#### **ATTORNEY GENERAL'S OPINIONS**

##### Opinion No. 89015

**DATE:** March 20, 1989

**SUBJECT:** The constitutionality of an act of the Legislature which would make Kearney State College a part of the University of Nebraska system; designating its campus as the University of Nebraska at Kearney; and transferring its

governance from the State College Board of Trustees to the Board of Regents of the University of Nebraska.

REQUESTED BY: Senator Jerome Warner  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
A. Eugene Crump, Deputy Attorney General

In your letter to this office under date of February 7, 1989, you inquire if the Constitution of Nebraska prohibits the inclusion of Kearney State College in the University of Nebraska System. The same is hereinafter discussed.

Currently, Nebraska has four State Colleges. These colleges were first known as normal schools or two-year institutions of learning devoting their resources and facilities primarily to the training of teachers. A cursory review of the historical development of each is worthy of note.

In 1867, the same year that the State of Nebraska was admitted to the Union, the Legislature established a State Normal School at Peru. It was Nebraska's first normal school and the third teacher training school west of the Missouri River. In 1903 the Legislature appropriated money for the establishment of another state normal school in Central or Western Nebraska subject to certain conditions. Pursuant thereto, the City of Kearney was selected as the site thereof by the State Board of Education on September 1, 1903. The third normal school was established at Wayne in 1909 when the Legislature authorized the purchase of the property, buildings, and equipment of the Nebraska Normal College, a private institution founded in 1891. It opened as a State Normal School in September, 1910. The fourth normal school has its roots in the Chadron Congregational Academy, which was founded in 1888 to meet the needs of a pioneering community for teachers. In 1910, the State Board of Education selected Chadron as the site for a fourth State Normal School and acquired eighty acres of land that included the Academy's property.

The basic purpose of the above described normal schools was "the training and instruction of persons, both male and female, in the arts of teaching and managing schools, and in the principles and practice of the various branches of learning taught in our public schools." See, Section 7072, Revised Statutes of Nebraska 1913. The control of the four normal schools was initially placed in a statutory created board of education consisting of seven members, five of whom were

appointed by the Governor for a term of five years each, and the State Treasurer and the State Superintendent of Public Instruction, by virtue of their office, were also members of the board. See, Section 6742, Revised Statutes of Nebraska 1913. Seven years later this board was elevated to a constitutional status.

Specifically, on the eighteenth day of the 1919-1920 Constitutional Convention, Proposal Number 222 was made by delegate Wall. The proposal provided as follows:

The general government of the state normal schools located at Peru, Kearney, Wayne and Chadron, and such other normal schools as may be established by law, shall be vested, under the direction of the legislature, in a board of seven members to be styled Board of Education of State Normal Schools, six of whom shall be appointed by the Governor, one each for a term of one, two, three, four, five and six years, and thereafter one each for a term of six years, and the State Superintendent of Public Instruction who shall be a member ex-officio. The duties and powers of said board shall be prescribed by law; and the members thereof shall receive no compensation for the performance of their duties, but may be reimbursed their actual expenses incurred therein.

{Vol. 1, Proceedings of the Constitutional Convention, 1919-1920, p. 192.} {Emphasis added.} The proposal was referred to the Committee on Education.

Subsequently, the Committee on Education reported for general file Proposal Number 222, amended, as follows:

The general government of the state normal schools, as now existing, and such other normal schools as may be established by law, shall be vested, under the direction of the legislature, in a board of seven members to be styled Board of Education of State Normal Schools, six of whom shall be appointed by the Governor, one each for a term of one, two, three, four, five and six years, and thereafter {sic} one each year for a term of six years, and the State Superintendent of Public Instruction who shall be a member ex-officio. The duties and powers of said board shall be prescribed by law; and the members thereof shall receive no compensation for the performance of their duties, but may be reimbursed their actual expenses incurred therein.

{Vol. 1, Proceedings of the Constitutional Convention, 1919-1920, p. 655.} {Emphasis added.}

It is well settled law that it is permissible to consider the facts of history in determining the meaning of the language of the Constitution. State v. Sheldon, 78 Neb. 552, 111 N.W. 372 (1907). "It is also appropriate and helpful to consider, in connection with the

historical background, the evil and mischief attempted to be remedied, the objects to be accomplished, and the scope of the remedy its terms imply." State ex rel. State Railway Commission v. Ramsey, 151 Neb. 333, 341 N.W.2d 502 (1949). It is therefore proper to examine the recorded proceedings of the 1919-1920 Constitutional Convention on Proposal Number 222 and the subsequent legislative history on the amendments thereto.

#### 1920 Amendment

The recorded proceedings of the 1919-1920 Constitutional Convention discloses that on the thirty-ninth day thereof the following occurred:

MR. WALL: I move that the Committee of the Whole now proceed with the consideration of Proposal No. 222. Motion prevailed.

#### Proposal No. 222

Proposal to add a new section to Article VIII as follows: (Normal School Government.) The general government of the state normal schools located at Peru, Kearney, Wayne and Chadron, and such other normal schools as may be established by law, shall be vested, under the direction of the legislature, in a board of seven members to be styled Board of Education of State Normal Schools, six of whom shall be appointed by the Governor, one each for a term of one, two, three, four, five and six years, and thereafter one each year for a term of six years, and the State Superintendent of Public Instruction who shall be a member ex-officio. The duties and powers of said board shall be prescribed by law; and the members thereof shall receive no compensation for the performance of their duties, but may be reimbursed their actual expenses incurred therein.

MR. NYE: On behalf of the Committee on Education I desire to state that when this proposal was under consideration it was unanimous before the Committee that the Normal Schools should be recognized in the Constitution in the same manner as are the universities and public schools. We are all aware that both the universities and public schools are based upon Constitutional provisions and that the Normal Schools are based upon legislative provisions. In order to give the normal schools an equal standing with the common schools and universities it was deemed advisable to recognize them in the Constitution for the reason that the normal schools have become one of the three great departments in our educational system. They perform special purposes and special functions and teach the youth of our state so that they may become teachers in the commons schools; but that is not the only purpose of the normal schools. The normal schools, also, have a

course of study which provides the student who gets out from the high school an opportunity to review the practical subjects that he will get in after life, and these schools also provide a course of study that the boy and girl who never go to high school and cannot afford to go to the university, may go there and at a nominal price take this course of study which is best suited to them for their after life. A vast amount of money has been spent by the state in building up these normal schools, so that it was the opinion of the Committee that these normal schools, being established as they are, and performing such a useful purpose as they are performing, should be recognized in the Constitution.

In regard to the members of the normal board. We have made the number seven, that is the present number, which is composed of five who are appointed by the Governor and two ex-officio members, being the Superintendent of Public Instruction and the State Treasurer. We dropped off the State Treasurer because he has always been merely a figurehead on the board, but we left on the State Superintendent for the reason that the common schools are under the control and management of the State Superintendent, and he looks to the normal schools primarily to furnish the teachers to teach in the common schools. It is very important to have the common schools closely associated and linked together, because the one cannot exist without the other and without one the other cannot successfully progress.

I submit to the Convention this brief statement that the normal schools should be recognized as the Committee has recommended.

THE SECRETARY: There was a Committee amendment which I will read now.

“Your Committee on Education respectfully reports for general file Proposal No. 222 amended as follows, to-wit:

“(Normal School Government.) The general government of the state normal schools, as now existing, and such other normal schools as may be established by law, shall be vested, under the direction of the legislature, in a board of seven members to be styled Board of Education of State Normal Schools, six of whom shall be appointed by the Governor, one each for a term of one, two, three, four, five and six years, and thereafter one each year for a term of six years, and the State Superintendent of Public Instruction who shall be a member ex-officio. The duties and powers of said board shall be prescribed by law; and the members thereof shall receive no compensation for the performance of their duties, but may be reimbursed their actual expenses incurred therein.”

FRED A. NYE, Chairman.”

MR. NYE: The reason for making the change is simply this, that we drop out the location as it was in the original proposal, and simply inserted "The state normal schools as now existing."

It was thought advisable to do that rather than to give prominence to the particular location by Constitutional provision.

{Vol. 1, Proceedings of the Constitutional Convention, 1919-1920, pp. 746 and 747.} {Emphasis added.}

The recorded proceedings of the 1919-1920 Constitutional Convention also disclose that the method of selecting the members to serve on the proposed constitutional Board of Education of State Normal Schools was thereafter debated, including whether the members thereof should be elected by the people or be appointed by the Governor and if so, whether the appointment should be made with the advice and consent of the Senate. See, Vol. 1, Proceedings of the Constitutional Convention, 1919-1920, pp. 748 to 752. On the other hand, we have found no debate in the recorded proceedings of the 1919-1920 Constitutional Convention on the basic comments made by delegate Nye which are quoted above. The recorded proceedings of the 39th day of that Convention does reveal that at the close of the debate that day, Proposal Number 222, as amended, was reported to the Committee on Arrangement and Phraseology.

Thus, without more, the early historical background of this constitutional provision discloses that a majority of the delegates to the 1919-1920 Constitutional Convention believed that "in order to give the normal schools an equal standing with the common schools and universities it was deemed advisable to recognize them in the Constitution for the reason that the normal schools have become one of the three great departments of our educational system." This early historical background also discloses that the basic mission of the normal schools was the training of teachers. We find nothing in the recorded proceedings of the 1919-1920 Constitutional Convention or in Proposal Number 222 that would support a finding that in the event this proposal were approved by the electorate that university status could thereafter be granted to one or more normal schools by the passage of a legislative act or that the general government of one or more of the normal schools could thereafter be divested from the Board of Education of State Normal Schools and vested in some other entity by the passage of a legislative act.

As noted above, Proposal Number 222, as amended, was reported to the Committee on Arrangement and Phraseology. It was thereafter reported to the Committee of the Whole and read and passed a second and third time. Subsequently, it and forty other proposals, were submitted at a special election on September 21, 1920, at which time Proposal Number 222 was approved by the electorate. It was

then designated section 13 of Article VII of the Constitution of Nebraska.

#### 1952 Amendment

In the year 1951, the sixty-second session of the Nebraska Legislature approved LB 212, an act to submit to the electors several amendments to the Constitution of Nebraska which related to education. Included was a proposal to amend section 13 of Article VII of the Constitution of Nebraska as follows:

The general government of the state normal schools, as now existing, and such other normal schools as may be established by law, shall be vested, under the direction of the Legislature, in a board of seven members to be styled Board of Education of State Normal Schools, six of whom shall be appointed by the Governor, with the advice and consent of the Legislature, two each for a term of two, four, and six years, and two each biennium thereafter for a term of six years, and the Commissioner of Education shall be a member ex-officio. The duties and powers of the board shall be prescribed by law, and the members thereof shall receive no compensation for the performance of their duties, but may be reimbursed their actual expenses incurred therein. (Emphasis added.)

The above quoted proposal was approved by the electorate at the general election in November, 1952. It was simply a house cleaning measure made necessary by other amendments to the Nebraska Constitution subsequent to the year 1920 and to harmonize this section of the Constitution with other proposed amendments in LB 212. Specifically, it substituted the word "Legislature" for the word "senate" and the words "Commissioner of Education" for the words "State Superintendent of Public Instruction."

#### 1968 Amendment

In the year 1967, the seventy-seventh session of the Nebraska Legislature approved LB 174, an act to submit to the electors another proposal to amend to section 13 of Article VII of the Constitution of Nebraska. It provided as follows:

The general government of the state colleges as now existing, and such other state colleges as may be established by law, shall be vested, under the direction of the Legislature, in a board of seven members to be styled as designated by the Legislature, six of whom shall be appointed by the Governor, with the advice and consent of the Legislature, two each for a term of two, four, and six years, and two each biennium thereafter for a term of six years, and the Commissioner of Education shall be a member ex-officio. The duties and powers of the board shall be prescribed by law, and the members thereof shall receive no compensation for the

performance of their duties, but may be reimbursed their actual expenses incurred therein. (Emphasis added.)

The above quoted proposal was approved by the electorate at the general election in November, 1968. The reason and the meaning to be ascribed thereto is well documented in the legislative history thereof. In his filed statement of purpose, dated January 26, 1967, Senator Robinson, who introduced the proposed amendment, stated:

This bill submits to the voters a constitutional amendment which, if adopted, gives to the legislature the power to change and rename the Board of Education of State Normal Schools.

The public hearing on this proposed amendment is short and quoted below in its entirety:

Dr. Freeman Decker, State Normal Board: The name "normal school" is completely out of date, and has been a thorn in our side for a long time. We have been more concerned the last four or five years, because it makes it difficult to recruit faculty members. Normal school goes back hundreds of years. Historically, state normal schools offered one to two year courses in art of teaching. At present, few state normal schools exist; they become state colleges. We do not specify any given name, but could offer suggestions to the Legislature for a name.

Senator Harsh: Is it worth \$10,000?

Dr. Decker: It is worth more than that. When fighting to get faculty members, there are advantages to asking them to teach in teachers colleges.

Senator Elrod: Reason for allowing Legislature to name it is that this would never happen again.

Dr. Decker: Probably yes. If other changes need to be made, the Legislature can call us anything they want to.

Dr. Floyd Miller, State Commissioner of Education: I subscribe to the testimony given by Dr. Decker.

The was no opposition to this bill.

It is self-evident that this 1968 amendment to section 13 of Article VII of the Constitution of Nebraska was simply cosmetic. It renamed the former "state normal schools" as "state colleges" and granted the Legislature the authority to designate the name of their governing board. The reason for this proposal, as explained by Dr. Freeman Decker, was straight forward. When recruiting faculty members "there are advantages to asking them to teach in teachers colleges."

#### Conclusion

The legislative history of the four state colleges, Peru, Kearney, Wayne, and Chadron, is thus well documented. Their principle mission from the beginning of statehood has been the training of teachers. Consequently, we are of the firm opinion that a legislative

act which would grant university status to any or all of the existing State Colleges would be unconstitutional.

We would also note that the initial language of section 10 of Article VII of the Nebraska Constitution dealing with the government of the University of Nebraska is virtually identical to the initial language of section 13 of Article VII of the Nebraska Constitution dealing with the state colleges. Both sections provide that the "general government" of the respective institutions "shall be vested," under the direction of the Legislature, in the respective governing boards. In Board of Regents v. Exon, 199 Neb. 146, 256 N.W.2d 330 (1977), our Supreme Court discussed section 10 of Article VII of the Nebraska Constitution. The court stated,

The trial court further found that the provision that the duties and powers of the Board of Regents "shall be prescribed by law," means that the Legislature may set forth the powers and duties of the Regents. With this finding we agree but this provision must be considered with the other language of the section which requires that the general government of the University be vested in the Board of Regents. Thus, although the Legislature may add to or subtract from the powers and duties of the Regents, the general government of the University must remain vested in the Board of Regents and powers and duties that should remain in the Regents cannot be delegated to other officers or agencies.

Id. at 149, 256 N.W.2d at 332, 333. (Emphasis added). Since section 13 of Article VII is virtually identical to section 10 of Article VII, it seems to us that, by analogy, the court's language in the Exon case would apply equally to section 13 of Article VII. Based upon that case and the constitutional history discussed above, we therefore believe that the Legislature may not, by statute, divest the general government of one or more of the state colleges from the Board of Trustees of the Nebraska State Colleges and place that college(s) under the general government of the Board of Regents of the University of Nebraska. This may not be done directly by statute; nor may it be done indirectly by altering the powers and duties of the Board of Trustees so as to create the same change. On the other hand, such a change in governance might be effected if the people were to chose to amend the Nebraska Constitution.

SUBJECT: Constitutionality of legislative act that would divert income earned from the lease of school lands to the counties at the expense of the common schools.

WRITTEN BY: Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

In your letter of March 10, 1989, you have asked this office to provide you as soon as possible with an in-depth analysis of proposed legislation that would create an in lieu of tax on school lands to be paid to the county when collected equal to the amount that the land would pay in property taxes if the school lands were on the tax rolls. Due to time restraints and the press of other state business, including prosecuting or defending at this time more than 500 civil and criminal cases, it is impossible for us to do an in-depth analysis. We trust, however, the following will suffice.

Much of the law relating to school land grants is now of importance only historically, so that a detailed discussion thereof would serve little or no practical purpose. However, we deem it appropriate to set forth a short historical background and selected citations which deal with certain aspects of the subject which are of present-day importance.

It is a matter of history that the United States acquired great areas of the public domain by discovery, conquest, and purchase. Obviously, there were no federal lands within the borders of the original thirteen states when they adopted and ratified the United States Constitution. Thus, virtually all of the lands within their borders were subject to taxation, including taxation necessary for the maintenance of their public school systems. When other states were subsequently admitted into the Union, their territorial confines were "carved" from federal territories. The "public lands" owned and reserved by the United States within those territorial confines were

not subject to taxation. This reservation by the United States created a serious impediment to the "public land" states in relation to an adequate property tax base necessary to permit these states to operate and maintain essential governmental services, including the public school systems. It was in recognition thereof, i.e., in order to "equalize" the status of the newly admitted states with that of the original thirteen states, that the Congress enacted the federal land grant statutes. The specific purpose was to create a binding permanent trust which would generate financial aid to support the public school systems of the "public land" states. The nature of the Congressional land grant program was "bilateral" in effect. It constituted a solemn immunity from taxation of federal lands reserved or retained in ownership by the United States within the territorial boundaries of the newly admitted states in return for the acceptance by the states of the lands granted, to be held and administered by the states under trust covenants for the perpetual benefit of the public school systems.(1)

Section 7 of the Act to enable the people of Nebraska to form a Constitution and State Government, and for the admission of the State of Nebraska into the Union on an equal footing with the original States, provides:

And be it further enacted, That sections number sixteen and thirty-six in every township, and when such sections have been sold or otherwise disposed of by any act of congress, other lands equivalent thereto, in legal sub-divisions of not less than one quarter-section, and as contiguous as may be, shall be, and are hereby granted to said state for the support of the common schools. (Emphasis added.)

(U.S. Stat. at Large, vol. 13, p. 47). The people of Nebraska, of course, formed a Constitution and State Government and thereafter by proclamation of then President Andrew Johnson, the State of Nebraska was admitted to the Union on March 1, 1867.

A grant by Congress of land to a state for the benefit of the common schools is an absolute grant, vesting title for a specific purpose. Alabama v. Schmidt, 232 U.S. 168, 34 S.Ct. 301, 58 L.Ed.2d 555 (1914). The school land grant and its acceptance by the state constitutes a solemn compact between the United States and the state for the benefit of the state's public school system. State of Nebraska v. Platte Valley Public Power and Irrigation District, 147 Neb. 289, 23 N.W.2d 300 (1946). Hence, the State of Nebraska, as trustee of the lands and of the income therefrom, is required to administer the trust estate under rules of law applicable to trustees acting in a fiduciary capacity. State ex rel. Ebke v. Board of Educational Lands and Funds, 159 Neb. 79, 65 N.W.2d 392 (1954).

Consequently, legislation which would divert income earned from the lease of school lands to the counties at the expense of the common schools would violate section 7 of our Enabling Act and section 9 of Article VII of the Constitution of Nebraska.

Opinion No. 89017

DATE: March 16, 1989

SUBJECT: Constitutionality of LB 183, as amended - Open Enrollment Option for Nebraska Public School Students

REQUESTED BY: Senator Howard Lamb  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested our opinion concerning a portion of LB 183, as amended. Generally, LB 183 would provide an "open enrollment" option, allowing the parent or guardian of a student attending public school in Nebraska to apply to enroll the student in any school district in the state. Sections 13 and 14 of the bill, as amended, establish a mechanism to provide financial support to school districts accepting students exercising the option to enroll in a school district other than their resident district. Each resident school district is required to remit to the State Department of Education an amount equal to its annual cost per pupil for each option student attending

school in an option district. The funds received by the State Department of Education are to be remitted to the State Treasurer and credited to the "Option Support Fund." Payments are to be made from the Fund to option districts based upon the annual cost per pupil of each option district. The bill further provides that, in the event that monies available from the Option Support Fund are insufficient to cover payments to option districts based on their annual costs per pupil, the Department of Education is to advise the Legislature of such deficiency and request the Legislature to make an emergency appropriation to make such payments. The specific question you have raised for our consideration concerns whether this funding mechanism violates Article VIII, Section 1A of the Nebraska Constitution, or any other constitutional provision.

Article VIII, Section 1A, provides: "The state shall be prohibited from levying a property tax for state purposes." In construing this constitutional provision, the Nebraska Supreme Court, in State ex rel. Meyer v. Banner County, 196 Neb. 565, 244 N.W.2d 179 (1976), stated the following:

Article VIII, section 1A, first adopted in 1954, became effective in its present form in 1966. It provides: "The state shall be prohibited from levying a property tax for state purposes." Prior to 1966, there was no income or sales tax, and the principal tax source for the support of state government was a property tax, imposed by a state levy, separate and distinct from the levies imposed by counties, cities, and other political subdivisions. The amendment became effective with the adoption of an income and sales tax by the State in 1966.

The amendment, by its terms, prohibits only the State from levying a property tax, and then only for state purposes. It does not affect the use of property taxes by a county, city, or other local subdivision. Counties, cities, and other taxing subdivisions of state government have traditionally relied and still rely upon property taxes as their major source of revenue. Historically and currently the governmental activities supported by a county property tax at the time the amendment was adopted were and are serving substantial local purposes. The constitutional amendment was not intended to disturb that tax structure nor effect any change in the use of property taxation by any governmental unit except the State itself.

Id. at 567-68, 244 N.W.2d at 181.

Article VII, Section 1 of the Constitution of Nebraska provides, in part, that "{t}he Legislature shall provide for the free instruction in the common schools of this state of all persons between the ages of five and twenty-one years." In the early case of Affholder v.

State, 51 Neb. 91, 70 N.W. 544 (1897), the Nebraska Supreme Court, discussing the effect of identical language contained in a prior version of the State Constitution, stated: "What methods and what means should be adopted in order to furnish free instruction to the children of the state has been left by the constitution to the legislature." Id. at 93, 70 N.W. at 545.

Historically, the obligation and duty to raise funds for the common schools has been delegated by the Legislature to local school districts by requiring the levy of a tax on property by each county board of equalization for the benefit of the local school districts, in order to provide the funds necessary for public education. Consistent with the decision in State ex rel. Meyer v. Banner County, it is clear that the adoption of Article VIII, Section 1A, was not intended to alter or affect the use of property taxes by a county, city, or other local subdivision which had historically been imposed to support local purposes, which would, in our view, include local property taxes levied to support the education of students in the common schools in accordance with the long-standing tradition of funding compulsory free public education in Nebraska in this manner.

Upon examination of LB 183, as amended, it is apparent that the bill does not alter this historical pattern of local levies on property for purposes of raising funds for public education. No state levy of a tax on property is proposed under the bill which could be construed to contravene Article VIII, Section 1A. Rather, the bill simply provides that some portion of funds raised by levies on property in resident school districts will be sent into a general fund to be distributed by the state to provide reimbursement for costs associated with educating non-resident students attending school in an option district. This funding mechanism in no way alters the local nature of the underlying property tax levies employed to fund public education, and does not result in the imposition of any state tax on property, within the meaning of Article VIII, Section 1A. Accordingly, we conclude that LB 183, as amended, does not violate this constitutional provision.

We do, however, have some concern as to whether this proposed legislation will, in operation, violate constitutional requirements as to uniformity of taxation (Neb. Const., Art. VIII, Section 1 and U.S. Const., amend. XIV), as well as the constitutional prohibition against the commutation of taxes (Neb. Const., Art. VIII, Section 4). In this regard, we note the Nebraska Supreme Court decision in Peterson v. Hancock, 155 Neb. 801, 54 N.W.2d 85 (1952). In Peterson, the court invalidated what was known as the Blanket Mill Tax Levy Act adopted by the Legislature in 1949. In an effort to encourage

consolidation, a four mill levy was required to be levied and held in a special fund. All school districts participated the first year in distribution from the fund but, thereafter, only districts having five or more pupils were to receive distributions from the fund. Residents of districts which had less than five students were required to pay the four mill tax but received no benefits therefrom, and were also required to support their schools from the regular tax levied for their district. *Id.* at 804-806, 54 N.W.2d at 88-89. In holding the Blanket Mill Tax Levy Act unconstitutional as violative of Article VIII, Section 4, of the Nebraska Constitution, the court stated:

The only conclusion that can logically be drawn is that districts having less than five pupils are required to pay the blanket levy on all their property into the fund for the sole benefit of districts with five or more pupils. As a result, the regular school district taxes in such districts are thereby released, discharged, or commuted at the expense of districts having less than five pupils, who are required not only to pay the blanket tax levy in full to others without any benefit to them, but also to pay all regular school taxes required to maintain the school in their own respective districts.

*Id.* at 812, 54 N.W.2d at 92.

In addition, the court in Peterson found the Act to violate Article VIII, Section 1, stating: “{T}he blanket mill levy tax is also discriminatory as one levied upon one district of the county for the exclusive benefit and local purpose of other districts and that it is not levied uniformly and proportionately.” *Id.* at 813-14, 54 N.W.2d at 93.

Furthermore, in a prior decision, High School District v. Lancaster County, 16 Neb. 147, 82 N.W. 380 (1900), the court declared invalid an act which provided that students from a district without a high school were to be admitted to any high school district in the county upon payment of 75 cents a week per pupil to the receiving district by the district from which the students came. The act was challenged on the basis that the payment was arbitrary and violated the constitutional rule of uniformity and the prohibition against commutation of taxes. In declaring the act invalid, the court stated:

We quite agree with counsel for plaintiff that, under this act, the county is the proper unit of taxation; but we have already shown that, in the event the cost of tuition should exceed or fall below the amount provided by section 3 of the act to be raised by taxing the property of the whole county, it would indirectly violate the rule of uniformity prescribed in section 6 of the article of the constitution named. It would also violate section 4 of said article, as an advantage would accrue to the taxpayers resident in the one

or the other of the two portions of the county affected thereby, and it would clearly be a commutation of the taxes to be paid by the taxpayers resident in the one or the other of the two localities. It may be true that such commutation would be brought about indirectly, that is, in case the cost of tuition exceeded the amount provided to be paid by the general tax upon the whole county, the taxpayers resident within the school district would be compelled to supply the deficiency by another levy upon the property within such district, whence it would follow that the difference would be a commutation in favor of those portions of the county outside the district; or, in case the cost of tuition should fall below the specified amount, the taxpayers within the limits of the district would profit at the expense of those without its limits; and it is clear that in either event a commutation of taxes would result.

Id. at 819-20, 82 N.W. at 382.

The decisions in Peterson v. Hancock and High School District v. Lancaster County are consistent with other Nebraska cases establishing that it is a violation of constitutional requirements providing for uniformity of taxation and forbidding commutation of taxes to compel taxpayers of one taxing district to pay taxes which are for the sole benefit of citizens in another taxing district. See also Wilkinson v. Lord, 85 Neb. 136, 122 N.W. 699 (1909) Peterson v. Anderson, 100 Neb. 149, 158 N.W. 1055 (1916). An examination of LB 183 reveals that, in operation, this legislation may violate the principle of uniformity of taxation and may result in unlawful commutation of taxes to the extent the taxpayers in option school districts may be compelled to pay additional taxes to support the education of students from outside the option district in the event the option district is not reimbursed the actual cost of providing such education. In this regard, it should be noted that Section 14 of the bill, as amended, provides that if payments made to the Option Support Fund are insufficient to cover payments required to be made to reimburse option districts, the State Department of Education “. . . shall advise the Legislature and request an emergency appropriation to make such payments.” (Emphasis added). In the event the Legislature does not grant such a request and appropriate funds to cover any deficiency in the Option Support Fund, it appears inevitable that taxpayers in option districts receiving payments which are insufficient to pay for any increased costs incurred in educating option students will be subjected to increased property tax levies in order to pay for the additional unreimbursed costs incurred by the option district. To the extent taxpayers in option districts may thus be compelled to pay additional taxes to support the education of non-resident students attending school in the option district, such a

situation may violate the principle of uniformity, and may operate to release or discharge taxpayers of the district in which the option student resides from a portion of the tax obligation imposed for the education of students from the resident district. Such a result would conflict with the principle enunciated in Peterson v. Hancock and High School District v. Lancaster County that it is unlawful to compel taxpayers in one district to pay taxes for the benefit of citizens in another taxing district.

In pointing out this potential constitutional defect, we note that we are not suggesting that LB 183, as amended, is unconstitutional on its face. Rather, we draw your attention to this issue to illustrate that, in application, the bill could conceivably operate in violation of certain constitutional provisions in the manner discussed. It should be noted that the constitutionality of an act is not to be determined by what has been or possibly may be done under it, but is to be adjudged by what the law authorizes to be done under and by virtue of its provisions. Bachus v. Swanson, 179 Neb. 1, 136 N.W.2d 189 (1965). Therefore, we believe a serious constitutional question may arise to the extent that the implementation of LB 183, as amended, may result in violations of the constitutional requirement of uniformity of taxation and the prohibition against the commutation of taxes in the event the effect of the bill is to create such a situation in relation to particular school districts impacted by its operation.

Very truly yours,

### ATTORNEY GENERAL'S OPINION

#### Opinion No. 89018

DATE: March 20, 1989

SUBJECT: LR 2CA - Proposed Constitutional Amendment to Except Agricultural Land from the Uniformity Requirement

REQUESTED BY: Senator Rod Johnson  
Nebraska State Legislature

WRITTEN: Robert M. Spire, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested our opinion on several questions relating to LR 2CA. Generally, this proposed constitutional amendment would amend Article VIII, Section 1, of the Nebraska Constitution, to permit the Legislature to establish agricultural and horticultural land as a separate and distinct class of property for tax purposes which may be excepted from the uniformity requirement contained in this constitutional provision. Specifically, the bill would amend Article VIII, Section 1, to provide, in pertinent part, as follows:

The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, except that:

\* \* \*

(2) the Legislature may provide that agricultural land and horticultural land, as defined by the Legislature, shall constitute a separate and distinct class of property for purposes of taxation and may provide for a different method of taxing agricultural land and horticultural land which results in values which are not uniform or proportionate (a) with other classes of property or (b) within the class of agricultural and horticultural land.

As you note in your request letter, some of the questions you have asked concerning this proposed amendment were addressed in an opinion issued by this office during the previous legislative session discussing the provisions of LR 249CA. Attorney General Opinion No. 88027, March 25, 1988. While the amendments and issues presented are similar, we will nevertheless endeavor to specifically address each of your present questions involving LR 2CA.

QUESTION NO. 1: Is it constitutionally permissible to classify agricultural and horticultural land as a separate and distinct class of property for tax purposes, and to use a method to determine the value of agricultural and horticultural property for tax purposes which is different from that used for other taxable property?

RESPONSE: In Banner County v. State Board of Equalization and Assessment, 226 Neb. 236, 411 N.W.2d 35 (1987) {"Banner County"}, the Nebraska Supreme Court stated that the adoption of amendment four in 1984 (permitting the Legislature to establish agricultural land as a separate and distinct class of property for tax purposes) did not exempt agricultural land from the requirement of uniformity of taxation in relation to all other tangible property, as mandated by Article VIII, Section 1, of the Nebraska Constitution. The court specifically noted that amendment four permitted ". . . agricultural property to be treated as a separate class for purposes of property tax." Id. at 252, 411 N.W.2d at 45. In discussing the effect of this amendment, the court noted that the language of amendment four, while permitting the Legislature to separately classify agricultural and horticultural land for tax purposes, did not eliminate the requirement of uniformity of taxation of such property in relation to other tangible property. In this regard, the court stated:

The uniformity clause requires that all tangible property be taxed uniformly and proportionately, while amendment four merely permits the Legislature to place agricultural land in a separate class for tax purposes, permitting the valuation of such land by a different method. . . . {A} amendment four permitted the Legislature to classify property as a separate class, but the uniformity clause required the Legislature to treat that class in a uniform manner with other tangible property.

Id. at 253, 411 N.W.2d at 46.

Accordingly, it is apparent that the court's decision in Banner County should not be construed as precluding the separate classification of agricultural land for tax purposes; rather, the opinion reveals the court did not view the language of amendment four as indicative of an intent to eliminate the requirement of uniformity in relation to the taxation and valuation of agricultural land and all other tangible property. The question which remains, then, is whether, if agricultural land is established as a separate and distinct class of property for tax purposes, it is constitutionally permissible to value and tax such property in a manner different than that employed to value other property subjected to taxation.

In Banner County, the court indicated some concern as to whether a state constitutional amendment permitting agricultural land to be taxed differently than other land utilized to produce income would violate the equal protection clause of the United States Constitution. 226 Neb. at 255, 411 N.W.2d at 47. In raising this concern, the court cited the United States Supreme Court decision in Sioux City Bridge Co. v. Dakota County, 260 U.S. 441 (1923), in which the Court held that the failure to provide a taxpayer with equal tax treatment in accordance with the state constitutional requirement of uniform taxation resulted in a violation of the due process and equal protection guarantees contained in the Fourteenth Amendment of the United States Constitution. In view of the Nebraska Supreme Court's reference to this issue in the Banner County case, it is possible that, if presented with a question as to the validity of a constitutional provision permitting unequal treatment among owners of agricultural land and owners of other real property, the court may conclude that such disparate treatment would violate the guarantees of due process and equal protection of the law under the federal constitution.

Various decisions concerning the validity of state taxation under the equal protection clause have upheld the classification of property for tax purposes, provided the distinctions drawn by virtue of such classification schemes rest upon some difference that bears a rational and reasonable relationship to the object of the act. F. S. Royster Guano Co. v. Virginia, 253 U.S. 412 (1920). Indeed, this principle was reaffirmed in the recent United States Supreme Court decision in Allegheny Pittsburgh Coal Co. v. County Commission of Webster County, 488 U.S. \_\_\_\_\_, 102 L.Ed.2d 688, 109 S.Ct. 633, (1989), in which the Court stated the following:

The States, of course, have broad powers to impose and collect taxes. A State may divide different kinds of property into classes and assign to each class a different tax burden so long as those divisions and burdens are reasonable. Allied Stores, supra, at 526-527 ("The State may impose different specific taxes upon

different trades and professions and may vary the rate of excise upon various products"). It might, for example, decide to tax property held by corporations, including petitioners, at a different rate than property held by individuals. See Lehnhausen v. Lake Shore Auto Parts Co., 410 U.S. 356 (1973) (Illinois ad valorem tax on personalty of corporations.) In each case, "{i}f the selection or classification is neither capricious nor arbitrary, and rests upon some reasonable consideration of difference or policy, there is no denial of the equal protection of the law." Brown-Forman Co. v. Kentucky, 217 U.S. 563, 573 (1910).

Id. at \_\_\_\_\_, 102 L.Ed.2d at 697-98, 109 S.Ct. at 638. (Footnote omitted).

Courts from various jurisdictions have upheld the validity of legislative classifications of property for tax purposes based on the use of the property against challenges asserting such classification schemes violated the equal protection clause. Howell v. Malone, 388 So. 2d 908 (Ala. 1980); Holzwasser v. Brady, 262 S.C. 481, 205 S.E.2d 701 (1974). A number of states have adopted either constitutional or statutory provisions allowing the classification of real property for tax purposes, Note, Classification of Real Property for Tax Purposes in Illinois - Hoffman v. Clark, 28 DePaul L. Rev. 849, 849 n. 9 (1979), and many states specifically provide for the separate classification of agricultural land for tax purposes. Note, Separate Property Tax Classification for Agricultural Land: Cure or Disease?, 64 Neb. L. Rev. 313, 315 n. 9 (1985). Specifically, the validity of providing different tax treatment for agricultural property has been upheld against challenges brought on equal protection grounds. See, e.g., Weisinger v. White, 733 F.2d 802 (11th Cir. 1984); Great Northern Ry. Co. v. Whitfield, 65 S.D. 173, 272 N.W. 787 (1937); See Comment, Preferential Assessment of Agricultural Property in South Dakota, 22 S.D.L.Rev. 632 (1977) See generally Annot, 98 A.L.R.3d 916, 928-29 (1980).

The general rule regarding the validity of providing special treatment of agricultural land for tax purposes is stated in 3 Am.Jur.2d Agriculture §9 (1986) as follows:

In an agricultural state it is reasonable for the legislature to offer inducements to agriculture through tax laws. Although it is generally held, in jurisdictions with constitutions that require taxes to be uniform, that an exemption of agricultural land from taxation results in an unconstitutional discrimination, if a separate classification of agricultural lands for tax purposes is not prohibited, or if it is specifically authorized by constitutional provisions, land devoted to agricultural purposes may properly be given the benefit of a lighter tax burden than that imposed on

other land or even exempted altogether from certain taxes. Among other reasons, the state's power to offer inducements to agriculture and to improve a depressed economic condition of that industry is held to justify the discrimination in favor of agricultural lands.

Furthermore, it has been suggested that different or preferential tax treatment of agricultural land is justified based on the unique nature of agri-business and concern over land use and the environment. In particular, the high-risk character and high outlay, low income nature of farming provides a valid and rational basis for establishing protective tax treatment for agricultural land, especially in a state like Nebraska, where agriculture is the principle industry in the state. Comment, Nebraska's "Mysterious" New Tax Valuation System: LB 271, the Agricultural Land Valuation Law, 19 Creighton L.Rev. 623, 628 (1986).

In Stahmer v. State, 192 Neb. 63, 218 N.W.2d 893 ( 1974), the Nebraska Supreme Court, in upholding the validity of legislation granting preferential treatment with respect to the taxation of personal property used in agricultural production, reiterated the general rule that it is competent for the Legislature to classify property for purposes of taxation, provided the classification rests on some reason of public policy, or some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. The criteria outlined in Stahmer with regard to the validity of classifications scrutinized under our state constitution are equally applicable in considering whether legislative classifications satisfy the requirement of equal protection guaranteed under the federal constitution.

As was noted, Sioux City Bridge Co. v. Dakota County involved a challenge under the equal protection clause based on a failure to provide uniform tax treatment of property within the same class, as mandated under the state constitution. LR 2CA, however, would allow the Legislature to specifically except agricultural land from the general uniformity requirement. Under such circumstances, the appropriate question to consider in analyzing the impact of the equal protection clause with regard to any disparate treatment which may result in the valuation and taxation of agricultural land in comparison to other real property concerns whether a rational basis exists to justify a difference in tax treatment of these types of property. In light of the above-cited authority, we believe that the separate classification, valuation, and taxation of agricultural land in a manner which differs from the tax treatment of other property does not, per se, violate the due process or equal protection clauses of the federal constitution.

QUESTION NO. 2: Does the language of LR 2CA establish a separate and distinct class or property for agricultural and horticultural land, or does it merely establish a subclass of tangible property? In the event that the language of LR 2CA establishes a separate class of property for agricultural and horticultural land, taxed in a manner which results in values which are not uniform in relation to other property, does the language of the proposed amendment remove agricultural and horticultural land from the constitutional requirement that all taxes be levied by valuation uniformly and proportionately in relation to all other tangible property?

RESPONSE: An examination of the amendment to Article VIII, Section 1, of the Nebraska Constitution, proposed under LR 2CA, reveals the amendment will not, in and of itself, result in the removal of agricultural land from the uniformity requirement. Rather, the proposed amendment provides the Legislature may establish agricultural and horticultural land as a separate class of property for tax purposes, and that agricultural and horticultural land may be valued and taxed in a manner which is not uniform with "other classes"(1) of property. To the extent that the amendment would permit the Legislature to act in this regard, it appears the language of LR 2CA is sufficient to enable the Legislature to classify agricultural and horticultural land separately from other property, and to value such property in a non-uniform or different manner than other property for tax purposes.

QUESTION NO. 3: Does the language of LR 2CA eliminate any requirement that taxes on agricultural and horticultural property be levied by valuation uniformly and proportionately, and, if so, is it constitutionally permissible for the proposed amendment to permit non-uniform tax treatment of property within the class of agricultural and horticultural property?

RESPONSE: Initially, as previously noted, it seems the plain meaning of the proposed amendment would allow the Legislature to eliminate any requirement that taxes on agricultural and horticultural property be levied in a manner which is uniform with other tangible property. In the event the Legislature were to act pursuant to an amendment such as LR 2CA (removing any requirement as to uniformity by enacting a statutory classification of property consistent with such an amendment), it is evident that the same concerns expressed in Attorney General Opinion No. 88027, March 25, 1988, regarding the rationality and reasonableness of such legislation, would provide the basis for a challenge as to the constitutionality of legislation eliminating any requirement of uniform or equal treatment within the agricultural land classification.

As stated in our previous opinion, we cannot readily discern any rational basis upon which different tax treatment of various “subclasses” of agricultural property may be supported. Accordingly, we cannot say that any disparity in taxation which may result from the elimination of any requirement of uniform or equal treatment in the taxation of subclasses of agricultural land could withstand constitutional attack on equal protection grounds.

(1) While it seems that the use of the term “other classes” in this regard is meant to refer to all other property outside the agricultural class which would remain subject to the uniformity requirement in Article VIII, Section 1, the provision of language clarifying such an intent may be advisable to clearly reflect this purpose.

Very truly yours,

#### ATTORNEY GENERAL'S OPINION

Opinion No. 89019

DATE:

March 20, 1989

SUBJECT: The constitutionality of LB 157, Section 4, Subsection 3, as amended by AMO 392.

REQUESTED BY: Senator Don Wesely  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Marilyn B. Hutchinson,  
Assistant Attorney General

You have asked whether LB 157, Section 4, Subsection 3, as amended by AMO 392, violates the Fourth Amendment to the United States Constitution. As discussed below, we have concluded it does not unless the operator of the facility is the state or federal government and the facts do not justify a warrantless search.

LB 157, Section 4, Subsection 3, would permit a hospital, skilled nursing facility or intermediate care facility to test the blood of one of its patients for hepatitis B or human immunodeficiency virus without the consent of that patient or his or her representative under certain circumstances:

(1) A body fluid of such patient has entered the body of an emergency medical services provider,

(2) The physician of such provider believes that such exposure could involve the transmission of hepatitis B or human immunodeficiency virus, and

(3) A sample of the patient's blood is available.  
Otherwise a court order must be obtained.

The Fourth Amendment to the United States Constitution protects individuals from unreasonable searches and seizures by the federal government or, through the Fourteenth Amendment, by the states. Wolf v. Colorado, 338 U.S. 25 (1949). Thus the constitutionality of the questioned section depends on whether the testing of blood is a search and seizure; if so, whether the one doing it is the government; and, if so, whether such search and seizure is unreasonable. A search conducted without a warrant issued upon probable cause is per se unreasonable, subject only to a few specifically established and well-delineated exceptions including a search conducted pursuant to consent. Schneckloth v. Bustamonte, 412 U.S. 218 (1973), and a search in exigent circumstances, Warden v. Hayden, 387 U.S. 294 (1967).

The Fourth Amendment protects personal privacy and dignity against unwarranted intrusion by the state. Schmerber v. California, 384 U.S. 757, 767 (1966). The compulsory administration

of a blood test by the state "plainly involves the broadly conceived reach of a search and seizure under the Fourth Amendment." *Id.* However, "the Fourth Amendment's proper function is to constrain, not against all intrusions as such, but against intrusions which are not justified in the circumstances, or which are made in an improper manner." *Id.* at 768. In that case the court held the blood test administered without a warrant was justified in the circumstances and was made in a proper manner so there was no violation of the Fourth Amendment by the state. The justifiable circumstances in that case included the urgency of getting a test before time had diminished the percent of alcohol in the blood.

In Glover v. Eastern Nebraska Community Office of Retardation, 686 F.Supp. 243 (D. Neb. 1988), the court reached a different conclusion. It found the mandatory testing of the blood of the employees of a governmental agency for hepatitis B and human immunodeficiency virus was not justified when there was no evidence that the agency's clients were at risk of contracting those diseases from its employees through casual contacts.

The significant exposures which are a pre-condition to mandatory testing under LB 157 are not casual contacts. However, they are contacts which have already occurred. Therefore, unless it can be shown that an immediate test is necessary for the validity of the test or for the effective treatment of the person who has been exposed, or for some other reason, there will be no exigent circumstances. Therefore, testing the blood of the patient without his or her consent or the consent of his or her representative without a search warrant may not be justified. This is particularly true if testing the blood of the provider who has been exposed would be as reliable.

The physician-patient privilege is one of the few privileges recognized by law. Neb.Rev.Stat. §27-504 (Supp. 1988). Thus a person is justified in relying on having privacy about tests conducted on a sample of his or her blood which was withdrawn by or at the direction of his or her physician.

In conclusion, LB 157, Section 4, Subsection 3, as amended, does not violate the Fourth Amendment to the United States Constitution unless the operator of the facility is the state or federal government and the facts do not justify a warrantless search.

Sincerely yours,  
ROBERT M. SPIRE

 8 education through increased teacher salaries. The act  
 9 will establish a minimum teacher salary which will  
 10 attract quality teachers to Nebraska public schools and  
 11 which will be competitive with salaries paid to other  
 12 professionals. It is the intent of the Legislature that  
 13 Nebraska public schools have the capacity to recruit new  
 14 teachers and retain quality teachers already employed  
 15 through general salary increases.

23 the employer's share of federal social security and  
24 retirement benefit payments on the additional salary.

1 The minimum salary supplement for each part-time teacher  
2 shall be that portion of the minimum salary supplement  
3 which is equivalent to the proportion of full-time  
4 employment held by each such teacher.

5           (3) The department shall compute the amount

Opinion No. 89020

DATE: March 24, 1989

SUBJECT: Low-Level Radioactive Waste local monitoring  
 committees

REQUESTED BY: Dennis Grams, Director  
 Department of Environmental Control

WRITTEN BY: Robert M. Spire, Attorney General  
 Linda L. Willard, Assistant Attorney General

You have asked several questions regarding the composition of the local monitoring committees for the Low-Level Radioactive Waste Act as set forth in Neb.Rev.Stat. §81-15,101.01 (1988 Cum. Supp.). We will attempt to address each of your questions individually.

Your first question is whether members of the local committee selected from municipalities set out in subpart (2)(a) of the above statute are required to be residents of such municipalities or live

within the prescribed zoning jurisdiction of the municipalities. Subpart (2)(a) states:

Each local monitoring committee shall be composed of the following nine members: (a) two members selected from municipalities which have zoning jurisdiction within fifteen miles of the proposed site or if there are no such municipalities, from the municipality in closest proximity to the proposed site, to be appointed by the chief executive officer of each municipality by the governing body if there is no chief executive officer;

The Nebraska Supreme Court has often said "in the absence of anything indicating to the contrary, statutory language is to be given its plain and ordinary meaning; this court will not resort to interpretation to ascertain the meaning of statutory words which are plain, direct, and unambiguous." In re Interest of G.B., 227 Neb. 512, 418 N.W.2d 258 (1988); see, also, In re Interest of Richter, 226 Neb. 874, 415 N.W.2d 476 (1987) and Lawson v. Ford Motor Company, 225 Neb. 725, 408 N.W.2d 256 (1987).

The above statute clearly states that two members of the local committee are to be selected from the appropriate municipalities. Black's Law Dictionary (Fifth Edition, 1979) defines the word "from" as follows: "As used as a function word, implies a starting point, whether it be of time, place, or condition; and meaning having a starting point of motion, noting the point of departure, origin, withdrawal . . . One meaning of 'from' is 'out of' . . ."

In Silva v. McAuley, 135 Cal.App. 249, 26 P.2d 887 (1934), the California Court of Appeal was faced with the interpretation of "from" in regard to a statute which made it illegal to transport fish from a certain zone in the State to a point outside of the State. Fishermen had captured fish outside of this zone but were shipping the fish from within the zone to points outside of the State. The California Court of Appeals held that the fish were merely passing through the zone since the word "from" always implies a starting point whether it be of time, place or condition.

Since Neb.Rev.Stat. §81-15,101.01(2)(a) (1988 Cum. Supp.) provides for appointment of an individual from the municipality, it is our determination that the individual appointed must have a starting place or origin from within the designated area at the time of his or her appointment. In other words, the appointee must reside in the municipality at the time of the appointment. The Nebraska Supreme Court has long interpreted "residence" to be equivalent to "domicile" and "to effect a change of domicile there must not only be a change of residence, but an intention to permanently abandoned the former home." Wood v. Roeder, 45 Neb. 311, 63 N.W. 853

(1895). In Berry v. Wilcox, 44 Neb. 82, 62 N.W. 249 (1895), a case relating to residence for voting purposes, the Nebraska Supreme Court held

The generally accepted definition of "residence" when the term is used with reference to the qualifications of voters, is synonymous with "domicile" -- "that place . . . in which his habitation is fixed, without any present intention of removing therefrom.

44 Neb. at 85. This would also answer your second question as to whether a person could establish a temporary residence for the sole purpose of serving as a committee member. Residence, as the definitions above indicate, is equivalent to domicile and carries with it the intent, at least for the time, of remaining at that location. Our determination that the appointees must be residents of the local area is also inferred from the declared legislative intent of the statute "that the local monitoring committees provide significant input concerning local needs and resources. . . ." Presumably local residents would have more knowledge of the local needs and resources.

Your third question is whether the at-large member and owner of real property selected from the county in (2)(b) are required to be residents of the county. Subpart (2)(b) of the above cited statute states

Each local monitoring committee shall be composed of the following nine members: . . . (b) two members from the county in which the site is proposed, to be appointed by the governing body of the county. One member shall be an owner of real property that is within a three mile radius of the proposed site, and one member shall be an at-large member; . . .

As indicated on our response to your first question, the word "from" indicates a starting point or point of origin. Therefore, the two members from the county must be residents of the county at the time of appointment.

Your next question is whether the governing bodies specified in (2)(a) and (b) are required to make the appointments, and if appointments are not made if there is a duty on the Department of Environmental Control to enforce appointments.

Neb.Rev.Stat. §81-15,101 (1988 Cum. Supp.) states that the Committee shall be composed of nine members and the officers or governing bodies indicated in the statute are to make those appointments. Generally the word "shall" appearing in a statute implies that whatever "shall" be done is mandatory. Minden Beef Company v. Cost of Living Council, 362 F.Supp. 298 (Neb. 1973). Generally, in construction of statutes, the word "shall" is considered mandatory and inconsistent with the idea of discretion. State v.

Stratton, 220 Neb. 854, 374 N.W.2d 31 (1985) N.C. Pius Hybrids v. Growers Seed Association, 219 Neb. 296, 363 N.W.2d 362 (1985).

The statute specifically provides that the committee shall have nine members, two of whom shall be selected from municipalities, two from the county, two appointed by the natural resources district, and three appointed by the Governor. Therefore, it is our determination that the entities named have been given the authority to make the appointments and are mandated by statute to make said appointments. The statute in question, however, does not contain a penalty clause for failure to make the appointments.

Your question then is whether the Department of Environmental Control has a duty to enforce the appointment of representatives if the statutorily designated officer or officers do not so appoint. Neb.Rev.Stat. §81-1599 (Reissue 1987) sets out the powers and duties of the Department of Environmental Control. The statutes impose no duty upon the Department relative to the appointment of members to the local committees. While the Department is authorized to exercise all incidental powers necessary to carry out the purposes of the Low-Level Radioactive Waste Disposal Act, the Department has been given no power to impose sanctions against the appointing authorities for their failure to appoint. The remedy in this case, if such there be, appears to be in the nature of a mandamus action brought by a party or parties shown to have an interest in representation on the local committee.

Your final question is whether a committee would fail to be established if all appointments were not made. It is our determination that the failure to appoint all committee members does not mean that the committee does not exist. However, it may limit some actions of the committee. As with any other committee established by statute, the failure to fill all vacancies on the committee would not mean that the committee itself did not exist. However, if a quorum is necessary for the conducting of business or a majority vote is needed to pass on certain actions of the committee, the failure to have all positions filled may seriously effect the committee's ability to function.

Sincerely yours,  
ROBERT M. SPIRE

Opinion No. 89021

DATE: March 24, 1989

SUBJECT: Validity and Construction of Legislative Bill 490  
Which Provides for the Criminal Offense of  
Defrauding Suppliers

REQUESTED BY: Senator Jerry Chizek, Chairperson  
Judiciary Committee

WRITTEN BY: Robert M. Spire, Attorney General  
Fredrick F. Neid, Assistant Attorney General

This is in response to the request of the Judiciary Committee for an Opinion of this office concerning whether LB 490 violates the constitutional prohibition against imprisonment for debt.

The express legislative purpose of LB 490 is "to make defrauding a supplier a crime and to provide for penalties." Section 2 of the bill provides that a person, firm, or corporation commits the offense of defrauding a supplier if he or she, as a contractor or subcontractor, fails to pay any supplier or subcontractor for materials, goods, or labor furnished within twenty days of final receipt of payment under the contract. Further, a contractor and owner commits the offense if he or she knowingly and willingly transfers title of property upon which improvements were made without paying for materials, goods, or labor contracted for and furnished to the project.

Article I, Section 20, of the Nebraska Constitution provides that "{n}o person shall be imprisoned for debt in any civil action on mesne or final process, unless in cases of fraud." Although the constitutional language refers to civil, not criminal actions, the Nebraska Supreme Court long has held the provision applicable to criminal prosecutions initiated to aid a civil creditor.

The constitutional question arises because the proposed act does not expressly provide or require the requisite mens rea, the intent to defraud, for conviction of the offense. In Norton v. Janing, 182 Neb. 539, 156 N.W.2d 9 (1968), a statute which permitted prosecution for failure to pay a contractual obligation without proof of fraud was found unconstitutional. The statute criminalized the nonpayment by a contractor of debts owing to laborers or materialmen without first having obtained lien waivers. The court held that proof of fraudulent intent was necessary to imprison for failure to pay civil obligations.

Thus, the absence of an express provision or requirement of intent to defraud for conviction renders the act proposed by LB 490 constitutionally suspect.

Our Supreme Court has endeavored to interpret statutes which make criminal offenses for failure to pay contractual debts in a manner consistent with the Constitution. The constitutional validity of statutes which did not expressly provide or require an intent to defraud in prosecutions for failure to pay civil obligation have been upheld. In State v. Hocutt, 207 Neb. 689, 300 N.W.2d 198 (1981), a statute which did not expressly require fraud was upheld because judicial construction of the act had established that proof of fraud was required for a conviction.

A statute which made the issuance of insufficient fund checks a crime without expressly providing for or requiring intent to defraud was upheld in State v. Kock, 207 Neb. 731, 300 N.W.2d 824 (1981). The court determined that the mere drawing of a check was not sufficient to constitute a violation and, reading the statute in its entirety, the essential elements of the offense stated in the act was sufficiently descriptive of an intent to defraud. The court chose an interpretation which gives effect to the statute over one which defeats the statute and gives effect to the entire language of the statute as against one which does not.

While the proposed statute does not expressly provide or require fraudulent intent, Section 3 of the bill provides that failure to pay shall be prima facie evidence that the failure to pay was with intent to defraud. Based on our review of the cases, it is our conclusion that the court would endeavor to interpret the proposed act in a manner consistent with the Constitution and would determine that, by reading the act in its entirety, an intent to defraud is required for prosecutions under the act.

Accordingly, it is our opinion that LB 490 would not violate the constitutional prohibition against imprisonment for debt.

Sincerely,  
ROBERT M. SPIRE  
Attorney General

### ATTORNEY GENERAL'S OPINION

#### Opinion No. 89022

DATE: March 24, 1989

SUBJECT: School lands. Constitutionality of legislative amendment to LB 807 which would abolish the in lieu of tax payment to schools in counties wherein school lands are located and substitute a formula diverting the income and interest on school funds and lands into the equalization portion of the School Foundation and Equalization Act.

REQUESTED BY: Senator Ron Withem  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

In your letter of March 22, 1989, you state that you intend to offer an amendment to LB 807 of the Ninety-first Legislature, First Session (1989), which would abolish the in lieu of tax payment to schools in counties wherein school lands are located and substitute a formula diverting 20% of the income and interest earned on school funds and lands into the equalization portion of the School Foundation and Equalization Act and inquire if the amendment is constitutional. You acknowledge that not all school districts qualify for equalization aid pursuant to the Act cited.

Section 7 of the Act to enable the people of Nebraska to form a Constitution and State Government, and for the admission of the State of Nebraska into the Union on an equal footing with the original States, in part, provides:

And be it further enacted, That sections number sixteen and thirty-six in every township . . . shall be, and are hereby granted to said state for the support of the common schools. (U.S. Stat. at Large, vol. 13, p. 47). The people of Nebraska, of course, formed a Constitution and State Government and thereafter

by proclamation of then President Andrew Johnson, the State of Nebraska was admitted to the Union on March 1, 1867.

The law is well settled. A grant by Congress of land to a state for the benefit of the common schools is an absolute grant, vesting title for a specific purpose. Alabama v. Schmidt, 232 U.S. 168, 34 S.Ct. 301, 58 L.Ed.2d 555 (1914). Hence, Section 7 of the Enabling Act and section 9 of Article VII of the Constitution of Nebraska mandate that income from the unsold school lands "be exclusively used for the support and maintenance of the common schools in each school district in the state." As noted in your inquiry, some school districts do not receive funds pursuant to the equalization portion of the School Foundation and Equalization Act and therefore your above described amendment to LB 807 would, in our opinion, be unconstitutional.

Respectfully submitted,

ROBERT M. SPIRE

Attorney General

#### ATTORNEY GENERAL'S OPINION

##### Opinion No. 89023

DATE: March 24, 1989

SUBJECT: School Funds. Whether a legislative act which would permit school districts to invest funds of the school district in repurchase agreements violates Neb. Const., Art. XIII, § 3.

REQUESTED BY: Senator D. Paul Hartnett  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

You have inquired if the repurchase agreements (repos) authorized by LB 379 of the Ninety-first Legislature, First Session (1989), violate Neb. Const. Art. XIII, § 3.

LB 379 would amend Neb.Rev.Stat. § 79-1308.01 (Reissue 1987) as follows:

(1) Any school district may by and with the consent of the board of education of the school district invest the funds of the

school district in securities the nature of which individuals of prudence, discretion, and intelligence acquire or retain in dealing with the property of another. Every school district having invested in such securities shall deliver the same as funds of the office. The interest received on any investments authorized by this section shall be credited to the fund from which the money was taken to make the investment.

(2) The securities referred to in subsection (1) of this section may be invested in through repurchase agreements. Each repurchase agreement shall require that the items purchased through the repurchase agreement be subject to repurchase from the school district upon demand by the treasurer of the school district. No such repurchase agreement shall be entered into until the treasurer of the school district who proposes to enter into the repurchase agreement has received a perfected security interest in the securities as collateral for their prompt repurchase.

Sec. 2. That original section 79-1308.01, Reissue Revised Statutes of Nebraska, 1943, is repealed.

LB 379 does not define the "securities" which school districts may purchase with funds of the school district nor does it define repos. LB 379 does limit "securities" to those "the nature of which individuals of prudence, discretion, and intelligence acquire or retain in dealing with the property of another." Thus, repos authorized by LB 379 are not limited to repos marketed to the public by national banks. It would therefore appear that repos authorized by LB 379 may be defined as written agreements whereby one party sells "securities" to another party with the understanding that at a future time certain the selling party will repurchase the securities at a stated higher price. It also appears that the only apparent legislative purpose in authorizing school districts to purchase repos is to maximize their return on funds which are not currently required for operational expenses of the school district.

Neb. Const. Art. XIII, § 3, in part declares: "The credit of the state shall never be given or loaned in aid of any individual, association, or constitution. . . ." In State ex rel. Beck v. City of York, 164 Neb. 223, 82 N.W.2d 269 (1957), the Nebraska Supreme Court held that a violation of Neb. Const. Art. XIII, § 3, occurs only if there is both a lending of the credit of the State and if that lending is for a purpose which is not a public one. We are therefore of the opinion that the authority granted by LB 379 to school districts to purchase repos does not violate Neb. Const. Art. XIII, § 3, for the reason that the apparent purpose is entirely public: to maximize the return on investment of school funds. Obviously, the question of whether this

sort of investment is otherwise appropriate for school districts is for the Legislature to decide.

#### Conclusion

At the risk of stating the obvious, this opinion, which contains a limited analysis of repos, is not meant to be a legal “road map” to sellers and purchasers of repos. The subject is much too complicated to be dealt with here. This opinion is limited to the question asked. Repos, as authorized by LB 379, do not, in our opinion, violate Neb. Const. Art. XIII, § 3.

Respectfully submitted,  
**ROBERT M. SPIRE**

 2 Nebraska for the benefit of each person who stores grain  
 3 in such warehouse and of each person who holds a check  
 4 for purchase of grain stored in such warehouse which was  
 5 issued by the warehouse licensee not more than five  
 6 business days prior to the cutoff date of operation of  
 7 the warehouse, which shall be the date the commission

 17 all provisions of law relating to the storage of grain  
 18 by such warehouse licensee and ~~the rules and regulations~~  
 19 ~~of adopted and promulgated by~~ the commission. The  
 20 commission may require increases in the amount of the  
 21 security from time to time as it may deem necessary for  
 22 the protection of the storers. The surety on a bond  
 23 shall be a surety company licensed by the Department of  
 24 Insurance. An irrevocable letter of credit or

10 Sec. 28. That section 88-531, Reissue Revised

2 ~~(2)(a) The warehouses are located within~~  
 3 ~~twenty-five miles of each other;~~

4 ~~(b) Only one set of books is kept for the~~  
 5 ~~warehouses at a central location; and~~

6 ~~(c) (3) The warehouses are operated in~~  
 7 ~~conjunction with each other.~~

8 If the commission finds that enforcement of

9 the Grain Warehouse Act or the interests of the storer  
10 requires that warehouses operated by the same licensee  
11 at separate locations be licensed separately, it may  
12 require separate licenses for such facilities pursuant  
13 to rules and regulations adopted and promulgated by the  
14 commission.

15 The license fee and security required of such  
16 warehouse licensee shall be computed on the basis of the

1 the license shall be issued. A new or renewed license  
2 shall expire twelve calendar months after the effective  
3 date of the issuance or renewal of such license. A

7 prior to the date of termination.

9 by the commission shall be posted in a conspicuous place  
10 in each warehouse showing the amount of security on the

14 each type of grain stored.

15 Sec. 30. That section 88-543, Reissue Revised  
16 Statutes of Nebraska, 1943, be amended to read as  
17 follows:

18 88-543. No warehouse licensee or partner,  
19 officer, or agent thereof shall issue a receipt for  
20 grain not actually received. If at any time there is  
21 less grain in a warehouse than outstanding receipts  
22 issued for grain, there shall be a presumption that the  
23 warehouse licensee or partner, officer, or agent thereof  
24 has wrongfully removed grain, has wrongfully caused  
1 grain to be removed, or has issued receipts for grain  
2 not actually received, and has violated this section.  
3 Any warehouse licensee or partner, officer, or agent  
4 thereof who knowingly and willingly violates this

13 who violates the Grain Warehouse Act shall be guilty of  
14 a Class IV felony, unless otherwise specifically  
15 provided, and shall be liable for any damages suffered  
16 by any person from such violation. Upon request of the  
17 commission, the Attorney General or any county attorney  
18 shall assist in the prosecution of any violations of the  
19 act.

20 Sec. 32. That section 88-547, Reissue Revised  
21 Statutes of Nebraska, 1943, be amended to read as  
22 follows:

23 88-547. If the commission determines that a  
24 shortage of grain exists or that the quality of grain in  
1 storage is insufficient to meet the obligations at a  
2 warehouse, ~~or~~ if a license expires and is not renewed,  
3 or if a license is surrendered to or cancelled or  
4 revoked by the commission for violation of any statute  
5 or rule or regulation adopted and promulgated by the  
6 commission, the commission may close the warehouse and  
7 do one or more of the following:

8 (1) Take title to all grain stored in the  
9 warehouse at that time in trust for distribution on a  
10 pro rata basis to all valid owners, depositors, or  
11 storers of grain who are holders of evidence of  
12 ownership of grain. No claim of the licensee for grain  
13 stored shall be honored until the claims of all other  
14 owners, depositors, and storers have been paid in full.  
15 Such distribution may be made in grain or in proceeds  
16 from the sale of grain;

17 (2) After notice and hearing (a) determine the  
18 value of the shortage and the pro rata loss to each  
19 owner, depositor, or storer of grain, (b) require all or  
20 part of the warehouse security to be forfeited to the  
21 commission, and (c) distribute the security proceeds on  
22 such pro rata basis; or

23 (3) Commence a suit in district court for the  
24 benefit of owners, depositors, or storers of grain.

- 1           The commission may deposit the proceeds from  
 2 the security forfeiture under subdivision (2) of this  
 3 section or the sale of grain under subdivision (1) of  
 4 this section in an interest-bearing trust account for  
 5 the benefit of the valid owners, depositors, or storers  
 6 of grain pending final determination of the valid  
 7 owners, depositors, or storers and distribution of such  
 8 proceeds.”

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 89024

DATE: March 24, 1989

SUBJECT: Constitutional law. Statutory construction; doctrine of "void for vagueness" and doctrine of unconstitutional delegation of legislative power.

REQUESTED BY: Senator Howard Lamb  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

You have inquired if section 1(4) of LB 183 of the Ninety-first Legislature, First Session (1989), is constitutionally vague and whether section 6 of LB 183, as amended, is an unconstitutional delegation of legislative power. Each is hereinafter discussed.

Section 1(4) of LB 183, as amended, would permit a child's parent or guardian to decide what public school or public school district is best for the child based upon several factors, including "The quantity and quality of the staff at such school and school districts." Based on the provision quoted, you have inquired if it would be a legitimate purpose for a student to attend a public school in a school district other than the school district of his or her residence or ward based upon an athletic coach's reputation and the record or performance of the teams coached?

Although most decisions involving the constitutional "void for vagueness" doctrine have dealt with statutes and ordinances involving criminal sanctions, the doctrine applies equally to civil statutes. In the Interest of D. L. H., 198 Neb. 444, 253 N.W.2d 283 (1977). The accepted test for determining whether a statute is vague is whether it forbids or requires doing of an act in terms so vague that men of common intelligence must necessarily guess as to its meaning and differ as to its application. State ex rel. Douglas v. Herrington, 206 Neb. 516, 294 N.W.2d 330 (1980). Applying the above test to section 1(4) of LB 183, it is clear that a person of ordinary intelligence could not be expected to know the meaning of the words "quantity and quality of the staff" as those words are used therein. For example, does the words "quantity . . . of the staff" mean two coaches? Or perhaps three or more coaches? Likewise, does the words "quality of the staff" mean the won-loss record of the head coach or the won-loss record of all the coaches or does it have some other meaning? The words "quantity and quality of the staff" in section 1(4) of LB 183, as amended, can obviously mean many things and men of common intelligence must necessarily guess as to their meaning and will, of course, differ as to their application. Consequently, we are of the opinion that section 1(4) of LB 183 is void for vagueness.

Section 6 of LB 183, as amended, would require the school board or board of education of option school districts to adopt by resolution specific standards for acceptance and rejection of students

who desire to attend a certain option school district but who are not residents thereof. You have inquired if this requirement is an unconstitutional delegation of legislative power?

We think not. The general doctrine of prohibiting the delegation of legislative authority has no application to the vesting in political subdivisions the power to govern matters which are local in scope. See Peterson v. Cook, 175 Neb. 296, 121 N.W.2d 399 (1963).

Conclusion

We are of the opinion that section 1(4) of LB 183, as amended, is void for vagueness and section 6 of LB 183, as amended, is not an unconstitutional delegation of legislative power. Your first question stated herein is therefore answered "yes" and your second question stated herein is therefore answered "no."

Opinion No. 89025

DATE: March 30, 1989

SUBJECT: Constitutionality of LB 809 - Property Tax Relief Trust Fund Act

REQUESTED BY: Senator Timothy J. Hall  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested our opinion on several questions relating to LB 809. Generally, LB 809 would create a Property Tax Relief Trust Fund {the "Fund"}, which would be based on the amount by which net general fund receipts from state tax revenues exceed projected or forecasted net general fund receipts for the fiscal year. This Fund would be distributed to county treasurers to reimburse local taxing subdivisions for reduced revenues resulting from the percentage credit

or reduction provided to all property taxpayers by operation of the Act.

Your initial question concerns whether Section 5 of the bill, which provides that the amount to be certified by the State Tax Commissioner to the State Treasurer for deposit into the Fund shall be based on the amount by which actual net general fund receipts exceed net general fund receipts as forecasted by the Nebraska Economic Forecasting Advisory Board {the "Board"}, represents an unconstitutional delegation of legislative power to the Board.

In the case of In re Estate of West, 226 Neb. 813, 415 N.W.2d 769 (1987), the Nebraska Supreme Court addressed a challenge to the constitutionality of the Nebraska estate tax. The personal representative of the West estate contended that the Nebraska Legislature, by adopting a state estate tax determined by reference to the amount of federal estate tax liability, had unconstitutionally delegated the taxing power of the state in contravention of the non-delegation doctrine. Rejecting the argument that the reference to federal estate tax law in specifying the computation of Nebraska estate tax represented an unconstitutional delegation of legislative power, the court stated:

Whether the Nebraska estate or excise tax, § 77- 2101.01, is imposed on the transfer of every Nebraska resident's estate is a matter of legislative prerogative exercisable only by the Nebraska Legislature and not exercisable by any other legislature, such as the U.S. Congress. Although the Nebraska estate tax is correlative in operation with the federal estate tax law, inasmuch as the amount of the Nebraska estate tax is computed, and eventually determined, by reference to the state death tax credit used in fixing federal estate tax liability, the Nebraska estate tax is, nevertheless, authorized and imposed in a statute enacted by the Nebraska Legislature and does not exist independent of such legislative act of the Nebraska Legislature.

\* \* \*

. . . {W}e conclude that § 77-2101.01 specifies a tax which, although referable to federal law for computation of the amount payable to the State of Nebraska, remains subject to the power of the Nebraska Legislature, which determines whether such tax exists or will continue to exist.

Id. at 826-27, 415 N.W.2d at 779.

Analyzing the provisions of LB 809, it is evident that, while the amount of general fund receipts to be transferred to the Fund will depend, in part, on the forecast of general fund receipts made by the Nebraska Economic Forecasting Advisory Board, this does not constitute an impermissible delegation of legislative power to the

Board. Under LB 809, no legislative authority would, in fact, be delegated to the Board; rather, the bill simply provides that the advisory forecast of net general fund receipts for the fiscal year computed by the Board in connection with its duties under Neb.Rev.Stat. §§ 77-27,156 to 77-27,159 (Reissue 1986 and Cum. Supp. 1988) shall be used in determining the amount of any general fund revenues to be certified by the Tax Commissioner to the State Treasurer for transfer into the Fund. The Legislature has not delegated any of its legislative power to establish the Fund and to set forth the manner in which the amount to be deposited in the Fund is to be calculated. The mere reference to the amount of forecasted general fund receipts made by the Board in computing the amount to be transferred does not, based on the rationale of the decision in West, represent an unconstitutional delegation of legislative power to the Board.

Your second question concerns whether the Section 6 of the bill, which requires the State Treasurer to distribute to county treasurers the amount of property tax relief available in the Fund, violates Article III, Section 25, of the Nebraska Constitution, which prohibits the expenditure of state funds without a specific appropriation.

Article III, Section 25, of the Nebraska Constitution provides, in pertinent part:

No money shall be drawn from the treasury except in pursuance of a specific appropriation made by law, and on the presentation of a warrant issued as the Legislature may direct, and no money shall be diverted from any appropriation made for any purpose or taken from any fund whatever by resolution.

With regard to this constitutional provision, the Nebraska Supreme Court has stated the following:

The latter section makes necessary a specific appropriation for a particular purpose, and forbids the drawing of a single dollar from the state treasury unless authorized by an appropriation.

\* \* \*

Under the Constitution it is not within the province of executive or administrative officers to determine the purpose for which the state's funds may be expended. Only the legislative branch of the government may declare for what purpose and within what amounts state funds may be expended. Any other expenditure than that authorized by the Constitution and valid enactments thereunder is unlawful.

Fischer v. Marsh, 113 Neb. 153, 156, 202 N.W. 422, 423 (1925). See, also, Rein v. Johnson, 149 Neb. 67, 30 N.W.2d 548 (1947); Ruge v. State, 201 Neb. 391, 267 N.W.2d 748 (1978).

In order to clarify what constitutes a specific appropriation under Article III, Section 25, the Legislature in 1979 enacted a law spelling out the necessary requirements for a valid appropriation under the State Constitution. Laws 1979, LB 232 (codified at Neb.Rev.Stat. §§ 49-804 to 49-805 (Reissue 1988)). Section 49-804 provides as follows:

An appropriation shall only exist when the following criteria have been met:

- (1) There shall be included the phrase there is hereby appropriated;
- (2) A specific fund type shall be identified and the fund shall be appropriated;
- (3) The amount to be appropriated from such fund shall be identified;
- (4) A specific budget program or a specific statement reflecting the purpose for expending such funds shall be identified; and
- (5) The time period during which such funds shall be expended shall be identified.

Neb.Rev.Stat. § 49-805 (Reissue 1988) further provides that "Any legislation not meeting the criteria established in section 49-804 shall not be considered a valid appropriation as defined in Article 3, section 22 of the Nebraska Constitution."

Obviously, LB 809 does not contain any language specifically appropriating monies transferred to the Fund. Furthermore, as noted previously, no general fund monies may be distributed from the state treasury in the absence of a valid legislative appropriation. Accordingly, the provisions of Section 6 of the bill alone, providing for distribution of the Fund by the State Treasurer to county treasurers, would not be sufficient to permit actual distribution of the Fund absent the adoption of an appropriations bill meeting the requirements of § 49-804. The adoption of an appropriations bill in compliance with Article III, Section 25, and § 49-804, would eliminate any constitutional question based on the lack of a specific appropriation to permit distribution of the Fund created under LB 809.

Finally, you ask whether it would be permissible under the criteria contained in § 49-804 to provide an appropriation of state funds where the precise amount of state funds to be expended is not ascertainable until the end of the fiscal year.

Assuming that an appropriations bill were to be prepared in accordance with the current provisions of LB 809, it appears that the exact dollar amount to be appropriated could not be included therein by virtue of the fact that the amount of actual net general fund receipts in excess of the amount of net general fund receipts forecasted by the Board could not be determined until the end of the

fiscal year, at which time this amount is to be certified by the Tax Commissioner to the State Treasurer for transfer into the Fund. The inability to include a precise dollar amount in such an appropriation, however, does not necessarily render an appropriation of this nature insufficient under §49-804 or Article III, Section 25.

The general rule regarding constitutional requirements that appropriations must be specific in amount is stated in 81A C.J.S. States § 237 (1977) as follows:

{I}f the statute making an appropriation distinctly sets aside the whole of a special fund thereby created, and no other funds, for a designated purpose, the appropriation complies sufficiently with the constitutional requirements and is valid.

\* \* \*

Even where specification of the amount is required, it is sufficient if the amount of the appropriation is ascertainable by a mathematical calculation. It is not essential or vital to an appropriation that it should be for an amount definitely ascertained prior to the appropriation; and an appropriation, the amount of which will be made certain by a mere mathematical computation, if the provisions of the act are carried into effect, sufficiently complies with this requirement.

In Cox v. Bates, 237 S.C. 198, 116 S.E.2d 828 (1960), the Supreme Court of South Carolina upheld the constitutionality of a statute providing for the creation and maintenance of a fund from excess state revenues to be distributed to counties for general public school purposes against a challenge that the appropriation of the surplus was indefinite in amount and thus did not comply with the state constitutional requirement of specificity in appropriations. In this regard, the court stated:

Complaint is made that the appropriation of the surplus to the counties is in indefinite amount. But it is as definite as it could have been made when the law was enacted. It is of all of the surplus, if any, when ascertained, after the setting aside of the fixed reserve fund. Simply arithmetic makes it definite and certain.

Id. at \_\_\_\_\_, 116 S.E.2d at 837.

Similarly, in Black v. Oklahoma Funding Bond Commission, 193 Okla. 1, 140 P.2d 740 (1943), the Supreme Court of Oklahoma dealt with a challenge to the constitutionality of an act transferring and appropriating the amount of revenues accruing in the state general fund in excess of total legislative appropriations into the State Bond Retirement Fund. In upholding the constitutionality of the act against the contention that the appropriation of the general fund surplus in this manner failed to satisfy the specific appropriation requirement in the Oklahoma Constitution, the court stated:

Of the fifth ground of attack we observe that the act became law before the end of the fiscal year 1942-43 and therefore the amount of surplus which would accrue in the fund could not be stated in a definite amount when same was passed. As to the suggestion that the act does not distinctly specify the sums appropriated, we observe that the act devotes the entire surplus, whatever it may be when capable of ascertainment, to the purposes therein specified. The case of *Edwards v. Childers*, 102 Okl. 158, 228 P. 472, is controlling in that regard. Therein we held in paragraph three of the syllabus as follows: "A legislative act creating a special fund, all of which is, by the terms of the act, appropriated and directed to be expended for a special purpose and in an express manner amounts to an appropriation of the entire fund so created, and where the amount accruing to and paid into said fund is capable of being definitely ascertained, it is sufficiently definite and certain to comply with the provisions of article 5, § 55, of the Constitution."

In this act the Legislature created a special fund of this surplus which was capable of specific ascertainment by ordinary bookkeeping methods and calculations at a time previous to the time when the law should be first administered.

Id. at \_\_\_\_\_, 140 P.2d at 745.

See also, *State v. Moore*, 50 Neb. 88, 99, 69 N.W. 373, 377 (1896) ("An appropriation may be specific. . . when its amount is to be ascertained in the future from the collection of the revenue.").

On the basis of the foregoing, we believe that it would be possible to adopt appropriation language permitting distribution of the Fund created under LB 809 which would be sufficient to satisfy the specific appropriation requirement in Article III, Section 25, as well as the requirements of § 49-804. The amount of excess or surplus net general fund receipts to be transferred into the Fund for distribution to the counties may be determined by a simple mathematical calculation. Accordingly, appropriation language adopted on this basis would not render the amount indefinite or uncertain, in contravention of Nebraska constitutional and statutory requirements governing the validity of legislative appropriations.

Opinion No. 89026

DATE: March 31, 1989

SUBJECT: Constitutionality of LB 775, as amended - Tax  
Rate on Gross Receipts from Bingo Operations  
Conducted in Nebraska

REQUESTED BY: Senator Sharon Beck  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested our opinion on the constitutionality of LB 775, as amended by Revenue Committee Amendment AM 308. Generally, LB 775 proposes to alter the tax rates applied to the gross receipts of licensed bingo operations conducted in Nebraska. The Revenue Committee amendment to LB 775 would retain the current state tax rate under Neb.Rev.Stat. §9-239 (Reissue 1987) on bingo activities conducted in the state at six percent of gross receipts, and would also retain the current local tax rate on bingo activities at four percent of gross receipts. The amendment would, however, alter the local tax rate for bingo operations conducted within any city of the metropolitan class by setting such rate at two percent of gross receipts. Your question concerns whether the difference in tax rates for cities or villages and cities of the metropolitan class proposed under this amendment is constitutionally permissible.

It appears the primary constitutional issue raised by the amendment is whether the differences in local tax rates provided between cities or villages and cities of the metropolitan class represents an unreasonable classification and contravenes the prohibition against special legislation contained in Article III, Section 18, of the Nebraska Constitution. In this regard, the Nebraska Supreme Court has stated: "It is clearly competent for the Legislature to classify for purposes of legislation, if the classification rests on some reason of public policy, some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified." Shear v. County Board of Commissioners, 187 Neb. 849, 853, 195 N.W.2d 151, 154 (1972).

The question to be addressed thus concerns whether a rational or reasonable basis can be articulated to support the different tax rates established under the bill for cities or villages and cities of the metropolitan class. In this regard, it should be noted that §9-239 provides that the proceeds from the taxes in question are to be used “. . . for the costs of regulation and enforcement of the Nebraska Bingo Act.” Given the differences in community size between the local government entities subject to classification under the bill, it is conceivable that a lower tax rate for larger communities may be rationally based in that the cost of regulation and enforcement of the bingo act may have a more substantial impact on the resources of small communities in comparison to cities of the metropolitan class.

As is the case in all situations addressing the reasonableness of statutory classifications, the determination of reasonableness is one which must, in the first instance, rest with the Legislature. In Bridgeford v. U-Haul Co., 195 Neb. 308, 316, 238 N.W.2d 443, 449 (1976), the Nebraska Supreme Court stated: “{W}hether there was a reasonableness basis for the enactment of the statute in question is primarily a matter of legislative determination, subject to limited judicial scrutiny.” Upon consideration of the foregoing, it is our opinion that the different tax rates on gross receipts from bingo operations conducted in cities and villages and cities of the metropolitan class established under LB 775 are not, per se, unreasonable and without any conceivable rational basis. Accordingly, we do not believe that LB 775, as amended, represents unreasonable special class legislation in contravention of Article III, Section 18, of the Nebraska Constitution.

Very truly yours,

Attorney General

## **PRESIDENT NICHOL PRESIDING**

### **ATTORNEY GENERAL'S OPINION**

#### Opinion No. 89028

**DATE:** April 4, 1989

**SUBJECT:** Constitutionality of LB 397; Does requiring a collegiate athletic association to observe due process in its disciplinary proceedings violate the Constitution of the State of Nebraska?

**REQUESTED BY:** Senator Ernest Chambers  
Nebraska State Legislature

**WRITTEN BY:** Robert M. Spire, Attorney General  
Dale A. Comer, Assistant Attorney General

LB 397 would require that “{e}very stage and facet of all proceedings of a collegiate athletic association, college or university that may result in the imposition of a penalty for violation of such association’s rule or legislation shall comply with due process of law as guaranteed by the Constitution of Nebraska and the laws of Nebraska.” The bill also creates a cause of action for colleges or universities and individuals who are penalized by a collegiate athletic association without appropriate due process. You have requested our opinion as to whether LB 397 violates the Constitution of Nebraska. We believe that the bill is constitutionally permissible with the possible exception of certain portions of Section 6 dealing with the damages which may be awarded as a result of penalties imposed in violation of the act. Our analysis is set forth below.

As we have noted on previous occasions, a general question on the constitutionality of a legislative bill will necessarily result in a general response from this office. See, Opinion of the Attorney General,

#85157, December 20, 1985. If we are to address specific questions or potential problems with a bill, they must be set out in the opinion request. You have simply asked whether LB 397 violates our state constitution in any sense. We must, therefore, provide a general response to your question in the absence of any description of your specific concerns.

LB 397 would obviously create special obligations for collegiate athletic associations different from those obligations faced by other private associations or corporations. Consequently, it seems to us that a question might be raised as to whether such disparate treatment could constitute a violation of the equal protection guarantee found in Article I, Section 1 of our state constitution. Since LB 397 involves economic or social legislation and disparate treatment which does not reach a fundamental right or suspect class, its constitutionality would be resolved by determining whether a rational relationship exists between a legitimate state interest and the statutory means selected by the Legislature to accomplish that end. School District No. 46 Sarpy County Nebraska v. City of Bellevue, 224 Neb. 543, 400 N.W.2d 229 (1987); State v. Michalski, 221 Neb. 380, 377 N.W.2d 510 (1985). Moreover, the power of classification rests with the Legislature, and our courts will not interfere with that power if real and substantial differences exist which afford a rational basis for the classification. State v. Michalski, *supra*. Section 1 of LB 397 contains a statement of the legislative intent underlying the bill. Considering that legislative intent, we cannot say that there is no rational relationship between the state's interest in affording due process of law within the disciplinary proceedings of a collegiate athletic association and the necessary classification effected by the bill. Therefore, we do not believe that LB 397 involves an impermissible violation of Article I, Section 1 of our state constitution.

The different requirements placed upon collegiate athletic associations under LB 397 also raise a question as to whether LB 397 constitutes special legislation in contravention of Article III, Section 18 of our state constitution. The analysis under this section of our state constitution is quite similar to the analysis outlined above under Article I, Section 1. The question again is whether LB 397 involves a permissible separate classification of collegiate athletic associations.

In connection with Article III, Section 18 of our state constitution, our supreme court has indicated that it is competent for the Legislature to classify objects of legislation, and if the classification is reasonable and not arbitrary, such a classification is a legitimate exercise of the legislative power. State ex rel. Douglas V. Marsh, 207 Neb. 598, 300 N.W.2d 181 (1980). Such a classification must rest upon real differences in situation and circumstances surrounding

members of the class relative to the legislation which renders its enactment appropriate. Id. The power of classification rests with the Legislature and cannot be interfered with by the courts unless it is clearly apparent that the Legislature has by artificial and baseless classification attempted to evade and violate the provisions of our state constitution which prohibit local and special laws. Id.

As was the case with our concerns involving equal protection, we cannot say that the special classification for collegiate athletic associations created by LB 397 would be unreasonable, arbitrary or a questionable exercise of the legislative power. To the contrary, it appears possible to argue that the classification is based upon substantial differences of situation or circumstances, and is entirely reasonable. As a result, we do not believe that LB 397 is special legislation in violation of Article III, Section 18 of our state constitution.

We do have some concern with Section 6 of LB 397. That section provides that a collegiate athletic association which violates the due process provisions of the act shall be liable to an aggrieved college or university for an amount equal to one hundred and fifty percent of the monetary loss per year during the period that any monetary loss occurs due to a penalty imposed in violation of the bill. It appears to us that Section 6 of LB 397 would thus authorize punitive damages to the extent that a collegiate athletic association which violates the act would be liable for more than one hundred percent of the actual loss growing out of a penalty imposed without due process. Where a statute imposes liability for actual damages and also imposes additional liability for the same act, such additional liability is a fine or penalty. Abel v. Conover, 170 Neb. 926, 104 N.W.2d 684 (1960). Under Article VII, Section 5 of our Nebraska Constitution, all fines, penalties and license money arising under the general laws of the state must be appropriated exclusively to the use and support of the common schools. Since Section 6 of LB 397 would allow a plaintiff college or university to collect damages in excess of its actual damages suffered as result of a denial of due process, it appears to us that Section 6 would violate Article VII, Section 5 of our state constitution.

Therefore, it is our opinion that LB 397 generally is constitutional under our state constitution. However, we do believe that there is a potential constitutional problem with the penalty provisions set out in Section 6 of LB 397.

Sincerely yours,  
ROBERT M. SPIRE  
Attorney General

AM1315

1 1. Insert the following new section:

2 "Sec. 9. That section 79-4,207, Revised  
3 Statutes Supplement, 1988, be amended to read as  
4 follows:

5 79-4,207. (1) Each local school board, after  
6 making a determination that an actual or potential  
7 environmental hazard exists within the school buildings  
8 or grounds under its control, may make and deliver to  
9 the county clerk of such county in which any part of the  
10 school district is situated, not later than ~~the first~~  
11 ~~Monday in August 25~~, an itemized estimate of the amounts  
12 necessary to be expended for the abatement of such  
13 environmental hazards in its school buildings or  
14 grounds. Each local school board shall conduct a public  
15 hearing on the itemized estimate prior to presenting  
16 such estimate to the county clerk. Notice of the place  
17 and time of such hearing shall, at least five days prior  
18 to the date set for hearing, be published in a newspaper  
19 of general circulation within the school district or be  
20 sent by direct mailing to each resident within the  
21 school district.

1 (2) The school board shall designate the  
2 particular environmental hazard abatement project for  
3 which the tax levy provided for by this section will be  
4 expended, the period of years, which shall not exceed  
5 ten years, for which the tax will be levied for such  
6 project, and the amount of the levy for each year  
7 thereof. The school board may designate more than one  
8 project and levy a tax pursuant to this section for each  
9 such project, concurrently or consecutively, as the case  
10 may be, if the aggregate levy in each year and the  
11 duration of each levy will not exceed the limitations  
12 specified in this section. Each levy for a project  
13 which is authorized by this section may be imposed for

14 such duration as shall be specified by the school board  
15 notwithstanding the contemporaneous existence or  
16 subsequent imposition of any other levy for another  
17 project imposed pursuant to this section and  
18 notwithstanding the subsequent issuance by the school  
19 district of bonded indebtedness payable from its general  
20 fund levy.

21 (3) For purposes of this section,  
22 environmental hazard shall mean any contamination of the  
23 air, water, land surface, or subsurface caused by any  
24 substance adversely affecting human health or safety if  
1 such substance has been declared hazardous by a federal  
2 or state statute, rule, or regulation.

3 (3) (4) It shall be the duty of the county  
4 clerk to levy such taxes, not to exceed ~~three and~~  
5 ~~one-half~~ five and one-fifth cents per one hundred  
6 dollars of taxable valuation, on the taxable property of  
7 the school district necessary to cover the abatement  
8 costs itemized by the school board. Such taxes shall be  
9 collected by the county treasurer at the same time and  
10 in the same manner as county taxes are collected and  
11 when collected shall be paid to the treasurer of the  
12 proper school district and used to cover the abatement  
13 costs.

14 (4) (5) Each school district which submits an  
15 itemized estimate shall establish an environmental  
16 hazard abatement fund. Taxes collected pursuant to this  
17 section shall be credited to such fund to cover the  
18 abatement costs. Such estimates may be presented to the  
19 county clerk and taxes levied accordingly. ~~In no event,~~  
20 ~~however, may a school board present any such estimates~~  
21 ~~after August 1, 1993.~~ The Commissioner of Education  
22 shall, by January 1, 1993, 1995, 1997, and 1999, deliver  
23 a report to the Legislature estimating the amount of  
24 hazardous materials which remain in the public schools  
1 of the state.

2 (5) (6) The itemized estimate submitted by a  
3 school board may include the actual cost of abatement of  
4 an environmental hazard when such abatement occurred  
5 prior to the delivery of such estimate to the county  
6 clerk and was completed after June 28, 1982.

7 (6) (7) For purposes of this section, the term  
8 abatement shall include, but not be limited to, any  
9 inspection and testing regarding environmental hazards,

10 any maintenance to reduce, lessen, put an end to,  
11 diminish, moderate, decrease, control, dispose of, or  
12 eliminate environmental hazards, any removal or  
13 encapsulation of environmentally hazardous material or  
14 property, any restoration or replacement of material or  
15 property, any related architectural and engineering  
16 services, and any other action to reduce or eliminate  
17 environmental hazards in the school buildings or grounds  
18 under the school board's control, except that the term  
19 abatement shall not include the encapsulation of any  
20 material containing more than one percent friable  
21 asbestos.

22 (8) For the purpose of paying amounts  
23 necessary for the abatement of environmental hazards,  
24 the school board of each affected school district may  
1 borrow money and issue bonds and other evidences of  
2 indebtedness of the school district, which bonds and  
3 other evidences of indebtedness shall be secured by and  
4 payable from an irrevocable pledge by the school  
5 district of amounts received in respect of the tax levy  
6 provided for by this section and any other funds of the  
7 school district available therefor. Bonds and other  
8 evidences of indebtedness issued by a school district  
9 pursuant to this subsection shall not constitute a  
10 general obligation of the school district or be payable  
11 from any portion of its general fund levy. Any school  
12 district may use the Interlocal Cooperation Act in order  
13 to issue and sell such bonds and other evidences of  
14 indebtedness jointly and cooperatively with any other  
15 school district in such manner as they mutually agree  
16 upon, including without limitation as a part of a  
17 transaction in which such school districts borrow money  
18 necessary for the abatement of environmental hazards and  
19 irrevocably pledge amounts received in respect of the  
20 tax levy. No school district shall be or become liable

22 amounts borrowed by another school district in  
23 connection with an environmental hazard abatement  
24 project.”.

**ATTORNEY GENERAL'S OPINIONS**Opinion No. 89030

**DATE:** April 5, 1989

**SUBJECT:** Constitutionality of distributing a portion of the income from school trust lands to certain school districts in the form of in lieu of tax payments

**REQUESTED BY:** Senator Merton L. Dierks  
Nebraska State Legislature

**WRITTEN BY:** Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

Your letter of March 31, 1989, inquires as to whether the Legislature may establish an appropriate level of in lieu of tax payments to be made to the public schools in counties wherein tax exempt school trust land is located and provide that (1) an appropriate portion of those in lieu of tax payments be distributed to the school districts in which such land is located (for example, a percentage equal to such school district's share of the total tax levy which would be made on such land if it were taxable); (2) the remainder of such in lieu of tax payments be distributed to all school districts in the county on an appropriate basis; and (3) all school trust income in excess of those in lieu of tax payments be distributed to all school districts in the state on an appropriate basis.

Section 7 of the Act of Congress to enable the people of Nebraska to form a Constitution and State Government, and for the admission of the State of Nebraska into the Union on an equal footing with the original States, provides in part that:

“And be it further enacted, That sections number sixteen and thirty-six in every township. . . shall be, and are hereby granted to said state for the support of the common schools.”

U.S. Stat. at Large, vol. 13, p. 47. The people of Nebraska in due course formed a Constitution and State Government and thereafter by proclamation of then President Andrew Johnson, Nebraska was admitted to the Union on March 1, 1867.

A grant by Congress of land to a state for the benefit of the common schools is an absolute grant, vesting title for a specific purpose. Alabama v. Schmit, 232 U.S. 168, 34 S.Ct. 301, 58 L.Ed.2d 555 (1914). Hence, Section 7 of the Enabling Act and Section 9 of Article VII of the Constitution of Nebraska require that income from Nebraska’s school trust lands “be exclusively used for the support and maintenance of the common schools in each school district in the state as the Legislature shall provide.”

The fact that these lands are held in trust pursuant to the Nebraska Constitution and Enabling Act has the effect of incorporating the rules of law regulating the administration of trusts and the conduct and duties of trustees. Consequently, the state as trustee of these lands, and of the income therefrom, is required to administer the trust estate under the rules of law applicable to trustees acting in a fiduciary capacity. State ex rel. Ebke v. Board of Educational Lands and Funds, 159 Neb. 79, 65 N.W.2d 392 (1954). This means, among other things, that the state in its capacity as trustee has duties to all beneficiaries of the school trust and cannot lawfully confer special benefits on some to the detriment of others, nor can it lawfully impose special detriments on some to the benefit of others.

In lieu of tax payments, of course, are not taxes, but are merely one form of distributing school trust income to the various school districts of the state. An appropriate level of such in lieu of tax payments to the public schools in geographic areas containing tax exempt school trust land is lawful precisely because it removes a special detriment (or disadvantage) which those areas would otherwise suffer, as compared to other identical areas containing no school trust land. Its purpose is to place all of Nebraska’s school districts on an “equal footing” with one another so that those containing school trust land neither suffer special detriments, nor receive special benefits, due solely to that fact. The discretion vested in the Legislature pursuant to Section 9 of Article VII includes, among other things, its discretion to establish the appropriate level

of such in lieu of tax payments and provide for the distribution of those in lieu of tax payments in such manner as will, in the best judgment of the Legislature, meet its obligations to all beneficiaries of the school trust, including those school districts in areas which include, and others in areas which do not include, tax exempt school trust land.

The system you propose, although different from the present method of distributing in lieu of tax payments, would, in our opinion, be entirely lawful. Since these in lieu of tax distributions would be made exclusively to school districts, this system (like the present method) would not contravene the prohibition against diverting school trust income to non-trust uses which was discussed at length in our Opinion No. 89016 which became official on March 20, 1989. Similarly, it also would not have the defects addressed in our Opinion No. 89022 dated March 24, 1989, wherein we found unlawful a plan which would have (1) ended such in lieu of tax payments entirely, thus imposing special detriments on those school districts in areas of the state containing tax exempt school trust land to the benefit of others in different areas containing no such land, and (2) replaced these in lieu of tax distributions with a different scheme conferring special benefits on some school districts to the detriment of others.

Respectfully submitted,

Opinion No. 89031

DATE: April 6, 1989

SUBJECT: State School Funds; Apportionment; in lieu of tax money

REQUESTED BY: Senators Loran Schmit and Jerry Chizek  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

In connection with school lands, as described in section 7 of the Enabling Act, and the distribution of income earned thereon, you state that it appears to you "that the current system of taking so called 'in lieu of tax' money and distributing these funds to certain selected school districts is clearly unconstitutional." You request our opinion thereon.

This office has not and cannot determine the constitutionality of operative statutes. See, for example, Volume 1 of the 1973 Nebraska Legislative Journal at page 37. That is a function of the courts. Indeed, this office is currently defending in court certain operative statutes which pertain to the distribution of income earned on (1) certain school funds and on (2) certain land granted by the Congress to the State of Nebraska for the support of the common schools.

Accordingly, we must, and do, respectfully decline to offer you our opinion on the "current system of taking so called 'in lieu of tax' money and distributing these funds to certain selected school districts." We simply cannot give opinions to senators on the interpretation of legislative bills which have become operative law.

Respectfully submitted,

Opinion No. 89032

DATE: April 10, 1989

SUBJECT: LB 781, Local Control of Liquor License Applications

REQUESTED BY: Senator Douglas A. Kristensen, District 37  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Elaine A. Catlin, Assistant Attorney General

QUESTION: Whether the amended version of LB 781 addresses the objections the Supreme Court had to LB 911 with regard to delegation of legislative authority and whether LB 781, as amended, may be successfully defended from further constitutional attack based on the unconstitutional delegation of legislative authority.

CONCLUSION: No.

As the opinion request noted, LB 781 is a legislative response to a recent Nebraska Supreme Court decision in Bosselman, Inc. v. State, 200 Neb. 471, \_\_\_ N.W.2d \_\_\_ (1988). In Bosselman, the court concluded that LB 911, enacted by the Eighty-Ninth Legislature in 1986, was an unconstitutional delegation of the State's legislative power to local governing bodies.

In Bosselman, the court held that a delegation of authority must provide the local governing bodies with "adequate, sufficient, and definite standards within which they are to exercise their discretion." Id. at 477, \_\_\_ N.W.2d at \_\_\_. In Bosselman, the court found LB 911 lacking in two respects. First, LB 911, which amended Neb.Rev.Stat. § 53-137(7) (Reissue 1988), provided that local governing bodies were not limited to the licensing criteria enumerated therein; and secondly, that § 53-134.01 allowed local governing bodies to adopt by ordinance, more restrictive licensing standards than those of the Liquor Commission, based on that particular community's needs or standards.

LB 781 has attempted to address those objections by limiting the local governing bodies' deliberations to designated criteria and by removing the provision which allows local governing bodies to adopt by ordinance, more restrictive licensing standards than those of the Liquor Commission.

Although the specific provisions that the court found to be unconstitutional in Bosselman have been removed, the proposed criteria contained in LB 781 are not sufficiently adequate or definite standards which may be successfully defended from further

constitutional attack based on Nebraska Constitution, Article II, Section 1. In Lincoln Dairy Co. v. Finigan, 170 Neb. 777, 104 N.W.2d 227 (1960), milk processors challenged as an unconstitutional delegation a statute which empowered the Director of the Department of Agriculture and Inspections to adopt by regulation minimum standards for Grade A milk products in general compliance with the Milk Ordinance and Code of the U.S. Public Health Service, violation of which would constitute a misdemeanor. The court held that the statute unconstitutionally delegated to an administrative officer the Legislature's power to define crimes. The court stated that the limitations of the power granted by the Legislature and the standards by which the granted powers are to be administered must be clearly and definitely stated in the authorizing act.

In Ewing v. Bd. of Equalization, 227 Neb. 798, 420 N.W.2d 685 (1988), a suit was brought challenging the constitutionality of a statute dealing with tuition charged by school districts receiving nonresident high school students. In holding a portion of the statute unconstitutional, the court noted that the power delegated by the statute is the power to levy a tax, and the tax was not clearly limited as to amount and purpose. The court noted that the controlling issue on this point is that the delegation must be limited to a determinable degree.

The court also addressed the issue of the delegation of authority in State ex rel. Douglas v. Neb. Mortgage Finance, 204 Neb. 445, 283 N.W.2d 12 (1979). In that case, the court held that the Mortgage Finance Fund Act did not result in the impermissible delegation of powers reserved to the Legislature. The court noted that a legislative enactment may properly confer general powers upon an administrative agency and delegate to the agency the power to make Rules and Regulations concerning the details of the legislative purpose. The court noted that the standards used in conferring discretionary power upon an administrative agency must be reasonably adequate, sufficient, and definite for the guidance of the agency in the exercise of the power conferred upon it and must also be sufficient to enable those affected to know their rights and obligations.

LB 781 would amend the Nebraska Liquor Control Act by providing twenty-two criteria to be used in an application for a retail liquor license. The criteria to be used by a local governing body are identical to the criteria which would be used by the Commission. The Act provides for only consideration of the listed criteria and does not empower a local governing body to enact ordinances with more restrictive licensing standards. Therefore, the two specific provisions which were held unconstitutional by the court in Bosselman have

been eliminated. However, the proposed criteria do not provide adequate, sufficient, and definite standards within which the local governing body may exercise their discretion. In particular, § 53-132(3)(i), (j), and (r) are vague and do not appear to set a definite standard. These subsections are several of the enumerated criteria and read as follows:

(i) The nature of the neighborhood or community where the proposed premises are located;

(j) Whether the type of business or activity proposed to be operated or presently operated in conjunction with the proposed license is and will be consistent with the public interest;

(r) Whether the application will provide an improvement to the neighborhood, a betterment for the community, or an increase in service to the public at large.

Additionally, § 53-134 would provide that the designated criteria prescribed in the subsections shall not necessarily be of equal value that can be computed in a mathematical formula. Such designated criteria shall be weighed and cumulated positively and negatively. It shall be the applicant's duty to produce evidence pertaining to the designated criteria prescribed in this subsection. The burden of proof and persuasion shall be on the party filing the application.

In reviewing the criteria listed above, it appears that a local governing body would have the discretion to deny any application if the applicant failed to prove that he would provide an improvement to the neighborhood, a betterment to the community, or an increase in service to the public at large, or if the applicant failed to prove that the proposed license would be consistent with the public interest. Arguably, a local governing body could take the position that any retail liquor license would not be an improvement to the community nor would it be consistent with the public interest. Additionally, since the factors are only weighed in a positive and negative fashion and a mathematical formula is not applied, it would appear that an application could be denied solely on the basis of the applicant's inability to prove that the proposed license would be consistent with the public interest. The standard is also sufficiently vague that it would be difficult for an applicant to garner evidence which would establish that all of the criteria have been met. This standard does not appear to meet the test of enabling those affected to know their rights and obligations as required in Neb. Mortgage Finance, supra. Although an applicant may be required to prove its fitness and willingness to provide the service proposed, its ability to conform to the Rules and Regulations of the Nebraska Liquor Control Act, that the management and control exercised over the premises will ensure compliance with such Rules and Regulations, and that the issuance

of the license is or will be required by the present or future public convenience and necessity; it seems unreasonable to require the applicant to prove that the license will be consistent with the public interest and will provide an improvement to the neighborhood. See, Kerry's Inc. v. Nebraska Liquor Control Commission, 213 Neb. 442, 329 N.W.2d 364 (1983).

The proposed delegation also appears to violate equal protection provisions of the United States and Nebraska Constitutions. In addressing equal protection with respect to liquor licenses, the Nebraska Supreme Court has said:

"The right to engage in the sale of intoxicating liquors involves a mere privilege; and restrictive regulations or even a suppression of the traffic do not deprive persons of property without due process of law, violate the privileges or immunities clause, the due process clause, the uniformity provisions, nor, unless they contain irrational classifications or invidious discriminations, the equal protection of the law as prohibited by the state and federal Constitutions."

Bali Hai', Inc. v. Nebraska Liquor Control Commission, 195 Neb. 1, 8, 236 N.W.2d 614, 618 (1975). However, justification for classification must exist, and purely arbitrary treatment cannot be sustained. Tom & Jerry, Inc. v. Nebraska Liquor Control Commission, 183 Neb. 410, 160 N.W.2d 232 (1968).

"A legislative classification must operate uniformly on all within a class which is reasonable. Exemptions are allowed where they are made applicable to all persons of the same class similarly situated." Casey's Gen. Stores v. Nebraska Liq. Cont. Comm., 220 Neb. 242, 243, 369 N.W.2d 85, 87 (1985).

"While it is competent for the Legislature to classify for purpose of legislation, the classification, to be valid, must rest on some reason of public policy, some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified."

Tom & Jerry, Inc. v. Nebraska Liquor Control Commission, *supra* at 417, 160 N.W.2d at 237.

Gas 'N Shop v. Nebraska Liquor Control Commission, 229 Neb. 530, 539, \_\_\_ N.W.2d \_\_\_ (1988).

In the proposed legislation, local governing bodies may make a binding recommendation to the Commission on license applications or the local governing body may leave the decision to the Commission. No criteria are included which would guide the local governing body in determining whether the local governing body will submit a binding recommendation to the Commission. Presumably,

the local governing body may decide to submit a binding recommendation to the Commission for any reason or for no reason at all. Additionally, either the local governing body or the Commission may suspend, cancel or revoke a license.

By their very nature, it would appear that local governing bodies would apply a local standard in rendering a decision on applications, suspensions, cancellations and revocations while the Commission would apply a state standard. It appears that a classification for local decisions and a classification for Commission decisions have been created. However, no criteria have been established to determine under which classification a particular application, suspension, cancellation or revocation will be processed. Since this legislation does not appear to operate uniformly on all applicants and licensees and no justification for the distinction exists, it violates equal protection provisions.

These equal protection violations also appear in the appeal procedures. In the past, the Nebraska Supreme Court has held that the standards for the Administrative Procedures Act are applicable to appeals from decisions of the Commission. See Gas 'N Shop, supra. Since a local governing body does not qualify as an administrative agency under the Neb.Rev.Stat. §84-901, the appeal standards contained in the Administrative Procedures Act do not apply to local governing bodies. Therefore, an appeal from an application may be judged on different standards of review, depending on which body made the decision.

Similarly, since the Administrative Procedures Act applies to the Commission, all actions taken by the Commission should conform to requirements to the Administrative Procedures Act. The procedures provide for the Commission to serve a party with a notice of denial but do not provide for a hearing by the Commission and therefore, do not conform to the Administrative Procedures Act. Since the Commission is required to act in contested cases, but is not required to follow the Administrative Procedures Act, an applicant is denied due process of law.

For these reasons, we believe LB 781 cannot be successfully defended against attacks of unconstitutional delegation of legislative authority.

Sincerely,  
ROBERT M. SPIRE

Opinion No. 89033

DATE: April 4, 1989

SUBJECT: The Constitutionality of a Proposed Amendment to the State Claims Bill, LB 811, Seeking to Appropriate Additional Funds to Pay a Claim Which Has Already Been Settled.

REQUESTED BY: Senator George Coordsen  
District No. 32

WRITTEN BY: Lisa D. Martin-Price  
Assistant Attorney General

QUESTION: 1. Whether an amendment to the claims bill, LB 811, is constitutional when it seeks to appropriate additional funds to pay a claim which has already been settled, and when a full, complete, and legally binding release has been executed by all of the parties involved?

CONCLUSION: 1. No. Such an amendment would constitute special legislation in contravention of Article III, Section 18 of the Nebraska Constitution and the principles of sovereign immunity. Moreover, this amendment would violate the separation of powers doctrine set forth in Article II, Section 1 of the Constitution.

QUESTION: 2. Whether the Legislature, by an amendment to the claims bill, can appropriate funds to pay a claim which has not yet been presented to the State Claims Board?

CONCLUSION: 2. No. Again, a reading of the pertinent statutes and case law indicates that such an amendment would constitute special legislation in contravention of Article III, Section 18 of the Nebraska Constitution and the principles of sovereign immunity.

In your first question, you have asked whether an amendment to LB 811, the claims bill, is constitutional when it seeks to appropriate additional funds to pay a claim which has already been settled, and when a full, complete, and legally binding release has been executed. Specifically, you are concerned about Senator McFarland's amendment to LB 811, Am 1002, wherein he proposes to pay an extra \$1,000.00 to a private individual above and beyond a settlement amount already agreed to and paid by the State of Nebraska and other defendants. It is the opinion of this office that this proposed amendment is unconstitutional for a number of reasons.

First, the proposed amendment violates the principles of sovereign immunity. Article V, Section 22 of the Nebraska Constitution provides: "The state may sue and be sued, and the Legislature shall provide by law in what manner and in what courts suits shall be brought." The Nebraska Supreme Court has held on numerous occasions that this section is not self-executing, and that the Legislature must, by specific and clear legislation, waive the immunity of the state in order for anyone to bring an action against the state. Gentry v. State, 174 Neb. 515, 118 N.W.2d 643 (1962) Vision Quest, Inc. v State, 222 Neb. 228, 383 N.W.2d 22 (1986).

In accordance with these propositions of law, the Legislature has enacted the State Claims Acts. See Neb.Rev.Stat. §§81-8,209 et seq. (Tort Claims); 81-8,294 et seq. (Miscellaneous Claims), and 81-8,302 et seq. (Contract Claims). These general statutes set forth the specific means by which tort and nontort claims, for which no money has been specifically appropriated, may be prosecuted; thus, they provide the exclusive remedy for individuals to sue the state for tort, miscellaneous, and contract claims. The state has not waived its sovereign immunity to be sued for such claims in any other manner.

The facts which are at issue here involve an original settlement agreement between the state, other defendants, and Barbara Shaw which would have called for the state to pay to Ms. Shaw \$25,000.00. Ms. Shaw was required to file a miscellaneous claim for this amount with the State Claims Board. Said claim was allowed by the Board and forwarded to the Legislature for appropriation. The Legislature, however, deleted \$2,500.00 from the appropriation amount. For this reason, two state employees became responsible personally for this amount. However, because of certain actions by Ms. Shaw which arguably breached the earlier settlement agreement and LB 1235, which requires that a full release of all parties be given before payment can be made, the parties engaged in further good faith bargaining as to the amount that these individuals would be required to pay to her. The result of these negotiations was that Ms. Shaw agreed to accept \$1,500.00 instead of \$2,500.00 as payment in full of her claims against these employees. This amount, together with the amount appropriated by the Legislature, has been paid in full, and a release has been executed by Ms. Shaw. Under the principles of sovereign immunity, the Legislature has no authority under the Nebraska Constitution to alter this settlement.

However, by proposing amendment 1002, Senator McFarland has essentially asked the Legislature to ignore the principles of sovereign immunity and enact special legislation in contravention of Article III, Section 18 of the Nebraska Constitution. Article III, Section 18 provides in pertinent part that: "The Legislature shall not pass local

or special laws . . . {g}ranting to any corporation, association, or individual any special or exclusive privileges, immunity, or franchise whatever. . . . In other cases where a general law can be made applicable, no special law shall be enacted.”

This provision of the Nebraska Constitution was addressed in the leading case of Cox v. State, 134 Neb. 751, 279 N.W. 482 (1938), cited with approval in Smith v. Government of Virgin Islands, 375 F.2d 714 (3rd Cir. 1967). There, a legislative bill was passed which waived, for the plaintiff alone, the statute of limitations, and thereby the sovereignty of the state, and created liability on the part of the state for the negligence of its agents and servants. The Nebraska Supreme Court held that the Legislature’s attempt to waive the sovereign immunity of the state and create liability on the state’s part in favor of an individual for negligence was a special law in violation of Article III, Section 18. In so holding, the court reasoned: “It therefore seems apparent that only by general law, uniform in its application to persons, can liability of the state be constitutionally created for the negligence of its agents and servants.” With this language, the court indicated that, by according preferred status to the plaintiff, the bill made an unreasonable distinction between the plaintiff and similarly situated citizens whose recovery for similar injuries would be barred.

Applying this holding to the instant case, it is patently obvious that, by ignoring the general laws providing the sole remedies for tort and nontort claims, the amendment in question attempts to enact special legislation to inure to the benefit of a private individual which privilege has not been extended to other individuals who have followed the claims process. AM 1002 is a special law providing for the payment of a gift in the amount of \$1,000.00 to a designated person and not to a class of people, even though this person has already negotiated and received a fair settlement under the general laws, which provide that the claims process exists as her exclusive remedy.

Secondly, AM 1002 violates the separation of powers doctrine set forth in Article II, Section 1 of the Nebraska Constitution, which provides: “The powers of the government of this state are divided into three distinct departments, the legislative, executive and judicial, and no person or collection of persons being one of these departments, shall exercise any power properly belonging to either of the others, except as hereinafter expressly directed or permitted.” Pursuant to Article IV, Section 1 of the Nebraska State Constitution, the Attorney General is an executive officer.

The Attorney General and his designees are vested with broad common law and statutory powers to carry out the duties of the

Office. The inherent power and authority of the Attorney General to initiate and defend actions, to make decisions regarding strategy, and to negotiate and enter into settlements was addressed in State v. State Board of Equalization and Assessment, 123 Neb. 259, 242 N.W. 609 (1932), cited with approval in State v. Douglas, 217 Neb. 199, 349 N.W.2d 870 (1984). There, the Nebraska Supreme Court held that the Attorney General is the principal law officer of the state. Id. at 262. In this regard, the court stated:

We find that a late case, which is in line with the weight of authority, is State v. Finch, 128 Kan. 665, 66 A.L.R. 1369, which traces the powers and duties of the Office of the Attorney General at common law from the earliest times to the present time, and holds: 'Ordinarily the Attorney General, both under common law and by statute, is empowered to make any disposition of the state's litigation which he deems for its best interest. (Emphasis added.) Id. at 261. Moreover, the court stated that the Attorney General is clothed and charged with all common law powers and duties except to the extent that they are limited by statute; and, as the chief law officer of the state, he is authorized to exercise all such power and authority as the public interests may require, absent some express legislative restriction to the contrary. Id. at 261-262 State v. Douglas, 217 Neb. at 237.

These common law powers and duties were later codified by the Nebraska Legislature. Neb.Rev.Stat. §84-202 (Reissue 1987) provides:

The Department of Justice shall have the general control and supervision of all actions and legal proceedings in which the State of Nebraska may be a party or may be interested, and shall have charge and control of all the legal business of all departments and bureaus of the state, or of any office thereof, which requires the services of attorney or counsel in order to protect the interest of the state. (Emphasis added.)

With respect to the Miscellaneous Claims Act, it is provided that: "{t}he Attorney General shall be the legal advisor to the board for the purposes of this section and may authorize the Assistant Attorney General in charge of the Claims Division to perform any of his or her duties under this section." Neb.Rev.Stat. §81-8,297 (1988 Cum.Supp.).

Thus, it is clear from a reading of the cases and relevant statutes that the Attorney General and his designees have the power and duty to represent the state when tort and nontort claim are filed against it pursuant to the State Claims Acts. These powers include negotiating settlements and settling litigation. AM 1002, by proposing an additional payment of \$1,000.00 over the amount of a settlement consummated by the Attorney General would, in essence, have the

legislature exercise the duties and powers of the Attorney General, an executive officer. This is clearly an unconstitutional violation of the separation of powers doctrine.

In your second question, you ask whether the Legislature, by an amendment to the claims bill, can appropriate funds to pay a claim which has not first been presented to the State Claims Board in accordance with the claims statutes. Again, our reading of the pertinent statutes and case law indicates that such an amendment would violate the principles of sovereign immunity and constitute special legislation in contravention of Article III, Section 18 of the Nebraska Constitution. The legal reasoning and basis for this conclusion has been previously discussed within the body of this opinion and will not be restated here. However, it is clear that the Legislature has waived the state's sovereign immunity to be sued only to the extent and in the manner set forth in the claims acts. With respect to miscellaneous claims, Neb.Rev.Stat. §81-8,296 (1988 Cum.Supp.) states: "The State Claims Board shall have the power and authority to receive and investigate miscellaneous claims against the state." Section 81-8,300 further provides that if the claimant is dissatisfied with the Board's decision, he or she may file an application for review by the Legislature. However, it is clear that the statutory prerequisite to review by the Legislature is that a claim must first be filed with the State Claims Board and a decision rendered by it before the Legislature may review the claim. If the Legislature bypassed this process for one individual, thereby attempting to waive the state's sovereign immunity, the Legislature would be enacting special legislation for the benefit of a single person as against all other similarly situated persons.

Sincerely yours,

 3 Statutes Supplement, 1988, be amended to read as  
 4 follows:

5 77-1510. Appeals may be taken from any action  
 6 of the county board of equalization to the district  
 7 court in the following manner:

8 (1) The appeal shall be filed within  
 9 forty-five days after adjournment of the board which  
 10 shall be deemed to be May 31 of the year in which the  
 11 action is taken;

12 (2) The appeal shall be deemed to be filed for  
 13 purposes of granting jurisdiction with the filing of the  
 14 petition in district court; and

15 (3) A bond of no less than fifty dollars and  
 16 no more than two hundred dollars, as determined by the  
 17 district court, shall be filed with the petition in the  
 form of a cash deposit or signature bond, property bond,  
 19 or other bond approved by the county clerk.

20 After an appeal has been initiated, the board  
 21 shall have no power or authority to compromise, settle,  
 1 or otherwise change the action it has taken with respect  
 2 to such assessment, and exclusive jurisdiction thereof  
 3 shall be vested in the district court. No appeal shall  
 4 in any manner suspend the collection of any tax, or the  
 5 duties of officers relating thereto, during the pendency  
 6 of the same, and all taxes affected thereby, which may  
 7 be collected, shall be distributed as though no appeal  
 8 were pending. If by final order of a court it is  
 9 thereafter determined that ~~such tax or a part thereof~~  
 10 ~~should be refunded, the county treasurer is authorized~~  
 11 ~~to make the refund upon receiving a certified copy of~~  
 12 ~~such final order, the refund to be made from funds in~~  
 13 ~~his or her possession or accruing to the various taxing~~  
 14 ~~districts to the extent which they profited from the~~  
 15 ~~original overpayment~~ the value of the property should be  
 16 reduced, any tax collected on the value in excess of the  
 17 actual value found by the court shall be refunded in the

18 manner provided in section 77-1736.04, and the taxpayer  
19 shall not have been required to pay the tax under  
20 protest or pay the tax and initiate a refund claim.

21 The county may cross appeal, without giving  
22 bond, for the reason that the actual value of the  
23 owner's property is too low and should be increased in  
24 value as of the assessment date from which the appeal  
1 was taken.

2 In the event that the taxpayer as a part of  
3 his or her appeal challenges the values as determined by  
4 the agricultural land valuation manual as issued by the  
5 Tax Commissioner, the taxpayer shall at the time of  
6 filing his or her petition give notice to the Tax  
7 Commissioner of any such challenge and serve a copy of  
8 the petition upon the Tax Commissioner by certified mail  
9 within three days of the filing of the petition, and  
10 thereafter the Tax Commissioner shall be considered a  
11 party defendant in the appeal. Notwithstanding the  
12 denominating of the Tax Commissioner as a party  
13 defendant, the Tax Commissioner shall not be required to  
14 further plead in the cause but shall have the privilege  
15 of participating in the action without the necessity of  
16 intervention. The burden of proof shall be on the  
17 taxpayer to show the defect of the values as established  
18 in the agricultural land valuation manual. The court in  
19 its final order may, if the taxpayer has sustained his  
20 or her burden of proof, alter the valuation as  
21 established in the agricultural land valuation manual,  
22 in which case the court shall as a part of its findings  
23 set out specifically the defect found and the factual  
24 basis supporting such finding.

1 Any party may appeal the final order of the  
2 district court entered pursuant to this section to the  
3 Supreme Court in the manner provided for appeals in  
4 equity cases, and the Supreme Court shall thereafter  
5 review the case de novo on the record.

6 Sec. 6. (1) When property is valued or  
7 equalized by the Tax Commissioner or the State Board of  
8 Equalization and Assessment and an appeal is taken from  
9 such valuation or equalization and the final result of  
10 such appeal establishes a lower value than that on which  
11 taxes have been paid, the amount of taxes paid or the  
12 value in excess of that finally determined value shall  
13 be refunded to the taxpayers who have paid such tax.

14           (2) The Tax Commissioner upon receiving a  
15 certified copy of such final order shall certify the  
16 amount of the refund to the county treasurer of the  
17 county or counties to whom the tax was paid or  
18 distributed. If only valuation was previously certified  
19 to a county or counties, then the Tax Commissioner shall  
20 certify the value resulting from the final decision to

**ATTORNEY GENERAL'S OPINION**Opinion No. 89034

**DATE:** April 11, 1989

**SUBJECT:** LB 182

**REQUESTED BY:** Senator Don Wesely  
Nebraska State Legislature

**WRITTEN BY:** Robert M. Spire, Attorney General  
A. Eugene Crump, Deputy Attorney General

**QUESTION:** Do the provisions in LB 182 providing the juvenile courts with authority to order a specific placement of juveniles committed to the Department of Social Services with costs to be borne by the Department create a constitutional problem?

**CONCLUSION:** Yes. In our opinion the provisions would be constitutionally suspect from the standpoint of separation of powers.

This is in response to your request for an opinion concerning the constitutionality of LB 182. You were concerned about the provisions in the bill which allow the Juvenile Courts to order the Department of Social Services to provide specific placement or care to the juveniles who are committed to it and to pay for the costs of all such placement, care, and treatment. You expressed concern about the courts having access to the state treasury and having authority to direct the operations of an executive branch agency.

Section 1 and Section 2(1) provide for a Juvenile Review Panel consisting of three county or juvenile judges appointed by the Supreme Court after a request from a county or separate juvenile court when a court orders a plan different than the plan prepared by the Department of Social Services. Pursuant to Section 5 the panel shall review the disposition of the court de novo on the record. The panel may then modify the court ordered plan, the department's plan, or the probation officer's plan or may substitute the department's

plan or probation officer's plan for the court ordered plan and remand the case back to the court with directions to implement such plan. Section 5 provides that review shall not stay the order under consideration, and the order shall be final and binding except that the decision may be appealed.

The Nebraska Supreme Court has already addressed the issue in a similar context. This office represented the Department of Social Services in a successful appeal which resulted in the holding in In Re Interest of G.B., M.B., and T.B., 227 Neb. 512, 418 N.W.2d 258 (1988). In that case the Supreme Court did not find it necessary to rule on the constitutionality of a juvenile court's actions as the court found that the juvenile court was unauthorized to place a child in the Department's custody and then specify placement under Neb.Rev.Stat.§43-247(3) in its current or present form.

LB 182 seeks to change the authority of the Department over juveniles in its custody. Briefly, the bill will allow juvenile courts to determine development plans for these juveniles. These "court ordered plans" shall be subject to de novo review by a panel of three judges. They may only modify the plan if they find clear, convincing evidence that the plan is not in the juvenile's best interest. Thus, it would appear that this is an amendment to remedy or circumvent the Supreme Court's previous ruling cited above.

This bill raises an issue of separation of powers in light of Scotts v. State ex rel., Board of Nursing, 196 Neb. 682, 244 N.W.2d 683 (1976). There the Supreme Court dealt with the statute authorizing the District Court to substitute its own judgment for that of the Board of Nursing concerning the licensing of a nurse. The District Court concluded as a matter of law that the applicant's acts and omissions did not constitute unprofessional conduct, contrary to the Board's finding. The Supreme Court held that the District Court was in violation of separation of powers;

A Statute which purports to give the court the power to review an exercise of legislative power de novo in the sense that the court may substitute its own judgment for that of the administrative agency to which the Legislature has appropriately delegated the power is unconstitutional. (p. 688).

Judicial infringement on the executive functions of a Social Services Department was addressed in Lorie C. v. St. Lawrence County Department of Social Services, 49 N.Y.2d 161, 400 N.E.2d 336 (1980). There the court ordered plan, although similar to what is authorized under LB 182, was found to be beyond the court's authority "because it establishes general overview of the function of the Department of Social Services, because it denigrates from the functions allocated by the Legislature to the Department of Social

Services and because . . . to hold otherwise would raise serious questions concerning the constitutionality of the section" (p. 341). The section in Lorie, supra, authorized the court to do those things necessary in rendering "assistance and cooperation" to the Department of Social Services.

Language from that case is of interest here.

. . . the first question to be answered is not whose plan is best, but in what branch of the Government is lodged the authority to initially devise the plan. . . .

A related but more important reason is the principle several times declared by us in recent years that courts do not normally have overview of the lawful acts of appointive and elective officials involving questions of judgment, discretion, allocation of resources and priorities.

Id. at 341.

Although the language of the section was not as broad as LB 182, the court still sought to substitute its judgment for the judgment of the Department, and the case did address the constitutionality of the act.

The impact of such a function being performed by a court was noted In the Matter of J.J., 431 A.2d 587 (D.C. 8 App. 1981). There the Family Division Court was found to have appropriated the custody and supervision function of the Department of Social Services upon ordering the Department to pay for the juvenile's expenses without placing the juvenile in the Department's custody. The effect would be similar under LB 182 in that the agency would be left "to do nothing more than pay the bills." In doing so the court attempted to combine judicial and administrative roles, that under our tripartite system of government, must be kept separate" (p. 593). It would follow that this reasoning would militate against such court ordered plans of service, treatment, and placement.

Although LB 182 does remove specific authority from the Department in regard to placement and treatment the fact remains that the Department is the principal resource alternative of the juvenile courts. The Department is charged with the responsibility of funding the placement and treatment of each child committed to it. This is an executive function that is limited by the proposed legislation. It would appear to us that the practical result would be the judicial branch actually making discretionary decisions for an executive agency and would, therefore, be suspect under the Constitution of the United States and the Nebraska Constitution.

Sincerely,  
ROBERT M. SPIRE  
Attorney General

16 and documents in connection with such hearings. The  
17 department may administer oaths or affirmations in any  
18 hearing or investigation.

19 Sec. 57. Any order or decision of the  
20 director may be appealed, and the appeal shall be in  
21 accordance with the Administrative Procedure Act.

1 act shall be guilty of a Class IV misdemeanor.

 6 that it is the policy of the State of Nebraska, in  
 7 furtherance of its responsibility to cooperate and  
 8 coordinate with the Central Interstate Low-Level  
 9 Radioactive Waste Compact Commission and to protect the  
 10 health, safety, and welfare of its citizens and the  
 11 environment:  
 12 (a) To provide for the availability of  
 13 capacity either within or outside the state for the  
 14 commercial disposal of low-level radioactive waste  
 15 generated within the state at commercial low-level  
 16 radioactive waste disposal facilities as designated by

12 construction and maintenance of a low-level radioactive

1 1. Strike original section 8 and insert the

2 following new section:

3       “Sec. 8. (1) Each county treasurer receiving  
4 funds for property tax reduction shall determine the  
5 amount of the property tax reduction for each taxpayer  
6 by applying the property tax relief percentage  
7 determined pursuant to section 6 of this act to the tax  
8 due, except that no taxpayer shall receive a reduction  
9 of more than five hundred dollars. Any funds remaining  
10 after such reduction shall be returned to the State  
11 Treasurer for credit to the Property Tax Relief Trust  
12 Fund.

13       (2) Each county treasurer shall certify to the  
14 Tax Commissioner the identities of taxpayers within the  
15 county receiving the maximum reduction under subsection  
16 (1) of this section and the amount of property taxes  
17 levied against such taxpayers. The Tax Commissioner  
18 shall then determine whether any taxpayer receiving the  
19 maximum reduction has property in more than one county.  
20 A taxpayer eligible for the maximum reduction in any  
21 county shall not receive any reduction other than in the  
1 county where the taxpayer's property taxes are greatest.

2       (3)(a) The Tax Commissioner shall determine  
3 the amount available for additional property tax  
4 reduction by determining the difference between the  
5 amount available to taxpayers receiving the maximum  
6 reduction if they were eligible for the percentage of  
7 property tax relief pursuant to subsection (4) of  
8 section 6 of this act and the amount such taxpayers  
9 actually received under subsection (2) of this section.

10       (b) The property tax relief percentage to be  
11 used for additional property tax reduction shall be  
12 computed by dividing the amount available for such  
13 additional reduction by the amount of property taxes  
14 levied statewide on those taxpayers who did not receive  
15 the maximum reduction under subsection (1) of this  
16 section. The State Board of Equalization and Assessment  
17 shall then certify such property tax relief percentage  
18 to the Tax Commissioner.

19       (4) The Tax Commissioner shall immediately  
20 compute the amount available for additional property tax  
21 reduction for each county by multiplying the total  
22 amount of property taxes levied and certified by each  
23 county on those taxpayers who did not receive the  
24 maximum reduction under subsection (1) of this section

1 by the property tax relief percentage determined  
 2 pursuant to subsection (3) of this section and notify  
 3 the State Treasurer and each county treasurer of the  
 4 property tax relief percentage and the amount to be  
 5 distributed to each county.

6 (5) Each county treasurer receiving funds for  
 7 additional property tax reduction shall determine the  
 8 amount of such reduction for each eligible taxpayer by  
 9 applying the percentage of property tax relief  
 10 determined pursuant to subsection (3) of this section to  
 11 the amount of tax due from each taxpayer not receiving  
 12 the maximum reduction under subsection (1) of this  
 13 section. No taxpayer shall receive more than a total of  
 14 five hundred dollars in property tax reductions under  
 15 this subsection and subsection (1) of this section.

16 (6) Each county treasurer shall certify to the  
 17 Tax Commissioner the identities of taxpayers within the  
 18 county receiving the maximum reduction under subsections  
 19 (1) and (5) of this section, and the Tax Commissioner  
 20 shall determine whether any such taxpayer has property  
 21 in more than one county. Such taxpayer shall not  
 22 receive any reduction other than in the county where the  
 23 taxpayer's property taxes are greatest.

24 (7) Any funds not distributed due to taxpayers  
 1 receiving the maximum reduction shall be returned to the  
 2 State Treasurer and placed in the Property Tax Relief  
 3 Trust Fund.

4 (8) The county treasurer shall notify each  
 5 taxpayer on his or her annual property tax statement of  
 6 the total amount of property taxes levied against the  
 7 property, the total percentage and amount of property  
 8 tax reduction allowed, and the net amount of taxes due.  
 9 Upon payment of the taxes, if any delinquency exists,  
 10 the county treasurer shall collect interest on the  
 11 entire amount of taxes levied against the property.”.

## ATTORNEY GENERAL'S OPINION

Opinion No. 89036

DATE: April 17, 1989

SUBJECT: Construction and Validity of Legislative Bill 311  
Providing for Amendment of the Nebraska  
Investment Finance Authority Act and the  
Wastewater Treatment Facilities Construction  
Act

REQUESTED BY: Sandra K. Scofield, State Senator  
Legislative District No. 49

WRITTEN BY: Robert M. Spire, Attorney General  
Fredrick F. Neid, Assistant Attorney General

This is in response to your questions concerning proposed Legislative Bill 311 which provides for funding of projects from the Wastewater Treatment Facilities Construction Loan Fund.

The first question you have asked is whether the State would be "contracting a debt" by the State's obligation to repay loans with interest provided for in Section 6 of the proposed bill. This question is factual in nature and concerns the contracting of debt within the meaning of Article XIII, Section 1, of the Nebraska Constitution.

Article XIII, Section 1, of the Nebraska Constitution, in pertinent part, states:

The state may, to meet casual deficits, or failures in the revenue, contract debts never to exceed in the aggregate one hundred thousand dollars, and no greater indebtedness shall be incurred except for the purpose of repelling invasion, suppressing insurrection, or defending the state in war, and provision shall be made for the payment of the interest annually, as it shall accrue, by a tax levied for the purpose, or from other sources of revenue, which law providing for the payment of such interest by such tax shall be irrevocable until such debt is paid;...

(Emphasis supplied.)

Section 6 of LB 311 would empower and authorize the Nebraska Investment Finance Authority to "make and undertake commitments to make loans to the Wastewater Treatment Facilities Construction Loan Fund to be used to make loans for wastewater treatment projects." It is our conclusion that the State would be contracting a

debt by pledging resources of the Fund to secure the repayments of loans to or deposits to the Fund.

The ancillary question you have raised is whether "the debt to NIFA would exceed in the aggregate \$100,000.00?" We, of course, have no information or knowledge as to future contemplated commitments of the Fund. It does appear that the Nebraska Investment Finance Authority would be authorized by the Act to pledge resources which would in the aggregate exceed \$100,000. Your related inquiry is that if the debt exceeded \$100,000, would this violate the constitutional prohibition that the State may not contract debts to exceed in the aggregate \$100,000.

In analyzing this question, it is important to note that the "Special Fund Doctrine" has been recognized by the Nebraska Supreme Court. This Doctrine generally sets out the principle that constitutional prohibitions regarding debt do not apply to indebtedness which would be payable from revenues derived from a "special fund" and not from general funds.

In State ex rel. Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445, 283 N.W.2d 12 (1979), the court held that the Fund which provided for financing of low cost housing did not violate the prohibitions found within Article XIII of the Nebraska Constitution. In this case, the court recognized the "Special Fund Doctrine" and upheld the constitutionality of the Nebraska Mortgage Finance Fund. The rationale of the court was that the issuance of bonds provided under the Act did not constitute an extension of credit by the State in that no state funds were involved in the repayment of debt contemplated by the Act. The Nebraska Mortgage Finance Fund Act was construed as providing that the bonds were to be repaid out of revenue derived from the Fund and that no State appropriation, revenue, or tax would be used to repay the bonds.

In an earlier case, State ex rel. Meyer v. Duxbury, 183 Neb. 302, 160 N.W.2d 88 (1968), the court considered the constitutionality of the Nebraska Clean Waters Commission Act which created the Nebraska Clean Waters Commission. This Act authorized issuance of bonds and making of loans to municipalities for water treatment projects and facilities. The court held specifically that the bonds and notes issued by the Commission were general obligations of the Commission, payable solely from funds of the Commission, and not a liability of the State. However, the court did note that the Act provided that other funds were available to make payment on the Commission's bonds. The other funds consisted of fees, charges, and appropriations, and to this extent, the court held that the Act violated the constitutional limitation on indebtedness.

Your inquiry presents very close questions in that plausible arguments may be advanced for upholding the validity of the proposed bill relating to the funding of projects from the Wastewater Treatment Facilities Construction Loan Fund. It may be contended that the Act does not violate the constitutional debt limitation because funds which may be used for loan security or bond repayment purposes have already been appropriated. The general rule is that an obligation for which an appropriation is made at the time of its creation from funds already in existence, or for which definite provision has been made, is not within the operation of a limitation of indebtedness provision. State ex rel. Douglas v. Thone, supra.

In State ex rel. Meyer v. Steen, 183 Neb. 297, 160 N.W.2d 164 (1968), a legislative act which authorized the construction of a state office building to be financed by revenue bonds, payable in part from the general revenue of the State, violated the constitutional limitation upon indebtedness as well as the constitutional provision against continuing appropriations. The court rejected the argument that the debt limitation provision of the Constitution was not applicable because the bonds and notes authorized were payable only from the State Game Fund and not from general taxation. The court considered this arrangement to be a form of financing which the constitutional provision was intended and stated:

One purpose of the constitutional limitation upon state indebtedness is to prevent the anticipation of revenue by the creation of obligations to be paid from revenue to be received in future fiscal periods. Obligations which are to be paid from revenue subject to appropriation by future Legislatures are subject to the state debt limitation provision.

Id. at 300, 160 N.W.2d at 167.

It may not be concluded with certainty that the sources of state funds would be from existing appropriations. In reviewing the proposed bill, it is noted that the amounts of prospective obligations are not known; and for this reason, it is not known what amounts may be called upon or demands made upon the Fund. Accordingly, it may be concluded that the state funds which would be appropriated to the Fund would not be appropriations from funds or revenues currently in existence which would violate the constitutional prohibitions limiting debt.

The cases very briefly summarized in this Opinion do not uphold the validity of fund mechanisms which provide or authorize the use of state funds to secure loan obligations or pledges of "special funds" derived from state funds. Rather, to the extent the proposed acts would authorize this use of state funds, the acts have been held to violate the constitutional limitations regarding debt.

You also inquire whether pledging all or any part of the Fund and its assets to secure, directly or indirectly the loans, is the State pledging its credit and does this violate Article XIII, Section 3, of the Constitution of the State of Nebraska. Article XIII, Section 3, has generally been construed to be a prohibition to protect the State and its political subdivisions against financial involvement in private enterprise supposed to serve the "public good" but which are in fact dominated by private interest.

This constitutional provision prohibits public funds from being expended for a private as opposed to a public purpose. If the purposes served are public purposes, Article XIII, Section 3, is not violated. Authorities clearly settle that the vital point in all such appropriation is whether the purpose is public; and that, if it is, it does not matter whether the agency through which it is dispensed is public or not; that the appropriation is not made for the agency, but for the object which it serves; the test is in the end, not the means. Chase v. County of Douglas, 195 Neb. 838, 241 N.W.2d 234 (1976); United Community Services v. Omaha Nat. Bank, 162 Neb. 786, 77 N.W.2d 576 (1956). Since you have indicated that ". . . it is clear that the funding would serve a public purpose," there is no reason to further consider your question concerning whether Article XIII, Section 3, would be violated.

You further inquire whether the provisions of Neb.Rev.Stat. § 81-15,158 (1988 Cum.Supp.), as further amended by proposed Legislative Bill 623, would constitute a guarantee by the State of payment on the loan in the event a municipality defaults on a loan. It is noted that LB 623 has been passed by the Legislature and signed by the Governor. Thus, the provisions of the bill have become operative law. This office has not and cannot determine the constitutionality of operative law; accordingly, we do not respond to this question.

Your last inquiry is "If state general funds are contributed to the Wastewater Treatment Fund (which is pledged to repay bonds issued by NIFA) does this change NIFA's legal status as a quasi-public entity as defined by State ex rel. Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445 (1979)?" We have reviewed this case and do not find that the precise legal status was defined. The court generally declined to define the status of the Nebraska Mortgage Finance Fund (NIFA's predecessor) as an individual, association, or corporation but characterized the Fund as a governmental body related to state government over which the Legislature had some control.

In summary, it is our conclusion that Section 10 of the proposed bill which would authorize use of "All or any part of the fund or

assets thereof" to pay or secure the repayment of loans or deposits to the Fund would be violative of the constitutional limitations concerning indebtedness of the State. This conclusion is reached because the Fund would consist of more than loan, loan interest, and related payments. Sources of revenue to the Fund would also consist of state funds from legislative appropriations derived from state general revenues. Accordingly, it is the opinion of this office that to the limited extent proposed LB 311 authorizes use of state funds for payment or to secure indebtedness or obligations of the Fund, it is offensive to Article XIII, Section 1, of the Constitution of the State of Nebraska.

Sincerely,  
ROBERT M. SPIRE

### ATTORNEY GENERAL'S OPINION

#### Opinion No. 89037

DATE:           April 18, 1989

SUBJECT:       Constitutionality of the Financial Support  
Provisions of LB 183, as amended - Open  
Enrollment Option for Nebraska Public School  
Students

REQUESTED BY: Senator Howard Lamb  
Nebraska State Legislature

WRITTEN BY:   Robert M. Spire, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested us to reexamine the conclusions reached in Attorney General Opinion No. 89-017, issued on March 20, 1989, in light of the recent Select File Amendment to LB 183 (AMO 861). Under this new amendment, financial support would be provided to school districts accepting students exercising the option to enroll in a district other than their district of residence by requiring the resident district to remit to the option district an amount equal to the state school aid provided for each option student based on the rates established pursuant to Neb.Rev.Stat. §§79-1334 and 79-1336 (Reissue 1987).

In our previous opinion, we expressed some concern as to whether the funding mechanism established to reimburse option districts for additional costs incurred in educating non-resident students could, in operation, result in a situation wherein taxpayers in option districts could be compelled to pay additional taxes to support such increased costs in the event the option district did not receive sufficient funds to cover added costs incurred by an option district accepting non-resident students. Our reference to this potential issue was based on a series of Nebraska cases in which the Nebraska Supreme Court has held that it is a violation of the constitutional requirement of uniformity of taxation (Neb. Const., Art. VIII, Section 1), as well as the constitutional prohibition against the commutation of taxes (Neb. Const., Art. VIII, Section 4), to compel taxpayers of one taxing district to pay taxes which are for the sole benefit of citizens of another taxing district. Peterson v. Hancock, 155 Neb. 80, 54 N.W.2d 85 (1952); Peterson v. Anderson, 100 Neb. 149, 158 N.W. 1055 (1916); Wilkinson v. Lord, 85 Neb. 136, 122 N.W. 699 (1909) High School District v. Lancaster County, 16 Neb. 147, 82 N.W. 380 (1900). As we pointed out, our concern in this regard was based on the possibility that the provisions of the bill could, in application, violate these constitutional provisions. We did not, however, conclude that the financial support provisions previously contained in LB 183 rendered the bill unconstitutional on its face.

In responding to your request to reexamine this issue in view of the recently adopted Select File Amendment to LB 183, we believe it is appropriate to analyze this matter in light of pertinent Nebraska Supreme Court decisions discussing the constitutionality of statutory provisions dealing with nonresident high school tuition. We believe these decisions will provide a framework for discussion of whether the provisions of LB 183, as currently amended, remove the potential constitutional defect noted in our prior opinion as to the operation of the financial support provisions of the bill.

In Mann v. Wayne County Board of Equalization, 186 Neb. 752, 186 N.W.2d 729 (1971) {"Mann"}, the court addressed a challenge to the constitutionality of a statute providing for the method of determining the tuition rate for nonresident high school students. The statute provided that the tuition rate was to be no less than the "average cost per pupil" of the receiving district for the previous year. "Cost per pupil", in turn, was required by statute to be determined by a formula which mandated consideration of specific elements of cost. Id. at 754-55, 186 N.W.2d at 732. Relying upon the principle that taxpayers of one taxing district cannot be required to pay taxes which are for the sole benefit of citizens in another taxing district, the plaintiffs contended the nonresident tuition payments required under

these statutory provisions violated Article VIII, Sections 1 and 4, of the Nebraska Constitution, providing for uniformity of taxation and forbidding commutation of taxes, asserting that any nonresident tuition assessed at a rate above the actual per pupil cost of the receiving high school district constituted an unlawful exaction for the benefit of taxpayers of the receiving district. Id. at 756, 186 N.W.2d at 732-33.

Discussing the constitutional challenge raised by the plaintiffs in Mann, the court reiterated its long-standing position that "...a statute which provides for the raising of revenue for nonresident high school tuition which places a substantially unequal tax burden on either the district which receives the nonresident students or the district which sends them {is} discriminatory." Id. at 757, 186 N.W.2d at 733. (Citations omitted). Rejecting the contention that any difference between the nonresident tuition rate established under the statutory formula and the actual cost per pupil resulted in a violation of the constitutional principle of uniformity and the prohibition against the commutation of taxes, the court stated:

The appellants assert that any variation between the tuition rate and the actual per pupil cost creates a tax discrimination against either the receiving school district or the tuition paying district and is therefore unconstitutional as to one or the other. The logical result of this argument would be that any statute which might permit any variance at even one high school would be unconstitutional.... Tuition rates are always prospective and in a period of rapidly increasing costs, even a complete and accurate cost figure is outdated before it becomes effective. Many cost items can only be determined by using figures which are, in some degree, arbitrary. Exact equalization is impossible to achieve in any area of taxation, but particularly in this sensitive area of school operations. Section 79-4, 102, R. S. Supp., 1969, does not violate constitutional requirements of tax uniformity, nor constitute a commutation of taxes.

Id. at 757-58, 186 N.W.2d at 733-34.

Upholding the validity of the statutory formula for nonresident tuition at issue in Mann, the court concluded as follows:

A reasonable interpretation of section 79-4,102, R. S. Supp., 1969, is that it allows each individual high school district receiving nonresident students to determine, as accurately as is possible, the per pupil cost of high school education in its district and to certify a tuition rate for nonresident high school students based upon the average per pupil cost of high school education for the district, not less than the average per pupil cost for the preceding school year.

Id. at 759-60, 186 N.W.2d at 734.

Recently, in Ewing v. Scotts Bluff County Board of Equalization, 227 Neb. 798, 420 N.W.2d 685 (1988) {"Ewing"}, the Nebraska Supreme Court addressed a similar constitutional challenge to a more recent version of the statutory formula contained in Neb.Rev.Stat. §79-4,102 for determining nonresident high school tuition rates. The plaintiffs in Ewing asserted, in part, that the nonresident high school tuition formula in §79-4,102 was unconstitutional on its face in that it allowed nonresident tuition charges to exceed the actual per pupil cost of educating students received by the high school district, resulting in a violation of the requirement of uniformity of taxation. Id. at 812, 420 N.W.2d at 693-94. Citing to the prior decision in Mann, the court rejected the plaintiffs facial challenge to §79-4,102, stating:

There can be no disagreement as to the underlying principle that Neb. Const. art. VIII, §1, requires that taxes shall be levied "uniformly and proportionately." In Mann v. Wayne County Board of Equalization, 186 Neb. 752, 186 N.W.2d 729, 733 (1971), we stated: "{A} statute which provides for the raising of revenue for nonresident high school tuition which places a substantially unequal tax burden on either the district which receives the nonresident students or the district which sends them would be discriminatory". Plaintiffs contend that any tuition charges, other than the per pupil cost for each student educated in the school year in question, are invalid. In earlier years, as noted in the Mann case at 757, 186 N.W.2d at 733, "historically under a fixed tuition rate, it was cheaper for a taxpayer to live in a district which paid tuition than it was to live in the receiving district." The Legislature provided, in §79-4,102, for a way of calculating a nonresident tuition charge which is designed to compensate the receiving districts for maintaining a high school which the sending districts may utilize when they have children of high school age who claim their constitutional right to "free instruction in the common schools."

\* \* \*

The Legislature is getting away from a flat, per-student charge and attempting to establish a basis for the sharing of the common goal of educating our children through high school. That effort is not per se unconstitutional because it departs from a calculation based on per-pupil cost alone.

\* \* \*

...{T}he statute authorizes a tuition charge higher than the per-pupil cost as determined in years past. It is not necessarily unconstitutional for the Legislature to give weight to the fact that receiving districts have erected and maintained a school system,

providing for physical buildings and staffing, available to furnish constitutionally required high school education over long periods of time, although some taxpayers from sending districts wish to pay only for the sporadic actual utilization of the facilities. The setting of rates beyond per-pupil costs is not per se unconstitutional. Mann v. Wayne County Board of Equalization, supra.

Id. at 812-14, 420 N.W.2d at 694-95. (Emphasis added).

In addition, the court in Ewing also found the claim that §79-4,102 was unconstitutional as applied to be without merit, stating:

...{P}laintiffs premise their contention on the proposition that any amount, other than the precise per-pupil charge for each pupil actually educated in the receiving high school, is unconstitutional. As we have stated above, §79-4,102 is not unconstitutional, per se, merely because it set a rate higher than per-pupil cost as historically calculated. Plaintiffs have not shown the detailed formula set out in §79-4,102 to be discriminatory, in practice.

Id. at 814, 420 N.W.2d at 695. (Emphasis added).

Based on the decisions in Mann and Ewing, it is evident that, in the area of taxation resulting from the application of statutory formulas applied to determine rates for nonresident high school tuition, the court has adopted the view that “absolute preciseness” in accordance with the principle of uniformity is not required. Ewing, 227 Neb. at 813, 420 N.W.2d at 694. While rejecting the notion that rates for nonresident high school tuition may not differ from or exceed(1) the per-pupil cost of the attending high school district, it is nevertheless clear that the court continues to adhere to the position that a statutory formula providing for the raising of revenue for nonresident high school tuition which places a “substantially unequal” tax burden on either the receiving district or the sending district would be unconstitutionally discriminatory. Mann, 186 Neb. at 757, 186 N.W.2d at 733 Ewing, 227 Neb. at 812, 420 N.W.2d at 694. In essence, the court has adopted an approach requiring that the formula designed to determine the rate of nonresident high school tuition must not be structured in such a manner as to place a “substantially unequal” tax burden on residents of either the receiving or sending district.

Under LB 183, as currently amended, any cost to the option district incurred by virtue of acceptance of nonresident students exercising the open enrollment option is to be funded by requiring the sending district to remit to the option district the amount of per-pupil state school aid received by the sending district under the rates established pursuant to Neb.Rev.Stat. §§79-1334 and 79-1336 (Reissue 1987). Figures supplied by the State Department of

Education indicate that the average per pupil cost for all school districts in the state for the 1987-88 school year was \$3,037.50 for elementary students (kindergarten to grade 6) and \$4,247.94 for secondary students (grades 7 to 12). It is contemplated that the maximum amounts which may be distributed per pupil to any school district from the School Foundation and Equalization Fund for 1989-90 will be as follows: \$1,372.00 per pupil for grades 1 to 6; \$1,646.40 per pupil for grades 7 and 8; and \$1,920.80 per pupil for grades 9 to 12. Given the disparities in these figures, it is questionable whether the payment of state aid funds received by sending districts will be sufficient to offset increased costs incurred by option districts receiving nonresident students. Obviously, the state aid component of supporting the cost of public education provided under §§79-1334 and 79-1336 represents only a part of the total cost of educating a student in any school district in the state. To the extent that the funding mechanism under LB 183 does not, in operation, adequately compensate the option district for the cost of educating additional students accepted under open enrollment, taxpayers in option districts receiving payments from sending districts based on the state aid formulas established under §§79-1334 and 79-1336 may be compelled to pay increased taxes if such funds do not cover the total added cost incurred in educating option students. The existence of such a situation would violate the principle of uniformity, and would operate to unconstitutionally release or discharge taxpayers of the district in which the option student resides from a portion of the tax obligation imposed for the education of students from the resident district.

In sum, our purpose in noting this potential constitutional defect is to point out that, in application, the financing provisions of LB 183 may operate in violation of certain constitutional provisions. The ultimate question which must be considered in adopting a funding mechanism under legislation of this nature is whether, in operation, the scheme chosen may result in the imposition of "substantially unequal" local tax burdens on property taxpayers in receiving districts in comparison with property taxpayers in option districts. The existence of any such unreasonable disparity which may arise under implementation of LB 183 could result in unconstitutional discrimination in the event the bill operates to create such a situation in relation to particular school districts. The Nebraska Supreme Court's decisions in Mann and Ewing, requiring tax burdens on receiving and sending districts to remain "substantially" equal in the area of raising revenue for nonresident high school tuition, indicate that, while absolute precision in accordance with the principle of uniformity is not required in this area, substantial disparities in tax

burdens between districts will not be upheld. To the extent such potential disparities in taxation could arise by virtue of implementation of LB 183, the funding provisions of the bill could be subject to constitutional challenge by taxpayers of an affected school district on this basis.

(1) The decision in Ewing specifically approved the adoption of a formula which resulted in the imposition of a nonresident high school tuition charge on sending districts which was higher than the per pupil cost of the receiving district. 227 Neb. at 812-14, 420 N.W.2d at 694-95.

Very truly yours,

## RESOLUTION

**LEGISLATIVE RESOLUTION 80.** Introduced by Bernard-Stevens, 42nd District.

**PURPOSE:** The purpose of this resolution is to examine adolescent inpatient chemical dependency treatment.

In 1980 the Legislature appropriated two hundred seventy thousand dollars to the Department of Public Institution's fiscal year 1980-81 budget for alcohol treatment programs for persons under twenty years of age. To fulfill this requirement the Department of Public Institutions contracted for adolescent residential treatment programs. Continuation funding was available through August 1984. The contract was discontinued at that time because of an interpretation that an agency receiving funding is obligated to accept all clients regardless of ability to pay.

Since the Legislature last addressed the issue of adolescent inpatient chemical dependency treatment the increased funding has become part of the base allocation for substance abuse aid. However, no additional youth inpatient services have been developed or maintained.

This study would include a review of available funding alternatives for adolescents in need of chemical dependency treatment, the current facilities offering adolescent inpatient chemical dependency treatment, the statutory conditions or limitations in contracting for such treatment, and all relevant data and reports of the Division on Alcoholism and Drug Abuse.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**RESOLUTION**

**LEGISLATIVE RESOLUTION 84.** Introduced by Coordsen, 32nd District.

**PURPOSE:** 1 The purpose of this resolution is to study the feasibility of, cost of, and issues related to allowing the courts to make an order committing all juveniles listed under section 43-247 to the Department of Social Services. Examples of such juveniles are those who have committed misdemeanors, felonies, or traffic offenses. Currently, only juveniles who fit within subdivision (3) of section 43-247 are committed to the care and custody of the Department of Social Services. Examples of such juveniles would be those who are homeless, destitute, abandoned, wayward, or habitually disobedient or who endanger themselves or others.

2 The resolution shall also study the feasibility of, cost of, and issues related to allowing courts to retain the care and custody of a juvenile or returning custody from the Department of Social Services

to the court in the event of a disagreement on the placement or treatment for the juvenile.

The study shall examine, but not be limited to, the following areas:

(a) How Nebraska's system compares with other states and the trends in other states and at the national level;

(b) The benefits or detriments of having one agency with the responsibility of all the juveniles in this state;

(c) The costs associated with the Department of Social Services having the responsibility of all juvenile state wards in Nebraska. This study shall examine the additional costs to the Department of Social Services and also examine any costs that may be saved or transferred from other areas such as the Department of Correctional Services;

(d) The amount of federal funds available if one agency has the responsibility for all the juveniles in this state and how these amounts might differ from the current system;

(e) The number of cases over a several year period in which courts returned custody from the Department of Social Services back to the court and the reasons for such return;

(f) The number of cases over a several year period in which courts did not give the Department of Social Services the care and custody of the juvenile and the reasons. Juveniles who could not be given to the department shall be subtracted from this figure; and

(g) The cost to the state of not allowing the courts to retain the care and custody of juveniles or not allowing the courts to remove the juvenile from the care and custody of the Department of Social Services.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

Section 1. That at the general election in November 1990 there shall be submitted to the electors of the State of Nebraska for

approval the following amendment to the Constitution of Nebraska by amending Article VIII, section 1, which is hereby proposed by the Legislature:

CVIII-1 "The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, except that: (1) ~~The~~ ~~the~~ Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent ~~as~~ provided by the Legislature and may also establish a separate class for trucks, trailers, semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles; PROVIDED, that such tax proceeds from motor vehicles taxed in each county shall be allocated to the state, counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of ~~said~~ the county on personal tangible property; and (2) the Legislature may provide that agricultural land and horticultural land, as defined by the Legislature, shall constitute a separate and distinct class of property for purposes of taxation and may provide for a different method of taxing agricultural land and horticultural land which results in values that are not uniform and proportionate with all other tangible property and franchises but which results in values that are uniform and proportionate upon all property within the class of agricultural land and horticultural land. The Legislature may enact laws to provide that the value of land actively devoted to agricultural or horticultural use shall; for property tax purposes; be that value which such land has for agricultural or horticultural use without regard to any value which such land might have for other purposes or uses; and may prescribe standards and methods for the determination of the value of real or other tangible property at uniform and proportionate values. ~~The Legislature may provide that agricultural land and horticultural land used solely for agricultural or horticultural purposes shall constitute a separate and distinct class of property for purposes of taxation.~~ Taxes uniform as to class of property or the ownership or use thereof may be levied by valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing, or other employee benefit plans as defined by the Legislature may be declared ~~to be~~ exempt

from taxation. Taxes, other than property taxes, may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature. The Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation and may further provide for reciprocal and proportionate taxation of livestock located in this state for only part of a year.”.

Sec. 2. That the proposed amendment shall be submitted to the electors in the manner prescribed by the Constitution of Nebraska, Article XVI, section 1. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

“A constitutional amendment to authorize the Legislature to provide that agricultural land and horticultural land, as defined by the Legislature, constitutes a separate and distinct class of property for purposes of taxation and that such land may be taxed by a method which results in values that are not uniform and proportionate with all other tangible property and franchises but which results in values that are uniform and proportionate upon all property within the class of agricultural land and horticultural land and to eliminate a provision permitting separate and distinct classification of such property.

For  
Against”.

Sec. 3. That the proposed amendment, if adopted, shall be in force and take effect immediately upon the completion of the canvass of the votes, at which time it shall be the duty of the Governor to proclaim it as a part of the Constitution of Nebraska.

## COMMUNICATIONS

April 24, 1989

Senator Bernice Labeledz  
Chairperson - Executive Board  
2010 State Capitol  
Lincoln, NE 68509

Dear Senator Labeledz:

Enclosed is a communication I received from Mr. William F. Swanson, Corporation Secretary, University of Nebraska Board of Regents. The communication involves the anticipated issuance of notes and/or revenue bonds as required by LR 69 adopted March 26, 1987.

I am forwarding this communication to you for reference to the appropriate standing committee.

With kind regards.

(Signed) Sincerely,

April 24, 1989

J. Patrick O'Donnell  
Clerk of the Legislature  
State Capitol, Room 2018  
Lincoln, Nebraska 68509

Dear Mr. O'Donnell:

As required by LR 69 adopted March 26, 1987, the following proposal for anticipated issuance of notes and/or revenue bonds is hereby submitted to the Nebraska Legislature for specific approval pursuant to Neb. Rev. Stat., Section 85-404.

On April 8, 1989, the Board of Regents of the University of Nebraska approved financing plans for Phase III of the Campus Recreation/Athletic Facility on the campus of the University of Nebraska - Lincoln. In view of the current high interest rates, the plan provides for the issuance of BANS (bond anticipation notes) in an amount not to exceed \$4,925,000.

These notes would be refunded by the issuance of revenue bonds under the 1964-66 University of Nebraska Student Fees and Facilities Revenue Bond Resolution. Based on current interest rates, we anticipate retirement of the notes/bonds in approximately 8 years, using a pledge of \$2.50 of the total \$3.50 capital facilities assessment on football tickets.

Of course, if more favorable bond conditions prevail at the time of the financing, the University would not issue BANS but would issue serial revenue bonds directly.

The Board of Regents respectfully requests that the present session of the Legislature adopt an appropriate resolution approving this supplement to the financing plans.

Should additional information regarding this matter be required, please contact John W. Goebel, Vice Chancellor for Business and Finance at UNL. His telephone number is 472-3159.

Respectfully submitted,  
The Board of Regents of  
the University of Nebraska  
(Signed) William F. Swanson  
Corporation Secretary

11 charges; and

12 (2) Promote the economic delivery of high  
13 quality and cost-effective health care services to the  
14 people of this state by establishing a uniform health  
15 care reporting system for health care facilities which  
16 provides health data of a current and comparable nature.

17 Sec. 45. For purposes of the Certificate of  
18 Need Reporting Act, the definitions in sections 46 to 50  
19 of this act shall apply.

20 Sec. 46. Department shall mean the Department

20 Administrative Procedure Act to establish a uniform  
21 system of financial reporting for health care

11 of the Certificate of Need Reporting Act, of reporting  
12 requirements to correctly reflect the differences among

2 the department in the Certificate of Need Reporting Act,  
3 the department may:

4           (1) Adopt, promulgate, amend, and repeal rules  
5 and regulations regarding the powers conferred by the  
6 Certificate of Need Reporting Act subject to the  
7 Administrative Procedure Act; and

8           (2) Hold public hearings, conduct  
9 investigations, and subpoena witnesses, papers, records,  
10 and documents in connection with such hearings. The  
11 department may administer oaths or affirmations in any  
12 hearing or investigation.

13          Sec. 57. Any order or decision of the  
14 director may be appealed, and the appeal shall be in  
15 accordance with the Administrative Procedure Act.

16          Sec. 58. Any person who violates or knowingly  
17 aids and abets the violation of the Certificate of Need  
18 Reporting Act or who fails to perform any duty under the  
19 act shall be guilty of a Class IV misdemeanor.  
20 Following official notice to the accused by the  
21 department of the existence of an alleged violation,  
22 each day upon which a violation occurs shall constitute  
23 a separate violation. Any person violating the act may  
24 be enjoined from continuing such violation.

2 in section 58 of this act, any health care facility  
3 which fails to comply with the Certificate of Need  
4 Reporting Act shall be subject to suspension or  
5 revocation of its license.

6          Sec. 60. If any section in this act or any

### ATTORNEY GENERAL'S OPINION

#### Opinion No. 89038

DATE: April 24, 1989

SUBJECT: Constitutionality of LB 809, as amended -  
Property Tax Relief Trust Fund Act

REQUESTED BY: Senator Dennis M. Byars  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to the constitutionality of LB 809, as amended by Revenue Committee Amendment AM 1384. Generally, LB 809 would create a Property Tax Relief Trust Fund, which would be based on the amount by which net general fund receipts from state tax revenues exceed projected or forecasted net general fund receipts for the fiscal year. The Fund would be distributed to county treasurers to reimburse local taxing subdivisions for reduced revenues resulting from the percentage of tax relief provided to all property taxpayers by operation of the Act. As originally drafted, the bill provided that all property taxpayers would be eligible to receive the same percentage of any tax relief available. The Committee Amendment, however, would place a \$500.00 limit on the amount of property tax relief available to any taxpayer. Your question is whether the bill, as amended, providing for an equal

percentage of relief to all taxpayers but limiting the extent of the relief to any one taxpayer to a maximum dollar amount, is constitutional.

Article VIII, Section 1 of the Nebraska Constitution, provides, in pertinent part: "Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, . . ." In State ex rel. Bee Building Co. v. Savage, 65 Neb. 714, 91 N.W. 716 (1902), the Nebraska Supreme Court, discussing the purpose of the constitutional principle mandating uniform and proportionate taxation of property, stated:

The dominant idea of the organic law is that needful revenues for the purpose of defraying expenses of state and municipal government shall be raised by levying a tax on property by valuation in such manner as that every owner of property subject to taxation shall pay taxes in proportion to the value of the property owned. . . . It is equally obvious that in order to comply with the intent and spirit of the fundamental law, as well as the statutes enacted in pursuance thereof, all property valued and assessed for revenue purposes should be assessed at a uniform value, to the end that every person and corporation shall contribute his or its just and fair proportion of the needful revenues for governmental purposes.

\* \* \*

The paramount object of the constitution, and the laws relative to taxation, as we conceive the rule to be, is to raise all needful revenues by valuation of the taxable property so that each owner of property taxed will contribute his or its just proportion of the public revenues.

Id. at 742-43, 91 N.W. at 719-20. See also Equitable Life v. Lincoln County Board of Equalization, 229 Neb. 60, 62, 425 N.W.2d 320, 322 (1988) (noting the uniformity requirement was adopted "{i}n apparent recognition of the reality that governmental costs not shared by one group of taxpayers must necessarily be shifted to and borne by the remaining taxpayers, . . .").

The rule of uniformity applies to both the rate of taxation and the valuation of property for tax purposes. State ex rel. Douglas v. State Board of Equalization and Assessment, 205 Neb. 130, 286 N.W.2d 729 (1979); Grainger Brothers Co. v. County Board of Equalization, 180 Neb. 571, 144 N.W.2d 161 (1966). All real property and taxable personal property are in the same class for purposes of taxation, and must be valued and assessed uniformly and proportionately in accordance with the mandate of Article VIII, Section 1. Grainger Brothers, 180 Neb. at 582, 144 N.W.2d at 168- 69. "Taxing authorities may not withdraw any property from the principle of uniformity of taxation as provided by the Constitution and statutes

of the state and one owner of property cannot be compelled to pay a greater proportion of taxes according to the value of his property than another property owner of the same class is required to pay." Chicago, B. & Q. R.R. Co. v. State Board of Equalization & Assessment, 170 Neb. 77, 78, 101 N.W.2d 856, 858 (1960) (syllabus of court). In sum, the uniformity clause has been construed by the court to prohibit discrimination between property taxpayers "in any manner." State ex rel. Cornell v. Poynter, 59 Neb. 417, 428, 81 N.W. 431, 433 (1899).

In addition to the uniformity clause contained in Article VIII, Section 1, of the Nebraska Constitution, Article VIII, Section 4 contains a prohibition against legislative action releasing or discharging taxpayers from their proportionate share of taxes. Specifically, Article VIII, Section 4 provides, in pertinent part:

. . . the Legislature shall have no power to release or discharge any county, city, township, town, or district whatever, or the inhabitants thereof, or any corporation, or the property therein, from their or its proportionate share of taxes to be levied for state purposes, or due any municipal corporation, nor shall commutation for such taxes be authorized in any form whatever;  
. . . . (1)

The rationale behind the prohibition against the release or forgiveness of taxes contained in Article VIII, Section 4, and its interrelationship with the uniformity clause, was discussed by the Nebraska Supreme Court in Peterson v. Hancock, 155 Neb. 801, 54 N.W.2d 85 (1952) as follows:

In Steinacher v. Swanson, 131 Neb. 439, 268 N. W. 317, this court held that: "The legislature does not have the power to release or discharge a tax, such action being prohibited by section 4, art. VIII of the Constitution." Further, "Neither may the legislature circumvent an express provision of the Constitution by doing indirectly what it may not do directly." The opinion, quoting from County of Lancaster v. Trimble, 33 Neb. 121, 49 N. W. 938, said: "The legislature is without power to release any inhabitant or corporation from his or its proportionate share of taxes, nor can it confer such authority upon county commissioners. \* \* \* The legislature is powerless to confer such authority. It cannot do indirectly what the Constitution prohibits it from doing directly; that is clear. Wood v. Helmer, 10 Neb. 65, 68."

In State ex rel. Cornell v. Poynter, 59 Neb. 417, 81 N. W. 431, this court held: "The rule of uniformity prescribed by section 1, article 9, of the constitution, inhibits the legislature from discriminating between taxpayers in any manner whatever.

“Under section 4, article 9, of the constitution the legislature is powerless to pass a law releasing or discharging any individual or corporation or property from the payment of any portion of the taxes to be levied for state or municipal purposes.” In the opinion, it is said: “The rule of uniformity inhibits the legislature from discriminating between taxpayers in any manner. See *State v. Graham*, 17 Nebr., 43. In every instance where this court has spoken upon the subject it has been determined that the legislature is powerless to relieve from the burdens of taxation the property of any individual or corporation, but that the constitutional rule of uniformity requires all taxable property within the taxing district where the assessment is made shall be taxed, except property specifically exempt by the fundamental law. This doctrine is entirely sound, and the language of the constitutional provision we have been considering will not authorize or permit of any other or different interpretation.

“By section 4, article 9, of the constitution the legislature, in plain and unequivocal language, is inhibited from enacting any law releasing or discharging any individual or corporation or property from their or its proportional share of taxes to be levied for state or municipal purposes.”

Id. at 821-23, 54 N.W.2d at 96-97.

As noted in a previous opinion issued by our office, “. . . the constitutional prohibition against the forgiveness of taxes is merely another manifestation of the principle of uniformity of taxation set forth in Article VIII, Section 1, of the Constitution. Taxpayers must simply be treated uniformly throughout the entire process of taxation.” Attorney General Opinion No. 45, March 27, 1985. In essence, the uniformity requirement of Article VIII, Section 1, and the prohibition against the release or discharge of taxes contained in Article VIII, Section 4, both operate to inhibit the imposition of non-uniform and disproportionate tax burdens on property owners in this state.

Upon consideration of the foregoing, we believe it is evident that LB 809, as currently amended, would violate these constitutional principles for the reason that the establishment of a dollar limitation on the amount of property tax relief provided would necessarily result in the imposition of non-uniform and disproportionate tax burdens on the property of certain taxpayers. As you note in your request, while specific amounts of tax liability and tax relief are dependent upon local tax rates and funding made available under the terms of the bill, the Nebraska Department of Revenue has estimated that, based on an average tax rate of 2.6 percent and the availability of funding to provide tax relief at the level of 5 percent of tax liability,

the \$500.00 threshold would be reached when a taxpayer's valuation exceeded approximately \$384,000.00, at which level the taxpayer would have a tax liability of \$10,000.00. The Department has indicated that over 38,000 farms, several hundred residences, 7,000 commercial and industrial properties, and 80 centrally assessed properties would have valuations in excess of this \$384,000.00 valuation figure. Any property owner falling in this category would receive less than the five percent relief provided to all other property owners by operation of the \$500.00 maximum relief provision contained in LB 809. The exact percentage of relief for any such taxpayer would depend upon the amount by which their tax liability exceeded the \$10,000.00 figure at which the \$500.00 maximum relief threshold would be reached.

Another way of demonstrating the disparate impact of the \$500.00 limitation on tax relief available to any taxpayer under the bill is to examine the effective tax rate placed on property owners under such a provision. Assuming a tax rate of 2.6 percent and funding to provide 10 percent relief, the Department has calculated that a homeowner with a residence valued at \$50,000.00 would be taxed at an effective rate of 2.3 percent; a farmer with land valued at \$250,000.00 would be taxed at an effective rate of 2.4 percent; and a utility valued at \$10 million would be taxed at an effective rate of 2.6 percent. It is, therefore, apparent that the imposition of a maximum dollar limitation on the amount of property tax relief provided under LB 809 would effectively result in the imposition of non-uniform and disproportionate taxation in relation to the value of various properties after the point at which a taxpayer's liability exceeds the amount necessary to reach the \$500.00 maximum amount of relief.

It is true that LB 809 does not directly provide for the imposition of different tax rates on various property owners, nor does it directly alter the taxable value of any property subject to taxation. As we have pointed out, however, the effect of the provision of a \$500.00 maximum amount of relief for any property taxpayer is to create non-uniform and disproportionate tax burdens among taxpayers to the extent that certain large taxpayers will effectively be compelled to pay at a higher rate in proportion to the value of their property in comparison to taxpayers whose tax liability does not exceed the maximum necessary to reach the \$500.00 limit established under the bill. As stated by the court in Banner County v. State Board of Equalization and Assessment, 226 Neb. 236, 252, 411 N.W.2d 35, 45 (1987): "The Legislature cannot circumvent an express provision of the Constitution by doing indirectly what it may not do directly." Thus, to the extent that the \$500.00 maximum relief provision contained in LB 809, as amended, would result in the imposition of

non-uniform and disproportionate tax burdens in relation to the value of the property of certain taxpayers, it is our opinion that the establishment of such a limitation on the amount of relief provided would violate both the letter and spirit of the principle of uniformity of taxation mandated under Article VIII, Section 1, and would contravene the prohibition against releasing taxpayers from their proportionate share of taxes, in violation of Article VIII, Section 4.

(1) While Article VIII, Section 4, refers to taxes levied for "state purposes" or due any municipal corporation, we have previously interpreted this provision to include taxes levied by counties or other governmental subdivisions of the state to support local government functions, as such entities are solely creatures of the state. Attorney General Opinion No. 32, March 12, 1985.

Very truly yours,

**ATTORNEY GENERAL'S OPINIONS****Opinion No. 89039**

**DATE:** April 24, 1989

**SUBJECT:** School Districts. Affiliated units.

**REQUESTED BY:** Senator Ron Withem  
Nebraska State Legislature

**WRITTEN BY:** Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

In your letter of April 11, 1989, you ask our opinion on the constitutionality of proposed Committee amendments to LB 259. Specifically, sections 23 and 24 of AM #800 and your explanation thereof and court cases which arguably support your explanation.

We have examined your questions and the court cases cited in support of your explanations and are in accord therewith but with two caveats. First, LB 259, as amended, is a new and different approach to tax equity. As a result, it raises difficult questions, such as the questions you have submitted, to which there is limited or no legal precedent. Second, without specific data, it is impossible for us to offer an opinion in connection with the melding of tax requests

which are discussed in your question 3. We quite agree with you that recent cases of the Nebraska Supreme Court have not required an exacting matching of tax burden and benefits in the context of nonresident high school tuition formulas. The ultimate question, of course, is how much variation will the court permit and in particular cases, how much will actually exist? There simply is no ready answer to either of these questions. Therefore, with the understanding that there is limited legal precedent coupled with the lack of specific facts, we approve and concur with the answers you have suggested in response to the questions asked, each of which are hereinafter quoted verbatim:

1. Do you foresee any constitutional problems relating to voting rights and special privilege/class legislation under Article I, section 16 and Article III, section 18 of the Nebraska Constitution. Class I patrons are not given voting representations on the high school board. They will, however, have the right to vote on new bond issues and, through their own boards appoint an advisory committee to represent Class I interests in the high school program. The rationale for the different treatment of the Class I districts as far as representation is concerned is that the Class I's remain a separate and legally independent political subdivision, with the rights of self-government of their elementary schools. The merger or Class VI options are open if full voting privileges are desired. In addition, the Supreme Court, in the recent case of Ewing v. Scottsbluff County Board of Equalization, 227 Neb. 798, 420 N.W.2d (1988), has held that Class I districts have representation with the State Board of Education and the Legislature in the context of the nonresident high school tuition system. There is no representation for Class I's in the receiving district boards in that system.

2. Similarly, do you foresee any U. S. Constitutional difficulties under the Fourteenth Amendments Equal Protection Clause--one person/one vote doctrines as far as the voting privileges of Class I voters.

Cases such as Kramer v. Union Free School District, 395 v.s. 621 (1969) pertain to unequal voting privileges for residents of the same school district. Since voters of Class I's part of an affiliated unit are not legal residents of the high school district, it would not seem that the Kramer doctrine would apply.

3. Do you foresee any constitutional difficulties under the uniformity of taxation clause (Neb. Const., Article VII, Section 1) and the commutation of taxes clause (Neb. Const., Article VIII, section 4).

Arguably, with the melding of the tax requests of the different school districts, non affiliated unit into a common levy, there will be some shifts of tax burdens between taxpayers in such different school districts. However, recent cases of the Nebraska Supreme Court such as Ewing v. Scottsbluff County Board of Equalization, 227 Neb. 798, 420 N.W.2d 685 (1988) and Mann v. Wayne County Board of Equalization, 186 Neb. 134, 186 N.W.2d 729 have not required an exact matching of tax burden and benefit in the context of nonresident high school tuition formulas which establish tax levies applied to Class I property for support of high school education. In addition, section 24 of the bill (am #800) opens up the programs of services of all schools in an affiliated unit to all students residing in the unit. Thus the benefits of the common levy are available to all children in the unit.

Respectfully submitted,

Opinion No. 89040

DATE: April 25, 1989

SUBJECT: May LB 683 be altered to allow Sanitary Improvement Districts to receive funds under the Municipal Infrastructure Redevelopment Fund Act?

REQUESTED BY: Senator Emil E. Beyer, Jr.  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Dale A. Comer, Assistant Attorney General

LB 683, the Municipal Infrastructure Redevelopment Fund Act (MIRF), would create a special fund which would make monies available to Nebraska municipalities for the construction of various municipal improvements including water systems, waste treatment and management facilities, airports, municipal buildings and mass

transit and other transportation systems. You are concerned that, by diverting general fund monies to MIRF, Sanitary Improvement Districts (SID's) will be left without funding to improve their facilities. You have therefore posed several questions regarding the propriety of including SID's in the funding provisions of LB 683. Our conclusions are set forth below.

You first ask, ". . . would it be feasible or constitutional to include SIDs under the funding provisions of LB 683?" Obviously, the feasibility of such a course of action is a policy question which must be decided by the Legislature. On the other hand, we see no constitutional problems with including SID's as recipients of monies under the MIRF provisions. Indeed, we have previously indicated that SID's are quasi-municipal corporations which may receive tax money from state funds. See, Opinion of the Attorney General No. 67, April 7, 1981. In the absence of any indication from you as to specific constitutional concerns, we believe it would be constitutionally permissible to include SID's under the funding provisions of LB 683.

Your second question apparently involves the existing Nebraska statutes which provide gas tax revenues to the Highway Allocation Fund and Nebraska municipalities. You question whether those statutes "unfairly discriminate against citizens living in Sanitary Improvement Districts" since those statutes do not provide that SID's will receive portions of the gas tax revenues.

We have indicated on numerous occasions that this office may not offer opinions on the constitutionality of existing statutes. See, Opinion of the Attorney General No. 85157, December 20, 1985. Therefore, we are unable to respond to your question in detail. However, we would note that a statute may discriminate in favor of a certain class if the discrimination is founded upon a reasonable distinction or difference in state policy, or if any state of facts can reasonably be conceived which would sustain the classification. Farm Bureau Life Insurance Company v. Luebbe, 218 Neb. 694, 358 N.W.2d 754 (1984). We cannot say that it is impossible to reasonably conceive a state of facts which would sustain a classification between SID's and other municipalities similar to that created by the current gas tax revenue distribution statutes.

Sincerely yours,  
ROBERT M. SPIRE  
Attorney General

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 88.** Introduced by Schimek, 27th District.

**PURPOSE:** The Legislature should determine whether legislation is needed to regulate the fundraising activities of private companies. A study of this issue is needed to ensure the integrity of fundraising organizations and because:

(1) The number of charitable organizations is growing and the competition for the donation dollar is increasing;

(2) Business enterprises exist which contract to conduct professional fundraising solicitation by conducting telephone campaigns;

(3) Up to eighty percent of donations may go to the contractor and not to the charity to which the money was pledged thus misleading the donor;

(4) People who donate to a charity should know how much of their donation will actually go to the charity; and

(5) There is a need to protect the donor and legitimate charities from being taken advantage of by professional fundraising companies.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 89.** Introduced by Hartnett, 45th District; Schmit, 23rd District.

**PURPOSE:** Despite the fact that legislative activity in 1988-89 has evidenced a high level of concern with solid waste management and

disposal, little attention has been paid to the potential of new technologies that provide feasible and economical options for eliminating municipal solid waste by converting it into a usable source of electric energy.

This legislative session saw the introduction of LB 788, the purpose of which was to provide a framework for municipality and public power district cooperation in creating an efficient and cost-effective waste-to-energy facility. The bill resulted from a joint state and local study on the possibility of establishing a waste-to-energy facility in Bellevue. The study pointed out the need for some sort of long-term agreement between the municipality and the power district on the price to be paid for the electricity generated by burning of the waste.

At the public hearing on LB 788, testimony from around the state pointed out the need to refine the provisions of the bill to avoid problems and potential higher future costs to the public power industry in this state.

The function of this study would be to review the existing form of LB 788 and, with the cooperation of the public power industry, determine how best to amend it to allay its concerns for the future. An attempt will be made to determine whether this technology can indeed provide some feasible solutions for Nebraska's municipal solid waste disposal problems.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 90.** Introduced by Hartnett, 45th District; Withem, 14th District.

**PURPOSE:** In Nebraska the offering of service contracts is regulated as a form of insurance by the Department of Insurance under the provisions of sections 44-3501 et seq. Service contracts generally are maintenance agreements or warranties whereby a company, for a fee, will undertake in the future to repair or reimburse for repairs the owner of a residential dwelling or of a consumer product. LB 312 enacting these provisions was adopted in 1979 and has not been

substantively amended or reviewed since then. The introduction in 1989 of LB 776 which would amend existing statutes to provide an exemption from regulation for service contracts offered by regulated gas utilities has led to some questions about the efficacy of existing statutes to protect the consumer and to regulate the service contract and repair industry.

The growth and evolution of the general economy since the adoption of LB 312 in 1979, changes in industry practice, the effectiveness of the current regulatory scheme, the concern to provide positive and genuine consumer protection, and the need to insure that all service providers, whether large or small, can operate on a level of fair and equal competition make it incumbent upon the Legislature to review existing statutes regulating service contracts and determine what changes, if any, need to be made with the goal of introducing appropriate legislation in the next session to reform or redraft such statutes.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Banking, Commerce, and Insurance Committee of the Legislature be designated to conduct an interim study and hold any necessary public hearings to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 91.** Introduced by Hartnett, 45th District; Hall, 7th District.

**PURPOSE:** LR 19CA was introduced to provide for changes in the Nebraska Constitution with regard to the manner in which the property taxation system in the state is administered. It would eliminate the current State Board of Equalization and Assessment, which includes the Tax Commissioner, the Governor, the Secretary of State, the Auditor of Public Accounts, and the State Treasurer and would create the Property Tax Equalization Commission to equalize assessments between the counties, hear appeals from local boards of equalization, and assume such other responsibilities as the Legislature might give it. The intent was to eliminate the political aspects of the current state equalization process in favor of a more professional board with enhanced authority and resources while retaining local control of the initial stages of the process. LB 794 was introduced to

show how such a board might be constituted and what authority it might possess under a constitutional provision envisioned by LR 19CA.

While there was substantial support for the measures at the public hearing, it was felt that the issues involved were of sufficient complexity and importance to justify devoting attention to a study of the issue during the interim.

Such a study would involve the Revenue Committee of the Legislature, the Department of Revenue, and interested local officials in a review and discussion of the issues involved and an investigation of the manner in which other states have dealt with similar problems. LB 794 was modelled after Missouri state statutes.

Although LB 653, which is currently working its way through the legislative process, addresses the need for a study similar to this one, it contemplates the investigation of a much broader range of issues. Also, because of the need for a constitutional amendment to permit significant reform on the state level, it is important to address some of the issues involved prior to the next legislative session which would be the last opportunity to permit voter action on a constitutional amendment until 1992.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 89041

DATE: April 26, 1989

SUBJECT: Do federal statutes dealing with archaeological resources preempt §9 of LB 340 which requires the return of certain human skeletal remains and burial goods of American Indian origin?

REQUESTED BY: Senator John Weihing  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Dale A. Comer, Assistant Attorney General

Section 9 of LB 340 provides for the return of human skeletal remains or burial goods of American Indian origin by entities in Nebraska receiving state funding or state recognition. You have requested our opinion as to whether this section is preempted by 16 U.S.C. §470jj, a portion of the federal statutes dealing with the protection of archaeological resources. Specifically, you ask if the State Historical Society is a private corporation/entity within the federal statute. As discussed below, we do not believe that the federal statute at issue preempts §9 of LB 340. In essence, the two statutes deal with different matters.

Under the Supremacy Clause of the United States Constitution, federal laws are the supreme laws of the land. ATS Mobile Telephone, Inc. v. Curtin Call Communications, Inc., 194 Neb. 405, 232 N.W.2d 248 (1975). A state statute is void under that Supremacy Clause if federal statutes have either explicitly or implicitly precluded state legislation in the same field. Cox Cable Communications, Inc. v. Simpson, 569 F.Supp. 507 (D.Nebr. 1983). However, for the preemption doctrine to apply, the state and federal statutes in question must regulate the same area. In other words, if the subject matter of a federal statute is different than that of a particular state statute, no preemption can occur.

16 U.S.C. §470jj is part of a group of federal statutes dealing with the protection of archaeological resources on federal and Indian lands. Section 470jj provides that the United States Secretary of the Interior shall take such action as is necessary to improve cooperation and the exchange of information among "private individuals having collections of archaeological resources" and federal authorities, professional archaeologists and associations of professional archaeologists. Section 470jj provides further that the Secretary of the Interior shall make efforts to expand the archaeological data base for the archaeological resources of the United States through such increased cooperation among private individuals, professional archaeologists and archaeological organizations.

It seems to us that §470jj and §9 of LB 340 deal with entirely different matters. Section 9 deals with the disposition accorded human skeletal remains and burial goods of American Indian origin. Section 470jj, on the other hand, does not deal in any way with the disposition of such materials. It merely provides that the Secretary of the Interior shall improve cooperation and communication between private individuals and archaeologists, and that the Secretary of the Interior shall attempt to expand the archaeological data base through such cooperation and communication. As a result, we fail to see how §470jj would impact in any way on §9 of LB 340. Consequently, we do not believe that §9 is preempted by the federal statute. This is true regardless of whether the State Historical Society is considered a private corporation or entity. We thus do not need to reach that question in the context of your opinion request.

Sincerely yours,  
ROBERT M. SPIRE  
Attorney General

LEGISLATIVE JOURNAL

SUBJECT:           Constitutionality of LB 84, as Amended -  
Property Tax Relief Act

REQUESTED BY: Senator James D. McFarland  
Nebraska State Legislature

WRITTEN BY:     Robert M. Spire, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to the constitutionality of LB 84, the "Property Tax Relief Act". Generally, LB 84, as modified by the E and R Amendments, proposes to provide property tax relief to homeowners by enacting a homestead exemption, exempting from taxation for tax years 1989 and 1990 the first \$6,800 of the actual value of a homestead, as defined pursuant to Neb.Rev.Stat. §77-3502 (Cum. Supp. 1988). Section 4 of the bill provides for a rebate of ten percent of "property taxes paid" by a taxpayer, up to a maximum amount of \$2,000 per taxpayer. "Property taxes paid", in turn, is defined in subsection (3) of Section 3 as "all real estate property taxes, exclusive of special assessments, delinquent taxes and interest, and charges for services, levied on an owner of real estate property in this state in 1989 or 1990 and actually paid by the owner." Taxes on real property qualifying as a homestead are excluded from the definition of "property taxes paid". The bill also defines "real estate property" in subsection (4) of Section 3 to exclude tangible personal property other than that described in Neb.Rev.Stat. §§77-103 and 77-1209 to 77-1209.05 (Reissue 1986 and Cum. Supp. 1988). Your specific question is whether the limitation on the amount of property tax which may be returned under the ten percent rebate provision of Section 4 of the bill to a maximum of \$2,000 per taxpayer is constitutional.

In Attorney General Opinion No. 89038, issued on April 26, 1989, we addressed a virtually identical question with regard to the constitutionality of the \$500 limit on the amount of property tax relief available to any taxpayer under the provisions of LB 809, as amended. In this opinion, we discussed at length the purpose and rationale behind the principle of uniform and proportionate taxation contained in Article VIII, Section 1, of the Nebraska Constitution, as well as the prohibition against legislative action releasing or discharging taxpayers from their proportionate share of taxes contained in Article VIII, Section 4, of our Constitution. Noting that the purpose of these constitutional provisions is, in essence, to "inhibit the imposition of non-uniform and disproportionate tax burdens on property owners", we concluded that the \$500 maximum

relief provision in LB 809, as amended, would result in the imposition of non-uniform and disproportionate tax burdens in relation to the value of the property of certain taxpayers, in violation of the requirements of Article VIII, Sections 1 and 4.

Apart from consideration of the special provision for homestead property and the exclusion of taxed personal property, it is apparent the effect of the ten percent rebate up to a maximum of \$2,000 for real property taxes paid by taxpayers under LB 84 would be to create the same type of non-uniform and disproportionate tax treatment which we determined to be unconstitutional in our consideration of the \$500 maximum property tax relief limit contained in LB 809. Given the larger maximum dollar limit of relief contained in LB 84 (\$2,000), the existence of disparate tax burdens on property owners qualifying for the ten percent relief provided would not occur until a taxpayer's liability exceeded \$20,000. The imposition of a \$2,000 limit on the relief provided would effectively result in the imposition of non-uniform and disproportionate taxation in relation to the value of properties after the point at which a taxpayer's liability exceeded the amount necessary to reach the \$2,000 maximum amount of relief. In particular, a business with property valued at \$1 million would, at the average state tax rate of 2.6 percent, receive in effect a 7.7 percent reduction in tax liability under the \$2,000 limit presently contained in LB 84. Furthermore, a business with property valued at \$100 million would, under a tax rate of 2.6 percent, receive in effect a reduction of only .07 percent of its property tax liability.

Upon examination of the foregoing, it is evident that the effect of the \$2,000 limit on the amount of relief for property taxpayers eligible for the ten percent rebate portion of LB 84 is to create non-uniform and disproportionate tax burdens among taxpayers to the extent that certain large taxpayers will effectively be compelled to pay taxes at a higher rate in proportion to the value of their property in comparison to taxpayers whose tax liability does not exceed the maximum necessary to reach the \$2,000 limit established under the bill. As noted in our previous opinion concerning the constitutionality of the limitation on relief contained in LB 809, our state supreme court has stated: "The Legislature cannot circumvent an express provision of the Constitution by doing indirectly what it may not do directly." Banner County v. State Board of Equalization and Assessment, 226 Neb. 236, 252, 411 N.W.2d 35, 45 (1987). As the \$2,000 maximum relief provision in LB 84 would necessarily result in the imposition of non-uniform and disproportionate tax burdens in relation of the value of the property of certain taxpayers, it is our opinion that this limitation on the amount of relief provided would violate the principle of uniformity of taxation in Article VIII, Section 1, and

would contravene the prohibition against releasing taxpayers from their proportionate share of taxes, in violation of Article VIII, Section 4.

In addition, although you have not specifically addressed any further question to us concerning other provisions of LB 84, we would be remiss in our duty if we failed to discuss certain concerns we have as to the constitutionality of other portions of the bill. Section 9 of the bill, as amended, provides for relief in the form of an exemption on the first \$6,800 of the actual value of property occupied as a homestead, as defined by Neb.Rev. Stat. §77-3502 (Cum. Supp. 1988). The establishment of a homestead exemption of this nature is clearly authorized by Article VIII, Section 2, of the Nebraska Constitution, which provides, in pertinent part: "The Legislature may by general law provide that a portion of the value of any residence actually occupied as a homestead by any classification of owners as determined by the Legislature shall be exempt from taxation." Indeed, prior to 1983, the Legislature did provide a general homestead exemption based on the exemption of a percentage of the value of homestead property in the state. Neb.Rev.Stat. §77-3506 (Cum. Supp. 1980) (repealed, Laws 1983, LB 396).

Clearly, there is no reason why the Legislature may not enact a statute providing for the exemption of a portion of the value of any property actually occupied as a homestead, consistent with the terms of Article VIII, Section 2, of the Constitution. Thus, the provision of an exemption of the first \$6,800 of the value of homestead property contained in LB 84, in and of itself, does not raise any constitutional concern. The establishment of a homestead exemption of this nature should not raise any question of unreasonable classification, as the Constitution specifically creates the class of owners of homesteads by virtue of the specific provision of Article VIII, Section 2, previously cited. See, Attorney General Opinion No. 188, February 6, 1984.

Our concern as to the constitutionality of the \$6,800 homestead exemption contained in LB 84 is based on the impact of such an exemption on the tax burden of certain owners of homestead property in comparison to the effective tax burden placed on other real property owners eligible to receive the benefit of the ten percent rebate provision contained in Section 4 of the bill. Under LB 84, as currently amended, the owner of a homestead valued at over \$68,000 would, assuming a tax levy at the level of the state average of 2.6 percent, receive a lesser percentage of property tax relief than agricultural or commercial real property owners eligible for the ten percent reduction provided under Section 4 of the bill, even with the

existing \$2,000 limit contained therein. Under such circumstances, we believe a serious constitutional question would arise as to the propriety of effectively imposing different tax burdens on the value of certain homestead property in comparison to the value of non-homestead properties, given the disparate relief which would be accorded to each type of property under LB 84. Apart from the obvious issue of whether the imposition of such disproportionate taxation in relation to the value of these respective properties would violate the principle of uniformity under Article VIII, Section 1, we believe a serious question also exists as to whether such provisions, in concert, constitute unreasonable class legislation in violation of Article III, Section 18, of the Nebraska Constitution.

Finally, we feel compelled to point out that the exclusion of taxable personal property from the relief provisions contained in LB 84 is, in our opinion, unconstitutional. Article VIII, Section 2 of the Nebraska Constitution, provides, in pertinent part: "The Legislature may classify personal property in such manner as it sees fit, and may exempt any of such classes, or may exempt all personal property from taxation." Pursuant to this constitutional authority, the Legislature has classified and exempted various types of personal property from taxation. E.g. Neb.Rev.Stat. §77-202 (Cum. Supp. 1988).

While Article VIII, Section 2, of the Constitution, allows the Legislature to classify and exempt tangible personal property from taxation, the provisions of LB 84, which effectively exclude owners of taxable personal property from eligibility for the relief available to owners of real property, do not in any way manifest any legislative action to classify and exempt personal property from taxation as contemplated by this constitutional provision. All real property and taxable personal property are in the same class for purposes of taxation, and must be valued and assessed uniformly and proportionately in accordance with the mandate of Article VIII, Section 1. Grainger Brothers Co. v. County Board of Equalization, 180 Neb. 571, 582, 144 N.W.2d 161, 168-69 (1966). By removing taxable personal property from the benefits accorded other property owners under LB 84, it is apparent that owners of personal property subjected to taxation would, in effect, be required to pay proportionately greater taxes in relation to the value of such property in comparison to real property owners. The imposition of non-uniform and disproportionate taxation in relation to the taxable value of personal property in comparison to real property which would result from the implementation of LB 84 would, in our view, contravene Article VIII, Sections 1 and 4, of our Constitution.

Since the adoption of the Nebraska Constitution of 1871, our fundamental law has contained a requirement that taxes on property be levied proportionately in relation to the value of the property of all taxpayers. The Nebraska Supreme Court has consistently recognized that the constitutional requirement of uniformity in the area of property taxation is designed to guarantee equality in tax treatment among property owners and to insure that all property taxpayers are required to bear their proportionate share of taxes based on the value of property. See, e.g., State ex rel. Bee Building Co. v. Savage, 65 Neb. 714, 91 N.W. 716 (1902) Chicago, B. & Q. R. R. Co. v. State Board of Equalization and Assessment, 170 Neb. 77, 101 N.W.2d 856 (1960); Equitable Life v. Lincoln County Board of Equalization, 229 Neb. 60, 425 N.W.2d 320 (1988). Obviously, many changes have occurred since the initial adoption of this constitutional principle. In particular, the historic reliance on property taxes as the primary source for the revenue needed to sustain both state and local government functions has, to a large degree, undergone a noticeable shift. Along with the establishment of the State Sales and Income Tax Act in 1967, and the corresponding imposition of the prohibition of a state tax on property contained in Article VIII, Section 1A, other specific constitutional amendments have been adopted which, to some degree, have altered the nature of our property tax system.<sup>1</sup>

Irrespective of these changes, our state supreme court has not, in the area of property taxation, wavered from the constitutional principle mandating uniformity of taxation. Apart from the existence of specific constitutional provisions contained in Article VIII, Sections 1 and 2, such as those authorizing the Legislature to classify and exempt personal property from taxation and to provide for a homestead exemption, the Legislature is prohibited from enacting legislation in contravention of this general constitutional principle. On the basis of the reasons previously stated, it is our opinion that the provisions of LB 84, as amended, would, if enacted, be unconstitutional.

<sup>1</sup>Article VIII, Sections 1 and 2, of the Constitution, have been amended on several occasions to authorize legislative action with regard to specific areas of property taxation. For example, among the specific provisions which have been adopted are those authorizing the Legislature to act to: (1) provide for the taxation of motor vehicles by a different method than utilized for other tangible property; (2) classify and exempt personal property from taxation; and (3) provide for a homestead exemption.

Very truly yours,

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 92.** Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Korshoj, 16th District; Labeledz, 5th District; Smith, 33rd District.

**PURPOSE:** The provision of fire protection services to rural, unincorporated areas has traditionally been the function of the fire protection district. Since 1907, the statutes have provided for people in unincorporated areas to form a taxing district for the purpose of taxing themselves to contract with neighboring cities for fire protection services. For the most part the mechanism has worked extremely well.

In recent years, municipal growth and annexation, particularly in the Omaha metropolitan area, has led to some controversy and uncertainty as to the operation of current fire protection district statutes. Questions of the division of assets, the merger of districts, the most efficient provision of services, and long-term contracts have been raised in Nebraska courts as well as in proposed legislation.

Recognizing that the Legislature has not undertaken a comprehensive review of the fire protection district statutes for nearly fifteen years, this study will examine current statutes, both in the light of current controversies and problems and with an eye to updating current statutes to reflect more current practices and existing fiscal conditions on the local level. In the conduct of this study, the committee will attempt to involve local municipal officials, local fire departments, and the officers and residents of existing fire protection districts.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 93.** Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Korshoj, 16th District; Labeledz, 5th District; Smith, 33rd District; and Scofield, 49th District.

**PURPOSE:** During the past two legislative sessions, the Urban Affairs Committee of the Legislature has had a deep concern for the need to provide Nebraska municipalities with appropriate tools to foster economic growth and development. In 1987, the committee

introduced and sponsored LR 21CA, and followed up with an interim study on the issue the same year. In the 1989 session of the Legislature, the committee introduced two constitutional amendment resolutions and considered two others dealing with the same issue.

Following the public hearing on the proposed constitutional amendments, the committee decided to retain only one of the proposals, LR 11CA, sponsored by Senator Scofield. If adopted, LR 11CA would permit cities and villages to use local sources of revenue to finance economic and industrial development projects after a vote of the people to approve the expenditure. The amendment would not be self-executing and would require legislative action to permit cities to exercise the authority.

Because the amendment would ultimately require legislative action, the committee decided to delay action on advancing the bill until the committee had the opportunity to investigate possible alternative proposals on how the amendment might be implemented. It decided that it would be most appropriate to draft an implementation bill and advance it to the full Legislature to follow the constitutional amendment and to provide the Legislature and the public with a clear picture of how the amendment would operate in actual practice and of what restrictions would be placed upon municipal exercise of the economic development authority.

The purpose of this interim study is to examine the current economic development needs of the cities of this state, the most appropriate limitations that should be placed upon the municipal exercise of the authority that would be granted upon adoption of LR 11CA, and to determine the proper form for implementation legislation.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 94.** Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Korshoj, 16th District; Labeledz, 5th District; Smith, 33rd District; and Scofield, 49th District.

**PURPOSE:** Nebraska municipalities are currently recognizing the need to address the problem of the quality of their drinking water. There is growing concern with regard to land uses in the areas surrounding their sources of supply for water that certain uses can adversely impact the purity and safety of the municipal water supply. Legislation introduced in 1989 legislative session and referred to the Urban Affairs Committee, specifically LB 216, sought to extend authority currently available to cities of the second class to protect their water supply to cities of the first class.

Concerns about the nature of the authority proposed to be granted to the cities and the possible jurisdictional confusion that might result led the committee to decide against advancing the bill to the full Legislature in favor of devoting time during the interim to a further study of the issue and its implications.

This study will investigate the extent of the problem of municipal water supply pollution and determine the best means of approaching a solution to the problem consistent with the concerns of agricultural and industrial interests. It will determine how best to coordinate such an approach with existing state and federal regulatory authority in the area of water quality and try to craft a solution aimed at efficient, effective protection of the municipal water supply without duplication or extra cost to the taxpayers.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 95.** Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Korshoj, 16th District; Labeledz, 5th District; Smith, 33rd District.

**PURPOSE:** Of the several standing committees in the Legislature, the Urban Affairs Committee has perhaps the broadest and most diverse subject matter jurisdiction. The committee has traditionally received bills the subject matter of which extends from cemeteries, to

natural gas, to museums. Bills quite often arise from specific problems in specific municipalities in a manner which does not lend itself to early identification or classification as would be the case with issues in the jurisdiction of other committees.

Recognizing this fact, the Urban Affairs Committee proposes an interim study aimed at identifying specific problems prior to the next legislative session so as to permit a more careful review of solutions before the session begins when time is not available for the type of analysis that the problems deserve.

The purpose of this study shall be to provide a forum during the interim period for municipalities and their representatives to present issues which would be the subject of future legislation or to solicit their reaction to proposals which have been presented to the committee for future consideration. The subjects under consideration would extend to any matter relevant to the Urban Affairs Committee's subject matter jurisdiction. It would be the goal of this study to determine whether such preliminary review of issues could streamline the hearing process and permit an expedited review of urban-oriented legislation.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 96.** Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Korshoj, 16th District; Labeledz, 5th District; Smith, 33rd District.

**PURPOSE:** In the last several legislative sessions, as well as during the last two interim periods, the Urban Affairs Committee and the Legislature have devoted considerable time and attention to municipal growth patterns and the conditions existing in areas commonly referred to as the extraterritorial zoning jurisdiction of cities. While several bills have been introduced to amend or reform the current organization and operation of sanitary and improvement districts, there has been no substantive study of the statutes creating and controlling such districts for several years.

When the sanitary and improvement district statutes were originally adopted, the intent was to create a mechanism for easy and economically feasible development of areas surrounding municipalities without the need for up front government financing. With rapidly shifting economic conditions and resulting changes in financing costs and interest rates, there is a need to examine the viability of the sanitary and improvement district mechanism in the current statutory scheme and determine whether it can continue to fulfill its original goals.

The purpose of this study is to involve sanitary and improvement district residents, municipal interests, the legal and financial communities, and the real estate industry in an assessment of the conditions that currently exist with regard to sanitary and improvement districts and to determine what changes or improvements are necessary to ensure that current and future sanitary and improvement districts operate efficiently and effectively as a tool of municipal growth and development.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 97.** Introduced by Chambers, 11th District.

**WHEREAS**, the undergraduate programs of the University of Nebraska-Lincoln serve the entire State of Nebraska; and

**WHEREAS**, there exists a statistically significant disparity between the representation of Black, American Indian, and Hispanic minority students in the undergraduate student enrollment of the University of Nebraska-Lincoln and the representation of such minority students in the total student enrollment of the primary and secondary schools of this state in that during the 1988-89 academic year, Black, American Indian, and Hispanic minority students respectively comprised 4.9%, 1.0%, and 2.3% of the total student enrollment of the primary and secondary schools of this state and

1.6%, 0.2%, and 0.9% of the undergraduate student enrollment of the University of Nebraska-Lincoln; and

WHEREAS, the undergraduate programs of the University of Nebraska at Omaha serve primarily the residents of the city of Omaha and Douglas County; and

WHEREAS, there exists a statistically significant disparity between the representation of Black, American Indian, and Hispanic minority students in the undergraduate student enrollment of the University of Nebraska at Omaha and the representation of such minority students in the total student enrollment of the primary and secondary schools of Douglas County in that during the 1988-89 academic year Black, American Indian, and Hispanic minority students respectively comprised 15.1%, 0.8%, and 2.5% of the total student enrollment of the primary and secondary schools in Douglas County and 4.1%, 0.2%, and 1.4% of the undergraduate student enrollment of the University of Nebraska at Omaha; and

WHEREAS, in order to fulfill the intent and purpose of section 85-116 that no person be deprived of the privileges of the University of Nebraska-Lincoln or the University of Nebraska at Omaha because of race or nationality, the State of Nebraska has a compelling interest in eliminating the statistically significant underrepresentation of Black, American Indian, and Hispanic students in the undergraduate student population of each university; and

WHEREAS, this compelling interest of the state should be addressed in part by the establishment of an endowment fund to provide total and partial undergraduate scholarships of tuition, fees, books, room, and board at the University of Nebraska-Lincoln and the University of Nebraska at Omaha to full-time Black, American Indian, and Hispanic students who cannot afford such educational expenses due to lack of financial resources available to them; and

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Board of Regents of the University of Nebraska is authorized to establish an endowed scholarship program for full-time Black, American Indian, and Hispanic undergraduate students at the University of Nebraska-Lincoln and the University of Nebraska at

Omaha who are graduates of a high school in this state and who due to lack of financial resources available to them cannot afford expenses associated with an undergraduate postsecondary education.

2. That such scholarship program, if implemented by the Board of Regents, shall be a temporary measure to continue only so long as there exists a statistically significant underrepresentation of any such minority group in the undergraduate student population of each university.

3. That any money appropriated by the Legislature for such a scholarship program shall be held, managed, and invested as an endowed scholarship fund in such manner as the Board of Regents may determine and as authorized by section 72-1246.

4. That the income from such endowed scholarship fund shall be expended for scholarships as described in this resolution and in accordance with such policies and requirements as the Board of Regents may deem necessary and proper.

5. That funds appropriated to the Board of Regents for such scholarship program shall be used in conjunction with private donations for scholarships and federal grant funds available to minority students at the University of Nebraska-Lincoln and the University of Nebraska at Omaha.

6. That the Clerk of the Legislature shall send a copy of this resolution to the Board of Regents.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 98.** Introduced by Goodrich, 20th District; Bernard-Stevens, 42nd District; Conway, 17th District; Withem, 14th District; Robak, 22nd District; Coordsen, 32nd District; Korshoj, 16th District; Beyer, 3rd District.

**PURPOSE:** The protection of children from known criminal sex offenders, drug pushers, and child abusers is of paramount importance to the Legislature. The inability to obtain criminal history information on current or prospective teachers, child or day care providers, persons operating school buses, and other employees places children at significant risk. The purpose of this resolution is to conduct an interim study of the ability of school districts and other state or local governmental agencies or political subdivisions to obtain criminal history information for purposes of employing, supervising, licensing, or certifying teachers, child or day care providers, school bus drivers, and other employees. In conducting this study consideration shall be given to:

(1) The criminal history and child abuse information currently available to school districts and other state or local governmental agencies or political subdivisions and the process for obtaining such information;

(2) The criminal history data bases or registries available on the federal level and process for obtaining access to such networks, data bases, or registries; and

(3) The criminal history data bases or registries available from other states and the possibility of entering into agreements with other states for purposes of accessing such information.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**LEGISLATIVE RESOLUTION 100.** Introduced by Wesely, 26th District; Nelson, 35th District; Dierks, 40th District; Withem, 14th District; Bernard-Stevens, 42nd District.

**PURPOSE:** Teenage violence, both on and off school grounds, has increased significantly in recent years. Offenses by students connected with gang violence and drug abuse even though committed off school grounds impacts the school when such students are allowed back in the classroom. Historically, school districts had the authority to discipline students for behavior occurring both on and off school grounds which impacted the educational process. In 1976, LB 503, section 11, codified as section 79-4,180, was enacted which limited this traditional authority. The law prohibited the imposition of any discipline greater than a five-day suspension for offenses by students occurring off school grounds. The purpose of this resolution is to

conduct a study of how this limitation on traditional school district powers has impacted the schools of this state and the advisability of restoring such authority to help school districts cope with increasing teenage behavior problems off campus which seriously impact on the schools. In conducting this study, consideration shall be given to:

(1) The impact on the educational process of prohibiting school districts from taking serious disciplinary action against students who commit offenses off school grounds;

(2) The escalating problem of teenage violence, gang warfare, and drug abuse occurring off school grounds and the ramifications of such acts of violence on the school setting; and

(3) The deterrent effect of allowing school districts to take serious disciplinary action against students who commit offenses off school grounds.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall, upon the conclusion of its study, make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 101.** Introduced by Hannibal, 4th District.

**WHEREAS,** cooperative extension professionals, volunteer leaders, and local boards have combined to develop and conduct an educational program in cooperation with county governments, the State of Nebraska, and the federal government; and

**WHEREAS,** cooperative extension is coordinated at the state level by the University of Nebraska-Lincoln; and

**WHEREAS,** cooperative extension has been recognized for enhancing production agriculture, developing young people through 4-H youth programs, enriching family living through home economics programs, and improving the quality of life in rural and urban settings throughout Nebraska; and

**WHEREAS,** cooperative extension is developing new activities and delivery systems to address major issues identified by Nebraskans in terms of water quality, revitalizing rural communities, increasing agricultural profitability, strengthening individuals and families, managing our natural resources, and improving nutrition and health; and

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

## RESOLUTION

**LEGISLATIVE RESOLUTION 104.** Introduced by Hartnett, 45th District.

**PURPOSE:** LB 789 was introduced in the 1989 session of the Legislature to provide an additional retirement option to police officers in cities of the first class in Nebraska. It would have permitted the retiring police officer to receive his or her pension benefits in the form of a lump sum settlement. Opposition to the bill focused on the fact that this option would reduce the pension program to little more than a savings plan. What did emerge from testimony at the public hearing on the bill was the basic conclusion that it was important to investigate the current annuity purchase scheme and to determine how best to alter or improve current practices to ensure a better return to the retiree. This study will investigate the current police pension program in cities of the first class and determine what changes are necessary to eliminate current police concerns about the level of pension benefits they will receive.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**MESSAGE FROM THE GOVERNOR**

May 4, 1989

Patrick J. O'Donnell  
Clerk of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 606, 681, 78, 646, 262, 591, and 591A were received in my office on May 2, 1989.

These bills were signed by me on May 4, 1989, and delivered to the Secretary of State.

Sincerely,  
(Signed) KAY A. ORR  
Governor

**RESOLUTIONS**

**LEGISLATIVE RESOLUTION 110.** Introduced by R. Johnson, 34th District.

**PURPOSE:** The purpose of this resolution is to study whether the State of Nebraska should regulate organic growers by enforcing product certification standards or whether such regulation should be carried out by the international Organic Crop Improvement Association to guarantee the quality of organic products through certification procedures.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 111.** Introduced by R. Johnson, 34th District.

**PURPOSE:** The purpose of this resolution is to evaluate the procedures for establishing a special protection area under the Nebraska Ground Water Management and Protection Act, sections 46-656 to 46-674 and sections 46-674.02 to 46-674.20. The study will examine procedures in the act:

- (1.) Generally, for their workability and effectiveness; and
- (2.) Specifically, for their relationship to the proposed administration by the state of the Federal Insecticide, Fungicide, and Rodenticide Act.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 112.** Introduced by Baack, 47th District.

**PURPOSE:** Federal regulations require handicapped students to be educated as close to the child's home as possible. The purpose of this resolution is to look at the feasibility of educating all handicapped children in their resident school district. The opportunity to grow and learn with family members and neighborhood friends is important to the social and emotional development of handicapped students. If handicapped students are not allowed to attend their resident school, a message is sent to communities that children with disabilities are different and therefore must go to a different school.

The study shall include, but not be limited to, the following issues:

1. The number of qualified teachers in highly specialized areas, such as for students who are hearing impaired or have visual handicaps or behavioral disorders;
2. Access to difficult-to-obtain related service providers, such as physical and occupational therapists;
3. The number of students that would be affected;

4. Whether all types of handicapping conditions would benefit from this requirement:

5. The magnitude and depth of parental sentiment and concern; and

6. The program costs under the current system, including transportation and contracting, compared with the estimated costs for services if provided at resident school districts.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 113.** Introduced by Barrett, 39th District.

**PURPOSE:** At the suggestion of Nebraska citizens involved in the New Horizons process, LB 409 was introduced to promote the use of vacant space in public buildings for small business incubators. Incubators have proven successful in a variety of settings as a means of developing local economies, an issue critical to Nebraska's future.

The intent of this study is to examine in detail the mechanism set forth in LB 409 to ensure its most efficient and effective operation upon enactment.

The study shall include, but not be limited to:

#### **ATTORNEY GENERAL'S OPINION**

##### Opinion No. 89043

DATE: May 4, 1989

SUBJECT: Deficit appropriation bill

REQUESTED BY: Senator Ron Withem  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

In your letter of inquiry you state that section 11 of LB 812 proposes to revise an appropriation of \$750,000, made by the Legislature in 1988 as an overmatch to the State Student Incentive Grant Program, #299. You also state in your letter of inquiry that this money has already been distributed to institutions by the Coordinating Commission and further, the program to which funds would be appropriated does not yet exist. You then ask several constitutional questions.

LB 1041 of the Ninetieth Legislature, Second Session (1988) appropriated \$750,000 from the General Fund for FY 88-89 to the Coordinating Commission for Postsecondary Education for Program 299 (SSIG). Section 11 of LB 812 of the Ninety-first Legislature, First Session (1989) states, in part, "There is hereby appropriated \$750,000 from the General Fund for the period July 1, 1988, to June 30, 1989, to the Nebraska Coordinating Commission for Postsecondary Education, for Program ~~299~~ 298 - Scholarship Assistance Program, for state student grants-in-aid, which shall only be used for such purpose. \* \* \*. It is intended that all funds in Programs 298 and 299 be allocated based on the distribution of federal need-based grants."

Obviously, the current budget program is 299 whereas 298 does not yet exist. In connection therewith, a distinction must be drawn between a budget program (an accounting convention) and a "program" required to be created in substantive law, i.e., a program in a functional sense "that delineates a role, purpose, or scope of activity." With this distinction in mind, it appears to us that section 11 of LB 812 does create a new statutory program of service. In other words, LB 812 changes the current language on the purpose, amount and, expenditure of the currently-appropriated funds, and directs they be accounted for in two separate programs. That, in our opinion, does raise constitutional questions. Accordingly, we see constitutional problems with section 11 of LB 812.

Section 11 does not add new money to a current program of service, to wit program 299, section 45 of LB 1041. Section 11 of LB 812 changes current program obligations, and creates program 298 Scholarship assistance program for budget purposes prior to passage of LB 468 first session 91 Legislature.

Respectfully submitted,  
ROBERT M. SPIRE  
Attorney General

Presented to the Governor on May 4, 1989, at 3:05 p.m., were the following bills: 330, 325, and 811.

(Signed) Randy Tippin, Enrolling Clerk

**RESOLUTIONS**

**LEGISLATIVE RESOLUTION 116.** Introduced by Withem, 14th District.

**PURPOSE:** The Legislature recognizes its importance and commitment to the citizens of this state when it undertakes the responsibility of enacting legislation which governs the State of Nebraska. The Nebraska Unicameral was originally founded on the premise of a citizens' Legislature. Therefor individual senators are expected to balance both legislative demands and maintain additional employment when not in regular session. Irrespective of the geographic limitations placed on senators residing in the western regions of our state, requirements of the Legislature compel senators to be present each day during the regular session each year.

The purpose of this resolution is to study the feasibility of adopting a rule which would limit the work week to four session days for conducting the business of the Legislature. The additional day of the work week would allow each senator to work on his or her legislation and constituent concerns and to attend to the necessities of private business. Currently many legislative hours are lost due to other responsibilities which have to be balanced with the legislative calendar. The study shall include, but not be limited to:

- (1) The possibility of extending the legislative calendar due to the adoption of the work week proposed in this resolution;
- (2) An examination of the legislative operations of other states in relation to their respective legislative calendars; and
- (3) The amount of time that has been lost because of absence during the session.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Rules Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 117.** Introduced by R. Johnson, 34th District.

**PURPOSE:** The purpose of this resolution is to evaluate the accomplishments of the agriculture promotion and development program in the Department of Agriculture and agribusiness development through various programs of the Department of Economic Development.

The study shall assess whether the funding and agency powers for these programs are adequate for the purposes intended to be accomplished.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 118.** Introduced by R. Johnson, 34th District.

**PURPOSE:** The purpose of this resolution is to assess the future of the Nebraska College of Technical Agriculture at Curtis if Kearney State College becomes part of the University of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 119.** Introduced by R. Johnson, 34th District.

**PURPOSE:** The purpose of this study is to evaluate the ability of the state laboratory to meet livestock disease, feed and agricultural chemical, seed, dairy and food, and ground water testing demands imposed by state and federal laws or made by producers.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 120.** Introduced by R. Johnson, 34th District.

**PURPOSE:** The purpose of this study is to evaluate the benefits of the Employment Expansion and Investment Incentive Act and the Employment and Investment Growth Act for rural areas and small communities in Nebraska. The study should examine whether the acts have encouraged the location of new businesses, the retention of existing businesses, and the creation and expansion of new jobs in the rural areas and small communities in Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 121.** Introduced by R. Johnson, 34th District.

**PURPOSE:** The purpose of this resolution is to evaluate the agricultural lending program of the Nebraska Investment Finance Authority. Since its inception in 1983, NIFA has made a total of five hundred twenty-five agricultural loans worth thirty-six million dollars. However, NIFA's agricultural lending has dropped to fourteen loans in 1987 and eleven loans in 1988. When coupled with the problems of the Farm Credit System of Omaha and the Farmers Home Administration, a need to assess state financing activity is warranted.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**STANDING COMMITTEE REPORT  
Government, Military and Veterans Affairs**

**LEGISLATIVE BILL 817.** Placed on General File.

(Signed) Dennis Baack, Chairperson

**ATTORNEY GENERAL'S OPINIONS**

Opinion No. 89044

DATE: May 5, 1989

**SUBJECT:** Nebraska Education Data Center

**REQUESTED BY:** Senator Sharon Beck  
Nebraska State Legislature

**WRITTEN BY:** Robert M. Spire, Attorney General  
Harold Mosher, Assistant Attorney General

If enacted into operative law, LB 744 of the Ninety-first Legislature, First Session (1989), would create the Nebraska Education Data Center. Section 4 thereof establishes the Education Data Advisory Committee and section 5 imposes on that committee the duty to establish a plan to improve the education data system for elementary and secondary education and to report by March 1, 1990, its findings and a plan. You have asked several questions which pertain to LB 744, each of which are hereinafter stated and discussed.

Is there a state law that deals with the exchange of data - personal, test scores, etc.?

Subject to the limitations stated in Neb.Rev.Stat. §§79-4,157 and 79-4,158 (Reissue 1987), “{a} copy of a public or private school’s files or records concerning a student shall be provided at no charge, upon request, to any public or private school to which the student transfers.” Neb.Rev.Stat. §79-4,157.01 (Reissue 1987). We also call your attention to section 5 of LB 744, as amended on May 3, 1989, which states: “All data on individual students generated pursuant to this act, including data on individual student’s academic performance, shall be kept private and confidential and shall be subject to section 79-4,157 and the General Education Provisions Act, 20 U.S.C. 1232(g) through (i) and all other provisions of state and federal laws insuring the privacy and confidentiality of information on students.” See, page 2050 of the Legislative Journal of the Ninety-First Legislature, First Session (1989).

Does state law address the electronic exchange of student information?

There is no such law.

Would LB 744 mandate the collection of information on students whose parents have elected, pursuant to subdivision (5) of section 79-328 and subsections (2) through (4) of section 79-1701, not to comply with state requirements for accreditation or approval due to sincerely held religious beliefs?

No. See section 4 of LB 744, as amended on May 3, 1989, and reported at page 2050 of the Legislative Journal of the Ninety-First Legislature, First Session (1989).

If Nebraska were to develop a data collection system based on the National Assessment of Educational Progress test, would not the federal government control the curriculum in our public schools? Stated somewhat differently, you cannot compare apples and oranges - each child would need to be taught from the same curriculum in order for a valid comparison to be made and if the curriculum in the public schools is based on a federally funded assessment program, then is the federal government exercising control over our curriculum?

We find nothing in LB 744 which mandates the use of any specific test. Consequently, we cannot answer your question.

Respectfully submitted,  
ROBERT M. SPIRE  
Attorney General

Opinion No. 89045

DATE: May 4, 1989

SUBJECT: Proposed Amendment AM 1397 to the  
Low-Level Radioactive Waste Act

REQUESTED BY: Senator M. L. Dierks, District No. 40  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Linda L. Willard, Assistant Attorney General

You have inquired whether AM 1397's proposed system of seeking local approval while limiting the number of elections conflicts with provisions of the Central Interstate Low-Level Radioactive Waste Compact. It is our determination that this method of requiring a vote for approval but limiting the number of elections does not conflict with the provisions of the Compact. However, we feel compelled to note that what you have proposed may affect the state's relationship with the Compact and the developer in other ways.

Federal regulations, 42 U.S.C.A. 2021e(d)(2)(B)(iii), require that the Compact regions certify to the Nuclear Regulatory Commission

by January 1, 1990, that the Compact region will be capable of providing for, and will provide for, the storage, disposal, or management of any low-level radioactive waste generated within the Compact after December 31, 1982. Subsection (C) of the same regulation sets a deadline of January 1, 1993, for a Compact region to be able to provide for the disposal of low-level waste generated within the Compact region. If all three sites currently identified as potential sites reject the facility, there is no assurance that an additional two sites will even be identified by January 1, 1990. Federal regulations are clear that the states will lose access to existing sites for the disposal of low-level radioactive waste on January 1, 1993.

If voters in all three of the counties with currently identified sites veto placement within their county, a delay would result while additional testing and negotiations are conducted by the developer to identify two additional sites to satisfy AM 1397. If the siting and voting process involves such additional time that federally mandated deadlines are not met, the Compact Commission or the federal government may view the delay as unreasonable and seek to impose penalties against Nebraska for the delay. Penalties imposed would undoubtedly include the cost incurred by other Compact states for disposal of their low-level waste until such time as a facility is ready to accept the waste within the Compact region.

Placing additional conditions on the developer at this time may also affect the contract between the developer and the Compact Commission. Currently the contract provides that the developer must indemnify the Compact if a deadline is not met due to the developer's fault. If compliance with AM 1347 requires additional time, the developer may arguably be excused from the indemnity clause because of conditions created by the state. Additional contract concerns may be raised by the developer if the county approving the facility does not contain the site considered by the developer to be the least threatening to the health and safety of the general population of the area, state, and Compact region.

Again, it is our opinion that AM 1397 does not violate the Compact conditions. However, there are other concerns inherent in the Compact, federal laws, and the contract with the developer which may be affected by the passage of this amendment. It is impossible at this stage to determine whether the passage of the amendment would affect the Compact agreement, the contract with the developer, or the state's obligations under federal law. We have presented some of the potential problems which might arise. We do not represent that these concerns are all inclusive of the potential problems which may arise when performance conditions are changed at this stage nor do

we represent that all or any of these problems would necessarily arise if the amendment were passed. We present this only as questions to be considered by the legislators.

You have also inquired whether the State Director of Environmental Control could issue a license to the developer to site the facility notwithstanding the enactment into law of any of the local approval provisions proposed in AM 1397. It is our conclusion that, based on the conditions contained in AM 1397, the Director would be unable to issue a license to a developer prior to either approval by a local county or the requisite veto by five counties.

Sincerely,  
ROBERT M. SPIRE

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 132.** Introduced by Landis, 46th District; Scofield, 49th District; Baack, 47th District; Withem, 14th District; Barrett, 39th District; Hall, 7th District; Byars, 30th District; Schimek, 27th District; Lynch, 13th District; Hannibal, 4th District; Crosby, 29th District.

**PURPOSE:** The Select Committee on Children and Families, in its participation in the process to implement the family policy objectives, has identified the need to develop prevention and early intervention programs for at-risk children as well as the need to establish programs in locations accessible to children such as the schools.

These needs have been further identified as priorities by the more than two thousand Nebraska citizens who have participated in the New Horizons process. The Legislature recognizes that an increasing number of Nebraska's children are at risk of experiencing serious problems by virtue of their family circumstances. These children may be growing up in poverty, may be the children of children, may have undiagnosed learning disabilities, emotional problems, or physical handicaps, or may simply be living in a family that is unresponsive to the child's needs. Children at risk are more likely to abuse drugs and alcohol, become pregnant while still a teen, become involved in the juvenile justice system, drop out of school, experience severe emotional disturbances, or commit suicide.

The Legislature recognizes the implications of failing to address the needs of these children and further recognizes that to succeed in helping children at risk, early and sustained intervention in the lives of at-risk children, in the context of the family, the community, and the school, is the only means of assuring these children a brighter future.

The study shall include, but not be limited to, an analysis of the following issues:

- (1) A minimum level of prevention and early intervention services that should be available statewide to at-risk children;
- (2) Recommendations for coordinating and providing those services to children in accessible locations such as schools;
- (3) Recommendations for affixing responsibility at the state level for providing the identified services; and
- (4) Recommendations for funding the identified services.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Select Committee on Children and Families, the Education Committee, and the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees involve representation from the state's child-serving agencies, including the Department of Health, the Department of Public Institutions, the Department of Social Services, and the State Department of Education, and interested members of the public.

WHEREAS, agency roles and responsibilities in serving children and families are frequently unclear which results in services that are fragmented or completely lacking; and

WHEREAS, to work together effectively, the respective roles and responsibilities of state agencies in serving children and families both in relation to each other and in relation to local communities and private providers must be defined.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

2. That the select committee will involve in the study the Departments of Public Institutions, Social Services, Correctional Services, and Health, the Governor's Policy Research Office, and the State Department of Education.

3. That the select committee will solicit recommendations regarding agency roles and responsibilities from interested members of the public, including service providers and schools.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 135.** Introduced by Ashford, 6th District.

**PURPOSE:** The purpose of this resolution is to examine bidding practices and antitrust provisions in the delivery of health care delivery services as the Legislature tries to ensure quality health care and products that are available and affordable for the consumer and the State of Nebraska. Such study shall specifically review whether bidding procedures for ancillary health care services, fulfilled by pharmacies and other health care participants, violate any antitrust provisions or would require additional legislation allowing the Department of Insurance and the Attorney General more guidance and control to ensure equal and fair bidding policies of all health insurance organizations.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. The Judiciary Committee shall invite the chairpersons of the Health and Human Services and the Banking and Insurance committees to join in the study.
3. That the Judiciary Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 136.** Introduced by Baack, 47th District.

**PURPOSE:** The purpose of this resolution is to study the Nebraska Building Energy Conservation Standard and the Building Energy Conservation Standards Board established pursuant to sections 81-1608 to 81-1626 to determine what, if any, legislative changes are needed. The study should examine the policy of adopting a particular code in state statute and the effectiveness of the board and the need for a code oversight board. Finally, the study should examine the need to adopt an energy efficiency rating system for new and existing housing.

The Nebraska Building Energy Conservation Standard was adopted in 1981 and updated in 1982 and 1983. The standard is the Model Energy Code, 1983 Edition, of the Council of American Building Officials. Nebraska's code was adopted to provide for the development and implementation of minimum statewide lighting and thermal efficiency standards for buildings, to promote energy efficiency, to provide for the public health, safety, and welfare, and to insure coordination with federal policy under the Energy Conservation Standards for New Buildings Act of 1976.

Nebraska is one of only four states currently using the Model Energy Code, 1983 Edition. The code was updated in 1986 but the newer version was never adopted by Nebraska. Altogether eleven codes and numerous variations of these codes are used across the country. Most states have adopted their own energy code based on one or more of the most widely used codes.

Energy building codes are changing rapidly to keep pace with changing technology in the building industry. Congress is currently considering legislation which would increase building standards through a variety of methods. Options include a nationwide building code, an energy efficiency rating system for new and existing housing, and incentive programs for builders, utilities, and mortgage lenders. Actions on the federal level will require coordination and integration into Nebraska's process.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Government, Military, and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study, with the assistance of the Nebraska Energy Office, to carry out the purposes of this resolution.

### ATTORNEY GENERAL'S OPINION

#### Opinion No. 89046

DATE: May 8, 1989

SUBJECT: Constitutionality of LB 323 if amended by proposed amendment AM 1654

REQUESTED BY: Senator David Landis  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Marilyn B. Hutchinson  
Assistant Attorney General

You have asked whether the text of LB 323 on final reading would be constitutional if amended by proposed amendment AM 1654. We have concluded it would be, as discussed below.

After LB 131 was enacted in 1986, expanding the scope of practice for optometrists and classifying licensees, we pointed out several constitutional problems in the areas of equal protection, privileges and immunities and delegation. See, Attorney General Opinion #86061 (August 8, 1986). Those problems were later corrected. See, Attorney General Opinion #87040 (March 25, 1987).

Now LB 323 is before you as additional amendments regarding the licensing of optometrists. It appears to have constitutional problems similar to those discussed in Attorney General Opinion #86061.

We have reviewed your proposed amendments to LB 323 in AM1654. We have concluded that your proposed amendments adequately address the constitutional problems in the bill. Therefore, if LB 323 is amended, as you propose, we think it will be constitutional.

Sincerely yours,  
ROBERT M. SPIRE  
Attorney General

WHEREAS, the Legislature has the ultimate authority to set policy guidelines and ensure that present and future needs of the state are being met; and

WHEREAS, the Legislature should examine the regional center system and its operation to ascertain whether the state's needs are being met.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

The purpose of this resolution is to evaluate the need for and use of certificated school counselors in the public elementary schools of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

Currently such laboratories and those employed by them and technicians are not licensed or otherwise certified by the state and are not required to conform to any minimal health standards. Such standards may be necessary to assure infectious disease control and to protect quality requirements.

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**LEGISLATIVE RESOLUTION 153.** Introduced by Wesely, 26th District; Smith, 33rd District.

**PURPOSE:** The purpose of this resolution is to conduct an interim study to determine the programs that provide health care to children in Nebraska and to identify gaps in such health care.

Although there are programs in Nebraska to ensure that children receive the health care they need, there are children who are not eligible for services or, if they are eligible for health care services, do not receive them.

The study should include, but not be limited to, the following issues:

- (1) Identification of existing programs and their costs;
- (2) Determination of what services are needed that are not currently available;
- (3) Study of the coordination in services for publicly funded health care programs for children;

- (4) Identification of the number of children who are not receiving adequate health related services;
- (5) Study of the medical care needs of vulnerable populations of children, including children in foster care;
- (6) Availability of services under the medicaid program; and
- (7) Ways to ensure that all children receive immunizations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 154.** Introduced by Wesely, 26th District.

**PURPOSE:** The purpose of this resolution is to conduct a study on the needs of caregivers to the elderly in the State of Nebraska.

The Health and Human Services Committee conducted a study pursuant to LR 396 on Caregivers of the Elderly in 1988 and found that eighty percent of those over sixty-five years of age needing care are receiving that care in a home setting. Extrapolating from national figures, there are forty-eight thousand two hundred sixty-nine households in Nebraska in which there are caregivers for the elderly. Over fifty percent of these caregivers also have children at home and fifty percent are employed outside the home. Nebraska's population over seventy-five years of age is growing at a rapid rate which will result in an increase in the number of caregivers.

This study will examine a number of issues relative to the plight of caregivers, including, but not limited to, the following:

- (1) Identification of the needs of state employees who are caregivers and the role the state should take in addressing those needs as the States of Illinois and Washington have done;
- (2) Development of mechanisms to encourage the private sector to provide services needed by the elderly and their caregivers in both urban and rural areas;
- (3) Development of legislation which will provide respite care, on a sliding fee scale, for eligible frail elderly and functionally impaired persons and their caregivers;

(4) Study of methods to focus state financing of long-term care on home and community-based services; and

(5) Establishment of a Caregivers Task Force to work in cooperation with the Alzheimer's Disease Task Force to (a) identify the various public and private organizations and agencies across the state which work with caregivers, (b) identify any problems of these groups, and (c) coordinate, where appropriate, their activities.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 155.** Introduced by Wesely, 26th District.

**PURPOSE:** The purposes of this resolution are to conduct a study of appropriate standards for special care units for the victims of Alzheimer's disease and related disorders and to recommend to the Legislature necessary legislation to ensure appropriate regulation of and standards for such units.

The Legislature established the Alzheimer's Disease Task Force in 1986 with the passage of LB 804 and rechartered the Task Force in 1987. In the course of its work the Alzheimer's Disease Task Force held seven town hall meetings across the state in the fall of 1988 and found five areas of concern among families of Alzheimer's disease victims and those who provide services. The areas of concern are the need for change in nursing homes, for providing relief for caregivers, for education for professionals, for information to increase general awareness, and for medical assessment centers.

The task force has determined that special care units in nursing homes are a means of providing the best care in the least restrictive environment for victims of Alzheimer's disease and related disorders and that state law makes no provision for the regulation of special care units.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 156.** Introduced by Health and Human Services Committee: Wesely, 26th District, Chairperson; Byars, 30th District; Crosby, 29th District; Dierks, 40th District; Goodrich, 20th District; Lynch, 13th District; Schellpeper, 18th District.

**PURPOSE:** The State of Nebraska is affected fiscally and socially by the need for and provision of human service programs and by the health status of its citizens. These human service and health issues include, but are not limited to: Cost containment for health care services; availability of nurses and other health care providers; discipline for chemically impaired professionals; emergency medical services; health care for the medically indigent; laboratory testing; long-term care for the elderly; maternal and infant care; mental health; mental retardation; substance abuse; poverty; regulation of new health professions; rural health care availability; teenage pregnancy; asbestos removal; work and training mandates for recipients of public aid; the Nebraska Mental Health Commitment Act; payment of services for persons committed for treatment under the Nebraska Mental Health Commitment Act; naturopaths; fees for licensure; services for the medically fragile; services for the developmentally disabled; hunger; acquired immunodeficiency syndrome; and certificate of need. These issues have been reviewed and continue to need review by the Legislature to determine the appropriate legislative responses.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 159.** Introduced by Schellpeper, 18th District; Wesely, 26th District.

**PURPOSE:** Recent data indicates that between ten and fifteen percent of the population of the State of Nebraska under the age of sixty-five do not have health insurance. The number of those lacking health insurance appears to be increasing. The state, local hospitals, and physicians end up having to bear the cost when illness or injury occur. People who lack insurance may put off obtaining care for a health problem until their illness is serious which may result in greater health problems and increased cost due to the nature of the illness. The study of this issue shall include, but not be limited to, the following issues:

(1) Effectiveness of incentives for businesses to provide health insurance coverage for their employees;

(2) Whether establishing an insurance pool for this purpose would be an effective method of increasing coverage; and

(3) Any other issues necessary for a complete examination of this issue.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Banking, Commerce and Insurance Committee and the Health and Human Services Committee of the Legislature shall be designated to jointly conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

### **RESOLUTIONS**

**LEGISLATIVE RESOLUTION 160.** Introduced by Moore, 24th District.

WHEREAS, crimes perpetrated against children, including molestation, abduction, attempted abduction, sexual abuse, and murder, are increasing;

WHEREAS, there is increasing public concern over the number of missing and kidnapped children reported each year;

WHEREAS, the mobility of modern day society allows missing or kidnapped children to be transported long distances in a short period of time;

WHEREAS, besides victimized children, there are an increasing number of children that are in latchkey or self-care situations who may from time to time need adult help urgently;

WHEREAS, as a result, children, wherever they may be, need access to a block home, which is a place of safety and refuge with an easily identifiable block home symbol;

WHEREAS, there are currently several different symbols being used to alert distressed children and adults about places of refuge where help will be provided;

WHEREAS, having several different symbols in use causes confusion because it is difficult to teach children to understand and differentiate between all the different community and neighborhood safety symbols being used in the state;

WHEREAS, there is a need for a universal block home program and symbol to clearly identify homes in communities that serve as places of refuge for children or adults who are frightened, injured, lost, in danger, crime victims, or in any emergency situation;

WHEREAS, McGruff House is a well-developed nationwide program that ensures safety for children by requiring criminal history checks on all McGruff House participants;

WHEREAS, the McGruff House program is easy to implement and furnishes detailed information and guidelines;

WHEREAS, McGruff, the crime fighting dog, has been adopted and promoted by the National Crime Prevention Council and Coalition as its official symbol for safety;

WHEREAS, a nationwide survey of children ages five to twelve shows a ninety-nine percent recognition rate for McGruff, with ninety-seven percent of children trusting his message, and a ninety-six percent recognition rate among teens;

WHEREAS, the McGruff House program is being used in thirty-two states across the country; and

WHEREAS, numerous local, state, and national organizations, including the National Crime Prevention Council and Coalition and the International Association of Chiefs of Police, have endorsed the McGruff House block program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature encourages Nebraska communities to establish block home programs.

2. That the McGruff House symbol and program be exclusively recommended for use in Nebraska to allow children and adults to readily recognize the symbol in any part of the state or country they are in.

3. That copies of this resolution be sent to the director of the National Crime Prevention Council and Coalition, the president of the International Society of Crime Prevention Practitioners, and the International Association of Chiefs of Police.

Laid over.

**LEGISLATIVE RESOLUTION 161.** Introduced by Moore, 24th District.

**WHEREAS,** the incentives are seriously injuring the ability of United States pork producers to make a profit in this country; and

**WHEREAS,** there is a duty on hogs imported from Canada and a temporary duty on imported pork products from Canada which attempt to offset the incentives provided by the Canadian Government.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Legislature urges the United States Government to establish a permanent duty on pork products imported from Canada to offset the incentives paid to Canadian pork producers by their government.

WHEREAS, we have been endowed not only with the blessings and benefits afforded us by our animal friends, who give us companionship and great pleasure in our daily lives, but also with the responsibility to protect these fellow creatures from need, pain, fear, and suffering; and

WHEREAS, we recognize that the teaching of attitudes of kindness, consideration, and respect for all living things through humane education in our schools and communities helps to provide the basic values upon which a humane and civilized society is built; and

WHEREAS, the people in the State of Nebraska are deeply indebted to animal care and control agencies for their invaluable contributions in caring for lost and unwanted animals, instilling humane values in our children through humane education programs, and promoting a true working spirit of kindness and consideration for animals in the minds and hearts of all people.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. The Legislature does hereby proclaim May 7 through May 13, 1989, as BE KIND TO ANIMALS WEEK in the State of Nebraska and urges all citizens to take due note of the observance.

Laid over.

**LEGISLATIVE RESOLUTION 169.** Introduced by Wesely, 26th District.

**PURPOSE:** The purpose of this resolution is to provide information regarding homelessness within the State of Nebraska and to explore the future involvement of the state in the alleviation of this growing social crisis.

The number of people who are homeless is growing throughout the state. Emergency shelters consistently operate at or near their capacities, and transitional housing programs are so limited as to make vacancies rare. A census taken by the Omaha Coalition for the Homeless of emergency shelter occupancy in Omaha found that from April 1987 to April 1988 the number of homeless increased by twenty-five percent. A census conducted by the State Department of Education revealed that on one night in October of 1988, there were over six hundred homeless children throughout the state. It is commonly believed that these six hundred children represent only a small portion of all homeless children.

Through an examination of various completed studies, there are in Omaha and Lincoln alone several thousand homeless people every night. Through anecdotal information, it is known that homelessness exists in smaller communities throughout the state, however, the degree of the crisis is presently unknown.

The study shall include, but not be limited to, the following issues:

(1) The development of a data resource base which would provide information as to the demographics of homelessness throughout the state;

(2) An examination of the involvement of other states in the alleviation of homelessness. Specific areas of focus would include:

(a) State-funded coalitions for the homeless; and

(b) Financial and technical assistance programs which provide incentives and support for the development of transitional housing programs;

(3) An examination of the potential for future funding by the State of Nebraska to assist in the alleviation of homelessness; and

(4) An examination of current statutes concerning the operation of housing authorities in the State of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 170.** Introduced by Wesely, 26th District.

**PURPOSE:** The purpose of this resolution is to authorize a study of continuing care retirement communities in Nebraska. Continuing care retirement communities are an increasingly popular alternative form of housing for those over the age of sixty-five. Such communities guarantee access to increasing levels of health care ranging from independent living units to infirmaries or nursing home facilities under a contract based on an entrance fee as well as possible payment of monthly charges.

In Nebraska, however, there are no statutory provisions, rules, regulations, or case law that protects residents' substantial investment in such communities, and there is the potential for continuing care retirement communities to have financial problems.

The study authorized by this resolution should include, but not be limited to, the need for and appropriate means of regulating:

- (1) Disclosure of assets and liabilities of the organizers of a community;
- (2) Disclosure of ownership interests;
- (3) Disclosure of certain facility policies, such as when a refund is due, when occupancy can be terminated, when an agreement can be rescinded, and how much health care will be provided;
- (4) Reserve requirements;
- (5) Escrow requirements; and
- (6) Individual rights of residents.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 171.** Introduced by Wesely, 26th District.

**PURPOSE:** The purpose of this resolution is to study the effectiveness of the school weatherization activities in Nebraska and the desirability of continuing funding for school weatherization from the severance tax after the sunset date of July 1, 1990. The study should examine the program's cost effectiveness and the remaining unmet weatherization needs of Nebraska's schools.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 172.** Introduced by Wesely, 26th District.

**PURPOSE:** There exists in Nebraska a need for better accountability and disclosure of lobbying activities by special interest groups and a code of ethics for all state government officials. It is in the public interest to know when special interest groups are influencing public policy decisions made by state officials both in the Legislature and in the executive branch of state government and that a code of ethics be established to guide state officials to avoid potential conflicts of interest.

The purpose of this resolution is to study current state statutes relating to public accountability and disclosure of lobbying activities and a code of ethics for state officials to identify necessary changes to accomplish the goal of providing the best possible state government service to the citizens of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE EIGHTY-NINTH LEGISLATURE OF NEBRASKA, SECOND SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or the Legislature.

Referred to the Executive Board.

### RESOLUTIONS

**LEGISLATIVE RESOLUTION 173.** Introduced by Wehrbein, 2nd District.

**PURPOSE:** The purpose of this resolution is to examine snowmobiles, including their usage, the method by which they are licensed, registration of snowmobiles, education on snowmobile operation, the use of funds generated by licensure and registration of snowmobiles, and other issues included in LB 463, Ninety-first Legislature, First Session. The study should determine the proper usage of Nebraska roads taking into consideration all aspects of safety set forth by the federal government and laws currently existing in this state. Attention should also be given to the way snowmobiles are licensed and how best to use funds collected in registering snowmobiles. The intent of this resolution is to formulate public policy on the use of snowmobiles on public right-of-way, along with the licensing of snowmobiles to protect the interest of those who own and operate snowmobiles in the State of Nebraska and the public.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 174.** Introduced by Lamb, 43rd District; Baack, 47th District.

**PURPOSE:** The purpose of this resolution is to study current provisions of Nebraska law relating to abandoned motor vehicles. The study shall include an examination of:

(1) The current procedures for disposing of abandoned motor vehicles held by counties and municipalities;

(3) Whether to prohibit the registration of motor vehicles by any person who has abandoned a motor vehicle and failed to pay storage and removal costs.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**LEGISLATIVE RESOLUTION 175.** Introduced by Morrissey, 1st District.

**PURPOSE:** The purpose of this resolution is to conduct an interim study of the development and utilization of standard voter registration forms and the creation of a master list of all registered voters in the state to be maintained in the office of the Secretary of State.

The election process is facilitated through the collection and distribution of voter registration information. However, county clerks and election commissioners currently use various forms to

register individuals to vote and different methods to create and maintain voter registration records, many of which do not garner the same kinds of information or maintain the same kinds of records.

As communication through computers become more and more sophisticated, the efficient electronic transfer of information between state and county governments requires information and systems that are compatible.

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 182.** Introduced by Nelson, 35th District; Robak, 22nd District; Smith, 33rd District; Hannibal, 4th District.

**PURPOSE:** The purpose of this interim study is to study provisions of the Asbestos Control Act and its implementation by virtue of rules and regulations adopted and promulgated by the Department of Health. This study will include, but not be limited to, an examination of the effects of the act upon residential and business entities within the State of Nebraska and shall create findings and a clarification of existing law.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 183.** Introduced by Withem, 14th District.

**PURPOSE:** To study the availability, quality, and coordination of early childhood education and child care in communities throughout Nebraska. It has been demonstrated that appropriate early childhood education and developmental experiences strengthen children and their families. Further, early childhood care and education represent a sound financial investment for the future of Nebraska. Yet early childhood care and education programs serve only a fraction of Nebraska's children.

The National Conference of State Legislatures has awarded a technical assistance grant to the Education Committee and Health and Human Services Committee to cooperatively study and plan for support of early childhood education and child care policies. Legislation is pending both in Congress and the Legislature which would expand opportunities for quality child care and early childhood education. There is a need to solicit input from parents, schools, private and public providers of child care, and the public in order to develop coordinated and effective policy in these related areas.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee and the Health and Human Services Committee of the Legislature shall cooperatively conduct an interim study to carry out the purposes of this resolution.

2. That the Task Force on Quality, Accessible, Affordable Child Care of the Health and Human Services Committee and the Early Childhood Policy Development Task Force appointed by the State Board of Education shall be jointly involved in the interim study activities.

3. That the committees shall conduct public forums to gather information about the nature and availability of services statewide and to increase public awareness of the status of early childhood care and education.

4. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 184.** Introduced by Withem, 14th District.

**PURPOSE:** To study public-private partnerships in education. Across the nation, numerous private groups, including civic organization, businesses, and industry, have become more involved with public schools. There is a growing recognition that the private sectors have a real stake in the future of the schools and the school's ability to produce literate, thinking citizens and workers.

The purpose of the study is to develop a report on public-private partnerships in education in Nebraska, to hold hearings or forums to highlight successful partnerships, and to propose model structures for utilization in Nebraska communities.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Education Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 185.** Introduced by Withem, 14th District.

**PURPOSE:** To study educational accountability systems. In the last several years there have been several efforts and initiatives to develop greater accountability measures describing the resources and performance of the state's school system. While various national measures, such as the Secretary of Education's Wall Chart comparison of the fifty states, show Nebraska schools to be performing relatively well although declining, there are serious questions about the validity and diagnostic usefulness of such measures.

The Legislature has required that by July 1, 1989, all schools shall meet performance-based accreditation standards. Further, the Legislature and State Board of Education are considering participations in the National Assessment of Educational Progress (NAEP) and other student performance measures. The study shall include consideration of the implementation of these and other accountability and assessment measures.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Education Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 186.** Introduced by Withem, 14th District.

**PURPOSE:** To study teacher training in human relations and cultural diversity. This session the Legislature has heard and debated LB 250 which would require all teachers to have some training in human relations skills. An awareness and understanding of the culture, values, lifestyles, contributions, and history of different groups in our pluralistic society is necessary for teachers to be able to relate with and effectively teach all students.

The purpose of this study is to monitor the efforts of the teacher-training institutions in incorporating training in human relations into the curriculum. The study shall also address the appropriate role of the State Department of Education in strengthening teacher competency in human relations.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Education Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 187.** Introduced by Chambers, 11th District.

**PURPOSE:** The purpose of this resolution is to study sentencing disparity and the use of sentencing guidelines in Nebraska's criminal justice system. Sentencing guidelines have been developed and implemented in other states in an effort to reduce disparity and increase proportionality in sentencing.

The study proposed by this resolution would examine sentencing disparity, various sentencing guideline models, sentencing accountability, sentencing alternatives, and the impact of each on prison incarceration and population. The study would also include an examination of sentencing options currently in use in some states.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Legislative Research Division shall assist the committee in the completion of the study.
3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 188.** Introduced by Wehrbein, 2nd District.

**PURPOSE:** The purpose of this resolution is to study the issues raised by the introduction of LB 798 in the Ninety-first Legislature, First Session, regarding clinical training of students studying the practice of chiropractic. The study shall review: (1) The need or desirability of increased clinical training for students studying chiropractic; and (2) the need or desirability of allowing students of chiropractic to obtain clinical training under the direction of licensed chiropractors practicing in the State of Nebraska.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 189.** Introduced by Moore, 24th District; Lamb, 43rd District; Withem, 14th District.

**PURPOSE:** The purpose of this resolution is to study a replacement system for the present school finance system, as proposed by LB 611, Ninety-first Legislature, First Session, 1989, with a system which shares the income tax base with school districts to provide substantial and enduring property tax relief and a stable and lasting school finance system. It is also the purpose of this study to look at methods of assuring property tax relief by establishing limits on school district budget growth, which limits are sensitive to local needs and spending levels. This study shall include, but not be limited : (1) Any proposal for lasting property tax relief that deals with the issue of school finance; and (2) whether it is appropriate to share the income tax base with school districts to (a) assure all children a more equitable opportunity for an appropriate education, (b) provide a stable system of broad financial support for public schools through an appropriate mixture of revenue sources, and (c) provide equalization of fiscal ability and property tax burden among school districts through the inclusion of income wealth in the determination of a school district's ability to provide educational programs to the extent that such income is part of the accessible tax base.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Education Committee and Revenue Committee of the Legislature shall be designated to jointly conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 192.** Introduced by Schellpeper, 18th District; Pirsch, 10th District.

**PURPOSE:** The rights of crime victims in our society are too often neglected. Legislation has been enacted in recognition of the needs of victims. Currently, there is great interest in alternative sentences such as community service, restitution, intensive probation, house arrest, and electronic monitoring due to increased prison populations and increased cost to the state and its political subdivisions and questions about the effectiveness of prison for either rehabilitation or deterrence of crime. The purpose of this study is to examine whether alternative sentences can be used to improve the lot of crime victims and increase the responsibility of persons convicted of crimes to their victims without deprecating the seriousness of the offenses involved.

This study shall include, but not be limited to, examination of the following issues:

(1) Methods of increasing restitution to crime victims by persons convicted of such crimes;

(2) Methods of giving crime victims meaningful input into the criminal justice process, including sentencing, to the extent allowed by the United States Constitution;

(3) Whether alternative sentences are appropriate for certain types of offenses or whether they may deprecate the seriousness of the offense to the victim and society;

(4) Whether alternative sentences can provide effective rehabilitation of persons convicted of crimes;

(5) The deterrent effect of various types of alternative sentences;

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 209.** Introduced by Scofield, 49th District.

**PURPOSE:** As environmental protection issues continue to grow in dimension and complexity, the demands placed upon the Department of Environmental Control have also increased significantly. Since the creation of the department in the early 1970s several programs have been added to the jurisdiction of the department for regulation and oversight. These include leaking underground storage tanks, wastewater treatment facilities, hazardous waste, low-level radioactive waste disposal, Superfund sites, chemigation, and solid waste. As actions of the federal government increase the enforcement duties of the states, federal funding for these activities are not increasing at a similar rate. The purpose of this study is to assess the ability of the department to respond to these increasing demands and whether budgetary, statutory, staffing, and organizational changes

may be necessary to better respond to environmental protection needs. In conducting the study consideration shall be given to:

(1) Legal and financial issues through an examination of the department's level of resources and authority to thoroughly address liability issues and monitor legal developments with regard to environmental and financial responsibility issues;

(2) Staff workload and specialization through a review of staff workload, including the possible need to hire additional staff and specialists due to increased workloads and more complex issues;

(3) Federal and state legislation through an analysis of how state and federal legislation have impacted the responsibilities of the department and its funding level, an examination whether state-mandated program budgets are adequate to meet the demand, and consideration of whether the department should be directed to report to the Legislature on an annual basis regarding the status of federal Environmental Protection Agency mandates and funding levels; and

(4) Environmental Control Council membership, powers, mandates, and authority and possible statutory revisions to the membership of the council and its duties to better respond to the increase in complexity and scope of issues that it must address.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Appropriations Committee, the Government, Military and Veterans Affairs Committee, the Judiciary Committee, and the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 210.** Introduced by Schmit, 23rd District.

**PURPOSE:** The purpose of this resolution is to provide for a study of the role and structure of public power in the State of Nebraska, with specific emphasis on consolidation of public power entities and facilities, including central dispatch facilities and other such joint efforts. The committee shall hold hearings and solicit public input in conducting the study provided for in this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 211.** Introduced by Schmit, 23rd District.

WHEREAS, the State of Nebraska's local governments and political subdivisions have historically issued bonds to finance essential public projects such as roads, bridges, schools, public buildings, and water, gas, and electric utilities and facilities;

WHEREAS, Congress has historically recognized the important role of such bonds in funding public projects by refraining from taxing the interest on such bonds;

WHEREAS, in the case of *South Carolina v. Baker* the United States Supreme Court ruled that Congress may tax interest on state and local government bonds;

WHEREAS, the taxation of interest on state and local government bonds would increase capital costs severely impairing the ability of these governments to finance essential public projects; and

WHEREAS, it is in the best interest of the citizens of the State of Nebraska that tax-exempt financing be available to state and local governments and their political subdivisions as a necessary method of funding public projects.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature opposes any further restrictions by the United States Congress in federal laws or regulations that prevent or limit the issuance of tax-exempt bonds by state and local governments and their political subdivisions.

2. That the Legislature supports the elimination of existing restrictions on the issuance of public purpose bonds.

3. That a copy of this resolution be transmitted to the Nebraska delegates in the United States Senate and House of Representatives.

Laid over.

### RESOLUTION

**LEGISLATIVE RESOLUTION 212.** Introduced by Wesely, 26th District.

**PURPOSE:** The purpose of this resolution is to provide information regarding homelessness within the State of Nebraska and to explore the future involvement of the state in the alleviation of this growing social crisis.

The number of people who are homeless is growing throughout the state. Emergency shelters consistently operate at or near their capacities, and transitional housing programs are so limited as to make vacancies rare. A census taken by the Omaha Coalition for the Homeless of emergency shelter occupancy in Omaha found that from April 1987 to April 1988 the number of homeless increased by twenty-five percent. A census conducted by the State Department of Education revealed that on one night in October of 1988, there were over six hundred homeless children throughout the state. It is commonly believed that these six hundred children represent only a small portion of all homeless children.

Through an examination of various completed studies, there are in Omaha and Lincoln alone several thousand homeless people every night. Through anecdotal information, it is known that homelessness exists in smaller communities throughout the state, however, the degree of the crisis is presently unknown.

The study shall include, but not be limited to, the following issues:

(1) The development of a data resource base which would provide information as to the demographics of homelessness throughout the state;

(2) An examination of the involvement of other states in the alleviation of homelessness. Specific areas of focus would include:

- (a) State-funded coalitions for the homeless; and
- (b) Financial and technical assistance programs which provide incentives and support for the development of transitional housing programs;
- (3) An examination of the potential for future funding by the State of Nebraska to assist in the alleviation of homelessness; and
- (4) An examination of current statutes concerning the operation of housing authorities in the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**ATTORNEY GENERAL'S OPINION**

Opinion No. 89047

DATE: May 9, 1989

SUBJECT: Constitutionality of the Homestead Exemption Provisions of LB 84, as Amended

REQUESTED BY: Senator Rex Haberman  
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to the constitutionality of Section 8 of LB 84, the Property Tax Relief Act, as amended by AM 1711. Generally, pursuant to this amendment, owners of homestead property are eligible to receive property tax relief in the form of a reduction in the valuation of their homestead for tax year 1989, in an amount which is the greater of: (1) an exemption of the first \$5400 of the actual value of the homestead; (2) an exemption under Neb.Rev.Stat. §§77-3507 to 77-3509 (Reissue 1987 and Cum. Supp. 1988) for which the owner is qualified; or (3) the 8.5 percent reduction in value provided to real and taxable personal property under the Act. Your specific question concerns whether the treatment of homestead property in this manner somehow violates either Article VIII, Sections 1 and 4, of the Nebraska Constitution, or Article III, Section 18, of the Constitution. In spite of the very limited time period which is available for us to consider your questions, we will nevertheless endeavor to provide a general response to the apparent concerns raised in your requests.

Recently, in Attorney General Opinion No. 89042, issued on April 27, 1989, we addressed certain questions with regard to the homestead exemption provision contained in LB 84 prior to its recent amendment. In this opinion, we noted that Article VIII, Section 2, of the Nebraska Constitution, expressly authorizes the provision of a homestead exemption. This section provides, in pertinent part: "The Legislature may by general law provide that a portion of the value of any residence actually occupied as a homestead by any classification of owners as determined by the Legislature shall be exempt from taxation." Prior to 1983, the Legislature provided a general homestead exemption based on the exemption of a percentage of the value of homestead property in the state. Neb.Rev.Stat. §77-3506 (Cum. Supp. 1980) (repealed, Laws 1983, LB 396).

The potential constitutional defect which we discussed in connection with our opinion concerning LB 84 prior to its current amendment concerned the impact of the provision of a \$6800 homestead exemption to all homeowners and the granting of a ten percent property tax reduction to other real property owners, such as agricultural or commercial taxpayers. In essence, under the bill as previously drafted, certain homeowners would have been subjected to disproportionate taxation in comparison to owners of

non-homestead property by virtue of the fact that they would have received a lesser percentage of relief than owners of agricultural, commercial, or other non-homestead real property. It was in this context that we noted our concern that this disparate treatment would violate Article VIII, Section 1, and could also constitute unreasonable class legislation, in violation of Article III, Section 18, of the Nebraska Constitution.

In our view, the current amendments to LB 84 (in particular, the provisions contained in Section 8), appear to eliminate the constitutional concerns expressed in our prior opinion. While it is true that homeowners with low actual valuations of property for tax purposes may receive greater relief in proportion to the values of their property than owners of higher-valued homestead properties, this has always been true in the case of legislative enactments providing for the exemption of a portion of the value of homestead property, and is consistent with the express authority granted the Legislature under Article VIII, Section 2. As to the validity of maintaining the special homestead provisions contained in Neb.Rev.Stat. §§77-3507 to 77-3509 (Reissue 1987 and Cum. Supp. 1988), we do not believe this presents any constitutional problem, as Article VIII, Section 2, allows the Legislature to provide a homestead exemption by "any classification of owners as determined by the Legislature. . ." It has never been suggested that the separate classifications of owners provided for under §§77-3507 to 77-3509 (including certain persons over age 65, certain veterans or the unremarried widows or widowers of some veterans, and certain disabled individuals) are unreasonable or arbitrary and, accordingly, we do not believe the maintenance of these exemption provisions would be found to be unconstitutional.

Finally, while it is not entirely clear from your request, it appears you are concerned that the provision of relief for certain owners of homestead property based on an 8.5 percent reduction in the valuation of such property, while providing an exemption of the first \$5400 of homestead property for eligible property owners or the exemptions contained in §§77-3507 to 77-3509, would violate the above-referenced constitutional provisions.

Again, referencing our previous opinion, it appears that the recently adopted amendments to LB 84 accommodate our prior concern that, by exempting only a specified dollar amount of the value of all homestead property while providing a ten percent reduction to other non-homestead real property owners, owners of homestead property above a certain valuation would, in effect be taxed disproportionately in relation to the relief provided to owners of commercial, agricultural, or non-homestead real property, in violation of the Constitution. The bill, as amended, would seemingly

operate to preclude a situation where a taxpayer receiving relief on homestead property would, under any circumstance, receive less relief than any non-homestead property owner in proportion to the value of their property. This would appear to remove the potential constitutional objection raised in our earlier opinion in this regard.

In conclusion, it is our opinion that, based on the limitations previously stated, the provisions of LB 84, as currently amended, do not appear to be unconstitutional in relation to any of the questions which, based on our understanding of your requests, you have raised for our consideration.

Very truly yours,  
**ROBERT M. SPIRE**

22 reasonable public support. Notice of such public  
23 hearing shall be given at least ten days prior thereto  
24 by publication in a newspaper having general circulation  
1 in the county in which the applicant track is operating,  
2 and the commission shall conduct a public hearing in  
3 such county. The commission may adopt, promulgate, and  
4 enforce rules and regulations governing the application  
5 and approval for Sunday racing in addition to its powers  
6 in section 2-1203. If the State Racing Commission  
7 permits racing on Sunday, the voters may prohibit such  
8 racing in the manner prescribed in section 2-1213.01.  
9 If approval by the commission for Sunday racing at the  
10 applicant track is granted, no racing shall occur on  
11 Sunday until after 1:00 p.m.

12 No license shall be granted for racing on more  
13 than one racetrack in any one county, except that the  
14 commission may, in its discretion, grant a license to  
15 any county agricultural society to conduct racing during  
16 its county fair notwithstanding a license may have been  
17 issued for racing on another track in such county.  
18 Since the purpose of sections 2-1201 to 2-1218 is to  
19 encourage agriculture and horse breeding in Nebraska,  
20 every licensee shall hold at least one race on each  
21 racing day limited to Nebraska-bred horses. Three  
22 percent of the first money of every purse won by a  
23 Nebraska-bred horse shall be paid to the breeder of such  
24 horse. No horse may compete in a race limited to  
1 Nebraska-bred horses nor shall any bonuses be paid  
2 unless the horse and the name, address, and percentage  
3 of ownership of all owners of such horse is registered  
4 with the Nebraska Thoroughbred or Quarter Horse Registry  
5 prior to the running of the race.

6 (2) For purposes of this section,  
7 Nebraska-bred horse shall mean a horse registered with  
8 the Nebraska Thoroughbred or Quarter Horse Registry and  
9 meeting the following requirements: (a) It must have  
10 been foaled in Nebraska; (b) its dam must have been  
11 registered, ~~prior to foaling, six months prior to~~  
12 foaling, along with the names, addresses, and percentage  
13 of ownership of all owners with the Nebraska  
14 Thoroughbred or Quarter Horse Registry; (c) ~~its owner or~~  
15 ~~owners, or, if the owner is a corporation, all~~  
16 ~~stockholders thereof, at least fifty percent or more of~~  
17 its ownership, or, if its owner is a corporation,  
18 stockholders holding at least fifty percent of the stock  
19 must have been bona fide citizens of Nebraska  
20 continually from January 1 of the year of conception  
21 through the date of foaling; and (d) its dam must have  
22 been continuously owned ~~by a bona fide citizen of~~  
23 ~~Nebraska as set out in subdivision (c) of this~~  
24 subsection and have been continuously in Nebraska for  
1 six months immediately prior to foaling, except that  
2 such six-month period may be reduced to (i) ninety days  
3 in the case of a mare in foal which is registered as a  
4 brood mare with the Nebraska Thoroughbred or Quarter  
5 Horse Registry but which is being actively trained and  
6 raced outside Nebraska and is returned to this state and  
7 remains herein continuously for ninety days immediately

8 prior to foaling or (ii) thirty days in the case of a  
9 mare in foal which is purchased at a nationally  
10 recognized thoroughbred or quarter horse blood stock  
11 sale, the name and pedigree of the mare being listed in  
12 the sale catalog, and which is brought into this state  
13 and remains in this state for thirty days immediately  
14 prior to foaling.

15 The requirement that a dam must be  
16 continuously in Nebraska for either six months, ninety  
17 days, or thirty days, as specified in subdivision (2)(d)  
18 of this section, shall not apply to a dam which is taken  
19 outside of Nebraska to be placed for sale at a  
20 nationally recognized thoroughbred or quarter horse  
21 blood stock sale, the name and pedigree of the mare  
22 being listed in the sale catalog, or for the treatment  
23 of an extreme sickness or injury, if written notice of  
24 such proposed sale or treatment is provided to the  
1 secretary of the commission within three days of the  
2 date such horse is taken out of the state.

3 The State Racing Commission may designate  
4 official registrars for the purpose of registration and  
5 to certify the eligibility of Nebraska-bred horses. An  
6 official registrar shall perform such duties in  
7 accordance with policies and procedures adopted and  
8 promulgated by the State Racing Commission in the  
9 current rules and regulations of the commission. The  
10 commission may authorize the official registrar to  
11 collect specific fees as would reasonably compensate the  
12 registrar for expenses incurred in connection with  
13 registration of Nebraska-bred horses. The amount of  
14 such fee or fees shall be established by the commission  
15 and shall not be changed without commission approval.  
16 Fees shall not exceed one hundred dollars per horse.

17 Any decision or action taken by the official  
18 registrar shall be subject to review by the commission  
19 or may be taken up by the commission on its own  
20 initiative.

21 Sec. 3. That original sections 2-1207.01 and  
22 2-1213, Reissue Revised Statutes of Nebraska, 1943, are  
23 repealed.”

**UNANIMOUS CONSENT - Print in Journal**

Mr. Kristensen asked unanimous consent to print the following amendment to LB 653 in the Journal. No objections. So ordered.

AM1770

1 1. Insert the following new sections:

2 "Sec. 3. That section 77-1510, Revised  
3 Statutes Supplement, 1988, be amended to read as  
4 follows:

5 77-1510. Appeals may be taken from any action  
6 of the county board of equalization to the district  
7 court in the following manner:

8 (1) The appeal shall be filed within  
9 forty-five days after adjournment of the board which  
10 shall be deemed to be May 31 of the year in which the  
11 action is taken;

12 (2) The appeal shall be deemed to be filed for  
13 purposes of granting jurisdiction with the filing of the  
14 petition ~~in district court~~ and praecipe for summons in  
15 the district court and the filing of a request for  
16 transcript with the county clerk. The county clerk  
17 shall prepare the transcript as soon as practicable  
18 after requested and shall deliver the same to the  
19 taxpayer for filing with the clerk of the district court  
20 upon receipt from the taxpayer of the appropriate fees  
21 for its preparation. No proceedings shall be held on  
1 the appeal of the taxpayer until the summons has been  
2 served and the transcript has been filed in district  
3 court; and

4 (3) A bond of no less than fifty dollars and  
5 no more than two hundred dollars, as determined by the  
6 district court, shall be filed with the petition in the  
7 form of a cash deposit or signature bond, property bond,  
8 or other bond approved by the county clerk.

9 After an appeal has been initiated, the board  
10 shall have no power or authority to compromise, settle,  
11 or otherwise change the action it has taken with respect  
12 to such assessment, and exclusive jurisdiction thereof  
13 shall be vested in the district court, except that the  
14 board may offer to confess judgment pursuant to section  
15 4 of this act. No appeal shall in any manner suspend  
16 the collection of any tax; or the duties of officers  
17 relating thereto; during the pendency of the same  
18 appeal, and all taxes affected thereby, which may be

19 collected, shall be distributed as though no appeal were  
20 pending. If by final order of a court it is thereafter  
21 determined that such tax or a part thereof should be  
22 refunded, the county treasurer is authorized to make the  
23 refund upon receiving a certified copy of such final  
24 order, the refund to be made from funds in his or her  
1 possession or accruing to the various taxing districts  
2 to the extent which they profited from the original  
3 overpayment.

4 The county may cross appeal, without giving  
5 bond, for the reason that the actual value of the  
6 owner's property is too low and should be increased in  
7 value as of the assessment date from which the appeal  
8 was taken.

9 In the event that the taxpayer as a part of  
10 his or her appeal challenges the values as determined by  
11 the agricultural land valuation manual ~~as issued~~ or the  
12 validity of any other manual mandated by the Tax  
13 Commissioner, the taxpayer shall at the time of filing  
14 his or her petition give notice to the Tax Commissioner  
15 of any such challenge and serve a copy of the petition  
16 upon the Tax Commissioner by certified mail within three  
17 days of the filing of the petition, and thereafter the  
18 Tax Commissioner shall be considered a party defendant  
19 in the appeal. Notwithstanding the denominating of the  
20 Tax Commissioner as a party defendant, the Tax  
21 Commissioner shall not be required to further plead in  
22 the cause but shall have the privilege of participating  
23 in the action without the necessity of intervention.  
24 The burden of proof shall be on the taxpayer to show the  
1 defect of the values as established in the agricultural  
2 land valuation manual or the defect in any other manual  
3 prescribed by the Tax Commissioner for use by the  
4 counties. The court in its final order may, if the  
5 taxpayer has sustained his or her burden of proof, alter  
6 the valuation as established in the agricultural land  
7 valuation manual or as necessary to correct a defect in  
8 any other manual mandated by the Tax Commissioner, in  
9 which case the court shall as a part of its findings set  
10 out specifically the defect found and the factual basis  
11 supporting such finding.

12 Any party may appeal the final order of the  
13 district court entered pursuant to this section to the  
14 Supreme Court in the manner provided for appeals in

15 equity cases, and the Supreme Court shall thereafter  
16 review the case de novo on the record.

17       Sec. 4. After an appeal from any action of  
18 the county board of equalization is brought, the board  
19 may, with approval of the court, offer in court to  
20 confess judgment for part of the value claimed or part  
21 of the causes involved in the action. If (1) the  
22 appellant is present and refuses to accept such  
23 confession of judgment in full of his or her demands  
24 against the board in such action or if the appellant  
1 fails to attend having had reasonable notice that the  
2 offer would be made, its amount, and the time of making  
3 it and (2) at trial the appellant does not recover more  
4 than was offered to be confessed, the appellant shall  
5 pay all the costs and fees the board incurred after  
6 making the offer. The offer shall not be deemed to be  
7 an admission of the cause of action or relief to which  
8 the appellant is entitled, and the offer shall not be  
9 given in evidence at the trial.

10       Sec. 5. That section 77-1513, Reissue Revised  
11 Statutes of Nebraska, 1943, be amended to read as  
12 follows:

13       77-1513. Whenever any person ~~shall appeal~~  
14 appeals to the district court from the assessment of his  
15 or her property as fixed by the county board of  
16 equalization; and the appeal ~~shall be~~ is sustained in  
17 whole or in part, the costs of such appeal, including  
18 costs of witnesses, if any, ~~shall be paid by the county~~  
19 ~~wherein such property is situated~~ may be taxed by the  
20 court as it deems just. In case If the appeal is not  
21 sustained in whole or in part, ~~the costs shall be paid~~  
22 ~~by the appellant~~ or if a cross appeal by the board is  
23 sustained in whole or in part, the cost of such appeal  
24 or cross appeal, including costs of witnesses, may be  
1 taxed by the court as it deems just. Whenever any  
2 person ~~shall appeal~~ appeals from the assessment of  
3 another as fixed by the county board of equalization;  
4 and ~~said~~ the appeal ~~shall be~~ is sustained in whole or in  
5 part, the costs of such appeal ~~shall~~ may be taxed to the  
6 appellee. ~~If~~ ; ~~and where~~ the appeal is not sustained,  
7 the costs ~~shall~~ may be taxed to the appellant; unless  
8 the appellant ~~shall be~~ is the county assessor or county  
9 clerk; in which case the costs shall be paid by the  
10 county.

11           Sec. 6. That original section 77-1513,  
12 Reissue Revised Statutes of Nebraska, 1943, and section  
13 77-1510, Revised Statutes Supplement, 1988, are  
14 repealed.

15           Sec. 7. Since an emergency exists, this act  
16 shall be in full force and take effect, from and after  
17 its passage and approval, according to law.”.

### RESOLUTION

**LEGISLATIVE RESOLUTION 213.** Introduced by Crosby, 29th District; Ashford, 6th District; Langford, 36th District.

WHEREAS, numerous national studies have exposed the extent of geographic illiteracy among the American public, including students at all grade levels; and

WHEREAS, a similar lack of geographic knowledge is evident among Nebraska youth; and

WHEREAS, geographic knowledge is important because we are living in an increasingly complex global environment and an increasingly interdependent global economy; and

WHEREAS, economic and environmental issues which develop in various parts of the world transcend national boundaries and thus affect the quality of our life; and

WHEREAS, to be informed citizens and effective business, educational, and political leaders, it is essential that citizens be geographically literate; and

WHEREAS, to address this educational need in Nebraska, geographic educators have taken a number of steps, including the formation of a coalition of concerned persons from the State Department of Education, the Lincoln and Omaha public schools, the University of Nebraska-Lincoln, the University of Nebraska at Omaha, and Kearney State College; and

WHEREAS, to improve geographic education in Nebraska will require significant cooperation, financial effort, and involvement from these institutions and other organizations; and

WHEREAS, the National Geographic Society, recognizing the costs associated with the improvement of geographic education, has made planning grants available to selected states for the development of geographic alliances; and

WHEREAS, geographic educators of Nebraska intend to submit an application in August 1989 to the National Geographic Society for such a planning grant.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature commends the efforts of geographic educators of Nebraska for initiating plans to strengthen and improve geographic education in Nebraska's elementary and secondary school programs.

2. That the Legislature encourages these Nebraska educators in their future efforts to improve geographic education.

3. That the Legislature endorses the application to the National Geographic Society for a planning grant and the establishment of a formal state geographic alliance which will then entitle Nebraska to seek subsequent funding and utilize National Geographic Society resources and materials.

### **ATTORNEY GENERAL'S OPINION**

#### Opinion No. 89048

**DATE:** May 12, 1989

**SUBJECT:** Constitutionality of Proposed Amendments to Legislative Bill 137 Relating to Adjustment of Retirement Benefits of the Nebraska State Patrolmen's Retirement System.

**REQUESTED BY:** Senator Rex Haberman, Chairman, District 44 Nebraska Retirement Systems Committee

**WRITTEN BY:** Robert M. Spire, Attorney General  
Fredrick F. Neid, Assistant Attorney General

This is in response to your question concerning the constitutionality of Amendment 1154 to Legislative Bill 137.

AM 1154 is an Amendment to Standing Committee Amendment, AM 0812. In reconstructing Section 1 of LB 137 after Amendment to Standing Committee Amendment (AM 0812), the section states:

Any annuity paid pursuant to sections 81-2014 to 81-2034 to any officer or surviving spouse qualified to receive such payment prior to January 1, 1978, shall be adjusted to an amount of at least one thousand dollars per month beginning on July 1, 1989.

Amendment 1154 deleted language in the original bill which provided that the payment was an adjustment to reflect changes in the cost of living and wage levels.

Article III, Section 19, of the Nebraska Constitution prohibits increases for services previously rendered except that retirement benefits may be adjusted "to reflect changes in the cost of living and wages levels. . ." . Deletion of this language from the bill results in Section 1 of LB 311 providing for increases which would be constitutionally prohibited.

Accordingly, the conclusions in Opinion 88022, (Opinion of the Attorney General, March 11, 1988), apply to Amendment 1154 to the Standing Committee Amendments to LB 311.

Sincerely yours,  
ROBERT M. SPIRE  
Attorney General

### ATTORNEY GENERAL'S OPINIONS

#### Opinion No. 89049

DATE: May 11, 1989

SUBJECT: Constitutionality of an Appropriation for "Facility Maintenance and Planning Activities" Related to a Building which is not owned by the State of Nebraska

REQUESTED BY: Senator Rex Haberman  
Nebraska Legislature

WRITTEN BY: Robert M. Spire, Attorney General  
Dale A. Comer, Assistant Attorney General

You have requested our opinion as to the "constitutionality of an appropriation for 'facility maintenance and planning activities' related to a building that is owned by an entity other than the State of Nebraska." From the context of your opinion request, together with the other materials which you provided to us, it appears that you are concerned that the appropriation in question violates Article XIII, Section 3 of our state constitution which provides that the credit of the state shall not be given in aid of any private individual, association or corporation. As discussed below, we have concluded that the appropriation in question does not violate that provision of our state constitution.

LB 164 initially was drafted to establish a state Task Force on Historic Preservation to survey and review historic preservation projects and activities in Nebraska. As a result of an amendment by the Government Military and Veterans Affairs Committee, the original bill was gutted, and LB 164 became a proposed amendment

to Neb.Rev.Stat. §81-815.21 providing that it is the intent of the Legislature that Joslyn Castle and its grounds should be preserved as a historical structure and as a part of the state park system. Coincidental to this change in LB 164, LB 813, the main appropriations bill, provides that the State Visitors Promotion Cash Fund shall receive \$50,000 for fiscal year 1989-90 "for facility maintenance and planning activities related to the Joslyn Castle." Portions of the floor debate on this appropriation in LB 813 which you provided to us indicate that the \$50,000 is to be used for a study to determine how best to utilize the Joslyn Castle, and for payment of utility costs and security costs for the building.

Joslyn Castle in Omaha is owned by the Omaha Public Schools, and is not a state property. As a result, you are concerned about the constitutionality of appropriating state monies for maintenance of a building which is not owned by the state. That concern prompted your opinion request to us.

Article XIII, Section 3 of our Nebraska Constitution provides, in pertinent part, "the credit of the state shall never be given or loaned in aid of any individual, association or corporation . . ." Our Supreme Court has indicated that the purpose of this section is to prevent the state from extending its credit to private enterprise. Lenstrom v. Thone, 209 Neb. 783, 311 N.W.2d 884 (1981). In essence, public monies may not be used for private purposes. State ex rel Beck v. City of York, 164 Neb. 223, 82 N.W.2d 269 (1957). However, no hard and fast rule can be established for determining whether a proposed expenditure of public funds is devoted to a public use or purpose, and each case must be decided with reference to the object sought to be accomplished and to the degree and manner in which that object affects the public welfare. United Community Services v. The Omaha National Bank, 162 Neb. 786, 77 N.W.2d 576 (1956). It is for the Legislature to decide in the first instance what is and what is not a public purpose, and, to justify a court in declaring a particular action invalid, the absence of a public purpose must be so clear and palpable as to be immediately perceptible to the reasonable mind. Chase v. County of Douglas, 195 Neb. 838, 241 N.W.2d 334 (1976). The vital point in all such determinations is whether the purpose is public, and if it is, it does not matter whether the agency through which the funds are dispensed is public or not; the appropriation is not made for the agency, but for the object which it serves. Id. The test in each case for whether there is a public purpose in a given appropriation is in the end, not in the means. Id.

In the present instance, we cannot say that there is clearly no public purpose involved in the appropriation of funds for the maintenance of Joslyn Castle. As noted above, the money here is

apparently going to a state agency for a study of the uses for Joslyn Castle, and for interim preservation of the facility itself. There apparently is no appropriation for maintenance other than for payment of utilities and security costs, and it does not appear that this appropriation constitutes an outright payment to a private entity. It also seems to us that it could be said that preservation of our architectural heritage and preparation of a new state park for all Nebraskans do constitute public purposes. As a result, we believe that it could be argued that there is a proper public purpose underlying the appropriation for preservation of Joslyn Castle, and we do not believe that such an appropriation violates Article XIII, Section 3 of our state constitution.

Sincerely yours,  
ROBERT M. SPIRE

Opinion No. 89050

DATE: May 12, 1989

SUBJECT: Constitutionality of Legislature Bill 311 as amended and Legislative Power to Grant Authority To Issue Bonds.

REQUESTED BY: Senator Sandra K. Scofield, State Senator  
Legislative District No. 49.

WRITTEN BY: Robert M. Spire, Attorney General  
Fredrick F. Neid, Assistant Attorney General

This is in response to your request for an opinion of this Office concerning proposed Legislative Bill 311, as amended. LB 311, in part, provides for funding mechanisms for construction of wastewater treatment facilities.

The first inquiry is whether Article I, Section 26, and Article XIII, Section 2 of the Nebraska Constitution delegate to the Legislature the power to authorize the Nebraska Investment Finance Authority (NIFA) to issue Wastewater Treatment Facility Bonds. In reviewing

these provisions, issuance of bonds to finance wastewater treatment facilities is not expressly provided for.

Your related inquiry is, if not expressly provided for in Articles I and XIII, from what source does the Legislature derive the power "to authorize NIFA to issue these bonds?" It is the conclusion of this Office that the Legislature has the inherent power to enact legislation which would authorize the issuance of bonds if not constitutionally prohibited or inhibited. This conclusion is reached because an express grant of authority for specific purposes is not required under the Nebraska Constitution.

The Legislative grant of power is not derived solely from the Constitution but also, from the people of the State of Nebraska. Initially, the people have all legislative power. Generally, the widely accepted view is that a state legislature may generally pass any act because legislative capacity not constitutionally inhibited or prohibited is retained in the people and exercised by representatives of the people. Our Supreme Court in State, ex rel. Creighton Univ. v. Smith, 217 Neb. 682, 353 N.W.2d 267 (1984), has accepted this view and recognized that the Constitution is not a grant of power but a limitation of power.

Further, this question was partially answered by the Court in State, ex rel. Meyer v. Duxbury, 183 Neb. 302, 160 N.W.2d 88 (1968). In this case, the Court considered the question whether authority for issuance of revenue bonds by the Nebraska Clean Waters Commission was a valid delegation of legislative power. The Court noted that while the delegation of authority to the Commission was under generalized standards, the field of operation of the Commission is quite narrow. It was observed that the powers of the Commission are limited to assisting municipalities in the planning and financing of waste water collecting systems and treatment. The Court specifically held that the issuance of bonds was not an invalid delegation of legislative power to the Commission.

Accordingly, it is our opinion that while the Constitutional provisions you have referred to do not constitute a specific grant of power, these provisions do not expressly prohibit or limit the power of the Legislature to authorize issuance of bonds contemplated in LB 311.

The second question you have raised is whether Amendment 1620 is sufficient "to overcome the constitutional limitations on the indebtedness of the State?" In an earlier opinion of this Office, it was concluded that to the extent proposed LB 311 would authorize use of state funds for payment or to secure indebtedness or obligations of the Fund, it is offensive to Article XIII, Section 1, of the

Constitution of the State of Nebraska. Opinion of the Attorney General #89036, April 18, 1989.

AM 1620, in pertinent part, provides:

The fund and assets thereof may be used, to the extent permitted by the Clean Water Act, as amended, and the regulations adopted and promulgated pursuant to such act, to pay or to secure the payment of bonds and the interest thereon, except that amounts deposited into the fund from state appropriations and the earnings on such appropriations may not be used to pay or to secure the payment of bonds or the interest thereon.

(emphasis added.)

Concern has been indicated that the State will use funds other than proceeds from the issuance of NIFA Bonds to guarantee repayment. Concern has also been expressed that the State will be "inserted" in place of the local financial institution in the financing mechanism contemplated by LB 311. While there may be other sources, financing mechanisms which derive funds from sources other than state general funds derived from state revenues are not constitutionally prohibited. In the earlier opinion of this Office, it was our conclusion that the Special Fund Doctrine is recognized in this State.

In reviewing LB 311 as amended, we are unable to determine whether financial institutions would be circumvented from participation in financial transactions which maybe undertaken. The role local financial institutions would play would depend on the structuring of any bond underwriting undertaken by NIFA. There is not sufficient information before us to conclude whether traditional roles of financial institutions would be supplanted by the State under the provisions of proposed LB 311. In any event, the role financial institutions would undertake under the auspices of a legislative enactment providing for a bond underwriting is a policy question to be decided by the legislature.

In conclusion, it is our opinion that the provisions of AM 1620 remove objection because of the Constitutional prohibition regarding debt since state funds are expressly prohibited from securing or paying debt obligations of the Wastewater Treatment Facilities Construction Loan Fund.

Sincerely yours,  
ROBERT M. SPIRE

### **UNANIMOUS CONSENT - Print in Journal**

Mr. Warner asked unanimous consent to print the following amendment to LB 525 in the Journal. No objections. So ordered.

AM1862

- 1           1. Insert the following new section:  
 2           "Sec. 6. The State Treasurer is hereby  
 3 directed to transfer \$40,000,000 from the General Fund

4 to the Securities Act Cash Fund on or before July 15,  
 5 1989. It is the intent of the Legislature that the  
 6 amount transferred by this section be invested in United  
 7 States treasury bills and treasury notes. It is the  
 8 intent of the Legislature that investments be made with  
 9 maturities that maximize interest return, with (1)  
 10 twenty percent of transferred funds to be available as  
 11 cash for transfer approximately two years from July 31,  
 12 1989, (2) twenty percent available approximately three  
 13 years from July 31, 1989, (3) twenty percent available  
 14 approximately four years from July 31, 1989, (4) twenty  
 15 percent available approximately five years from July 31,  
 16 1989, and (5) twenty percent available approximately six  
 17 years from July 31, 1989. It further is the intent of  
 18 the Legislature to transfer amounts described in  
 19 subdivisions (1) through (5) of this section, including  
 20 accrued interest generated by that amount, in a manner  
 21 to be determined by future Legislatures.”.

1           2.       Renumber the remaining section  
 2 accordingly.

Mr. Schmit asked unanimous consent to print the following amendment to LB 84 in the Journal. No objections. So ordered.

AM1854

(Amendments to Final Reading Second)

1           1.       Strike the original sections and insert  
 2 the following new sections:  
 3           “Section 1. That section 77-2701, Revised  
 4 Statutes Supplement, 1988, be amended to read as  
 5 follows:  
 6           77-2701. Sections 77-2701 to 77-27,135 and  
 7 sections 2 and 3 of this act shall be known and may be  
 8 cited as the Nebraska Revenue Act of 1967. After  
 9 January 1, 1984, any reference to sections 77-2701 to  
 10 77-27,135 or the Nebraska Revenue Act of 1967 shall be  
 11 construed to include sections 77-2734.01 to 77-2734.15.  
 12           Sec. 2. The Legislature finds that a major  
 13 state income tax increase was enacted by the Legislature  
 14 in 1987 which had the greatest impact on middle-income  
 15 persons and for those affected persons the state income  
 16 tax increase was between twenty and fifty percent.  
 17 Despite debate as to whether such a tax increase was  
 18 intended or not intended, an income tax increase did

19 occur as a result of the tax rewrite of 1987 and that  
20 tax increase has resulted in cash receipts exceeding  
1 projections over the life of the tax increase. For  
2 high-income Nebraskans, especially those persons whose  
3 income exceeds one hundred thousand dollars per year,  
4 the tax rewrite has resulted in a substantial income tax  
5 decrease. The Legislature finds that since a major  
6 income tax increase was not intended by the Legislature  
7 in 1987 it is only right and fair that, to the degree  
8 reasonably possible, the bulk of the excess money  
9 generated by the tax increase should be returned to the  
10 Nebraskans who were the victims of the tax increase.

11 The Legislature further finds that despite the  
12 importance of property tax relief, it is even more  
13 important that those Nebraskans who pay high property  
14 taxes and who were the victims of the income tax  
15 increase should receive priority in obtaining relief  
16 from excessive taxes on both income and property. It is  
17 of utmost importance that any property tax relief  
18 program should not give large tax breaks to those who  
19 need the tax breaks the least and to those who have  
20 already benefited from state legislation such as that  
21 enacted under LB 775 in 1987. Any property tax relief  
22 program should be integrated with the existing state  
23 income tax system to make certain any property tax  
24 relief provided to Nebraskans will not result in the  
1 loss of deductions at the federal income tax level, be  
2 implemented with little or no additional administrative  
3 cost, and have no constitutional problems or questions  
4 which could put the program in jeopardy.

5 Sec. 3. For taxable year 1989 there shall be  
6 allowed to each resident and nonresident individual and  
7 to each corporation doing business in this state a  
8 refundable credit against the tax imposed by sections  
9 77-2714 to 77-27,135 equal to twenty percent of the  
10 property taxes paid by such individual or corporation on  
11 real and personal property other than motor vehicles to  
12 political subdivisions of the state. The credit  
13 provided in this section shall not exceed one thousand  
14 dollars. The Tax Commissioner may adopt and promulgate  
15 rules and regulations to carry out this section.

16 Sec. 4. This act shall be operative for all  
17 taxable years beginning or deemed to begin on or after  
18 January 1, 1989, under the Internal Revenue Code of

- 19 1986, as amended.  
20 Sec. 5. That original section 77-2701,  
21 Revised Statutes Supplement, 1988, is repealed.”.  
22 2. On page 1, strike lines 2 through 9 and  
23 insert “section 77-2701, Revised Statutes Supplement,  
24 1988; to state intent; to provide a refundable credit  
1 for property taxes paid as prescribed; to harmonize  
2 provisions; to provide an operative date; and to repeal  
3 the original section.”.  
4 3. On page 2, strike lines 1 through 5.

Mrs. Nelson asked unanimous consent to print the following amendment to LB 84 in the Journal. No objections. So ordered.

AM1872

(Amendments to Final Reading Second)

- 1 1. Insert the following new section:  
2 “Sec. 18. There is hereby appropriated  
3 \$20,000,000 from the General Fund for the period July 1,  
4 1989, to June 30, 1990, to the School Foundation and  
5 Equalization Fund, for state aid to education. The  
6 School Foundation and Equalization Fund is hereby  
7 appropriated for such purpose. Of such appropriations  
8 not more than seventy-two percent thereof may be used  
9 for funding the provisions of section 79-1334 for the  
10 period, and the remaining amount shall be used to fund

## RESOLUTION

**LEGISLATIVE RESOLUTION 216.** Introduced by Scofield, 49th District.

WHEREAS, the Nebraska National Forest in the northern Panhandle is representative of Nebraska’s finest natural resources. Just as the presence of a forested area is a dramatic change from the rolling sand hills and broad table lands of the region, so, too, is the presence of a coniferous forest in the high plains a rare and significant occurrence; and

WHEREAS, the region has a rich history as home to the Sioux Indian, the site of a vigorous fur trade, and host of historic Fort Robinson. On May 22, 1989, that history and the significance of the region as a natural attraction will be recognized when the Soldier Creek Wilderness Area is officially dedicated; and

WHEREAS, the seven thousand seven hundred ninety-four acres of Ponderosa pine, meadows, and hardwood draws in the Soldier Creek Wilderness Area comprise the largest and only the second such area in Nebraska. The other wilderness area is the Fort Niobrara National Wildlife Area. Designation as a wilderness area was made possible by passage of the federal Nebraska Wilderness Act of 1985. There are ninety-one million acres in wilderness areas nationwide; and

WHEREAS, the Soldier Creek Wilderness Area is part of the original Fort Robinson Military Reservation and gets its name from the stream that runs through the fort; and

WHEREAS, the designation of Soldier Creek as a wilderness area not only acknowledges the natural and recreational significance of the area and recognizes the unique flora and fauna of the region but also it preserves the heritage of a territory that played a key role in the settlement of the western United States, and the Legislature hereby recognizes the new Soldier Creek Wilderness Area; and

WHEREAS, a special dedication ceremony will be held Monday, May 22, 1989, to celebrate Nebraska's new wilderness area and to celebrate the twenty-fifth anniversary of the federal Wilderness Act.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Legislature joins the citizens of the state and the sponsors of the wilderness designation in celebrating the addition of Soldier Creek Wilderness Area to the long list of Nebraska's attributes.

2. That since the Legislature will be in session and the members therefore unable to attend, copies of this resolution shall be sent to the Nebraska Congressional Delegation, the United States Forest Service office in Chadron, and the Chadron Chamber of Commerce, the Crawford Chamber of Commerce, the Harrison Ladies Community Club, and the Harrison Community Club, all of whom are sponsoring post-dedication festivities.

Laid over.

WHEREAS, on December 23, 1988, new federal rules for underground storage tanks were implemented by the United States Environmental Protection Agency; and

WHEREAS, such rules include additional requirements for owners of such tanks regarding leak detection, corrosion protection, tank closure, reporting and record keeping, and financial responsibility; and

WHEREAS, such requirements impose significant financial burdens on owners and operators of such tanks; and

WHEREAS, many of those owners and operators are located in predominantly rural areas of the state and nation; and

WHEREAS, such operations are important economic cornerstones of most rural communities; and

WHEREAS, the additional financial burdens imposed by such regulations will result in the immediate demise of such rural

operations, to the severe detriment to the economic and social fabric of such rural communities; and

WHEREAS, the inability of rural consumers, including rural businesses, farms, and ranches, to purchase fuel locally will result in higher costs, greater inconvenience, and higher consumption as such consumers are forced to travel greater distances to purchase such fuels.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the United States Environmental Protection Agency and the United States Congress be strongly urged to review the recently implemented rules for underground storage tanks for the purpose of providing relief to hard-pressed rural communities and the owners and operators of such tanks located in rural areas that will suffer irreversible hardship due to the implementation and enforcement of such rules.

WHEREAS, over the course of time, age began to take its toll on the fountain and piecemeal repairs were no longer possible requiring a considerable investment in order to restore the historic fountain; and

WHEREAS, in an impressive show of community spirit, five thousand citizens of Alliance and friends from around the country raised through Coins for the Fountain the necessary funds to renovate the fountain, cash in the form of quarters totaling more than

eighteen thousand five hundred dollars, laid side by side for more than ten city blocks through downtown Alliance; and

### ATTORNEY GENERAL'S OPINION

#### Opinion No. 89051

DATE: May 18, 1989

SUBJECT: The Constitutionality of LB 356 (which would appropriate funds to reimburse depositors of insolvent Nebraska industrial loan and investment companies)

REQUESTED BY: Senator John L. Weihing  
District No. 48

WRITTEN BY: Robert M. Spire  
Attorney General

You ask if LB 356 is constitutional when it appropriates funds to reimburse depositors of State Securities Company and American Savings Company. You also ask if LB 356 would be constitutional if depositors of Commonwealth Savings Company were added to it. In my judgment LB 356 is constitutional as to the depositors of State Securities Company and American Savings Company and also would be constitutional as to the depositors of Commonwealth Savings Company. Therefore, my answer is yes with regard to depositors of all three of these insolvent industrial loan and investment companies.

I

What is the legal basis for the constitutionality of LB 356? There are many constitutional, statutory and common law legal principles which relate to this issue. Discussion of them all would easily provide subject material for a year-long law school seminar and several law review articles. All of which would be worthwhile. However, the essential legal basis for determining the constitutionality of LB 356 is the question of whether or not appropriation of funds to reimburse the depositors of these insolvent institutions is for an appropriate public purpose. If LB 356 is for such a public purpose, it is constitutional. If not, it is unconstitutional and subject to legal attack on a number of grounds.

LB 356 summarizes the history of (a) insolvency of these failed industrial loan and investment companies, (b) the Nebraska Depository Institution Guaranty Corporation (NDIGC) and (c) the enactment of Neb.Rev.Stat. §21-17,144 (which required depository institutions to advertise the NDIGC protection of depositor accounts). LB 356 then makes a legislative finding and declaration that the history it summarizes has "seriously impaired the confidence of the people of this state in the Legislature and in enactments of the Legislature such as §21-17,144." In addition, there are the further legislative declarations that "the confidence of the people of this state in its financial institutions has been seriously impaired, the welfare and stability of this state and its financial institutions require that the people have confidence in the Legislature and in the financial institutions that are organized pursuant to the enactments of the Legislature, and the redemption of the guaranty to depositors by the Nebraska Depository Institution Guaranty Corporation will serve a necessary public purpose and will effect a sound and necessary public policy."

There are several Nebraska Supreme Court cases addressing the question of what is or is not a proper public purpose which will

support the constitutionality of a legislative appropriation. A study of these cases is instructive. See State ex rel. Meyer v. County of Lancaster, 173 Neb. 195, 113 N.W.2d 63 (1962) Chase v. County of Douglas, 195 Neb. 838, 241 N.W.2d 334 (1976) Lenstrom v. Thone, 209 Neb. 783, 311 N.W.2d 884 (1981) State ex rel. Creighton Univ. v. Smith, 217 Neb. 682 353 N.W.2d 267 (1984). There are other similar decisions.

Several common themes which bear upon the constitutionality of LB 356 run through these cases. These themes are:

1) The Nebraska Constitution does not grant power to the Legislature but rather restricts the Legislature. The Legislature may legislate on any subject not prohibited by the Constitution.

2) Unless either the United States or Nebraska Constitution provides otherwise, the Legislature may enact laws and appropriate funds in order to accomplish any proper public purpose.

3) It is for the Legislature to determine what is and what is not a proper public purpose. A legislative determination of a public purpose may be reviewed by the courts. But in making this review, the courts may not declare a statute invalid unless it clearly does not serve a public purpose.

4) In examining the propriety of a legislative statement of public purpose, the courts defer to the judgment of the Legislature. In order to invalidate the Legislature's judgment, the courts must find that the specific public purpose identified and described by the Legislature either does not exist or is inescapably improper. In other words, the essential responsibility for determining what is or is not a public purpose is that of the peoples' elected representatives, the Legislators. The courts will not disturb such a legislative determination unless the courts conclude that it is clearly opposed to established public policy. Stated another way, courts will not substitute their judgment of a proper public purpose for that of the Legislature without a strong showing of legislative error in determining the specific public purpose.

5) With regard to both statements of public purpose and other matters, a statute enacted by the Legislature is presumed to be Constitutional. The courts will not set aside a statute as unconstitutional unless the courts find the statute to be clearly contrary to basic constitutional law and general public policy.

The declaration of public purpose in LB 356 is abundantly clear. LB 356 states without ambiguity that the circumstances surrounding these failed institutions present a unique and deeply disturbing situation which urgently calls for a legislative remedy. As cogently stated in LB 356, the very integrity and credibility of actions by the State are involved. Restoring this credibility requires at a minimum the action of the Legislature provided for in LB 356. The

circumstances the Legislature describes are not normal or customary. They are unique and thus call for unique responses. The unique legislative response in LB 356, based upon a clearly described statement of public purpose, would not, in my opinion, be second-guessed by the courts.

To summarize, I conclude that the courts would (a) examine the history and circumstances surrounding these failed institutions, (b) consider thoughtfully the public purpose set forth in LB 356, and (c) determine that the LB 356 public purpose is an appropriate legislative response on behalf of the State of Nebraska to the circumstances surrounding these failed institutions. I believe the courts would agree with the Legislature that there can be no more important public purpose than public confidence in government. And public confidence in government is directly involved here.

## II

There are several legal premises upon which the constitutionality of LB 356 may be attacked. Chief among these are:

1) Premise for legal attack: LB 356 is unconstitutional special legislation because it circumvents the procedures established in the State Tort Claims Act for responding to claims of alleged wrongs to a fixed class of persons. Answer to premise for legal attack: The public purpose of LB 356 is to restore confidence in the credibility of government. The fact that it provides benefits to the depositors does not override the authority of the Legislature to address this public purpose. The issue here is not how and when the State of Nebraska may be sued or by whom. The issue here is the legislative response to the public purpose as described and supported by the legislative declarations in LB 356.

2) Premise for legal attack: LB 356 violates the separation of powers between Executive and the Legislative governmental entities because only the Executive (through the Attorney General) may settle a tort claim. Answer to premise for legal attack: This separation of powers assertion would apply if we were addressing this matter simply as the resolution of a lawsuit. However, the constitutional authority of the Legislature to identify and respond to an appropriate public purpose (in this case the integrity of actions of the State and enactments of the Legislature) supports this appropriation. This is not a question of the Legislature rather than the Attorney General settling a lawsuit.

3) Premise for legal attack: With regard to the depositors of Commonwealth, a settlement was made through an \$8.5 million appropriation by the Legislature. Thus, Commonwealth's depositors should not be reimbursed further. Answer to premise for legal attack: This argument fails because the purpose of LB 356 is to

restore governmental credibility and the Legislature may do this without regard to past or present lawsuits. The prior settlement of the Commonwealth depositors' tort claims through the \$8.5 million payment does not prevent the Legislature from addressing the public purpose it has described in LB 356.

4) Premise for legal attack: LB 356 appropriates funds to reimburse depositors for payments which the depositors could have received from the NDIGC if the NDIGC had held sufficient assets to make such payments. Thus, the appropriation of the funds under LB 356 for these depositors violates Article XIII, Section 3 of the Nebraska Constitution, which restricts the authority of government to provide financial aid to corporations (the aid here in effect being to NDIGC, a private corporation, because the payments to depositors may satisfy obligations of NDIGC). Answer to premise for legal attack: Here again, we must look at the public purpose so clearly stated by the Legislature in LB 356. The purpose is the restoration of confidence in government through an accounting to the depositors of at least some of the losses those depositors suffered as a result of the circumstances surrounding these failed institutions. Any possible indirect benefit to NDIGC does not invalidate this public purpose. The legal constitutional test here is whether or not this purpose (that is, the appropriation of these funds to restore credibility in government) is proper.

### III

Through LB 356 the Nebraska Legislature is making a good faith effort to address a situation which has seriously eroded confidence in State government. In LB 356 the Legislature clearly describes the circumstances and public purpose it is addressing based upon those circumstances. In my judgment, the courts would uphold the action of the Legislature here as the fulfillment of an appropriate public purpose as identified and described by the elected representatives of the citizens of Nebraska.

Very truly yours,  
ROBERT M. SPIRE  
Attorney General

AM1935

1 1. Strike the original sections and insert  
2 the following new sections:

3 "Section 1. For purposes of this act:

4 (1) Company in receivership shall mean an  
5 industrial company which is being liquidated by a  
6 receiver or the department;

7 (2) Department shall mean the Department of  
8 Banking and Finance;

9 (3) Deposit shall mean a certificate of  
10 indebtedness or any other evidence of an industrial  
11 company's indebtedness which was unpaid when a protected  
12 company filed bankruptcy pursuant to Chapter 11 of the  
13 United States Bankruptcy Code or when a company in  
14 receivership entered receivership;

15 (4) Depositors shall mean owners of deposits;

16 (5) Industrial company shall mean any  
17 industrial loan and investment company;

18 (6) Nebraska Depository Institution Guaranty  
19 Corporation shall mean the Nebraska Depository  
20 Institution Guaranty Corporation formed pursuant to the  
21 Nebraska Depository Institution Guaranty Corporation

1 Act;

2 (7) Protected company shall mean an industrial  
3 company that filed bankruptcy pursuant to Chapter 11 of  
4 the United States Bankruptcy Code after November 1,  
5 1983; and

6 (8) Successor company shall mean an existing  
7 corporation which has issued evidences of indebtedness,  
8 such as capital notes, to depositors for the unpaid  
9 amounts of their deposits.

10 Sec. 2. The Legislature hereby finds and  
11 declares that the Nebraska Depository Institution  
12 Guaranty Corporation was formed with department approval  
13 to protect depositors of certain financial institutions.  
14 Prior to November 1, 1983, all industrial companies had  
15 been approved by the department as members of the  
16 Nebraska Depository Institution Guaranty Corporation.  
17 On April 28, 1980, the Director of Banking and Finance  
18 issued an order increasing the guaranty per deposit from  
19 ten thousand dollars to thirty thousand dollars, and in  
20 1977 the Legislature enacted what now appears as section  
21 21-17,144 which requires every depository institution to  
22 display at each place of business maintained by it a  
23 sign or signs indicating that its member or depositor  
24 accounts are protected by the Nebraska Depository  
1 Institution Guaranty Corporation and that it include in  
2 all of its advertisements a statement to the effect that  
3 its member or depositor accounts are protected by the  
4 Nebraska Depository Institution Guaranty Corporation.

5 The Legislature further finds and declares  
6 that prior to the department's approval of Commonwealth  
7 Savings Company as a member of the Nebraska Depository  
8 Institution Guaranty Corporation the department knew or  
9 should have known that Commonwealth Savings Company was  
10 in unsatisfactory financial condition and that its  
11 officers, or some of them, had engaged in criminal  
12 actions, violations of banking statutes, rules, and  
13 regulations, and mismanagement. The department in each  
14 year following its approval of Commonwealth Savings  
15 Company as a member of the Nebraska Depository  
16 Institution Guaranty Corporation knew that Commonwealth  
17 Savings Company's financial condition was increasingly  
18 unsatisfactory and beginning in 1982 the department knew  
19 that Commonwealth Savings Company was insolvent, but at  
20 no time prior to November 1, 1983, did the department  
21 report Commonwealth Savings Company's insolvency to

22 other industrial companies or to the public, and at no  
23 time did the department prior to November 1, 1983, take  
24 action against Commonwealth Savings Company or its  
1 officers. On November 1, 1983, the department closed  
2 Commonwealth Savings Company and took control of its  
3 assets as receiver.

4 The Legislature further finds and declares  
5 that on November 1, 1983, the same day when the  
6 department closed Commonwealth Savings Company, the  
7 department, without regard to whether other industrial  
8 companies were solvent, publicly ordered all other  
9 industrial companies to refuse to allow depositors to  
10 withdraw funds unless the depositors' certificates of  
11 indebtedness had matured. The publication of such an  
12 order caused depositors to lose confidence in industrial  
13 companies, to withdraw their deposits as soon as their  
14 certificates of indebtedness matured, and to decline to  
15 reinvest their money in any other industrial company.  
16 Therefor the assets of such industrial companies were  
17 continuously drained until all such companies were  
18 forced to merge with or be purchased by other financial  
19 institutions or to seek protection by reorganization  
20 under Chapter 11 of the United States Bankruptcy Code.  
21 Because of the above chain of events, after November 1,  
22 1983, holders of certificates of indebtedness in  
23 industrial companies which later became protected  
24 companies were paid in full if their certificates of  
1 indebtedness matured before the industrial company filed  
2 bankruptcy, but those whose certificates of indebtedness  
3 happened to mature afterwards received only partial  
4 payment.

5 All of the assets of the Nebraska Depository  
6 Institution Guaranty Corporation were paid to the  
7 receiver of Commonwealth Savings company, and no  
8 depositors have been paid in full and in no case has  
9 there been enough assets to satisfy the  
10 thirty-thousand-dollar guaranty which industrial  
11 companies were required by law to display and advertise.

12 The Legislature further finds and declares  
13 that the enactment of the Nebraska Property and  
14 Liability Insurance Guaranty Association Act has allowed  
15 state funds by means of premium tax credits to be used  
16 to protect policyholders in insolvent insurance  
17 companies, and the same principle should be extended to

18 depositors in insolvent industrial companies.

19       The Legislature further finds and declares  
20 that the actions of the department and the Director of  
21 Banking and Finance, the requirement passed by the  
22 Legislature in section 21-17,144, that is, that the  
23 thirty-thousand-dollar guaranty of each deposit by the  
24 guaranty corporation be displayed and advertised, and  
1 principles of fairness all require that the State of  
2 Nebraska fulfill the thirty-thousand-dollar guaranty of  
3 each and every deposit.

4       Sec. 3. In addition to the findings in  
5 section 2 of this act, the Legislature further finds and  
6 declares that the circumstances recited in such section  
7 have seriously impaired the confidence of the people of  
8 this state in the Legislature and in the enactments of  
9 the Legislature such as section 21-17,144, the  
10 confidence of the people of this state in its financial  
11 institutions has been seriously impaired, the welfare  
12 and stability of this state and its financial  
13 institutions require that the people have confidence in  
14 the Legislature and in the financial institutions that  
15 are organized pursuant to the enactments of the  
16 Legislature, and the redemption of the guaranty to  
17 depositors by the Nebraska Depository Institution  
18 Guaranty Corporation will serve a necessary public  
19 purpose and will effect a sound and necessary public  
20 policy.

21       Sec. 4. The department shall, from money  
22 appropriated to it from time to time, distribute to  
23 depositors sums of money to be applied to the payment of  
24 deposits up to thirty thousand dollars. To be qualified  
1 for such a distribution, a depositor must be the owner  
2 of a deposit. The department may use successor  
3 companies or receivers of companies in receivership to  
4 facilitate payments to depositors. The department shall  
5 adopt and promulgate rules and regulations to assist  
6 depositors to establish that they are qualified and for  
7 effecting an efficient distribution of funds to honor  
8 the guaranty of deposits by the Nebraska Depository  
9 Institution Guaranty Corporation. To ensure fair and  
10 equitable distribution of the money appropriated and  
11 that all depositors will recover the guaranteed portions  
12 of their deposits at approximately the same time, the  
13 distributions shall be allocated so that, at any one

14 point in time, all depositors shall be reasonably  
15 assured of recovering the same percentage of the  
16 guaranteed portions of their deposits, taking into  
17 consideration all sources of recovery, including prior  
18 distributions of the assets of the guaranty corporation  
19 and the funds appropriated by the state, as well as both  
20 prior and anticipated future distributions of funds  
21 obtained from the liquidation of assets by successor  
22 companies and receivers. The presumed size of future  
23 distributions resulting from such asset liquidations  
24 shall be based upon estimates made by qualified  
1 professional appraisers as to the amounts that can be  
2 realized from the liquidation of the salable assets held  
3 by the successor companies and receivers. Successor  
4 companies and receivers shall be subject to the  
5 supervision of the department in order to ensure that  
6 the appropriations to the department are distributed  
7 fairly and in equal proportions among all depositors.  
8 If the appropriation received by the department for  
9 fiscal year 1989-90 is insufficient to satisfy the  
10 thirty-thousand-dollar guaranty of each and every  
11 deposit, although the Ninety-first Legislature cannot  
12 bind future legislatures, it is the intent of the  
13 Legislature that future legislatures shall make  
14 additional appropriations from time to time until the  
15 thirty-thousand-dollar guaranty has been discharged with  
16 regard to each and every deposit.

17 Sec. 5. If, after all depositors have  
18 received the guaranteed portion of their deposits, the  
19 successor companies or receivers recover additional  
20 amounts of liquidation of assets, such additional  
21 amounts shall be used to reimburse the state for the  
22 amounts appropriated for purposes of section 4 of this  
23 act and any remaining amounts shall be expended  
24 according to law.

1 Sec. 6. When payment has been offered to all  
2 depositors in the full amount of the  
3 thirty-thousand-dollar guaranty, then, but not before,  
4 the offer of such payment to each depositor shall  
5 constitute a full satisfaction of that depositor's  
6 claims against the state based on the guaranty by the  
7 Nebraska Depository Institution Guaranty Corporation.  
8 The offer of such payment shall not be deemed to satisfy  
9 any claims or lawsuits of the depositor against any

10 individual or entity other than the State of Nebraska.  
 11 Sec. 7. There is hereby appropriated  
 12 \$16,900,000 from the General Fund for the period July 1,  
 13 1989, to June 30, 1990, and \$16,900,000 from the General  
 14 Fund for the period July 1, 1990, to June 30, 1991, to  
 15 the Department of Banking and Finance, to aid in  
 16 carrying out the provisions of this act.  
 17 Sec. 8. Since an emergency exists, this act  
 18 shall be in full force and take effect, from and after  
 19 its passage and approval, according to law.”.

### RESOLUTION

**LEGISLATIVE RESOLUTION 221.** Introduced by Wesely, 26th District; Smith, 33rd District; Baack, 47th District; Nelson, 35th District; Schmit, 23rd District.

WHEREAS, there are ammunition facilities in Nebraska which were operated and owned by the federal government, including the Army Ammunition Plant near Mead, the Cornhusker Army Ammunition Plant near Grand Island, the Naval Ammunition Depot near Hastings, and the Sioux Army Ordnance Depot near Sidney; and

WHEREAS, the past activities of the federal government relating to munitions production which were routine at the time may have caused contamination of the soil and ground water of Nebraska as shown by the presence of explosive compounds and organic solvents in the ground water and soil near the Mead, Grand Island, and Hastings facilities and the potential presence of unexploded ordnance near Sidney; and

WHEREAS, the Legislature has an interest in the public health of its citizens and the environment of the state and supports the preservation of the Nebraska ground water as a natural resource for drinking water and other beneficial uses; and

WHEREAS, the federal government, through the efforts of the Nebraska Congressional delegation and the Environmental Protection Agency, the Army Corps of Engineers, and the Department of Defense has responded by performing confirmation and follow-up investigations to assess the environmental contamination and public health impacts near the Mead facility, installation of an alternate water supply for affected citizens, incineration of soil contaminated with explosives for the Cornhusker Plant near Grand Island, remedial investigation of the Naval Ammunition Depot near Hastings, and inventory investigation at the Sioux Army Ordnance Depot near Sidney; and

WHEREAS, the Legislature recognizes that cleanup of contaminated ammunition facilities requires complicated and costly activities, including defining the problem and its solution; and

WHEREAS, the federal government must address ground water cleanup at the Mead, Hastings, and Grand Island facilities and ordinance removal and remedial investigation at the Sidney facility.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature continues to support the protection of public health and supports the cleanup of contamination which has occurred at the ammunition facilities in Nebraska.

2. That the Legislature supports the efforts of the Nebraska Congressional delegation to have the federal government perform its cleanup activities in a timely manner.

3. That the Legislature urges the Environmental Protection Agency, the Army Corps of Engineers, and the Department of Defense to continue the cleanup process at Mead by performing a remedial investigation and feasibility study, continuing the investigation at Hastings and Grand Island, and initiating a confirmation study and ordnance removal at Sidney.

4. That the Clerk of the Legislature send a copy of this resolution to each member of the Nebraska Congressional delegation, to the Regional Administrator of the Environmental Protection Agency, to the Army Corps of Engineer in Kansas City, Missouri, and to the Assistant Secretary of Defense.

**PURPOSE:** The purpose of this resolution is to examine prison population issues and any potential alternatives to alleviate prison overcrowding. Such study shall specifically: Identify the causes of Nebraska's prison overcrowding, including the impact of (1) institutional rules and their issuance, promulgation and enforcement and the institutional disciplinary system, (2) infractions and punishments which lengthen an inmate's stay, and (3) training, competence, supervision, and pay of guards and other employees who have contact with inmates; the current use of pretrial diversion, probation, and parole; sentencing practices, including the impact of race and gender on sentencing, and the range of sanctions available to sentencing judges; and potential alternatives to incarceration in adult and juvenile facilities.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Executive Board of the Legislative Council shall appoint a select committee on prison overcrowding and related issues. The Chairpersons of the Appropriations, Judiciary, and Government, Military and Veterans Affairs Committees shall submit the names of two of their respective committee members to the executive board, which shall appoint them and one member of the executive board to the select committee. 5. The select committee shall develop a long-range plan relating to prison overcrowding and related issues and shall, prior to January 1,

Johnson, 15th District; Langford, 36th District; Moore, 24th District; Schimek, 27th District; Scofield, 49th District; Wehrbein, 2nd District.

WHEREAS, pursuant to the provisions of sections 85-404 and 85-408, the plans for construction, financing, and use of existing Student Fees and Facilities Revenue Bond funds for the construction of Phases I and II of a campus recreation/athletic facility on the University of Nebraska-Lincoln campus were approved in 1987 by Legislative Resolution 69 as adopted by the Ninetieth Legislature; and

WHEREAS, Legislative Resolution 69 approved Phase III of the project but required that should the University of Nebraska elect to issue revenue bonds for Phase III, there would be a supplement to the financing plans submitted for specific approval by the Legislature pursuant to section 85-404; and

WHEREAS, the University of Nebraska has submitted financing plans for Phase III which provide for the issuance of bond anticipation notes in an amount not to exceed \$4,925,000. These notes would be refunded by the issuance of revenue bonds under the 1964-66 University of Nebraska Student Fees and Facilities Revenue Bond Resolution. If more favorable bond conditions prevail at the time financing is conducted, the financing plans would not involve issuing bond anticipation notes but would provide for direct issue of serial revenue bonds; and

WHEREAS, Phase III will add exterior and interior improvements to the coliseum as part of the campus recreation/athletic facility project to accommodate four multipurpose courts, fitness facilities, laboratories, and offices for the School of Health, Physical Education, and Recreation, general purpose classrooms, intercollegiate athletic offices, training rooms, practice and competition courts for the women's intercollegiate volleyball team, and general locker and shower rooms; and

**LEGISLATIVE RESOLUTION 225.** Introduced by Appropriations Committee: Warner, 25th District, Chairperson; Ashford, 6th District; Hannibal, 4th District; L. Johnson, 15th District; Langford, 36th District; Moore, 24th District; Schimek, 27th District; Scofield, 49th District; Wehrbein, 2nd District.

WHEREAS, the current health insurance carrier for State of Nebraska employees has submitted a bid to continue current insurance coverage at specific rates for the period August 1, 1989, to July 31, 1991, and such bid has been accepted by the State of Nebraska; and

WHEREAS, it is the position of the State of Nebraska that such bid is a legally binding obligation on the insurance carrier for the period, conditions, and amounts specified in the bid; and

WHEREAS, the carrier has presented evidence that such obligation could result in material financial losses to the carrier and such evidence has been confirmed by an independent consultant retained by the Legislature; and

WHEREAS, the report of the independent consultant has been distributed to all members of the Legislature prior to the consideration of this resolution by the Legislature and is also on file with the Clerk of the Legislature and available for public inspection; and

WHEREAS, the projected financial losses to the carrier will be caused primarily by significant increases in paid claims for the new

plan year exceeding the projected trends of claim utilization used by the carrier in preparing its bid, which trends did not fully anticipate such increases in paid claims; and

WHEREAS, a request has been made by the insurance carrier for additional appropriations which would be available to compensate it for actual claims paid during the first year of the plan, which claims are in excess of the claims experience upon which the original bid was based; and

WHEREAS, it is recognized that the request of the insurance carrier is for claims payments in excess of the current legal obligation of the State of Nebraska for the plan period August 1, 1989, to July 31, 1990, and that such payments could have an impact on the relative contribution levels of the State of Nebraska and its employees and on collective bargaining provisions pertaining to such contribution levels; and

WHEREAS, the contract between the carrier and the State of Nebraska provides an option for either party to cancel the contract upon ninety days' notice and an option for the carrier to cancel the contract upon thirty days' notice upon a ten percent change in enrollment of state employees in its plan; and

WHEREAS, the Legislature recognizes the value of health insurance coverage to state employees and the essential nature of continuous, reliable coverage as evidenced by the appropriation of \$35,000 to the Department of Personnel to study the state's current health insurance plan; and

WHEREAS, the Legislature has fully appropriated in section 90 of Legislative Bill 813, Ninety-first Legislature, First Session, 1989, all anticipated receipts and balances of the State Employees Insurance Fund, a trust fund, for FY1989-90 and FY1990-91, and such fund is projected to have an unobligated balance of \$1.7 million on June 30, 1990.

**NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:**

1. That the Governor and appropriate administration officials investigate all options to secure continuous health insurance coverage for state employees, including, but not limited to, the following:

(a) Enforcing upon the insurance carrier the current obligation as bid;

(b) Renegotiating with the insurance carrier the terms, conditions, and costs of the bid;

(c) Reactivating the bidding process and actively pursuing other bidders, either with the current plan or with a redesigned plan; and

(d) Self-insurance.

2. That in investigating such options, the Governor and the appropriate administration officials shall consult with the appropriate state employee representatives.

3. That the Governor, as chief executive officer of the State of Nebraska, execute due responsibility, fiduciary and otherwise, in utilizing the unobligated appropriations of the State Employees Insurance Fund once a course of action has been chosen to secure health insurance for state employees.

4. That in the event of renegotiation with the insurance carrier resulting in a satisfactory agreement, it is the direction of the Legislature that no funds compensating the insurance carrier for claim losses in excess of the claims cap in effect for the plan year August 1, 1989, to July 31, 1990, be expended from the State Employee Insurance Fund until after July 31, 1990. Any such disbursement shall require the insurance carrier to certify to the state actual claims and claim losses in excess of the cap, and upon verification by the state of such certifications, compensation may be made in accordance with any renegotiated agreement.

5. That a copy of this resolution be delivered to the Governor.

Laid over.

Dear Mr. President and Senators:

Today I signed and delivered to the Secretary of State LB 183 and LB 183A, the School District Choice bill.

Nebraskans can take pride in our fine school systems. Parental participation in the educational process is crucial. This bill provides reasonable options for parents, and their children.

LB 183 includes important safeguards while offering meaningful interdistrict choice. The phase-in provisions, beginning with a study, are prudent. Those built-in delays will allow for timely adjustments and, if necessary, for reconsideration of this new policy prior to full implementation.

In my opinion, this new law does not represent a threat to Nebraska's smaller school systems because they have demonstrated -- to their patrons and national experts -- that they are very good. They exist because of the support of the students, parents and communities. As with any new education policy, my intention is to monitor carefully the effects of LB 183.

Dear Mr. President and Senators:

Today I signed and delivered to the Secretary of State LB 247. I am returning LB 247A with my signature but with a line-item reduction in the amount of \$100,000.

LB 247 provides for a study of the system of higher education in the State of Nebraska which deals specifically with the issue of Kearney State College and also deals with broader issues affecting all institutions of higher learning. LB 247 further provides that, effective July 1, 1991, Kearney State College shall become a part of the University of Nebraska system and subject to the governance of the Board of Regents. This bill was signed because of my belief that there should be a study which will address the needs of our state with respect to higher education.

Some cautionary statements are in order, however. Since the inception of debate surrounding Kearney State's status, it has been my firm contention that we should fully understand the implications of any modification to the structure of higher education in our state prior to taking action. During public debate on the issue, the emphasis shifted and the concept of a study prior to taking action lost momentum. The mandate of LB 247 to include Kearney State in the University system presents innumerable questions which have not been addressed. The study element of the legislation is laudable in its design and its intent. It is my hope that the study will provide in-depth and meaningful answers to the implications of the "University of Nebraska at Kearney," as well as the master plan for higher education in Nebraska.

The appropriation of LB 247A has been reduced because it is my belief that the study can be done for less than \$250,000. My line-item reduction, therefore, brings LB 247A to the \$150,000 level.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 162 and 162A without my signature and with my objections.

LB 162 reinstates cooperative state funding for the animal damage control program operated by the Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture. A number of counties are voluntarily supporting the program through local contributions to the federal program.

Budget constraints force me to assess this program from a broad view. Since we do not have the resources to fund every worthy program, difficult decisions are required. This is one of them. I am hopeful that the joint federal and local funding base will continue since the program serves a valuable function in many parts of the state.

Dear Mr. President and Senators:

I am returning LB 44 and 44A without my signature and with my objections.

LB 44 and 44A require and provide funds for the State to assume the cost of care for persons determined to be incompetent to stand trial and are committed to regional centers. My position on this issue remains unchanged since my veto of LB 1221 passed by the Unicameral last year.

NINETIETH DAY - MAY 24, 1989

2725

My veto of LB 44 and 44A is based on the policy consideration that determination of competency is part of the trial process and the payment of such costs is a legitimate responsibility of the counties.

I urge you to sustain my veto.

Dear Mr. President and Senators:

I am returning LB 277/277A without my signature and with my objections.

LB 277 would require the Department of Revenue to enter into an agreement with the U.S. Office of Personnel Management to withhold Nebraska state income taxes for retired federal civil service employees. Such an agreement would represent a policy precedent unfavorable to the State of Nebraska.

The contractual agreement proposed would require the Department of Revenue to carry out certain elements of the withholding responsibilities for the Office of Personnel Management, and to incur the associated costs. Not only does this expand the Department's function beyond the collection of taxes, it transfers costs from federal to state government. It should be noted that all other private and public employers in the state, including all other federal agencies, provide this important service for their employees.

It would be more appropriate for the Office of Personnel Management to be approached in regard to performing this function, rather than committing state funds at this time.

Dear Mr. President and Senators:

I am returning LB 49 and LB 49A without my signature and with my objections.

LB 49 gives the Department of Agriculture oversight responsibilities with regard to controlling noxious weeds. My objection to this legislation is rooted in the costs to the State. The capability exists at the local level to control noxious weeds through the current program structure. My veto of this legislation will not affect those activities. In my opinion, placing a responsibility on the State for decisions that can be accomplished at the local level is not the best use of limited state financial resources.

Dear Mr. President and Senators:

I am returning LB 250 and LB 250A without my signature and with my objections.

LB 250 would require Nebraska's teacher training institutions to include human relations in the curriculum for prospective teachers and administrators, as well as in continuing education curricula for recertification purposes. As the result of an amendment, the bill also provides for a temporary certificate for certain teachers who have not taken the basic skills competency test.

Racial equality and civil rights are the law of the land. My record on sensitivity to racial and ethnic concerns is well known through the implementation of my policy for state employees. All 15 of our

teacher training institutions have the responsibility to include racial, ethnic and cultural sensitivity components in their courses. If they are not doing so now, they should be and have the authority to make any adjustments that may be required.

Sincerely,

May 23, 1989

Mr. President, Mr. Speaker  
and Members of the Legislature  
State Capitol  
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 301, LB 308, LB 813, and LB 814 with my signature but with specific line-item reductions. The listing attached to this letter shows the reductions for each bill and for each agency.

Since many bills with fiscal impact have not yet been delivered to me, it is difficult to calculate an exact financial position. However, it is clear that the Legislature has passed many bills that cannot be accommodated within prudent reserve requirements. The reductions in the bills I am returning today are necessary to begin balancing our budget for the next biennium.

In order to maintain fiscal stability and integrity of the State, I urge you to sustain these vetoes.

Sincerely,  
(Signed) KAY A. ORR  
Governor

### MESSAGES FROM THE GOVERNOR

May 26, 1989

Mr. President, Mr. Speaker,  
and Members of the Legislature  
State Capitol  
Lincoln, NE 68509

Dear Mr. President and Senators:

I am returning Legislative Bill 525 with my signature and with my line-item reductions. Legislative Bill 525 the so called "trailer bill" contained items of additional spending that would be nice to do if funds were available. Funding is not available to fund all items in the budget so I have been forced to veto all items in LB 525 except for the \$2.1 million necessary to provide for rate increases for noninstitutional medical providers.

In order to balance the state budget the items listed on the attached summary have been vetoed. This is in keeping with the balanced budget requirements and prudent financial decisions that must be made.

Sincerely,  
(Signed) KAY A. ORR  
Governor

Dear Mr. President and Senators:

I have returned LB 744 without my signature and with my objections.

LB 744 would establish the Nebraska Education Data Center within the Department of Education for the commendable purpose of helping Nebraskans gauge the performance of the elementary and secondary education system in their state. The appropriation in the bill would reach \$173,261 for ongoing operations and \$300,000 for academic testing in 1990-91.

This expansion simply cannot be supported in view of other expenditure priorities adopted by the Legislature.

Sincerely,

Dear Mr. President and Senators:

I have returned LB 705E without my signature and with my objections.

LB 705E would exempt the purchase of art by fine arts museums from the sales tax.

While there is some policy rationale for exempting such purchases, LB 705E contains a provision that would exempt money not yet due upon a sale that was made prior to the effective date of the act. Such targeted retroactive application of the law does not represent sound tax policy.

Dear Mr. President and Senators:

I have returned LB 603 and 603A without my signature and with my objections.

LB 603 and 603A would expand the role of the Foster Care Review Board and substantially increase the agency's budget. The Board would be allowed to participate directly in court proceedings that involve children placed in foster care.

LB 603 is contrary to the original intent of the Foster Care Review Board which was to provide an independent, outside review to the court of foster care placement decisions. The service rendered by dedicated members of the State Board and local boards provide a valuable check on placement decisions. However, to add the Board as a party to juvenile proceedings would only add to the level of bureaucracy and will not eliminate those few situations where there is disagreement among the professionals involved. Moreover, the well-being of the child is routinely protected in court proceedings through the county attorney or through the court's appointment of a Guardian Ad Litem.

LB 603 and 603A have the potential to increase the workload of the courts, exacerbate the conflict between agencies and do not provide for the most effective use of public resources to respond to the concerns that were intended to be addressed. For these reasons, I am vetoing LB 603 and 603A.

Sincerely,

Dear Mr. President and Senators:

I have returned LB 588 without my signature and with my objections.

LB 588 increases the number of county commissioners from five to seven in Douglas County and allows for election of these commissioners by district.

County governments differ from other types of government. County boards are set up to be administrative and, therefore, commissioners need to be held accountable to all the people of the county and not just those in their districts.

Dear Mr. President and Senators:

I have returned LB 449 and LB 449A without my signature and with my objections.

LB 449 and 449A would extend the transitional benefits and provide funds for an additional one month cash assistance to AFDC clients who begin employment.

My veto of LB 449 and 449A is not based on the merit of the proposal, but on the need to balance the State budget. The addition of one month cash assistance will be paid out of State funds only, and this simply cannot be funded in this budget.

Dear Mr. President and Senators:

I have returned LB 378 and LB 378A without my signature and with my objections.

LB 378 and 378A establish and provide funds for an Office of Rural Health within the Nebraska Department of Health.

My veto of LB 378 is based on the fact that we currently do have a state designated Office of Rural Health whose activities are similar to those proposed in this bill. LB 378 will simply insert unnecessary constraints at this time, as we proceed to address the issue of rural health care in a wholistic manner.

LB 360 and 360A would require and provide funds for implementing increases in amounts to be set aside for burial expenses and personal care allowance for persons living in care facilities.

The increases proposed in LB 360 would have increased these allowances above existing federal requirements, but this simply cannot be funded in this budget.

Dear Mr. President and Senators:

I have returned LB 357 and LB 357A without my signature and with my objections.

LB 357 would establish a tuition loan program and a financial incentive program to attract people into the nursing profession and encourage them to serve in less populated areas of Nebraska. While the goals of this program are laudable, my preferred approach is to assist nursing students with scholarships available through our

postsecondary educational institutions and through the Nebraska Coordinating Commission for Postsecondary Education.

The Scholarship Assistance Program, established in LB 651 and administered by the Coordinating Commission, allows governing boards the flexibility of setting aside a specified amount of funding to address manpower shortages, such as nursing. This approach will assist students who wish to pursue nursing and other careers and will not take additional state funds for administration. As manpower needs change, the flexibility is available to adapt to those needs without abolishing one program and starting another.

Dear Mr. President and Senators:

I have returned LB 336, the Nebraska School Restructuring Act, without my signature and with my objections.

LB 336 would establish an ad hoc commission and an incentive grants program for schools. In addition, it would authorize the State Board of Education and local school boards to waive rules or policies under certain conditions.

The intent of the internal restructuring approach envisioned in the bill is laudable. Nebraskans need to find new ways of energizing the learning process within our schools. The Legislature's December, 1988 symposium contributed significantly to the exploration of this dynamic topic.

The condition of the budget, however, makes it imprudent to adopt and fund this new \$100,000 a year program at this time.

Dear Mr. President and Senators:

I have returned LB 177 and LB 177A without my signature and with my objections.

LB 177 creates a State Protocol Office. A similar bill was vetoed last legislative session and the responsibility placed in the Lt. Governor's Office. The services of a protocol office can still be provided more efficiently administratively instead of creating a new and separate bureaucracy.

Dear Mr. President and Senators:

I have returned LB 147 without my signature and with my objections.

LB 147 would create two district court judges and one juvenile court judge.

The condition of the budget makes it imprudent to add these judges at this time. The state, however, has made a substantial commitment to the criminal justice system. To name just a few examples, overtime funds have been appropriated to the State Patrol to help fight drugs. State Anti-Drug Abuse grants have been made to state and local governments. In addition, pilot grants will be awarded to fight the metropolitan drug and gang problem.

Dear Mr. President and Senators:

I have returned LB 438 and LB 438A without my signature and with my objections.

LB 438 removes the requirement for school districts to pay a "tuition" fee for students placed in the Nebraska School for the Deaf and the Nebraska School for the Visually Handicapped. The bill also establishes the purpose of the two schools and makes technical changes.

Nebraska has a unique responsibility insofar as maintaining high-quality programs at the two State Schools is concerned. At the same time, the current uniform policy of requiring school districts to participate financially in the education of all their students, no matter where they are placed, is a fair policy.

Given the fiscal situation that has resulted from other legislative spending priorities, this \$290,000 a year increase in General Fund obligations is unwise. Furthermore, there are indications that the resulting cash fund draw-down could require an additional General Fund expenditure of \$395,000 a year beginning in 1991-92.

Dear Mr. President and Senators:

I have returned LB 354 and LB 354A without my signature and with my objections.

LB 354 and 354A would require and provide funds for expanded Medicaid coverage to certain individuals who are not currently eligible because of income eligibility standards.

My veto of LB 354 and 354A is not based on the merit of the proposal, but on the need to balance the State budget. Also, LB 354 would have placed in State law eligibility standards that are more liberal than current federal requirements. Nebraska will follow the federal proposal to phase in income eligibility standards for aged, blind and disabled persons, and the funds provided in LB 813 meet current requirements.

Dear Mr. President and Senators:

I have decided to let LB 611 and LB 611A become law without my signature.

The Legislature is to be applauded for examining and attempting to address school financing this session. However, the fact that the bill "sunset" the School Foundation and Equalization Act on June 30, 1991, without proposing something to replace it, is troubling.

LB 611 also suggests that options other than the state income tax have not, and possibly will not, be fully explored. It must be understood that LB 611 may not represent the ultimate solution for the very complex problem of providing a stable and fair means of supporting Nebraska's public schools.

Dear Mr. Clerk:

On Tuesday, May 30, 1989 at 10:03 A.M. I received from the Honorable Kay A. Orr, Governor, enclosed Legislative Bills 611 and 611A. Attached to the bills was a letter dated May 30, 1989, signed by Kay A. Orr and addressed to me as Secretary of State, indicating that these bills, L.B. 611 and 611A rested with the Governor for five days (Sunday excepted) after the Legislature adjourned. Since the Governor indicated in her letter that as provided in Article IV, Section 15 of the Constitution, she neither signed nor vetoed Legislative Bills 611 and 611A, she has allowed them to become law without her signature.

Please be advised that the Governor's letter and Legislative Bills 611 and 611A were officially filed in my office at 10:03 A.M. on Tuesday, May 30, 1989 and will become law as provided by the Constitution.

Finally, I would respectfully request that you place a copy of this letter and certification in the official Legislative Journal for the Ninety-first Legislature, first session. So that your records are complete, I am also sending you a photocopy of the Governor's letter

dated May 30 with reference to enclosed Legislative Bills 611 and 611A.

Respectfully,  
(Signed) ALLEN J. BEERMANN  
Secretary of State
