However, the aberration from this general rule is the Nebraska case relied upon by the contester, Eason v. Majors, 111 Neb. 288 (1923), in which the court held that the term "office", when used in

statutes providing for quo warranto procedures for claiming an office, applied to a faculty position at Peru State College. The court in this case included all teachers in this term and also apparently "well-nigh any position where authority is coupled with a duty and where the duty is for a public purpose." As noted in contestee's brief, the court in Eason was evidently searching for a remedy in this particular fact situation.

Later Nebraska cases have distinguished between "office" and "employment" for other purposes and do not appear to follow such a broad application of the term "office". In fact, the Nebraska Supreme Court later held, in Greer v. Chelewskioffi, 162 Neb. 450 (1956), that "A teacher ... is not a public officer, nor is his position an office", thus indicating that it may not be appropriate to assume that Eason should be extended beyond its application to quo warranto statutes. The contestee's brief distinguishes and the contestee's brief dismisses Neeman v. Nebraska Resources Commission, 191 Neb. 696 (1974), in which the court held that a university officer is not a "state officer" in this particular instance, but it is noted that this case might still be relevant in that the court cited with approval Martin v. Smith, noted above, as authority for its conclusion.

In conclusion, although there is some early authority to indicate otherwise, it appears that the greater weight of authority is that employment as a faculty member for a state college does not amount to a "lucrative office under the authority of the state" as contemplated by Article III, section 9.

### CONCLUSION

In conclusion, the committee finds that the Legislature is the sole and final authority for judging the eligibility of its members but that in doing so, it should comply with statutory procedures where applicable. Although the contestee, Nelson, has complied with statutory jurisdictional requirements, the Legislature's statutory jurisdiction to hear election contests in this case is limited to determining the eligibility of the contestee, Sen. Conway, to a seat in the Legislature and only one of the grounds of contest--Article III, section 9-- appears to bear directly on the question of such eligibility.

In applying Article III, section 9, of the Nebraska Constitution, the Committee finds that employment of the contestee as a faculty member of Wayne State College does not clearly render him ineligible

for office as a member of this Legislature. Thus, the Committee recommends to the Legislature that the election contest for the 17th legislative district be denied on the Article III, section 9, ground of contest and dismissed for lack of jurisdiction on the Article II, section 1, Article III, section 7, and Article III, section 16, grounds of contest.

Attachment of Attorney General's Letter as per report.

January 19, 1989

Senator Jerome Warner  
Nebraska State Legislature  
Room 1000, State Capitol  
Lincoln, NE 68509

Dear Senator Warner:

This letter is in response to your correspondence of January 11, 1989, on behalf of the Credentials committee of the Legislature requesting our views as to certain matters surrounding the election contest filed against Gerald Conway by Tore Nelson. We have reviewed your letter together with the various materials enclosed therewith. In our view, the situation involving the service of two notices of election contest does not create a jurisdictional problem with the election contest filed under the pertinent Nebraska statutes.

Neb.Rev.Stat. §§32-1001 *et seq.* (Reissue 1988) contain the general statutory provisions dealing with election contests. Neb.Rev.Stat. §32-1001.06 (Reissue 1988) provides that a person contesting an election shall give notice of the election contest in writing to the person whose election he contests within 40 days after the election.

As we understand it, Senator Conway received an initial notice of the contest of his election on either December 16 or December 17, 1988. Senator Conway then received a second such notice on December 19, 1988. The second notice differed from the first in only two respects: 1) The second notice was identified as a "corrected" version, and 2) The second notice contained a different date for certain depositions. Since the second "corrected" notice was received on the 41st day following the general election and was apparently intended to replace the original document, you question whether it meets the jurisdictional requirements of §32-1001.06.

This situation appears to us to be analogous to the situation where an initial petition in a lawsuit is filed within a statute of limitations and an amended petition is subsequently filed after the statute of limitations has run. In that situation, our supreme court has indicated that the amendment to the initial pleading relates back to the time of the initial pleading if the claimant seeks recovery on the same general set of facts. Forker Solar, Inc. v. Knoblauch, 224 Neb. 143, 396 N.W.2d 273 (1986); Kohler v. Ford Motor Company, 187 Neb. 428, 191 N.W.2d 601 (1971). In a similar fashion, we believe that the "corrected" notice in this case would relate back to the original notice of election contest which was served within the proper time limits. This is particularly true since there was no change in the substantive allegations made by Mr. Nelson. The only change in the "corrected" version was a different deposition date which was created by changing one word in the second notice. Consequently, we do not believe that the situation which you described involving two notices creates a jurisdictional impediment to the election contest filed by Mr. Nelson.

Sincerely yours,  
ROBERT M. SPIRE

### ATTORNEY GENERAL'S OPINION

#### Opinion No. 89004

January 30, 1989

Senator Tim Hall  
Nebraska State Legislature  
2028 State Capitol  
Lincoln, NE 68509

Dear Senator Hall:

You state that in the 1989 legislative session you plan to introduce amendatory legislation dealing with the distribution of funds under the student financial aid program of Neb.Rev.Stat. §§85-980 to 85-9,102 (Reissue 1987). In connection therewith, you ask if the Nebraska Coordinating Commission for Postsecondary Education has authority to distribute federal SSIG funds based only on federal student grant dollar volume?

No. An award under the statutes cited is to be given "on the basis of substantial financial need." Substantial financial need, while less than precisely stated, is defined in Neb.Rev.Stat. §§85-990 (Reissue 1987).

Very truly yours,  
ROBERT M. SPIRE  
Attorney General

AM0175

1           1. Strike the original sections and all

3 sections:

4           “Section 1. The Legislature hereby finds that  
5 the state prohibits the use of smokeless tobacco  
6 products by persons under eighteen years of age and the  
7 furnishing of smokeless tobacco products to such  
8 persons. The Legislature further finds that additional  
9 restrictions are necessary to discourage the consumption  
10 of smokeless tobacco products by persons under eighteen  
11 years of age. The Legislature specifically finds that  
12 at this time there is no prohibition against persons  
13 under eighteen years of age purchasing and possessing  
14 tobacco products and that not only should there be  
15 criminal sanctions against adults providing tobacco to  
16 such persons but, as in alcohol legislation, there  
17 should be criminal sanctions against persons under  
18 eighteen years of age purchasing or possessing tobacco  
19 products. It is the further intent of the Legislature  
20 to regulate the distribution of smokeless tobacco  
21 products.

1           Sec. 2. For purposes of sections 1 to 5 of  
2 this act:

3           (1) Distribute shall mean to give smokeless  
4 tobacco products to the general public at no cost or at  
5 nominal cost or to give coupons or rebate offers with  
6 the products; and

8 loose tobacco or a flat compressed cake of tobacco that  
9 may be chewed or held in the mouth or (b) a small amount  
10 of shredded, powdered, or pulverized tobacco that may be  
11 inhaled through the nostrils, chewed, or held in the  
12 mouth.

13           Sec. 3. (1) Manufacturers, wholesalers, or  
14 retailers or their representatives shall not make as  
15 part of an advertising plan or program any promotional  
16 offer of smokeless tobacco products which requires proof  
17 of purchase of a smokeless tobacco product unless such  
18 offer carries a designation that it is not available to  
19 minors. Each promotional offer shall include on any  
20 mail-in coupon a statement requesting the purchaser to  
21 verify that the purchaser is eighteen years of age or  
22 older.

23           (2) Manufacturers, wholesalers, or retailers

24 or their representatives shall not honor mail-in  
1 requests for promotional offers of smokeless tobacco  
2 products unless appropriate efforts are made to  
3 ascertain that the purchaser is eighteen years of age or  
4 older. For purposes of this subsection, appropriate  
5 efforts to ascertain the age of a purchaser shall  
6 include, but not be limited to, a request for the  
7 purchaser's age.

8 (3) Manufacturers, wholesalers, or retailers  
9 or their representatives shall not by any means as part  
10 of an advertising plan or program distribute samples of  
11 smokeless tobacco products within a two-block radius of  
12 any premises or facilities the primary purpose of which  
13 is directed toward persons under eighteen years of age,  
14 including, but not limited to, schools, clubhouses, and  
15 youth centers.

16 (4) Manufacturers, wholesalers, or retailers  
17 or their representatives shall not distribute as part of  
18 any advertising plan or program unsolicited samples of  
19 smokeless tobacco products through a mail campaign to  
20 any person.

22 for an injunction in the district court of the county in  
23 which any violation of section 3 of this act occurs to  
24 enjoin a person from engaging in any practice which  
1 violates such section. Notice shall be given by  
2 certified mail to the person at least five days prior to  
3 the hearing on such injunction.

4 (2) The Attorney General may bring a civil  
5 action against any person violating section 3 of this  
6 act. A civil penalty shall be imposed on such person in  
7 an amount of five hundred dollars for the first offense  
8 and in an amount of not less than six hundred dollars  
9 nor more than three thousand dollars for a second or  
10 subsequent offense. Each distribution of a single  
11 package in violation of such section to an individual  
12 shall be considered a separate violation.

13 Sec. 5. No county, city, or village shall  
14 adopt any ordinance or regulation inconsistent with  
15 sections 1 to 4 of this act or sections 28-1418 and

 3 when he ~~or she furnishes shall have furnished~~ evidence  
 4 for the conviction of the person or persons selling or  
 5 giving him ~~or her~~ the cigarettes, cigars, or tobacco.

6 Sec. 7. That section 28-1419, Reissue Revised  
 7 Statutes of Nebraska, 1943, be amended to read as  
 8 follows:

9 28-1419. ~~Whoever shall sell, give or furnish,~~  
 10 Any person who sells, gives, distributes as defined in

### RESOLUTION

**LEGISLATIVE RESOLUTION 24.** Introduced by Coordsen, 32nd District; Hall, 7th District.

WHEREAS, in 1988 the Ninetieth Legislature established a Select Committee on Rural-Urban Renewal and Restoration and directed the special committee to undertake a special research effort on a comprehensive policy on rural communities; and

WHEREAS, the select committee was directed to identify and inventory rural development programs and providers in this state, and that task has been completed; and

WHEREAS, the select committee was also directed to assess rural revitalization practices in this state and other states and evaluate specific programs and practices to determine their policy implications, and that work is in progress; and

WHEREAS, the select committee was directed to develop recommendations on statewide policies for rural revitalization and restoration of rural-urban links; and

WHEREAS, the select committee has determined that, in keeping with the approval of the Legislature's New Horizons process, the task of formulating a statewide rural development strategy can best be accomplished by involving a group of rural citizens and program providers in a joint effort to create the strategy.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Executive Board of the Legislative Council reauthorize the work of the Select Committee on Rural-Urban Renewal and Restoration. The chairperson of the Agriculture Committee of the Legislature shall appoint new members to fill existing vacant positions, and all present members shall continue to serve.

2. That the select committee continue its work in the following manner:

(a) Identify and select a group of rural citizens and program providers to help the select committee formulate a sustainable rural development strategy and program;

(b) Request that members of the group of persons selected review and comment on rural development initiatives considered by the Legislature; and

(c) Direct the Legislative Research Division to evaluate specific rural development programs to determine how well they serve rural development needs identified by the select committee and its advisory group. Evaluations of all public business lending programs and public agricultural lending programs shall be completed. The review of agricultural lending shall be done in cooperation with the Agriculture Committee of the Legislature. The Legislative Research Division shall also review and participate in the Rural Development Demonstration Project of the Nebraska Private Industry Council as a means of determining the project's usefulness as a model for state program development.

3. That the select committee report its evaluation, review findings, and recommended rural revitalization strategy to the Executive Board of the Legislative Council prior to the 1990 legislative session.

4. That the select committee and its advisory group focus its efforts on developing a sustainable program of rural development which meets long-term strategies established through the Legislature's New Horizons process. The select committee is directed to consider how state actions can better support local initiatives, build strong connections between citizens in urban and rural communities of all sizes and needs, and support all rural communities in each of the state's distinct regions.

Referred to the Executive Board.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 26.** Introduced by Morrissey, 1st District.

WHEREAS, the Nebraska State Historical Society is the owner of the dredge, Meriwether Lewis; and

WHEREAS, the Nebraska State Historical Society is no longer receiving funding for the operation of the dredge, Meriwether Lewis, as a museum; and

WHEREAS, the continued operation and maintenance of the dredge, Meriwether Lewis, as a museum of Missouri River history is of economic and historical value to southeast Nebraska; and

WHEREAS, the Meriwether Lewis Foundation, Inc., a nonprofit corporation, was organized for the purpose of continuing operations of the dredge, Meriwether Lewis; and

WHEREAS, the Nebraska State Historical Society has entered into an agreement with the Meriwether Lewis Foundation, Inc., for the sale of the dredge, Meriwether Lewis; and

WHEREAS, section 82-101 R.R.S. 1943 provides that the Nebraska State Historical Society may dispose of property, real and personal, with the consent of the Legislature.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Nebraska State Historical Society is authorized to convey to the Meriwether Lewis Foundation, Inc., a Nebraska nonprofit corporation, the dredge, Meriwether Lewis, pursuant to the terms of a contract dated March 9, 1987, and the modification thereof dated January 20, 1988.

Laid over.

**LEGISLATIVE RESOLUTION 27.** Introduced by Warner, 25th District; Scofield, 49th District; Hartnett, 45th District; Schmit, 23rd District.

WHEREAS, the federal transportation trust funds are supported from federal taxes on motor fuels by highway users; and

WHEREAS, these funds are special funds collected from the highway users to be used exclusively for transportation purposes; and

WHEREAS, Congress has passed the Gramm-Rudman-Hollings Act as a means to help eliminate the federal deficit and balance the federal unified budget; and

WHEREAS, the federal transportation trust funds are included in the sequestration of funds and are being used to artificially reduce the federal deficit; and

WHEREAS, the removal of federal transportation trust funds from the federal budget would free fifteen billion dollars for transportation purposes.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Legislature strongly supports the removal of the federal transportation trust funds from the federal budget and urges the Nebraska congressional delegation to work toward such removal.

2. That a copy of this resolution be sent to each member of the Nebraska congressional delegation and that copies be made available to the press.

Laid over.

**LEGISLATIVE RESOLUTION 28.** Introduced by Warner, 25th District; Scofield, 49th District; Hartnett, 45th District; Schmit, 23rd District.

WHEREAS, a federal motor fuel tax increase to lower the federal deficit has been proposed; and

WHEREAS, such a measure would unfairly place the tax burden on states dependent on the automobile and trucking industry for the movement of people and goods; and

WHEREAS, a deficit reduction tax on motor fuel will undermine the highway user fee concept for highway improvements; and

WHEREAS, a great need still exists to continue to upgrade and replace this country's transportation infrastructure, and any tax increases on motor fuel should be dedicated to that purpose.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Legislature oppose the imposition of a federal motor fuel tax increase to achieve deficit reduction.

2. That copies of this resolution be sent to the Nebraska congressional delegation and that copies be made available to the press.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 89007

DATE: February 10, 1989

SUBJECT: Legislative Bill 633; Proposed Amendments to Neb.Rev.Stat. §17-938 (Reissue 1987) to Authorize Forfeiture or Reclamation of Burial Lots for "Non- use"

REQUESTED BY: Senator Dennis Baack  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Fredrick F. Neid, Assistant Attorney General

QUESTION: "Is LB 633 needed in order for such cemeteries to obtain title to unused gravesites or are the current provisions in Section 17-938 sufficient?"

CONCLUSION: Amendment of Neb.Rev.Stat. §17-938 (Reissue 1987) would be necessary to authorize forfeiture or reclamation of burial lots due to "non-use."

This is in response to your request for an opinion of this office concerning reclamation of burial lots. Your specific inquiry is whether Neb.Rev.Stat. §17-938 (Reissue 1987) requires amendment as provided in LB 633 to authorize reclamation of unused burial lots or gravesites.

You have indicated that the proposed bill (LB 633) addresses those cemeteries which are financed by a tax levy, levy no fees or assessments, and charge only for sale of lots and openings.

Neb.Rev.Stat. §17-938 (Reissue 1987) currently provides for forfeiture or reclamation of lots if any charges, liens, or assessments have not been paid after a period of three years. These provisions do not permit or authorize forfeiture of burial lots for "non-use" only. Accordingly, it would be necessary to amend the statute to authorize forfeiture or reclamation for these purposes.

It is appropriate to point out that changing the statute to authorize reclamation of burial lots for "non-use" would significantly change the nature of ownership of burial lots. The amendments to

Neb.Rev.Stat. §19-738 (Reissue 1987) as set forth in LB 633, in essence, means that cemetery lots would be sold for a "term of ten years" since lots would be subject to reclamation for "non-use" after a period of ten years.

Sincerely,  
**ROBERT M. SPIRE**  
 Attorney General

3 sections:

4 “Section 1. The Legislature hereby finds that  
5 the state prohibits the use of smokeless tobacco  
6 products by minors and the furnishing of smokeless  
7 tobacco products to minors. The Legislature further  
8 finds that additional restrictions are necessary to  
9 prohibit the consumption of smokeless tobacco products  
10 by minors. The Legislature specifically finds that at  
11 this time there is no prohibition against minors  
12 purchasing and possessing tobacco products and that not  
13 only should there be criminal sanctions against adults  
14 providing tobacco to minors but, as in alcohol  
15 legislation, there should be criminal sanctions against  
16 minors purchasing or possessing tobacco products. It is  
17 the further intent of the Legislature to regulate the  
18 subject matter of sections 1 to 5 of this act and  
19 sections 28-1418 and 28-1419.

20 Sec. 2. For purposes of sections 1 to 5 of  
21 this act:

1 (1) Distribute shall mean to give smokeless  
2 tobacco products to the general public at no cost or to  
3 give coupons or rebate offers with the products;

4 (2) Minor shall mean a person under eighteen

7 loose tobacco or a flat compressed cake of tobacco that  
8 may be chewed or held in the mouth or (b) a small amount

9 of shredded, powdered, or pulverized tobacco that may be  
10 inhaled through the nostrils, chewed, or held in the  
11 mouth.

12       Sec. 3. (1) Manufacturers, wholesalers, or  
13 retailers or their representatives shall not distribute  
14 samples of smokeless tobacco products as part of an  
15 advertising plan or program which require proof of  
16 purchase of a smokeless tobacco product unless such  
17 offer carries the following designation: This offer is  
18 not available to minors. Any mail-in coupon for samples  
19 of smokeless tobacco products shall include a statement  
20 requiring the purchaser to certify that the purchaser is  
21 eighteen years of age or older.

22       (2) Manufacturers, wholesalers, or retailers  
23 or their representatives may honor mail-in requests  
24 received in compliance with subsection (1) of this  
1 section for coupons redeemable for a smokeless tobacco  
2 product at retail outlets only. Any such coupon shall  
3 be redeemable only if the bearer presents identification  
4 legally recognized by the State of Nebraska confirming  
5 the bearer is eighteen years of age or older.

6       (3) Manufacturers, wholesalers, or retailers  
7 or their representatives shall not distribute as part of  
8 any advertising plan or program unsolicited samples of  
9 smokeless tobacco products or redeemable coupons for  
10 such products through a mail campaign to any person.

11       Sec. 4. (1) The Attorney General shall apply  
12 for an injunction in the district court of the county in  
13 which any violation of section 3 of this act occurs to  
14 enjoin a person from engaging in any practice which  
15 violates such section. Notice shall be given by  
16 certified mail to the person at least five days prior to  
17 the hearing on such injunction.

18       (2) The Attorney General may bring a civil  
19 action against any person violating section 3 of this  
20 act. A civil penalty shall be imposed on such person in  
21 an amount of five hundred dollars for the first offense  
22 and in an amount of not less than six hundred dollars  
23 nor more than three thousand dollars for a second or  
24 subsequent offense. Each distribution of a single  
1 package in violation of such section to an individual  
2 shall be considered a separate violation.

3       Sec. 5. No county, city, or village shall  
4 adopt any ordinance or regulation less restrictive than

5 sections 1 to 4 of this act or sections 28-1418 and

 19 ~~cigarettes, cigars or tobacco.~~

20 Sec. 7. That section 28-1419, Reissue Revised  
 21 Statutes of Nebraska, 1943, be amended to read as  
 22 follows:

23 28-1419. ~~Whoever shall sell, give or furnish,~~  
 24 Any person who sells, gives, distributes as defined in  
 1 section 2 of this act, or furnishes in any way; any  
 2 tobacco in any form whatever; or any cigarettes; or  
 3 cigarette paper; to any minor under eighteen years of  
 4 age; shall be guilty of a Class III misdemeanor for each  
 5 offense.

6 Sec. 8. If any section in this act or any  
 7 part of any section shall be declared invalid or  
 8 unconstitutional, such declaration shall not affect the  
 9 validity or constitutionality of the remaining portions  
 10 thereof.

REQUESTED BY: Senator Don Wesely, Chairperson  
Health and Human Services Committee

WRITTEN BY: Robert M. Spire, Attorney General  
Linda L. Willard, Assistant Attorney General

You have requested an opinion as to whether the provisions of LB48 of the 1989 Session are in violation of either the Commerce Clause or the First Amendment of the United States Constitution. LB48 concerns the limitation on the distribution of smokeless tobacco.

We have reviewed LB48 with the amendments submitted by your office and determined that it is not in conflict with either the Commerce Clause or the First Amendment of the United States Constitution.

We have also reviewed the amendments proposed by the Smokeless Tobacco Council as they relate to the Commerce Clause and First Amendment to the United States Constitution. We have also determined that these amendments are not in conflict with the authorities mentioned.

The United States Supreme Court decision in Central Hudson Gas and Electric Corporation v. Public Service Commission of New York, 447 U.S. 557 (1980) has been alluded to by others in support of the argument that the proposed legislation is unconstitutional. However, in Central Hudson the State had placed a total ban on all

advertising. At the time the ban was imposed, the State had an overriding state interest precipitated by a fuel shortage. After the fuel shortage had eased, the State attempted to continue the total ban on advertising based on their interest in conserving fuel and in securing fair and effective utility rates. The United States Supreme Court struck down the prohibition because the link between the advertising prohibition and the State's interest was too tenuous and the ban was more extensive than necessary to further the State's interest.

LB 48 has a stated purpose of enforcing the prohibition of smokeless tobacco use by minors. The Legislative Bill does not ban advertising of smokeless tobacco products but merely limits the distribution of free samples or the offer of coupons or rebate offers for smokeless tobacco products. The Bill has a legitimate purpose of protecting minors from the use or abuse of smokeless tobacco and makes use of a means less than a complete ban on advertisement or sale of the product.

Similar legislation is in effect in other states in relation to smokeless tobacco. Also, several States have had legislation in place for several years in the area of alcoholic beverages that is similar to the restrictions in LB 48.

Sincerely yours,  
ROBERT M. SPIRE  
Attorney General

Opinion No. 89008

DATE: February 13, 1989

SUBJECT: Whether the Central Low-Level Radioactive Waste Compact Commission is a State entity - LB 763 (1989 Session)

REQUESTED BY: Senator Spencer W. Morrissey  
District No. 1

WRITTEN BY: Robert M. Spire  
Attorney General

Linda L. Willard  
Assistant Attorney General

You have inquired whether the Central Low-Level Radioactive Waste Compact Commission (Commission) is a public body subject to the Nebraska Public Meetings Law, or an agency subject to the Administrative Procedure Act.

The Nebraska Public Meetings Law under Neb.Rev.Stat. §84-1408 et seq. (Reissue 1987) is applicable to all public bodies of the State. Public body is defined as;

(a) governing bodies of all political subdivisions of the State of Nebraska,

(b) governing bodies of all agencies, now or hereafter created by constitution, statutes, or otherwise pursuant to law, of the executive department of the State of Nebraska,

(c) all independent boards, commissions, bureaus, committees, counsels, subunits, Certificate of Need appeal panels, or any other bodies now or hereafter created by constitution, statute, or otherwise pursuant to law,

(d) all study or advisory committees of the executive department of the State of Nebraska whether having continuing existence or appointed as special committees with limited existence and,

(e) advisory committees of the bodies referred to in subdivisions (a), (b), and (c) of this subdivision. . . .

The Administrative Procedures Act §84-901 et seq. (Reissue 1987) defines agency generally to mean "each board, commission, department, officer, division, or other administrative office or unit of the state government authorized by law to make rules and regulations, . . .

The Commission exists as the result of Nebraska's entry into a compact or agreement with four other states. As such it is not a political subdivision of this State. Nor can the Commission be defined as a governing body of a state agency or a study or advisory committee of the Executive Department of the State or any other body. Nor is the Commission a unit of state government as set out in the Administrative Procedures Act. While the Commission exists as an independent commission it was formed as a result of Nebraska's entry into a multi-state compact. Therefore, it is not created by constitution or statute nor was it created by an act of Nebraska law.

Therefore it is our conclusion that the Central Low-Level Radioactive Waste Commission is not included within either the Public Meetings Law or Administrative Procedures Act of the Nebraska Statutes.

You have not asked but we would point out that, since this is an inter-state compact entered into by several states and ratified by

Congress, we have very serious concerns whether action by the Nebraska Legislature could subject the Commission to the Administrative Procedures Act, the Public Meetings Law or other state legislation.

Sincerely yours,  
ROBERT M. SPIRE

**ATTORNEY GENERAL'S OPINION**

Opinion No. 89009

DATE:

February 14, 1989

**SUBJECT:** The constitutionality of an act of the Legislature which grants a private association (1) the power to waive the commands of a statute and (2) the authority to formulate rules and regulations without designated limitations to carry out an expressed legislative purpose.

**REQUESTED BY:** Senator Howard Lamb  
Nebraska State Legislature

**WRITTEN BY:** Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

In your letter to this office under date of February 7, 1989, you inquire if the grant of authority to the Nebraska School Activities Association in section 10 of LB 183 of the Ninety-first Legislature, First Session (1989), as amended, is a constitutionally prohibited delegation of legislative authority? The same is hereinafter discussed.

The title to LB 183 recites, inter alia, that it is an act "to provide students the option of attending a school in a district other than the one in which he or she resides." The Standing Committee Amendments to LB 183 of February 1, 1989, would, inter alia, strike original section 11 and insert the following:

"Sec. 10. A student in the ninth, tenth, eleventh, or twelfth grade who transfers to an option district shall be ineligible to compete in athletic competition for ninety school days after his or her attendance in the option district begins, except that the Nebraska School Activities Association may waive the ninety-day waiting period upon appeal by the option student in accordance with the constitution and by-laws of the association. No such ineligibility shall occur when the option student returns to his or her resident school district if such student submits a cancellation form."

We have no quarrel with the Nebraska School Activities Association or the service it provides elementary and secondary schools in the State of Nebraska. It must be remembered, however, that the Nebraska School Activities Association is a private association. It is not a governmental or political subdivision of the State of Nebraska nor an agency thereof. It must also be remembered that the powers of the government of this State are divided into three distinct departments, the legislative, executive and the judicial. Neb. Const., Art. II, sec. 1. Consequently, "the legislature may not delegate to private individuals either legislative

or judicial functions.” Elliott v. Wille, 112 Neb. 86, 89, 200 N.W. 347 (1924).

If enacted into operative law, section 10 of LB 183, as amended, would grant to the Nebraska School Activities Association certain functions whereby it would be empowered to waive a statutory imposed ninety-day waiting period, in accordance with the constitution and by-laws of that association, so that certain option students may compete in athletic competition. That, in our opinion, is a constitutionally prohibited delegation of judicial and legislative power. Your inquiry is therefore answered in the affirmative.

Respectfully submitted,

19 caring for a patient, he or she may complete a  
20 significant exposure report form. A copy of the  
21 completed form shall be given by the emergency medical  
22 services provider to the health care facility and to the

4 from the patient's next of kin or legal guardian.

5 (3) If an emergency medical services provider

7 designated physician, could involve the transmission of  
8 hepatitis B or human immunodeficiency virus, the health  
9 care facility shall initiate the necessary diagnostic  
10 blood tests of the patient. If the patient or patient's  
11 representative refuses to grant consent for such test

7 provided by such sections. Such information shall not  
8 be made public upon subpoena, search warrant, discovery  
9 proceedings, or otherwise except as provided by such

 3 "Section 1. Sections 1 to 9 of this act shall  
 4 be known and may be cited as the Nursing Incentive Act.  
 5 Sec. 2. The Legislature hereby finds and  
 6 declares that there is a current and projected future  
 7 shortage of nurses in the State of Nebraska and that it  
 8 is imperative to the welfare of the state that the  
 9 number of nurses be increased due to the vital role  
 10 nurses play in providing quality health care. The  
 11 Legislature further finds and declares that there are  
 12 serious problems with recruitment and retention of  
 13 nurses in rural areas and that the state can help  
 14 alleviate the problem of maldistribution and shortage of  
 15 nurses through financial incentives for students to  
 16 study nursing and practice nursing in the State of  
 17 Nebraska following completion of their education.  
 18 Sec. 3. The purposes of the Nursing Incentive  
 19 Act shall be: (1) To establish incentives for persons  
 20 who obtain their nursing education and practice nursing  
 21 in the state; (2) to provide for the repayment of  
 1 educational expenses for nursing students who agree to

7 Health;

8 (2) Financial need shall mean the difference  
9 between the student's financial resources available,  
10 including those available from parents, a guardian, or a

12 attending the postsecondary institution. In determining  
13 whether a dependent student has financial need, such  
14 factors as serious family illness, the number of  
15 dependent children of the student's parents, the number  
16 of such dependent children attending institutions of  
17 higher learning, and such other factors as may affect  
18 the ability of the student and his or her parents to  
19 contribute to the cost of the student's education shall  
20 be considered. In determining whether an independent or  
21 self-supporting student has financial need, such factors  
22 as any serious illness in the student's family, the  
23 number of dependent children of the student, the number  
24 of such dependent children attending institutions of  
1 higher education, and such other factors as may affect  
2 the ability of the student or spouse to contribute  
3 toward the cost of the student's education shall be  
4 considered;

17 upon application to the institution in which the student  
18 is enrolled or accepted for enrollment on the basis of  
19 greatest financial need. Selections shall be made by  
20 the institution. Such agreement shall provide that the  
21 student agrees to study at an accredited postsecondary  
22 nursing program in the State of Nebraska and to engage  
23 in the practice of nursing in the State of Nebraska upon  
24 completion of the course of his or her studies. The  
1 agreement shall also provide that the student will be

2 reimbursed for the cost of nursing education for each  
3 year in which the student is engaged in the study of  
4 nursing in an amount not to exceed two thousand dollars  
5 per year for a full-time student and in an amount not to  
6 exceed one thousand dollars per year for a part-time  
7 student. The agreement shall provide that the state  
8 shall have no responsibility for reimbursement if the  
9 student does not practice nursing in the State of  
10 Nebraska as provided by the agreement.

11 Reimbursement shall be made at the end of each

19 than four years of study regardless of the amount of  
20 time engaged in the study of nursing.

21 Sec. 6. A person enrolled or accepted for  
22 enrollment in an accredited postsecondary nursing  
23 program in the State of Nebraska may also enter into an  
24 agreement to practice nursing in a rural area pursuant  
1 to this section. A student who agrees to practice in a  
2 rural area shall be eligible to receive a payment of one  
3 thousand dollars for each year he or she is a full-time  
4 student or a payment of five hundred dollars for each  
5 year he or she is a part-time student engaged in the  
6 study of nursing in the nursing program. A person may  
7 be eligible for a rural nursing incentive payment  
8 whether or not he or she otherwise participates in any  
9 other program or incentive provided by the Nursing  
10 Incentive Act. Such rural nursing incentive payment  
11 shall be made only upon proof of the full-time practice  
12 of nursing in a rural area and for at most four years of

21 sections 5 and 6 of this act shall not exceed four

22 hundred thousand dollars. To the extent possible, the  
23 Nursing Incentive Act shall be administered so that  
24 students at all nursing programs described in sections 5

3 enrollment in such nursing programs. At least five  
4 positions shall be reserved for students seeking  
5 postgraduate degrees in nursing per year, and no more  
6 than fifteen positions shall be for part-time students  
7 per year. If there are not sufficient applications from  
8 students in any such nursing program, applications shall  
9 be accepted from students in the other nursing programs  
10 on a first-come, first-served basis until the maximum  
11 number of agreements permitted by this section have been  
12 signed.

13 Sec. 8. The Nursing Incentive Fund is hereby  
14 created. The fund shall be administered by the  
15 department to carry out the purposes of the Nursing  
16 Incentive Act. The initial appropriation by the  
17 Legislature to such fund shall be sufficient to allow

## ATTORNEY GENERAL'S OPINION

Opinion No. 89010

DATE: February 21, 1989

SUBJECT: Whether the Protocol Office would be an Executive Office of the State -- LB177

REQUESTED BY: Senator Scott Moore  
Legislative District No. 24

WRITTEN BY: Robert M. Spire, Attorney General  
Linda L. Willard, Assistant Attorney General

You have inquired whether the Protocol Office which LB177 proposes to create would be an executive office pursuant to Article IV, Section 27 of the Constitution of the State of Nebraska and would thus require a two-thirds majority vote for creation. It is our determination that the proposed Protocol Office would not be an executive office as intended by the above referenced section of the State Constitution.

The Nebraska Supreme Court, on several occasions, has addressed the issue of what constitutes an Executive Office as intended in Article IV, Section 27 of the Constitution of the State of Nebraska. In State v. Marsh, 146 Neb. 750, 21 N.W.2d 503 (1946), the Nebraska Supreme Court found that the Department of Agriculture was an executive department within the meaning of the State Constitution. The court determined in Marsh that an executive office is one the duties of which are mainly to cause the laws to be executed. The court cited several laws which the Department of Agriculture had the power and duty to enforce.

In State v. Chase, 147 Neb. 758, 25 N.W.2d 1 (1946), the Court determined that the Nebraska Liquor Commission was not an executive office since it was not charged with the actual execution and enforcement of laws. The court stated:

. . . One of very important tests is that the department, if executive, has primarily to do with the political government of the state in the execution and enforcement of the law wherein the Governor is the supreme executive head.  
147 Neb. at 777-778.

In Mekota v. State Board of Equalization and Assessment, 146 Neb. 370, 19 N.W.2d 633 (1945), the court held that the "Department of Industrial Development" had been defectively established in that

it had not received the requisite two-thirds majority required to establish a new executive department. In so holding the court cited to State v. Loechner, 65 Neb. 814, 91 N.W. 874,

In State v. Loechner, *supra*, the following appears: "Ministerial offices, it is said, are those which give the officer no power to judge of the matter to be done, and which require him to obey some superior. An executive officer, in the proper sense of the term, is one whose duties are mainly to cause the laws to be executed; such as the president, the governor of a state, or the chief executive officer of a city. It pertains to the execution and enforcement of the laws by one charged with that particular duty.

146 Neb. at 382.

Further, in Sommerville v. Johnson, et al., 149 Neb. 167, 30 N.W.2d 167, (1948), the Supreme Court held that the agency created by the Merit System Act was not an executive office. The reading of the opinion in that case demonstrates that the court was influenced in reaching its conclusion by the fact that the Merit System Organization was not vested with authority to administer or enforce any laws other than the law by which the agency was created. The following language appears in the opinion:

It is evident that the Legislature here established an agency in the nature of a Civil Service Commission. It created a council to guide and direct the administration of the act . . . it is intended to promote efficiency, economy, and equality . . . in the participating agencies. It depends in part upon cooperative effort between the council, the director, and the participating agencies. It administers no law save the law by which it was created . . . it executes none of the laws of the state so far as they relate to the people generally. We think it quite clear that it does not create an executive department nor an executive state office within the meaning of the Constitutional provisions herein discussed.

In each of the Supreme Court decisions mentioned above, it appears that the one common controlling factor upon which the court relied in reaching its conclusion was whether or not the agency in question was empowered to administer and enforce pertinent general laws of the state. It appears from a reading of LB177 that the Protocol Office is intended to function in a coordinating or liaison capacity. The office is given no power to enforce the general laws of the state nor even the power to promulgate rules and regulations. It is clear from a reading of LB177 as introduced that the Protocol Office would not be an executive office as contemplated by Article IV, Section 27 of the state constitution. Therefore, a simple majority vote of the Legislature would be sufficient to create the office.

Sincerely yours,

Attorney General

### **APPROPRIATIONS COMMITTEE REPORT**

Predisbursement Plan  
for use of  
Nebraska Energy Settlement Fund

Pursuant to RRS 81-1637, the Governor submitted a predisbursement plan for use of Nebraska Energy Settlement Fund resources to the Legislature on January 20, 1989. The plan was referred to the Appropriations Committee. A hearing was held by the Appropriations Committee on February 13, 1989 at 1:30 pm. The following persons testified at the hearing:

Huston Carlyle - Nebraska Energy Office  
Bonnie Ziemann - Nebraska Energy Office  
Larry Pearce - Nebraska Energy Office  
George Verret - representing himself  
Jerry Gallantine - Nebraska State Colleges  
Bob Pazderka - University of Nebraska  
Reba White Shirt - Nebraska Indian Commission  
Teresia Chleborad - Nebraska Indian Commission  
Elizabeth Bielawski - Winnebago Tribe of Nebraska

The Appropriations Committee submits this report to the Legislature, to be considered by the Legislature as recommendations to the Nebraska Energy Office regarding the predisbursement plan and distribution of money in the Nebraska Energy Settlement Fund.

The Legislature supports the Governor in her effort to equitably reach a broad cross-section of individuals, businesses, and political subdivisions in her plan for use of the Nebraska Energy Settlement Fund, and makes the following recommendations with the intent of assisting her in this endeavor:

1. Projects funded from the Nebraska Energy Settlement Fund should be complete within themselves, and not require any supplemental general fund support during the time period the project is operational nor assume general fund pickup of the program at some future date.

2. Projects, including the demonstration loan program, should be directed toward individuals and institutions that do not have the resources to otherwise undertake needed conservation projects.

3. Funds allocated to the general public should be allocated on a need basis regardless of the specific group's original contribution to the overcharge illegally collected.

4. Projects should be designed to recognize the fact that some political subdivisions may be fiscally unable to provide either matching funds or necessary subsequent financing. Projects should be designed to minimize the fiscal impact on such political subdivisions while maximizing the potential benefit to the political subdivisions.

5. Of the projects discussed at the hearing, the Appropriations Committee would encourage consideration by the Nebraska Energy Office of the Peru State College and Chadron State College

gasification projects as being feasible and desirable uses for a portion of the reserve funds or any funds received in the future.

6. Information regarding funded projects should be disseminated so as to ensure an adequate notice of the availability of funds to all potential target areas, particularly those potential recipients without routine access to media information sources.

(Signed) Jerome Warner, Chairperson

### ATTORNEY GENERAL'S OPINION

#### Opinion No. 89011

DATE: February 27, 1989

SUBJECT: Constitutionality of LB 595, the Chemically Impaired Professionals Act; Does LB 595 involve an unconstitutional delegation of legislative authority?

REQUESTED BY: Senator Dan Lynch  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Dale A. Comer, Assistant Attorney General

You have requested our opinion on LB 595, the Chemically Impaired Professionals Act. Specifically, you question whether provisions of the bill involve an impermissible delegation of legislative authority. We believe that there are constitutional problems with various portions of the bill. Our conclusions are discussed below.

LB 595, the Chemically Impaired Professionals Act, is apparently designed to provide a procedure to deal with and rehabilitate chemically impaired health professionals as an alternative to disciplinary proceedings against their professional licenses. Under the terms of the bill, a “monitoring body” would be designated for each health profession. The monitoring body, except in certain enumerated circumstances, would monitor the evaluation, treatment and rehabilitation of health professionals who are chemically impaired from the use of alcohol or drugs. Participation in a rehabilitation program authorized by a monitoring body would result in immunity from criminal prosecution and license suspension or revocation. The Department of Health could appoint “any qualified individual or group” to be a monitoring body. Therefore, under LB 595, a monitoring body could include private individuals or private groups.

When dealing with the delegation of authority to private individuals or groups, the general rule in Nebraska is that the Legislature may not delegate to private individuals either legislative or judicial functions. Summerville v. North Platte Valley Weather Control District, 170 Neb. 46, 101 N.W.2d 748 (1960); Nickel v. School Board of Axtell, 157 Neb. 813, 61 N.W.2d 566 (1954); Elliott v. Wille, 112 Neb. 78, 200 N.W. 347 (1924). There is some authority from other jurisdictions which indicates that private persons may be employed in an administrative capacity to carry a law into effect. See, 16 C.J.S. Constitutional Law §141, p. 454. However, there are no such cases in Nebraska, and we have previously taken the position that private individuals may not exercise governmental authority. For example, in our recent Opinion No. 89009, we indicated that the Nebraska School Activities Association could not be empowered to waive certain statutory waiting periods established under LB 183. Consequently, to the extent that LB 595 would allow a delegation of legislative or judicial authority to private individuals or private groups, it is suspect.

It seems to us that several portions of LB 595 would permit the delegation of legislative or judicial authority to the private individuals or private groups which might form a monitoring body under the bill. For example, when read together, sections 22 and 25 of the bill would allow a monitoring body to agree on a rehabilitation program for a chemically impaired health professional. The agreement would be on forms approved by the Department of Health, but the particulars of the agreement would be left to the monitoring body. This appears to allow a private body to independently make agreements affecting licensing decisions. Moreover, since such an agreement includes criminal immunity, the sections would, in effect, allow a private body

to independently confer criminal immunity. In addition, section 23 of LB 595 would allow a monitoring body to independently make decisions concerning surrender or holding a professional license, and under section 30 of the bill, a monitoring body could independently restore a professional license. Finally, it appears to us that section 32(2) of LB 595 would allow a monitoring body to independently set fees for practitioners who participate in a rehabilitation program without any guidelines as to the amount of those fees. All of these provisions involve situations where a private individual or group could independently exercise legislative or judicial authority. Therefore, we believe that those provisions of the bill are impermissible.

On the basis of your opinion request letter, you apparently believe that the situation envisioned by LB 595 would be little different than that where an agency contracts with other entities to perform certain functions. However, it seems to us that having a private entity independently make decisions and exercise legislative or judicial authority is quite different than contracting for a service to be performed under the supervision and with the approval of a governmental entity.

Sincerely yours,

AM0671

1 1. Insert the following new sections:

2 "Sec. 10. That section 75-136, Reissue  
3 Revised Statutes of Nebraska, 1943, be amended to read  
4 as follows:

5 75-136. If a party to any proceeding is not  
6 satisfied with the order entered by the commission other  
7 than an order entered under sections 15 to 17 of this  
8 act, such party may appeal to the Supreme Court as  
9 provided in section 75-137 to reverse, vacate, or modify  
10 the order. In the case of an order entered under  
11 sections 15 to 17 of this act, the party may (1) seek  
12 the review of the Supreme Court as provided in section  
13 75-137 or (2) seek judicial review of the order under  
14 section 11 of this act. Subdivisions (1) and (2) of  
15 this section are mutually exclusive and the choice of  
16 either section 75-137 or section 11 of this act shall  
17 govern the appeal process.

18 Sec. 11. (1) Proceedings for review of an  
19 order entered under sections 15 to 17 of this act shall  
20 be instituted by filing a petition in the district court  
21 of Lancaster County or in the district court of the  
2 county in which the party is domiciled within thirty  
3 days after the date of the mailing of a copy of the  
4 order by the commission to the party appealing. All  
5 parties of record shall be made parties to the  
6 proceedings for review. Summons shall be served within  
7 thirty days of the filing of the petition in the manner  
8 provided for service of a summons in a civil action.  
9 The court, in its discretion, may permit other  
10 interested persons to intervene. The filing of the  
11 petition or the service of the summons upon the  
12 commission shall not automatically stay enforcement of a  
13 decision. The commission may stay enforcement of a  
14 decision, or the court may order a stay after notice to  
15 the commission of application for a stay upon such terms  
16 as it deems proper and shall require the party  
17 requesting such stay to give bond in the amount  
18 specified in the order entered under sections 15 to 17  
19 of this act and conditioned as the court directs.  
20 Within fifteen days after service of the petition or  
within such further time as the court for good cause

21 shown allows, the commission shall prepare and transmit  
22 to the court the verbatim testimony transcribed by the  
23 official stenographer, including all exhibits, which  
24 shall constitute the bill of exceptions. The pleadings,  
1 order appealed, and bill of exceptions duly certified to  
2 by the secretary of the commission shall constitute the  
3 complete record. A copy of the original order appealed,  
4 certified to be a true and correct copy by the secretary  
5 or a commissioner, shall be admitted in evidence as  
6 prima facie evidence of every fact found and that such  
7 order is prima facie just and reasonable.

8 (2) The review shall be conducted by the court  
9 without a jury on the record of the commission.

10 (3) The court may affirm the decision of the  
11 commission or remand the case for further proceedings or  
12 may reverse or modify the decision if the substantial  
13 rights of the petitioner may have been prejudiced  
14 because the decision is:

15 (a) In violation of constitutional provisions;

16 (b) In excess of the statutory authority or  
17 jurisdiction of the commission; or

18 (c) Arbitrary or capricious.

19 (4) The commission or such party shall have  
20 the right to appeal the decision of the district court  
21 to the Supreme Court under the same rules now provided  
22 by law for appeals to the Supreme Court, except that in  
23 no case shall security for such appeal be required when  
24 security is taken by the commission.

1 (5) The review provided by this section shall  
2 not be available in any case when other provisions of  
3 law prescribe the method of appeal.

10 requirements;

19 service and a copy of each such lease is filed with the  
20 commission; and

22 annual report for the preceding year with the  
23 commission. The report shall be filed on October 15,  
24 1989, and by April 30 each year thereafter. The report  
1 shall identify the transportation cooperative's members,  
2 the power units it owns, and the liability insurance  
3 coverage it maintains.

8 commission at least thirty days prior to the  
9 commencement of service to its cooperative association  
10 members.

11 (3) A cooperative association comprised of  
12 other cooperative associations may not qualify as a

13 member of a transportation cooperative for purposes of  
 14 this section.

15 (4) If a transportation cooperative operates  
 16 as a for-hire carrier in violation of this section, the  
 17 transportation cooperative shall no longer qualify to  
 18 furnish transportation service as provided in this  
 19 section and shall be subject to the penalties provided

**RESOLUTION**

**LEGISLATIVE RESOLUTION 50.** Introduced by Hefner, 19th District; Moore, 24th District; L. Johnson, 15th District; Warner, 25th District; Langford, 36th District; Beyer, 3rd District.

WHEREAS, budget cuts over the past ten years have forced the VA Medical Centers to reduce their staffs or services as a means to lower costs thereby reducing health care services for all veterans; and

WHEREAS, continued erosion of VA health care services threatens the survivability of the smaller VA Medical Centers; and

WHEREAS, with or without VA Medical Centers veterans will still need medical care and it's doubtful if medical treatment can be provided as cost effectively as the VA Medical Centers have provided such treatment throughout the years; and

WHEREAS, in 1986 the Veterans' Administration implemented additional cost-saving measures by categorizing many veterans according to their incomes or assets, with category A being those veterans whose net worths are considered modest, category B being those veterans whose net worths are considered as moderate, and

category C being those veterans who the Veterans' Administration determined could afford to partially pay for their treatment; and

WHEREAS, the government of the United States did not ask questions regarding income and assets when it asked for volunteers or when it drafted young men and women to go to war; and

WHEREAS, the reduction of health care services for our veterans has placed many veterans health insurance programs in jeopardy because veterans have always been of the understanding that they would be able to go to the VA Medical Centers for health care and planned their insurance needs accordingly; and

WHEREAS, because of the recent changes in the eligibility rules, many veterans may not discover that they have lost their eligibility for VA health care until they go to a VA Medical Center and are denied treatment; and

WHEREAS, many of these may then find it difficult, if not impossible, to obtain insurance at this stage of their lives because of their present health conditions or because of the excessive cost of health insurance; and

WHEREAS, many, if not all, VA Medical Centers have in recent weeks eliminated category C veterans from being eligible to receive medical treatment and, in some instances, are now requiring category B veterans to partially pay for the treatment they receive.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 89012

DATE: March 9, 1989

SUBJECT: Constitutionality of legislative act providing state income tax deductions for educational expenses incurred by individuals whose dependent(s) attend public or private elementary

or secondary schools in this state which are nonprofit.

REQUESTED BY: Senator Elroy M. Hefner  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

In your letter to this office under date of February 23, 1989, you inquire if LB 346 of the Ninety-first Legislature, First Session (1989), is constitutional. The same is hereinafter discussed.

If enacted into operative law, §1 of LB 346 would amend Neb.Rev.Stat. §77-2716.01 (Supp. 1988) by adding subsection (4) thereto, which is quoted below, and thus create a state income tax deduction as follows:

(4)(a) Every resident individual shall be allowed to subtract from federal adjusted gross income the actual amount paid to others for tuition, textbooks and transportation during the tax year not in excess of one thousand one hundred dollars for each dependent in grades kindergarten through six and one thousand seven hundred dollars for each dependent in grades seven through twelve attending a public or nonpublic elementary or secondary school. No deduction shall be allowed under this subsection unless the school is located in the state, is not operated for profit, does not discriminate on the basis of race, color, or national origin, and fulfills the school term requirements prescribed in section 79- 201.

(b) For purposes of this subsection:

(i) Textbooks shall mean and include books, instructional materials, and equipment used in teaching the elementary or secondary instructional program prescribed by the rules and regulations of the State Board of Education. Textbooks shall not include books, instructional materials, or equipment used in the teaching of religious tenets, doctrines, or worship or for extracurricular activities;

(ii) Transportation shall not include transportation to and from extracurricular activities; and

(iii) Dependent shall mean a person for whom the individual claims a dependency exemption on his or her federal income tax return.

Sec. 2. That original §77-2716.01, Revised Statutes Supplement, 1988, is repealed.

LB 346 would obviously create a state income tax deduction for amounts expended on three types of education-related expenditures:

tuition, textbooks and transportation.(1) The proposed state income tax deduction would be available to taxpayers whose dependents attend public schools as well as to those whose dependents attend private and parochial schools operated not for profit. The bill expressly excludes from the definition of "textbooks" any "books, instructional materials, or equipment used in the teaching of religious tenets, doctrines, or worship or for extracurricular activities." In an Opinion of the Justices to the Senate, 514 N.E.2d 353, 356 (Mass. 1987), the Supreme Judicial Court of Massachusetts had before it a proposed legislative bill almost identical to LB 346. Upon examining the statutory scheme and the anticipated functioning of that proposed legislation, the court stated:

\* \* \*. A deduction for tuition and textbook expenditures would be of little or no benefit to parents of public elementary or secondary school students. Public school students receive their education, including textbooks, from municipalities in the Commonwealth free of charge. G.L. c 71 (1986 ed). Therefore, the benefits of these proposed tax deductions would flow exclusively to those taxpayers whose dependents attend private schools and, as a result, to the private school themselves.

In our State, public school students receive their education, including textbooks, from school districts free of charge. Neb. Const., Art. VII, §1. Therefore, the benefits of the proposed tax deductions in LB 346 would flow exclusively to those taxpayers whose dependents attend private schools and, as a result, to the private schools themselves.

Neb. Const., Art. VII, §11, provides in pertinent part: "Notwithstanding any other provision in the Constitution, appropriation of public funds shall not be made to any school or institution of learning not owned or exclusively controlled by the state or a political subdivision thereof; \* \* \*." The message is bold and clear. Recognition of religious freedom is expressed in §4 of Article I of the Constitution of Nebraska and recognition of the unitary principle is expressed in §11 of Article VII of the Constitution of Nebraska by the prohibition of an appropriation under any guise to any educational institution other than the public school (with two exceptions, neither of which is pertinent to your inquiry).(2) It is clear that LB 346 involves an "appropriation of public funds" within the meaning of §11 of Article VII of the Constitution of Nebraska. The fact that the expenditure here takes the form of a tax deduction rather than a direct payment out of the State's treasury does not alter the result, for it has long been recognized that the subsidies or tax expenditures of this sort are the practical equivalent of direct government grants. See, Opinion of the Justices to the Senate, *supra*

Regan v. Taxation with Representatives of Washington, 461 U.S. 540 (1983); Committee for Pub. Educ. & Religious Liberty v. Nyquist, 413 U.S. 756 (1973). See also, Surrey, Pathways to Tax Reform (1973); and Surrey, Tax Incentives as a Device for Implementing Government Policy; A Comparison with Direct Expenditures, 83 Harv. L. Rev. 705 (1970).

Thus, the form of payment to a private school is not dispositive on the issue of whether the payment is prohibited by the Constitution. If the aid has been channeled to individual taxpayers rather than to the private school, the focus still is on the effect of the aid, not on the recipient. In other words, the "Legislature cannot do indirectly what the Constitution prohibits it from doing directly." See, United Community Services v. Omaha National Bank, 162 Neb. 786, 798, 77 N.W.2d 576, 587 (1956).

The effect of the aid in LB 346 is underscored by the fact that the proposed state income tax deduction is essentially a reimbursement for private school tuition and textbooks. The aid is not limited to benefits that are remote from the essential function of the schools, benefits such as transportation and police and fire protection. Rather, the aid provided in LB 346 would underwrite the teaching function, the school's essential enterprise. Thus, LB 346 would support the on-going maintenance of private school education.

#### Conclusion

After considering the criteria discussed above, we are of the opinion that if LB 346 were enacted into operative law, it would violate Neb. Const., Art. VII, §11, at least in so far as it authorizes a state income tax deduction for amounts expended on tuition and textbooks for students of private elementary and secondary schools. We therefore answer your question "Yes." LB 346, in our opinion, is unconstitutional.

(1) The State of Nebraska authorizes school districts to provide transportation for public school and private school students pursuant to Neb.Rev.Stat. §79-487 (Reissue 1987). The statute was held constitutional in State ex rel. Bouc v. School District of Lincoln, 211 Neb. 731, 320 N.W.2d 472 (1982), at least in part, because the legislation, as applied, does no more than provide a general program to help parents get their children, regardless of their religion, safely and expeditiously to and from school.

(2) The United States Supreme Court's decision in Mueller v. Allen, 463 U.S. 388 (1983), in which a Minnesota statute providing tax deductions for educational expenditures was held not to violate the establishment clause of the First Amendment to the United States

Constitution, need not enter our analysis. The language of Neb. Const., Art. VII, §11 is much more specific than the First Amendment.

Respectfully submitted,

**AM0815**

- 1           1. Strike the original sections and all
- 2 amendments thereto and insert the following new
- 3 sections:
- 4           "Section 1. This act shall be known and may
- 5 be cited as the Nebraska School Restructuring Act.
- 6           Sec. 2. (1) The Legislature hereby finds and
- 7 declares that:

8 (a) Global economic competition is making new  
9 demands upon the school system of the state;

10 (b) The competitiveness of the United States  
11 in the new global economy will require that schools  
12 effectively educate all students, preparing them to  
13 develop the capacity to learn new skills and tasks  
14 quickly and to apply this knowledge in creative and  
15 imaginative ways, in novel contexts, and in  
16 collaboration with others;

17 (c) The need to fundamentally restructure  
18 education to meet the challenges and opportunities of a  
19 constantly changing technological economy is recognized  
20 and endorsed by such diverse groups as the Committee for  
21 Economic Development, an organization of some eighty  
1 chief executive officers of American corporations, the  
2 Education Commission of the States, the National  
3 Education Association, the American Federation of  
4 Teachers, and the National Governors' Association;

5 (d) The restructuring of the education system  
6 is a long-term, evolving process, with the principal  
7 goal being to develop an education system that ensures  
8 that all students learn to use their minds well as a  
9 result of their education;

10 (e) The Legislature's December 1988 symposium  
11 on school restructuring revealed significant interest in  
12 restructuring among Nebraska teachers, parents,  
13 administrators, school board members, business persons,  
14 and state education policymakers and also revealed that  
15 some classrooms and schools are now engaging in  
16 restructuring in one form or another; and

17 (f) Restructuring of the state's education  
18 system is consistent with the long-term strategies  
19 identified in the New Horizons for Nebraska process,  
20 including those strategies that call for investing and  
21 not just spending for state incentives for local  
22 initiatives, for public-private partnerships, for active  
23 citizen involvement in developing visions for the  
24 future, and for the leveraging of public resources  
1 through interagency cooperation.

2 (2) It is the intent of the Nebraska School  
3 Restructuring Act to stimulate ideas and visions that go  
4 beyond the traditional models of schooling, to provide  
5 state incentives for local initiatives in the  
6 restructuring of schools, and to encourage the

7 development of public-private partnerships in  
 8 establishing and supporting reform in education.

9       Sec. 3. (1) The Legislative Council shall  
 10 organize and conduct Talking With Educators forums on  
 11 school restructuring. The purpose of the forums shall  
 12 be to provide educators, policymakers, and laypersons an  
 13 opportunity to explore the concepts and principles of  
 14 school restructuring, as well as to stimulate action on  
 15 the part of local communities that determine to  
 16 implement change in their school structures.

17       (2) At least one forum shall be conducted on a  
 18 statewide basis. While local forums will depend upon  
 19 local community interest and support, the Legislative  
 20 Council shall make the opportunity for local forums  
 21 available to as broad a geographical representation of  
 22 the state as possible.

23       (3) The Legislative Council shall receive such  
 24 assistance as is available and appropriate from the  
 1 State Department of Education in organizing the forums.  
 2 Consistent with other provisions of law, the Legislative  
 3 Council may contract for services in organizing and  
 4 conducting the forums and is encouraged to seek private  
 5 sector support in organizing and conducting the forums.

6       (4) Upon completion of the forums, the  
 7 Legislative Council shall make a report on the results  
 8 of the forums to the Legislature, the Governor, the  
 9 State Board of Education, and the State Department of  
 10 Education.

11       Sec. 4. (1) The Model School Restructuring  
 12 Program is hereby created. The program shall be  
 13 administered by the State Department of Education and  
 14 overseen by a School Restructuring Commission which is  
 15 hereby created. The purpose of the program is to  
 16 provide state incentives for local schools and school  
 17 districts to undertake school restructuring projects.

18       (2) The commission shall consist of twelve  
 19 members as follows:

20       (a) Two persons shall be appointed by the  
 21 Governor upon the recommendation of the Legislature's  
 22 Committee on Education;

23       (b) One person shall be appointed by the  
 24 Commissioner of Education as a representative of the  
 1 State Department of Education;

2       (c) One person shall be appointed by the

- 3 Governor as a representative of the Governor's office;  
4 (d) One person shall be appointed by the  
5 Governor as a representative of a local school board;  
6 (e) One person shall be appointed by the  
7 Governor as a representative of school administrators;  
8 (f) One person shall be appointed by the  
9 Governor as a representative of teachers;  
10 (g) Two persons shall be appointed by the  
11 Governor as representatives of higher education;  
12 (h) Two persons shall be appointed by the  
13 Governor as representatives of the business community;  
14 and  
15 (i) One person shall be appointed by the  
16 Governor as a representative of educational service  
17 units.
- 18 (3) Appointment of the members of the  
19 commission shall be made within thirty days after the  
20 effective date of this act and shall be confirmed by the  
21 Legislature during its next session. Vacancies on the  
22 committee shall be filled in the same manner as the  
23 initial appointments and shall be made within thirty  
24 days of the creation of such vacancy.
- 1 (4) The commission shall serve in an advisory  
2 capacity to the State Department of Education on all  
3 aspects of the program and shall:
- 4 (a) Recommend guidelines for the distribution  
5 of incentive grants under the program; and  
6 (b) Review and rank all grant applications.
- 7 (5) The commission may receive staff support  
8 from the Legislative Council, the Governor's Office of  
9 Policy Research, and the State Department of Education.
- 10 (6) The commission shall make annual reports  
11 to the Legislature, the Governor, the State Board of  
12 Education, and the State Department of Education on the  
13 program.
- 14 (7) Members of the commission shall be  
15 reimbursed for actual and necessary expenses incurred in  
16 carrying out their duties under the Nebraska School  
17 Restructuring Act. Reimbursement shall be made as  
18 provided in sections 81-1174 to 81-1177.
- 19 (8) The commission shall terminate and be  
20 dissolved effective June 30, 1991.
- 21 Sec. 5. (1) The guidelines for approving  
22 incentive grants under the Model School Restructuring

23 Program shall take into consideration:

24 (a) The results of the Talking With Educators  
1 forums;

2 (b) Local community, local school, and local  
3 school district support, including matching funds and  
4 in-kind contributions;

5 (c) The intended purposes for the expenditure  
6 of grant money under the program;

7 (d) Provisions for evaluation of project  
8 results by the grant applicant; and

9 (e) Indications of long-term, ongoing school  
10 restructuring activities independent of the incentive  
11 grant program.

12 (2) No grant shall exceed forty thousand  
13 dollars in any single school year. To the extent  
14 possible, grant recipients shall reflect the state's  
15 diversity in school size and geography. Any accredited  
16 Nebraska school or school district may apply for a model  
17 school restructuring grant. Incentive grants for school  
18 restructuring projects may be made beginning with the  
19 1990-91 school year, pursuant to appropriations for that  
20 purpose.

21 Sec. 6. The State Board of Education may  
22 waive any State Department of Education rule or  
23 regulation and the board of education of each  
24 participating school may waive any school board policy  
1 which has been identified as a barrier in any model  
2 school restructuring plan upon a showing that such rule,  
3 regulation, or policy will be a substantial impediment  
4 to success of the restructuring plan.

5 Sec. 7. (1) There is hereby appropriated  
6 \$75,000 from the General Fund for the period July 1,

### ATTORNEY GENERAL'S OPINION

Opinion No. 89013

DATE: March 7, 1989

SUBJECT: Constitutionality of Legislative Amendment  
Authorizing Selection Between Retirement Plans  
by Employees of the Nebraska Department of  
Education

REQUESTED BY: Senator Rex Haberman, Chairman  
Nebraska Retirement Systems Committee

WRITTEN BY: Robert M. Spire, Attorney General  
Fredrick F. Neid, Assistant Attorney General

This is in response to your inquiry concerning whether a legislative proposal which authorizes certain state employees to elect to not participate in the State Employees Retirement System would be constitutionally valid.

You have indicated that you are considering an amendment to Neb.Rev.Stat. § 79-1565 (Reissue 1987) which would ". . . allow individual who is a public school employee (defined in § 79-1501), who is subsequently hired by the State Department of Education, an option to remain in the School Retirement System or to become a member of the State Employees Retirement System." Neb.Rev.Stat. § 79-1565 (Reissue 1987) currently provides that employees of the Nebraska Department of Education (State school officials) employed after July 19, 1980, shall become members of the State Employees Retirement System.

Generally, legislation which creates a class of persons and further divides that class and designates different rules for these divisions have been found to be special laws and constitutionally invalid. A legislative act which confers special or exclusive privileges or

immunities to individuals is expressly prohibited by Article III, Section 18, of the Constitution of the State of Nebraska.

Whether a law is special and thereby constitutionally invalid is determined by the nature of the legislatively created class. Aschenbrenner v. Nebraska Public Power Dist., 206 Neb. 157, 291 N.W.2d 720 (1980); State ex rel. Douglas v. Marsh, 207 Neb. 598, 300 N.W.2d 181 (1980).

The class which would be created by the proposed amendment would be employees of the Department of Education who have previously been public school employees. The election to join or not join the State Employees Retirement System would be afforded only those Department of Education employees who have previously been public school employees. Similarly situated employees are excluded from the class. That is, other state employees who have previously been public school employees appear to be excluded from the class. Further, other employees of the Department of Education with prior employment experience other than as a public school employee also appear to be excluded from the class.

Since we have no knowledge as to the reasons for creating this special division or class of state employees, we are unable to determine the necessity or actual basis for the different treatment of similarly situated employees. Without this information, it is difficult to render an opinion with certainty concerning whether the class would be reasonable or whether a rational basis exists for the class.

Generally, classification is proper if the special class has some distinction from other subjects of a like general character. While we do not have sufficient information to determine the distinction, our Supreme Court has generally been supportive of legislative acts dealing with the State's various retirement systems. In upholding the validity of the State Employees Retirement Act in Gossman v. State Employees Retirement System, 177 Neb. 326, 129 N.W.2d 97 (1964), the court noted that the Act did not deal with a tax or with a regulation or invasion of the freedom of a citizen under the police, health, or welfare clauses of the Constitution. All that is required is that the classifications and the requirements have some reasonable relationship to the purposes and objectives of the Act.

If creation of the special class was deemed necessary by the Legislature to offer special inducements to attract certain employees or to meet competitive provisions of other retirement acts, it would be our conclusion that the classification would be reasonable. Accordingly, it would be our opinion that the proposed legislation which would authorize certain employees to elect to not join the State Employees Retirement Systems would not be prohibited by Article III, Section 18, of the Constitution of the State of Nebraska.

Sincerely,  
ROBERT M. SPIRE  
Attorney General

1           1. Strike original section 18 and insert the  
2 following new sections:

3           “Sec. 23. On and after July 1, 1994, the  
4 budgeted operational expenses of each high school  
5 district and Class I school district in an affiliated  
6 school system shall be certified to the county  
7 superintendent and county assessor for computation of an  
8 affiliation system tax levy. Such levy shall be  
9 computed as follows:

10           (1) If a Class I school district affiliates  
11 with only one high school district, the sum of the  
12 property tax requirements necessary to fund the budgeted  
13 operational expense of each school district, or portion  
14 thereof, shall be divided by the sum of the assessed  
15 valuation of each such school district, or portion  
16 thereof, except that only that portion of the budgeted  
17 operational expense of each school district, or portion  
18 thereof, which does not exceed the prior year’s budgeted  
19 operational expense multiplied by a factor equal to one  
20 hundred and one percent of the average county-wide  
21 growth in budgeted operational expense shall be included  
22 in such computation. The remainder of such budgeted  
23 operational expense shall be assessed to the property of  
24 such school district, or portion thereof, which exceeds  
25 such average county-wide growth level; or

26           (2) If a Class I school district affiliates  
27 with more than one high school district, then such  
28 school district’s budgeted operational expense shall be  
29 apportioned to respective portions of such Class I  
30 school district for purposes of this computation based  
31 on each portion’s assessed taxable valuation in relation  
32 to the total assessed valuation of the entire Class I  
33 school district. If a Class I school district  
34 affiliates with more than one high school district then  
35 an average district-wide affiliation system tax levy  
36 shall be computed as follows:

37           (a) The affiliation system levy applicable to  
38 each portion of Class I school district property shall  
39 be multiplied by the taxable assessed valuation of such  
40 corresponding portion of Class I school district  
41 property; and

42           (b) The tax dollar yield from all such  
43 portions of Class I school district property shall be

23 totaled and divided by the taxable assessed valuation of  
 24 the entire Class I school district to arrive at the  
 1 average district-wide affiliation system levy.

2 Sec. 24. On and after July 1, 1994, the  
 3 facilities, programs, and services of a school district  
 4 in an affiliated school system shall be open to all  
 5 students residing in every school district, or portion  
 6 thereof, which is part of such affiliated school system.  
 7 Any parent or legal guardian of a student opting to  
 8 enroll such student in a facility in another school  
 9 district within an affiliated school system other than  
 10 the school district in which such parent or legal  
 11 guardian resides shall, by January 1 of each year, to be  
 12 effective for the succeeding school year, file a notice  
 13 of intent to so enroll such student. The date for  
 14 filing the notice may, by mutual agreement of the boards  
 15 of education of the school districts involved, be  
 16 extended to any date agreed upon by such boards.

 18 Statutes Supplement, 1988, be amended to read as  
 19 follows:

### ATTORNEY GENERAL’S OPINION

#### Opinion No. 89014

DATE: March 9, 1989

SUBJECT: LB 281

REQUESTED BY: Senator Howard A. Lamb  
 Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
 David Edward Cygan,  
 Assistant Attorney General

We are in receipt of your letter requesting our counsel regarding any possible conflict of LB 281 with the current rules of evidence. LB 281 proposes that certificates of conviction for traffic infractions be afforded the status of “self-authenticating” for purposes of points

assessment and license revocations. We note that the current Rules of Evidence as enacted by the Nebraska Legislature state that the following are self-authenticating for evidentiary purposes.

(1) A document bearing a seal purporting to be that of the United States, or of any state, district, commonwealth, territory, or insular possession thereof, or the Panama Canal Zone or the Trust Territory of the Pacific Islands, or of a political subdivision, department, officer, or agency thereof, and a signature purporting to be an attestation or execution;

(2) A document purporting to bear the signature in his official capacity of an officer or employee of any entity included in subdivision (1) of this section, having no seal, if a public officer having a seal and having official duties in the district or political subdivision of the officer or employee certifies under seal that the signer has the official capacity and that the signature is genuine;

(3) A document purporting to be executed or attested in his official capacity by a person authorized by the laws of a foreign country to make the execution or attestation, and accompanied by a final certification as to the genuineness of the signature and official position (a) of the executing or attesting person, or (b) of any foreign official whose certificate of genuineness of signature and official position relates to the execution of attestation or is in a chain of certificates of genuineness of signature and official position relating to the execution or attestation. A final certification may be made by a secretary of embassy or legation, consul general, consul, vice consul, or consular agent of the United States, or a diplomatic or consular official of the foreign country assigned or accredited to the United States. If reasonable opportunity has been given to all parties to investigate the authenticity and accuracy of official documents, the judge may, for good cause shown, order that they be treated as presumptively authentic without final certification or permit them to be evidenced by an attested summary with or without final certification;

(4) A copy of an official record or report or entry therein, or of a document authorized by law to be recorded or filed and actually recorded or filed in a public office, including data compilations in any form, certified as correct by the custodian or other person authorized to make the certification, by certificate complying with subdivision (1), (2) or (3) of this section or comply with any Act of Congress or the Legislature or rule adopted by the Supreme Court of Nebraska which are not in conflict with laws governing such matters;

(5) Books, pamphlets, or other publications purporting to be issued by public authority;

(6) Printed materials purporting to be newspapers or periodicals;

(7) Inscriptions, signs, tags, or labels purporting to have been affixed in the course of business and indicating ownership, control or origin;

(8) Documents accompanied by a certificate of acknowledgment executed in the manner provided by law by a notary public or other officer authorized by law to take acknowledgments;

(9) Commercial paper, signatures thereon, and documents relating thereto to the extent provided by general commercial law; or

(10) Any signature, document, or other matter declared by Act of Congress and the laws of the State of Nebraska to be presumptively or prima facie genuine or authentic. Neb.Rev.Stat. §27-903.

The reason for the requirement that evidentiary documents are authenticated is best set forth by McCormick, Evidence 2d 557-558.

The concept of self-authentication, previously recognized by statute in the case of the certain relatively limited classes of writings noted above, is given an expanded ambit of operation by . . . Rules of Evidence for United States District Courts and Magistrates. . . . Rule 902 accords prima facie authenticity not only to those types of writings such as acknowledged writings and public records which have commonly enjoyed such treatment by statute but also to various other types of writings not previously so favored. Among these new classes of self-authenticating writings are included books, pamphlets and other publications issued by public authority, newspapers and periodicals, and trade inscriptions and labels indicating ownership, control or origin. Presumptive authenticity, as envisioned by the . . . rule, does not preclude evidentiary challenge of the genuineness of the offered writing, but simply serves to obviate the necessity of preliminary authentication by the proponent to secure admission. This common sense approach is long overdue and might well be extended to apply to all writings purporting to have a connection with the party against whom offered. The suggestion rests not only upon the proposition that the overwhelming majority of such writings will be genuine, but in addition on the superior position of the adversary to demonstrate through evidence that the purported connection of a writing with him is attributable to fraud or mistake.

The nature of documents that are "self-authenticating" are documents which have evidenced their own trustworthiness for introduction to the court by their own nature, especially when the documents "genuineness" can be easily ascertained. Further, because the proposed "self-authenticating" document operates as a rebuttable presumption in a civil proceeding, there are no due process violations. The opponent to the document can still attack the evidence if he or she considers it fraudulent or mistaken.

If the authenticity of the document can be easily ascertained then it becomes a waste of the court's time to require the keeper or the originator of the document to appear and recite the litany of foundation necessary for the introduction of the document. Since no additional information could be obtained from this testimony, the principles of judicial economy would request that the litany of foundation be omitted. Therefore, in answer to your request, we note that LB 281 does not violate any current evidence provisions nor the Due Process clause of the Fourteenth Amendment.

You have further requested our counsel in regard to the difference between a record certified by the clerk of the court and a record certified by the judge of the court. In the case of a record of conviction, the former is merely a certified copy of a record of the court. The latter, however, is a certified copy of a judgment.

Sincerely,  
ROBERT M. SPIRE  
Attorney General
