LEGISLATIVE RESOLUTION 13CA. Introduced by Baack, 47th District.

A Resolution to propose an amendment to the Constitution of Nebraska by amending Article III, sections 2, 3, and 4.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

Section 1. That at the general election in November 1990 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska by amending Article III, sections 2, 3, and 4, which is hereby proposed by the Legislature:

CIII-2 "~~The first power reserved by the people is the initiative whereby by which laws may be enacted and constitutional amendments adopted by the people independently of the Legislature. This power may be invoked by a petition wherein which may be signed by any individual registered to vote in the state, and in which the proposed measure shall be set forth at length. If the petition be for the enactment of a law, it shall be signed by seven percent of the registered voters of the state, and if the petition be for the amendment of the Constitution, the petition therefor shall be signed by ten percent of such registered voters.~~

The number of signatures of registered voters that must be affixed to a petition in order for the measure it proposes to be submitted to the voters shall be calculated as a percentage of the total number of votes cast for Governor at the general election next preceding the filing of the petition. The percentages shall be as follows:

(1) When no payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, (a) seven percent if the petition proposes the enactment of a law and (b) ten percent if the petition proposes the adoption of a constitutional amendment; and

(2) When payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, (a) fourteen percent if the petition proposes the enactment of a law and (b) twenty percent if the petition proposes the adoption of a constitutional amendment.

In all cases, the registered voters signing such petition shall be so distributed so as to include equal at least five percent of the registered voters of votes cast for Governor at the general election next preceding the filing of the petition in each of two-fifths of the counties of the state. When , and when thus signed, the petition shall be filed with the Secretary of State who shall submit the

measure thus proposed to the ~~electors~~ registered voters of the state at the first general election held not less than four months after such petition ~~shall have been~~ is filed.

The same measure, either in form or in essential substance, shall not be submitted to the people by initiative petition, either affirmatively or negatively, more often than once ~~in~~ every three years. If conflicting measures submitted to the people at the same election ~~be~~ are approved, the one receiving the highest number of affirmative votes shall ~~thereby~~ become law as to all conflicting provisions. The constitutional limitations as to the scope and subject matter of statutes enacted by the Legislature shall apply to those enacted by the initiative."

CIII-3 "The second power reserved is the referendum which may be invoked; by a petition; which may be signed by any individual registered to vote in the state against any act or part of an act of the Legislature; except those making appropriations for the expense expenses of the state government.

The method of calculating the number of signatures of registered voters required in order to invoke the referendum to be submitted to the voters shall be the same as is provided for an initiative petition. When no payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, the percentage required shall be five percent. When payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, the percentage required shall be ten percent. ~~or a state institution existing at the time of the passage of such act.~~ Petitions invoking the referendum shall be signed by ~~not less than five percent of the registered voters of the state,~~ distributed as required for initiative petitions; and filed in the office of the Secretary of State within ninety days after the Legislature ~~at legislative session during~~ at legislative session during which the act sought to be referred was passed ~~shall have~~ has been adjourned sine die or for more than ninety days.

Such petition shall set out the title of the act against which the referendum is invoked and; in addition, ~~thereto,~~ when only a portion of the act is sought to be referred, the number of the section or sections or portion of sections of the act, ~~designating such portion.~~ When the referendum is thus invoked, the Secretary of State shall refer ~~the same~~ it to the ~~electors~~ registered voters for approval or rejection at the first general election to be held not less than thirty days after the filing of such petition.

When the referendum is invoked as to any act or part of an act, other than emergency acts or those for the immediate preservation of the public peace, health, or safety, by a petition signed by ~~not less than ten percent of the registered voters of the state~~ in the percentage further provided in this section, calculated and distributed as aforesaid required for initiative petitions, it shall suspend the ~~taking effect of such act or part of an act from taking effect until the same~~ it has been approved by the ~~electors~~ registered voters of the state. When no payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, the percentage required shall be ten percent. When payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses incurred as a result of such circulation, the percentage required shall be twenty percent."

CIII-4 ~~"The whole number of votes cast for Governor at the general election next preceding the filing of an initiative or referendum petition shall be the basis on which the number of signatures to such petition shall be computed. The veto power of the Governor shall not extend to measures initiated by or referred to the people. A measure initiated shall become a law or part of the Constitution, as the case may be, when a majority of the votes cast thereon on the measure, and not less than thirty-five per cent percent of the total vote cast at the election at which the same measure was submitted, are cast in favor thereof, of the measure and shall take effect upon proclamation by the Governor which shall be made within ten days after the official canvass of such votes. The vote upon initiative and referendum measures shall be returned and canvassed in the manner prescribed for the canvass of votes for president. The method of submitting and adopting amendments to the Constitution provided by this section shall be supplementary to the method prescribed in the article of this Constitution, entitled, "Amendments" and the latter shall in no case be construed to conflict herewith with this section. The provisions with respect to the initiative and referendum shall be self-executing, but legislation may be enacted to facilitate their operation. All propositions submitted in pursuance hereof by initiative or referendum shall be submitted in a non-partisan nonpartisan manner and without any indication or suggestion on the ballot that they have been approved or endorsed by any political party or organization. Only the title or proper descriptive words of measures shall be printed on the ballot. When and when two or more measures have the same~~

title, they shall be numbered consecutively in the order of filing with the Secretary of State, and the number shall be followed by the name of the first petitioner on the corresponding petition.”

Sec. 2. That the proposed amendment shall be submitted to the electors in the manner prescribed by the Constitution of Nebraska, Article XVI, section 1. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

“A constitutional amendment to increase the percentage of signatures required for an initiative or referendum petition when payment in money, goods, or any other thing of value is made to any individual in return for the circulation of a petition, other than the payment of actual and reasonable expenses, and to harmonize provisions.

For

Against”.

3 “Sec. 3. Allocations from the Waste Reduction

6 reduction or recycling program or project proposed by
7 the political subdivision appears to benefit the general
8 public, to further the goals of waste reduction and
9 recycling, and to be consistent with proper waste
10 management practices. A political subdivision may file
11 an application with the Department of Environmental
12 Control for a grant from the fund. Each application
13 shall be filed in a manner and form prescribed by the
14 department.

15 An application for a grant from the fund
16 shall: (1) Describe the nature and purpose of the
17 proposed program or project; (2) set forth or be

2 other than that for which the application is made will
3 be used to help in meeting program or project costs and
4 whether such money is available or has been sought for

6 applicant holds or can acquire title to all lands or has
7 the necessary easements and rights-of-way for the
8 project and related lands; (5) show that the applicant
9 possesses all necessary authority to undertake or
10 participate in the proposed program or project; and (6)
11 demonstrate the probable environmental and ecological

14 of Environmental Control shall evaluate and investigate
15 all aspects of the proposed program or project and the
16 proposed schedule for the development and completion of

18 the program or project for funding, and make appropriate

24 application does not contain adequate information upon
1 which to make determinations, the director shall return
2 the application to the applicant and may make
3 recommendations to the applicant which the director
4 considers necessary to make the plan or the application
5 satisfactory.

6 The director shall within a reasonable time,

8 application report to the council the results of his or

16 specific recommendation under consideration. No council
17 member shall be eligible to participate in the action of
18 the council concerning an application for funding to any
19 entity in which such council member has any interest.

20 It is the intent of the Legislature that

24 (a) All geographic areas of the state; (b) all sizes and
1 classes of communities; and (c) all manner and scale of
2 programs and projects. The council shall also give
3 consideration to eligible programs and projects which
4 would specifically employ disabled or handicapped
5 persons.

6 If after review of the recommendation by the
7 director the council determines that an application for
8 a grant is satisfactory and qualified to be approved,
9 before the final approval of such application may be
10 given and the funds allocated the council shall enter
11 into an agreement in the name of the state with the
12 applicant and any other entity it deems to be involved
13 in the program or project to which funds shall be

LEGISLATIVE RESOLUTION 231. Introduced by R. Johnson, 34th District.

WHEREAS, styrofoam containers require over three hundred years to decompose in a landfill while paper containers require fifty to one hundred years to decompose; and

WHEREAS, decomposition requires water and oxygen but regulations protecting the environment restrict all but a minimum of water and oxygen from penetrating landfills to protect ground water from contamination; and

WHEREAS, styrofoam and other plastics are very light and comprise about seven percent of all garbage by weight, but they occupy over twenty percent of landfill space; and

WHEREAS, Wesleyan University and the University of Kansas are studying alternatives to the use of styrofoam on those campuses, and the University of Nebraska-Lincoln has discontinued the use of styrofoam in the Union for cold drinks and is continuing to look for alternatives to styrofoam.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature follow the lead of the young people who are urging an environmentally responsible change in usage of products.

LEGISLATIVE RESOLUTION 232. Introduced by Schmit, 23rd District; Warner, 25th District; Labeledz, 5th District; Baack, 47th District; Lynch, 13th District.

WHEREAS, pursuant to section 50-404 the Legislature in Legislative Resolution 5, Ninety-first Legislature, First Session, established a special committee on January 11, 1989, to investigate

matters related to the Franklin Community Federal Credit Union; and

WHEREAS, while the committee has made substantial progress in carrying out its charge, significant issues of a serious nature remain to be investigated; and

WHEREAS, the committee has uncovered evidence which would tend to substantiate that child abuse, homosexual activity, and drug abuse were associated with the credit union, its principals, and others; and

WHEREAS, the work of the committee since 1989 has opened up a new issue which must be dealt with by the committee and this Legislature if confidence in government in this state is to be maintained, that new issue specifically being the integrity and accountability of certain institutions of government; and

WHEREAS, the importance of prosecution for individual and specific crimes is very important but may be secondary to the above-described need to thoroughly examine and determine if indeed various institutions of government have been or are currently compromised in their ability to respond to the needs of the citizens and fulfill their constitutional mandates; and

WHEREAS, the information developed by the committee since July 1989 forces upon the committee a reluctant but unavoidable duty to follow the evidence and leads developed and fully examine all information flowing into the committee and this work will require expertise above and beyond both the financial and personnel resources of the committee as they now exist; and

WHEREAS, failure to now proceed aggressively and efficiently to thoroughly examine the conduct and performance of both specific individuals as well as various institutions of government would in itself constitute dereliction of duty and failure to perform our duty since the Legislature is the ultimate repository of public accountability and the ultimate institution of state government.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the current special committee with its present membership is authorized to continue its work with the powers and duties specified in Legislative Resolution 5, Ninety-first Legislature, First Session.

Section 1. That at the general election in November 1990 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska by amending Article VIII, section 1, which is hereby proposed by the Legislature:

CVIII-1 "The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all ~~tangible~~ real property and franchises, except that the Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent as provided by the Legislature and may also establish a separate class for trucks, trailers, semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles. The ~~PROVIDED, that such~~ tax proceeds from motor vehicles taxed in each county shall be allocated to the state, counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of ~~said~~ the county on personal tangible property. The legislature may provide for a nonuniform method of taxing tangible personal property. The Legislature may provide that agricultural land and horticultural land used solely for agricultural or horticultural purposes shall constitute a separate and distinct class of property for purposes of taxation. valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing, or other employee benefit plans as defined by the Legislature may be declared to be exempt from taxation. Taxes, other than property taxes, may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature. STATE OF THE STATE ADDRESS

The following speech was given January 8, 1990, by Governor Kay Orr:

Mr. Speaker. Mr. President, ladies and gentlemen of the Legislature. friends. and my fellow citizens:

It's indeed a pleasure to join you as we enter the 1990s and stand at the gateway to the 21st century. We live in an exceptional time.

Dramatic changes swirl about us. Expectations long suppressed are given new expression. The image is fresh in our minds of the young people of Berlin, tearing down the wall, an act symbolic of a desire for a better life...a richer political, economic, and cultural life. Those changes are happening all over East Central Europe and the Soviet Union.

It's appropriate to recall that many of those who came to Nebraska had origins in Czechoslovakia, Poland, Germany, Russia, the Baltic countries and so many other nations. They came to Nebraska seeking a better life. They continue to come, receiving a better life.

But let us acknowledge and rededicate ourselves to the fact that the better life requires constant effort from one generation to another. As elected leaders of this state we bear much of the responsibility for making the decisions that ensure that better life.

In this first year of the last decade of the 20th century we are positioned to take measured strides toward the future. So it is that I look forward to the nineties with enthusiasm and optimism...convinced we can continue the momentum of recent years.

A moments reflection will reveal the landmarks of our progress. Recall 1987.

--Nebraska unemployment had climbed to 5.5 percent.

Today it is 2.9 percent, the lowest rate of any state west of the Mississippi.

--Manufacturing employment was down dramatically.

Today Nebraska's growth in manufacturing employment is one of the strongest in the nation.

--Job creation slowed to a virtual standstill.

Today 23,000 new jobs are on the drawing board. Approximately 15,000 jobs are already filled by Nebraskans.

--State finances were buffeted constantly like a kite in a gusty wind.

Today state finances have been stabilized...while dozens of other states are in serious financial trouble.

--Until recently advanced research and product development at the University were not competitive.

Today a bold initiative for advanced research at the University of Nebraska promotes economic opportunities for our citizens.

--Not long ago the morale of our teachers and professors was at a low ebb.

Today salaries have been increased, and renewed financial commitments enhance education at all levels.

The turn-around in Nebraska's economy has been noticed! A couple of months ago, the Christian Science Monitor reported that

"New economic development incentives approved in 1987 have polished Nebraska's national image."

These achievements evidence the strength and character of this state. The principles and ideals which bind us are far greater than the differences which divide us. We are committed to the pursuit of excellence in our educational system, and we place a high value on the unsurpassed quality of life that we enjoy.

Just a few years ago the collective vision of our citizens was blurred by conditions of economic stress. It was essential that self-confidence be restored and that renewed economic vigor be returned to the main streets of our communities. It was a time to build, and we did it!

Effective partnerships between government and the private sector were created. Individual initiative and hard work made those partnerships work. Those partnerships brushed away the clouds of misfortune and uncertainty, and set us back on course toward the realization of our hopes for the future.

One of my major responsibilities as Governor is to listen... to listen to the "whisper of the prairie," which, I must admit, sometimes sounds more like a roar. Through the Capital for a Day and most recently, the GREAT Town program, I have criss-crossed this state, listening to Nebraskans from our smallest towns and villages to our largest cities. Several communities hosted a Governor for the first time. Both of these programs have given me a far greater understanding of the hopes and dreams, as well as the problems and frustrations of the people of Nebraska. There is personal reward in visiting these towns. It gives me strength of purpose to study the faces of children in their classrooms, to learn from the wisdom of our elders, whose experiences are the foundations upon which we build the future. It's in these communities where so much of the true spirit and real strength of our people lie.

Bess Streeter Aldrich once explained her affection for her village of Elmwood with these words: "I have experienced a thousand times the warm-hearted hospitality, loyal friendships and deep sympathy of the small town."

And, happily so have I.

Nebraska small towns and their metropolitan counterparts form the fabric we call "community." Together those communities form the tapestry we call "Nebraska."

With all that as background, let us turn our attention to the matter at hand---Where do we go from here to attain the better life for all Nebraskans?

The proposals offered to you today will provide Nebraskans the opportunity to sustain and build on our progress, strengthen our people, and enrich our society as we prepare for the 21st century.

FIRST...

I believe that the fundamental responsibility of government is to protect its citizens and provide for their well-being and safety. To achieve that end I am proposing strong legislation that will help eradicate the problem of illegal drugs in our society.

--We must take away the profits

--protect our children in our neighborhoods and schools, and

--remove users from our streets.

--We must strengthen enforcement and prosecution and

--provide for expanded incarceration, treatment, and counseling.

--We must continue to educate both young and old about this deadly scourge.

I want to make it crystal clear. Nebraska intends to rid itself of this evil which is corrupting our youth and spawning crime in our streets. There must be more state drug enforcement officers on the front lines, backed up by tougher laws to take the glamour out of using and the profit out of selling.

I am recommending new appropriations to enhance enforcement, through the addition of 15 drug enforcement officers, 10 drug abuse resistance education officers, and the full reinstatement of paid overtime for the State Patrol.

Under the leadership of Colonel Harold LeGrande, Nebraska law enforcement...from our local police and county sheriffs, to state and federal investigators, are working together, making significant strikes against illegal narcotics activity. These are dedicated women and men, committed to protecting Nebraska families.

I am working with Senator Conway to further develop his proposal to impose an immediate assessment on the street value of drugs found at the time of arrest. Property...cars, houses, bank accounts...would be subject to seizure to satisfy the judgment.

Collection of this drug money should be used to help educate Nebraskans on the evils of drug abuse...to provide for drug treatment programs, and to fund enforcement programs.

In that connection, I urge the legislature to act promptly on Senator Chizek's LB 205, which will strengthen our state seizure and forfeiture laws and conform Nebraska law to the federal anti-drug statutes.

I endorse Senator Pirsch's bill to create Drug-Free School Zones across the state. This proposal follows the same lines as Mayor P.J. Morgan's successful efforts in Omaha.

I am working with Senator Lowell Johnson to deter drug dealers from involving minors in their illegal enterprise by making it a separate felony to hire minors as part of an illegal drug operation.

I support Senator Langford's proposal to suspend the driver's licenses of those convicted of drug-related offenses. To combat the "laundering of money from illegal drug deals, I am proposing a statute that will require financial institutions to report large cash transactions.

Our prosecution forces will be strengthened by doubling the Drug Prosecution Unit in the Attorney General's office.

Today our prison capacity is at 144 percent, 5th highest in the nation. Our new drug efforts will increase that percentage unless more prison space is provided. Thanks to the efforts of Senator Hannibal and his committee on Prison Overcrowding, we now have a coherent and logical basis for addressing the growing needs of the state's corrections system. Accordingly, funding for the addition of 430 beds to the adult facilities will be recommended. We have no choice.

If these prisoners are to have any chance of rehabilitation, they must have treatment and counseling; therefore, six mental health counselors should be reinstated in the Department of Corrections and a portion of the federal block grant reserved for law enforcement should be used to triple the current chemical dependency grant for both adults and juveniles in state custody.

Drug abuse is a plague threatening every single family. It is being fought in communities across the state and led by committed Nebraskans like Tom Barlow, Joe Edmunsen, Willa Kirts, Carl Washington, Paul and Kandy Hofmeister, Creola Woodall, Pastor William Barlow, Parents in Action, the Mad Dads, Malone Community Center, and the Drug Free Youth Network at Scottsbluff High School. Nebraskans expect our total commitment to this war. That commitment is reinforced today.

SECOND...

We must continue to encourage business expansion and bring new job opportunities to Nebraska. As I've traveled and listened to the people and been involved in their plans for the future, I have been impressed by the independence, determination, and optimism that motivates Nebraskans to improve the quality of life in their communities.

In order to continue the revitalization of rural Nebraska increased resources must be available to the people who live and work in our rural communities. I have asked the Department of Economic Development to make changes in the Community Development Block Grant program to provide more flexibility to meet the various needs of our smaller communities.

Additional business assistance will be available through expansion of the direct loan and loan guarantee provisions, and funds will be available for retail business development in communities with populations of 25-hundred or less.

THIRD...

Throughout our history, agriculture has been the foundation of Nebraska's economy. We are Number One in Agriculture, and prospects for the future are bright. Just last week Nebraska moved into first place as the leading cattle feeding state in the nation. Of the \$2.4 billion that will be invested under the economic development initiatives, approximately \$540 million will be devoted to the processing of agricultural products. That's good news. The rest of the story is that 1989 was a difficult year for Nebraska agriculture. Eighty-seven of 93 counties qualified for federal disaster relief.

The Drought Assessment Response Team, activated last April, will continue to stay abreast of drought conditions gripping our state. Until our prayers for replenishing snows and rains are answered, the drought situation will be monitored closely; and we will be prepared to act on behalf of our farmers, feeders, and ranchers.

This Fall, the people of Nebraska will...once again...have the opportunity to determine how agriculture real estate should be valued. I believe that ag-land should be fairly valued on its ability to produce.

FOURTH...

Modern technology gives us the opportunity to link our state together to provide exciting new education opportunities to students and teachers in communities across the breadth of this state.

I will recommend substantial funding for Phase II of NEBSAT, the Nebraska telecommunications delivery system for education. The benefits of NEBSAT range from allowing students in low-enrollment schools to receive instruction from teachers in larger schools, to an MBA program to be offered at the Panhandle Research and Extension Center in Scottsbluff.

In addition, funding will be sought to enhance the delivery of nursing school programs to Scottsbluff by the University of Nebraska Medical Center in Omaha. Matching funds will be proposed so that 22 additional schools can purchase satellite dishes to receive Star Schools and NEBSAT programming. In all, the system will link 82 communities across Nebraska.

In that regard I wish to acknowledge the role of Jack McBride, Director of the Nebraska Educational Television Network, and the Telecommunications Coordinating and Planning Group, for bringing together a feasible plan for employing space age technology in the delivery of educational services.

FIFTH...

The environment also demands our attention. Agriculture, municipalities, industries...the people of Nebraska, and wildlife compete for the use of natural resources. Cooperation and compromise will be a hallmark of continuing programs to balance these competing needs.

Specifically, in the area of water management non-point source pollution holds the greatest danger to all users of water in Nebraska. The NRDs are in the forefront of monitoring and addressing the management practices necessary to reduce the level of pollution. Indeed, they serve as a national example.

FINALLY...

Property tax relief must be continued. One of the most important duties of any government is to insure that it takes from its citizens no more than is absolutely required to finance the services of government. Thanks to increased revenues resulting from our improved economy, we were able last year, through LB 84, to provide more than \$100 million dollars in property tax relief to Nebraska property taxpayers.

If there is one issue on which there is near unanimous agreement in our state, it is that local property taxes are too high. It is only proper that the state should, to the extent it can, assist in easing the burden borne by local units of government. Therefore, I will be proposing again this year, the legislature provide property tax relief in an amount of nearly \$100 million dollars. Tax relief is possible, but it must begin with spending relief.

Spending choices are never easy. Neither are vetoes.

The drought last year caused me to be cautious about the state's economy. I vetoed \$66 million of additional spending in light of that harsh reality.

There are signs that growth in our nation's economy is slowing down. Those signs are also evident in the tax receipts of states in our own region.

We in Nebraska must carefully balance a recovering economy with fiscal responsibility. In that regard you acted with commendable responsibility during the November special session in moving to protect our school districts, our cities and villages, our counties and other local governments from the threatened loss of millions of dollars in property tax revenue growing out of congressional action and decisions by federal and state courts. Together with Senator Warner's LB 7, the measures proposed offered a practical solution to this dilemma.

As you know, my expanded Response Team has been examining the constitutional questions surrounding the personal property tax.

The enlarged group is chaired by Attorney General Robert Spire. I pledge my cooperation as they fashion solutions that will pass final constitutional muster.

In connection with your consideration of property tax legislation, you will be dealing with the recommendations of the School Finance Review Commission. While I have some reservations about the Commission's proposals, I will follow the debate and discussion closely. If there is to be a shift from the property tax base to sales and/or income taxes, Nebraskans expect the absolute assurance that change will not increase taxes.

As we look ahead toward the 21st century, we can foresee expanded horizons for growth and development in Nebraska. We can envision changes that will come with increasing swiftness. The future will be filled with challenges and bright with promise.

And in that vision, there is one constant that sustains and supports us...the quality of life which is uniquely ours.

My own view is that our clean air, our rivers and lakes, and a wealth of recreational opportunities are very important to our quality of life. Our good schools, high literacy rate, affordable living costs, and the cultural opportunities to enjoy add much to long and healthy living in Nebraska.

But I think the essence of the quality of life is in our neighbors, our families, our friends. It is in the strength of the character of our people, in the willingness to work to achieve our visions. Nebraska's greatness today results from people not being guaranteed success, but from people having been given the opportunity for success.

Nebraskans have put their trust in you and their trust in me to do what is right. The key is knowing how much is right, and how much is enough. There is a serenity prayer which asks God: "Grant me the serenity to accept the things I cannot change, the courage to change the things I can, and the wisdom to know the difference."

In much the same way those of us entrusted with government leadership need to know what is necessary to provide, and what is not...and we need to have the wisdom to know the difference.

The 29th chapter of the Book of Proverbs reminds us: "Where there is no vision, the people perish."

Let us trust one another. Let us seek together the inspiration, the openness, and the vision for a brighter future.

Our tomorrows will be decided by the courage and determination of all Nebraskans. Together those of us who have been elected by the people to serve can help bring their vision to reality.

You have my every good wish for a successful and productive session. May your deliberations be blessed by the Almighty.

ATTORNEY GENERAL'S OPINION

Opinion No. 90001

DATE: January 11, 1990

SUBJECT: LB 419; Federal Preemption of State Legislation
Regulating Hours of Service for Railroad
Employees

REQUESTED BY: Senator David Bernard-Stevens
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General

Dale A. Comer, Assistant Attorney General

LB 419 would amend Neb.Rev.Stat. §74-902 (Reissue 1986) dealing with the duty times of employees of railroads and other common carriers. Among other things, that statute prescribes maximum consecutive hours of duty for such employees. The federal Hours of Service Act, 45 U.S.C. §61 et seq., also prescribes maximum hours of service for railroad employees, and otherwise regulates employee service. You now ask, "Whether LB 419 . . . preempts federal law." From discussions with your staff, and from our review of the testimony presented at the committee hearing on LB 419, we understand that the focus of your opinion request is actually whether the federal Hours of Service Act preempts the provisions of LB 419. We believe that it does, and our conclusion is discussed below.

Article I, Section 8, Paragraph 3 of the United States Constitution, commonly known as the Commerce Clause, grants Congress the power to regulate interstate commerce. Union Pacific Railroad Company v. Woodahl, 308 F.Supp. 1002 (D.Mont. 1970). Article VI, Paragraph 2 of the United States Constitution, the Supremacy Clause, provides that the federal Constitution and Laws are the supreme laws of the land. ATS Mobile Telephone v. Curtain Call Communications, Inc., 194 Neb. 404, 232 N.W.2d 248 (1975). These provisions, considered together, indicate that state regulation of interstate commerce can be preempted by federal regulation in the same area. Our supreme court has set out a three-part test for determining when such preemption occurs:

First, did Congress intend to preempt the area? Second, do the state and federal laws irreconcilably conflict? Third, by the very nature of the subject regulated, is there a need for national uniformity? The answer must be "no" to all three questions if the state regulation is to be upheld.

ATS Mobile Telephone v. Curtain Call Communications, Inc., *supra* at 407. 232 N.W.2d at 250. We believe that LB 419 fails at least the first two of the tests set out by our supreme court. As a result, federal legislation must control.

When Congress unmistakably enters a field and enacts legislation to govern that field, state laws regulating that aspect of commerce must fail. ATS Mobile Telephone, Inc. v. General Communications Company, Inc., 204 Neb. 141, 282 N.W.2d 16 (1979). This result is required whether Congress specifically directs such a result or whether such a result is required by the purpose of the act. Id.

The federal Hours of Service Act was initially enacted in 1907. There are several cases which indicate that this legislation concerning hours of service so completely occupies the field as to prevent state

legislation on the same subject. For example, in Northern Pacific Railway Company v. State of Washington, 222 U.S. 370 (1912), the United States Supreme Court held that the Hours of Service Act precluded a state, even during the period of time from the Act's passage to its effective date, from making or enforcing local regulations limiting hours of labor. The Court stated:

. . . the enactment of Congress of the law in question {the Hours of Service Act} was an assertion of its power, by the fact alone of such manifestation that subject was at once removed from the sphere of the operation of the authority of the state.

Northern Pacific Railway Company, 222 U.S. at 378. Similarly, in Erie Railroad Company v. People of the State of New York, 233 U.S. 671 (1914), the Supreme Court held that the subject of hours of labor of employees specified in the Hours of Service Act was so far removed from state regulation as to invalidate provisions of state law prescribing shorter days of work for certain classes of employees. See also, Southern Railway Company v. Railroad Commission of Indiana, 236 U.S. 439 (1915); State v. Wabash Railway Company, 238 Mo. 21, 141 S.W. 646 (1911); State v. Chicago, Milwaukee and St. Paul Railway Company, 136 Wis. 407, 117 N.W. 686 (1908); State v. Missouri Pacific Railway Company, 212 Mo. 658, 111 S.W. 500 (1908). On the basis of these various cases, we believe that Congress intended to preempt the area of hours of service for railroad employees. As a result, LB 419 fails the initial portion of the three-part test for preemption described by our supreme court.

We also believe that certain provisions of LB 419 are in conflict with federal law. Section 1 of LB 419 provides:

It shall be unlawful for any common carrier or its officers or agents to require or permit any employee to be or remain on duty for a longer period than 12 consecutive hours. Whenever any employee of such common carrier has been continuously on duty for 12 hours, he or she shall be at the tie-up or tie-off duty point and relieved from all duties within such 12 hour period so that his or her total time on duty shall not exceed 12 hours.

(Emphasis supplied). As noted in your opinion request, the language in §1 of LB 419 emphasized above is intended "to clarify and delineate that railroad employees should actually be at their terminal within 12 hours of duty."

The federal Hours of Service Act does not contain language which requires that railroad employees must be at their terminal at the end of their duty shift. Moreover, 45 U.S.C. §61(3) provides that time on duty for purposes of computation of maximum allowed duty periods shall commence when an employee reports for duty and terminate

when the employee is released from duty. Part (c) of that same subsection further provides that time on duty shall include:

Time spent in deadhead transportation by an employee to a duty assignment: provided, the time spent in deadhead transportation by an employee from duty to his final release shall not be counted in computing time off duty.

(Emphasis supplied). It seems to us that these portions of 45 U.S.C. §61, by specifically excluding "deadhead transportation by an employee from duty to his final release" from time on duty, contemplate that employees will not necessarily be at their terminal at the end of their duty shift. Consequently, LB 419 would conflict with the federal statute by requiring a different result.

For these various reasons, we believe LB 419 is preempted by the federal Hours of Service Act. If LB 419 were enacted into law, its provisions could not be enforced in the face of the federal legislation.

Sincerely,
ROBERT M. SPIRE
Attorney General

9 the University of Nebraska to full-time undergraduate
10 students from Black, American Indian, and Hispanic
11 minority groups which are underrepresented in the
12 student population at the University of Nebraska and who
13 cannot afford such educational expenses due to lack of
14 financial resources available to them.

15 Such scholarship program shall be implemented
16 as a temporary measure for the purpose of eliminating
17 the statistical disparity between the representation of
18 full-time Black, American Indian, and Hispanic minority
19 students in the undergraduate student population of the
20 University of Nebraska and the representation of such
21 minority students in the student population of the
22 primary and secondary schools of this state and for the

Messrs. Schellpeper and Dierks asked unanimous consent to print the following amendment to LB 520 in the Journal. No objections. So ordered.

AM2130

- 1 1. Strike the original sections and insert
- 2 the following new sections:
- 3 “Section 1. Sections 1 to 6 of this act shall
- 4 be known and may be cited as the Nursing Incentive Act.
- 5 Sec. 2. The Legislature hereby finds and
- 6 declares that there is a current and projected future
- 7 shortage of nurses in the State of Nebraska and that it
- 8 is imperative to the welfare of the state that the
- 9 number of nurses be increased due to the vital role
- 10 nurses play in providing quality health care. The
- 11 Legislature further finds and declares that there are
- 12 serious problems with recruitment and retention of
- 13 nurses in rural areas, and the state can help alleviate
- 14 the problem of maldistribution and shortage of nurses
- 15 through financial incentives for students to study
- 16 nursing and practice in the State of Nebraska following
- 17 completion of their education. Solutions to this
- 18 problem are most effectively met through coordinated
- 19 efforts on the part of communities, educators, health
- 20 care facilities, and others in both public and private
- 21 sectors working together in partnership with the state
- 1 to provide incentives and opportunities for nurses to
- 2 practice in the State of Nebraska.
- 3 Sec. 3. For purposes of the Nursing Incentive
- 4 Act:
- 5 (1) Approved nursing program shall mean a
- 6 program offered by a public or private institution in
- 7 this state (a) which consists of courses of instruction
- 8 in regularly scheduled classes leading to a master of
- 9 science degree, a bachelor of science degree, an
- 10 associate degree, or a diploma in nursing or (b) for the
- 11 preparation for licensure as a licensed practical nurse
- 12 available to regularly enrolled undergraduate or
- 13 graduate students who reside in Nebraska and have

14 received a high school diploma or its equivalent;

15 (2) Department shall mean the Department of
16 Health;

17 (3) Full-time practice of nursing shall mean
18 employment in the practice of nursing for no fewer than
19 one thousand six hundred hours per year, except that up
20 to four hundred hours per year may be waived by the
21 department upon a showing that there was a valid reason
22 for the nurse to be unable to practice nursing for that
23 number of hours, including medical or maternity leave;

24 (4) Nontraditional student shall mean a
1 student who has not attended classes as a regular
2 full-time student for at least three years;

3 (5) Practice of nursing shall have the
4 definition found in section 71-1,132.05; and

5 (6) Rural area shall mean the area included
6 within the boundaries of any county having a population
7 of sixty thousand inhabitants or less.

8 Sec. 4. There is hereby created the Nursing
9 Scholarship Incentive Fund. Such fund shall be
10 distributed upon application to students enrolled in
11 approved nursing programs in the State of Nebraska in
12 direct proportion to the number of students enrolled in
13 such programs. Each such program shall be eligible to
14 receive at least one thousand dollars and the program
15 accepting funds shall provide a scholarship for at least
16 one student. Each approved nursing program which
17 receives funds shall distribute the funds to nursing
18 students enrolled in the program in a manner intended to
19 result in the greatest increase in the number of persons
20 engaged in the study of nursing. Such funds shall be
21 made available for at least sixty new students in
22 academic year 1990-91 and at least sixty students in
23 academic year 1991-92. Such scholarships shall not
24 exceed one thousand dollars per student per academic
1 year nor a total of more than two thousand dollars per
2 student.

3 Selection of students to receive the funds
4 shall be based on the following:

5 (1) First priority shall be given to students
6 who reside in rural communities. Rural communities and
7 local health care facilities shall be encouraged to
8 assist nursing students by providing financial or other
9 assistance to such students in return for a promise to

10 practice nursing in such communities;

11 (2) Substantial financial need as defined in
12 section 85-990; and

13 (3) An agreement by the recipient to practice
14 nursing in the State of Nebraska.

15 At least one-half of the funds distributed to
16 each approved nursing program shall be made available
17 for nontraditional or ethnic minority students.

18 The use of funds from the Nursing Scholarship
19 Incentive Fund shall be subject to review by the
20 department. Failure to use such funds in an appropriate
21 manner shall result in the ineligibility of the approved
22 nursing program to receive subsequent funding under the
23 Nursing Incentive Act.

24 Any money in the fund available for investment
1 shall be invested by the state investment officer
2 pursuant to sections 72-1237 to 72-1276.

3 Sec. 5. There is hereby created the Rural
4 Nursing Incentive Fund. The fund shall provide a
5 financial incentive to encourage nurses to practice in
6 rural area. A financial incentive of one thousand
7 dollars per year for up to two years of nursing practice
8 in a rural area beginning January 1, 1991, shall be
9 provided to qualified nurses practicing in such
10 communities. Such incentive shall be made available for
11 sixty nurses per year. To be eligible to receive such
12 incentive, a nurse shall meet the following standards:

13 (1) He or she shall not have practiced nursing
14 in a rural community at that level of education or
15 credential in the State of Nebraska in the immediately
16 preceding five years;

17 (2) He or she shall be licensed to practice
18 nursing in the State of Nebraska;

19 (3) He or she shall apply for rural incentive
20 funds by December 15 of the year preceding his or her
21 practice in the rural area;

22 (4) He or she shall practice nursing full time
23 in a rural area for that year and shall provide proof of
24 such practice to the department; and

1 (5) Upon completion of one year of full-time
2 practice of nursing in the rural area, he or she shall
3 receive such financial incentive payment.

4 In the event there are more eligible
5 applicants than there are funds available, the

6 department shall select applicants based on greatest
 7 need for nurses in a particular rural area based upon
 8 data developed by the department. Additional eligible
 9 applicants shall be put on a waiting list and shall
 10 replace applicants who fail to fulfill the requirements
 11 of this section.

12 Any money in the fund available for investment
 13 shall be invested by the state investment officer
 14 pursuant to sections 72-1237 to 72-1276.

15 Sec. 6. The department shall adopt and
 16 promulgate rules and regulations to carry out the
 17 Nursing Incentive Act.

18 Sec. 7. Since an emergency exists, this act
 19 shall be in full force and take effect, from and after
 20 its passage and approval, according to law.”.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

Section 1. That at the general election in November 1990 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska by amending Article VII, sections 10 and 13, and Article XIII, section 1, which is hereby proposed by the Legislature:

CVII-10 "There is hereby established the Board of Regents for Nebraska Higher Education which shall be vested with the authority for the coordination of all public postsecondary educational institutions governed by a board of trustees. The powers and duties of the board of regents shall be prescribed by law.

The board of regents shall consist of two members elected from each congressional district and five members appointed by the Governor with the approval of a majority of the Legislature. The Governor shall appoint to the seats of the six elected members three members of the Board of Regents of the University of Nebraska, one from each congressional district, and three members of the Board of Trustees of the Nebraska State Colleges, one from each congressional district, as those boards exist on June 30, 1991, to serve from July 1,

1991, until such time as members can be elected and take office as provided by law.

The terms of office of the members of the Board of Regents for Nebraska Higher Education shall be six years or until a successor is qualified and takes office, except that (1) of the six members initially elected, one member from each of the first and second congressional districts shall serve for a term of two years and one member from each of the first and third congressional districts shall serve for a term of four years and (2) of the five members initially appointed, one shall serve for a term of two years and two shall serve for terms of four years. Vacancies shall be filled by appointment for the balance of the term. The members of the board of regents shall receive no compensation for the performance of their duties but may be reimbursed their actual and necessary expenses. The Board of Regents of the University of Nebraska as the board exists on the effective date of this amendment shall continue to serve as such and shall have the same powers and duties, including the same powers and duties with respect to revenue bonds, as it had on such date until July 1, 1991. On July 1, 1991, the Board of Regents of the University of Nebraska shall terminate. The general government of the University of Nebraska shall, under the direction of the Legislature, be vested in a board of not less than six nor more than eight regents to be designated the Board of Regents of the University of Nebraska, who shall be elected from and by districts as herein provided and three students of the University of Nebraska who shall serve as nonvoting members. Such nonvoting student members shall consist of the student body president of the University of Nebraska at Lincoln, the student body president of the University of Nebraska at Omaha, and the student body president of the University of Nebraska Medical Center. The terms of office of elected members shall be for six years each. The terms of office of student members shall be for the period of service as student body president. Their duties and powers shall be prescribed by law; and they shall receive no compensation, but may be reimbursed their actual expenses incurred in the discharge of their duties.

The Legislature shall divide the state, along county lines, into as many compact regent districts, as there are regents provided by the Legislature, of approximately equal population, which shall be numbered consecutively.

The Legislature shall redistrict the state after each federal decennial census. Such districts shall not be changed except upon the concurrence of a majority of the members of the Legislature. In any such redistricting, county lines shall be followed whenever practicable, but other established lines may be followed at the

discretion of the Legislature. Whenever the state is so redistricted the members elected prior to the redistricting shall continue in office, and the law providing for such redistricting shall where necessary specify the newly established district which they shall represent for the balance of their term."

CVII-13 "There is hereby established for each public postsecondary educational institution which grants baccalaureate or higher degrees a board of trustees which shall have responsibility for the general government, or supervision of the management, of the institution except as otherwise limited pursuant to the Constitution of Nebraska. The powers and duties of the boards of trustees shall be prescribed by law.

Each board of trustees shall consist of seven members appointed by the Governor with the approval of a majority of the Legislature and a nonvoting student member who shall be the student body president of the institution. The Legislature may provide that the appointed members of each board of trustees shall be appointed from areas of the state which are consistent with the institution's primary service responsibilities. The terms of office of the appointed members shall be for six years or until a successor is qualified and takes office, except that of the members initially appointed, two shall serve for terms of four years and two shall serve for terms of two years. The general government of the state colleges as now existing, and such other state colleges as may be established by law, shall be vested, under the direction of the Legislature, in a board of seven members to be styled as designated by the Legislature, six of whom shall be appointed by the Governor, with the advice and consent of the Legislature, two each for a term of two, four, and six years, and two each biennium thereafter for a term of six years, and the Commissioner of Education shall be a member ex officio. The duties and powers of the board shall be prescribed by law, and the members thereof shall receive no

A Resolution to propose an amendment to the Constitution of Nebraska by amending Article VII, section 10.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

Section 1. That at the general election in November 1990 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska by amending Article VII, section 10, which is hereby proposed by the Legislature:

CVII-10 “(1) The general government of the University of Nebraska shall, under the direction of the Legislature, be vested in a board to be designated the Board of Regents of the University of Nebraska. The board shall be composed of not less than six nor more than eight regents to be designated the Board of Regents of the University of Nebraska, members who shall be elected from and by districts as herein provided and three students of two nonvoting student members and one voting student member from the University of Nebraska, who shall serve as nonvoting members. Such ~~nonvoting~~ student members shall consist of the student body president of the University of Nebraska at Lincoln, the student body president of the University of Nebraska at Omaha, and the student body president of the University of Nebraska Medical Center. The terms of office of elected members shall be for six years each. The terms of office of student members shall be for the period of service as student body president. Their duties and powers shall be prescribed by law, ~~;~~ and they shall receive no compensation, but may be reimbursed their actual expenses incurred in the discharge of their duties.

(2) The University of Nebraska, with its three campuses, serves the educational needs of thousands of people who have chosen the university to continue their education. It is the duty of the university and the desire of its administration to meet the needs of its students by providing the best education within the most positive environment possible. The student members of the Board of Regents provide the elected regents with direct access to the university's campuses and are in a position to have first-hand knowledge of the students' most urgent needs. Although the student members are not elected, do not serve six-year terms, and do not each have a vote on matters presented to the Board of Regents, the student members do represent a constituency of students on their campuses and in their positions

as students and student leaders warrant a vote on matters affecting their constituency. On or before January 1 of each year the Governor shall appoint one of the student members of the Board of Regents to serve as a voting member of the Board of Regents for a one-year term, except that no university campus shall be represented by a voting student member in consecutive years. The student regent with voting privileges shall be enrolled at a university campus and shall forfeit his or her voting privileges when not enrolled at such university campus.

(3) The Legislature shall divide the state, along county lines, into as many compact regent districts; as there are regents provided by the Legislature; of approximately equal population, which districts shall be numbered consecutively. The Legislature shall redistrict the state after each federal decennial census. Such districts shall not be changed except upon the concurrence of a majority of the members of the Legislature. In any such redistricting, county lines shall be followed whenever practicable; but other established lines may be followed at the discretion of the Legislature. Whenever the state is so redistricted the members elected prior to the redistricting shall continue in office, and the law providing for such redistricting shall where necessary specify the newly established district which they shall represent for the balance of their term.”

 9 shall be determined in the same manner as if the suits
 10 involved private individuals, except that such suits
 11 shall be heard and determined by the appropriate court
 12 without a jury if only public entities are defendants.

13 and to operate a motor vehicle on the roads of this
14 state with a reasonable degree of safety. The
15 Department of Motor Vehicles shall adopt and promulgate
16 rules and regulations:

20 (2) Notwithstanding the provisions of section
21 60-411 relating to when licenses expire, licenses issued
22 to persons required to use bioptic or telescopic lenses

24 Sec. 2. That section 60-490, Revised Statutes
1 Supplement, 1989, be amended to read as follows:

20 may renew his or her license or card prior to the
21 ninety-day period before the expiration date on such
22 license or card if such applicant furnishes positive
23 proof that he or she will be absent from the state
24 during the ninety-day period prior to such expiration
1 date.

2 Sec. 3. That section 60-4,118, Revised
3 Statutes Supplement, 1989, be amended to read as
4 follows:

5 60-4,118. No operator's license shall be
6 granted to any applicant until such applicant satisfies
7 the examiner that he or she possesses, ~~with or without~~
8 ~~the aid of glasses,~~ sufficient powers of eyesight to
9 enable him or her to obtain a Class O license and to
10 operate a motor vehicle on the highways of this state
11 with a reasonable degree of safety. The Department of
12 Motor Vehicles shall adopt and promulgate rules and
13 regulations:

14 (1) Requiring a minimum acuity level of
15 vision. Such level may be obtained through the use of
16 standard eyeglasses, contact lenses, or bioptic or
17 telescopic lenses which are specially constructed
18 vision correction devices which include a lens system
19 attached to or used in conjunction with a carrier lens;
20 and

21 (2) Requiring a minimum field of vision. Such
22 field of vision shall be measured through standard
23 eyeglasses, contact lenses, or the carrier lens of the
24 bioptic or telescopic lenses.

1 If a vision aid is used by the applicant to
2 meet the vision requirements of this section, the
3 operator's license of the applicant shall be restricted
4 to the use of such vision aid when operating the motor
5 vehicle. If the applicant fails to meet the vision
6 requirements, the examiner shall require the applicant
7 to present an optometrist's or ophthalmologist's
8 statement certifying the vision reading obtained when
9 testing the applicant within ninety days of the
10 applicant's license examination. If the vision reading
11 meets the vision requirements prescribed by the
12 department, the vision requirements of this section
13 shall have been met. If, from the examination given any
14 applicant, it appears that the applicant's powers of
15 eyesight are such that he or she cannot operate a motor
16 vehicle on the highways of this state with a reasonable
17 degree of safety, the examiner shall require the
18 applicant to present a doctor's or optometrist's
19 certificate to the effect that the applicant has
20 sufficient powers of eyesight for such purpose before
21 issuing a license to the applicant. If it is indicated
22 by the examination by the examiner or by the doctor's or
23 optometrist's certificate that the applicant must wear
24 glasses to meet the minimum visual standards set by the
1 department, then the applicant shall have the use of any
2 license issued to him or her restricted to wearing
3 glasses while operating a motor vehicle.

4 If the application for an operator's license
5 discloses that the applicant for such license suffers
6 from any other physical defect or defects of a character
7 which may affect the safety of operation by such
8 applicant of a motor vehicle, the examiner shall require
9 the applicant to show cause why such license should be

10 granted and, through such personal examination and
11 demonstration as may be prescribed by the director, to
12 show the necessary ability to safely operate a motor
13 vehicle on the highways. If the examiner is satisfied,
14 after the demonstration, that such applicant has the
15 ability to safely operate a motor vehicle, an operator's
16 license may be issued to the applicant subject, at the
17 discretion of the director, to a limitation to operate
18 only such motor vehicles at such time, for such purpose,
19 and within such area as the license shall designate.

20 The director may, at the request of a law
21 enforcement officer or when he or she has reason to
22 believe that a person may be physically or mentally
23 incompetent to operate a motor vehicle or a person's
24 driving record appears to the department to justify an
1 examination, give notice to the holder of an operator's
2 license to appear before an examiner for examination to
3 operate a motor vehicle safely. A refusal to appear
4 before an examiner for an examination shall be unlawful
5 and shall result in the immediate cancellation of the
6 person's operator's license by the director. If the
7 license holder cannot qualify at the examination, his or
8 her operator's license shall be immediately surrendered
9 to the examiner and forwarded to the director who shall
10 cancel his or her license and privilege to operate a
11 motor vehicle. Refusal to appear before an examiner for
12 examination after notice to do so or to surrender an
13 operator's license on demand shall be unlawful, and any
14 person failing to surrender his or her operator's
15 license as required by this section shall be guilty of a
16 Class III misdemeanor.

17 No operator's license referred to in this
18 section shall, under any circumstances, be issued to any
19 person who has not attained the age of sixteen years,
20 but upon application therefor and proof of age in the
21 manner provided in section 60-484, any such person may
22 take the examination required by this section at any
23 time within sixty days prior to his or her sixteenth
24 birthday.

1 Sec. 4. Sections 2, 3, and 5 of this act
2 shall become operative on September 1, 1990. The other
3 sections of this act shall become operative on their
4 effective date.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

Section 1. That at the general election in November 1990 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska by amending Article VII, sections 8 and 9, which is hereby proposed by the Legislature:

CVII-8. "All funds belonging to the state for educational purposes. the interest and income whereof only are to be used, shall be deemed trust funds. Such funds with the interest and income thereof are hereby solemnly pledged to the purposes for which they are granted and set apart and shall not be transferred to any other fund for other uses, except that five percent of the annual income from school lands shall be credited to the permanent school fund.

The state shall supply any net aggregate losses thereof realized at the close of each calendar year that may in any manner accrue. Notwithstanding any other provisions in the Constitution, such funds shall be invested as the Legislature may by statute provide."

CVII-9. "The following funds shall be exclusively used for the support and maintenance of the common schools in each school district in the state as the Legislature shall provide:

a. (1) Income arising from the perpetual funds;

b. (2) The income from the unsold school lands, except that (a) costs of administration shall be deducted from the income before it is so applied and (b) five percent of the annual income from school lands shall be credited to the permanent school fund;

e. (3) All other grants, gifts, and devises that have been or may hereafter be made to the state which are not otherwise appropriated by the terms of the grant, gift, or devise; and

Sec. 3. That the proposed amendment, if adopted, shall be in force and take effect immediately upon the completion of the canvass of the votes, at which time it shall be the duty of the Governor to proclaim it as a part of the Constitution of Nebraska.

Referred to the Reference Committee.

LEGISLATIVE RESOLUTION 245. Introduced by Hefner, 19th District.

WHEREAS, the United States flag belongs to all Americans and ought not be desecrated by any one individual, even under principles of free expression, just as the Declaration of Independence, the Statue of Liberty, the Lincoln Memorial, Yellowstone National Park, or any

other common inheritance that the people of this land hold dear ought not to be desecrated; and

WHEREAS, the United States Supreme Court, in contravention of this postulate, has by a narrow decision held the license to destroy in protest this cherished symbol of our national heritage to be a First Amendment freedom; and

WHEREAS, whatever legal arguments may be offered to support this holding, the incineration or other mutilation of the flag of the United States of America is repugnant to all those who have saluted it, paraded beneath it on the Fourth of July, been saluted by its half-mast configuration, or raised it inspirationally in remote corners of the globe where they have defended the ideals of which it is representative; and

WHEREAS, the members of the Legislature, while respectful of dissenting political views, themselves dissent forcefully from the court decision, which dissent echoes the beliefs of all patriotic Americans that this flag is our flag and not private property subject to a private prerogative to maim or despoil in the passion of individual protest; and

WHEREAS, the Legislature concurs with the court minority that the Stars and Stripes is deserving of a unique sanctity, free to wave in perpetuity over the spacious skies where our bald eagles fly, the fruited plain above which our mountain majesties soar, and the venerable heights to which our melting pot of peoples and their posterity aspire.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature hereby petitions the Congress of the United States to propose to the states an amendment to the Constitution of the United States, protecting the American flag and fifty state flags from willful desecration and exempting such desecration from judicial construction as a First Amendment right.

2. That official copies of this resolution be prepared and forwarded to the Speaker of the House of Representatives and President of the Senate of the Congress of the United States and to all members of the Nebraska delegation to the Congress of the United States, with the request that it be officially entered in the Congressional Record as a memorial to the Congress of the United States.

3. That a copy of the resolution be prepared and forwarded also to President George Bush, asking that he lend his support to the proposal and adoption of a flag-protection constitutional amendment.

Referred to the Reference Committee.

ATTORNEY GENERAL'S OPINIONOpinion 90002

DATE: January 18, 1990

SUBJECT: The Constitutionality of LB 272A (which would appropriate funds to reimburse depositors of insolvent Nebraska industrial loan and investment companies)

REQUESTED BY: Senator David M. Landis
District No. 46

WRITTEN BY: Robert M. Spire
Attorney General

You ask if LB 272A is constitutional when it appropriates funds to reimburse depositors of State Securities Company, American Savings Company and Commonwealth Savings Company. In my judgment LB 272A is constitutional as to these depositors.

On May 18, 1989, I issued Opinion #89051 on the constitutionality of LB 356. I concluded that LB 356 was constitutional. For reference I attach a copy of this Opinion #89051.

LB 272A is substantially the same as LB 356. The modifications of LB 356 which are reflected in LB 272A do not alter my conclusions with regard to this depositors reimbursement legislation. I conclude that both LB 356 (as described in my May 18, 1989 Opinion #89051) and LB 272A are constitutional.

My reasoning with regard to the constitutionality of LB 272A is the same as my reasoning with regard to LB 356. In short, LB 272A is constitutional for these reasons:

- (1) LB 272A represents an appropriation of funds to reimburse depositors of insolvent institutions for an appropriate public purpose as described in LB 272A. This appropriate public purpose is specifically identified in LB 272A in this manner:
 - (a) LB 272A summarizes the history of (a) insolvency of these failed industrial loan and investment companies, (b) the Nebraska Depository Institution Guaranty Corporation (NDIGC) and (c) the enactment of Neb.Rev.Stat. §21-17,144 (which required depository institutions to advertise the NDIGC protection of depositor accounts). LB 272A then makes a legislative finding and declaration that the history it summarizes has "seriously impaired the confidence of the people of this state in the Legislature and in the enactments of the Legislature such as §21-17,144."

- (b) In addition, there are the further legislative declarations that "the confidence of the people of this state in its financial institutions has been seriously impaired, the welfare and stability of this state and its financial institutions require that the people have confidence in the Legislature and in the financial institutions that are organized pursuant to the enactments of the Legislature, and the redemption of the guaranty to depositors by the Nebraska Depository Institution Guaranty Corporation will serve a necessary public purpose and will effect a sound and necessary public policy."
- (2) The declaration of public purpose in LB 272A is abundantly clear. LB 272A states without ambiguity that the circumstances surrounding these failed institutions present a unique and deeply disturbing situation which urgently calls for a legislative remedy. As cogently stated in LB 272A, the very integrity and credibility of actions by the State are involved. Restoring this credibility requires at a minimum the action of the Legislature provided for in LB 272A. The circumstances the Legislature describes are not normal or customary. They are unique and thus call for unique responses. The unique legislative response in LB 272A, based upon a clearly described statement of public purpose, would not, in my opinion, be second-guessed by the courts.
- (3) I conclude that the courts would (a) examine the history and circumstances surrounding these failed institutions, (b) consider thoughtfully the public purpose set forth in LB 272A, and (c) determine that the LB 272A public purpose is an appropriate legislative response on behalf of the State of Nebraska to the circumstances surrounding these failed institutions. I believe the courts would agree with the Legislature that there can be no more important public purpose than public confidence in government. And public confidence in government is directly involved here.

Through LB 272A the Nebraska Legislature is making a good faith effort to address a situation which has seriously eroded confidence in State government. In LB 272A the Legislature clearly describes the circumstances and public purpose it is addressing based upon those circumstances. In my judgment, the courts would uphold the action of the Legislature here as the fulfillment of an appropriate public purpose as identified and described by the elected representatives of the citizens of Nebraska.

Very truly yours,

(Signed) ROBERT M. SPIRE
Attorney General

The Chair sustained the division of the question.

Messrs. Hefner, R. Johnson, Beyer, and Byars asked unanimous consent to be excused until they return. No objections. So ordered.

The first Kristensen amendment is as follows:

FA332

- 1 1. Insert the following new sections:
- 2 "Sec. 12. That section 13-907, Reissue
- 3 Revised Statutes of Nebraska, 1943, be amended to read
- 4 as follows:
- 5 13-907. Jurisdiction, venue, procedure, and
- 6 rights of appeal in all suits brought under the
- 7 Political Subdivisions Tort Claims Act sections 13-901
- 8 to 13-926, 16-727, 16-728, 23-175, 39-809, and 79-489
- 9 shall be determined in the same manner as if the suits
- 10 involved private individuals, except that such suits
- 11 shall be heard and determined by the appropriate court
- 12 without a jury if only public entities are defendants.
- 13 Sec. 13. At any time after commencement of an
- 14 action subject to sections 1 to 10 of this act, a
- 15 defendant, as a third-party plaintiff, may cause a

16 summons to be served upon a person not a party to the
17 action who is or may be liable for all or part of the
18 claimant's claim. The third-party plaintiff shall
19 obtain leave of the court on motion upon notice to all
20 parties to the action before filing a third-party
21 complaint. When authorized by the court, the person
1 served with the summons, referred to as the third-party
2 defendant, shall have all the rights of a defendant,
3 including the rights authorized by this section. The
4 third-party defendant may assert against the claimant
5 any defenses which the third-party plaintiff has to the
6 claimant's claim. The third-party defendant may also
7 assert any claim against the claimant arising out of the
8 transaction or occurrence that is the subject matter of
9 the claimant's claim against the third-party plaintiff.
10 The claimant may assert any claim against the
11 third-party defendant arising out of the transaction or
12 occurrence that is the subject matter of the claimant's
13 claim against the third-party plaintiff. The
14 third-party defendant shall have all the rights of a
15 defendant, including the rights authorized by this
16 section. The court on its own motion, or motion of any
17 party, may strike the third-party claim or require its
18 severance or a separate trial if the third-party claim
19 might delay the trial, might tend to confuse a jury, or
20 might in any way jeopardize the rights of the claimant.
21 A third-party defendant or subsequent defendants may
22 proceed under this section.

23 Sec. 14. That section 25-702, Reissue Revised
24 Statutes of Nebraska, 1943, be amended to read as

ATTORNEY GENERAL'S OPINION

Opinion No. 90003

DATE: January 18, 1990

SUBJECT: Constitutionality of Homestead Exemption
 Legislation

REQUESTED BY: Senator W. Owen Elmer
 Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
 L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to the constitutionality of legislation providing exemptions from property taxation to residential real property. Your request simply states there are "several pieces of legislation dealing with this subject" We assume your request refers to legislation granting a homestead exemption. In the absence of a more specific request, we can only provide you with some general advice regarding the subject of your question.

Article VIII, Section 2, of the Nebraska Constitution, provides, in part:

. . . No property shall be exempt from taxation except as provided in the Constitution. The Legislature may by general law provide that a portion of the value of any residence actually occupied as a homestead by any classification of owners as determined by the Legislature shall be exempt from taxation.

Prior to 1983, the Legislature, pursuant to this constitutional authority, provided a general homestead exemption based on the exemption of a percentage of the value of homestead property in the state. Neb.Rev.Stat. §77-3506 (Cum.Supp. 1980) (repealed Laws 1983, LB 396). Last year, the Legislature enacted a general homestead provision for the 1989 tax year. 1989 Neb. Laws, LB 84, §§7-15 (codified at Neb.Rev.Stat. §§77-3501 and 77-3509.03 to 77-3529 (Supp. 1989)). Thus, there is no constitutional impediment to the enactment of legislation providing for the exemption of a portion of the value of any property actually occupied as a homestead, consistent with the specific terms of Article VIII, Section 2. As we have noted in prior opinions, the principal concern to be considered by the Legislature in acting pursuant to this constitutional authority relates to assurance that any such legislation would base exemption on the "value" of homestead property, and would satisfy the constitutional requirement that any exemption provided be "by any classification of owners as determined by the Legislature. . . ." Report of Attorney General 1979-1980, Opinion No. 223, Feb. 8, 1980, p. 317 Report of Attorney General 1973-1974, Opinion No. 62, May 31, 1973, p. 83.

In conclusion, it is our opinion that, assuming any legislation you may propose establishing a homestead exemption satisfies the criteria outlined above, the requirement of uniformity of taxation under Article VIII, Section 1, would not be violated by the enactment of such legislation.

Very truly yours,
ROBERT M. SPIRE
Attorney General

UNANIMOUS CONSENT - Print in Journal

Mr. Baack asked unanimous consent to print the following amendment to LB 240 in the Journal. No objections. So ordered.

AM2173

(Amendments to Final Reading copy)

- 1 1. Insert the following new sections:
- 2 "Sec. 7. The Legislature finds that 911
- 3 emergency telephone communications systems further the
- 4 public interest and protect the health, safety, and
- 5 welfare of the people of Nebraska. The purpose of
- 6 sections 7 to 15 of this act is to fund the development,
- 7 installation, and operation of 911 emergency telephone
- 8 communications systems throughout the state.
- 9 Sec. 8. For purposes of sections 7 to 15 of
- 10 this act:
- 11 (1) Governing body shall mean the board of
- 12 county commissioners or supervisors of a county, the
- 13 city council of a city, the board of trustees of a
- 14 village, or the board of directors of any rural or
- 15 suburban fire protection district;

16 (2) Local exchange access line shall mean any
17 telephone line that has the ability to access local dial
18 tone and reach local public safety agencies;

19 (3) 911 service shall mean a telephone service
20 which provides a service user with the ability to reach
1 a public safety answering point by dialing the digits
2 911 for the purpose of reporting emergencies. The level
3 of technology to be used for the provision of 911
4 service in a particular 911 service area shall be
5 determined by the governing bodies having jurisdiction
6 over such area;

7 (4) 911 service area shall mean the portion of
8 a governing body's jurisdiction in which 911 service is
9 provided;

10 (5) Public safety agency shall mean an agency
11 which actually provides firefighting, law enforcement,
12 ambulance, emergency medical, or other emergency
13 services;

14 (6) Public safety answering point shall mean a
15 twenty-four-hour, local-jurisdiction communications
16 facility which receives 911 service calls and either
17 directly dispatches emergency services or relays calls
18 to the appropriate public safety agency;

19 (7) Service supplier shall mean any person
20 providing 911 service in this state;

21 (8) Service surcharge shall mean a charge set
22 by a governing body and assessed on each local exchange
23 access line which physically terminates within the
24 governing body's designated 911 service area; and

1 (9) Service user shall mean any person who is
2 provided local exchange access line service in this
3 state.

4 Sec. 9. (1) A governing body may incur any
5 nonrecurring or recurring charges for the installation,
6 maintenance, and operation of 911 service and shall pay
7 such costs out of general funds which may be
8 supplemented by funds from the imposition of a service
9 surcharge. A governing body incurring costs for 911
10 service may impose a uniform service surcharge in an
11 amount not to exceed fifty cents per month on each local
12 exchange access line physically terminating in the
13 governing body's 911 service area. The initial service
14 surcharge may be imposed at any time subsequent to the
15 execution of an agreement for 911 service with a service

16 supplier.

17 (2) If 911 service is to be provided for a
18 territory which is included in whole or in part in the
19 jurisdiction of two or more governing bodies, the
20 agreement for such service shall be entered into by each
21 such governing body unless any such governing body
22 expressly excludes itself from the agreement. Such an
23 agreement shall provide that each governing body which
24 is a customer of 911 service will pay for its portion of
1 the service. Nothing in this subsection shall be
2 construed to prevent two or more governing bodies from
3 entering into a contract which establishes a separate
4 legal entity for the purpose of entering into such an
5 agreement as the customer of the service supplier or any
6 supplier of equipment for 911 service.

7 Sec. 10. A service user shall pay service
8 surcharges in each 911 service area where the service
9 user has local exchange access line service and receives
10 911 service, except that an individual service user
11 shall not be required to pay on a single periodic
12 billing service surcharges on more than one hundred
13 local exchange access lines, or their equivalent, in any
14 single 911 service area. Every service user shall be
15 liable for any service surcharge billed to such user
16 until the surcharge has been paid to the service
17 supplier.

18 The duty of a service supplier to bill a
19 service surcharge to a service user shall commence at
20 such time as may be specified by the governing body.
21 Service surcharges imposed by a governing body shall be
22 stated separately in the service supplier's billings to
23 the service user. A service surcharge shall be
24 collected as far as practicable at the same time as and
1 along with the charges for local exchange access lines
2 in accordance with the regular billing practice of the
3 service supplier.

4 A service supplier shall have no obligation to
5 take any legal action to enforce the collection of any
6 service surcharge imposed pursuant to section 9 of this
7 act. Such action may be brought by or on behalf of the
8 governing body imposing the charge or the separate legal
9 entity formed pursuant to such section. A service
10 supplier shall annually provide the governing body a
11 list of the amounts uncollected along with the names and

12 addresses of those service users who carry a balance
13 that can be determined by the service supplier to be for
14 nonpayment of any service surcharge. The service
15 supplier shall not be liable for such uncollected
16 amounts.

17 Sec. 11. (1) The amount of service surcharges
18 collected in one calendar quarter by a service supplier,
19 less the amount authorized to be retained by the service
20 supplier under subsection (2) of this section, shall be
21 remitted to the governing body no later than sixty days
22 after the close of that calendar quarter. At the time
23 of the remittance, the service supplier shall file a
24 return for the remittance with the governing body in
1 such form as the governing body and the service supplier
2 agree upon. The service supplier shall maintain a
3 record of the amount of service surcharges collected.
4 The record shall be maintained for a period of one year
5 after the date the amount was billed. A governing body
6 may at its own expense require an annual audit of a
7 service supplier's books and records concerning the
8 collection and remittance of a service surcharge.

9 (2) From every remittance to a governing body,
10 a service supplier shall be entitled to deduct and
11 retain two percent of the collected amount as
12 reimbursement for the cost of collecting the surcharge.

13 Sec. 12. Each calendar year, the governing
14 body shall establish the rate of the service surcharge,
15 not to exceed the amount authorized by section 9 of this
16 act. that together with any surplus revenue carried
17 forward will produce sufficient revenue to fund the
18 expenditures described in section 7 of this act.
19 Amounts collected in excess of such necessary
20 expenditures within a given year shall be carried
21 forward to the next year. A governing body shall make
22 its determination of the rate no later than September 1
23 of each year and, if it is a new rate, shall fix the new
24 rate to take effect commencing with the first billing
1 period of each service user on or following the next
2 January 1. The governing body shall notify by certified
3 or registered mail every service supplier of any change
4 in the rate at least ninety days before the new rate
5 becomes effective.

6 Sec. 13. Funds collected by a governing body
7 from the imposition of a service surcharge shall be

8 credited to a separate fund apart from the general
9 revenue of the governing body and shall be used solely
10 to pay for costs for 911 service. Any money remaining
11 in the fund at the end of any fiscal year shall remain
12 in the fund for payments during any succeeding year,
13 except that if 911 service is discontinued, money
14 remaining in the fund after payment of all costs related
15 to 911 service have been made shall be transferred to
16 the general fund of the public safety agency or
17 proportionately to the general fund of each
18 participating public safety agency.

19 Sec. 14. Any governing body authorized to
20 impose a service surcharge may enter into an agreement
21 directly with a service supplier of 911 service or may
22 contract and cooperate with any public safety agency,
23 with other states or their political subdivisions, or
24 with any association or corporation for the
1 administration of 911 service as provided by law.

2 Sec. 15. The 911 service described in
3 sections 7 to 15 of this act are within the governmental
4 powers and authorities of a governing body or public
5 safety agency. In contracting for such service and in
6 the providing such service, except for willful or wanton
7 negligence or intentional acts, each governing body,

UNANIMOUS CONSENT - Print in Journal

Ms. Scofield asked unanimous consent to print the following amendment to LB 769 in the Journal. No objections. So ordered.

AM2111

- 1 1. Insert the following new section:
- 2 "Sec. 8. In accordance with the family policy
- 3 objectives prescribed in sections 43-532 to 43-534,
- 4 specifically the objectives emphasizing prevention and
- 5 early intervention in the lives of at-risk children, the
- 6 Legislature finds that it is in the best interests of
- 7 the state and of children to prevent teen pregnancy and
- 8 to promote the positive development of children at risk
- 9 of becoming pregnant. The Legislature further finds
- 10 that the strongest foundation and motivation for
- 11 positive development and for refusing to engage in
- 12 risk-taking behaviors that result in adolescent
- 13 pregnancy, drug and alcohol abuse, school failure, and
- 14 teen suicide are the development at an early age of a

15 strong sense of well-being and self-esteem,
16 decision-making and goal-setting skills, leadership
17 skills, an understanding of peer pressure, and
18 meaningful personal relationships with others, including
19 the child's parents, teachers, and peers and the
20 community. The Legislature recognizes that schools, in
21 conjunction with parents and other community
1 organizations, are essential providers of the
2 information and motivation young people need to develop
3 the goals and skills which result in productive
4 citizens. The Legislature finds that the early
5 identification of behaviors that place a child at risk
6 and providing a comprehensive community network of
7 activities to address such at-risk behaviors before they
8 become serious is in the best interests of the child.
9 In furtherance of the Legislature's belief that parents
10 should be informed about their child's at-risk
11 behaviors, the schools shall work with parents whenever
12 possible to identify and communicate behaviors and
13 conditions that place the child at risk.

14 In keeping with the findings prescribed in
15 this section, there is hereby appropriated (1) \$500,000
16 from the General Fund for FY1990-91 and (2) \$500,000
17 from the General Fund for FY1991-92, to the State
18 Department of Education, for the purpose of providing
19 support to school districts for the development of
20 programs, services, or activities for children
21 demonstrating at-risk behaviors. Such activities may
22 include, but shall not be limited to:

23 (a) Early identification, prevention, and
24 intervention programs, services, or activities to build
1 self-esteem, assist children in the development of
2 work-related skills and career planning, assist children
3 in the development of goal-setting, decision-making,
4 leadership, and management skills, assist children in
5 the development of positive personal relationships with
6 their parents, teachers, and peers, and assist children
7 in becoming an integral part of the community; and

8 (b) Intervention programs, services, or
9 activities intended to assist teen mothers and teen
10 fathers in the development of skills needed to handle
11 the pressures of parenthood and to build a strong,
12 caring relationship with the child, completing their
13 education, the development of work-related skills and

14 career planning, the development of financial planning
15 and management skills, the identification of abusive
16 behaviors, such as child abuse, sexual abuse, and drug
17 and alcohol abuse, and the development of skills to
18 address those behaviors, and becoming an integral part
19 of the community.

20 In carrying out the intent of this section,
21 schools shall work with parents and with other
22 community-based agencies or organizations in the
23 development of programs, services, or activities to
24 address the needs of children demonstrating at-risk
1 behaviors.”.

2 2. In the Lindsay amendment, FA215, on page
3 1, line 3, after the first “of” insert “sections 1 to 6

AM2218

1 1. Strike the original sections and all
2 amendments thereto and insert the following new
3 sections:

4 "Section 1. This act shall be known and may
5 be cited as the Illegal Drug Tax Act.

6 Sec. 2. (1) It is hereby declared to be a
7 taxable activity for anyone to engage in the unlawful
8 sale, use, consumption, distribution, manufacture,
9 derivation, production, transportation, storage, or
10 possession of any controlled substances in this state.
11 A tax is hereby imposed upon such activity for each
12 taxable transaction or incident, including each
13 occasional or isolated unlawful sale, use, consumption,
14 distribution, manufacture, derivation, production,
15 transportation, storage, or possession, at the rate of
16 fifty percent of the estimated retail value of the
17 controlled substances.

18 (2) A penalty of twenty-five percent of the
19 estimated retail value of the controlled substances is
20 hereby imposed on each taxable transaction or incident,
21 if, at the time of the occurrence of the transaction or
1 incident the tax imposed in subsection (1) of this
2 section has not been paid.

3 (3) The tax shall be collected from any
4 individual engaged in the unlawful sale, use,
5 consumption, distribution, manufacture, derivation,

6 production, transportation, storage, or possession of
7 any controlled substance in this state.

8 (4) The tax shall not be imposed on any
9 federal, state, or local government officer or employee,
10 or his or her agent, acting in an official capacity or
11 any other person registered or otherwise lawfully in
12 possession of a controlled substance pursuant to the
13 Uniform Controlled Substances Act.

14 (5) For purposes of the Illegal Drug Tax Act,
15 controlled substance shall mean any controlled substance
16 defined in sections 28-401 and 28-405.

17 Sec. 3. The retail value of the controlled
18 substance shall be the actual retail sales price, if
19 known, or the estimated retail value of the controlled
20 substance as determined by the Nebraska State Patrol.
21 Such determination shall be presumed to be the actual
22 retail value of such drugs for all purposes of the
23 Illegal Drug Tax Act.

24 Sec. 4. (1) Upon being notified by law
1 enforcement officials of any transactions involving a
2 controlled substance or any individual possessing such
3 controlled substance who has not previously paid the tax
4 on such substance the Tax Commissioner shall immediately

19 determination or any assessment made under the act.

20 (4) The jeopardy notice of deficiency
21 determination shall immediately constitute a lien as
22 defined in the Uniform State Tax Lien Registration and
23 Enforcement Act in favor of the State of Nebraska on all
24 property and rights to property, whether real or
1 personal, belonging to such individual against whom the

2 deficiency was determined.

3 (5) The Tax Commissioner or any person
4 designated by him or her shall immediately begin
5 collection efforts notwithstanding any right to petition
6 for redetermination of the tax.

7 (6) If any deficiency determined under the
8 Illegal Drug Tax Act is not paid upon receipt of the
9 notice, the deficiency shall accrue interest at the rate
10 specified in section 45-104.01, as such rate from time

13 determination until the date such deficiency is paid.

14 Sec. 5. (1) Any individual who received a
15 jeopardy notice of deficiency determination of the tax
16 due under the Illegal Drug Tax Act may petition for

10 Act.

11 (6) The determination of deficiency shall
12 become final and the amount shall be deemed to be
13 assessed on the date provided in subsection (2) of this
14 section if the individual fails to file the petition for
15 redetermination and the appropriate security within the
16 ten-day time period.

17 (7) When a petition for redetermination and
18 the appropriate security is filed within the ten-day
19 time period, the amount of the deficiency shall be
20 deemed to be assessed upon the date the determination of
21 the Tax Commissioner becomes final.

22 (8) The tax imposed under the Illegal Drug Tax
23 Act may be paid voluntarily at any time prior to the
24 issuance of a jeopardy notice of deficiency
1 determination under section 5 of this act. The Tax
2 Commissioner shall establish procedures for such
3 voluntary payment. All information related to such
4 voluntary payment shall be confidential and shall not be
5 used in any criminal proceeding.

6 Sec. 6. (1) All jeopardy notices of
7 deficiency determination, all information provided to
8 the Department of Revenue by law enforcement officers,

20 act, and collection agencies for the purpose of
21 collecting delinquent taxes due from a taxpayer not
22 residing or domiciled in this state.

23 Sec. 7. (1) The Tax Commissioner may delegate
24 to any law enforcement official of this state, including
1 county attorneys, the authorization to make the jeopardy
2 determination of deficiency and to issue the appropriate
3 notice.

4 (2) The Tax Commissioner or any person
5 authorized by him or her may transmit any documents
6 required by the Illegal Drug Tax Act by facsimile. The
7 documents received in such a manner shall be considered
8 for all purposes of the act as if they were the signed
9 originals of the documents.

10 Sec. 8. (1) If the Tax Commissioner
11 determines that any tax imposed under the Illegal Drug
12 Tax Act has been paid more than once or has been
13 erroneously or illegally collected or computed, the Tax
14 Commissioner shall set forth that fact in his or her
15 records, and the amount collected may be refunded to the
16 person by whom it was paid or his or her successors,
17 administrators, or executors.

18 (2) No refund shall be allowed unless the tax
19 was voluntarily paid under subsection (8) of section 6
20 of this act or a petition for redetermination as set out
21 in section 6 of this act has been timely filed
22 protesting the jeopardy notice of deficiency
23 determination. Failure to timely file the petition for
24 redetermination shall constitute a waiver of any demand
1 against this state, and no suit or proceeding shall be
2 maintained in any court for the recovery of any amount
3 alleged to have been erroneously or illegally determined
4 or collected or on account of any overpayment pursuant
5 to the act.

13 the posting of other security for the payment of the
14 tax.

ATTORNEY GENERAL'S OPINION

Opinion No. 90004

DATE: January 23, 1990

SUBJECT: State Ownership of Low-Level Radioactive Waste

REQUESTED BY: Senator Douglas A. Kristensen
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Linda L. Willard, Assistant Attorney General

You have inquired regarding the constitutionality of a proposed legislative bill which would mandate that radioactive material accepted for disposal at a low-level radioactive waste disposal facility shall not become the property of the State. We find no constitutional infirmity with such a provision. However, you should be aware that current regulations of the Nuclear Regulatory Commission do provide for state ownership at the time of facility closure.

Sincerely,
ROBERT M. SPIRE
Attorney General

NOTICE OF COMMITTEE HEARING
Judiciary

LB 1147 Thursday, February 1, 1990

(Signed) Jerry Chizek, Chairperson

BILL ON FIRST READING

The following bill was read for the first time by title:

LEGISLATIVE BILL 994A. Introduced by Schellpeper, 18th District.

A BILL FOR AN ACT relating to appropriations; to appropriate funds to aid in carrying out the provisions of Legislative Bill 994, Ninety-first Legislature, Second Session, 1990.

UNANIMOUS CONSENT - Print in Journal

Mr. Baack asked unanimous consent to print the following amendment to LB 143 in the Journal. No objections. So ordered.

AM2255

1 1. Insert the following new sections:

2 "Section 1. It is the intent of the
3 Legislature, in an effort to promote quality
4 postsecondary education and to avoid disproportionate
5 taxation on the taxable property of each technical
6 community college area, to use the Technical Community
7 College Equalization Fund created in section 2 of this
8 act to provide quality programming at each technical
9 community college and to reduce the local property tax
10 levy on property within each technical community college
11 area. The Legislature recognizes that education as an
12 investment in human resources is fundamental to the
13 quality of life and economic development of Nebraskans.
14 The Legislature further recognizes that technical
15 community college education faces ever growing
16 challenges in an era of accelerated change,
17 sophisticated information systems, high technology, and
18 global markets. It is the intent of the Legislature to
19 join with local governing bodies in a strong and ongoing
20 partnership to further advance the quality,
21 responsiveness, access, and equity of Nebraska's
1 technical community colleges and to foster high
2 standards of performance and service so that every
3 citizen, business, and industry has the opportunity to
4 receive quality educational programs and services
5 regardless of the size, wealth, or geographic location
6 of the technical community college area in which a
7 citizen, business, or industry is located.

8 Sec. 2. There is hereby created the Technical
9 Community College Equalization Fund. Forty percent of
10 all new funds appropriated by the Legislature for state
11 aid to technical community colleges for distribution
12 pursuant to section 79-2651 in excess of the
13 appropriation for such purpose in FY1990-91 shall be
14 deposited in the fund for FY1991-92 and each fiscal year
15 thereafter to a maximum of one million dollars. The
16 fund shall be used to aid technical community colleges
17 as prescribed in sections 1 to 4 of this act. Any money
18 in the fund available for investment shall be invested
19 by the state investment officer pursuant to sections
20 72-1237 to 72-1276.

21 Sec. 3. (1) For FY1991-92 and each fiscal

22 year thereafter, each technical community college area
23 shall submit to the Department of Administrative
24 Services on or before August 20 the following:

1 (a) A three-year average of the reimbursable
2 educational unit total based on the audited reimbursable
3 educational unit totals reported by the area for the
4 purposes of state aid for the immediately preceding
5 three years;

6 (b) A three-year average of unrestricted
7 program classification system costs for educational and
8 general expenditures per reimbursable educational unit
9 based on the audited reimbursable educational unit
10 totals reported by the area for the purposes of state
11 aid and audited financial statements for the immediately
12 preceding three years. The three-year average shall be
13 calculated using the budgeted costs identified in the
14 final budget of the area board for the immediately
15 preceding fiscal year and audited costs identified in
16 the area financial audits for the second and third
17 preceding fiscal years: and

18 (c) A three-year average property tax levy for
19 operations based on the certified tax levies for the
20 immediately preceding three years.

21 (2) For FY1991-92 and each fiscal year
22 thereafter, the department shall use the appropriate
23 area reimbursable educational unit audits, financial
24 audits, and certified tax levies to verify the data
1 received pursuant to subsection (1) of this section and,
2 based on such data, shall calculate:

3 (a) The three-year average reimbursable
4 educational unit total of the technical community
5 college system;

6 (b) The three-year average program
7 classification cost per reimbursable educational unit of
8 the technical community college system;

9 (c) The three-year average property tax levy
10 for operations of the technical community college
11 system: and

12 (d) The standard deviation, calculated for a
13 population, of each technical community college area's
14 three-year average property tax levy for operations from
15 the system's three-year average tax levy for operations
16 calculated in subdivision (c) of this subsection.

17 Sec. 4. (1) To be eligible for aid from the

18 Technical Community College Equalization Fund, a
 19 technical community college area's three-year average
 20 property tax levy for operations reported pursuant to
 21 subdivision (1)(c) of section 3 of this act shall exceed
 22 the three-year average property tax levy for operations
 23 of the technical community college system calculated
 24 pursuant to subdivision (2)(c) of section 3 of this act.

1 (2) For each technical community college area
 2 eligible for aid, the Department of Administrative
 3 Services shall determine the number of standard
 4 deviations by which the eligible area's three-year
 5 average property tax levy exceeds the technical
 6 community college system's tax levy.

7 (3) Based on the number of standard deviations
 8 determined in subsection (2) of this section, each
 9 eligible technical community college area shall receive
 10 as equalization aid a percentage of average costs
 11 determined by multiplying the average program
 12 classification cost per reimbursable educational unit of
 13 the technical community college system calculated
 14 pursuant to subdivision (2)(b) of section 3 of this act
 15 by the eligible technical community college area's
 16 average reimbursable educational unit totals reported
 17 pursuant to subdivision (1)(a) of section 3 of this act
 18 and subtracting the product from the amount of state aid
 19 such eligible area received for the immediately
 20 preceding fiscal year. If an eligible technical
 21 community college area's state aid exceeds the amount
 22 calculated pursuant to this section, such area shall not
 23 receive equalization aid and shall not have its state
 24 aid reduced.

1 (4) The percentage of average costs prescribed
 2 in subsection (3) of this section for each technical
 3 community college area shall be determined by the
 4 following table.

| <u>Standard</u> | <u>Percentage of</u> |
|------------------------|----------------------|
| <u>Deviation</u> | <u>Average Costs</u> |
| <u>0.00 to 0.49</u> | <u>45</u> |
| <u>0.50 to 0.99</u> | <u>55</u> |
| <u>1.00 to 1.49</u> | <u>65</u> |
| <u>1.50 to 1.99</u> | <u>75</u> |
| <u>2.00 or greater</u> | <u>85</u> |

MOTION - Suspend Rules

Mrs. Labeledz moved to suspend the rules, Rule 7, Section 3(d) to permit consideration of a motion to return LB 397 to Select File for the following specific amendment:

AM2271

(Amendments to Final Reading copy)

- 1 1. On page 1, line 1, strike beginning with
- 2 "athletics" through line 3 and insert "abortion; to
- 3 define terms: to prohibit the performance of abortions
- 4 to certain persons without notification as prescribed;
- 5 to provide notification requirements; to provide
- 6 exceptions to notification; to provide judicial
- 7 procedure: to provide a penalty; to limit liability; and
- 8 to provide severability."
- 9 2. Strike the original sections and all
- 10 amendments thereto and insert the following new
- 11 sections:
- 12 "Section 1. For purposes of this act:
- 13 (1) Abortion shall mean an act, procedure,
- 14 device, or prescription administered to a woman known by
- 15 the person so administering to be pregnant and
- 16 administered with the intent and result of producing the
- 17 premature expulsion, removal, or termination of the
- 18 human life within the womb of the pregnant woman, except
- 19 that in cases in which the unborn child's viability is
- 20 threatened by continuation of the pregnancy, early
- 1 delivery after viability shall not be construed as an
- 2 abortion;
- 3 (2) Parent shall mean the one parent or the
- 4 guardian of the pregnant woman;
- 5 (3) Physician or attending physician shall

6 mean the physician intending to perform the abortion;
7 and

8 (4) Pregnant woman shall mean an unemancipated
9 woman under nineteen years of age who is pregnant or a
10 pregnant woman for whom a guardian has been appointed
11 pursuant to sections 30-2620 or 30-2629 because of a
12 finding of incapacity, disability, or incompetency.

13 Sec. 2. No abortion shall be performed upon a
14 pregnant woman unless written notification of the
15 pending abortion has been delivered in the manner
16 prescribed in this section at least forty-eight hours
17 prior to the performance of the abortion.

18 The notification shall be addressed to the
19 parent at his or her residence and shall be delivered
20 personally to the parent by the physician or his or her
21 agent. or in lieu of personal delivery, the notification
22 shall be made by registered or certified mail, return
23 receipt requested, addressed to the parent at his or her
24 residence.

1 Sec. 3. (1) If a pregnant woman elects not to
2 notify her parent, a judge of a district court, separate
3 juvenile court, or county court sitting as a juvenile
4 court shall, upon petition or motion and after an
5 appropriate hearing, authorize a physician to perform
6 the abortion if the court determines that the pregnant
7 woman is mature and capable of giving informed consent
8 to the proposed abortion. If the court determines that
9 the pregnant woman is not mature or if the pregnant
10 woman does not claim to be mature, the court shall
11 determine whether the performance of an abortion upon
12 her without notification of her parent would be in her
13 best interests and shall authorize a physician to
14 perform the abortion without such notification if the
15 court concludes that the pregnant woman's best interests
16 would be served thereby.

17 (2) A pregnant woman who is subject to this
18 section may participate in the court proceedings on her
19 own behalf, and the court may appoint a guardian ad
20 litem for her. The court shall advise the pregnant
21 woman that she has a right to court-appointed counsel
22 and shall, upon her request, provide her with such
23 counsel.

24 (3) Proceedings in court pursuant to this
1 section shall be anonymous and confidential and shall be

2 given such precedence over other pending matters so that
3 the court may reach a decision promptly and without
4 delay to serve the best interests of the pregnant woman.
5 In no case shall the court fail to rule within three
6 judicial days from the time of the filing of the
7 petition or motion. The judge of the court conducting
8 the proceedings pursuant to this act shall make written
9 findings of fact and conclusions of law supporting the
10 evidence, including his or her own findings and
11 conclusions.

12 Sec. 4. An appeal to the Supreme Court shall
13 be available to any pregnant woman for whom a court
14 denies an order authorizing an abortion without
15 notification. An order authorizing an abortion without
16 notification shall not be subject to appeal. All
17 appeals under this act shall be to the Supreme Court,
18 and the pregnant woman shall have the right of an
19 anonymous and expedited appeal. The Supreme Court shall
20 give such appeal precedence over pending matters and
21 shall adopt and promulgate rules to ensure that the
22 proceeding under this section is handled in an anonymous
23 and expeditious manner.

24 Sec. 5. No filing fees shall be required of
1 any pregnant woman at either the trial or appellate
2 level for any proceedings pursuant to this act.

3 Sec. 6. Notification shall not be required
4 pursuant to this act if any of the following conditions
5 exist:

6 (1) The attending physician certifies in
7 writing the pregnant woman's medical record that the
8 abortion is necessary to prevent the woman's death and
9 there is insufficient time to provide the required
10 notification;

11 (2) The abortion is authorized in writing by
12 the person who is entitled to notification; or

13 (3) The pregnant woman declares that she is a
14 victim of sexual abuse, neglect, or physical abuse as
15 defined in section 28-318, 28-351, 28-367, or 28-710.
16 Notice of such a declaration shall be made to the proper
17 authorities as provided in sections 28-372 and 28-711.

18 Sec. 7. (1) Any physician or attending
19 physician who knowingly and intentionally performs an
20 abortion in violation of this act shall be guilty of a
21 Class III misdemeanor.

22 (2) Performance of an abortion in violation of
 23 this act shall be grounds for a civil action by a person
 24 wrongfully denied notification.

1 (3) A person shall be immune from liability
 2 under this act if he or she establishes by written
 3 evidence that he or she relied upon evidence sufficient
 4 to convince a careful and prudent person that the
 5 representations of the pregnant woman regarding
 6 information necessary to comply with this act are bona
 7 fide and true, or if the person has attempted with
 8 reasonable diligence to deliver notification, but has
 9 been unable to do so.

10 Sec. 8. If any section in this act or any
 11 part of any section shall be declared invalid or
 12 unconstitutional, such declaration shall not affect the
 13 validity or constitutionality of the remaining portions
 14 thereof.”.

RESOLUTION

LEGISLATIVE RESOLUTION 248. Introduced by Rogers, 41st District; Lamb, 43rd District.

WHEREAS, rural hospital closings and long distances between medical help are problems affecting many areas of Nebraska; and

WHEREAS, Emergency Medical Services (EMS) teams are often the only medical help available in rural Nebraska; and

WHEREAS, Marge Hardy of Seneca, Nebraska has been instrumental in establishing and maintaining an EMS team in the Seneca, Mullen, and Thedford areas of the Nebraska Sandhills; and

WHEREAS, Mrs. Hardy is nationally registered as an EMT (Emergency Medical Technician) and is the only teacher for EMT classes in the Sandhills area; and

WHEREAS, becoming an EMT requires a minimum of 81 hours of training for certification, plus 30 hours of continuing education over the next 2 1/2 years to remain certified; and

WHEREAS, the pool of potential volunteers for EMT training is steadily declining; and

WHEREAS, the volunteer hours as an EMT and as a EMT teacher require a great personal sacrifice on the part of Mrs. Hardy and her family.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature applauds and commends Marge Hardy for her selfless dedication to establishing and maintaining emergency medical services in the Seneca, Mullen, Thedford area.

Mr. Baack asked unanimous consent to print the following amendment to LB 240 in the Journal. No objections. So ordered.

AM2276

(Amendments to Final Reading copy)

- 1 1. Insert the following new sections:
 2 "Sec. 7. The Legislature finds that 911
 3 emergency telephone communications systems further the
 4 public interest and protect the health, safety, and
 5 welfare of the people of Nebraska. The purpose of
 6 sections 7 to 15 of this act is to fund the development,
 7 installation, and operation of 911 emergency telephone
 8 communications systems throughout the state.

9 Sec. 8. For purposes of sections 7 to 15 of
 10 this act:

11 (1) Governing body shall mean the board of
 12 county commissioners or supervisors of a county, the
 13 city council of a city, the board of trustees of a
 14 village, or the board of directors of any rural or
 15 suburban fire protection district;

16 (2) Local exchange access line shall mean any
 17 telephone line that has the ability to access local dial
 18 tone and reach local public safety agencies;

19 (3) 911 service shall mean a telephone service
 20 which provides a service user with the ability to reach
 1 a public safety answering point by dialing the digits
 2 911 for the purpose of reporting emergencies. The level
 3 of technology to be used for the provision of 911
 4 service in a particular 911 service area shall be

5 determined by the governing bodies having jurisdiction
6 over such area;

7 (4) 911 service area shall mean the portion of
8 a governing body's jurisdiction in which 911 service is
9 provided;

10 (5) Public safety agency shall mean an agency
11 which actually provides firefighting, law enforcement,
12 ambulance, emergency medical, or other emergency
13 services;

14 (6) Public safety answering point shall mean a
15 twenty-four-hour, local-jurisdiction communications
16 facility which receives 911 service calls and either
17 directly dispatches emergency services or relays calls
18 to the appropriate public safety agency;

19 (7) Service supplier shall mean any person
20 providing 911 service in this state;

21 (8) Service surcharge shall mean a charge set
22 by a governing body and assessed on each local exchange
23 access line which physically terminates within the
24 governing body's designated 911 service area; and

1 (9) Service user shall mean any person who is
2 provided local exchange access line service in this
3 state.

4 Sec. 9. (1) A governing body may incur any
5 nonrecurring or recurring charges for the installation,
6 maintenance, and operation of 911 service and shall pay
7 such costs out of general funds which may be
8 supplemented by funds from the imposition of a service
9 surcharge. A governing body incurring costs for 911
10 service may impose a uniform service surcharge in an
11 amount not to exceed fifty cents per month on each local
12 exchange access line physically terminating in the
13 governing body's 911 service area. The initial service
14 surcharge may be imposed at any time subsequent to the
15 execution of an agreement for 911 service with a service
16 supplier.

17 (2) If 911 service is to be provided for a
18 territory which is included in whole or in part in the
19 jurisdiction of two or more governing bodies, the
20 agreement for such service shall be entered into by each
21 such governing body unless any such governing body
22 expressly excludes itself from the agreement. Such an
23 agreement shall provide that each governing body which
24 is a customer of 911 service will pay for its portion of

1 the service. Nothing in this subsection shall be
2 construed to prevent two or more governing bodies from
3 entering into a contract which establishes a separate
4 legal entity for the purpose of entering into such an
5 agreement as the customer of the service supplier or any
6 supplier of equipment for 911 service.

7 Sec. 10. A service user shall pay service
8 surcharges in each 911 service area where the service
9 user has local exchange access line service and receives
10 911 service, except that an individual service user
11 shall not be required to pay on a single periodic
12 billing service surcharges on more than one hundred
13 local exchange access lines, or their equivalent, in any
14 single 911 service area. Every service user shall be
15 liable for any service surcharge billed to such user
16 until the surcharge has been paid to the service
17 supplier.

18 The duty of a service supplier to bill a
19 service surcharge to a service user shall commence at
20 such time as may be specified by the governing body.
21 Service surcharges imposed by a governing body shall be
22 stated separately in the service supplier's billings to
23 the service user. A service surcharge shall be
24 collected as far as practicable at the same time as and
1 along with the charges for local exchange access lines
2 in accordance with the regular billing practice of the
3 service supplier.

4 A service supplier shall have no obligation to
5 take any legal action to enforce the collection of any
6 service surcharge imposed pursuant to section 9 of this
7 act. Such action may be brought by or on behalf of the
8 governing body imposing the charge or the separate legal
9 entity formed pursuant to such section. A service
10 supplier shall annually provide the governing body a
11 list of the amounts uncollected along with the names and
12 addresses of those service users who carry a balance
13 that can be determined by the service supplier to be for
14 nonpayment of any service surcharge. The service
15 supplier shall not be liable for such uncollected
16 amounts.

17 Sec. 11. (1) The amount of service surcharges
18 collected in one calendar quarter by a service supplier,
19 less the amount authorized to be retained by the service
20 supplier under subsection (2) of this section, shall be

21 remitted to the governing body no later than sixty days
22 after the close of that calendar quarter. At the time
23 of the remittance, the service supplier shall file a
24 return for the remittance with the governing body in
1 such form as the governing body and the service supplier
2 agree upon. The service supplier shall maintain a
3 record of the amount of service surcharges collected.
4 The record shall be maintained for a period of one year
5 after the date the amount was billed. A governing body
6 may at its own expense require an annual audit of a
7 service supplier's books and records concerning the
8 collection and remittance of a service surcharge.

9 (2) From every remittance to a governing body,
10 a service supplier shall be entitled to deduct and
11 retain two percent of the collected amount as
12 reimbursement for the cost of collecting the surcharge.

13 Sec. 12. Each calendar year, the governing
14 body shall establish the rate of the service surcharge,
15 not to exceed the amount authorized by section 9 of this
16 act. that together with any surplus revenue carried
17 forward will produce sufficient revenue to fund the
18 expenditures described in section 7 of this act.
19 Amounts collected in excess of such necessary
20 expenditures within a given year shall be carried
21 forward to the next year. A governing body shall make
22 its determination of the rate no later than September 1
23 of each year and, if it is a new rate, shall fix the new
24 rate to take effect commencing with the first billing
1 period of each service user on or following the next
2 January 1. The governing body shall notify by certified
3 or registered mail every service supplier of any change
4 in the rate at least ninety days before the new rate
5 becomes effective.

6 Sec. 13. Funds collected by a governing body
7 from the imposition of a service surcharge shall be
8 credited to a separate fund apart from the general
9 revenue of the governing body and shall be used solely
10 to pay for costs for 911 service. Any money remaining
11 in the fund at the end of any fiscal year shall remain
12 in the fund for payments during any succeeding year,
13 except that if 911 service is discontinued, money
14 remaining in the fund after payment of all costs related
15 to 911 service have been made shall be transferred to
16 the general fund of the public safety agency or

17 proportionately to the general fund of each
18 participating public safety agency.

19 Sec. 14. Any governing body authorized to
20 impose a service surcharge may enter into an agreement
21 directly with a service supplier of 911 service or may
22 contract and cooperate with any public safety agency,
23 with other states or their political subdivisions, or
24 with any association or corporation for the
1 administration of 911 service as provided by law.

2 Sec. 15. The 911 service described in
3 sections 7 to 15 of this act is within the governmental
4 powers and authorities of a governing body or public
5 safety agency. In contracting for such service and in
6 providing such service, except for failure to use
7 reasonable care or for intentional acts, each governing
8 body, public safety agency, and service supplier and
9 their employees and agents shall be immune from
10 liability or the payment for any damages in the
11 performance of installing, maintaining, or providing 911
12 service.”.

13 2. On page 1, strike beginning with “persons”
14 in line 1 through “impairments” in line 2 and insert
15 “telephone services”; in line 3 strike “require a
16 surcharge” and insert “provide for surcharges”; and in
17 line 5 after “system” insert “for persons with hearing
18 or speech impairments” and after the second semicolon
19 insert “to provide for the funding of 911 emergency
20 telephone communications systems; to authorize certain
21 agreements; to provide immunity from liability;”.

22 3. On page 2, lines 1 and 7; and page 5,
23 lines 9 and 13, before “this” insert “sections 1 to 6
24 of”.

1 4. Renumber the remaining section
2 accordingly.

ATTORNEY GENERAL'S OPINIONOpinion 90005

DATE: January 26, 1990

SUBJECT: Release or assignment of lease agreement governing Strategic Air Command Museum.

REQUESTED BY: Senator D. Paul Harnett
Chairperson, Urban Affairs Committee

WRITTEN BY: Robert M. Spire, Attorney General
Fredrick F. Neid, Assistant Attorney General

This is in response to your questions concerning "releasing" the lease of the Strategic Air Command Museum property to a private foundation. Your questions are whether the Department of Economic Development has the legal authority to transfer the lease to another party and whether additional legislation would be required.

Currently, the museum property is leased to the State of Nebraska Department of Economic Development for a term of fifty years. The lessor is the United States Air Force.

Generally the control and disposition of state property is vested in officers, commissions, or boards who have the powers and duties prescribed by the constitution or by statute. The Department of Economic Development has requisite statutory authority to contract for and lease properties under its management under the provisions of Neb.Rev.Stat. § No. 81-1222.02 (Reissue 1987) which, in part, state:

(2) The Director of Economic Development may contract for and lease any property under the control and supervision of the Department of Economic Development to any person or organization if such lease is in the best interest of the State. All funds collected from such leases shall be deposited in the appropriate department fund and used for the purposes set forth for that fund.

Since the Department of Economic Development is permitted by statute to contract for and lease property under its management, additional legislation is not required for this purpose.

It is important to note that while the Department possesses statutory authority to contract for or to lease property, it is precluded from releasing or assigning the museum property by express terms of the lease. Paragraph 3 of the Lease Agreement provides that "the Lessee shall not pledge, assign, transfer, lease, subcontract, or part with the possession of the lease property, either directly or indirectly." This lease provision effectively prohibits transfer of the museum property by the state to another party.

Accordingly, it is our conclusion that the State has requisite statutory authority for the release of the property but is precluded by the lease terms from conveying its interest in the property to another party.

Sincerely,
ROBERT M. SPIRE
Attorney General

ANNOUNCEMENT

The Transportation Committee designates LB 980 as its priority bill.

RESOLUTION

LEGISLATIVE RESOLUTION 249. Introduced by Scofield, 49th District; Dierks, 40th District.

WHEREAS, confusion and ignorance about Nebraska geography, as illustrated by the misuse of the term outstate Nebraska to describe those areas beyond the city limits of Omaha and Lincoln, is rampant and appear to be on an upward trend; and

WHEREAS, the use of the term outstate Nebraska is offensive and incomprehensible to those citizens of Nebraska who actually live beyond the city limits of Omaha and Lincoln; and

WHEREAS, greater understanding and harmony among our citizens is in the best interest of all Nebraskans; and

WHEREAS, the efforts to find a term to substitute for outstate have produced nothing better than greater Nebraska (which implies some part of the state is lesser Nebraska); and

WHEREAS, all loyal Nebraskans have an obligation to know the geography of the state; and

WHEREAS, all members of the Legislature, state employees, and other representatives of the state who serve on boards or commissions or in other official capacities have a particular obligation to know the names and location of Nebraska's communities from Havelock to Harrison, from Benson to Benkleman, and from Auburn to Ainsworth.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the terms outstate Nebraska, greater Nebraska, and lesser Nebraska be permanently stricken from the vocabulary of Nebraska's citizens and that all citizens be encouraged to familiarize themselves with the geography and communities of the entire beautiful state of Nebraska so they may more precisely refer to all areas of the state in a manner that promotes statewide understanding.

2. That members of the Legislature, constitutional officers, state employees, and any other persons who represent the people of Nebraska in an official capacity lead the way in eliminating the imprecise, divisive terms of outstate Nebraska, greater Nebraska, and lesser Nebraska from the language of Cornhusker.

3. That after the adoption of this resolution any member of the Legislature, constitutional officer, state employee, or member of a board or commission should be put on notice that he or she may immediately, upon the utterance or writing of the terms outstate Nebraska, greater Nebraska, or lesser Nebraska, be fined fifty dollars in cash by any citizen of Nebraska, to be donated to that citizen's favorite charity.

Laid over.

PURPOSE: The purpose of this resolution is to study the salaries of teachers in Nebraska’s public school system. In 1989, the Legislature enacted Legislative Bill 89, the Help Education Lead to Prosperity Act, which demonstrated an intent to promote quality education through a highly qualified and well compensated teaching profession. Legislative Bill 89 provided for twenty million dollars in state assistance directed to school districts which made an effort to financially reward qualified and prepared teachers. Funding for Legislative Bill 89 is provided through 1991. This study shall assess the impact of Legislative Bill 89 on the compensation of the teaching profession in the State of Nebraska. In making such assessment the study shall include a comparison of the support other state governments provide their teachers in terms of salary, fringe benefits, retirement benefits, educational preparation, qualifications, and degrees and student to teacher ratios. The study shall address the affect of Legislative Bill 89 on Nebraska’s standing in the comparison. any issues arising regarding the implementation of the bill and the distribution of funds, the attraction and employment and

compensation of new teachers, and the establishment of a base salary. The study shall establish a profile of the teachers who have and have not benefitted from Legislative Bill 89 and shall include an analysis of the distribution formula's impact on the compensation of teachers throughout the state.

ATTORNEY GENERAL'S OPINION

Opinion No. 90006

DATE: February 6, 1990

SUBJECT: LB No. 869, Limitations on Asbestos Disposal

REQUESTED BY: Senator Glenn Goodrich,
 District 20
 Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
 Linda L. Willard, Assistant Attorney General

You have asked us to review the constitutionality of LB 869 as it relates to the United States Supreme Court case entitled City of Philadelphia v. New Jersey, 437 U.S. 617, 98 S.Ct. 2531, 57 L.Ed.2d 475 (1978). LB 869 would prohibit the disposal of any asbestos or waste containing asbestos from outside the state at any disposal site within this state. It is our determination after review that this legislative bill is probably unconstitutional based on the Supreme Court's reasoning in the above cited case.

In the City of Philadelphia case the Court was presented with a question of whether the State could prohibit the importation of most solid or liquid waste which originated or was collected outside the territorial limits of the State. The Court determined that the New Jersey law was in violation of the Commerce Clause of the United States Constitution. In reaching its decision, the Court cited two earlier cases which held “. . . a State may not accord its own inhabitants a preferred right of access over consumers in other States to natural resources located within its borders.” (Citations omitted) 437 U.S. at 627.

The Court noted that “What is crucial is the attempt by one State to isolate itself from a problem common to many by erecting a barrier against the movement of interstate trade.” Id. at 628. Finally, the Court explained the necessity of the Commerce Clause in stating “Today, cities in Pennsylvania and New York find it expedient or necessary to send their waste into New Jersey for disposal, and New Jersey claims the right to close its borders to such traffic. Tomorrow, cities in New Jersey may find it expedient or necessary to send their waste into Pennsylvania or New York for disposal, and those states might then claim the right to close their borders. The Commerce Clause will protect New Jersey in the future, just as it protects her neighbors now, from efforts by one State to isolate itself in the stream of interstate commerce from a problem shared by all.” Id. at 629

Based on the decision in City of Philadelphia v. New Jersey, supra, it is our determination that LB 869 would be in violation of the Commerce Clause of the Constitution of the United States of America.

Respectfully yours,

ROBERT M. SPIRE

Attorney General

Linda L. Willard

6 (2) At least one-half of the funds allocated
7 to each approved nursing program shall be made available
8 for nontraditional or ethnic minority students.
9 Selection of students to receive scholarships shall be
10 based on the following:

11 (a) Residency in and expression of an
12 intention and motivation to practice in a rural area,
13 which factor shall be given first priority; and

14 (b) Substantial financial need as defined in
15 section 85-990. Each recipient of a scholarship shall
16 agree to practice nursing in the State of Nebraska for
17 one year for each year a scholarship is received.

18 (3) Each approved nursing program shall
19 forward to the department the names of the students

24 (4) Scholarships shall be used only for
1 educational expenses. The use of nursing scholarship
2 incentive funds shall be subject to review by the

3 department.

4 (5) Each scholarship shall be for one academic
5 year. If the student discontinues attendance in the
6 nursing program before the end of the academic year
7 after receiving a scholarship:

8 (a) The student shall remit to the department
9 any scholarship received by the student but not due the
10 nursing program; and

11 (b) The student shall direct the nursing
12 program to remit to the department any prorated refunds

14 agreement, to the extent the refund represents the
15 unused portion of the scholarship.

16 Sec. 5. (1) The department shall administer a
17 rural nursing incentive program which shall provide a
18 financial incentive to encourage nurses to practice in
19 rural areas. Beginning January 1, 1991, a financial
20 incentive of one thousand dollars per year for up to two
21 years of nursing practice in a rural area shall be
22 provided to qualified nurses practicing in a rural area.
23 It is the intent of the Legislature that the incentive
24 be made available for sixty nurses per year.

1 (2) To be eligible to receive the incentive, a
2 nurse:

3 (a) Shall not have practiced nursing in a
4 rural area at his or her level of education or
5 credential in the State of Nebraska in the immediately
6 preceding five years, except that any nurse who has
7 newly entered into practice in a rural area within the
8 calendar year of his or her application for incentive

20 shall provide proof of such practice to the department.

21 Upon supplying the required proof, the nurse
22 shall receive the financial incentive payment in the

23 month of January following completion of such practice.

24 (3) In the event there are more eligible
 1 applicants than there are funds available, the
 2 department shall select applicants based on greatest
 3 need for nurses in a particular rural area as indicated
 4 by data developed by the department. The selection
 5 criteria may include:

6 (a) The age and health status of the
 7 population in the rural area;

8 (b) The number and size of nursing employers
 9 in the area;

10 (c) The population of the rural area, with
 11 preference given to areas with lesser population;

12 (d) The distance of the rural area from urban
 13 areas; and

14 (e) A demonstrated need for nurses in the

ATTORNEY GENERAL'S OPINIONOpinion No. 90007

DATE: February 14, 1990

SUBJECT: Constitutionality of LB 1115 - Amendment of the Definition of Real Property for Tax Purposes

REQUESTED BY: Senator W. Owen Elmer
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion on certain questions relating to the constitutionality of LB 1115. Generally, LB 1115 would alter the current property tax scheme by exempting all personal property other than motor vehicles from taxation, and by redefining the term "real property" in Neb.Rev.Stat. §77-103 (Reissue 1986) (amended, Laws 1989, 1st Special Session, LB 1).

Your first question is whether the proposed redefinition of the term "real property" in §77-103, contained in §24 of LB 1115, is constitutional. Section 24 provides, in pertinent part:

(1) Real property shall include both type A and type B real property.

(2) Type A real property shall mean all land, including land under water, and all mines, minerals in place, quarries, sand and gravel pits, mineral springs and wells, and oil and gas wells.

(3) Type B real property shall mean any improvement, upon or beneath type A real property, which remains, in the normal course of events, affixed upon or beneath such property for longer than twelve months. For purposes of this subsection, improvement shall mean any property that remains fixed and stationary by design in relation to the type A real property for twelve months or more, and affixed shall mean actually or constructively annexed or attached.

Recently, we addressed at length the constitutionality of legislation amending the definition of real property in §77-103. Attorney General Opinion No. 89071, November 13, 1989. In this opinion, we considered whether it was permissible for the Legislature to adopt a statutory definition of real property for tax purposes which differed from adherence to the common law standards which the Nebraska Supreme Court had found in Northern Natural Gas Co. v. State Board of Equalization and Assessment, 232 Neb. 806, 443 N.W.2d 249 (1989) [{"Northern"}] to be included in §77-103. Noting the general rule that "{i}t is competent for the Legislature to classify for purposes of legislation, if the classification rests on some reason of public policy, some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. . ." (Stahmer v. State, 192 Neb. 63, 68, 218 N.W.2d 893, 896 (1974)), we concluded the Legislature was not necessarily precluded from enacting legislation altering the definition of real property under §77-103, provided a reasonable basis could be articulated to justify any classification established by such redefinition.

During the special session convened in November, 1989, the Legislature amended the definition of "real property" in §77-103 to include ". . . pipelines, railroad track structures, electrical and telecommunications poles, towers, lines, and all items actually annexed to such property, and any interest pertaining to the real property or real estate." 1989 Neb. Laws, 1st Special Session, LB 1. No judicial determination has been made as to the constitutionality of this amendment to §77-103.

As noted in our previous opinion, several states have adopted statutory definitions of real property or real estate for tax purposes that include types of property which, under the common law of fixtures, would likely be considered to be personalty. See, e.g., N.Y. Real Property Tax Law §102, Subd. 12 (McKinney 1984 and Supp. 1989); Iowa Code Ann. §427 A.1, Subd. 1 (West Supp. 1989); N.D. Cent. Code §57-02-04, Subd. 3 (1983). In sustaining the constitutionality of the New York statutory definition, the New York Supreme Court stated: "The Legislature has the power to classify and define what property is taxable as real property, and for some time prior to the enactment of the statute in question the Tax Law has provided that certain property, which under the common law is personal property, is subject to tax as real property." Beagell v. Douglas, 2 Misc.2d 361, 363, 157 N.Y.S.2d 461, 463 (N.Y.Sup.Ct. 1955). See also Signal Oil and Gas Co. v. Williams County, 206 N.W.2d 75 (N.D. 1973) (holding provision of property tax law defining as "real property" machinery and equipment used in refining oil and gas did not create unreasonable classification in violation of State Constitution or the Equal Protection Clause of the Federal Constitution); Heritage Cablevision v. Marion County Board of Supervisors, 436 N.W.2d 37 (Iowa 1989) (rejecting facial constitutional challenge to Iowa statute exempting most, but not all, tangible personal property by classifying certain types of property as real property).

Based on the foregoing, it does not appear to be clearly unreasonable for the Legislature to classify property as real or personal for tax purposes in a manner which differs from adoption of the common law tests regarding fixtures, provided the classifications established are reasonable. To the extent §24 of LB 1115 proposes to alter the current definition of "real property" in such a manner, it is not inherently objectionable as creating an unreasonable classification, as support from other jurisdictions exists to sustain the definition of real property for tax purposes in a manner which includes types of property which, under the common law of fixtures, would be considered personalty.

This is not to say, however, that the classification established could not be challenged as unreasonable. An owner of property subject to taxation as "type B real property" under the bill may be able to successfully argue the taxation of such property is unreasonable when similar property is classified as personal property and therefore exempted from taxation. While the Nebraska Supreme Court upheld the Legislature's power to classify and exempt certain types of personal property in Stahmer v. State, *supra*, the Court has not yet had occasion to consider the constitutionality of legislation similar to

LB 1115. As was noted, no judicial determination has been made as to the validity of the amendment to §77-103 accomplished by the passage of LB 1 during the recent special session. Thus, it is not clear that the Court will uphold the type of redefinition of real and personal property proposed under the terms of LB 1115.

It should be noted there is case law in Nebraska which indicates our Court may take a more restrictive view than courts from other states with regard to the Legislature's ability to classify and define terms in the area of property taxation. In Moeller, McPherrin and Judd v. Smith, 127 Neb. 424, 255 N.W. 551 (1934) {"Moeller"}, the Court held unconstitutional legislative action altering the taxation of tangible and intangible property accomplished by the enactment of a statute defining the term "tangible property" to include property which, by nature, was intangible. In particular, the Court stated:

May a legislature, under the guise of defining a word, do so with a definition which contravenes our Constitution, and which is not true or legal in fact? Class 2 of tangible property, as defined in House Roll No. 9, is intangible property as defined by the leading dictionaries.

* * *

Can the legislature define and designate as tangible that which is, in fact and in truth, intangible? It may be admitted that the legislature has power to define words used by it, but is this an unlimited power, or is it subject to a reasonable construction? Tangible is the direct opposite of intangible; and can the legislature, under the guise of calling it two separate classes of tangible property, include all intangible property under class 2 of tangible property? In our opinion, there is a limit to the legislature's power to nullify and circumvent constitutional provisions by putting an arbitrary, but improper and unfounded, definition upon a certain word.

The Constitution of Nebraska clearly provides for two kinds of personal property for purposes of taxation, and the legislature has abrogated one of these by the device of calling it a class under the other. The legislature could not directly blot out a provision of the Constitution; has it not, by House Roll No. 9, attempted to do it indirectly?

If the Constitution gives one definition of a legal term, and a statute another, it is the duty of a court to declare that the Constitution governs.

Id. at 433, 255 N.W. at 555-56.

Furthermore, in State ex rel. Meyer v. Peters, 191 Neb. 330, 215 N.W.2d 520 (1974) {"Peters"}, the Court declared unconstitutional a statute exempting from property taxation household goods,

“including major appliances either attached or detached to real property,” and personal effects. The legislation was assertedly enacted pursuant to Article VIII, Section 2, of the Nebraska Constitution, which provided, in part: “Household goods and personal effects, as defined by law, may be exempted from taxation in whole or in part, as may be provided by general law...” (Emphasis added). In holding the phrase “household goods and personal effects, as defined by law” in Article VIII, Section 2, referred to existing law at the time of adoption of the constitutional amendment in a descriptive and limiting manner, the court stated:

Any definitional powers given to the Legislature are prefixed and limited. The power to define household goods and personal effects necessarily is limited to those articles which ordinarily would be understood to be embraced within that term. Certainly, it cannot be interpreted to give the Legislature power to include air-conditioning systems, furnaces, automobiles, or real estate within the term “household goods and personal effects.” Since there must be a limit to such powers, it is reasonable to find the common law concepts serve as guides.

* * *

In any event, any power to define household goods must be limited for the term “household goods” to have any meaning whatever. It is obvious that the Legislature could not be allowed to define all property in the state as household goods and personal effects. To permit it to do so would allow it to negate other parts of the Constitution.

Id. at 334-35, 215 N.W.2d at 524-25.

While it is possible to distinguish the situations addressed by the Court in Moeller and Peters from the one presented herein, it is certainly conceivable that our Court may adopt a narrower and more limited view of the Legislature’s power to classify and define in this area than courts from other jurisdictions. This may be particularly true in light of the Court’s recent decision in Northern, supra, discussing extensively the application of the law of fixtures in assessing whether property is to be deemed real or personal for tax purposes. In sum, while there is law from other states supporting the validity of legislation defining real property for tax purposes in a manner similar to that proposed under LB 1115, we cannot definitively conclude that our Court would, in light of prior Nebraska case law, sustain the classifications established under LB 1115 as constitutional.

You have also asked us to consider whether the provisions of §61 of LB 1115 are constitutional. The apparent intent of subdivision (2)(a) of §61 is to preserve the personal property tax exemption

incentives contained in Neb.Rev.Stat. §77-4105 (Cum.Supp. 1988) for taxpayers who have entered into agreements under the Employment and Investment Growth Act prior to the effective date of LB 1115. In this regard, subdivision (2)(a) retains the current statutory language separately classifying personal property in the nature of "turbine-powered aircraft," "mainframe business computers," and business equipment "involved directly in the manufacture or processing of agricultural products." This subdivision also provides "such property shall be exempt from the tax on personal property. . . ."

Our primary concern with the language of subdivision (2)(a) of §61 is that, by virtue of the redefinition of "real property" in §24 of LB 1115, it is quite possible that much of the property separately classified as personal under §77-4105(2) would constitute "type B real property" under LB 1115. While turbine-powered aircraft would not be affected by the redefinition of real property, mainframe business computers or business equipment involved in manufacturing or processing agricultural products may well fall within the definition of "real property" as "type B real property." Thus, as §61 simply retains an exemption for the property enumerated from "personal property tax," such exemption would be meaningless if the property is no longer personal property for tax purposes under Nebraska law. To the extent this alters the terms of existing agreements entered into pursuant to the Employment Investment Growth Act, we believe a serious question as to the unconstitutional impairment of contractual obligations is raised under Article I, Section 16, of the Nebraska Constitution, by the provisions of subdivision (2)(a) of §61.

Subdivision (2)(b) of §61 is apparently intended to alter the property tax incentives available in connection with agreements entered into after the effective date of LB 1115. Under subdivision (2)(b), taxpayers owning "type B real property" are to receive a credit against the income tax liability of the taxpayer for the amount of any ad valorem taxes paid on such property. We believe there is a strong possibility that a court would find this provision unconstitutional. Article VIII, Section 2, provides, in part "The Legislature may classify personal property in such manner as it sees fit, and may exempt any of such classes, or may exempt all personal property from taxation. No property shall be exempt from taxation except as provided in the Constitution. . . ." (Emphasis added). While the Legislature has the power to classify and exempt personal property under this constitutional provision, the Legislature does not have such authority with regard to the classification and exemption of real property. Under subdivision (2)(b) of §61, a credit against income tax liability is granted as to real property taxes paid by certain taxpayers.

In our view, the provision of relief from the payment of a tax on real property in this manner would likely be viewed as an unconstitutional attempt to indirectly grant an exemption for real property not authorized by the Constitution. It is axiomatic that the Legislature may not circumvent the effect of an express provision of the Constitution by doing indirectly what it may not do directly. Nebraska Public Power District v. Hershey School District, 207 Neb. 412, 299 N.W.2d 514 (1980). We have, in prior opinions, indicated our belief that similar attempts to avoid the effect of the limitations and requirements of Article VIII, Sections 1 and 2, would not meet with judicial favor. Report of Attorney General, 1971-72, Opinion Nos. 104, 106, and 108.

In conclusion, it is our opinion that, for the specific reasons stated herein, certain portions of LB 1115 are constitutionally suspect.

Very truly yours,
ROBERT M. SPIRE
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 90008

DATE: February 15, 1990

SUBJECT: Constitutionality of LB 1219 - Amendment to
 Definition of Consummation of Sale Under
 Neb.Rev.Stat. §77-27,147 (Reissue 1986)

REQUESTED BY: Senator Lowell C. Johnson
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion regarding the constitutionality of LB 1219. Generally, LB 1219 would amend the provisions of Neb.Rev.Stat. §77-27,147 (Reissue 1986), establishing the definition of when a retail sale is "consummated" for purposes of determining the application of the Local Option Revenue Act. Currently, §77-27,147(1)(a) provides a retail sale is generally consummated "{a}t the place where title, possession, or segregation takes place, . . . regardless of the business location of the Nebraska retailer. . . ." LB 1219 proposes to amend §77-27,147 to provide that, in the case of retailers delivering live plants or floral arrangements to a place specified by the purchaser, the sale is deemed consummated at the business location of the retailer. The principal constitutional issue raised by this amendment concerns whether the proposed classification is reasonable and does not contravene the prohibition against special legislation in Article III, Section 18, of the Nebraska Constitution.

In State ex rel. Rogers v. Swanson, 192 Neb. 125, 136-37, 219 N.W.2d 726, 734 (1974), the Nebraska Supreme Court stated the following rules regarding the legislative power to classify and the effect of the prohibition against special legislation:

The Legislature may make a reasonable classification of persons, corporations, and property for purposes of legislation concerning them, but the classification must rest upon real differences of situation and circumstances surrounding the members of the class relative to the subject of legislation which render appropriate its enactment.

The Legislature may legislate in regard to a class of persons, but it cannot take what may be termed a natural class of persons, split that class in two, and then arbitrarily designate the dis severed fractions of the original unit as two classes and enact different rules for the government of each.

(quoting United Community Services v. Omaha National Bank, 162 Neb. 786, 77 N.W.2d 576 (1956)).

LB 1219 would create a distinction between retailers engaged in the sale and delivery of live plants and floral arrangements and all other retailers by establishing a different rule as to when a retail sale is deemed consummated for purposes of determining the application of the Local Option Revenue Act. As you note in your letter, the

intent of the amendment is to relieve floral retailers from the obligation of collecting and remitting local sales tax in situations where deliveries are made to municipalities located outside the place of the location of the retailer. As such, the bill clearly creates different classifications of retailers, each of which are subject to different rules with regard to the burdens and obligations imposed under the Local Option Revenue Act.

While a sufficient reasonable basis may underlie the establishment of the classification drawn by LB 1219, the existence of such is not readily apparent. The record-keeping requirements under the Act may impose a greater burden on retailers engaged in the floral industry than on other retailers who do not engage extensively in the sale of delivered goods. There may well be retailers, however, who are engaged in other businesses which face the same requirements who are not treated in the same manner by the special classification established under LB 1219. It is conceivable that a similarly situated retailer may be able to successfully argue the class created is unreasonable and violative of Article III, Section 18. Indeed, as you point out in your request, a classification under the Local Option Revenue Act creating a distinction in the point of consummation of sale between retailers who maintained a single business location and retailers who maintained more than one business location was declared unconstitutional as creating an unreasonable and improper classification. City of Lincoln v. McNeil, Docket 259, Page 228 (Dec. 31, 1969, Lancaster County District Court).

In conclusion, on the basis of the foregoing, it is our opinion that the classification in LB 1219 creating different treatment of retailers engaged in the delivery of live plants and floral arrangements and other retailers may well constitute unreasonable class legislation in violation of Article III, Section 18, of the Nebraska Constitution.

1 1. Insert the following new section:

2 "Sec. 18. (1) Any city conducting an economic
3 development program shall establish a separate economic
4 development fund. All funds derived from local sources
5 of revenue for the economic development program, any
6 earnings from the investment of such funds, any loan
7 payments, any proceeds from the sale by the city of
8 assets purchased by the city under its economic
9 development program, or any other money received by the
10 city by reason of the economic development program shall
11 be deposited into the economic development fund. Except
12 as provided in this section and subsection (4) of
13 section 14 and subsection (7) of section 22 of this act,
14 no money in the economic development fund shall be
15 deposited in the general fund of the city. The city
16 shall not transfer or remove funds from the economic
17 development fund other than for the purposes prescribed
18 in sections 1 to 23 of this act, nor shall the money in
19 the economic development fund be commingled with any
20 other city funds.

21 (2) All money in the economic development fund
1 not currently required or committed for the purposes of
2 the economic development program shall be invested as
3 provided for in section 77-2341.

4 (3) In the event that the city's economic

6 subsection (4) of section 14 or subsection (7) of
7 section 21 of this act, the balance of money in the

21 (4) When the economic development program is

 23 resolution certify the amount of money to be transferred
 24 from the economic development fund to the general fund
 1 and the amount that is anticipated will be received by
 2 the city between such time and the final audit of the
 3 economic development fund. The sum of those two amounts
 4 shall be divided by the number of years within which
 5 funds for the economic development program were
 6 collected from local sources of revenue. The resulting
 7 figure shall constitute the amount to be applied against
 8 the budgeted expenditures of the city during each
 9 succeeding year until all funds from the economic
 10 development program have been expended. The
 11 installments shall be used to reduce the property tax
 12 levy of the city by that amount in each year in which
 13 they are expended.

14 (5) If, after the first full budget year
 15 within which a city conducts an economic development
 16 program, there are three consecutive budget years in
 17 each of which more than fifty percent of the money
 18 collected from local sources of revenue is not spent or
 19 committed by contract for the economic development
 20 program, the governing body of the city shall within
 21 sixty days of the end of the third budget year call a
 22 special election as prescribed in section 22 of this
 23 act, to determine if the city should continue its
 24 economic development program."

ATTORNEY GENERAL'S OPINION

Opinion No. 90009

DATE: February 16, 1990

SUBJECT: LB 1059 - Constitutionality of Establishing
Different Sales Tax Rates for Sales of Motor

Vehicles and Sales of Other Tangible Personal
Property

REQUESTED BY: Senator Rex Haberman
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to the constitutionality of a proposed amendment to LB 1059. Generally, LB 1059 is designed, in part, to alter the method of financing the public school system in Nebraska in a manner which will "provide state support from all sources of state funding for forty-five percent of the general fund operating expenditures of school districts; . . ." LB 1059, §2(2)(a). The bill provides for an increase in the state income tax rate established in Neb.Rev.Stat. §77-2701.01 (Cum.Supp. 1988) from three and fifteen-hundredths percent to three and seventy hundredths percent. LB 1059, §27. The bill also provides for an increase in the state sales tax rate established in Neb.Rev.Stat. §77-2701.02 (Reissue 1986) from four to five percent. LB 1059, §28. As you note in your request, all proceeds of sales and use taxes derived from sales of motor vehicles, trailers, and semitrailers are credited to the Highway Trust Fund, and are not, as are other proceeds from sales and use taxes, credited to the General Fund. Neb.Rev.Stat. §77-27,132 (Supp. 1989). Therefore, as you note, the additional revenues generated by increasing the sales tax rate as to motor vehicles would not be credited to the General Fund, but would be credited to the Highway Trust Fund. Under such circumstances, this revenue would, under existing law, not be available to provide additional state funding for the public school system. Thus, your question is whether it would be constitutionally permissible to amend LB 1059 to provide a one percent increase in the general state sales tax rate (from four to five percent), while retaining the current four percent rate for sales of motor vehicles, trailers, or semitrailers.

It is generally recognized that a sales tax is an excise tax, and not a property tax. 68 Am.Jur.2d Sales and Use Taxes §4 (1973). In State v. Galven, 221 Neb. 497, 378 N.W.2d 182 (1985), the Nebraska Supreme Court held that a tax imposed on the doing of an act constituted an excise tax and not a property tax and, therefore, the requirement of uniformity in Article VIII, Section 1, of the Nebraska Constitution, did not apply to an excise tax. The Nebraska sales tax, imposed on "all sales of tangible personal property sold at retail," is properly characterized as an excise tax in that it is based on the act

or transaction consisting of the occurrence of a retail sale. Neb.Rev.Stat. §77-2703(1) (Reissue 1986); See Pepsi Cola Bottling Co. v. Peters, 189 Neb. 271, 202 N.W.2d 582 (1972). Thus, while the requirement of uniform and proportionate taxation in Article VIII, Section 1, mandates equality in both the valuation of property and the rate of taxation, Xerox Corp. v. Karnes, 217 Neb. 728, 350 N.W.2d 566 (1984), the uniformity requirement applicable to ad valorem property taxes does not apply to excise taxes such as the sales tax. Accordingly, the uniformity provision in Article VIII, Section 1, does not preclude the establishment of different tax rates in the sales tax area, such as contemplated by your proposed amendment to LB 1059.

The question which remains is whether the establishment of different sales tax rates in the manner you propose would create an unreasonable classification in violation of the prohibition against special legislation in Article III, Section 18, of the Nebraska Constitution.

In Stahmer v. State, 192 Neb. 63, 68-69, 218 N.W.2d 893, 896 (1974), the Nebraska Supreme Court stated the following with regard to the power of the Legislature to classify and the prohibition against special legislation under Article III, Section 18:

It is competent for the Legislature to classify for purposes of legislation, if the classification rests on some reason of public policy, some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. . . .

The Legislature may make a reasonable classification of persons, corporations, and property for purposes of legislation concerning them, but the classification must rest upon real differences in situations and circumstances surrounding the members of the class, relative to the subject of the legislation, which render appropriate its enactment; and to be valid the law must operate uniformly and alike upon every member of the class so designated. (Citations omitted).

In assessing the reasonableness of your proposal to enact a different tax rate for sales of motor vehicles than for sales of other tangible property, it is important to note both the apparent purpose for the increase in the sales tax rate under LB 1059, and the disposition of sales tax revenues raised on sales of motor vehicles under current Nebraska law. As noted, LB 1059 is intended, in part, to alter the method of financing the public school system in Nebraska in a manner which will increase "state support from all sources of funding" to a specified level of school district general fund operating expenditures. LB 1059, §2(2)(a). One of the means by which funding

for such increased state support is to be achieved is the one percent increase in the sales tax rate provided for in §28 of LB 1059. Pursuant to §77-27,132, all proceeds from sales and use taxes derived from motor vehicles, trailers, and semitrailers are credited to the Highway Trust Fund, a special fund separate and apart from the state General Fund. See Neb.Rev.Stat. §39-2215 (Reissue 1988). Thus, any increase in the sales tax rate as applied to sales of motor vehicles will not result in an increase in General Fund revenues available for the provision of additional state support for the public school system, as all sales tax revenues generated by sales of motor vehicles are committed to the Highway Trust Fund, a special fund which provides for the allocation and disbursement of monies credited thereto.

On the basis of existing law governing the distribution and allocation of revenues generated by the sale of motor vehicles under §§77-27,132 and 39-2215, it would not appear to be unreasonable for the Legislature to retain the current sales tax rate for sales of motor vehicles while enacting an increase in such rate for other retail sales, in view of the goals and objectives of LB 1059. The establishment of such a classification is consistent with the avowed purpose of LB 1059, as it would recognize revenues from sales of motor vehicles are committed to a special fund which, under current law, would not provide a source of state funds available for increased state financial support for the public school system. Under these circumstances, the classification created by your proposal appears reasonably related to the objective of the bill.

This is not to suggest, however, that other alternatives are not available to the Legislature. For example, the Legislature could amend the present statutory direction that all proceeds from sales and use taxes derived from sales of motor vehicles, trailers, and semitrailers be credited to the Highway Trust Fund by providing that any revenues generated on such sales above the current four percent rate be credited to the General Fund. In this manner, additional state funds available to provide the type of support contemplated by LB 1059 would be generated by the sales tax increase contained in §28 of the bill. Our opinion that your proposal appears constitutional under current law should not be construed to mean that other options are not available to address the situation raised by your request.

Very truly yours,
ROBERT M. SPIRE

RESOLUTION

LEGISLATIVE RESOLUTION 257. Introduced by Chambers, 11th District.

WHEREAS, as millions of better-educated, prosperous Americans are quitting smoking, tobacco companies are directing marketing efforts at minorities and young women; and

WHEREAS, young women and minorities have been shown by federal health statistics to be at unusually high risk for the fatal diseases caused by smoking; and

WHEREAS, public health officials have pointed out that cigarettes are the only legal product that can and does kill people when used as intended; and

WHEREAS, according to federal health statistics, tobacco use has become the largest preventable cause of death and disease among American women, killing more than 125,000 each year; and

WHEREAS, R.J. Reynolds Tobacco Company (R.J.R.) produces large quantities of cigarettes and markets them nationally; and

WHEREAS, the Washington Post obtained and published extensive proposals describing an R.J.R. marketing scheme which raises serious ethical and public health concerns; and

WHEREAS, according to the detailed marketing strategy prepared for the company, R.J.R. plans to introduce a new brand of cigarette called "Dakota" specifically targeting young, poorly-educated White women whom the company labels "virile females"; and

WHEREAS, the new brand is to be test marketed in Houston, Texas, beginning in April 1990; and

WHEREAS, the marketing goal of R.J.R. is to ensnare young White women between the ages of 18 and 24 (the only group of Americans whose rate of smoking continues to increase); and

WHEREAS, strong public outrage and federal government opposition recently forced R.J.R. to cancel plans to test market a brand of cigarette called "Uptown" which specifically targeted Black people; and

WHEREAS, U.S. Health and Human Services Secretary Louis Sullivan, speaking for the Bush administration, has condemned the current R.J.R. scheme, declaring: "It is especially reprehensible to lure young people into smoking and potential lifelong nicotine addiction; and the risk that smoking specifically poses for women adds another tawdry dimension to any marketing effort aimed at young women."

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature joins the national administration and others in condemning the questionable tactic of targeting high-risk, vulnerable groups for the purpose of luring them into nicotine addiction with its attendant personal deleterious results and public health problems.

2. That the Legislature strongly urges R.J.R. to permanently abandon such targeting strategies.

3. That the Legislature commends U.S. Health and Human Services Secretary Sullivan for his vigilance and supports his efforts before the U.S. Senate Labor and Human Resources Committee in opposition to the practice of targeting tobacco advertising.

4. That the Clerk of the Legislature shall send a copy of this resolution to Secretary Louis Sullivan.

Laid over.

ATTORNEY GENERAL'S OPINION

Opinion No. 90010

DATE: February 15, 1990

SUBJECT: Legislative Confirmation of Gubernatorial
Appointments

REQUESTED BY: Senator Loran Schmit and Senator Ron Withem
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

During the special session of the Nebraska Legislature which convened in November, 1989, Governor Orr submitted a number of gubernatorial appointments to the Legislature for confirmation as required by various constitutional and statutory provisions. On the seventh legislative day of the session, November 17, 1989, the Legislature, by majority vote, permitted the Committee on Education and the Committee on Natural Resources to hold certain of those appointments in committee for action at a later date. 91st Nebraska Legislature, First Special Session, Legislative Journal at page 154. You have now asked for our opinion as to the status of those appointments neither approved or disapproved by the Legislature in the special session. You have also asked for our opinion as to the status of various other pending gubernatorial appointments which were not submitted to the Legislature for confirmation due to apparent administrative error. Our response to your questions is set out below.

There are two provisions in our Nebraska Constitution which deal with the appointment of individuals to nonelective state offices. Article IV, Section 10 of the Nebraska Constitution provides, in pertinent part:

The Governor shall appoint with the approval of a majority of the Legislature, all persons whose offices are established by the

Constitution, or which may be created by law, and whose appointment or election is not otherwise by law or herein provided for; and no person shall be appointed or elected by the Legislature. The pertinent portions of Article IV, Section 12 of the Nebraska Constitution also provide:

If any nonelective state office, except offices provided for in Article V of this Constitution, shall be vacated by death, resignation or otherwise, it shall be the duty of the Governor to fill that office by appointment. If the Legislature is in session, such appointment shall be subject to the approval of a majority of the members of the Legislature. If the Legislature is not in session, the Governor shall make a temporary appointment until the next session of the Legislature, at which time a majority of the members of the Legislature shall have the right to approve or disapprove the appointment. All appointees shall hold their office until their successors shall be appointed and qualified.

Article IV, Section 10 obviously establishes the general appointment authority held by the Governor. On the other hand, Article IV, Section 12 deals with those situations where there is a vacancy in a particular nonelective state office. Both sections provide for legislative approval of gubernatorial appointments.

For purposes of this opinion, we will assume that the gubernatorial appointments at issue occurred when the Legislature was not in session. We also assume that those appointments were made at the end of a regular term of office, so that the individuals designated by the Governor were appointed to serve at the beginning of a new term.

As noted above, Article IV, Section 12 of the Nebraska Constitution allows the Governor to make a temporary appointment when the Legislature is not in session, and the individual so appointed can serve until the next session of the Legislature, when a majority of the Senators have the right to approve or disapprove the appointment. By previous opinion, we have indicated that, if the Legislature does not exercise that right of approval or disapproval during the next session, the appointee will serve until the end of the term for which he was appointed. See, 1973-1974 Report of the Attorney General, No. 56 at 75. As a result, if Article IV, Section 12 of the Constitution applies to the appointments at issue in the present instance, it would appear that the Legislature's failure to approve or disapprove the individuals involved at the November special session would allow those individuals to serve the remainder of their terms, and their status would be that of properly appointed officials. However, the initial portion of Article IV, Section 12, by its clear language, applies to situations where an office is "vacated by death, resignation or otherwise." Therefore, whether Article IV, Section 12

applies in the current situation turns on whether the end of a fixed term constitutes a "vacancy" in office which may be filled by the Governor by means of a temporary appointment. If the end of a fixed term does not create such a vacancy, then the temporary appointment provisions of Article IV, Section 12 do not apply.

Neb.Rev.Stat. §32-1037 (Reissue 1988) sets out nine separate circumstances which create a vacancy in the civil offices of the state. Although that statute includes death and resignation as events which trigger a vacancy in conformance with Article IV, Section 12 of the Nebraska Constitution, that statute does not list the end of a fixed term as a situation creating a vacant office. Moreover, in an early case, our supreme court stated:

As a general rule the appointing power has no vacancy to fill upon the expiration of a term, where the incumbent is entitled to hold over until his successor is elected and qualified.

State ex rel. County Attorney v. Willott, 103 Neb. 798, 800, 174 N.W. 429, at 429 (1919). Since Article IV, Section 12 of the Nebraska Constitution does generally provide that, "all appointees shall hold their office until their successors shall be appointed and qualified," we believe that the end of a fixed term in Nebraska does not create a vacancy subject to the provisions of Article IV, Section 12 of the Nebraska Constitution.

Our research indicates that a majority of other authorities supports the proposition that the end of a fixed term does not create a vacancy in office when state law contains constitutional and statutory provisions similar to those in Nebraska. For example, in 164 A.L.R. 1248, it is stated:

The greater number of cases have held that during the period in which a public officer holds over after the expiration of his term, under constitutional or statutory authority entitling him to do so until the election and qualification of a successor, there is no vacancy in office which may be filled by an interim appointment. Similarly, in 81A C.J.S. States §87, the rule is set out:

Generally, as well as under circumstances or statute so providing, no vacancy exists in an office where the incumbent holds over after expiration of his term until his successor is elected or appointed and has qualified . . .

See also, State ex rel. Gebelein v. Killen, 454 A.2d 737 (Del. 1982); State ex rel. Thompson v. Gibson, 22 Wis.2d 275, 125 N.W.2d 636 (1964); McCall v. Cull, 51 Ariz. 237, 75 P.2d 696 (1938); 63A Am.Jur.2d Public Officers and Employees, §146.

On the basis of these various authorities, we do not believe that the temporary appointment provisions of Article IV, Section 12 of the Nebraska Constitution apply to gubernatorial appointments made at

the end of a fixed term. To the extent that our earlier opinion No. 56 from 1973 cited above implies a contrary result, that opinion is in error. We also believe that the status of the appointments in question must be determined from the general provisions of our Constitution dealing with appointments.

Article IV, Section 10 of the Nebraska Constitution provides that the Governor shall appoint various officers "with the approval of a majority of the Legislature." Where an appointment is made as a result of a nomination by one authority and confirmation by another, the appointment is not valid and complete until the actions of all bodies involved have been taken. State ex rel. Johnson v. Hagemeister, 161 Neb. 475, 73 N.W.2d 625 (1955); 67 C.J.S. Officers §42; 63A Am.Jur.2d Public Officers and Employees §117; 1931-1932 Report of the Attorney General, Opinion dated February 5, 1931 at 120. Consequently, the appointments of the officials in the present instance are not complete and final until they are approved by a majority of the Legislature.

However, the Legislature did not approve the appointments at issue during the special legislative session in 1989. Instead, the appointments were held in committee by a majority vote of the Legislature. In order to resolve your questions concerning the status of the gubernatorial appointments, we must necessarily determine whether this delay was constitutionally or statutorily permissible, and what effect, if any, it had on the status of the appointments submitted by the Governor.

In our view, portions of Article IV, Section 12 of our Nebraska Constitution require the Legislature to act on certain temporary gubernatorial appointments at its next session, or lose the right to disapprove those appointments. See, 1972-1973 Report of the Attorney General, Opinion No. 56 at 75. However, those provisions apply to temporary appointments made to fill vacancies and, as noted above, the appointments in the present instance were not made as a result of vacancies under Article IV, Section 12. Apart from those portions of Article IV, Section 12, we can find no other constitutional provisions which require legislative action on interim appointments at the next session, nor is there a statute which requires such results. Our supreme court has noted, however, that Article III, Section 10 of our state Constitution allows the Legislature to determine the rules of its own proceedings, and this power extends to the transaction of any legislative business and to the performance of any duty conferred upon the Legislature by the Constitution. State ex rel. Johnson v. Hagemeister, *supra*. On the basis of this constitutional provision, it appears that the propriety of the confirmation delays depends upon the Legislature's own rules.

Legislative Rule 3 Sections 3(e)(ii) through 3(e)(v) deal with the legislative confirmation of gubernatorial appointments. Those rules provide that the committee to which an appointment is assigned must prepare a report approving or rejecting the appointment which shall be filed with the Clerk of the Legislature. There is no time frame specified for that report, and nothing in those rules appears to prevent a committee from holding a nomination over from a special session to the regular session. On the other hand, Rule 2, Section 1 of the Legislature's rules provides that, in all matters not covered by the rules, "the Legislature shall decide as to the procedure to be followed, the same to require the concurrence of a majority of the elected members." A majority of the Legislature voted to allow the committees in question to hold the proffered appointments for later disposition. Therefore, the delay in the confirmation proceedings appears permissible and proper under the Legislature's rules, and also under our Constitution and statutes.

Your initial question concerns the status of those appointments which were neither approved nor disapproved by the Legislature in the November, 1989, special session. As set out in the analysis above, we believe that those appointments are not complete and final pending an approval by the Legislature. Moreover, the Legislature was not required to disapprove those appointments during the special session in order to preserve that right of disapproval. As a result, those appointments remain pending until the Legislature chooses to approve them by a majority vote.

Your second inquiry is as to the status of pending appointments which, due to administrative error, were not forwarded to the Legislature for appropriate action during the special session. Again, on the basis of the analysis above, we believe that those appointments are not final until approved by the Legislature. They remain pending until submitted, and until the Legislature confirms them by majority action.

Sincerely yours,
ROBERT M. SPIRE
Attorney General

PRESIDENT SIGNED

While the Legislature was in session and capable of transacting business, the President signed the following bills: 602, 856, 857, 858, 874, 875, 891, 893, 906, 907, 957, 964, 966, 984, 997, and 1013.

RESOLUTION

LEGISLATIVE RESOLUTION 260. Introduced by Nelson, 35th District; Bernard-Stevens, 42nd District; Scofield, 49th District;

Weihing, 48th District; Conway, 17th District; Withem, 14th District; McFarland, 28th District; Baack, 47th District; Crosby, 29th District; Dierks, 40th District; Chizek, 31st District.

WHEREAS, the importance of high-quality, well-coordinated public postsecondary education in Nebraska's future has been repeatedly recognized in recent strategic planning processes, including New Horizons and New Seeds for Nebraska. Phase I of the Legislature's LB 247 study of postsecondary education has noted a need for the state to provide incentives to colleges and universities for cooperation, innovation, and coordination, and enhanced telecommunications technologies have much potential to bring about greatly increased access, coordination, and responsiveness within Nebraska postsecondary education.

Several communities have taken initiatives to bring together postsecondary educational institutions to work cooperatively to address the education needs of their communities, which community initiatives have come to be known as education centers. The Legislature commends the citizen leadership and initiative in proposing the Panhandle Center for Lifelong Learning, the Mid-Plains Educational Partnership, the Grand Island College Park, and the Northeast Nebraska Education Center and recognizes the importance of and wishes to support the planning processes for each of the proposed education centers by providing funding for program and activity planning.

Phase I of the Legislature's LB247 study of postsecondary education has identified the need for coordinated planning of the proposed postsecondary education centers. The Legislature's Education Committee should monitor the development of plans for the four proposed education centers and coordinate such community initiatives with phase II of the LB247 study of postsecondary education during the 1990 interim.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 90011

DATED: February 21, 1990

SUBJECT: Language of LB 1022

REQUESTED BY: Senator Don Wesely, Chairperson, Health and
Human Services Committee Nebraska State
Legislature

WRITTEN BY: Robert M. Spire
Attorney General

Royce N. Harper
Senior Assistant Attorney General

You have requested an opinion as to whether the language of LB 1022 might be overbroad and, therefore, confer an unconstitutional delegation of legislative authority.

The language in section 1, “{n}otwithstanding any other provision of law the Director of Social Services shall have authority through rule or regulation to establish payment rates,” may arguably be an unconstitutional delegation of legislative authority to an administrative agency.

Detailed Analysis and Response
to Senator Wesely’s Question

Article II, section 1, and article III, section 1 of the Nebraska Constitution respectively provide for the separation of powers, and define legislative authority. Neb.Const., Art. II, § 1 & Art. III, § 1. However, a “grant of administrative authority is not an unconstitutional delegation of legislative authority.” Blackledge v. Richards, 194 Neb. 188, 195, 231 N.W.2d 319, 324 (1975).

Furthermore, “the legislature does have power to authorize an administrative or executive department to make rules and regulations to carry out an expressed legislative purpose, or for the complete operation and enforcement of a law within designated limitation.” Mann v. Wayne County Broad of Equalization, 186 Neb. 752, 759, 186 N.W.2d 729, 734 (1971). Also, a grant of power to an administrative agency must be “administered in accordance in accordance with standards prescribed in the legislative act.” Terry Carpenter, Inc. v. Nebraska Liquor Control Comm’n., 175 Neb 26, 36-39, 120 N.W.2d 374, 380 (1963).

The language of LB 1022 granting an administrative agency authority “to establish payment rates,” absent guidelines, restriction or limitations, and without a statement of express legislative purpose may be determined to be an unconstitutional delegation of legislative authority.

Two statutes, that appear to meet the court’s requirements read:

... The department may contract with other social agencies for the purchase of social services at rates not to exceed those prevailing in the state or the cost at which the department could provide those services.

Neb.Rev.Stat. § 68-1206 (Reissue 1986).

The Department of Social Services shall establish uniform standards of financial eligibility for the treatment services, . . . including a uniform formula for the payment of services . . . and such formula for payment shall provide for reimbursement at rates

similar to those set by other federal and state programs, and private entitlements.

Neb. Rev. Stat. § 68-1405 (Reissue 1986).

The Health and Human Services Committee may wish to amend LB 1022 to include language that will cause the legislature to more closely match the court's requirement for constitutionality.

SUBJECT: Publication of Judicial Nominating Commission
Votes

REQUESTED BY: Senator Rex Haberman
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Linda L. Willard, Assistant Attorney General

You have inquired regarding the constitutionality of legislation concerning the publication of judicial nominating commission votes (LB 878). Specifically, you ask if this is a violation of Article V, Section 21, Subsection (5), of the Constitution of the State of Nebraska which states:

Members of the nominating commission shall vote for the nominee of their choice by roll call. Each candidate must receive a majority of the voting members of the nominating commission to have his name submitted to the Governor.

It is our determination that legislation concerning the publication of judicial nominating commission votes would not be contrary to the Constitution. The State Constitution is not a grant but rather a restraint on legislative power, and the Legislature may legislate on

any subject not inhibited by the Constitution. Lenstrom v. Thone, 209 Neb. 783, 311 N.W.2d 884 (1981). See also, State ex rel. Creighton University v. Smith, 217 Neb. 682, 353 N.W.2d 267 (1984).

Since the Constitution does not prohibit the publication of the nominating commission votes, the statute requiring their publication would not be unconstitutional.

Sincerely,
ROBERT M. SPIRE

Opinion No. 90013

DATED: February 16, 1990

SUBJECT: Effect of Federal Fair Housing Amendments Act of 1988 on Neb.Rev.Stat. §§ 18-1744 through 18-1747 (Reissue 1987 and 1989 Supp.).

REQUESTED BY: Senator Don Wesely, Chairperson, Health and Human Services Committee Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Royce N. Harper, Senior Assistant Attorney General

You have requested an opinion as to whether Neb.Rev.Stat. §§ 18-1744 through 18-1747 (Reissue 1987 and 1989 Supp.) defining and regulating the establishment and location of group homes for persons with mental or physical disabilities are valid under the federal Fair Housing Amendments Act of 1988 that became effective on March 21, 1989.

For the reasons explained below, Neb.Rev.Stat. §§ 18-1744 through 18-1747 contain provisions that appear to require or permit discriminatory housing practices as to persons with physical or

mental impairment, and therefore, to that extent, the statutes would be invalid under the Fair Housing Amendment Act of 1988.

Detailed Analysis and Response to Senator Wesely's Questions

The federal Fair Housing Amendments Act of 1988, effective as law on March 12, 1989, amended Title VIII of the Civil Rights Act of 1968 to include persons with a handicap as a class protected from discriminatory housing practices under the Fair Housing Act. Fair Housing Amendments Act of 1988, Pub. L. No. 100-430, 102 Stat. 1619 (1988), to be codified at 42 U.S.C. §§ 3601 through 3631 {hereinafter Act}.

The act defines "handicap" with respect to a person as:

- (1) a physical or mental impairment which substantially limits one or more of such person's major life activities;
- (2) a record of having such an impairment; or
- (3) being regarded as having such an impairment, but such terms does not include current, illegal use of or addiction to a controlled substance as defined in section 802 of Title 21.

42 U.S.C. § 3602(h)(1)(2)(3).

The 1988 amendments make it unlawful:

{t}o discriminate in the sale or rental, or to otherwise make unavailable or deny, a dwelling to any buyer or renter because of a handicap of --

- (A) that buyer or renter;
- (B) a person residing in or intending to reside in that dwelling after it is sold, rented, or made available; or
- (C) any person associated with that person.

42 U.S.C. §3604(f)(1)(A)(B)(C).

Further, it is unlawful:

{t}o discriminate against any person in the terms, conditions, or privileges of sale or rental of a dwelling, or in the provisions of services or facilities in connection with such dwelling, because of a handicap of --

- (A) that person; or
- (B) a person residing in or intending to reside in that dwelling after it is so sold, rented or made available; or
- (C) to any person associated with that buyer or renter.

42 U.S.C. § 3604(f)(2)(A)(B)(C).

Also the Act states that discrimination includes "a refusal to make reasonable accommodations in rules, policies, practices or sources, where such accommodations may be necessary to afford such person equal opportunity to use and enjoy a dwelling. . . .

42 U.S.C. § 3604(f)(3)(B).

Section 3615 provides for the effect of the Act on state laws.

Nothing in this subchapter shall be construed to invalidate or limit any law of a State or political subdivisions of a State, or of any other jurisdictions in which this subchapter shall be effective, that grants, guarantees, or protects the same rights as are granted by this subchapter; but any law of a State, a political subdivision, or other such jurisdiction that purports to require or permit any action that would be a discriminatory housing practice under this subchapter shall be to that extent be invalid.

42 U.S.C. § 3615 (Emphasis added).

Neb.Rev.Stat. §§ 18-1744 through 18-1747 were originally enacted by the Nebraska State Legislature with the passage of Laws 1980, LB 525.

The purpose of LB 525 was to provide “. . . that a municipality cannot restrict the location of group homes from anywhere within the legal boundaries of a municipality.” Comm. Report on LB 525, Public Health and Welfare Comm. 86th Leg. 2d Sess. (Apr. 17, 1979).

This purpose, standing alone, is consistent with the purpose of the federal Act.

In reference to 42 U.S.C. § 3604 (f)(2), the House Comm. on the Judiciary stated:

This provision is intended to prohibit special restrictive covenants or other terms or conditions, or denials of service because of an individual's handicap and which have the effect of excluding, for example, congregate living arrangements for persons with handicaps.

H.R.Rep. No. 711, 100th Cong., 2d Sess. 22 at 18 (1988).

The intent of the Nebraska Legislature was to maximize the effectiveness of group services for persons with certain physical or mental disabilities, i.e., cerebral palsy, autism, or mental retardation, Neb.Rev.Stat. § 18-1744 (Reissue 1987), by allowing locations of group homes in all municipal zone districts, and to discourage “local zoning codes {that} have restricted group living homes to certain very limited areas resulting in a high density of group living homes, generally in highly populated zones.” Introducer's Statement of Purpose, LB 525, 86th Leg. 2d Sess. (Feb. 22, 1979). In 1989, the legislature enacted LB 366, amending sections 18-744 by striking reference to specific disabilities and referring instead to “mental or physical disabilities.” (Neb.Rev.Stat. § 18-1744 (1989 Supp.)). The purpose of the amendment was to add group homes for the mentally ill to the statutes covering zoning and location of group homes for persons with cerebral palsy, autism and mental retardation. Comm. Statement on LB 366, Health and Human Services Comm. 91st Leg. 1st Sess. (Jan. 25, 1989).

The plain language of this amendment, "mental or physical disabilities" is substantially similar to the federal Act that uses "physical or mental impairment" in its definition of handicap. However, the legislative history of sections 18-1744 through 18-1747 indicate that the Nebraska legislature did not envision the broad remedial purpose for all persons with a handicap that Congress intended. Statutory interpretation of the Nebraska statutes, looking to the legislative history of the statutes, could conceivably exclude persons with physical or mental disabilities not specifically mentioned by the Legislature, and not specifically included in the statute's definition. Such interpretation would clearly be judged to violate the federal mandate. The only "impairment" explicitly excluded from the federal Act's definition of "handicap" is "current illegal use of or addiction to a controlled substance as defined in section 802 of Title 21." 42 U.S.C. § 3602(3) (Emphasis added).

If section 18-1745 went no further than to say "{a} group home . . . may be established and operated in any residential zone within the exercised zoning jurisdiction of any municipality..." Neb.Rev.Stat. § 18-1745 (Reissue 1987), this statute would not only not offend the federal Act, but would in fact promote the federal Act's purpose to make it unlawful {t}o discriminate in the sale or rental, or to otherwise make unavailable or deny a dwelling to any buyer or renter because of a handicap. . . ." 42 U.S.C. § 3604(f)(1).

However, other provisions of sections 18-1744 through 18-1747 appear to clearly offend the federal Act.

Although the new provisions of 42 U.S.C. § 3604(f)(1)(2) do not specifically include exclusionary zoning practices, case law interpreting the Fair Housing Act of 1968 and the legislative history of the Fair Housing Amendments Act are clear that Congress intended the statute to apply to zoning and land-use decisions. The House Report reads:

The new subsections would also apply to state or local land use and health and safety laws, regulations, practices or decisions which discriminate against individuals with handicaps. While state and local governments have authority to protect safety and health, and to regulate use of land, the authority has sometimes been used to restrict the ability of individuals with handicaps to live in communities. This has been accomplished by such means as the enactment or imposition of health, safety or land use requirements on congregate living arrangements among nonrelated persons with disabilities. Since these requirements are not imposed on families and groups of similar size of other unrelated people, these requirements have the effect of discriminating against persons with disabilities.

The committee intends that the prohibition against discrimination against those with handicaps apply to zoning decisions and practices. The act is intended to prohibit the application of special requirements through land use regulations, restrictive covenants and conditional or special use permits that have the effect of limiting the ability of such individuals to live in the residence of their choice in the community. Under H.R. 1158, land use and zoning cases are to be litigated in court by the Department of Justice. They would not go through the administrative process.

H.R. Rep. No. 711, 100th Cong., 2d Sess. 22 at 24.

Regulations promulgated by the Department of Housing and Urban Development (hereinafter HUD) to implement the Act state:

It shall be unlawful, because of . . . handicap . . . to restrict or attempt to restrict the choices of a person by word or conduct in connection with seeking negotiating for, buying or renting a dwelling so as to perpetuate, or tend to perpetuate, segregated housing patterns, or to discourage or obstruct choices in a community, neighborhood or development.

24 C.F.R. § 100.70(a).

Section 18-1744 defines group homes for purposes of the statute as a “. . . facility licensed by the State of Nebraska in which at least four but not more than eight persons, not including resident managers or house parents, who are unrelated by blood, marriage, or adoption reside” Neb.Rev.Stat. § 18-1744 (Reissue 1987). Such limitations on the number of unrelated persons who can reside in a group home, permitted in all municipal zones, appear to be a clear violation of the federal Act. Local governments may adopt legitimate restrictions for health and safety reasons on the number of persons within dwelling units. 24 C.F.R. § 100.10(3). However, such restrictions are permitted only if the restriction is applied equally to all persons similarly situated. If the restriction applies only to persons with disabilities, the statutory provision would violate the federal requirement to afford persons with handicaps “. . . equal opportunity to use and enjoy a dwelling.” 42 U.S.C. § 3604(f)(3).

Furthermore, this restrictive language applied only to group homes for disabled persons would appear to violate 42 U.S.C. § 3604(f)(2) by defining “. . . terms, conditions, or privileges of sale or rental of a dwelling . . . in connection with such dwelling, because of a handicap. . . .” 42 U.S.C. § 3604(f)(2). This position is reinforced by reference to the House Report, where the House Committee on the Judiciary stated:

This provision is intended to prohibit covenants or other terms or conditions, or denials of service because of an individual's

handicap and which have the effect of excluding, for example, congregate living arrangements for persons with handicaps. H.R. Rep. No. 711, 100th Cong., 2d Sess. 22 at 23.

Furthermore the provisions of sections 18-1746 and 18-1747 appear to clearly violate 42 U.S.C. § 3604(f)(1) & (2), and 24 C.F.R. 100.70(a).

Section 18-1746 prohibits state licensing of a new group home unless its location exceeds minimal distance requirements from other group homes. Section 18-1747 has limits based on population and the number of group homes within municipalities. Both provisions appear to clearly violate 42 U.S.C. § 3604(f)(1) & (2).

Such restrictions make unavailable to a person with a handicap housing that person might choose. These restrictions, absent applicability to dwellings of unrelated persons without disabilities, appear facially invalid. Absent a legitimate governmental interest and a rational relationship between these statutes and that governmental interest, the Nebraska statutes would likely be found to be unconstitutional. City of Clebourne v. Clebourne Living Center, 473 U.S. 432, 448 (1985). Furthermore, permitting conditional or special use permits or variances to waive the resolution of the statutes does not cure the violation. In fact, such requirement is discriminatory itself unless the same distance and density requirements apply to all dwellings of unrelated persons, and unless permits are required for these dwellings to deviate from the requirements.

Discriminatory rules restricting housing choices rules applied to persons with handicap solely because of their handicap clearly violate the federal Act and the federal regulations. 24 C.F.R. 100.70(a) & (d)(2).

The legislature's intent for Neb.Rev.Stat. §§ 18-1744 through 18-1747 to maximize the rehabilitative effect of group homes and to provide living experiences that approximate family and community environments so that residents can move on to more independent living situations, and to discourage the concentration of density in a few neighborhoods is a legitimate and important government goal. The intent was to provide greater rather than more limited opportunities for normal living arrangements. However, the restrictive provisions of the statute permit or require discriminatory effect as to persons with handicaps and, therefore, violate the federal Fair Housing Amendments Act of 1988.

We have reviewed materials provided by your office, including Attorney General Opinions from Kansas, Maryland and Virginia, and the Mental Health Law Project Report. We are in general agreement with the conclusions therein as to the invalidity of state

statutes with provisions substantially similar to Neb.Rev.Stat. § 1744 through 1747 (Reissue 1987 and 1989 Supp.).

Opinion No. 90014

DATE: February 21, 1990

SUBJECT: Constitutionality of legislation dealing with confirmation procedures for gubernatorial appointments.

REQUESTED BY: Senator William E. Barrett
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

In your opinion request to this office, you indicated that you are having a bill prepared which deals with legislative approval of gubernatorial appointments made while the Legislature is in session. Your bill would contain the following main provisions:

1. A gubernatorial appointee subject to legislative confirmation whose name was submitted to the Legislature during either a regular or special session would not begin serving until the Legislature approved his or her appointment.
2. If, by the end of the session during which the appointment was made, the Legislature had failed to approve the appointment by a majority vote, the appointee would not be approved and could not serve. In essence, failure to act on an appointment would constitute disapproval.
3. The Governor could not again appoint a person rejected during the session to the same office in the interim following that session.

You have asked if such a bill would be constitutional under pertinent provisions of our Nebraska Constitution. We believe that it would be, and our analysis is discussed below.

There are two provisions in our Nebraska Constitution which deal with legislative approval of gubernatorial appointments. Article IV Section 10 provides, in pertinent part:

The Governor shall appoint with the approval of a majority of the Legislature, all persons whose offices are established by the Constitution, or which may be created by law, and whose appointment or election is not otherwise by law or herein provided for; and no such person shall be appointed or elected by the Legislature.

The pertinent provisions of Article IV Section 12 of the Nebraska Constitution also provide:

If any nonelective state office, except offices provided for in Article V of this Constitution, shall be vacated by death, resignation or otherwise, it shall be the duty of the Governor to fill that office by appointment. If the Legislature is in session, such appointment shall be subject to the approval of a majority of the members of the Legislature. If the Legislature is not in session, the Governor shall make a temporary appointment until the next session of the Legislature, at which time a majority of the members of the Legislature shall have the right to approve or disapprove the appointment.

As noted in our recent Opinion No. 90010, Article IV Section 10 establishes the general appointment power of the Governor, and would presumably apply to situations where an appointment is not made as a result of a vacancy in office, *eg.*, at the end of a fixed term. On the other hand, Article IV Section 12 applies to appointments made by the Governor when there is a vacancy, *eg.*, incumbent in a particular office resigns. To determine the constitutionality of your proposed legislation, we must examine each of its provisions in light of Article IV Section 10 and Article IV Section 12.

First of all, your bill would provide that appointees whose names were submitted to the Legislature while it was in session could not serve until their appointment was confirmed. Neither Article IV Section 10 nor Article IV Section 12 of the Nebraska Constitution specifically speaks to the issue of when an appointee assumes office when his appointment must be confirmed by the Legislature and that appointment is made during a legislative session. However, where an appointment is made as a result of a nomination by one authority and confirmation by another, the appointment is not final and complete until the actions of all bodies involved have been taken. State ex rel. Johnson v. Hagemeister, 161 Neb. 475, 73 N.W.2d 675 (1955); 67

C.J.S. Officers §42; 63A Am.Jur.2d Public Officers and Employees, §117. This rule would seem to support the notion that under existing law, an appointee submitted for confirmation during a session could not serve until confirmed. Moreover, the Nebraska Constitution is not a grant of power, but a restriction on legislative power, and the Legislature may legislate on any subject not inhibited by the Constitution. Lenstrom v. Thone, 209 Neb. 783, 311 N.W.2d 884 (1981). Since the constitutional provisions at issue are silent on the subject of when an appointee during a session assumes the office except to provide that the appointment must be approved, it seems to us that the Legislature could legislate on this issue in the manner you have proposed.

We would note that Article IV Section 10 of the Nebraska Constitution provides that gubernatorial appointments shall be made "with the approval" of the Legislature, while Article IV Section 12 provides that vacancy appointments shall be made "subject to" approval by the Legislature. On this basis, it would be possible to argue that vacancy appointees whose appointments occur during a session could take office pending their confirmation. However, it is clear under the subsequent portion of Article IV Section 12 that vacancy appointees who are appointed while the Legislature is not in session do take office pending legislative confirmation. 1973-1974 Report of the Attorney General, No. 56 at 75. It seems to us that there would be little purpose in specifically differentiating between session and recess appointments if both groups of appointees could take office pending legislative approval. Since the obvious intent of Article IV Section 12 was to allow recess vacancy appointees to take office pending confirmation, the separate provision for session appointees would necessarily indicate a contrary intent. On this basis, we believe that the initial provision of your proposed bill would be constitutional.

Your proposed legislation would next provide that a gubernatorial appointment made during a particular session need be approved during that session. In other words, failure to approve a gubernatorial appointment made during a session would constitute a disapproval of that appointment. We have previously indicated that, under the language of Article IV Section 12, recess vacancy appointments must be approved or disapproved during the next legislative session, or the appointees to those offices serve the remainder of their terms. 1973-1974 Report of the Attorney General, No. 56 at 75. However, the provisions of Article IV Section 10 and Article IV Section 12 dealing with appointments made while the Legislature is in session do not contain the same language as the portion of Article IV Section 12 dealing with recess appointments. In fact, those sections again are

silent as to when the Legislature must voice its approval of a gubernatorial appointment. Since, as noted above, the Legislature may act in the absence of a prohibition in the constitution, we believe your proposed legislation requiring approval in a given session would be constitutional.

Finally, your proposed statute would provide that the Governor could not again appoint a person rejected during a given session to the same office during the interim following that session. The last sentence of Article IV Section 12 of the Nebraska Constitution provides, "No person after being rejected by the Legislature shall be again nominated for the same office at the same session, unless at request of the Legislature, or be appointed to the same office during the recess or adjournment of the Legislature." We believe that your final proposal is in conformance with that constitutional language.

We would note that your proposed legislation would apply to appointments made during special or regular sessions of the Legislature, and this raises the issue of whether the Legislature can consider gubernatorial appointments made during a special session. Our Supreme Court has previously indicated that legislative approval of a gubernatorial appointment is an executive rather than a legislative function. State ex rel. Johnson v. Hagemeister, supra. Therefore, such a duty would presumably not be subject to restrictions involving the scope of the call for the special session, and would be appropriate for a special as well as a general session. We have previously indicated that this is the case. 1945-1946 Report of the Attorney General, opinion dated August 28, 1946 at 408. This appears to be the general rule. 67 C.J.S. Officers §42; 63A Am.Jur.2d Public Officers and Employees, §119. Consequently, we believe that the Legislature could consider gubernatorial appointments during either a special or a general session of that body.

Sincerely yours,
ROBERT M. SPIRE

1 site is leased for other use, the department shall
2 require and assure that the radioactive waste history of
3 the site be recorded in the permanent land records of
4 the site. ~~All radioactive material accepted for~~
5 ~~disposal at a radioactive waste disposal site shall~~
6 ~~become the property of the state, except that remedial~~
7 ~~cleanup costs which become necessary during the period~~
8 ~~of custodial care shall be assessed first to the~~
9 ~~facility operator, then proportionately against the~~
10 ~~generators of the radioactive waste~~ All costs of
11 remedial action or removal as defined in sections 9 and
12 10 of this act shall be assessed in accordance with the
13 Radioactive Waste Disposal Liability Act.

14 (4) The state may contract for the operation

(Amendments to AM2508)

1 1. Insert the following new sections:

2 "Section 1. That section 48-601, Reissue
3 Revised Statutes of Nebraska, 1943, be amended to read
4 as follows:

5 48-601. Sections 48-601 to 48-671 and section
6 2 of this act shall be known and may be cited as the
7 Employment Security Law.

8 Sec. 2. Any person who is disqualified due to
9 (1) refusal of the lawful directive of an employer to
10 provide a body fluid sample or breath sample as provided
11 in section 48-1903 or (2) use or possession of a
12 controlled substance as defined in section 28-405, which
13 substance was not prescribed by a licensed physician or
14 surgeon, when such use or possession is either upon the
15 work site or affects the employment relationship, shall
16 be eligible for benefits if such persons are enrolled in
17 a drug or alcohol treatment program approved by the
18 commissioner. Such benefits shall be determined in the
19 same manner as benefits under the Employment Security
20 Act, but such benefits shall be appropriated from the
1 Employment Security Special Contingent Fund, and if
2 there are not enough funds available, such benefits
3 shall be appropriated from the General Fund.

4 Sec. 3. That section 48-621, Revised Statutes
5 Supplement, 1989, be amended to read as follows:

6 48-621. The administrative fund shall consist
7 of the Employment Security Administration Fund and the
8 Employment Security Special Contingent Fund. Each fund
9 shall be maintained as a separate and distinct account
10 in all respects, as follows:

11 (a) There is hereby created in the state
12 treasury a special fund to be known as the Employment
13 Security Administration Fund. All money deposited or
14 paid into this fund is hereby appropriated and made
15 available to the Commissioner of Labor. All money in
16 this fund shall be expended solely for the purposes and
17 in the amounts found necessary by the Secretary of Labor

18 of the United States for the proper and efficient
19 administration of the Employment Security Law and for no
20 other purpose whatsoever. The fund shall consist of all
21 money appropriated by this state and all money received
22 from the United States of America or any agency thereof,
23 including the Department of Labor and the Railroad
24 Retirement Board, or from any other source for such
1 purpose. Money received from any agency of the United
2 States or any other state as compensation for services
3 or facilities supplied to such agency, any amounts
4 received pursuant to any surety bond or insurance policy
5 for losses sustained by the Employment Security
6 Administration Fund or by reason of damage to equipment
7 or supplies purchased from money in such fund, and any
8 proceeds realized from the sale or disposition of any
9 equipment or supplies which may no longer be necessary
10 for the proper administration of such law shall also be
11 paid into this fund. All money in this fund shall be
12 deposited, administered, and disbursed in the same
13 manner and under the same conditions and requirements as
14 is provided by law for other special funds in the state
15 treasury. Any balances in this fund, except balances of
16 money therein appropriated from the General Fund of this
17 state, shall not lapse at any time but shall be
18 continuously available to the commissioner for
19 expenditure consistent with the Employment Security Law.
20 Notwithstanding any other provisions of this section,
21 all money requisitioned and deposited in this fund
22 pursuant to section 903 of the Social Security Act, as
23 amended, shall remain part of the Unemployment
24 Compensation Fund and shall be used only in accordance
1 with the conditions specified in section 903 of the
2 Social Security Act. Any money in the Employment
3 Security Administration Fund available for investment
4 shall be invested by the state investment officer
5 pursuant to sections 72-1237 to 72-1276.

6 (b) There is hereby created in the state
7 treasury a special fund to be known as the Employment
8 Security Special Contingent Fund. Any money in the
9 Employment Security Special Contingent Fund available
10 for investment shall be invested by the state investment
11 officer pursuant to sections 72-1237 to 72-1276. All
12 money collected under section 48-655 as interest on
13 delinquent contributions, less refunds, shall be paid

14 into this fund from the clearing account of the
15 Unemployment Compensation Fund at the end of each
16 calendar quarter. Such money shall not be expended or
17 available for expenditure in any manner which would
18 permit its substitution for or a corresponding reduction
19 in federal funds which would in the absence of such
20 money be available to finance expenditures for the
21 administration of the unemployment insurance law, but
22 nothing in this section shall prevent the money from
23 being used as a revolving fund to cover expenditures
24 necessary and proper under the law for which federal
1 funds have been duly requested but not yet received,
2 subject to the charging of such expenditures against
3 such federal funds when received. The money in this
4 fund may be used by the Commissioner of Labor only as
5 follows:

7 money received by this state pursuant to section 302 of
8 the federal Social Security Act, as amended, and
9 required to be paid under section 48-622;

11 contingent expenses which are deemed essential for good
12 administration but which are not provided in grants from
13 the Secretary of Labor of the United States and, for
14 this purpose, no expenditures shall be made from this
15 fund except on written authorization by the Governor at
16 the request of the Commissioner of Labor;

17 (3) To be transferred to the Nebraska
18 Technical Community College Aid Cash Fund; ~~and~~

19 (4) To be transferred to the Job Training Cash

ATTORNEY GENERAL'S OPINION

Opinion No. 90015

DATE: February 27, 1990

SUBJECT: Availability of State Employee Bonus
 Information Under the Public Records Statutes

REQUESTED BY: Jerry L. Sellentin, Director
 State Department of Personnel

WRITTEN BY: Robert M. Spire, Attorney General
 Dale A. Comer, Assistant Attorney General

You have asked for our opinion on the following question: "{c}an a State agency be required to provide the public with access to information concerning whether or not a particular agency employee received a bonus, based upon performance, and the amount, which information is contained in the employee's personnel file?" Our

answer to your question is "yes," but in a limited fashion as discussed below.

Your opinion request apparently grows out of a recent situation where an employee of a state agency requested that the agency provide information specifying which employees received bonuses during the year and the amount of the bonuses received. Under Chapter 7, Section 006 of the Nebraska Classified System Personnel Rules, a bonus is actually a form of merit pay increase and such an increase can only be awarded for documented superior job performance. Accordingly, release of the bonus information would, in effect, provide information on which employees received superior performance evaluation ratings and which did not.

Apart from the requirements of good operating policy and courtesy, we are aware of no Nebraska statutes which require state agencies to respond generally to questions from the public or to create or prepare materials in response to such general public questions. Therefore, we do not believe that an agency must create a list of employees who received bonuses. However, the public has a right to review existing public documents under the provisions of our state public records statutes, Neb.Rev.Stat. §84-712 et seq (Reissue 1987). Access to the bonus information in question therefore depends upon what particular documents are available, and whether those documents must be made public under the public records statutes.

There is very little case law interpreting the provisions of our state public records statutes. However, it is clear that where the words of a statute are plain and unambiguous, no interpretation is needed to ascertain their meaning, and, in the absence of anything to indicate to the contrary, words will be given their ordinary meaning. Vulcraft, a Division of Nucor Corporation v. Karnes, 229 Neb. 676, 428 N.W.2d 505 (1988). Moreover, an effect must be given to all the several parts of a statute, and no portion should be rejected as meaningless or superfluous. NC+ Hybrids v. Growers Seed Association, 219 Neb. 296, 363 N.W.2d 362 (1985).

Neb.Rev.Stat. §84-712.05 establishes several categories of public documents which may be withheld from the public by the lawful custodian of those records. Subsection (7) of §84-712.05 lists "personal information in records regarding personnel of public bodies other than salaries and routine directory information" as a category of information which may be kept confidential. We believe that subsection (7) would clearly allow a public agency to keep employee evaluations and bonus information in an employee's personnel file confidential. In addition, we believe that other materials or records reflecting such personal information may also generally be kept confidential. For example, a list prepared by the agency of those

employees who received bonuses and the amount of each bonus could be kept confidential under subsection (7).

On the other hand, it is clear that the public is entitled to review salary records under subsection (7). Moreover, Neb.Rev.Stat. §84-712.01(2) provides that the public records statutes shall be liberally construed whenever warrants, payrolls, vouchers or other fiscal records are involved. Therefore, we believe that fiscal records reflecting salary information for public employees may not be withheld from the public simply because they might indicate who received a bonus. On this basis, members of the public have an absolute right to review payroll warrants and other payment documents of state agencies.

Consequently, we believe that a state agency is required to release fiscal records which reveal salary payments to individual employees, and it may be possible for a person to review those records and determine who received a merit increase. To the extent that such fiscal records therefore "provide the public with access to information concerning whether or not a particular agency employee received a bonus, based upon performance, and the amount," even though that information is also in the employee's personnel file, your original question must be answered in the affirmative.

Sincerely yours,
ROBERT M. SPIRE
 Attorney General

- 4 follows:
- 5 77-2716. (1) The following adjustments to

6 federal adjusted gross income or, for corporations and
7 fiduciaries, federal taxable income shall be made for
8 interest or dividends received:

9 (a) There shall be subtracted interest or
10 dividends received by the owner of obligations of the
11 United States and its territories and possessions or of
12 any authority, commission, or instrumentality of the
13 United States to the extent includable in gross income
14 for federal income tax purposes but exempt from state

2 purposes;

3 (c) There shall be added the total dividends
4 and other income received from a regulated investment
5 company to the extent excluded for federal income tax
6 purposes, except that when a regulated investment
7 company has reported to the recipient that as of the end
8 of each quarter of the tax year of the company at least
9 eighty percent of its total assets were (i) obligations
10 described in subdivision (a) of this subsection, the
11 total dividends and other income may be excluded or (ii)
12 obligations described in subdivision (b) of this
13 subsection and obligations issued under the laws of
14 Nebraska that are exempt for federal income tax
15 purposes, the dividends and other income may be excluded
16 to the extent they are attributable to obligations
17 issued under the laws of Nebraska that are exempt for
18 federal income tax purposes; and

19 (d)(i) Any amount subtracted under this
20 subsection shall be reduced by any interest on
21 indebtedness incurred to carry the obligations or
22 securities described in this subsection or the
23 investment in the regulated investment company and by
24 any expenses incurred in the production of interest or
1 dividend income described in this subsection to the
2 extent that such expenses, including amortizable bond
3 premiums, are deductible in determining federal taxable
4 income.

5 (ii) Any amount added under this subsection

6 shall be reduced by any expenses incurred in the
7 production of such income to the extent disallowed in
8 the computation of federal taxable income.

9 (2) There shall be allowed a net operating
10 loss derived from or connected with Nebraska sources
11 computed under rules and regulations adopted and
12 promulgated by the Tax Commissioner consistent, to the
13 extent possible under the Nebraska Revenue Act of 1967,
14 with the laws of the United States. For a resident
15 individual, the net operating loss computed on the
16 federal income tax return shall be adjusted by the
17 modifications contained in this section. For a
18 nonresident individual or partial-year resident
19 individual, the net operating loss computed on the
20 federal return shall be adjusted by the modifications
21 contained in this section and any carryovers or
22 carrybacks shall be limited to the portion of the loss
23 derived from or connected with Nebraska sources.

24 (3) There shall be subtracted from federal
1 adjusted gross income for all taxable years beginning on
2 or after January 1, 1987, the amount of any state income
3 tax refund to the extent such refund was deducted under
4 the Internal Revenue Code, was not allowed in the
5 computation of the tax due under the Nebraska Revenue
6 Act of 1967, and is included in federal adjusted gross
7 income.

8 (4) Federal adjusted gross income shall be
9 modified to exclude the portion of the income or loss
10 received from a small business corporation with an
11 election in effect under subchapter S of the Internal
12 Revenue Code that is not derived from or connected with
13 Nebraska sources as determined in section 77-2734.01.

14 (5) There shall be subtracted from federal
15 adjusted gross income or, for corporations and
16 fiduciaries, federal taxable income dividends received
17 or deemed to be received from corporations which are not
18 subject to the Internal Revenue Code.

19 (6) There shall be subtracted from federal
20 taxable income a portion of the income earned by a
21 corporation subject to the Internal Revenue Code of 1986
22 that is actually taxed by a foreign country or one of
23 its political subdivisions at a rate in excess of the
24 maximum federal tax rate for corporations. The taxpayer
1 may make the computation for each foreign country or for

2 groups of foreign countries. The portion of the taxes
3 that may be deducted shall be computed in the following
4 manner:

5 (a) The amount of federal taxable income from
6 operations within a foreign taxing jurisdiction shall be
7 reduced by the amount of taxes actually paid to the
8 foreign jurisdiction that are not deductible solely
9 because the foreign tax credit was elected on the
10 federal income tax return;

11 (b) The amount of after-tax income shall be
12 divided by one minus the maximum tax rate for
13 corporations in the Internal Revenue Code; and

14 (c) The result of the calculation in
15 subdivision (b) of this subsection shall be subtracted
16 from the amount of federal taxable income used in
17 subdivision (a) of this subsection. The result of such
18 calculation, if greater than zero, shall be subtracted
19 from federal taxable income.

20 (7) Federal adjusted gross income shall be
21 modified to exclude any amount repaid by the taxpayer
22 for which a reduction in federal tax is allowed under
23 section 1341(a)(5) of the Internal Revenue Code.

24 (8) Federal adjusted gross income shall be
1 modified to exclude the amount received by an individual
2 as a qualified federal governmental pension. This
3 modification shall be limited to the maximum excludable
4 social security benefit, reduced by social security
5 benefits, as defined in I.R.C. 86(d), and by any amount

18 a married individual filing a separate return,
19 seventy-five percent of the maximum individual social
20 security benefit;

21 (b) Maximum excludable social security benefit

22 shall mean an amount which would be excluded from gross
 23 income if the applicable maximum benefit amount were
 24 treated as social security, as defined in I.R.C. 86(d),
 1 received during the taxable year;

2 (c) Maximum individual social security benefit
 3 shall mean the maximum total amount, as certified by the

 18 which is covered by an agreement made pursuant to
 19 section 218 of the Social Security Act.

20 Sec. 3. Sections 1 and 4 of this act shall be
 21 operative for all taxable years beginning or deemed to
 22 begin on or after January 1, 1991, under the Internal
 23 Revenue Code of 1986, as amended. The other sections of

RESOLUTION

LEGISLATIVE RESOLUTION 262. Introduced by Lamb, 43rd District; Scofield, 49th District; Dierks, 40th District; Peterson, 21st District.

WHEREAS, economic strength and the safety of its populace are of paramount importance to the well-being of Nebraska; and

WHEREAS, the northern portion of Nebraska between Chadron and Norfolk has long been served by a major line known as the Nebraska line of the Chicago and North Western Railroad; and

WHEREAS, rail transportation is a vital link between not only urban and rural Nebraska but more importantly between Nebraska, the nation, and the world, which link provides for the economical,

efficient, and safe movement of agricultural and industrial products and materials; and

WHEREAS, the Chicago and North Western Railroad has announced that it must divest itself of the Nebraska line either through sale or abandonment because of decreased local car-loading, increased competition, and the loss of the historic bentonite traffic over the line, and yet the railroad at the same time actively promoted the rerouting of the bentonite through South Dakota on the Dakota, Minnesota, and Eastern Railroad; and

WHEREAS, the level of service on the Nebraska line has been severely curtailed in recent months by the Chicago and North Western Railroad with railroad personnel terminated, equipment taken out of service, maintenance deferred, train schedules reduced from five to one per week, and historic Nebraska traffic rerouted over other lines, resulting in reliance on rail service being discouraged; and

WHEREAS, business and communities have experienced deliberate downgrading on the Nebraska line and desire to seek reinstatement of reasonable rail service so vital to the state; and

WHEREAS, the Chicago and North Western Railroad has solicited bids to sell the Nebraska line between Chadron and Norfolk but initially declined to sell essential equipment, facilities, and trackage and traffic rights or connections through, in, or beyond Chadron and Norfolk, thereby discouraging meaningful bids from third parties interested in maintaining rail service on the Nebraska line; and

WHEREAS, in the absence of the sale of the Nebraska line, the Chicago and North Western Railroad contends it has no alternative but to seek abandonment of the Nebraska line which would effectively isolate a significant portion of this state and eliminate competition for transportation service, thus increasing costs to shippers and resulting in an adverse impact on the stability and profitability of agriculture and other businesses that have historically relied on rail service; and

WHEREAS, the loss of rail service on the Nebraska line will force onto the highways of the state a substantial volume of traffic resulting in accelerated deterioration of highways, increased highway maintenance costs, heavier highway traffic in populated areas, and extensive highway movement of agricultural chemicals previously relegated to rail movement; and

WHEREAS, the resolution of this crisis confronting Nebraska requires both federal intervention, given the interstate nature of the preponderance of the traffic, the lack of meaningful Nebraska jurisdiction over the Chicago and North Western railroad, and the major role of the Interstate Commerce Commission in such a

situation, and the active involvement and participation of the state to develop an immediate and satisfactory solution to this crisis.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature urges the Chicago and North Western Railroad to reinstate the level of service previously enjoyed by business on the Nebraska line and to maintain such level of service while negotiating in good faith for the sale of a viable rail service having access to traffic and markets beyond Chadron and Norfolk, including the bentonite traffic.

2. That the Legislature requests that the Interstate Commerce Commission initiate an investigation into the alleged failure by the Chicago and North Western Railroad to fulfill the railroad's common carrier obligation under applicable law.

3. That the Legislature requests that the Interstate Commerce Commission use its good offices to insure that rail service over the Nebraska line be reinstated to the level of service previously enjoyed by businesses on the Nebraska line and be so maintained until the Chicago and North Western Railroad is relieved of its common carrier obligations by the transfer of the ownership and control of the Nebraska line to a responsible third party and that the Interstate Commerce Commission specifically recognize and order cessation of the deliberate downgrading of service on the Nebraska line.

4. That the Legislature expresses appreciation for past support and urges the members of the Nebraska delegation to the Congress of the United States to continue to use their good offices to (a) encourage the Chicago and North Western Railroad to reinstate the level of service previously enjoyed by business on the Nebraska line and to maintain such level of service while the railroad negotiates in good faith for the sale of a viable rail service having access to traffic and markets beyond Chadron and Norfolk, including the bentonite traffic and (b) urge the Interstate Commerce Commission to require the railroad to comply with its common carrier obligation until it is relieved of the obligation by the transfer of the Nebraska line to a responsible third party.

5. That the Transportation Committee of the Legislature, in recognition of the State's obligation to protect its economic strength and the safety of its populace, will continue to monitor this situation to explore and develop with private and public entities potential joint solutions to this problem.

6. That a copy of this resolution be sent to the Chair of the Interstate Commerce Commission, all members of the Nebraska

delegation to the Congress of the United States, and the President of the Chicago and North Western Railroad.

Laid over.

ATTORNEY GENERAL'S OPINION

Opinion No. 90016

DATE: February 27, 1990

SUBJECT: Is the principle of uniformity of taxation violated by LB 259 of the Ninety-first Legislature, Second Session and is the principle of "one man, one vote" applicable to "an affiliated school district" as those words are used in that legislative bill?

REQUESTED BY: Senator Rex Haberman
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Harold Mosher, Senior Assistant Attorney General

If LB 259 were enacted into operative law, all real property and all public elementary and high school students would be required to be in school systems which offer education in grades kindergarten through twelve. To accomplish this requirement, Class I school districts, which are not a part of a Class VI school district, would be required to affiliate with one or more Class II, III, IV, V, or VI school district(s). The act provides several methods by which the affiliation of Class I school districts could be accomplished. Under any of those methods, however, the identity of the Class I school districts per se, including their territory, their governing board, and the statutory powers and duties applicable thereto, would remain intact with

respect to providing educational services for students in grades kindergarten through eight.

With respect to educational services for students in grades nine through twelve, section 16 of LB 259 provides that whenever the affiliation of a Class I school district becomes final, the provisions of Neb.Rev.Stat. §§79-494 to 79-4,105 for nonresident high school education shall not apply to such district for the ensuing school year and the levy described in section 17 of this act shall become effective for the next ensuing calendar year following affiliation. Section 17 of LB 259 provides that each high school district which affiliates with one or more Class I school districts shall divide its budgeted current operational expense into an elementary portion for grades kindergarten through eight and a high school portion for grades nine through twelve. It is to be noted, however, that the registered voters of a Class I school district are not permitted to vote for the members of the governing board of such high school districts and consequently have little, if any, legal input in the development and adoption of the high school portion of such budget.

At the outset, there are simply insufficient facts available for this office to determine if the rate of taxation would be uniform pursuant to LB 259 and therefore we express no opinion thereon. We do note that LB 259 surely goes to the very verge of the law. The fact that the registered voters of a Class I school district are not permitted to vote for the members of the governing board of the high school district to which it is affiliated with is troublesome. But it is not necessarily unconstitutional. The statutes at issue in Ewing v. Scotts Bluff County Bd. of Equalization, 227 Neb. 798, 420 N.W.2d 685 (1988) are strikingly similar to LB 259 which the court found to be constitutional. Whether the principle of "one man, one vote" would be applicable to the governing board of the high school district providing the high school program for an affiliated Class I school district is therefore unknown.

In construing an act of the Legislature, all reasonable doubt must be resolved in favor of constitutionality. Mann v. Wayne County Bd. of Equalization, 186 Neb. 752, 756, 186 N.W.2d 729 (1971). For each of the reasons discussed above, we can not say that LB 259 would violate the rule of uniformity or the principle of "one man, one vote."

Respectfully submitted,
ROBERT M. SPIRE
Attorney General

ATTORNEY GENERAL'S OPINION

Opinion No. 90017

DATE: February 28, 1990

SUBJECT: The authority of the Wheat Board in promoting the development of markets for wheat.

REQUESTED BY: Senator Loran Schmit

WRITTEN BY: Robert M. Spire, Attorney General
Bernard L. Packett, Assistant Attorney General

This is in response to your inquiry concerning the authority of the Nebraska Wheat Development, Utilization, and Marketing Board with regard to the promotion and development of markets which might benefit wheat grown outside of Nebraska.

The authority of the Board is contained in § 2-2309 (Reissue 1987) which provides that the Board shall have the power to:

(1) Formulate the general policies and programs of the State of Nebraska respecting the discovery, promotion, and development of markets and industries for the utilization of wheat grown within the State of Nebraska.

Section 2-2309 also provides that the Board has the power to:

(5) Conduct, in addition to the things enumerated, any other program for the development, utilization and marketing of wheat grown in the State of Nebraska * * *.

These two provisions in and of themselves clearly give the Wheat Board authority for the development of markets only for Wheat grown with the State.

You have also asked if the Board may enter into market development contracts which promote increased wheat utilization to U.S. consumers if the increased wheat utilization actually comes from wheat grown in states other than Nebraska.

In this regard, we call to your attention that part of § 2-2309 which gives the Wheat Board power to:

(3) Cooperate with local, state, or national organizations, whether public or private, in carrying out the purposes of the Nebraska Wheat Resources Act and to enter into such contracts as may be necessary.

Although, there is no legislative history upon which we could rely as to the intention of the legislature in adopting this provision, we have no quarrel with the provision to the extent that it permits the Wheat Board to cooperate or enter into contracts with local (Nebraska) or State (Nebraska) governmental or public entities. However, to the extent that this provision was intended to authorize the Wheat Board to cooperate or enter into contracts with other states, or private state or national organizations, there are some constitutional questions which might be raised.

With regard to the provision of the law which would give the Wheat Board the power to cooperate or contract with another state, or agency of another state, we call your attention to the last

paragraph of Article I of the Constitution of the United States which provides in part:

No state shall, without the consent of congress, * * * enter into any agreement or compact with another state, * * *.

Although some leeway is given in one state contracting with another we are unable to say with any degree of certainty whether or not the Wheat Board would be in violation of the above provision of the United States Constitution without examining the specific language of a proposed contract.

The same is true with regard to contracts between the Wheat Board and private, state or national organizations, considering the language of Article XIII, Section 3 of the Nebraska Constitution, which provides that "the credit of the State shall never be given or loaned in aid of any individual, association, or cooperation * * *." In this regard we would be unable to give an opinion of the validity of such a contract without examining the specific language of the contract.

Aside from the constitutional questions that might be raised regarding contracts entered into by the Wheat Board, the Legislature has given the Board a great deal of leeway in contracting for the development of policies and programs respecting the discovery, promotion, and development of markets and industries for the utilization of wheat grown in Nebraska. There is no limitation placed upon the authority of the Board, even though there may be an incidental benefit to wheat grown in other states and to classes of wheat not grown in Nebraska. Within the limits placed upon the Board to contract by the the provisions of either the United States or Nebraska Constitution, the Board is free to establish or take part in programs which, in its best judgment, will assist policies and programs that would increase the utilization of Nebraska grown wheat.

Very truly yours,
ROBERT M. SPIRE
Attorney General

RESOLUTION

LEGISLATIVE RESOLUTION 263. Introduced by Conway, 17th District.

WHEREAS, the town of Dixon was platted by an engineer for the railroad in 1890 who, being homesick for his home in Dixon, Illinois, chose that name for the community. The town of Dixon was incorporated in 1893 with a population of 250; and

WHEREAS, Dixon seemed to be a gathering of people of Irish descent; therefore the name the fighting Irish came about; and

WHEREAS, in the early days of the community people gathered to organize a Sunday school for the children in a one-room schoolhouse a mile east of town, a heated discussion took place over the suggestion that the schoolhouse be moved to town, and several nights later the schoolhouse mysteriously appeared in town. (the building is still in use as a residence); and

WHEREAS, on August 15, 1890, a picnic dinner was held by the Catholic parishioners after Mass, and in the afternoon ball games were played with the whole community joining in the festivities. The tradition stuck and is claimed to be the oldest harvest festival in Nebraska. As the event developed more activities were added, and for many years a special train would run from Sioux City, Iowa, to Dixon to accommodate the crowds. The event is still held, not always on August 15, but always enjoyed by all;

WHEREAS, the railroad is still a major factor in the operation of the local elevator, and other current businesses include a United States Post Office, apiary, bar and grill, service station, used car and repair shop, gun repair and taxidermy, and salvage; and

WHEREAS, St. Ann's Catholic Church and the United Methodist Church continue to serve the community and surrounding area; and

WHEREAS, other advantages include the less-hurried life of small-town living; and

WHEREAS, the Dixon centennial celebration will be held August 12, 1990, and will include the high school alumni reunion, parade, barbecue, style show, square dance, antique display, and quilt show and for which a history book and centennial quilt are being made.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature congratulates the citizens of Dixon, Nebraska, as they celebrate the town's centennial.

2. That a copy of this resolution be sent to the town of Dixon, Nebraska, in care of Velma F. Dennis, Centennial Chairperson.

Laid over.

ATTORNEY GENERAL'S OPINION

Opinion No. 90018

Date: March 8, 1990

Subject: LB 908; Constitutionality of a bill giving first class cities certain powers with respect to programs for the elderly in light of vagueness and public purpose concerns.

Requested By: Senator D. Paul Hartnett and the Urban Affairs
Committee of the Nebraska State Legislature
Written By: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

LB 908 is a bill designed to give first class cities in Nebraska certain powers with respect to programs for the elderly. The bill, in its entirety, states:

A city of the first class may plan, initiate, operate, maintain, administer funding for, and evaluate facilities, programs, and services that meet the needs of elderly persons and contract with state agencies, political subdivisions, and private nonprofit agencies to exercise and carry out such powers.

You have requested our opinion as to whether LB 908 is unconstitutionally vague, and as to whether the bill may involve a constitutionally impermissible use of public monies for a private purpose. We believe LB 908 is constitutional for the reasons discussed below.

Your initial concern with LB 908 involves the broad and general nature of some of the language contained in the bill. For example, you are concerned that the terms "elderly," "funding," "initiate," and "private nonprofit agency" are so vague as to create a constitutional problem. You ask both if the bill provides sufficient specificity for constitutional application, and if it is appropriate or necessary to provide some definition for certain terms contained within the bill.

It is a general rule that a statute must be reasonably clear and definite to be constitutionally valid. Neeman v. Nebraska Natural Resources Commission, 191 Neb. 672, 217 N.W.2d 166 (1974). The void for vagueness doctrine is based on the due process requirements contained in the Fifth and Fourteenth Amendments to the federal constitution, and contained in Article I Section 3 of our Nebraska Constitution. U.S. v. Articles of Drug, 825 F.2d 1238 (8th Cir. 1987); State v. A.H., 198 Neb. 444, 253 N.W.2d 283 (1977). In order to pass constitutional muster, a statute must be sufficiently specific so that persons of ordinary intelligence must not have to guess at its meaning, and the statute must contain ascertainable standards by which it may be applied. State v. A.H., supra.

Most cases involving the question of unconstitutional vagueness have dealt with statutes or ordinances imposing criminal sanctions. However, the void for vagueness doctrine does apply equally to civil statutes. Id. Even though this is the case, greater vagueness is generally tolerated in a civil statute than in a criminal statute. U.S. v. Articles of Drug, supra. A statute which is otherwise valid will not be held void unless it is so deficient in its terms as to render it

impossible to enforce. Neeman v. Nebraska Natural Resources Commission, *supra*. The constitutional requirement of reasonable certainty in statutory language is satisfied by the use of ordinary terms which find adequate interpretation in common usage and understanding. Fulmer v. Jensen, 221 Neb. 582, 379 N.W.2d 736 (1986). Statutes are sufficiently definite when they use language which is commonly grasped. State v. Metteer, 203 Neb. 515, 279 N.W.2d 374 (1979).

LB 908 contains a general grant of authority to first class cities with respect to programs for the elderly. It contains no criminal penalties, nor does it regulate the ordinary conduct of citizens in any way. It does appear to contain language which is ordinary, in common usage and which can be commonly understood. Under the authorities noted above, we cannot say that the bill appears unconstitutionally vague. Indeed, it does not differ greatly from many of the other general provisions outlining the powers and authority of first class cities. See, Neb.Rev.Stat. §16-201 *et seq.* (Reissue 1987).

We would agree with your observation that LB 908 contains some very broad language. In addition, it is obviously helpful to all concerned if a particular statute is as clear and as specific as possible. Nevertheless, absent unconstitutional vagueness, the degree of specificity incorporated in a given statute is a matter of policy for the Legislature, and that body must decide if it is appropriate or necessary to add definitional provisions to LB 908. If such definitional phrases are not included in the bill, the language of LB 908 will be given its plain and ordinary meaning. In Interest of G.B., 227 Neb. 512, 418 N.W.2d 258 (1988).

You are also concerned that LB 908 might require an expenditure of public funds for a private purpose in violation of Article XIII Section 3 of our state Constitution. We believe that the bill is constitutional on its face when considered in light of that constitutional provision.

Article XIII Section 3 of our Nebraska Constitution provides, in pertinent part, “{t}he credit of the state shall never be given or loaned in aid of any individual, association, or corporation, . . .” The purpose of this provision is to prevent the state from extending its credit to private enterprise. Lenstrom v. Thone, 209 Neb. 783, 311 N.W.2d 884 (1981); United Community Services v. The Omaha National Bank, 162 Neb. 786, 77 N.W.2d 576 (1956). In essence, public monies may not be used for private purposes. State ex rel. Beck v. The City of York, 164 Neb. 223, 82 N.W.2d 269 (1957). It is for the Legislature to determine in the first instance what is and what is not a public purpose. State ex rel. Douglas v. Thone, 204 Neb. 836, 286 N.W.2d 249 (1979); Chase v. County of Douglas, 195 Neb. 838,

241 N.W.2d 334 (1976). That determination is not conclusive on the courts, but a lack of public purpose justifying a declaration that a particular statute is invalid must be so clear and palpable as to be immediately perceptible to a reasonable mind. Id. The vital point in all such determinations is whether the purpose is public and not whether the agency dispensing the funds is public or private. Chase v. County of Douglas, supra.

As noted in your request letter, LB 908 would allow first class cities "the authority to provide for the needs of a large and growing segment of their populations," the elderly. Under the standards discussed above, we do not believe that this is an inadequate public purpose. Moreover, the general provisions of the bill do not appear, on their face, to require the expenditure of public funds in aid of private entities. Consequently, we do not perceive any violation of Article XIII Section 3 which is clear or readily perceptible, and we believe that LB 908 is constitutional under that provision of our state Constitution.

Respectfully yours,

LEGISLATIVE RESOLUTION 282. Introduced by Lynch, 13th District; Wesely, 26th District.

PURPOSE: The purpose of this resolution is to study the definition of infectious medical waste in Nebraska to protect the public health and safety of the citizens of Nebraska. Highly publicized instances of improper disposal of medical waste in other states have raised the public's concern over proper medical waste handling. Medical waste, if it is infectious, can pose a public health problem. A scientifically based definition will protect the public from the spread of infection and also promote the cost-effective disposal of infectious waste by appropriate means. The adequacy of Nebraska law concerning the ability to use appropriate alternatives to incineration of medical waste should be specifically reviewed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study, in cooperation with the appropriate state agencies, to carry out the purpose of this resolution. The committee should solicit input from

the public, interested persons, persons with specific expertise in the area of medical waste, persons who would be impacted by the revision of the definition of infectious medical waste, and groups of persons with statewide membership as it deems necessary and beneficial to carry out the purpose of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

PURPOSE: The purpose of this resolution is to examine the confirmation process used by the Legislature in reviewing gubernatorial appointments. In light of Attorney General Opinions No. 90010 and No. 90014 issued during the 1990 legislative session interpreting Article IV, section 10, and Article IV, section 12, the Legislature's traditional ways of dealing with the confirmation process appear to have been significantly altered. Consequently, it is prudent for the Legislature to review its operating rules for approving gubernatorial appointments. The Legislature should examine its current process as well as its rules to determine whether changes are needed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a select committee of the Legislature shall be designated by the Executive Board of the Legislative Council to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall receive staff support from the Clerk of the Legislature's office.
3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

RESOLUTIONS

LEGISLATIVE RESOLUTION 301. Introduced by General Affairs Committee: Smith, 33rd District, Chairperson; Beck, 8th District; Elmer, 38th District; Hall, 7th District; Hartnett, 45th District; R. Johnson, 34th District; Kristensen, 37th District; Labeledz, 5th District.

PURPOSE: The purpose of this resolution is to systematically study legalized gambling and all gaming activity and its regulation in the State of Nebraska. The study will look at and compare tax rates, take-out and pay-out rates, expense limitations, reporting procedures, location limitations, auditing procedures, proceeds to the charity and its lawful purpose, and other regulatory requirements that are statutorily applied on horseracing, bingo, local option lotteries, and pickle cards. The costs, methods, and purposes of regulation applied by the state will also be examined, including the uses, advantages, and disadvantages of commissions versus code agencies as the regulatory bodies overseeing gambling.

The study will also look at the regulation of horseracing in Nebraska and systematically examine the rules and regulations adopted by the State Racing Commission and the statutory basis of such rules and regulations. The study should make proposals for updating the State Racing Commission's statutes to ensure that policy goals of the Legislature are being accomplished and that the commission's rules and regulations adequately reflect statutory authority.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 302. Introduced by Robak, 22nd District; Hartnett, 45th District; Chambers, 11th District; Wesely, 26th District; McFarland, 28th District; Abboud, 12th District; Chizek, 31st District; Ashford, 6th District; Beyer, 3rd District.

PURPOSE: The purpose of this resolution is to study the economic and environmental effects of the synchronization of traffic lights in Nebraska communities with a population of seven thousand five hundred or more persons.

The study shall include, but not be limited to:

- (1) A review and summary of studies done in other states regarding the benefits, fiscal impact, and drawbacks resulting from the synchronization of traffic lights;

(2) Gathering input and information from the Department of Roads and city engineers throughout the state regarding the benefits, fiscal impact, and drawbacks resulting from the synchronization of traffic lights;

(3) Collecting, reviewing, and summarizing data available from environmental groups and agencies throughout the country regarding the environmental impact resulting from the synchronization of traffic lights; and

(4) A discussion of any other issue the committee deems necessary to fully conduct the study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 303. Introduced by Lynch, 13th District.

PURPOSE: Enrollments at the Nebraska School for the Deaf and the Nebraska School for the Visually Handicapped continue to decline. The cost per student is fifty thousand dollars and is projected to be seventy thousand dollars by the 1994-95 school year. Nebraska has no single comprehensive program for children with multiple and difficult-to-serve handicaps. A significant amount of state money is being sent to other states for the purpose of educating Nebraska children with multiple and difficult-to-serve handicaps. Current statutes limit the role and mission of the Nebraska School for the Deaf and the Nebraska School for the Visually Handicapped. The purpose of this resolution is to study the role and mission of the two schools and investigate the feasibility of the cost of, the savings resulting from, and any other issues regarding changing the role and mission of the two schools to authorize the provision of programs for children with multiple and difficult-to-serve handicaps.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 304. Introduced by Barrett, 39th District.

WHEREAS, Mrs. Stufft will celebrate her ninetieth birthday and seventy years of volunteer service to the National Weather Service and Nebraska State Climatology Service in 1990; and

WHEREAS, Mrs. Stufft's volunteer service has involved daily weather observations for the seventy-year period; and

WHEREAS, Mrs. Stufft is the senior woman volunteer weather observer in the United States.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

RESOLUTIONS

LEGISLATIVE RESOLUTION 305. Introduced by Pirsch, 10th District.

WHEREAS, many children lose their lives in fires within their own homes;

WHEREAS, smoke detectors have proven effective as a preventive measure in the loss of lives;

WHEREAS, some homes do not have the benefit of smoke detectors;

WHEREAS, NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to determine the feasibility and desirability of requiring all homes and/or other buildings or structures in Nebraska to be equipped with smoke detectors.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 306. Introduced by Landis, 46th District.

PURPOSE: The purpose of this resolution is to cause a detailed study of a Department of Personnel policy limiting the ability of employees of the State of Nebraska insured under certain group health insurance plans to reduce the premiums paid for insurance coverage in the event of the occurrence of a family status change. For many years, it has been a policy of the State of Nebraska to provide a program of group health insurance for certain permanent employees of the state, with the premiums for such insurance being paid through the joint contributions of the insured employees and the State of Nebraska. This program is administered by the Department of Personnel. Under the terms of certain health insurance plans

adopted as a part of this program, changes in family status experienced by insured employees may cause an automatic reduction in the insurance coverage made available to those employees. Employees experiencing these family status changes are permitted to reduce the premiums paid for health insurance coverage under such circumstances, but the Department of Personnel has adopted a policy which allows those employees to make such reductions only within the first thirty days after the date of the occurrence of the family status change. Thereafter, reductions in insurance premiums can only be accomplished during a period of open enrollment.

It is the intent of this resolution to cause a detailed study of the impact of this Department of Personnel policy upon the cost of health insurance coverage received by employees of the state. The current policy of the Department of Personnel may result in a situation where health insurance coverage of employees may be reduced automatically, without a commensurate reduction in premium contributions. In such cases, premium contributions will be made by the insured employees and by the state for health insurance coverage that is not received. It is the intent of this resolution to cause a study of this situation in an effort to determine how frequently such cases arise and the related cost of such cases to the State of Nebraska and the insured employees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the Legislative Research Office, the Public Counsel's Office, and the Legislative Fiscal Analyst's Office be directed to assist in the completion of this interim study.
3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 307. Introduced by McFarland, 28th District.

PURPOSE: The purpose of this resolution is to study the mammography programs and the alternatives for the State of Nebraska.

The study shall include, but not be limited to, an examination of the following issues:

- (1) Assessment of the status of screening mammography in Nebraska;
- (2) Quality assurance;
- (3) Coalition building for mammography advocacy;
- (4) Communication efforts (public education) for mammography as well as breast self-examination and clinic exams;
- (5) Follow-up and treatment;
- (6) Cost and reimbursement by third party payers;
- (7) Funding for public health programs;
- (8) Models from other state governments;
- (9) Inter-agency promotion and coordination within Nebraska state government, such as the Department of Correctional Services, Department on Aging, Department of Public Institutions, and Department of Social Services;
- (10) Professional education;
- (11) Underserved populations at high risk; and
- (12) Organization of a state system to provide and promote mammography.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That an Ad Hoc Committee made up of other Senators or health care professionals to further assist with the purpose of this resolution may be formed.
3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 308. Introduced by Coordsen, 32nd District.

WHEREAS, in 1890 a young immigrant by the name of Joseph Steiner came to the three-year old village of Deshler, Nebraska, looking for employment and with the help of a local merchant, H. J. Struve, began to manufacture brooms from corn in a small shed attached to the rear of the Struve Mercantile Company; and

WHEREAS, by the end of the nineteenth century, the Deshler Broom Factory was receiving orders for as many as one thousand two hundred brooms per week and shipping them north to Rapid City,

south to St. Joseph, east to Chicago, and west to Denver and Las Vegas; and

WHEREAS, by 1926 a series of building additions increased the size of the factory to a length spanning two city blocks and employing two hundred people, having established itself as the largest single producer of brooms in the world; and

WHEREAS, the factory saw peak production in 1942 of over one and a half million dollars in sales and four hundred employees until three disastrous fires severely damaged the buildings and caused a cutback in its production capabilities; and

WHEREAS, the Deshler Broom Factory continues to produce nearly one hundred dozen quality brooms per day of various models and sizes, one hundred years since the first corn broom was wound by a humble immigrant in a little wood shed behind a dry goods store.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature congratulates the Deshler Broom Factory on the one hundredth anniversary of its founding, recognizes its impact on the development and growth of the community of Deshler, and commends its contribution to the rich history and heritage of this great state and the industrious people who settled it.

2. That copies of this resolution be sent to Harold Struve, Mayor of Deshler. and Berdon Pedersen, Manager of the Deshler Broom Factory.

Laid over.

LEGISLATIVE RESOLUTION 309. Introduced by Lindsay, 9th District.

PURPOSE: The purpose of this study is to examine the Nebraska Regulation of Health Professions Act known as the 407 review process.

The study shall examine the current process to determine whether it is satisfying the purpose for which the 407 review was originally adopted. This shall include an examination of all proposals that have been reviewed since the 407 review was implemented, a review of the criteria that are used to apply to 407 proposals, and a review of the manner in which applicant groups and technical review committee members are selected. It shall then include an analysis of the process as an effective means for developing a consensus among disparate

parties and for eliciting necessary and appropriate data, research, and other information from the 407 applicant.

In its conclusions, the study shall address the following points: (1) The policy implications in diverting requests for professional scope of practice changes and new credentialing to a selected administrative body for professional assessment; (2) the usefulness of the information produced for the Legislature through the 407 process; (3) the degree to which the process unburdens the Legislature from credentialing requests; and (4) whether any changes or modifications are necessary to more adequately meet the objectives of the 407 process.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a select committee be designated by the Executive Board of the Legislature to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 312. Introduced by Hartnett, 45th District.

PURPOSE: In LB 767, introduced and passed in 1989, the Legislature substantially altered and rewrote Nebraska's County and City Lottery Act. The alterations included a redefinition of what constitutes a legal lottery, making keno a legitimate lottery game. Because of the nature of the keno game, some questions have arisen since passage of LB 767 as to whether or not there should be a limit on the number of locations within a single community at which a keno game can be conducted and whether or not there should be a single location rule for Nebraska. Because of the state of existing technology, there should also be an examination of whether or not keno games can be conducted at a single location and wagers places at satellite locations.

The goal of this study is to examine the technological options available for the conduct of a keno lottery and determine whether or not our statutes need to be revised to place further, additional restrictions on the conduct of such games, most particularly as to the appropriate number of locations from which players can involve themselves in a game within a single community.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 313. Introduced by L. Johnson, 15th District; Abboud, 12th District.

PURPOSE: The purpose of this resolution is to determine the feasibility of creating a State Crime Stoppers Commission the primary responsibility of which would be to assist and develop local

crime stopper programs throughout Nebraska. Several states, including, Texas, New Mexico, and Connecticut, currently have in place state commissions charged with the duty of creating, expanding, organizing, advertising, and generally assisting local crime stoppers programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 314. Introduced by Rogers, 41st District; Conway, 17th District; Smith, 33rd District; Hefner, 19th District.

PURPOSE: The purpose of this resolution is to authorize an interim study of the Community Services Block Grant Program as administered by the Department of Social Services and funded by the United States Department of Health and Human Services. The interim study shall specifically examine the allocation formula used by the Department of Social Services to distribute grant funds to the nine community action agencies from the Community Services Block Grant Program. Particular emphasis shall be given to the development and history of the current formula, all factors used in developing the formula, including poverty population and their weight. when the formula was last revised, changes in poverty population in Nebraska since 1980, location of legal authority and responsibility to change the formula, and obvious inequities in dollars per poor person as allocated among the nine agencies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 315. Introduced by Bernard-Stevens, 42nd District.

WHEREAS, employee and employer drug testing, whether mandatory or voluntary, is a method of aiding the goal of maintaining a drug-free and alcohol-free work force; and

WHEREAS, there is equally strong sentiment that any drug test which leads to termination of an individual should be done fairly and accurately; and

WHEREAS, a fair and accurate drug testing policy is in the best interests of the employer and the employee.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature conduct an interim study to include, but not be limited to:

(a) An analysis of the federal and non-federal drug testing procedures being used in Nebraska;

2. That by January 1, 1991, the committee shall make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 316. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District;

Hall, 7th District; Labeledz, 5th District; Pirsch, 10th District; Smith, 33rd District.

PURPOSE: Nebraska has a long history of housing authority legislation stretching back to the first bill on the subject passed in 1937. Since the last major revision of our housing authority legislation in 1969, there has not been a major review of that law to determine how well it operates in a radically changed economic environment and a greatly altered federal legislative and regulatory scheme.

The Urban Affairs Committee considered three bills on the Nebraska Housing Authorities Law this session, LB 943, LB 944, and LB 945. All three bills dealt primarily with the relationship between housing authorities and the governing bodies of cities, most particularly in metropolitan-class cities, especially with regard to decisions on the location of low-income housing. While the committee advanced LB 944 to General File with committee amendments, the committee felt that it would be advisable to undertake an interim study of Nebraska's housing authorities and their enabling laws to determine if changes were appropriate to provide for better public accountability by the authorities and to determine the impact of changes in conditions over the past twenty years that might necessitate alterations in Nebraska's statutes.

The goal of the study shall be to review the existing statutory language and federal regulatory and case law and to provide a forum for the general public and municipal and housing authority officials to comment and provide additional information on the current problems facing Nebraska as it strives to provide housing for its low-income citizens.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 317. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District;

Hall, 7th District; Labedz, 5th District; Pirsch, 10th District; Smith, 33rd District.

PURPOSE: In this and the prior session of this Ninety-first Legislature, the Urban Affairs Committee has considered two bills dealing with the Metropolitan Utilities District. The first, LB 125, was introduced on behalf of MUD to define and clarify its authority and jurisdiction. The second, LB 1093, was introduced to restrict the authority and jurisdiction of MUD. Neither bill was advanced from committee, but both raised serious questions about the statutory provisions governing MUD and their current meaning.

The committee decided that there was a need to review the current statutes with the goal of clarification in mind. MUD was created in 1921 by the Legislature. At that time, the Legislature granted MUD, en masse and without further explanation, the authority previously granted to metropolitan water districts in 1913. In addition, as the right to provide natural gas service was granted to MUD, the statutes merely stated that gas service was to be provided upon the same terms as water service, with equal authority. The radical changes that have taken place over the past few decades, both within the natural gas industry and in Nebraska's state and local governmental and economic environments, have created a need for the statutes to be reviewed, updated, and clarified.

The purpose of this study is to address the issues raised by LB 125 and LB 1093 within the context of a comprehensive review and clarification of the statutes authorizing the Metropolitan Utilities District.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 318. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Labedz, 5th District; Pirsch, 10th District; Smith, 33rd District.

PURPOSE: During the 1990 Legislative session, the Urban Affairs Committee was called upon to consider LB 1057, a bill which would have prohibited Nebraska municipalities from enacting zoning ordinances that would limit the location of manufactured homes. The bill provided that manufactured homes that otherwise were similar to site-built homes in the same area could not be prohibited from placement solely for the reason that they were manufactured homes.

While recognizing that there was merit to the proposal, in that it might well assist first-time home buyers and lower income families to become homeowners by providing reasonably priced housing, there was concern about the impact of the bill's passage upon existing building codes. Municipal officials expressed opposition to losing their basic authority to establish the codes which insure safe housing for their residents.

Because of the relative novelty of this proposal in Nebraska and the complexity of the issues involved, the committee believed that it would be appropriate to undertake a study of the manufactured housing industry and the current federal legislation which governs the construction of such housing to see how that relates to other generally recognized and used standard codes. Further, it was felt to be important to study how proposals of a similar nature have been dealt with in other states and the experience of communities in those states when such proposals have been adopted. Finally, there was, it was determined, a need to review the legal issues involved to find out if there was any justification for the contention that Nebraska might ultimately be legally bound to adopt a proposal of this type.

The goal of the study will be to respond to the issues raised by LB 1057 and to build a basic body of data to assist future legislatures in addressing the need for lower-cost housing and the impact of such housing upon Nebraska communities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 319. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Labedz, 5th District; Pirsch, 10th District; Smith, 33rd District.

PURPOSE: One of the persistent concerns of the residents of any neighborhood in a community is the impact of a proposed change in zoning or use of a property in their vicinity. Coupled with the general concern is the suspicion that may be engendered by planning commission and council or board action to approve a zoning change when the neighboring residents have not received notice or been made aware of the proposed change. Current state law only provides for a legal notice in the community's newspaper, a notice which is often not seen or noted by the neighboring residents.

The Urban Affairs Committee considered LB 867 during the 1990 legislative session. The bill related to metropolitan-class cities and would have required notice by mail of a proposed zoning change to residents living in near proximity to the subject property. In attempting to address both city and resident concerns, the committee became aware of the complexity of the issues which are present beneath the seeming simplicity of the proposal.

While taking no action on LB 867, the committee determined that it would be appropriate to undertake a study of how municipalities across the state have addressed the zoning notice issue, to examine solutions to the problem, and to provide a forum for examination of possible solutions in which municipal officials and concerned citizens could express their ideas. The study would involve not only an examination of mailing notices but also of the wisdom of placing signs on the property to provide notice. In addition, it would examine whether it was more appropriate for the landowner seeking the zoning change or the municipality to be primarily responsible for providing the notice.

The goal of the study will be to craft a uniform zoning notice statute for all Nebraska cities and villages which will balance the public's right to notice of proposed zoning changes against the legitimate budgetary and staff limitations that face most of our municipalities which restrict their ability to provide the sorts of notice that might be desired at a reasonable cost to the taxpayer.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 320. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Labeledz, 5th District; Pirsch, 10th District; Smith, 33rd District.

PURPOSE: In 1987, the Urban Affairs Committee was called upon to consider the need for comprehensive legislation regarding municipal regulation of the natural gas industry. Using LB 663 as a foundation, through a series of negotiations between representatives of the natural gas industry and Nebraska municipalities, the committee crafted the Municipal Natural Gas Regulation Act, the state's first comprehensive legislation on natural gas regulation.

Nearly three years have passed since the act was adopted. There have been rate regulation proceedings under the act and a Supreme Court review of its provisions. This is an appropriate time to review the operation of the act to determine if it is working as intended and if changes are necessary. The act was unique in the country and a review would provide valuable insight into the effectiveness of local, municipal regulation of natural gas rates.

Such a study would not be complete without an examination of the current status of the natural gas industry both within and without the State of Nebraska. Changes in the economic and regulatory environment over the past few years have had, and will continue to have, major impacts on the rates charged to Nebraskans for natural gas. State statutes must respond to those changes to maintain fair and equitable rates and insure continued healthy competition between natural gas providers.

The goal of the study will be to review the operations of LB 633 over the past three years to determine its efficacy and to solicit comments from municipalities and members of the natural gas industry as to their experiences. Further, the study would endeavor to better understand the current status of the industry and the economic and regulatory parameters within which it operates, in order to propose legislative adjustments to the act to insure continued access to natural gas at competitive prices. The study would also be aimed at examining the industry within the state to determine if there is genuine competition among providers and what changes are

necessary to insure that all providers operate on a level competitive playing field.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 321. Introduced by Urban Affairs Committee: Hartnett, 45th District, Chairperson; Beck, 8th District; Hall, 7th District; Labeledz, 5th District; Pirsch, 10th District; Smith, 33rd District.

PURPOSE: Of the several standing committees in the Legislature, the Urban Affairs Committee has perhaps the broadest and most diverse subject matter jurisdiction. The committee has traditionally had referenced to it bills with subject matters extending from cemeteries to museums to natural gas. Bills often arise from specific problems in municipalities in a manner which does not lend itself to early identification or classification as would be the case with other committees.

Recognizing this fact, the Urban Affairs Committee proposed an interim study in 1989 aimed at identifying specific problems prior to the start of the 1990 Legislative session so as to permit the committee to undertake a more careful review of proposed solutions before the session began. As a consequence of this study, the committee was able to review several proposed pieces of legislation prior to the session which enabled it to act more quickly on the legislation after the session began, without sacrificing careful analysis or review of the legislation.

The purpose of this study will be to renew the process used successfully under LR95 in 1989 and provide a forum during the interim for municipalities and their representatives to present issues which would be the subject of future legislation or to solicit their reaction to proposals which have been presented to the Urban Affairs Committee for consideration. The subjects to be considered would extend to any matter relevant to the committee's subject matter jurisdiction. It would be the goal of this study to determine whether

such preliminary review of the issues could streamline the hearing process and permit an expedited review of urban-oriented legislation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

PURPOSE: The purpose of this resolution is to conduct a study of the requirements established by the United States Congress through the Truth in Mileage Act of 1986. The study shall include a review of sections 60-101 to 60-117 relating to certificates of title and an examination of the requirements mandated pursuant to federal law and regulations for certificates of title and other related documents for motor vehicles.

The study shall propose to the Legislature any needed changes in current provisions of law required to comply with the mandates of the Truth in Mileage Act of 1986.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 323. Introduced by Beyer, 3rd District.

PURPOSE: The purpose of this resolution is to direct the Transportation Committee of the Legislature to conduct a study to determine whether the Legislature should authorize the officers of the carrier enforcement division of the Nebraska State Patrol to bear firearms in the performance of their official duties.

In conducting this study the committee shall seek the input and opinion of the general public, state and local law enforcement officials, the motor carrier industry, and other interested parties. The

study shall include a review of and any recommended changes in the current statutory powers of the carrier enforcement division.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Transportation Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 324. Introduced by Hefner, 19th District.

PURPOSE: The purpose of this resolution is to direct a committee of the Legislature to conduct a study on the feasibility of enacting a lid on property taxes levied by local governments, limiting total levies to two percent of valuation. This study shall include an analysis of (1) whether such a proposal would be best implemented in the Constitution of Nebraska or by statute and (2) the state aid which would be needed to make up any losses in revenue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 325. Introduced by Hartnett, 45th District; Lindsay, 9th District.

PURPOSE: Several of Nebraska's private higher educational institutions are involved in providing training and education for health care providers in the state. They have served as vital links in the delicate chain of health care services for Nebraska residents, both urban and rural. At this time of great concern about the cost and availability of health care in the state, it is important to examine the

role of these private institutions and determine how such role relates to the current programs undertaken by state institutions and how the various programs interrelate.

The goal of this study shall be to evaluate the programs currently offered by private institutions for health care provider education, determine the role of the programs in the total scheme of health care in Nebraska, examine the needs and costs involved in such programs, determine if there are any cooperative efforts with state institutions which can or should be undertaken to avoid program duplication and unnecessary state costs, and evaluate the success of such potential joint, cooperative programs in better utilizing financial resources and providing for Nebraskans health care needs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 326. Introduced by L. Johnson, 15th District; Wehrbein, 2nd District; Conway, 17th District; Kristensen, 37th District.

PURPOSE: The purpose of this resolution is to conduct an interim study on the establishment of a collegiate license plate program which would permit a Nebraska motor vehicle owner to obtain for a fee from the Department of Motor Vehicles a license plate bearing the logo of a Nebraska university or college. Several states already have programs in existence to produce collegiate license plates, and the State of Florida, in particular, has shown great success in generating additional revenue from the fees collected for collegiate plates for a school's academic enhancement endeavors. The study shall include, but not be limited to, an analysis of the following:

1. A review of the availability and utilization of collegiate plates in other states;
2. The minimum number of collegiate plate requests that must be received to offset the production costs associated with designing and producing collegiate plates for a particular state college or university;
3. An estimation of the cost of designing and producing collegiate plates with a recommendation on the fee to be charged for the plates;

4. The disposition of the funds generated from requests for collegiate plates; and

5. A projection of demand and expected revenue if Nebraska offers collegiate plates.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Transportation Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 327. Introduced by Ashford, 6th District.

PURPOSE: The purpose of this resolution is to examine the effectiveness of implementing value engineering in Nebraska. The study shall include a determination of whether capital construction projects which have a projected cost of five hundred thousand dollars or more and which will require the expenditure of state funds should be reviewed by the department or agency of the state requesting the project and the architect and engineer to whom the project has been assigned, which review would include an analysis of the proposed design of the structure, the materials to be used, and the cost-effectiveness of the materials and design. The study shall examine the cost-containment and quality management procedures presently employed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 328. Introduced by Wehrbein, 2nd District; Morrissey, 1st District.

PURPOSE: The purpose of this resolution is to conduct an interim study on current and potential rail passenger service in Nebraska. The study should specifically analyze a recently completed AMTRAK report on operating a Kansas City to Omaha extension of rail passenger service and also examine the feasibility and need for the service. This extension has received considerable public support, would be economically beneficial to large areas of Nebraska, would access southeastern AMTRAK routes, and is made feasible with track already in place by the Burlington Northern and Union Pacific Railroads. With the continuing uncertainty of federal financial support for AMTRAK, the study should address the steps necessary to secure and maintain the additional service from Kansas City to Omaha with stops along the proposed route. The study should involve input from representatives of the United States Department of Transportation, AMTRAK, Nebraska's elected federal representatives, and officials and citizens from interested local governments and organizations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a select committee consisting of members from the Appropriations Committee and the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 329. Introduced by Hall, 7th District; Haberman, 44th District.

PURPOSE: The purpose of this resolution is to study indepth the collection of tax on leased vehicles and the reporting of the collection of such tax. Since the collection or noncollection of taxes in this area has an effect on tax receipts and create advantages for those involved, this study shall include, but not be limited to, (1) the collection of taxes by instate and outstate companies, (2) the reporting of taxes by instate and outstate companies, and (3) the impact of such collection and noncollection of taxes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 330. Introduced by Schellpeper, 18th District; Lindsay, 9th District; Scofield, 49th District.

PURPOSE: There are many problems related to child support and visitation in this state. Although progress has been made in dealing with these issues, problems with child support and visitation continue to affect many children and their families in the State of Nebraska. Such problems include, but are not limited to, the following:

1. Noncustodial parents failing to pay court-ordered child support;

2. Delays in child support enforcement;

3. Difficulties in modifying child support orders when the noncustodial parent lacks sufficient means to pay; and

4. Noncustodial parents being denied visitation with their children.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to examine issues relating to child support and visitation and to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 331. Introduced by Business and Labor Committee: Coordsen, 32nd District, Chairperson; Chambers, 11th District; Hefner, 19th District; Korshoj, 16th District; Lindsay, 9th District; Morrissey, 1st District; Pirsch, 10th District.

PURPOSE: The purpose of this resolution is to provide for a study of private and public training to identify resources that can be coordinated, opportunities for collaboration between the private and public training sectors, and problems presented to the people of the state in securing training or retraining.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Business and Labor Committee of the Legislature with staff assistance from the Legislative Research Division shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 332. Introduced by Withem, 14th District.

PURPOSE: To study potential benefits and costs for Nebraska to enter into a Midwest Higher Education Compact. Over the last two decades states in several areas of the nation have formed interstate compacts creating commissions which have fostered cooperation between postsecondary educational institutions in member states. Cooperative ventures have included reciprocal agreements for greater student access to degree programs at resident tuition rates and jointly operated professional schools and research programs, as well as

numerous exchange programs. With the coming of age of telecommunications in higher education, there appears to be even greater potential for broadening education access for Nebraska students, citizens, and businesses. The purpose of this resolution is to establish a study group to more thoroughly examine the potential benefits and costs of entry into a Midwest Higher Education Compact and commission.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 333. Introduced by Chambers, 11th District.

PURPOSE: Interim Study to produce a comprehensive model of the criminal and juvenile justice systems in Nebraska.

WHEREAS, the State of Nebraska faces continuing problems with crime, including the associated prison overcrowding problems, the drain on the state coffers, and the enormous human and social costs to the victims, their friends and families, the families of the criminals, and the state in its entirety; and

WHEREAS, the Legislature in Legislative Resolution 222, Ninety-first Legislature, First Session, resolved to conduct a study of prison overcrowding, the study was conducted, and the study returned recommendations for the improvement of prison overcrowding but also returned several recommendations for further study of the criminal and juvenile justice systems in Nebraska; and

WHEREAS, the Legislative Research Division has undertaken a preliminary investigation of prison capacity in Nebraska which has described the inmate population in Nebraska and has indicated several areas requiring further study of the criminal and juvenile justice systems in Nebraska; and

WHEREAS, taken together, the recommendations of the prison overcrowding study and the prison capacity study make abundantly clear the futility of addressing the problems faced by the Nebraska

criminal and juvenile justice systems by merely addressing the problems of the prisons; and

WHEREAS, a study to produce a comprehensive model of the criminal and juvenile justice systems in Nebraska appears to be the most efficacious method of finally addressing these problems; and

WHEREAS, the purpose of this resolution is to conduct an interim study to produce such a comprehensive model.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a comprehensive study of the criminal and juvenile justice systems in Nebraska shall be undertaken during the 1990 interim period.

2. LEGISLATIVE RESOLUTION 334. Introduced by Crosby, 29th District.

PURPOSE: The purpose of this resolution is to examine the feasibility of a public State Arts High School. As the cultural climates throughout many areas of Nebraska are developing at different rates and varying degrees of quality, the citizens of Nebraska need to develop an environment conducive to cultivating special artistic talents many young Nebraskans possess. The Legislature should research for possible options to develop a four-year state high school offering academic and artistic classes and training, including, but not limited to, the disciplines of dance, music, theater, and the visual arts, and thereby make a determination whether such a high school is a realistic and desired public educational institution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature, with the help of the State Department of Education, shall be designated by the Executive Board of the Legislative Council to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall receive staff support from the Clerk of the Legislature's office.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

PURPOSE: (1) The purpose of this resolution is to study the effect of state taxation on federal pensions and capital gains benefits. The study shall include, but not be limited to: (a) Study on federal action and impact on Nebraska law; (b) accessibility and understanding by the general public on Nebraska law; and (c) consideration of what other states are doing in reference to these two areas.

(2) Because it has been the subject of much Legislation in past sessions, the purpose of this study is to look indepth at the taxation of charitable gaming in Nebraska. The study shall include, but not be limited to, taxes collected on (a) bingo, (b) pickle cards, and (c) city or county lotteries. Also included in the study shall be an attempt to address the expenditures of such taxes and the uniformity of the taxes. Parimutual wagering shall also be included in the study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 336. Introduced by Hall, 7th District.

PURPOSE: The purpose of this resolution is to lay the groundwork for the repeal of the property tax on personal property other than motor vehicles. The revenue lost by such repeal shall be replaced by a state aid program financed by the expansion of the sales tax base to include some services and a corporate income tax increase.

During the past year, the courts have determined that our personal property tax system is unfair and unconstitutionally discriminatory due to the large-scale and arbitrary exemptions to the imposition of the tax. It has become apparent over recent months that the only workable solution is to repeal the property tax on all personal property other than motor vehicles. It has also been established that expanding the sales tax to include some services is the least objectionable method of raising large amounts of revenue and that the corporate income tax is underutilized in Nebraska. The study will attempt to resolve three fundamental issues:

(1) What is an appropriate definition of real property, vis-a-vis personal property, and how much revenue would be lost to local subdivisions if all personal property other than motor vehicles were exempt from property taxation;

(2) How much expansion in the services sales tax base and how large a corporate income tax increase will be necessary to replace the revenue lost; and

(3) How additional state funds shall be distributed to political subdivisions in the most fair and equitable way.

Hearings shall be held to allow public input into the details of this solution and to determine the fairest possible way to implement the change. The hearings shall include participation by the widest possible array of interests.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 337. Introduced by Hall, 7th District.

PURPOSE: The purpose of this study is to examine the inheritance tax and the state estate tax. The study should examine the structure and rates of the taxes, the impact of the taxes on the state and its political subdivisions, and the fairness of the taxes on persons paying them.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 338. Introduced by Goodrich, 20th District.

PURPOSE: The purpose of this resolution is to examine the need for a regional center to be established in Omaha. The Department of Public Institutions currently operates regional centers in Lincoln, Hastings, and Norfolk. The study should examine whether current needs are being met.

If it is determined a new center should be established, a recommendation should be made regarding the most efficient way of establishing a new center.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 339. Introduced by Wesely, 26th District.

PURPOSE: The State of Nebraska needs to evaluate and develop economic development policies and programs on an ongoing and comprehensive basis to assist businesses and communities throughout the state. Economic development programs and initiatives need to be studied in areas including, but not limited to, (1) the formation of private venture capital in Nebraska, (2) the authorization for the Nebraska Investment Council to invest in venture capital, (3) assistance to new and existing small businesses in Nebraska, (4) community development programs and assistance, (5) investment in research and development, and (6) the development of a comprehensive foreign trade assistance program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 340. Introduced by Hall, 7th District.

PURPOSE: As counties in the State of Nebraska are already facing limitations on their budgets and the State of Nebraska faces a constitutional amendment which would prevent the growth of local and state expenditures and several bills which have sought to establish such limits on the state and political subdivisions, the purpose of this resolution is to study the effects of implementing a limitation on budgets. The study shall include, but not be limited to, the whole scope of areas which may have some bearing on limitations of governmental divisions.

The purpose of this resolution is also to study the possibility and feasibility of allowing real estate owners to make tax payments in monthly installments as proposed in Legislative Bill 1036, Ninety-first Legislature, Second Session, 1990. The study shall include, but not be limited to, (1) the ability of county assessors to comply with such policy, (2) the cost of implementing the program, (3) benefits and problems in implementing such program, and (4) how other states handle such programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 341. Introduced by Wesely, 26th District; Schimek, 27th District.

PURPOSE: The cost of running for state offices has risen greatly and qualified candidates are excluded from running for such offices as a result of the rising costs.

The purpose of this resolution is to study the current methods of campaign financing and campaign spending in Nebraska and to examine various methods of limiting both spending levels and contribution levels in state office elections.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 342. Introduced by Wesely, 26th District; Chambers, 11th District; Pirsch, 10th District.

PURPOSE: The purpose of this resolution is to study state trapping laws and the use of steel jaw and snare traps in Nebraska. The use of steel jaw and snare traps causes unnecessary pain and suffering to the victims. Oftentimes the victims of these traps are animals that were not intended to be trapped. Other types of traps, such as the box trap, can be used effectively without causing excruciating pain to and unnecessary suffering by animals that are intentionally and unintentionally trapped in Nebraska.

The study shall examine various changes to state statutes to restrict the use of steel jaw and snare traps and reduce the incidents of unnecessary pain and suffering by animals trapped in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 343. Introduced by Lynch, 13th District.

PURPOSE: The purpose of this resolution is to study the rules of the Legislature. Because the rules are essential to ensuring that the Legislature is conducted in a smooth and orderly fashion, the Legislature needs to study its present rules for inadequacies and omissions. The study shall include, but not be limited to, the following issues:

- (1) The appropriations process;
- (2) The priority bill system; and
- (3) Any other issues the committee deems necessary.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Rules Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 344. Introduced by Beyer, 3rd District; Peterson, 21st District; Hefner, 19th District.

PURPOSE: The purpose of this resolution is to propose an interim study on landfills in the State of Nebraska because the state's laws are some of the weakest in the nation. Such study should address:

- (1) Procedures on selection of location and site;
- (2) Regional Solid Waste Management, Title 132, Chapter 2, and regionalization concepts;
- (3) Exemptions for cities of the second class and villages;
- (4) Needs of smaller communities;
- (5) Financial assistance on post-closure costs;
- (6) Ability of currently licensed sites to meet criteria outlined and how to upgrade such facilities;
- (7) Adoption of a State Solid Waste Management Plan to give state direction in solid waste planning;
- (8) The problem of out-of-state refuse coming into Nebraska;
- (9) Protection of the state's water quality; and
- (10) What can be disposed of in landfills.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 345. Introduced by Scofield, 49th District; Nelson, 35th District; Coordsen, 32nd District.

PURPOSE: The purpose of this resolution is to examine state-supported residential services for children. Residential care is an important element of a comprehensive continuum of services for children and families. Residential care, however, is one of the most expensive services that a child can receive often costing between \$2,500 to \$4,000 monthly per child. In accordance with the family policy objectives established by the Legislature in 1987 and codified at sections 43-532 to 43-534, community-based services for children should be established with residential care available to children with highly specialized needs.

This study is intended to follow up on the work of the Select Committee on Children and Families in 1989 which reviewed the characteristics of those juveniles housed at the youth development centers operated by the Department of Correctional Services. The study will examine the characteristics of children placed at the Nebraska Center for Children and Youth, including Whitehall, operated by the Department of Social Services and the Adolescent Care Unit, including Morton School, operated by the Department of Public Institutions. The study will further include, but not be limited to, an examination of short-term and long-term plans for the programs and facilities, the services provided as a part of the programs, the number of children receiving services, and the cost of operating the programs and facilities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Select Committee on Children and Families of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Legislative Research Division and the Public Counsel's Office shall be directed to assist the committee in carrying out the purposes of this study.

3. That the Department of Social Services, the Department of Public Institutions, and the State Department of Education shall cooperate and assist the committee, the Legislative Research Division, and the Public Counsel's Office in carrying out the purposes of this resolution.

4. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 346. Introduced by Scofield, 49th District; Coordsen, 32nd District.

PURPOSE: The state has a number of children and families whose needs require the services of multiple state agencies and program providers. Community representatives who are knowledgeable about effective interventions, such as members of the nine Family Preservation Teams supported by the Department of Social Services, the twenty-eight Early Childhood Special Education Planning Regions facilitated by the State Department of Education, the five Youth Mental health Specialists funded through the Department of

Public Institutions, and the seventy citizens who participated in the Governor's Summit on Children and Families, have called for clear-cut assignment of roles and responsibilities of the appropriate state agencies.

The state has agreed to prepare and implement plans to develop a comprehensive system of early intervention services for handicapped infants and toddlers under Part H of the Education of All Handicapped Children Act, Public Law 99-457. It has prepared a plan of children's mental health services as required by Public Law 99-660 and has developed certain programs and agency capabilities through the Children and Adolescent System of Services Program grant funded by the National Institute of Mental Health.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a Select Committee on Children and Families of the Legislature shall be designated to conduct an interim study to review the plans that have been developed that affect children and families.

2. That the committee direct the appropriate agencies to prepare estimates of the scope and costs of full and adequate services for each of the targeted populations and obtain broad public input concerning the validity of such projections.

3. That the committee explore alternatives for assuring the stability of any assignments of responsibility and interagency agreements which may be proposed in the plans presented.

4. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 347. Introduced by Scofield, 49th District: Withem, 14th District.

PURPOSE: The State of Nebraska has agreed to plan for the implementation of Part H of Public Law 99-457 which assists states in developing a statewide, comprehensive, coordinated, multidisciplinary, interagency program of early intervention services for handicapped infants and toddlers and their families. The State Department of Education as lead agency appointed by the Governor has contracted for a study of Nebraska's current and possible expanded participation in providing early intervention services. Such study when completed will identify and analyze existing and potential funding resources, design service delivery system models, and develop

a detailed plan for financing the proposed delivery system. The assignment of roles and responsibilities to Nebraska's human-service agencies has been an issue of long-term interest to the Legislature.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature and the Select Committee on Children and Families of the Legislature shall be directed to carry out the purposes of this resolution by reviewing the study upon its completion and the resulting recommendations.

2. That the committees communicate with the Governor and appropriate agencies to determine the feasibility of the recommended financing plans.

3. That the committees conduct interviews and hearings as appropriate to determine if legislation needs to be prepared and introduced in order to provide an adequate array of early intervention services.

4. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 348. Introduced by Smith, 33rd District; Schimek, 27th District.

PURPOSE: The New Seeds for Nebraska has created a Statewide Unity Task Force to promote the teaching of Nebraska history and culture. Because there is a need to increase the awareness in the state's heritage, a study of the present status of Nebraska history instruction is needed before recommendations for improvements can be made. The Legislature should study all aspects of Nebraska history instruction in order to ascertain whether improvements can be made.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 349. Introduced by Smith, 33rd District.

PURPOSE: The purpose of this interim study resolution is to:

- (1) Establish a study of the cost and effectiveness of the Reimbursable Motorcycle Safety Education Program;
- (2) Review the quality of such program;
- (3) Examine the availability of instructors;
- (4) Examine the number of motorcycle riders reached by the program;
- (5) Determine the distribution of such programs in the state;
- (6) Determine the impact the program has had on the safety of motorcycle riding in Nebraska; and
- (7) Propose appropriate legislation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall call upon the resources of the Public Counsel and the Director of Research of the Legislature for assistance in conducting the study.
3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 350. Introduced by Smith, 33rd District.

PURPOSE: In 1987, twenty-three local offices of the Department of Social Services were closed as part of a cost-cutting measure. Along with the closings, thirty-three positions in the same areas of the state were eliminated.

The purpose of this resolution is to systematically study the impact of the closing of the twenty-three local offices. The study will examine the amount and extent of any cost-savings to the state from the closings, if there was in fact a cost savings, the impact of the closed offices on the delivery of services to the clients in those areas, the impact on the responsiveness of the Department of Social Services to emergency situations in the areas affected by the closings, the impact on other Social Services staff who still provide services to the

affected areas, including effects caused by drive-time and caseload size, and the effects the closings had on other agencies, including the courts, local law enforcement, and other local human service delivery agencies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 351. Introduced by Landis, 46th District.

PURPOSE: The purpose of this resolution is to consider updating and rewriting Nebraska's insurance statutes, including the provisions of Chapter 44, article 3, governing investment by insurance companies of their funds.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study, in cooperation with the Department of Insurance, to carry out the purposes of this resolution. The committee should solicit the input of interested persons and groups as it deems necessary and beneficial to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 355. Introduced by Landis, 46th District.

PURPOSE: The purposes of this study are to (1) examine provisions of the Securities Act of Nebraska which establish fees for (a) registration of securities and (b) initial and renewal registration for broker-dealers, issuer-dealers, investment advisers, and agents and (2) consider whether possible adjustments in these registration fees would be appropriate, particularly in light of the impact any such adjustments would have on total fee collections by the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study, in cooperation with Department of Banking and Finance, to carry out the purposes of this resolution. The committee should solicit the input of interested persons and groups as it deems necessary and beneficial to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 356. Introduced by Smith, 33rd District.

PURPOSE: The purpose of this resolution is to conduct an interim study of the policies and procedures utilized by the Department of Social Services to establish unit-of-service contracts and contract rates with area agencies on aging service programs. The study shall determine whether the contracting procedures are appropriate and adequate to assure quality care as well as coordination of services and resources for the persons served by such agencies.

The study shall include, but not be limited to, the following issues:

(1) Identifying the services provided to the aged population by both the area agencies on aging and the Department of Social Services;

(2) Identifying and studying the direct and indirect costs involved in providing the identified services directly and through agency contracts by the Department of Social Services;

(3) Identifying and studying the area agency on aging costs involved in providing the identified services with and without service contracts with the Department of Social Services;

(4) Studying the policies and procedures used by the Department of Social Services to establish the scope and rates for service provision contracts with the area agency on aging service program;

(5) Studying the extent of joint planning efforts and the interagency information sharing for the services;

(6) Studying the potential impact on the area agency on aging services for client services not supported by the Department of Social Services, if the department were to pay full area agency on aging cost for contracted services; and

(7) Holding a public hearing to receive input from area agency on aging providers on the impact of current contract policies for services provided through Department of Social Services contracts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a special committee of the Legislature consisting of five members of the Legislature, one who will chair the study, one representative of the Department on Aging, two representatives of the Department of Social Services, and two representatives from the Area Agencies on Aging shall be appointed by the Executive Board of the Legislative Council to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature by December 1, 1990.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 357. Introduced by Crosby, 29th District.

PURPOSE: The purpose of this resolution is to examine the appointment and confirmation process used by the Governor and the Legislature in appointing members to state agencies, boards, commissions, and committees and similar entities. The Governor's authority to appoint and the Legislature's power to confirm are derived from both the Nebraska Constitution and statutes. The large number of appointments to be made can make it difficult for the Governor to locate qualified individuals willing to serve. The large number also makes it difficult for members of the Legislature to become familiar with the qualifications of the appointees. A lot of time is spent on this process and the Legislature should review the process to see if improvements can be made.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 358. Introduced by Wesely, 26th District; Morrissey, 1st District.

PURPOSE: The purpose of this resolution is to study the size, makeup, and function of the Environmental Control Council. Currently, the council consists of sixteen members, each of whom is by statute appointed to represent a specific interest. However, none of those specific interests, nor the council's present membership, includes representation of any established environmental organization. On the evidence of published survey results, Nebraskans have less than full confidence in the Department of Environmental Control to protect the state's environment and population from harmful pollutants and hazardous substances.

Recognizing these facts, it is proposed that a study be undertaken to review the council's present makeup and to devise a revised membership and representation process which will offer a more

appropriate balance of industrial, agricultural, conservation, and environmental interests. The study should also review the function of the council in an effort to determine whether it is effective in its prescribed role of providing both public input and oversight of the activities of the Department of Environmental Control and suggest, as appropriate, changes in function which may serve to increase its effectiveness.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 359. Introduced by Baack, 47th District.

PURPOSE: The purpose of this resolution is to study the regulation of pooled labor markets in Nebraska. Rising health care costs, in many instances, are directly attributable to spiraling personnel expenditures. The utilization of pooled labor resources may be a contributing factor to these increased costs. In addition, the issue of quality health care is one which concerns all of us. The necessity to insure that pooled labor markets provide quality health care to those who rely upon such markets is essential to maintain the integrity of our health care delivery system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 360. Introduced by Wesely, 26th District.

PURPOSE: The purpose of this resolution is to study the feasibility of establishing a liaison to represent the State of Nebraska on federal issues and policies that impact our state. Since the 1990 farm bill and many other federal policies have a great impact on Nebraska, there is the need to have a liaison between the State of Nebraska and the Congress and federal agencies to represent the interests of the citizens of Nebraska. The purpose of this resolution is to examine the options available in establishing a liaison between the state and the federal government including establishing a state office in Washington, D.C.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Intergovernmental Cooperation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 361. Introduced by Wesely, 26th District; Labeledz, 5th District.

PURPOSE: The purpose of this resolution is to study how the State of Nebraska can encourage and develop economic, cultural, and educational ties with Eastern Europe. Recent events in Eastern Europe have provided new opportunities for Nebraska and the United States to develop economic, cultural, and educational relations with countries in Eastern Europe that will be mutually beneficial. Nebraska should take advantage of this change in Eastern Europe and identify and examine opportunities to build better relations with this area of the world from which many Nebraskans' ancestors originated.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 362. Introduced by Smith, 33rd District; Beck, 8th District; Hefner, 19th District.

PURPOSE: The purpose of this resolution is to provide for a systematic and comprehensive study of degradability, source reduction, recycling and reuse, waste-to-energy through safe incineration, and landfilling, their impact on the solid waste stream, and the environment.

The environmental impact of solid waste disposal has become an issue of concern at the state, national, and international levels, and the citizens of Nebraska are becoming increasingly aware of the environment and the need to take protective steps to ensure that our land, air, and water resources are protected and wisely managed. In order to formulate the basis for environmentally sound policy, the need for additional information in the area of solid waste management is evident and must be compiled in a form that the Legislature can utilize as policy decisions are formulated.

The study shall include, but not be limited to, a review of:

(1) Laws, rules, and regulations proposed or enacted in other states or by the federal government to regulate landfills and the disposal of solid waste;

(2) Environmental variables which affect sanitary landfill degradation;

(3) Degradability as a potential answer where recycling or reuse are not feasible, and the role degradable products may have in solid waste disposal;

(4) The types of degradabilities and materials used to manufacture degradable products and their effectiveness and environmental impact;

(5) The feasibility and environmental impact of source reduction, recycling or reuse, and waste-to-energy through incineration; and

(6) Any trends in the field of solid waste management and the economic impact of such trends.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a special committee of the Legislature shall be appointed by the Executive Board of the Legislative Council to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 363. Introduced by Business and Labor Committee: Coordsen, 32nd District, Chairperson; Chambers, 11th District; Hefner, 19th District; Korshoj, 16th District; Lindsay, 9th District; Morrissey, 1st District; Pirsch, 10th District.

PURPOSE: To hold hearings and review reports relating to rural economic development and job creation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 364. Introduced by Moore, 24th District.

PURPOSE: The purpose of this resolution is to study the impact of the passage of Laws 1989, LB 48. LB 48 was passed on a vote of 27-16 and prohibited the promotional distribution of smokeless tobacco products. The study should investigate any and all potential impacts of the ban as well as how such a ban relates to controls imposed upon other products within the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

- (7) Adequacy of state-administered publicly funded substance abuse treatment programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 366. Introduced by Warner, 25th District.

PURPOSE: The purpose of this resolution is to study hate groups and violence related to hate groups in Nebraska.

There has been increased nationwide growth of and attention given to hate-related or bias-related groups which intimidate, manifest prejudice, and advocate activities, incidents, and crimes based on an individual's race, national origin, or religion. Such groups undermine the values of mutual and individual respect upon which the nation was founded. The growth in the activities has been evidenced in Nebraska by public advertisements for and recruitment of memberships in such groups. The recent increase in the activities indicate that an interim study to address the problem this year is particularly timely. The study should include an investigation of the extent of such groups' activities and determination of any statutory changes necessary to further the investigation and prosecution of such crimes and the discouragement of such activities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 367. Introduced by Schimek, 27th District; Bernard-Stevens, 42nd District; Chizek, 31st District; Landis, 46th District; Baack, 47th District; Chambers, 11th District; Wesely, 26th District; Labeledz, 5th District; Schmit, 23rd District; Warner, 25th District; Pirsch, 10th District; Nelson, 35th District; Scofield, 49th District.

PURPOSE: The purpose of this resolution is to examine questions which have been raised regarding the investigation, prosecution, and management of child abuse cases, including, but not limited to, neglect and psychological, physical, and sexual abuse. Recent investigations into child abuse cases are examples of the system failing to address the needs of the children in our society. The growing number of child abuse cases in Nebraska demand that Nebraska have a system that is capable of proper investigation, prosecution, and treatment of the perpetrators of the crime as well as the victims.

The study shall include a review of (1) an analysis of the current statutory framework, (2) the investigation and prosecution of child

abuse cases, including treatment programs for both victims and perpetrators of child abuse or the lack of such treatment programs, (3) policies and practices regarding the effective record keeping of child abuse cases by the Department of Social Services, law enforcement agencies, county attorneys, and juvenile and criminal courts, and (4) reports of child abuse cases, including an analysis of how the Department of Social Services, law enforcement agencies, county attorneys, and juvenile and criminal courts respond.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Executive Board of the Legislative Council shall appoint a select committee on child abuse and related issues. The chairpersons of the Appropriations, Health and Human Services, Judiciary, and Government, Military and Veterans Affairs Committees shall submit the names of two of their respective committee members to the Executive Board, which shall appoint them and one member of the Executive Board to the select committee. In addition, the Select Committee on Children shall appoint one of its own members to serve on the select committee. The select committee shall elect a chairperson from among its membership and may appoint a project director from senatorial staff.

2. That the select committee shall draft a study plan defining the objectives of the study and may designate project teams from among legislative offices.

3. That the select committee shall consider obtaining the services of one or more persons or firms with nationally recognized expertise in the field of child abuse to aid in carrying out the purposes of this resolution.

4. That the study shall include but not be limited in its findings to (a) recommendations for changes in the statutory framework, (b) recommendations on improvements of current treatment programs for victims and perpetrators, (c) the creation of uniform procedures for receiving reports, screening and investigating cases, and providing services for victims and perpetrators, and (d) estimates of the potential costs of such systems and treatment programs.

5. That, since one of the primary purposes of this study is to directly assist in fostering the administration of the statutes dealing with child abuse and neglect, sections 28-710 to 28-727, the records dealing with child abuse collected under such sections shall be made available to the select committee and its staff subject to strict confidentiality. No records or any part of such records shall be made available to persons outside of the committee and its staff and shall be used for data collection purposes only.

6. That the select committee shall develop a long-range plan relating to child abuse cases and related issues and shall, prior to December 1, 1991, make a report of its findings, together with its recommendations, to the Legislative Council of the Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 369. Introduced by Health and Human Services Committee: Wesely, 26th District, Chairperson; Byars, 30th District; Crosby, 29th District; Dierks, 40th District; Goodrich, 20th District; Schellpeper, 18th District.

PURPOSE: The State of Nebraska is affected fiscally and socially by the need for and provision of human service programs and by the health status of its citizens. These human service and health issues include, but are not limited to child care, cost containment for health care services, availability of nurses and other health care providers, services for persons with head injuries, health care for the medically indigent, laboratory testing, maternal and infant care, mental health, mental retardation, substance abuse, poverty, regulation of new health professions, rural health care availability, teenage pregnancy, asbestos removal, the Nebraska Mental Health Commitment Act, child abuse, adult abuse, Medicaid services, fees for licensure, services for the medically fragile, services for the developmentally disabled, hunger, acquired immunodeficiency syndrome, sexual abuse of children, and certificate of need. 1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

PURPOSE: The purpose of this resolution is to study the process for disciplining licensed health professionals and to determine the effectiveness of the current procedures in responding to complaints against health professionals, including chemical impairment. As disciplinary activities have increased over the last several years, concerns have surfaced regarding the role of the Department of Health, the Attorney General, and the Board of Examiners in implementing the disciplinary system.

The study shall include, but not be limited to, the following:

- (1) The role of the Board of Examiners in the review and investigation of complaints;

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 372. Introduced by Wesely, 26th District.

PURPOSE: The purpose of this interim study resolution is to conduct a study to identify the concerns of biological parents who have children in the foster care system in Nebraska. In 1988, the Department of Social Services engaged Michael Petit to conduct a study of Nebraska's foster care system. The report, Meeting the Challenge of Children in Foster Family Care, released in December 1988 is the most comprehensive, recent study of foster care in Nebraska. The consultants conducted interviews and summarized the points of view of many involved with the foster care system, including providers, legislators, state agency personnel, and foster parents. However, the study did not include an assessment of the concerns of biological parents who have children in the foster care system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall call upon the resources of the Public Council and the Director of Research of the Legislature and such other legislative staff as may be willing to participate for assistance in carrying out the purposes of this resolution.

3. That the committee shall work with the Department of Social Services, the Department of Public Institutions, the State Department

of Education, and the Foster Care Review Board in carrying out the purposes of this resolution.

PURPOSE: The purpose of this resolution is to review the status of foster care in Nebraska particularly as it relates to the placement of very young children. The review should include an analysis of the extent of out-of-home placement in Nebraska of children under the age of three years. The study shall address policy issues concerning the needs of such children.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 374. Introduced by Wesely, 26th District.

PURPOSE: The purpose of this study resolution is to conduct a study on the availability and accessibility of respite care in the State of Nebraska. Statistics show that:

(1) The number of single parent families with disabled children is increasing;

(2) Older parents are increasingly responsible for the care of adult children;

(3) Abuse and neglect of disabled children is increasing;

(4) Infants with multiple disabilities are more likely to live due to advances in medical care and technology; and

(5) A greater number of children with medical or behavioral disorders are being relinquished because of a lack of support for the family.

In accordance with the family policy objectives as specified in sections 43-532 to 43-534, respite care is a preventive service that is critical in assisting families to meet the varied problems that they may face particularly when one of the family members is behaviorally disordered or physically disabled.

The Health and Human Services Committee shall:

(a) Study the availability and accessibility of respite care services across the state to families in crisis situations;

(b) Identify methods for recruiting and training respite care providers;

(c) Identify funding sources for respite care services; and

(d) Identify methods for increasing community awareness of the availability of respite care services and the potential need for additional services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 375. Introduced by Wesely, 26th District; Hall, 7th District.

PURPOSE: The purpose of this resolution is to examine and possibly develop a Taxpayers Bill of Rights for Nebraska. In 1987, the state income tax system was changed which increased the tax burden for low-income and moderate-income Nebraskans and reduced the tax burden for wealthy Nebraskans. These changes also resulted in a more complicated tax system for Nebraska taxpayers. As a result, Nebraskans have had their confidence and trust in state government shaken.

This study shall examine any Taxpayers Bill of Rights proposed or adopted by the federal government and other states and determine whether a Taxpayers Bill of Rights is needed to help protect

Nebraskans from unfair state tax policies and help restore the public's trust in state government.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 376. Introduced by Wesely, 26th District.

PURPOSE: The purpose of this study is to conduct a review of long-term care services in Nebraska. Numerous changes have occurred in recent years as a result of federal changes. Nebraska has more than seventeen thousand citizens living in long-term care facilities. These are vulnerable, elderly, or disabled individuals.

The study shall include, but not be limited to:

(1) The impact of the OBRA changes on long-term care in Nebraska:

(2) The health care professional staff shortage and its effect on nursing homes:

(3) The feasibility of a statewide volunteer ombudsman's program;

(4) Ways to strengthen the service delivery system for long-term care: and

(5) The need for community-based services for the elderly as an alternative to nursing home care.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 377. Introduced by Wesely, 26th District.

PURPOSE: The purpose of this resolution is to study ways to make improvements in the delivery of public health services in Nebraska. The study shall include, but not be limited to, an examination of:

- (1) Current public health services in Nebraska;
- (2) Improving the availability of public health services;
- (3) Assuring that all children in Nebraska have needed immunizations;
- (4) The "185% of poverty" medicaid option for pregnant women and young children; and
- (5) An examination of a health pocketbook system for use by citizens similar to the system in place in Japan.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 378. Introduced by Elmer, 38th District.

PURPOSE: Propane and fuel oil are vital to businesses of mainstream Nebraska. The price differential per British Thermal Unit (BTU) is a matter of concern to private industry and is a matter of much discussion.

The purpose of this resolution is to conduct a study to look at the current advertising practices of Nebraska Public Power District and other public power districts and the price differentials to determine if there should be suggested legislative changes.

While conducting such study a public hearing should be held so that all citizens of Nebraska may have input into the study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 379. Introduced by Pirsch, 10th District.

WHEREAS, criminal violence preys on millions of Americans and thousands of Nebraskans every year; and

WHEREAS, victims of crime and their families and friends often suffer grave financial, physical, and psychological losses; and

WHEREAS, special victim groups such as racial minority victims, victims of hate crimes, elderly victims, child victims, surviving relatives of homicide victims, victims of drunk driving, sexual assault victims, differently-abled victims, spouse abuse victims, catastrophic physical injury victims, and burglary victims are of the underserved in many of our communities; and

WHEREAS, all victims share a common bond of suffering and survival; and

WHEREAS, all citizens of the United States deserve to be treated with dignity, compassion, and justice in times of distress; and

WHEREAS, heretofore such treatment has not been afforded to all victims, witnesses, and their loved ones or survivors; and

WHEREAS, thousands of our fellow citizens, in their work and their volunteer activities, are devoting themselves to bringing a full measure of dignity, compassion, and justice to those of our friends, relatives, and neighbors who fall victim to crime.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature designates and proclaims the week of April 22 to 28, 1990, as Victims Rights Week in Nebraska.

2. That the members of the Legislature encourage all Nebraskans to become active in assisting and supporting their fellow citizens who may, through no fault of their own, become victims of crime.

3. That the Legislature expresses its gratitude to those who give so much of their time and efforts to reduce the plight of crime victims and make their world a better, safer place to live.

Laid over.

LEGISLATIVE RESOLUTION 380. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Beck, 8th District; Elmer, 38th District; R. Johnson, 34th District; Lamb, 43rd District; Morrissey, 1st District; Smith, 33rd District; Wehling, 48th District.

PURPOSE: The purpose of this resolution is to propose a study concerning the best methods of preserving and protecting the Niobrara River.

The Niobrara River is a valued resource and natural gem for the entire State of Nebraska. Congress is presently considering legislation to designate the Niobrara as a scenic river. The impact of such a designation on the Niobrara River, the surrounding landowners, and persons who would use the river for agricultural, domestic, and recreational purposes should be studied. It would be in the best interests of the State of Nebraska for the Legislature to cooperate with local governments in the resolution of this controversial issue.

The purpose of this resolution also is to examine the potential need for an interlocal protection plan or other state action which would govern the control and use of the Niobrara River and the lands adjoining its banks including possible action pursuant to section 2 of the federal Wild and Scenic Rivers Act of 1968.

The study shall examine the entire mainstream of the Niobrara River in Nebraska from the Wyoming-Nebraska state line to its confluence with the Missouri River, including the major tributaries. The study shall include a determination as to the need for any government protection of the Niobrara River, shall formulate an analysis of the available methods of protecting the values and natural resources of the river under current state law, and shall further explore other alternatives through proposals for new legislation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.
3. That a copy of this resolution be provided to the Nebraska congressional delegates and to the chairpersons of the appropriate congressional committees.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 381. Introduced by Schmit, 23rd District; Peterson, 21st District; Schellpeper, 18th District; Conway, 17th District.

PURPOSE: The purpose of this resolution is to study the rate-setting and business practices of public power districts in Nebraska, especially in their relationships with large industrial customers. Recurring and protracted litigation between public power suppliers and their customers has established that costs have not been properly and fairly allocated among customer classes in certain instances and rates have not been established in a fair, reasonable, and nondiscriminatory manner as required by law. The adequacy and applicability of these rate statutes and the adequacy and appropriateness of rate-setting practices should be specifically reviewed and available alternatives explored to ensure that the legal and fiduciary obligations of public power districts in Nebraska are followed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study, in cooperation with the appropriate state agencies, to carry out the purposes of this resolution. The committee should solicit information from large industrial customers who utilize public power districts and others who may be affected by rate policies of our public power districts and should hold public hearings in Norfolk, Kearney, or such other location that the committee determines to most effectively gain the information necessary to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

VISITORS

Visitors to the Chamber were Senator Korshoj's sister, Marilyn Jackson, and Ann Benson from Fremont; 60 fourth grade students and teachers from Fremont Elementary; 26 eighth grade students and teacher from Osceola High School; Lou Jensen, Carol Wright, and Bob Reynolds from Chadron State College; Nadine Fricke from McCook and Mary Jane Morris from Lincoln; 30 Nebraska Municipal Power and Pool Wives; 38 students and sponsors from Wisner-Pilger High School; Naomi Smith from Omaha; and members of W.I.F.E.

RECESS

At 12:06 p.m., on a motion by Mrs. Crosby, the Legislature recessed until 1:30 p.m.

AFTER RECESS

The Legislature reconvened at 1:30 p.m., Speaker Barrett presiding.

ROLL CALL

The roll was called and all members were present except Messrs. Ashford, Hannibal, L. Johnson, Landis, McFarland, Schmit, Warner, Wehrbein. Mmes. Labeledz, Langford, Pirsch, Smith, Mses. Schimek, and Scofield who were excused until they arrive.

18 A vote FOR the proposal will allow the (name
 19 of political subdivision) to increase the total property
 20 taxes levied by (number) percent.

21 A vote AGAINST the proposal will limit the
 22 (name of political subdivision) to the increases
 23 permitted by sections 23 and 24 of this act.

RESOLUTIONS

LEGISLATIVE RESOLUTION 384. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Beck, 8th District; Elmer, 38th District; Lamb, 43rd District; Morrissey, 1st District; Smith, 33rd District; Weihsing, 48th District.

PURPOSE: Despite the fact that legislative activity in recent years has evidenced a high level of concern with solid waste management and disposal, little attention has been paid to the potential of new technologies that provide feasible and economical options for eliminating municipal solid waste by converting it into a usable source of electric energy.

Last legislative session saw the introduction of LB 788, the purpose of which was to provide a framework for municipality and public power district cooperation in creating an efficient and cost-effective waste-to-energy facility. The bill resulted from a joint state and local study on the possibility of establishing a waste-to-energy facility in Bellevue. The study pointed out the need for some sort of long-term agreement between the municipality and the power district on the price to be paid for the electricity generated by burning of the waste.

At the public hearing on LB 788, testimony from around the state pointed out the need to refine the provisions of the bill to avoid problems and potential higher future costs to the public power industry in this state.

The function of this study would be to review the existing form of LB 788 and, with the cooperation of the public power industry, determine how best to redraft it to allay its concerns for the future. An attempt will be made to determine whether this technology can indeed provide some feasible solutions for Nebraska's municipal solid waste disposal problems.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 385. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Beck, 8th District; Elmer, 38th District; R. Johnson, 34th District; Lamb, 43rd District; Morrissey, 1st District; Smith, 33rd District; Wehing, 48th District.

PURPOSE: The purpose of this resolution is to review the legislation and statutes regarding underground petroleum storage tanks, including the Petroleum Release Remedial Action Act, and to suggest possible improvements, if any, to the present statutory scheme particularly in the areas of lender security interests, fund reimbursement, and program administration.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 386. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Elmer, 38th District; R. Johnson, 34th District; Lamb, 43rd District; Morrissey, 1st District; Wehing, 48th District.

PURPOSE: The purpose of this resolution is to study degradable products. The study shall include a review of:

- (1) Laws and rules and regulations proposed or enacted in other states or by the federal government to regulate or control the use, sale, manufacture, or disposal of degradable products;
- (2) The state of the technology used to produce degradable products;
- (3) The types of degradabilities and their effectiveness;
- (4) The types of degradable products available and their quality;
- (5) Materials used to manufacture degradable products;
- (6) The environmental impact of degradable products; and
- (7) Any trends in this field and the economic impact of such trends.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 387. Introduced by R. Johnson, 34th District.

PURPOSE: The purpose of this resolution is to study whether and under what conditions Nebraska should assume administration of the Federal Insecticide, Fungicide, and Rodenticide Act. Questions shall relate to, but not be limited to, designation of the state lead agency, administrative and enforcement duties of the lead agency, program funding, personnel requirements, and relationship of the Federal Insecticide, Fungicide, and Rodenticide Act to other Environmental Protection Agency proposals concerning endangered species, groundwater protection, farm worker protection, and pesticide residue standards.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 388. Introduced by Withem, 14th District.

PURPOSE: The purpose of this resolution is to study the request by the Nebraska Indian Community College for funding assistance from the State of Nebraska for providing educational services to non-Indian students attending the Nebraska Indian Community College in northeast Nebraska. The study shall emphasize, but not be limited to, determining the percentage of non-Indian students attending the college and a cost determination as comparable to allocations received from the Bureau of Indian Affairs for Indian students enrolled at the college.

Additionally, the study shall assess any need for changes that may be needed in state law in order to facilitate a more fair and equitable financial assistance to the Nebraska Indian Community College for educating non-Indian students.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 389. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Elmer, 38th District; Lamb, 43rd District; Morrissey, 1st District; Wehing, 48th District.

PURPOSE: The purpose of this resolution is to authorize an interim study to develop a comprehensive plan for solid waste management in the State of Nebraska with particular emphasis on the unique problems of solid waste management confronting rural communities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 390. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Beck, 8th District; Elmer, 38th District; R. Johnson, 34th District; Lamb, 43rd District; Morrissey, 1st District; Smith, 33rd District; Weihing, 48th District.

PURPOSE: As environmental protection issues continue to grow in dimension and complexity, the demands placed upon the Department of Environmental Control have also increased significantly. Since the creation of the department in the early 1970s several programs have been added to the jurisdiction of the department for regulation and oversight. These include leaking underground storage tanks, wastewater treatment facilities, hazardous waste, low-level radioactive waste disposal, Superfund sites, chemigation, and solid waste. As actions of the federal government increase the enforcement duties of the states, federal funding for these activities are not increasing at a similar rate. The purpose of this study is to assess the ability of the department to respond to these increasing demands and whether budgetary, statutory, staffing, and organizational changes may be necessary to better respond to environmental protection needs. In conducting the study consideration shall be given to:

(1) Legal and financial issues through an examination of the department's level of resources and authority to thoroughly address liability issues and monitor legal developments with regard to environmental and financial responsibility issues;

(2) Staff workload and specialization through a review of staff workload, including the possible need to hire additional staff and specialists due to increased workloads and more complex issues;

(3) Federal and state legislation through an analysis of how state and federal legislation have impacted the responsibilities of the department and its funding level, an examination whether state-mandated program budgets are adequate to meet the demand, and consideration of whether the department should be directed to report to the Legislature on an annual basis regarding the status of federal Environmental Protection Agency mandates and funding levels; and

(4) Environmental Control Council membership, powers, mandates, and authority and possible statutory revisions to the

membership of the council and its duties to better respond to the increase in complexity and scope of issues that it must address.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee, the Government, Military and Veterans Affairs Committee, the Judiciary Committee, and the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 391. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Beck, 8th District; Elmer, 38th District; R. Johnson, 34th District; Lamb, 43rd District; Morrissey, 1st District; Smith, 33rd District; Wehing, 48th District.

PURPOSE: The purpose of this resolution is to provide for the examination of state laws regarding interstate and intrastate transfers of Nebraska ground and surface water in order to provide a system of law that encourages the dedication of water to its highest and best use thereby enhancing water-use efficiency.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 392. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Beck, 8th District; Elmer, 38th District; R. Johnson, 34th District; Lamb, 43rd District; Morrissey, 1st District; Smith, 33rd District; Wehing, 48th District.

PURPOSE: Nebraska grain and wheat producers incur a weight discount for the percentage of dockage which is grain pieces, grain dust, stems, hulls, chaff, and shrunken and broken kernels that is part of the wheat and other grain that they deliver to the market. Nebraska grain elevators use mechanical dockage testers or a sieving system to measure the percentage of dockage for calculating the amount to deduct from the gross delivered weight prior to settlement or payment for the grain. The dockage in wheat and other grains has a relatively high feed value for livestock for which farmers currently receive no payment. Incentives should be implemented that will encourage grain cleaning and utilization of screenings and dockage in Nebraska where a logical market exists within the livestock feeding industry. Such incentives will serve to upgrade the cleanliness and marketability of Nebraska grain to both foreign and domestic processors.

The purpose of this resolution is to (1) study the practice of discounting for the percentage of dockage, (2) investigate the feasibility of allowing farmers to keep the dockage and screenings or of not discounting for the price of dockage as is currently the practice, and (3) analyze incentives that will encourage grain cleaning and utilization of screenings and dockage in Nebraska markets.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 393. Introduced by Natural Resources Committee: Schmit, 23rd District, Chairperson; Beck, 8th District; Elmer, 38th District; R. Johnson, 34th District; Lamb, 43rd District; Morrissey, 1st District; Smith, 33rd District; Weihing, 48th District.

(Amendments to Final Reading copy)

1 1. Strike the original sections and insert
2 the following new sections:

3 "Section 1. Sections 1 to 9 of this act shall
4 be known and may be cited as the Health Insurance Access
5 Act.

6 Sec. 2. The Legislature finds and declares
7 that there is an increasing number of Nebraskans who
8 lack health insurance and that these uninsured people
9 include many individuals who cannot afford the rising
10 cost of medical care but do not qualify for the various
11 income-based welfare programs. The lack of financial
12 means of uninsured people to pay for their medical care
13 leaves health care providers with uncollectible debts
14 which are transferred to other patients and to insurers.
15 It is the purpose and intent of the Legislature to
16 provide a mechanism to allow insurers to provide basic
17 levels of health insurance to those people who are
18 uninsured, are below certain income levels, and are not
19 qualified for income-based welfare programs.

20 Sec. 3. For purposes of the Health Insurance
1 Access Act:

2 (1) Department shall mean the Department of
3 Insurance;

4 (2) Insurer shall mean any insurance company
5 as defined in section 44-103 authorized to transact
6 health insurance business in the State of Nebraska or a
7 health maintenance organization which has obtained a
8 valid certificate of authority;

9 (3) Medicare shall mean Parts A and B of Title
10 XVIII of the Social Security Act, 42 U.S.C. 1395 et
11 seq., as amended;

12 (4) Provider shall mean any physician or
13 hospital who is licensed or authorized in this state to
14 furnish medical care or hospitalization to any
15 individual;

16 (5) Spell of illness shall mean a continuous
17 period as a hospital inpatient or successive periods as
18 a hospital inpatient when the date of discharge and the
19 following date of admission are less than sixty
20 consecutive days apart; and

21 (6) Uninsured access coverage shall mean that
22 form of sickness and accident insurance covering
23 individuals, with or without their dependents, issued

24 subject to the limitations and requirements in the act.

1 Sec. 4. (1) A policy shall limit eligibility
2 to individuals or families:

3 (a) Whose gross income does not exceed one
4 hundred eighty-five percent of income standards
5 prescribed by the Federal Office of Management and
6 Budget income poverty guidelines in effect on April 17,
7 1989, or as may be later amended; and

8 (b) Who are not eligible for medicare or any
9 other medical assistance program, including, but not
10 limited to, the program established pursuant to sections
11 68-1018 to 68-1025.

12 (2) Every policy shall specify the time
13 period, not exceeding six months, for which any
14 applicant shall demonstrate eligibility based upon the
15 policy's income standards, and every policy shall
16 specify what constitutes sufficient verification of
17 income at the time of application and annual renewals.

18 (3) If an individual's or a family's income
19 exceeds the policy's income eligibility standards, the
20 policy shall allow a transfer to a designated type of
21 individual contract without evidence of insurability and
22 without interruption in coverage subject to payment of
23 premiums. Each policy shall specify the type of
24 individual contract to which an insured person may
1 transfer.

2 Sec. 5. (1) A person shall not be eligible
3 for initial or continued coverage if he or she:

4 (a) Is eligible as an employee or dependent
5 for employer sponsored or maintained group insurance
6 coverage;

7 (b) Is covered by any other type of hospital,
8 surgical or medical expense incurred policy, or health
9 maintenance organization contract; or

10 (c) Exceeds the policy's income eligibility
11 standards at any time or at any annual renewal.

12 (2) A policy may require evidence of
13 insurability but shall not use underwriting guidelines
14 that are more strict than those normally used by the
15 insurer for its regular individual health insurance
16 contracts.

17 Sec. 6. (1) Every policy shall include
18 hospital-only and surgical-only benefits which shall
19 mean:

20 (a) In-hospital benefits for not less than
21 thirty continuous days nor more than ninety continuous
22 days for each spell of illness; and

23 (b) Surgical benefits for both inpatient and
24 outpatient surgery.

1 (2) A policy may not:

2 (a) Use a definition of spell of illness more
3 restrictive than the definition found in section 3 of
4 this act; or

5 (b) Use a definition of preexisting condition
6 more restrictive than the definition normally used by
7 the insurer for its regular individual health insurance
8 contracts.

9 (3) Every policy shall provide that the
10 benefit payment shall be accepted as payment in full by
11 the provider and there shall be no deductible or
12 coinsurance charged to the insured.

13 Sec. 7. (1) Each policy shall include:

14 (a) A reasonable description of the geographic
15 area or areas to be served; and

16 (b) A listing of the providers who have a
17 contract with the insurers to furnish health care
18 services.

19 Sec. 8. Notwithstanding any other provision
20 of law, every policy shall be exempt from any and all
21 mandated benefits which require coverage of any type of
22 services or conditions.

23 Sec. 9. An insurer may enter into contracts
24 to arrange for health services by certain providers, may
1 limit the number and types of providers with which it
2 contracts, and shall not be required to provide benefits
3 for services furnished by providers who do not contract
4 with the insurer.”.

5 2. On page 1, strike beginning “public” in
6 line 1 through “Services” in line 2 and insert
7 “insurance; to adopt the Health Insurance Access”.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 90019

DATE: March 16, 1990

SUBJECT: Constitutional Law. Construction of LB 870 in relation to Article XIII, Section 3, of the Nebraska Constitution

REQUESTED BY: Senator Don Wesely
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Marilyn B. Hutchinson, Assistant Attorney General

You have asked whether the Nebraska Medical Student Assistance Act as amended by LB 870 would violate Article XIII, Section 3, of the Nebraska Constitution. We have concluded it would unless the loans are determined to be for a public purpose, as discussed below.

LB 870 amends the Nebraska Medical Student Assistance Act by including students studying osteopathic medicine in the class eligible for such loans. There are no osteopathic medical schools in Nebraska, so LB 870 deletes the requirement in the act that the school attended by the recipient of a loan must be in Nebraska.

Article XIII, Section 3, provides:

The credit of the state shall never be given or loaned in aid of any individual, association, or corporation, except that the state may guarantee or make long-term, low-interest loans to Nebraska residents seeking adult or post high school education at any public or private institution in this state. Qualifications for and the repayment of such loans shall be as prescribed by the Legislature.

Thus, there are one general rule and two exceptions to that general rule in that section of the constitution. The general rule has been interpreted as supporting "the fundamental principle that public monies may not be used for private purposes." State ex rel. Beck v. City of York, 164 Neb. 223, 225, 82 N.W.2d 269 (1957).

The Nebraska Medical Student Assistance Act comes within one of those exceptions now. If amended by LB 870 as proposed it will not. However, that fact alone will not make that act unconstitutional.

The Legislature may enact legislation consistent with the general rule in Article XIII, Section 3, even though it does not come within one of the exceptions in that section. See, State ex rel. Packard v. Nelson, 34 Neb. 162, 169-173, 51 N.W. 648 (1892), for a discussion of legislative powers. Thus, if the Nebraska Medical Student Assistance Act, as amended by LB 870, is consistent with the general rule in Article XIII, Section 3, it will not violate that section of the constitution.

To be consistent with the general rule, the low-interest long-term loans given to students by the state under the act must be for a public purpose. City of York, above.

A public purpose has for its objective the promotion of the public health, safety, morals, security, prosperity, contentment and the general welfare of all the inhabitants.

Platte Valley Public Power & Irrigation District v. County of Lincoln, 144 Neb. 584, 589, 14 N.W.2d 202 (1944). A loan can be for a public purpose even though it is given to individuals.

"{T}he vital point in all such appropriations is whether the purpose is public; and that, if it is, it does not matter whether the agency through which it is dispensed is public or not; that the appropriation is not made for the agency, but for the object which it serves: the test is in the end, not in the means.' . . ."

Quoted in United Community Services v. The Omaha National Bank, 162 Neb. 786, 800, 77 N.W.2d 576 (1956).

"What is a public purpose is primarily for the Legislature to determine." United Community Services, above, at 797. The weight is on the side of the Legislature in case of any doubt. Oxnard Beet Sugar Co. v. State, 73 Neb. 66, 67, 105 N.W. 716 (1905). However, the court can and has substituted its judgment for that of the Legislature with regard to what is a public purpose. See, for example, City of York, above, at 230, and Oxnard Beet Sugar Co., above, at 68.

An amendment to the Constitution can change our fundamental law and validate acts which have been held to be invalid. See, State

ex rel. Meyer v. County of Lancaster, 173 Neb. 195, 200, 202, 113 N.W.2d 63 (1962).

In this case the Legislature thought it had to change Article XIII, Section 3, in order to authorize loans from the state to Nebraska residents who are students at adult or post high school institutions in this state. State educators wanted such loans authorized so they could serve as matching funds for federal loan funds that would then be available to their students. See, Legislative History of Laws 1967, LB 823. The people adopted that amendment in 1968. Thus, if the sponsor of that legislation was correct, the Nebraska Medical Student Assistance Act cannot be constitutional if it no longer fits into the exception.

The Legislature which enacted the Nebraska Medical Student Assistance Act in 1978 not only fitted it into one of the exceptions in Article XIII, Section 3. It also stated the reasons for the loans: to make loans to medical students and to provide a financial incentive for such students to go into practice in a medical practice shortage area in this state. Neb.Rev.Stat. §71-5615 (Reissue 1986). LB 870 would not change those purposes except to include osteopathy students in the class eligible for such loans.

In conclusion, if LB 870 is enacted as proposed to delete the requirement that students receiving the loans must be attending institutions in this state, that fact will not make the resulting law unconstitutional unless the loans are not for a public purpose. We cannot predict whether the judgment of the court would agree with that of the Legislature on this point. Thus, by deleting the requirement that the institutions attended be in this state, you would put in question under Article XIII, Section 3, the constitutionality of the whole act.

Sincerely yours,

ROBERT M. SPIRE

Opinion No. 90020

DATE: March 16, 1990

SUBJECT: Constitutionality of LB 897 - Pipeline Company
Personal Property Tax Refund Reimbursement
Fund

REQUESTED BY: Senator Howard Lamb
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to the constitutionality of LB 897. Generally, LB 897 proposes to create a fund to provide reimbursement to taxing subdivisions in the state for losses sustained by the granting of refunds to pipeline companies of personal property taxes paid for 1988 by virtue of the Nebraska Supreme Court's decisions in Northern Natural Gas Co. v. State Board of Equalization and Assessment, 232 Neb. 806, 443 N.W.2d 249 (1989), cert. denied, 58 U.S.L.W. 3527 (U.S. Feb. 20, 1990), {"Northern"} and Trailblazer Pipeline Co. v. State Board of Equalization and Assessment, 232 Neb. 823, 442 N.W.2d 386 (1989), cert. denied, 58 U.S.L.W. 3527 (U.S. Feb. 20, 1990), {"Trailblazer"}. Your question concerns whether the establishment of a fund of this nature violates the Equal Protection Clause of the Fourteenth Amendment to the United States Constitution, or any provision of the State Constitution.

With regard to your question as to the possible implications of the Equal Protection Clause in this context, it is well established that the Equal Protection Clause of the Fourteenth Amendment has no application to the acts of a state against its political subdivisions. City of Trenton v. New Jersey, 262 U.S. 182 (1923); Triplett v. Tiemann, 302 F.Supp. 1239 (D.Neb. 1969). Thus, while LB 897 does impact taxing subdivisions of the state, the subdivisions themselves possess no right which may be legally subject to injury under the Equal Protection Clause. It is conceivable that taxpayers affected by the bill could attempt to assert a claim of injury cognizable under the Equal Protection Clause. See Triplett v. Tiemann, *supra*. As the subject matter of LB 897 does not implicate a fundamental right or suspect class, however, any Equal Protection Clause challenge would be limited to an inquiry as to whether the classification established bears a rational relationship to a legitimate state interest. Botsch v. Reisdorff, 493 Neb. 165, 226 N.W.2d 121 (1975); Porter v. Jensen, 223 Neb. 438, 390 N.W.2d 511 (1986).

As to the existence of a rational basis underlying the establishment of the fund created under LB 897, we believe the classification created

under the bill could withstand scrutiny if challenged on equal protection grounds. While, as you note, the bill provides for distribution of state funds only to subdivisions facing revenue losses as a result of property tax refunds for 1988 arising out of the decisions in Northern and Trailblazer, and not for a distribution of state funds to all subdivisions in the state, the classification so established is reasonable and rationally based, as it furthers the purpose of reimbursing subdivisions faced with such revenue losses. The classification drawn by LB 897 in this manner thus appears to bear a rational relationship to a legitimate state purpose.

With regard to your question as to whether LB 897 would violate any portion of the Nebraska Constitution, the primary question which arises is whether the bill would violate the prohibition against special or local legislation in Article III, Section 18. In City of Scottsbluff v. Tiemann, 185 Neb. 256, 266, 175 N.W.2d 74, 81 (1970), the Nebraska Supreme Court stated the following regarding the Legislature's power to classify in light of this constitutional provision:

It is competent for the Legislature to classify objects of legislation and if the classification is reasonable and not arbitrary, it is a legitimate exercise of legislative power. (Citation omitted.) The classification must rest upon real differences in situation and circumstances surrounding members of the class relative to the subject of the legislation which renders appropriate its enactment. (Citations omitted.) The power of classification rests with the Legislature and cannot be interfered with by the courts unless it is clearly apparent that the Legislature has by artificial and baseless classification attempted to evade and violate provisions of the Constitution prohibiting local and special legislation. (Citation omitted.) A legislative classification, in order to be valid, must be based upon some reason of public policy, some substantial difference of situation or circumstances, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. Classifications for the purpose of legislation must be real and not illusive; they cannot be based on distinctions without a substantial difference. (Citations omitted.) (Emphasis in original.)

Furthermore, in Campbell v. City of Lincoln, 195 Neb. 703, 709, 240 N.W.2d 339, 342 (1976), the court stated:

Classification is proper if the special class has some reasonable distinction from other subjects of a like general character, which distinction bears some reasonable relation to the legitimate objectives and purposes of the legislation. The question is always whether the things or persons classified by the act form by

themselves a proper and legitimate class with reference to the purpose of the act.

Applying these principles, we believe that, to the extent LB 897 is construed as creating separate classifications of subdivisions by providing for the distribution of state funds only to subdivisions facing revenue losses as a result of refunds ordered in light of Northern and Trailblazer, the classifications established are reasonable and related to the legitimate goal of reimbursing subdivisions faced with refunding property taxes for 1988 as a result of these court decisions. Indeed, in order for the bill to achieve the objective of reimbursement under these circumstances, it must necessarily distinguish between subdivisions which have suffered property tax losses by virtue of refunds of this nature, and subdivisions which were not affected in this manner.

We note that a number of Nebraska cases construing the limitation contained in Article III, Section 18, have struck down legislation on the ground that the classifications created unreasonable closed or frozen classes which precluded the opportunity for an increase in the members of the class by future growth or development. See, e.g., State ex rel. Douglas v. Marsh, 207 Neb. 598, 300 N.W.2d 181 (1980); City of Scottsbluff v. Tiemann, *supra*; Axberg v. City of Lincoln, 141 Neb. 55, 2 N.W.2d 613 (1942); State v. Kelso, 92 Neb. 628, 139 N.W. 226 (1912). This principle would likely be viewed as inapplicable in this instance, however, as LB 897 is not intended to have future application in that it is limited to establishing a means to reimburse subdivisions facing revenue losses by refunds for 1988 arising from Northern and Trailblazer.

In conclusion, it is our opinion that LB 897, if enacted, would not violate any of the above-referenced constitutional provisions.

Opinion No. No. 90021

DATE: March 22, 1990

SUBJECT: LB 1241 - Granting of Tax Credits to Business Firms Purchasing Shares in Specified Business Development Corporations

REQUESTED BY: Senator Rex Haberman
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to the constitutionality of the tax credit provisions contained in LB 1241. Generally, LB 1241 would amend current statutory provisions relating to the Research and Development Authority (Neb.Rev.Stat. §§58-401 through 58-439 (Reissue 1988 and Supp. 1989)) {"Authority"} and the establishment of business development corporations under the Nebraska Business Development Corporation Act (Neb.Rev.Stat. §§21-2101 to 21-2117 (Reissue 1987)). Under LB 1241, the Authority would be required to form a business development corporation to carry out the purpose of providing financing to eligible businesses starting or expanding in or into specified economically distressed "target areas." Your question relates to the amendment under LB 1241 of portions of the Community Development Assistance Act (Neb.Rev.Stat. §§13-201 to 13-208 (Reissue 1987)). In particular, you have asked our opinion as to whether it would be constitutional to extend the income tax credits provided under the Community Development Assistance Act to include credit for amounts used by business firms to purchase shares in a business development corporation formed pursuant to §13 of LB 1241.

As a general rule, subject to constitutional restrictions, a state may authorize exemptions for income tax purposes. 85 C.J.S. Taxation §1098 (1954).¹ The United States Supreme Court has held a state may constitutionally encourage certain industries or businesses to locate within a state by the granting of certain specialized tax benefits or exemptions. Allied Stores of Ohio, Inc. v. Bowers, 358 U.S. 522 (1959). In Allied Stores, the Court determined "a statute which encourages the location within the State of needed and useful industries, by exempting them, though not also others, from its taxes is not arbitrary and does not violate the Equal Protection Clause of the Fourteenth Amendment" to the United States Constitution. Id. at 528. Classifications adopted by a state in the exercise of its taxing power will be sustained under the Equal Protection Clause if they are rationally related to a legitimate governmental purpose. Exxon Corp. v. Eagerton, 462 U.S. 176 (1983); Allied Stores of Ohio, Inc. v.

Bowers, supra. In sustaining a state tax classification exempting from certain taxes employers with less than eight employees and employers in certain specified types of businesses, the Court stated:

It is inherent in the exercise of the power to tax that a state be free to select the subjects of taxation and to grant exemptions. . . . A legislature is not bound to tax every member of a class or none. It may make distinctions of degree having a rational basis, and when subjected to judicial scrutiny they must be presumed to rest on that basis if there is any conceivable state of facts which would support it.

Carmichael v. Southern Coal and Coke Co., 301 U.S. 495, 509 (1937).

In addition to the protection against arbitrary discrimination afforded under the Fourteenth Amendment to the United States Constitution, the prohibition against special legislation in Article III, Section 18, of the Nebraska Constitution, also inhibits the enactment of unreasonable class legislation. The Nebraska Supreme Court decision in Stahmer v. State, 193 Neb. 63, 218 N.W.2d 893 (1974), recognizes the power of the Legislature to classify and exempt in matters pertaining to taxation, provided the classifications established are reasonable.

The income tax credits provided under §§2 and 3 of LB 1241 are limited to the class of business firms investing in a business development corporation established pursuant to §13 of the Act by the purchase of shares in the corporation. Thus, to the extent the allowance of such credit is limited to entities investing in business development corporations of this nature, the constitutional question which arises is whether the establishment of such classification is reasonable and rationally related to a legitimate state purpose.

Courts from several jurisdictions have upheld the constitutionality of legislation establishing economic development programs intended to aid and promote business development. Carll v. South Carolina Jobs--Economic Development Authority, 284 S.C. 438, 327 S.E.2d 331 (1985); Minnesota Energy and Economic Development Authority v. Printy, 351 N.W.2d 319 (Minn. 1984); Mid-Michigan Farm and Grain Association, Inc. v. Henning, 127 Mich. App. 735, 339 N.W.2d 243 (1983); DeArmond v. Alaska State Development Corp., 376 P.2d 717 (Alaska 1972). The use of tax credits and other economic incentives, including state programs designed to target capital for business development, have been recognized as valid means by which government may encourage and promote economic development, particularly in areas identified as suffering from economic distress by virtue of high unemployment and a lack of business investment. McGahey, State Economic Development Policy:

Strategic Approaches for the Future, 15 N.Y.U.Rev.L. and Soc. Change 43, 47-56 (1986-87). The "enterprise zone" concept embodied in legislation of this nature is designed to expand economic activity and growth in depressed or blighted areas through the establishment of tax and regulatory incentives. Note, Bringing New Life to Enterprise Zones: Congress Finally Takes the First Step with the Housing and Community Development Act of 1987, 35 Wash. U.J.Urb. and Contemp. L. 109, 111-120 (1989).

Section 7 of LB 1241, which amends the provisions of Section 58-401 of the Research and Development Authority Act, includes the following language pertaining to the Legislature's findings and the intent underlying the enactment of the bill:

(2)(a) There exist in certain areas unacceptable levels of unemployment, poverty, and outmigration caused by the need for expansion of the economic bases in such areas;

(b) Such conditions needlessly increase public expenditures for unemployment compensation, social services, and public safety services;

(c) A necessary element in diversification of the economic bases of such economically distressed areas is providing employment opportunities in and providing essential goods and services to such areas; and

(d) The necessary financial development to stimulate and diversify the economic bases of such areas may properly be accomplished by formation of a business development corporation in which the authority is a member.

Pursuant to §13, business development corporations formed to meet these needs are to provide financing to eligible businesses starting in or expanding into economically disadvantaged locations falling within the definition of "target area" under §10 of the bill. The income tax credits in §§2 and 3 of LB 1241, granted to business firms investing in business development corporations established for this purpose, are therefore intended to provide an incentive for investment in such business development corporations. Under these circumstances, we believe the granting of tax credits for this purpose is neither unreasonable nor arbitrary, as the use of tax credits as an inducement for investment in business development corporations which promote the revitalization of industry in economically distressed areas in this manner clearly is rationally related to furthering a legitimate state interest.

Based on the foregoing, it is our conclusion that the tax credit provisions contained in §§2 and 3 of LB 1241 are valid and constitutional.

¹Technically, tax exemptions are different than tax credits or deductions. An exemption is characterized as an immunity from the obligation of paying a tax. A tax credit is an allowance applied to reduce a taxpayer's income tax liability after the tax has been computed, while a deduction is a reduction applied to income before the amount of tax is computed. Black's Law Dictionary, 1310 (5th Ed. 1979); General Motors Corp. v. Mississippi State Tax Commission, 510 So.2d 498 (Miss. 1987). For purposes of analyzing the issues raised by your request, however, such distinctions are not material.

Opinion No. 90022

Date: March 22, 1990

Subject: Constitutional Law. Construction of LB 688, as amended, in relation to Article III, section 18, of the Nebraska Constitution.

Requested by: Senator Jacklyn J. Smith

Written by: Robert M. Spire, Attorney General
Marilyn B. Hutchinson, Assistant Attorney General

You have asked whether LB 688, as amended, violates Article III, section 18, of the Nebraska Constitution. We have concluded that depends on whether different treatment for the persons exempted from the general law is warranted under the circumstances as discussed below.

Article III, section 18, of the Nebraska Constitution prohibits the Legislature from passing any special law granting to any individual any special privileges where a general law can be made applicable.

LB 688, as amended, would permit unlicensed persons to practice a limited scope of medicine to assist persons with developmental

disabilities in special educational settings specified in the bill. See, LB 688, section 1(1) and (2)(f) and Committee Hearing on LB 688 (February 9, 1989), pp. 70, 74, 76, 80, 85 and 86.

The general rule is that no person may practice medicine and surgery in this state without a license to do so issued by the Department of Health. Neb.Rev.Stat. §71-102 (Supp. 1989).

There exists no vested right to practice medicine; rather, it is a conditional right subordinate to the police power of the state to protect and preserve the public health. State v. Hinze, 232 Neb. 550, 555, 441 N.W.2d 593 (1989). Thus protection and preservation of the public health is the justification for the general rule.

Exemptions {from a general rule} are allowed where they are made applicable to all persons of the same class similarly situated. Casey's General Stores v. Nebraska Liquor Control Commission, 220 Neb. 242, 243, 369 N.W.2d 85 (1985). It must be possible for others to come within the classification after it is defined. State ex rel. Campbell v. Gering Irrigation District, 114 Neb. 329, 207 N.W.2d 525 (1926). It must operate uniformly and alike on every member of the class designated. Creigh v. Larsen, 171 Neb. 317, 106 N.W.2d 187 (1960).

“{T}he classification must be based on some reason suggested by such a difference in the situation and circumstances of the subjects placed in different classes as to disclose the necessity or propriety of different legislation in respect to them.”

Low v. Rees Printing Co., 41 Neb. 127, 142, 59 N.W. 362 (1894).

Thus, exceptions from the general rule are possible without violating Article III, section 18. However, too many exceptions may undermine the justification for the general rule.

1. The Legislature has previously exempted classes of persons from the need to be licensed by the Department of Health as physicians and surgeons in order to practice medicine.

The classes of persons who may lawfully practice medicine and surgery without a license issued by the Department of Health are identified in Neb.Rev.Stat. §71-1,103 (Supp. 1989). Those exceptions from the general rule include the classes of unlicensed persons identified in subsections (1) - (4) and (8), the classes of persons licensed elsewhere and identified in subsections (5) - (7) and (15), and the classes of persons licensed in this state to practice a limited scope of medicine and surgery and identified in subsections (9) - (14). The practice of nursing as defined in Neb.Rev.Stat. §71-1,132.05 (Supp. 1989) for which licensure is required by Neb.Rev.Stat. §71-1,132.04 (Reissue 1986) comes within the exception in subsection (14). The exceptions from nursing licensure in Neb.Rev.Stat. §71-1,132.06

(Supp. 1989) include exceptions for classes similar to the classes exempted under Neb.Rev.Stat. §71-1,103.

Thus, there is precedent for exempting unlicensed persons from the general rule requiring licensing by the Department of Health to practice medicine and surgery in this state.

2. The exemption proposed in LB 688, as amended, does not violate Article III, section 18, if different treatment for those providing routine medical care for the developmentally disabled in specified situations is warranted under the circumstances.

LB 688 as amended would authorize an unlicensed person to: perform routine health care maintenance procedures for a person with developmental disabilities when such procedures are performed in an early childhood program, a center for the developmentally disabled, a special education setting, a medicaid waiver facility, or a foster care setting under the supervision of the attending physician. . .

LB 688, section 1.(1). "Routine health care maintenance procedures" are defined in section 1.(2)(f) to limit the procedures to those the person with developmental disabilities could do himself or herself if such person were not developmentally disabled. "In essence, we're trying to provide a way to provide some protections for the public, while not overly restricting and regulating this area." Floor Debate on LB 688 (Feb. 20, 1990), Senator Wesely, pp. 9602, 9603. (The fear that the scope of practice was too broad and that there would be difficulty in enforcing it against an unlicensed person had been raised at the public hearing. Committee Hearing on LB 688 (Feb. 9, 1989), pp. 85 and 86.)

Assuming that such procedures do come within the practice of medicine. LB 688, as amended, creates an exception to the general rule that persons engaged in such practice must be licensed by the Department of Health.

The classification of "special care provider" applies to all persons of the same class similarly situated and operates uniformly and alike on every member of the class designated, *i.e.*, persons trained at least two hours per procedure by the attending physician or a registered nurse who has demonstrated the necessary competency to such trainer, and who performs such procedures under the direction of a registered nurse in centers for the developmentally disabled and in special education settings. LB 688, section 1.(1) and (2)(g). Thus the exemption is permissible under the rule cited from Casey's General Stores, above, and Creigh v. Larsen, above.

It is possible for others to come within the classification after the legislation is passed. Thus the exemption is permissible under the rule cited from State ex rel. Campbell, above.

The classification is based on a philosophy to get developmentally disabled persons into less-restrictive settings and provide those 50 to 100 developmentally disabled persons needing routine medical care with such care in those settings without incurring the expense of hiring licensed nurses to provide it. Committee Hearing on LB 688 (February 9, 1989), pp. 65-68, 70, 71 and 74. To the extent those facts suggest a difference in the situation and circumstances of persons providing routine medical care for the developmentally disabled in special education settings which requires different legislation in respect to them, the classification is permissible under the rule cited from Rees Printing Co., above.

In conclusion, the validity of LB 688, as amended, under Article III, section 18, of the Nebraska Constitution depends on whether it is necessary or proper to treat differently the persons who give routine medical care to the developmentally disabled in specified situations under the circumstances. This is a judgment that must be made first by the Legislature, subject to judicial review.

Sincerely yours,

ROBERT M. SPIRE

SUBJECT: Whether LB 571 is Unconstitutional by Virtue
of Containing Two Subjects

REQUESTED BY: Senator Ernest Chambers
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Linda L. Willard, Assistant Attorney General

You have inquired whether LB 571 violates Article III, Section 14, of the Constitution of the State of Nebraska by virtue of containing two subjects. It is our conclusion that LB 571, as amended, is constitutionally suspect.

As originally introduced, LB 571 addressed the subject of making anabolic steroids a controlled substance and related provisions, including that violation of the section is a Class IV felony. An amendment was attached to the bill requiring financial institutions to maintain and file records of transactions in excess of ten thousand dollars since these "reports and records have a high degree of usefulness in criminal investigations or proceedings" (AM2905, Legislative Journal p. 1271, March 8, 1990). Violations of the reporting requirement could result in a civil penalty.

LB 571 as originally introduced addressed the general subject of crimes and punishments and the title provided:

FOR AN ACT relating to crimes and punishments; to amend section 28-404, Reissue Revised Statutes of Nebraska, 1943, and section 28-101, Revised Statutes Supplement, 1988; to prohibit the possession or transfer of certain substances without a prescription; to define terms; to provide a penalty; to provide exceptions; and to repeal the original sections.

The title of the amended bill contains additional language related to the currency transactions.

Article III, Section 14, of the Constitution of Nebraska provides in part: "No bill shall contain more than one subject, and the same shall be clearly expressed in the title." However, it is well established that the constitutional provision at issue must be liberally construed. The Nebraska Supreme Court has held that:

Where a bill has but one general object, no matter how comprehensive that object may be, and contains no matters not germane thereto, and the title clearly expresses the subject of the bill, it does not violate Article III, section 14, of the Constitution.

{T}his constitutional provision should be . . . construed as to admit of the insertion in a legislative act of all provisions which, though not specifically expressed in the title, are comprehended within the objects and purposes of the act as expressed in its title; and to admit all provisions which are germane, and not foreign, to the purposes of the act as expressed in its title.

Peterson v. Hancock, 155 Neb. 801, 807-808, 54 N.W.2d 85, 90 (1952).

It is necessary to look at the bill and determine if the amendatory sections are part of the subject matter of the bill. According to Van Horn v. State, 46 Neb. 62, 74, 64 N.W. 365 (1895), legislation is "single" in subject matter "so long as the act has but a single main purpose and object." In determining what the main object is, we must look to the bill itself to ascertain whether or not it contains more than

one subject. Id. at 72; and Midwest Popcorn Company v. Johnson, 152 Neb. 867, 871-872, 43 N.W.2d 174 (1950).

The main purpose of the bill relates to crimes and punishments. While the amendment to the bill is an attempt to aid law enforcement authorities, it addresses neither crimes nor punishments. The amendment neither makes it a crime to deal in large sums of money nor does it make it a crime to fail to keep the records or submit the reports required.

Because the courts have given such a liberal interpretation to this constitutional provision in the past, we cannot say for certain whether the courts would declare the amendment in question violative of the State Constitution. However, it is the belief of this office that LB 571 as amended violates Article III, Section 14, of the Constitution of the State of Nebraska.

Sincerely,
ROBERT M. SPIRE

SUBJECT: The Constitutionality of LB 854 with special emphasis on a 24-hour waiting period and the requirement of presenting to a woman information on the development of the fetus.

REQUESTED BY: Senator Arlene Nelson
District #35

WRITTEN BY: Robert M. Spire, Attorney General
Royce N. Harper, Senior Assistant Attorney General

SUMMARY OF ANSWERS TO QUESTIONS ASKED BY
SENATOR NELSON

The legal questions addressed here relate to Legislative Bill 854 which contains the following requirements:

- 1) A twenty-four hour waiting period from the time the woman signs an informed consent statement before an abortion can be performed.
- 2) The requirement of furnishing a woman information on anatomical and physiological characteristics of the fetus at the gestational point of development at the time the abortion is to be performed.

Your request for an opinion indicated that there was information presented at the public hearing which indicated that such provisions have been consistently struck down by the courts as unconstitutional. You referred to two specific U.S. Supreme Court Cases and two U.S. District Court cases which were mentioned at the hearing as being relevant to the constitutionality of this bill.

Based on the cases you cited, namely, City of Akron v. Akron Center for Reproductive Health, 462 U.S. 416 (1983); Thornburg v. American College of Obstetricians and Gynecologists, 476 U.S. 747 (1986), Women's Services P.C. v. Thone, 690 F.2d 667 (1982); and Planned Parenthood of Southeast Pennsylvania v. Casey, 686 F.Supp. (E.D. Pa. 198) it would be our opinion that the two provisions, Section 1.(8)(d) and Section 2 would be constitutionally suspect.

You further requested any pertinent information regarding this question which would have some bearing on the issue. Pursuant to this request it is of interest that there is a related issue as to delay imposed by a Minnesota requirement of parental notification by a minor obtaining an abortion presently before the U.S. Supreme Court from the Eighth Circuit Court of Appeals. Hodgson v. Minn. 88-1125 and Minn. v. Hodgson, 88-1309 (853 F.2d 1452).

In 1983 the Nebraska U.S. District Court ruled Nebraska Legislation requiring parental notification by a minor before an abortion unconstitutional. The court reasoned that the delay generated by such notice was an unreasonable impediment to the decision. However, in Hodgson, the Circuit Court concluded that a two-parent notice requirement imposed in conjunction with a judicial by-pass option, did not unduly burden the right of the minor to have an abortion and was, therefore, constitutional. Granted in Hodgson, the issue involved parental interest as to a minor, whereas, this statute covers adults as well as minors. But it appears then that the Eighth Circuit did not see the delay in that case as an unreasonable impediment as did the District Court of Nebraska in Orr v. Knowles, CV81-O-301, in 1983.

Therefore, it is reasonable to conclude that there is a possibility that the Eighth Circuit might now not consider the twenty-four hour

delay and the informational requirement as an unreasonable impediment to an informed decision by an adult. However, until Hodgson is decided by the U.S. Supreme Court we cannot say whether the more restricted holding of the Eighth Circuit will be affirmed. We do know that in Webster, 109 S.Ct. 3040 (1989), the U.S. Supreme Court upheld a Missouri statute which to some degree rolled back the viability period of twenty six weeks to twenty weeks and which prohibited public funds for abortion.

In August 1989, we issued Opinion No. 89059 to Senator Labeledz on the status of Neb.Rev.Stat., § 28-347 which required parental notification by minors for abortion and which was declared unconstitutional by the U.S. District Court for Nebraska in 1983. At that time, we stated that the matter was in "limbo" until the U.S. Supreme Court rules on Hodgson.

Here, it would appear that the two cases, you cited of 1983 to 1986 make Legislative Bill 854 suspect, but the sequence of the holdings cited here would indicate a possible swing by the courts toward not seeing the delay as an unreasonable restriction, or an undue burden on the women's decision.

Detailed Analysis and Response to
Questions Asked by Senator Nelson

QUESTION 1: Is the provision in Legislative Bill 854 (Section 1.(8)(d) which requires a twenty-four hour waiting period following the signing of an informed consent statement for abortion constitutionally suspect.

CONCLUSION: Yes. This provision is constitutionally suspect based on previous U.S. Supreme Court holdings.

QUESTION 2: Is the provision in Legislative Bill 854 (Section 2) which contains an informational requirement as to the characteristics of the fetus at the time of the abortion constitutionally suspect.

CONCLUSION: Yes. This provision is suspect based on previous U.S. Supreme Court holdings.

City of Akron and Thornburg, *supra* basically affirmed Roe v. Wade, 410 U.S. 113 (1973), that the State's interest in maternal health becomes compelling only after the first trimester and the regulation may be upheld only if it is reasonably designated to further that State's interest.

In Akron, the law required: (a) prohibited physician from performing an abortion until twenty-four hours after the pregnant woman signs a consent form. (b) the attending physician to inform his patient of the status of her pregnancy, the development of her fetus, the date of possible viability, the physical and emotional

complications that may result from an abortion and the availability of agencies to provide her with assistance with respect to birth control, adoption, and child birth, . . . and also inform her of particular risks associated with her pregnancy and the abortion technique to be employed.

Language from Akron on the requirements of a twenty-four hour delay and the furnishing of a fetus development information is appropriate here:

. . . Akron has failed to demonstrate that any legitimate state interest is furthered by an arbitrary and inflexible waiting period. There is no evidence that the abortion procedure will be performed more safely. Nor does it appear that the State's legitimate concern that the woman's decision be informed is reasonably served by requiring a twenty-four hour delay as a matter of course. P. 449-451.

Further it is of interest to note additional language from Akron as to necessity of furnishing particular information:

(a) The validity of an informed consent requirement rests on the State's interest in protecting the pregnant woman's health. But this does not mean that a State has unreviewable authority to decide what information a woman must be given before she chooses to have an abortion. A State may not adopt regulations designed to influence the woman's informed choice between abortion or childbirth. P. 442-444.

(b) Section . . . attempts to extend the State's interest in ensuring "informed consent" beyond permissible limits, and intrudes upon the discretion of the pregnant woman's physician. While a State may require a physician to make certain that his patient understands the physical and emotional implications of having an abortion, § . . . goes far beyond merely describing the general subject matter relevant to informed consent. By insisting upon recitation of a lengthy and inflexible list of information, the section unreasonably has placed obstacles in the path of the physician. P. 444-445.

(c) With respect to . . . requirement that the "attending physician" must inform the woman of the specified information, it is unreasonable for a State to insist that only a physician is competent to provide the information and counseling relevant to informed consent. P. 446-449.

Both the delay and the informational requirements were held to be unconstitutional in Akron. The provisions for delay and informed consent in Legislative Bill 854 are sufficiently similar to the Ohio statute that, in our opinion the bill is constitutionally suspect.

In your letter you mentioned Planned Parenthood of Southeast Pa v. Casey, 686 F.Supp. 1089 (E.D. Pa 1988). This was an action challenging amendments to the Pennsylvania Abortion Control Act of 1982. The District Court held that:

(1) operation or implementation of judicial by-pass procedure for parental consent requirement for minors would be enjoined until the state Supreme Court promulgated rules which would assure that the petition was sealed immediately upon filing; (2) state officials were enjoined from disclosing or otherwise making available for public inspection and copying any report filed by facility which had received state appropriation funds during the 12-calendar month period preceding the filing of the report; (3) requirement that name of performing physician be reported was not enjoined; and (4) requirement that physician make determination as to viability of fetus prior to performing any abortion after 19th week of pregnancy was enjoined.

Thus, the issues in Planned Parenthood of Southeast Pa., were not directly definitive to your request as they were in Akron but the opinion did cite Akron and Thornburg on the basic principle reaffirmed by the Supreme Court of a woman's fundamental right to choose whether to terminate her pregnancy. Further, the case cited Roe v. Wade, at 164 for the proposition that at the approximate beginning of the second trimester of pregnancy, the State's interest in protecting the health of the mother becomes compelling and may justify regulation which significantly burden the woman's right to terminate her pregnancy.

In the summary at the beginning of this opinion, we indicated that Hodgson v. Minnesota which is presently on appeal to the U.S. Supreme Court from the Eighth Circuit will be definitive as to Neb.Rev.Stat. § 28-347 which provides for notice to one parent and also provides for a judicial by-pass to the extent that a court could order a waiver of the notice requirement in the best interest of the child. This statute was declared unconstitutional by the U.S. District Court for Nebraska in 1983.

In opinion No. 89059 issued by this office on September 30, 1989, we concluded that the ruling of the U.S. District Court of Nebraska on #28-347 had been effectively overruled by the Eighth Circuit in Hodgson. The Eighth Circuit concluded that the two-parent by-pass option did not unduly burden the right of a minor to have an abortion and was, therefore, constitutional.

One of the reasons we believe that Hodgson would have a bearing on the twenty-four hour delay in Legislative Bill 854 is the fact that the U.S. District Court for the District of Nebraska in Orr v. Knowles held that any delay was significant in that a judicial by-pass

increased that delay. Thus, it follows that if the U.S. Supreme Court affirms the Eighth Circuit in Hodgson, it could be inferred that the court is saying that a delay can be justified where there is a compelling state interest.

Certainly there was no way to predict that an affirmation of Hodgson which requires parental notice or a judicial by-pass with the attendant delay for a minor, would in anyway be dispositive of, or even affect a ruling on Legislative Bill 854 which attaches the delay and the information requirement to an adult decision. However, since you did request any information pertinent to the question at hand, we feel that it is best to set it out for your consideration.

In our summary above, we mentioned Webster v. Reproductive Health Services, 109 Supreme Court 3040 (1989), because it is certainly of interest to all legislatures on the subject of abortion. In Webster state employed health care professionals offering abortion counseling and services brought a class action seeking declaration and injunctive relief challenging the constitutionality of state statutes regulating abortions. The U.S. Supreme Court held: (1) That it need not pass on the constitutionality of the statute's preamble which set forth legislative "findings" that life begins at conception and that unborn children have protectable interests in life, health and well-being in that the preamble does not regulate or restrict health professionals in any concrete way; (2) The statutory ban on use of public employees and facilities for performance or assistance of nontherapeutic abortions did not contravene the Constitution; (3) The issue of constitutionality of statute's prohibition on use of public funds to encourage or counsel women to have nontherapeutic abortions was moot; and (4) The provision of the statute that require physicians to perform such tests as are necessary to determine fetal viability for any fetus believed to be at least 20 weeks gestational age does not unconstitutionally infringe right to abortion.

Although Webster is a landmark case and arguably could be considered by some as a sign of retreat from Roe v. Wade, in our opinion it is not definitive of any issues raised in your request.

Respectfully submitted,

ATTORNEY GENERAL'S OPINIONS

Opinion No. 90025

DATE: March 28, 1990

SUBJECT: The Constitutionality of Amendment 2294 to
Legislative Bill 662:
Restraint on Protected Speech in Violation of
Nebraska Constitution, Art. 1, Section 5.

REQUESTED BY: Senator Arlene Nelson
District #35

WRITTEN BY: Robert M. Spire, Attorney General
Royce N. Harper, Senior Assistant Attorney
General

SUMMARY OF ANSWERS TO QUESTIONS ASKED BY
SENATOR NELSON

The legal questions here relate to AM 2294 of LB 662 which was adopted March 1, 1990. LB 662 to be known as the Family Services Incentive Act for Communities, provides for the creation of an incentive grant program to encourage and assist communities in the development and implementation of family-centered, community based services for children and families. Eligible applicants shall include school, committees, school districts, political subdivisions, public or private nonprofit agencies, or federally recognized or state-recognized Indian tribes. The Director of Social Services, upon the recommendation of the Commission and the Commissioner of Education, the Director of Health and the Director of Public Institutions shall award start-up grants to eligible applicants. The Act provides for an array of family oriented services.

In your letter, you expressed concern about the constitutionality of AM 2294 which states that services eligible for funding shall not include performance of or counseling or referral for abortion or distribution of or counseling or referral for contraceptives. You asked whether or not that provisions violates Section 5 of Art. I, of the Nebraska Constitution which states that, "Every person may freely speak, write and publish on all subjects. . ."

The effect of AM 2294 is to deny state start-up funding for abortion and contraceptive counseling and referral, and for the performance of abortion and the distribution of contraceptives. Abortion and contraceptive counseling and referral are constitutionally protected speech. Clearly, the United States Constitution and the Nebraska Constitution prohibit unreasonable interference with the right of potential grantees under LB 662 to engage in these protected speech activities. The State may not penalize persons for exercising their constitutional right to free speech, nor may it deny a benefit to a person on a basis that infringes on constitutionally protected speech.

However, the United States Supreme Court has unequivocally affirmed that a State has no constitutional obligation to fund or promote abortion or contraception and can establish a policy in favor of normal childbirth.

Whether AM 2294 could be determined to be unconstitutional depends upon whether it is construed as an impermissible interference in a constitutionally protected speech activity, or whether it is state activity to control the use of its funds, and to encourage natural birth control and normal childbirth as consonant with legislative policy.

It is our opinion that AM 2294 is constitutionally suspect due to its overbreadth and vagueness, and arguably, impermissible interference in constitutionally protected speech activities.

Detailed Analysis and Response to
Questions Asked By Senator Nelson

QUESTION 1: Is the section in LB 662 constitutionally suspect which provides that funding of public entities and private non-profit agencies for family services shall not include performance of or counseling or referral for abortion or distribution of or counseling or referral for contraceptives.

CONCLUSION: Yes. The prohibition on "counseling or referral" would make the bill constitutionally suspect."

We are aware of no Nebraska Case addressing the issue of whether abortion and contraceptive counseling and referral services are constitutionally protected speech under Act. I, Section 5 of the Nebraska Constitution. Nor are we aware of any Nebraska case addressing the issue of whether the State's denial of funding to abortion and contraceptive counseling and referral services would violate Act. I, Section 5.

Absent Nebraska case law, we turn to the United States Supreme Court and other federal courts that have addressed this question under the First Amendment of the United States Constitution, which prohibits infringement of free speech, and is made applicable to the States through the Fourteenth Amendment. These cases direct our answers, since the constitutional guarantees of freedom of speech are the same under both the Nebraska and United States Constitution. State v. Simants, 194 Neb. 783, 236 N.W.2d 794, 799 (1975).

The question asked requires analysis of two lines of cases: 1) those cases protecting abortion and contraceptive counseling and referral as free speech. Bigelow v. Virginia, 421 U.S. 809 (1975); and 2) those cases upholding a State's prerogative to adopt a policy favoring normal child birth to abortion and contraception, with no constitutional obligation to fund or promote abortion or contraceptive. Harris v. McRae, 448 U.S. 297 (1980); Maker v. Roe, 432 U.S. 464 (1977).

AM 2294 to LB 662 implicates both constitutionally protected speech rights, and the rights of a State to adopt a policy favoring normal childbirth. Determination of AM 2294's constitutionality revolves on whether it is construed as an impermissible interference with constitutionally protected speech activity, or whether it is State encouragement of activity consonant with State legislative policy favoring normal childbirth and natural family planning. See Makee at 475.

The Ninth Circuit in Planned Parenthood v. Arizona, 718 F.2d 938 (9th Cir. 1983), appeal after remand, 789 F.2d 1348 (1986),

affirmed, sub nom. Babbitt v. Planned Parenthood, 479 U.S. 925 (1986), considered the footnote to an Arizona appropriation bill that forbade expenditure of State social services funds to non-governmental organization that perform abortions and engage in abortion-related activities. As to the first paragraph of the Arizona statute prohibiting State funds for abortion-related services, the court concluded that "Arizona may not unreasonably interfere with the right of Planned Parenthood to engage in abortion or abortion-related speech activities, but the State needs not support, monetarily or otherwise, those activities." Id. at 944. However, on appeal after remand, the court found that the second paragraph of the statute prohibiting use of State funds by organization that offer abortion-related services, even if State funds are not used for abortion-related services, to be unconstitutional. 789 F.2d at 1351.

The court stated that the "State's constitutional purpose of promoting childbirth over abortion 'may not be achieved by means which are unnecessarily broad and thereby invade the area of protected freedom.'" 718 F.2d at 944. (citations omitted). The court found the second paragraph to be unconstitutional because the statute was not drawn "as narrowly as possible to permit the State to control use of its funds while infringing minimally on exercise of constitutional rights." Id. at 945.

It is not clear from AM 2294 whether it would deny funding only for the excluded abortion or contraceptive services, or whether it would deny funding totally to applicants providing these services, but with other than State funds, within the prevention, early identifications and intervention services eligible for funding. If the amendment would require the State to deny funding to an applicant whose prevention, early identification, and intervention services include abortion or contraceptive services, even though the applicant is not requesting funding for the abortion and contraceptive services, the statute most likely would be found to be unconstitutionally overbroad as was the Arizona statutes.

In Webster v. Reproductive Health Servs., 109 S.Ct. 3040 (1989), rev'g, 851 F.2d 1071 (8th Cir. 1988), the Eighth Circuit at the appellate level held the Missouri statute prohibiting "encouraging or counseling for an abortion" was unconstitutionally vague. 851 F.2d at 1079. The court said the word "counsel" was "fraught with ambiguity; its range . . . {is} incapable of objective measurement. In such circumstance, the threat to the exercise of constitutionally protected rights to tangible, possible targets of the statute are chilled into avoiding even speech that is normally afforded the utmost protection under the constitution." Id. at 1078.

This question was not considered by the Supreme Court in Webster because it was rendered moot by appellees withdrawal of its claim. However, the court said the "threshold question is whether this provision reaches primary conduct, or whether it is simply an instruction to the State's fiscal affairs not to allocate funds for abortion counseling. In Webster, Missouri claimed that the Statute was "not directed at the conduct of any physician or health care providers. . . ." but . . . directed solely at those persons responsible for expending public funds."

In a note, the court said that although the court of appeals did not address this issue, the district court found the definition of public funds "broad enough to make encouraging or counseling' unlawful for anyone who is paid from' public funds" defined in the statute. 109 S.Ct. 3053 N. 11.

AM 2294 appears to be vulnerable to constitutional attack in several respects. It implicates both constitutionally protected speech rights and the right of a State to adopt a policy favoring normal childbirth over abortion. Because the First Amendment is involved, the statute will be subject to a strict scrutiny analysis, requiring a compelling State interest to interfere with protected speech activities. Elrod v. Burns, 427 U.S. 347, 362 (1976). Although the State is not required to show a compelling State interest for its policy choice to favor normal childbirth, AM 2294 may be viewed as constitutionally vague and overbroad, and, therefore, be found to exert direct state interference with protected speech activity, rather than constitutionally permitted State encouragement of a procreative and childbirthing preference. Clearly, the State is permitted refusal to fund performance of abortion and distribution of contraceptives. Harris v. McRae; Maker v. Roe. The constitutionally protected speech activities of counseling and referral however, require narrow statutory construction to permit the State to control the use of its funds with minimal infringement on the exercise of constitutionally protected rights. Planned Parenthood at 945.

The Ninth Circuit in Planned Parenthood suggested that a more narrowly drawn statute would simply forbid entities receiving State funds from using those funds for abortions and the related specified activities. Id.

However, the State would be allowed to show that withdrawal of all funds would be the only way to insure that no funds were being expended for the ineligible activities. Id. at 946. More troublesome with AM 2294 however is the ambiguity of the words counseling and refusal. The statute is unclear as to what "counseling and referral for" means. Can abortion or contraceptive be mentioned at all? Can questions by a client about abortion or contraception be answered?

Can no referral be made to any agency providing abortion or contraceptive counseling when the grantee program does not provide these services?

The statute's failure to make clear the answer to these questions, in our opinion, causes the statute to be unconstitutionally vague as to its meaning and applications. It fails to give fair notice of proscribed activity and encourages arbitrary and erratic behavior on the part of those who must enforce the statute. *Id.* at 947 (citation omitted).

Our analysis directs us to answer that AM 2294 is constitutionally suspect.

Respectfully submitted,

Opinion No. 90026

DATE: March 28, 1990

SUBJECT: LB 1141; Constitutionality of Various
Appointment Procedures for the Nebraska
Higher Education Commission in Light of
Article IV, Section 10 of the Nebraska
Constitution

REQUESTED BY: Senator George Coordsen
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Dale A. Comer, Assistant Attorney General

LB 1141 is legislation offered to implement LR 239CA, a proposed constitutional amendment which would abolish the present Board of Regents of the University of Nebraska and the present Board of Trustees of the Nebraska State Colleges in favor of a Board of Regents for Nebraska Higher Education. The new board would govern all public postsecondary educational institutions in Nebraska which offer undergraduate or graduate degrees.

Section 7 of LB 1141 creates a Nebraska Higher Education Commission consisting of 12 members. One member, the chairperson, would be a citizen-at-large appointed by the Governor. An additional eight members would be appointed by and from the Board of Regents for Nebraska Higher Education, the technical community college area boards, and the governing boards of independent colleges and universities in Nebraska. The final three members would be an owner, shareholder or board member of a proprietary school in this state, appointed by the Governor, and the Governor and Commissioner of Education or their designees. Two members of the Legislature would also be appointed by the Executive Board of that body to sit with the Commission and participate in discussions and recommendations, but those Senators could not vote or participate in any administrative function or decision of the new Commission. The members of the Nebraska Higher Education Commission would generally have three-year terms of office, and the Commission itself would have a number of duties with respect to postsecondary educational issues including developing plans and procedures for matters of statewide educational concern, facilitating communication and coordination among various educational institutions, establishing and maintaining a higher education information system, and administering the State Scholarship Award Program Act.

You have requested our opinion as to whether Section 7 of LB 1141 is constitutional under Article IV, Section 10 of our Nebraska Constitution. If there are any constitutional problems with Section 7, you have further inquired as to whether those problems can be cured if the voters approve the constitutional amendment set out in LR 239CA. We have reviewed the bills in question, and we believe that there are constitutional objections which can be raised with regard to Section 7. Moreover, we do not believe that those objections can be remedied if LR 239CA is voted into law.

Article IV, Section 10 of our Nebraska Constitution provides, in pertinent part:

The Governor shall appoint with the approval of a majority of the Legislature, all persons whose offices are established by the Constitution, or which may be created by law, and whose appointment or election is not otherwise by law or herein provided for; and no such person shall be appointed or elected by the Legislature.

Since Article IV, Section 10 applies to "offices," a threshold question in connection with your inquiry is whether positions on the proposed Nebraska Higher Education Commission are "offices" within the constitutional provision. We believe that they are.

Our supreme court has indicated that a public office is a place in government created by law which assigns to the incumbent the continuous performance of certain permanent public duties. Eason v. Majors, 111 Neb. 288, 196 N.W. 133 (1923). Indicia of a public office include:

1. Creation by constitution or a statute,
2. A continuing position not occasional or contractual,
3. A fixed term of office, and
4. The official has an independence beyond that of employees.

63A Am.Jur.2d Public Officers and Employees §9. Under these criteria, we believe that LB 1142 would create public offices with respect to the Nebraska Commission on Higher Education. That body would be a continuing agency established by statute. Commissioners would have a fixed term and would have independent authority beyond that of employees. Consequently, appointments to the Nebraska Commission on Higher Education would be subject to Article IV, Section 10 of our state Constitution.

LB 1141 provides that various members of the Nebraska Higher Education Commission will be appointed by the Governor, by the Board of Regents for Nebraska Higher Education, and by other bodies. The initial question we must address in responding to your opinion request is whether appointments may be constitutionally made by entities other than the Governor.

As noted above, Article IV, Section 10 of our state Constitution provides that the Governor shall appoint all persons "whose offices are established by the Constitution, or which may be created by law, and whose appointment or election is not otherwise by law or herein provided for. . ." Nebraska Constitution, Article IV, Section 10 (Emphasis added). The language emphasized in this portion of Article IV, Section 10 seems to indicate that the Legislature could, by law, allow authorities other than the Governor to make some appointments. An early Nebraska case supports such a conclusion.

In State v. Holcomb, 46 Neb. 88, 64 N.W. 437 (1895), our supreme court discussed language found in Article V, Section 10 of the Nebraska Constitution of 1875, a section which was virtually identical to the current Article IV, Section 10. The court stated:

However, a careful analysis of the above section {Article V, Section 10} discloses that power is thereby conferred upon the governor to appoint two classes of officers, viz., (1) those whose offices are established by the constitution itself, and (2) those whose offices are created by law and whose appointment or election is not otherwise provided for. The phrase, "whose appointment or election is not otherwise * * * provided for," is an apparent limitation upon the preceding general language, and read

by itself impliedly authorizes the legislature to prescribe the manner of selecting all officers of its own creation.

As a result, we believe that, in proper instances, the Legislature can authorize governmental entities other than the Governor to make appointments. However, under Article IV, Section 10 of our Constitution, those appointments may not be made by the Legislature itself.

LB 1141 also provides the certain members of the Nebraska Higher Education Commission shall be "from" the Board of Regents for Nebraska Higher Education, the technical community college area boards and the governing boards of independent colleges and universities in the state. We assume that the intent of this provision is that members of each of these various governing boards shall also serve on the Commission. Certain aspects of this provision are of suspect constitutionality under Article IV, Section 10 of our state Constitution.

In Neeman v. Nebraska Natural Resources Commission, 191 Neb. 672, 217 N.W.2d 166 (1974), our supreme court considered the constitutionality of Neb.Rev.Stat. §2-1504 (Cum.Supp. 1972) which provided for certain appointments to the Nebraska Natural Resources Commission. Specifically, that statute provided that the Natural Resources Commission would include members who were the deans of various colleges at the University of Nebraska and the state Director of Water Resources. The court stated that the state Director of Water Resources could serve on the Commission since he was a state officer and the Legislature could impose additional duties upon him. On the other hand, the University officials in question were not state officers, and their appointments by statute violated the state Constitution. The court stated,

The members of the commission who are officers of the University of Nebraska are not state officers. Their designation by the Legislature as members of the Commission was a legislative appointment in violation of Article IV, section 10, Constitution of Nebraska.

Neeman v. Nebraska Natural Resources Commission, 191 Neb. 676, 217 N.W.2d at 170 (citations omitted).

In the present instance, members of the Board of Regents for Nebraska Higher Education and members of the technical community college area boards appear to be state officers. As such, the Legislature could require them to serve on the Nebraska Higher Education Commission as an additional part of their duties. In contrast, members of the governing boards of the independent colleges and universities of the state are not governmental officers, and it appears to us that a statutory appointment from those boards

to the Commission could constitute an impermissible legislative appointment for the reasons stated in the Neeman decision.

Finally, we believe that there is one additional constitutional problem with those provisions of Section 7 of LB 1141 which require that certain members of the Nebraska Higher Education Commission be "from" various institutional governing bodies. We have noted similar problems in previous opinions of this office dealing with limited appointment provisions. See, Opinion of the Attorney General No. 87045, April 7, 1987; Opinion of the Attorney General No. 95, June 3, 1985; Opinion of the Attorney General No. 204, February 26, 1982; Report of the Attorney General, 1977-1978, No. 227 at 347. In Wittler v. Baumgartner, 180 Neb. 446, 144 N.W.2d 62 (1966), our supreme court held that a statute providing that the Board of Directors for a public electric corporation would be selected from members residing in nine regions violated Article IV, Section 10 of the Nebraska Constitution when five of those regions contained only one person qualified to receive the appointment. The court stated:

The right of the Legislature to prescribe reasonable qualifications of one to be appointed to office is not disputed. But the Legislature is prohibited by constitutional provision from appointing officers whose offices are created by law, either directly or indirectly. The provisions of the Act which limit the appointment of grid system directors by the Governor to a certain unnamed individual or to a limited few, is an encroachment by the Legislature upon the powers of the Governor and is void as violative of Article IV, section 10, of the Constitution of Nebraska.

Wittler v. Baumgartner, 180 Neb. at 460, 144 N.W.2d at 71 (Emphasis added). Section 7 of LB 1141 provides that eight members of the Nebraska Higher Education Commission shall be appointed from the limited membership of the various boards listed in the bill. For the reasons set out in the Wittler case, we believe this limited appointment provision violates Article IV, Section 10.

In sum, we believe that there are two possible constitutional problems with Section 7 of LB 1141 under Article IV, Section 10 of our Nebraska Constitution. First, the appointment of individuals "from" the governing boards of private institutions who are not state officers may be considered an impermissible legislative appointment. More importantly, the limited nature of the appointments possible from the various boards listed in the bill appears to create a clear violation of Article IV, Section 10. We have reviewed LR 239CA, the bill which proposes a constitutional amendment to reorganize the state's higher education system. The main provisions of that resolution simply describe the reorganized governing bodies involved,

and do not mention either the Nebraska Higher Education Commission or Article IV, Section 10 of the Constitution. Therefore, we do not believe that passage and voter approval of LR 239CA would cure the constitutional defects which we have noted.

Sincerely yours,

AM3206

(Amendments to Final Reading copy)

- 3 "Section 1. Sections 1 to 9 of this act shall
- 4 be known and may be cited as the Health Insurance Access
- 5 Act.
- 6 Sec. 2. The Legislature finds and declares
- 7 that there is an increasing number of Nebraskans who
- 8 lack health insurance and that these uninsured people

9 include many individuals who cannot afford the rising
10 cost of medical care but do not qualify for the various
11 income-based welfare programs. The lack of financial
12 means of uninsured people to pay for their medical care
13 leaves health care providers with uncollectible debts
14 which are transferred to other patients and to insurers.
15 It is the purpose and intent of the Legislature to
16 provide a mechanism to allow insurers to provide basic
17 levels of health insurance to those people who are
18 uninsured, are below certain income levels, and are not
19 qualified for income-based welfare programs.

20 Sec. 3. For purposes of the Health Insurance
1 Access Act:

2 (1) Insurer shall mean any insurance company

15 period as a hospital inpatient or successive periods as
16 a hospital inpatient when the date of discharge and the
17 following date of admission are less than sixty
18 consecutive days apart; and

19 (5) Uninsured access coverage shall mean a
20 policy of sickness and accident insurance or a contract
21 for health care services covering individuals, with or
22 without their dependents, issued by an insurer subject
23 to the limitations and requirements in the act.

24 Sec. 4. (1) An uninsured access coverage
1 policy or contract shall limit eligibility to

8 (b) Who are not eligible for medicare or any

9 other medical assistance program, including, but not
10 limited to, the program established pursuant to sections
11 68-1018 to 68-1025.

12 (2) Every uninsured access coverage policy or
13 contract shall specify the time period, not exceeding
14 six months, for which any applicant shall demonstrate
15 eligibility based upon the income standards of such
16 policy or contract, and every such policy or contract
17 shall specify what constitutes sufficient verification
18 of income at the time of application and annual
19 renewals.

20 (3) If an individual's or a family's income
21 exceeds the income eligibility standards of the
22 uninsured access coverage policy or contract and such

1 or contract shall allow a transfer to a designated type
2 of individual policy or contract without evidence of
3 insurability and without interruption in coverage
4 subject to payment of premiums. Each uninsured access
5 coverage policy or contract shall specify the type of
6 individual policy or contract to which an insured person
7 may transfer.

8 Sec. 5. (1) An individual or a family member
9 shall not be eligible for initial or continued coverage
10 if he or she:

11 (a) Is eligible as an employee or dependent
12 for employer-sponsored or maintained group insurance
13 coverage;

14 (b) Is covered by any other type of hospital,

19 contract shall provide that the benefit payment shall be
20 accepted as payment in full by the provider and there
21 shall be no deductible or coinsurance charged to the
22 insured.

23 Sec. 7. (1) Each uninsured access coverage
24 policy or contract shall include:

1 (a) A reasonable description of the geographic
2 area or areas to be served; and

3 (b) A listing of the providers who have a
4 contract with the insurers to furnish health care
5 services.

6 Sec. 8. Notwithstanding any other provision
7 of law, every uninsured access coverage policy or
8 contract shall be exempt from any and all mandated
9 benefits which require coverage of any type of services
10 or conditions.

11 Sec. 9. An insurer issuing an uninsured
12 access policy or contract may enter into contracts to
13 arrange for health services by certain providers, may
14 limit the number and types of providers with which it
15 contracts, and shall not be required to provide benefits
16 for services furnished by providers who do not contract
17 with the insurer.”.

- 2 "Sec. 2. The Department of Revenue shall at
- 3 the end of each calendar quarter determine (1) the
- 4 amount of motor fuel tax that was not collected in the
- 5 second preceding calendar quarter due to the credit
- 6 provided in section 1 of this act and the exemption
- 7 provided in sections 66-410 and 66-428, (2) the amount
- 8 of motor fuel tax that would not have been collected in
- 9 the second preceding calendar quarter if the exemption
- 10 provided in sections 66-410 and 66-428 were in the
- 11 amount of three cents per gallon effective until January
- 12 1, 1993, and (3) the amount by which the amount
- 13 determined in subdivision (1) of this section exceeds
- 14 the amount determined in subdivision (2) of this
- 15 section. If the amount determined in subdivision (3) of
- 16 this section is at least equal to the amount of revenue
- 17 raised in the same period by one-tenth of one cent of
- 18 the fuel tax imposed by sections 66-410, 66-428, and
- 19 66-605, the Tax Commissioner shall for the next
- 20 succeeding calendar quarter adjust the rate of the fuel

1 tax imposed by such sections in an amount which the Tax
2 Commissioner estimates, based on the estimates provided
3 to the State Board of Equalization and Assessment
4 pursuant to section 66-476, will raise sufficient
5 revenue to meet and not exceed the amount determined in
6 subdivision (3) of this section, except that all such
7 adjustments shall be in increments of one-tenth of one
8 cent per gallon.

9 Sec. 5. That section 66-474, Reissue Revised

18 determine the statewide average cost by dividing the
19 total amount paid for motor vehicle fuels and special
20 fuels by the State of Nebraska, excluding any state and
21 federal taxes, by the total number of gallons of motor
22 vehicle fuels and special fuels purchased during the
23 reporting period.

1 as required in subsection (1) of this section, the
2 department shall multiply such statewide average cost by
3 the tax rate established pursuant to section 66-476.

4 (3) In making the computations required by
5 subsections (1) and (2) of this section, gallonage
6 reported shall be rounded to the nearest gallon and
7 total costs shall be rounded to the nearest dollar. All
8 other computations shall be made with three decimal
9 places, except that after all computations have been
10 made the tax per gallon shall be rounded to the nearest
11 one-tenth of one cent.

12 (4) The tax rate per gallon computed pursuant
13 to this section shall be distributed to all licensed
14 motor vehicle fuel dealers, special fuel dealers, and

16 subject to sections 66-410.01 to 66-410.05 at least five
17 days prior to the first day of any calendar quarter
18 during which the tax is to be adjusted. Such tax rate
19 shall be utilized in computing the tax due for the

Dear Mr. O'Donnell:

It is hereby requested that the Ninety-First Legislature of Nebraska approve a change in the construction plans previously approved in Legislative Resolution 223 on May 24, 1989. Pursuant to LR 223, the University is requesting that exterior and interior improvements and modifications of Mabel Lee Hall be approved as part of Phase III of the Campus Recreation/Athletic Facility in addition to exterior and interior improvements to the Coliseum. This change in Phase III of the project will enable Department of Health, Physical Education and Recreation functions currently housed in both locations to be combined within the Mabel Lee facility. It will not result in any additional cost for Phase III of the project since the improvements scheduled for the Coliseum will be reduced accordingly in scope. nor will it result in a change in the previously approved financing plan for the project.

Should the Legislature require additional information regarding this matter, please contact Dr. James V. Griesen, UNL Vice Chancellor for Student Affairs, 124 Administration Building, Telephone 472-3755 or me.

ATTORNEY GENERAL'S OPINION

Opinion No. 90027

DATE: April 4, 1990

SUBJECT: LB 1124 - Issuance of Transferrable Motor Fuel Tax Credit Certificates to Entities Which Produce Ethanol

REQUESTED BY: Senator LaVon Crosby
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
Bernard L. Packett, Assistant Attorney General

This is in reply to your inquiry concerning the constitutionality of that provision of LB 1124 which would entitle a producer of ethanol to obtain from the Department of Revenue a transferrable motor fuel tax credit certificate in the amount of 20¢ for each gallon of ethanol produced in Nebraska.

Your inquiry makes specific reference to Article XIII, Section 3 of the Nebraska Constitution which provides in part: "The credit of the State shall never be given or loaned in aid of any individual, association, or corporation, ***."

It would seem quite clear that the purpose of Section 1 of LB 1124 is to subsidize the ethanol producers of Nebraska in order to increase the market of grain used in the production of ethanol. The purpose is not unlike that addressed by our Supreme Court in Oxnard Beet

Sugar Company v. State, 73 Neb. 57, 102 N.W. 80; 73 Neb. 66, 105 N.W. 716.

In that case, to encourage the manufacture of sugar from plants grown in Nebraska, a law was enacted which provided for a "bounty" of a specified sum, to any person, firm or corporation engaged in the manufacture of sugar in the State, for each pound of sugar manufactured. The manifest object of the Legislature in encouraging the manufacture of sugar was to build up manufacturing industries in the State which would help to develop the market of those crops used in the manufacture of sugar.

The question presented to the court was the power of the Legislature to appropriate the public money for such purposes.

In holding the act unconstitutional, our Supreme Court noted that it was aided by the discussions of other courts on the precise question and said:

"In Michigan, under a constitutional provision similar to ours, the Legislature attempted to appropriate the public money to encourage the production of sugar, and the Supreme Court of that state upon thorough investigation and careful reasoning determined that the purpose of the appropriation was not a public one, and held the legislation unconstitutional. (Cases Cited) Following this decision the Supreme Court of Minnesota, held similar legislation unconstitutional for the same reason. The Circuit Court of Appeals of the United States for the Eighth Circuit has announced the same conclusion, giving strong reasons for concluding that the encouragement of the manufacture of sugar is not a public purpose for which the Legislature may appropriate the public money."

In conclusion, our court said:

"The Legislature cannot appropriate the public moneys of the state to encourage private enterprises. The manufacturing of sugar and chicory is a private enterprise and the public money or credit cannot be given or loaned in aid of any individual, association, or corporation carrying on such enterprises."

In the present matter, we see no difference between the payment for "tax credit certificates" issued to producers of ethanol produced in the State and the payment of claims by producers of sugar in Nebraska for each pound of sugar produced.

It has been suggested that, aside from the legal question, there is still a moral and equitable duty to pay a producer of ethanol which uses the agricultural products of Nebraska farmers. The same argument was made in the Oxnard Beet Sugar case and our court said:

This contention seems to receive some support in the language used by Peckham J., in the case of *U.S. v. Realty Co.*, 163 U.S. 427, 167 up. Ct. 1120, 41 L.Ed.215. While recognizing the high standard of the tribunal from which the decision comes, as well as the great learning of the author of the opinion, we are still unable to give our assent to this doctrine. We are unable to understand any principle either of equity or good conscience that should estop the people of the state of Nebraska by an unauthorized act of the Legislative department of their government, especially when such act is attempted to be enforced in the face of a direct prohibition in the Constitution or basic law adopted by the people. An unconstitutional statute is a legal stillbirth, which neither moves, nor breathes, nor holds out any sign of life. It is a form without one vital spark. It is wholly dead from the moment of its conception, and no right, either legal or equitable, arises from such an inanimate thing.

The rule stated in the Oxnard Beet Sugar case has been reaffirmed in many subsequent cases, See State ex. rel. Douglas v. Thone, 204 Neb. 836, 286 N.W.2d 249; State ex. rel. Rodgers v. Swanson, 198 Neb. 125, 219 N.W.2d 726; Bachus v. Swanson, 179 Neb. 1, 136 N.W.2d 189; Summerville v. North Platte Valley Weather Control District, 170 Neb. 46, 101 N.W.2d 748; and United Communities Services v. Omaha National Bank, 162 Neb. 786, 77 N.W.2d 576.

From the above, it is our conclusion that the provision of LB 1124 which would authorize the issuance of transferrable motor vehicle tax credit certificates for each gallon of ethanol produced in the State could not be successfully defended in a test before our courts.

Very truly yours,
 Robert M. Spire
 Attorney General

MESSAGES FROM THE GOVERNOR

April 4, 1990

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Today I signed and delivered to the Secretary of State LB 259 and LB 259A, the School Affiliation bill.

Because of the sincere fears expressed by a number of dedicated Nebraskans who have built strong Class I school districts, I reflected long and hard on this legislation. My decision was not an easy one to reach, and I listened closely at various stages in the legislative process to leaders on both sides of the issue. In the end, however, it was my "bottom line" concern for assisting rural Nebraska and for preserving the chance of country schools to keep offering a vital option to their families which led me to sign.

Without this bill, we would face a crisis with the July 1, 1991 sunset on non-resident tuition. Furthermore, LB 259 creates an innovative affiliation mechanism that is not now available to Class I school patrons who are looking for tools for the future. To be sure, there are many unknowns, and the "Phase III" funding provisions pose difficult legal questions as well.

On balance, my view is that LB 259 offers a workable solution to the divisive issue of school organization. It was developed over several years through the painstaking efforts of members of each type of school district found in rural Nebraska and with the active involvement of a number of agricultural groups as well as our state's varied education organizations. With four legislative sessions ahead of us before the implementation of Phase III, there will be numerous opportunities to modify this law, especially if any portion should prove damaging to quality learning opportunities for Nebraska children. Barring such surprises, Nebraska voters can be expected to take the Legislature at its work in the declaration that LB 259 closes the book on a century of conflict over school district organization.

It is my intention to continue to push rural revitalization aggressively. The three and a half years spent working on these complex issues have convinced me that we must do more to develop

flexible approaches to the delivery of education in the majority of our beautiful state that is sparsely populated. With good will on the part of all, we can use the opportunity presented by this compromise legislation to build a great future for a very important part of Nebraska.

Sincerely,

MESSAGES FROM THE GOVERNOR

April 4, 1990

Mr. President. Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 1031 with my signature but with specific line-item reductions. The listing attached to this letter provides you with the amounts and explanation for each of the reductions made to LB 1031.

We are again in the same position this year as we were last spring when I vetoed over \$68 million from your spending proposals. It is again clear that the Legislature has passed many bills that cannot be accommodated within the minimum 3% reserve required. The reductions contained in LB 1031 are a part of the reductions that will be necessary to bring our budget into balance.

Among the reductions are many items that never went through the budget process and are not emergency in nature. In the biennial budget process we should refrain from making nonemergency appropriations in this off-budget year and maintain an orderly budget review process.

In order to keep our fiscal house in order and the continued integrity of the State, I urge you to sustain these vetoes.

Sincerely,
(Signed) KAY A. ORR
Governor

Dear Mr. President and Senators:

I am returning LB 520A with my signature but with line-item reductions.

LB 520 would establish a nursing scholarship program and a financial incentive program to attract nursing professionals to serve in less populated areas of Nebraska. The incentive program is acceptable to me at a reduced level of \$30,000 for the year 1990-91 and \$60,000 for 1991-92.

Funds for the scholarship portion in LB 520A have been vetoed, along with administrative funds for the Department of Health. The

incentive program is well enough defined that current staff can manage without additional funds.

As has been indicated, my preferred approach for directing tuition assistance to students is the use of the scholarship programs administered by the Coordinating Commission for Post-secondary Education. As part of the deficit funding bill, I am approving \$125,000 in new scholarship funds to each of the two programs administered by the Coordinating Commission for the year 1990-91.

The Scholarship Assistance Program, established last year and funded totally with State General Fund, allows governing boards the flexibility of setting aside specified amounts of funding to address manpower shortages, such as nursing. This approach assists students who wish to pursue nursing and other careers and does not take additional state funds for administration. As manpower needs change, the flexibility is available to adapt to those needs without abolishing one program and starting another.

In accordance with conversations with the sponsors of LB 520, I am prepared to request governing boards at both public and private institutions which have nursing programs to give attention to the set-aside potential permitted in the Scholarship Assistance Program. A copy of my letter to the Board of Regents is attached. Similar letters are ready to go to the other governing boards.

Sincerely,

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 678 and LB 678A without my signature and with my objections.

LB 678 includes a number of proposals designed to improve services to children; unfortunately, it also includes an item that contradicts this goal. Specifically, LB 678 increases the number of children that may be cared for without a license from the Department

of Social Services. This exclusion, which applies only to counties with a population fewer than 15,000, creates the impression that all children are not entitled to the same degree of State oversight. Also, the constitutionality of this provision is questionable.

In addition, LB 678 creates additional administrative problems in the regulation of child care facilities. The new requirement for an inspection within ninety days of licensure places an unreasonable burden on the State Fire Marshal and the Department of Social Services. Also, LB 678 creates a new division in the Department of Education called the "Division of Child Care and Early Childhood Education." As you may recall, LB 567 already passed by the Legislature created the "Early Childhood Training Center" in the Department of Education. It is not clear if these are the same entity and how they compare to the "Office of Child Development" already created administratively by the Commissioner of Education. Since LB 662, passed recently by the Legislature created a "Nebraska Commission on Families", it is reasonable to ask how all of these new bureaucratic entities will help in our attempts to coordinate services to children.

Finally the increase proposed for Title XX day care rates simply cannot be done in view of the Legislature's other financial commitments. You may recall that you included nearly three million dollars last year to increase Title XX day care rates to about eighty percent of market rates.

It is my constitutional responsibility to balance the State budget and maintain appropriate reserves.

Dear Mr. President and Senators:

I am returning LB 1220 with my signature but with specific line-item reductions.

LB 1220 would provide partial funding for the addition to, and remodeling of the Eppley Science Hall at the University of Nebraska

Medical Center. The space would be used for expanding cancer research and related research programs. On June 15, 1991, of the balance existing in the University Facilities Construction Fund, \$1,740,000 that at present is to be lapsed to the General Fund would instead be transferred to a newly-created University of Nebraska Eppley Science Hall Construction Fund.

This bill would substantially reduce the money available for the FY 91-93 Biennium. Moreover, the University has received an increase in excess of 50 percent in General Funds for operations during my administration. Included in those increases is \$24 million for the first three years of my research initiative, which will ultimately total \$60 million over the five year period. In addition, for the current biennium, over \$34 million of State General Funds and Cigarette Tax Funds are appropriated to the entire University for various construction projects. This is certainly a significant amount.

My line-item reduction allows \$475,000 to be transferred and spent on this project from State funds. This is a sufficient State contribution for the project. The Medical Center can reduce the scope of the project through more efficient design and planning, and more non-State funds can be used to complete the project.

I urge you to sustain this necessary and prudent reduction.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 164 and LB 164A without my signature and with my objections.

LB 164 would require the State Historical Society to take ownership of Joslyn Castle and provide for its maintenance. Last year the Legislature funded \$50,000 to determine the costs of different preservation options and pay some of the interim utility costs. The architectural and engineering study identified major deferred maintenance needs and other expenses to make the facility useable.

Most remain to be done. Although the intent of LB 164 is to seek private financing, the final liability for any unmet capital or operating expenses would ultimately rest with the State taxpayer.

State ownership is not essential nor appropriate to the preservation goals for Joslyn Castle. The Joslyn Castle Reuse Study identified several ownership options and made clear the existing legal covenant governing the property's required upkeep and permitted uses.

I urge you to sustain my veto.

Sincerely,
(Signed) KAY A. ORR

Dear Mr. President and Senators:

I am returning LB 1170e without my signature and with my objections.

LB 1170e would provide a \$269,000 deficit appropriation from the General Fund for the current biennium to fully fund the statutory maximum number of students within the Nebraska National Guard Tuition Credit program. The bill proposes to revert the Military tuition assistance program back into an entitlement benefit, with little regard for future costs. You will recall that this program was a true entitlement only until the passage of LB 267 in 1983 and that, because of cost considerations, the legislature further restricted the program in both 1986 and 1987.

Under federal and Nebraska law, it is possible for some Guard members to receive multiple educational benefits while others receive little or no assistance. In addition to the State's 75 percent tuition credit reimbursement, many students also qualify for both the federal "G.I. Bill" and the National Guard Student Loan Repayment Program. To make for more educational equity, the State's National Guard Tuition Credit program should be utilized to provide benefits to those Guard members who are not eligible for any federal educational assistance.

Furthermore, with my approval of LB 1031, Nebraska's state aid programs for all needy students will be expanded significantly for the third year in a row. Guard members will also be able to utilize this source of tuition assistance, and college financial aid offices will have flexibility to assist in providing continuity. The maximum utilization of these various scholastic benefit programs is given further impetus by the 25 percent federal budget cut and unfortunate-but-expected personnel reductions being proposed for the Nebraska National Guard in FY93 by the President. Nebraska's program was originally intended as a tool to combat low recruitment figures -- a tool that appears to be unnecessary for the present.

I believe it would be most appropriate at this time for the Legislature to consider an interim study of the most efficient use of funds appropriated to this program. A review of the program will also be conducted by my staff this summer.

Sincerely,

Dear Mr. President and Senators:

I am returning LB 536 without my signature and with my objections.

LB 536 would provide an additional Aid to Dependent Children benefit for persons who become ineligible for benefits because of earned income. The additional payment of one-half the regular benefit would be a single payment, funded entirely by the State General Fund.

Unfortunately, the total amount of spending approved by the Legislature does not allow for discretionary items such as this. The Members should be aware of several improvements in benefits that have been approved in previous sessions. For example, LB 362 last year increased the duration of special medical and child care benefits for persons who participated in job support activities. That expansion

was an improvement to LB 518 of 1988 which also increased the Aid to Dependent Children payment levels.

Perhaps a continuation of our economic growth in the future will enable the Legislature to examine these benefits as part of a total spending package.

Dear Mr. President and Senators:

I am returning LB 1126 without my signature and with my objections.

LB 1126 would increase the rate for Medicaid personal care aides from current \$3.35 per hour to \$5.00 per hour. As you know, effective April 1, 1990, the minimum wage has gone up to \$3.80 per hour and next year it will be increased to \$4.25 per hour.

The valuable services rendered by the caregivers are recognized by me, however, it isn't a good public policy to increase payment rates selectively for certain caregivers only. A number of priorities have been identified this legislative session and it just is not possible to fund them all and balance the budget.

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 898e without my signature and with my objections.

LB 898e seeks \$100,000 in FY90-91 and \$4.3 million in State funds over the next four years for the development of a Trailside Complex, proposed to be a branch of the University of Nebraska State Museum, and renovation of existing facilities at Fort Robinson State Park. The bill would also appropriate \$190,000 in FY89-90 for planning money for a public events center and headquarters building at the University of Nebraska Agricultural Research and Development Center at Mead.

Stable funding and expenditures are both necessary components of a responsible budgeting process, and the State has implemented specific procedures in order to maintain this needed stability. Both the Trailside Complex and the Mead headquarters building are worthy projects that probably should be fully supported by the State of Nebraska at some time in the future. However, as representatives of the citizens of this state and as guardians of Nebraska's public financial resources, I do not believe that we can responsibly commit money for these projects at this time.

No deficit request for the biennium was made for either of these projects. Moreover, the Board of Regents placed the Mead project very low on their capital construction priority list for the University, and the Trailside Complex did not appear on this list at all. These construction projects are not currently among the Regents' high priorities, and until they are, and until the State can responsibly budget and pay for them, this construction must be postponed.

Sincerely,

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 163 and LB 163A without my signature and with my objections.

The sincere environmental concerns behind LB 163 are very laudable, but several problems in the bill would hamper its effectiveness. The first is that LB 163 fails to build upon past work commissioned by the Legislature. An assessment of solid waste disposal sites required by LB 639 passed in 1987, and a recent follow-up study of five landfills clearly showed that the State's most pressing solid waste issue involves correcting past mistakes in the siting and closure of dumps. LB 163 in its present form allows the use of grant money for closure, but does not authorize its use for remediation. If the State is to levy new taxes for solid waste and appropriate those proceeds along with \$1,000,000 of general funds, then one of the highest priorities must be ground water contamination resulting from existing dumps.

Another problem is the legal and administrative difficulty of squaring Section 9 of the bill with existing law. Section 9 directs the Environmental Control Council to adopt solid waste regulations that fully comply with the latest EPA guidelines, but Section 81-1528 (6) exempts cities of the second class and villages from such regulations. Allowing LB 163 to become law in its present form would create confusion over the legal status of the landfills operated by 94% of the State's municipalities. In addition, the EPA has not yet promulgated the new landfill criteria. It is imprudent to set a direction for solid waste management without knowledge of the overriding effect of these regulations.

Finally, LB 163 would impose new taxes on businesses and tires. The problem of solid waste management is one created by all of society. A narrow tax on industries or products is inappropriate and as such, it will be my desire that this issue be approached in the next legislative session with general fund monies and with a focus broader than solid waste disposal alone.

Because of the forgoing shortcomings in LB163, I urge you to sustain my veto.

Sincerely,
(Signed) KAY A. ORR

Dear Mr. President and Senators:

I have returned LB 503 and LB 503A without my signature and with my objections.

LB 503 and LB 503A increase the salaries of State Constitutional Officers and appropriates funds to carry out those provisions.

There are many worthwhile programs that are being vetoed due to budget constraints. Constitutional Officers must share in these efforts to keep state spending to a minimum.

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 662 and LB 662A without my signature, and with my objections.

LB 662 establishes a Nebraska Commission on Families to be responsible for a number of activities relating to the implementation of the Family Policy Act and the Family Services Incentive Act. Also the bill creates a State Incentive Grant program for the communities and designates the Center on Children, Families and the Law at the University of Nebraska-Lincoln as the entity responsible for the development, monitoring coordination and administration of a statewide multi-purpose training program to meet the needs of individuals providing services to children and families.

My veto of the bills is based on the following reasons:

1. The creation of a commission is unnecessary at this time as it adds another layer of bureaucracy to the administratively established system of coordinating agencies and programs serving children and families. The Director of my Children and Family Policy Office is charged with the specific work scope similar to what is proposed in the bill for the commission.

2. The Department of Social Services already has an appropriation of \$160,000 for FY 1990-91 for the incentive grants to the communities. The effectiveness of the program must be evaluated before state's financial commitment to the grant program is increased by one hundred percent for the same period.
3. The designation of the Center as the sole monitor of training is too restrictive. This approach prohibits other providers from active participation in the prescribed training process.

The desire to serve the needs of Nebraska's children and families and to receive input from those outside the executive branch is shared by me. However, the members of the Legislature should be aware of the activities undertaken by my administration. A network of community teams is being developed for families both current and those newly funded with incentive grants. These teams will be a significant source input on policy and issues and represent a far greater constituency than a single commission. The first round of incentive grants have been awarded to the communities across the State and training consortium is being developed.

A recent correspondence from Father Val Peter, Executive Director of Boy's Town has convinced me that the current administrative arrangement of addressing the needs of children and families is far more advantageous than the proposed structure. Father Val Peter is nationally recognized for his expertise and knowledge in the area of services to children. He has stated that "the commission on families threatens to diminish the effectiveness of the Children and Family Office and that designating the UNL as the sole entity responsible for the training program would bar other, even better qualified programs from active participation in the prescribed training process."

In addition, the Legislature has identified a number of priorities this session and it just is not possible to fund them all and balance the budget.

Sincerely,
(Signed) KAY A. ORR

Mr. President. Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 187 and LB 187A without my signature and with my objections.

LB 187 would transfer from the counties to the State the responsibility for medical costs for indigent persons and jail inmates. While the bill includes a statutory cap on medical expenditures of \$7,200,000 per year, the Department of Social Services has estimated that actual billings would be much higher. LB 187 proposes to prorate expenses on a quarterly basis, although the actual mechanism is not clear. Presumably the Department would have to accumulate all billings for each quarter, total them, and only after all expenses were received would the payments begin on a reduced basis. The administrative costs of the program would be substantial, partially because the State's payment system must be modified to accommodate LB 187's restrictions on the types of allowable services.

The Members of the Legislature should be aware of the history involved in the administration of medical programs for the poor. In the early nineteen eighties, the counties agreed that administration of indigent care be retained under their control. Since the State assumed the full costs for Medicaid in 1986, many millions of property tax costs have been assumed by the State. Just last year the Legislature passed LB 362 which transferred responsibility for emergency assistance programs from the counties to the State.

While there has been an argument made that LB 187 represents property tax relief, this measure is not equitable in that regard. It is likely that the benefits of LB 187 would be concentrated in the larger counties in which Medicaid expenditures are made.

Since the Legislature has approved an amount of expenditures that does not allow for required reserve requirements, it is my obligation to reduce appropriations so that a sound fiscal standard can be maintained.

Sincerely,
(Signed) KAY A. ORR

RESOLUTIONS

LEGISLATIVE RESOLUTION 424. Introduced by Lindsay, 9th District; Morrissey, 1st District.

WHEREAS, concern for the use and preservation of the natural resources of the earth should be a paramount concern; and

WHEREAS, Earth Day will be observed on April 22 and celebrated by many groups of Nebraskans who share the concerns of protecting and preserving the environment; and

WHEREAS, the international theme of Earth Day 1990 is "Think globally, act locally" and provides an encouragement for citizens to recognize the importance of individual decisions and actions in protecting the beauty and improving the purity of the natural environment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature recognizes the efforts of individuals and groups in strengthening society's awareness of the importance of natural resources and environment in the observance of Earth Day on April 22, 1990.

2. That a copy of this resolution be presented to be read at the Earth Day observances to be held in Omaha on April 22, 1990.

Laid over.

LEGISLATIVE RESOLUTION 425. Introduced by Landis, 46th District; Warner, 25th District; Hall, 7th District.

WHEREAS, the Ninety-first Legislature, Second Session, 1990, passed and Governor Orr signed into law Legislative Bill 272A, Second Session, 1990, appropriating funds for depositors of three failed financial institutions, American Savings, Commonwealth Savings Company, and State Securities; and

WHEREAS, the appropriation in LB 272A was \$16.9 million for FY1989-90 and \$16.9 million for FY1990-91 to reimburse depositors of the three failed financial institutions; and

WHEREAS, LB 272A passed without the emergency clause and only the appropriation for FY1990-91 will be effective; and

WHEREAS, LB 272A states that "successor companies and receivers shall be subject to the supervision of the department in order to ensure that the appropriations to the department are distributed fairly and in equal proportions among all depositors" and any distribution method that does not provide reimbursement for the unrecovered loss of guaranteed deposits of any depositor of any of the failed financial institutions will frustrate this clearly stated public purpose; and

WHEREAS, the legislative history of LB 272A makes it clear that the proponents of the bill uniformly maintained that the depositors of all three failed institutions were to receive equitable treatment in the payment of their claims and that depositors of the three failed financial institutions were to receive payments; and

WHEREAS, any method of distribution that does not provide payment to all depositors of all three failed financial institutions in proportion to the amount of unrecovered loss of guaranteed deposits borne by each depositor is not a fair and equitable method of distribution; and

WHEREAS, it was the intent of the Legislature in passing LB 272A without the emergency clause that the appropriation of \$16.9 million for FY1990-91 be distributed to the depositors of all three

financial institutions in proportion to the unrecovered loss of guaranteed deposits borne by each depositor; and

WHEREAS, since the passage of LB 272A without the emergency clause effectively appropriated approximately one-half the amount necessary to fully reimburse all depositors of all three failed financial institutions for their unrecovered loss of guaranteed deposits, it is the intent of the Legislature that each and every depositor shall receive approximately one-half of the amount he or she would have received had the entire \$33.8 million been appropriated.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature offers this resolution as an expression of legislative intent for LB 272A.
2. That a copy of this resolution be sent to the Governor and to the Director of Banking and Finance.

Laid over.

WHEREAS, pursuant to the provisions of sections 85-404 and 85-408, the plans for construction, financing, and use of existing Student Fees and Facilities Revenue Bond funds for the construction of Phases I and II of a campus recreation/athletic facility on the University of Nebraska-Lincoln campus were approved in 1987 by Legislative Resolution 69 as adopted by the Ninetieth Legislature; and

WHEREAS, Legislative Resolution 69 approved Phase III of the project but required that should the University of Nebraska elect to issue revenue bonds for Phase III, there would be a supplement to the financing plans submitted for specific approval by the Legislature pursuant to section 85-404; and

WHEREAS, the University of Nebraska has submitted financing plans for Phase III which provide for the issuance of bond anticipation notes in an amount not to exceed \$4,925,000. These notes would be refunded by the issuance of revenue bonds under the 1964-66 University of Nebraska Student Fees and Facilities Revenue Bond Resolution. If more favorable bond conditions prevail at the time financing is conducted, the financing plans would not involve

issuing bond anticipation notes but would provide for direct issue of serial revenue bonds; and

WHEREAS, Phase III will add exterior and interior improvements to the coliseum and Mabel Lee Hall as part of the campus recreation/athletic facility project to accommodate four multipurpose courts, fitness facilities, laboratories, and offices for the School of Health, Physical Education, and Recreation, general purpose classrooms, intercollegiate athletic offices, training rooms, practice and competition courts for the women's intercollegiate volleyball team, and general locker and shower rooms; and

WHEREAS, the University of Nebraska would pledge to the retirement of the bonds funds generated from the capital facilities assessment on home football game tickets.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That pursuant to the provisions of section 85-404 and Legislative Resolution 69 adopted by the Ninetieth Legislature, supplemental financing plans for Phase III which call for the issuance of bond anticipation notes and/or revenue bonds in an amount not to exceed \$4,925,000 are hereby approved.

ATTORNEY GENERAL'S OPINION

Opinion No. 90028

DATE: April 5, 1990

SUBJECT: LB 1059 - Constitutionality of "Hold Harmless" Provision Assuring School Districts Will Not Receive Less State Aid for Three Year Period than Amounts Received Under the School Foundation and Equalization Act for 1989-90

REQUESTED BY: Senator Loran Schmit
Nebraska State Legislature

WRITTEN BY: Robert M. Spire, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to the constitutionality of Section 6 of LB 1059. Subsection (1) of Section 6 provides, in part: "Except as provided in subsections (2) and (3) of this section, each district shall receive state aid in the amount that the total formula need of each such district, as determined pursuant to sections 5 and 7 of this act, exceeds its total formula resources as determined pursuant to sections 8 to 11 of this act." Subsection (2) of Section 6 contains a "hold harmless" clause, providing "{a} district shall not receive state aid for each of the school years 1990-91, 1991-92, and 1992-93 which is less than one hundred percent of the amount of aid received pursuant to the School Foundation and Equalization Act for school year 1989-90." Your initial question concerns whether the "hold harmless" provision in subsection (2) of Section 6 of LB 1059 violates the prohibition against special legislation in Article III, Section 18. of the Nebraska Constitution, by the creation of unreasonable closed classifications.

On several occasions, the Nebraska Supreme Court has struck down legislation as violative of the prohibition against special legislation in Article III, Section 18, on the ground that the classifications created unreasonable closed or frozen classes which precluded the opportunity for an increase in the members of the class by future growth or development. See, e.g., State ex rel. Douglas v. Marsh, 207 Neb. 598, 300 N.W.2d 181 (1980); City of Scottsbluff v.

Tiemann, 185 Neb. 256, 175 N.W.2d 74 (1970); State ex rel. Conkling v. Kelso, 92 Neb. 628, 139 N.W. 226 (1912). Most recently, in State ex rel. Douglas v. Marsh, the court held a state statute granting aid to governmental subdivisions utilized a distribution formula which created an unreasonable closed classification in violation of the state constitutional provision prohibiting special legislation. The statute created a fund known as the Local Government Revenue Fund which was designed to reimburse counties for lost revenues resulting from the exemption from taxation of certain types of personal property. 207 Neb. at 601-05, 300 N.W.2d at 183-85.

The supreme court concluded the bill created an arbitrary and unreasonable closed classification in violation of Article III, Section 18. The court found the bill's formula for determining the amount each county would receive created an unreasonable "frozen classification" in that the formula did not make any allowance for changed circumstances which would allow a county to enter into a different classification in future years. Id. at 606, 300 N.W.2d at 186. The court cited its previous decisions in City of Scottsbluff v. Tiemann, supra, and State ex rel. Conkling v. Kelso, supra, for the proposition that classifications which do not allow for increases due to future growth or development are special and violate the State Constitution. The court stated "where it is determined that the classification is based upon happenstance events in a given year and thereafter remains forever, regardless of the changes in circumstances, the classification must be held to be invalid and the act in violation of our State Constitution." 207 Neb. at 609, 300 N.W.2d at 187.

The decision in State ex rel. Douglas v. Marsh illustrates the vice embodied in legislation creating unconstitutional frozen or closed classifications is that the classes created do not permit any increase or change due to future growth or development. In our view, the state aid provisions in Section 6 of LB 1059 do not, construed as a whole, represent the establishment of impermissible closed classifications in violation of Article III, Section 18.

Subsection (1) of Section 6 establishes a new formula for the determination of state aid to school districts based on the amount by which a district's "total formula need" exceeds its "total formula resources." Subsection (2) provides an exception to the use of the aid calculation under subsection (1), however, assuring that a school district shall not receive less in state aid for school years 1990-91, 1991-92, and 1992-93 than one hundred percent of the amount of state aid received under the prior state aid formula for school year 1989-90. In essence, subsection (2) establishes a minimum level or floor below which state aid to a school district cannot fall during a three year transitional period provided to allow for differences

resulting from the shift in the calculation of state aid under the new formula provided in subsection (1).

The establishment of such a floor or minimum level, however, does not present the type of closed classification problem presented in State ex rel. Douglas v. Marsh, as the state aid determination for any school district during this three year period is not based solely on the historical rate set in the base year. Rather, the opportunity for an increase due to changed circumstances is provided in that the amount of state aid as determined under subdivision (1) would be provided in the event the exception under subsection (2) is not applicable to a particular district. Thus, the state aid provisions in Section 6 of LB 1059 do not establish unreasonable or arbitrary closed classifications between school districts, as changes due to future growth or development are taken into account in determining the level of state aid to be provided under the bill. Furthermore, we cannot conclude the establishment of a "hold harmless" provision of this nature for such a period is unreasonable or arbitrary.

In conclusion, it is our opinion that the "hold harmless" exception provided in LB 1059, assuring school districts will not receive less state aid for a three year period than amounts received under the School Foundation and Equalization Act for 1989-90, does not, construed together with the entire state aid distribution provisions in Section 6 of the bill, violate the constitutional prohibition against special legislation. In light of our opinion in this regard, it is unnecessary for us to consider your second question as to the severability of this portion of the bill.

Very truly yours,
ROBERT M. SPIRE
Attorney General

LEGISLATIVE JOURNAL

State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 1059 and LB 1059A without my signature and with my objections.

I have reviewed LB 1059 at great length, and have consulted with a great many people on its various provisions, strengths and weaknesses. In that process, I have applauded the tremendous efforts of the School Finance Review Commission and support many of the Commission's findings. Specifically, I support the concept that state aid to education is more equitable when distributed to school districts based on a definition of need that includes both assessed valuation of property and income within a school district.

My objections to LB 1059 basically stem from the hastily included tax provisions that were added to the Commission's studiously prepared work without any analysis of the impact and essential fairness of the provisions. The Commission spent 18 months designing a new state aid formula. Then in January of this year, the tax plan was added as a second part of LB 1059. Had equal consideration been given to both portions of the bill, I believe that it would have been apparent that the combination of the tax provisions with the school finance provisions prevents LB 1059 from meeting either of its two purported purposes. It does NOT achieve property tax relief, and it does NOT promote educational equity. Rather, it is simply the largest spending and tax increase measure to be considered in the history of the State of Nebraska.

Earlier this session, I provided to you many detailed objections to LB 1059. My concerns were substantially ignored, as only one of the flaws was partially addressed. Since that time additional flaws contained in LB 1059 have come to light. Attached is a list of both my original objections to LB 1059, as well as new flaws I find with this legislation.

The issues of educational equity and property tax relief are serious needs that deserve our careful and considerate attention. Because LB 1059 does not address these issues well or wisely, it is not the solution and should not become law. Therefore, I urge you to sustain my veto. There is no justification for supporting a fatally flawed piece of legislation that will have immediate and adverse effects on taxpayers of Nebraska.

Sincerely,
(Signed) KAY A. ORR

Governor.

OBJECTIONS TO LB 1059

1. LB 1059 is not property tax relief. Even though sales taxes increase 25% and income taxes increase 17.5%, property taxes are still projected to increase next year. This is not the kind of property tax relief Nebraskans can afford.

2. LB 1059 is unfair to the one in three households, whether in town or on the farm, who rent, as well as to the elderly and disabled who receive the homestead exemption. This group, with the least ability to pay, receives a cruel tax increase.

3. Property tax relief can not be guaranteed given the ineffective spending lids contained in LB 1059. The lid on school districts is too loose and too full of exceptions to have any impact, while the lid on other political subdivisions terminates in just two years. For example, some school districts will be able to increase their tax levies over 19.5% annually without a vote of the people. Specifically, the lid proposal allows the following tax taking increases:

| | |
|----------------------------|-------------|
| Base Growth Rate | Up to 6.5% |
| Enrollment Increase | Up to 10.0% |
| Reserve Requirement | Up to 2.0% |
| 75% Board Approval | Up to 1.0% |
| Building Maintenance | Unlimited |
| Special Ed. Costs | Unlimited |
| Current Employee Contracts | Unlimited |
| New Mandated Programs | Unlimited |

| | |
|-------|---------|
| Total | 19.5% + |
|-------|---------|

4. LB 1059 does not promote educational equity. Although it redistributes tax burdens by shifting funding sources, it does not permit financially poor school districts to achieve "average spending per pupil" levels within a reasonable time period. While the lid is ineffective in guaranteeing property tax relief, it restricts these poorer districts from increasing their spending to achieve educational equity. Consequently, for this and other reasons, LB 1059 is not the solution to the pending court challenge of our school finance system, as has been claimed.

5. The Legislature designates education funding as the top state appropriation priority in LB 1059. However, the Legislature failed to meet their commitment in the first year of funding LB 1059, as the bill is underfunded by \$33 million. This reluctance to meet their commitment from the outset bodes ill for the future stability of education funding under this scheme.

6. The funding assumptions of LB 1059 include the state's continued funding of teachers' salary supplements (LB 89) at \$20 million per year. However, LB 89 expires next year. Consequently, after 1991 taxes will need to be raised or other current obligations will need to be raided in order to fully fund the provisions of LB 1059. Since the Legislature failed to fully fund LB 1059 this year, I question their willingness to increase taxes further in the future to fulfill the commitment made in this legislation.

7. LB 1059 raises \$17 million in sales taxes that will go into the Highway Trust Fund, rather than for education.

8. The use of "tiers" within LB 1059 to group school districts gives an unfair advantage to some school districts in the funding formula. Conversely, the groupings also hurt school districts who are growing faster than other schools in their tier.

9. LB 1059's "hold-harmless" clause contradicts the "equity" purpose of the bill. It provides many school districts with more aid than the formula computes their need to be. Conceptually this provision defeats the purpose of the bill.

10. Finally, the sponsors of LB 1059 admit that there are problems with this bill that have not yet been found. Two major flaws, including the unintentional repeal of the sales tax for two and a half months, were found hours before the bill was passed. There may well be other flaws with equally dire consequences that have not yet been discovered.

Dear Mr. President and Senators:

I am returning LB 42 and LB 42A without my signature and with my objections.

LB 42 increases the salaries of the judges of the various courts in the state. The General Fund fiscal impact for FY 1990-91 is \$388,419 and for FY 1991-92 is \$1,377,015. It jumps to \$2,019,204 in FY 1992-93.

There is no question that the judges deserve an increase. This year, however, is the off budget year and should not be used for an item with such a large fiscal impact. Moreover, since I've been Governor, the judges have received a series of salary increases beginning in 1987, the last of which will take effect on July 1, 1990. This is a proposal that needs careful consideration next year during the regular budget cycle.

Dear Mr. President and Senators:

I am returning LB 880 and LB 880A without my signature and with my objections.

LB 880 would create two additional district court judges. Last year a similar bill was vetoed because of the condition of the budget, but judicial workload was also a concern. Until I'm convinced that the current district court structure provides the most equitable statewide distribution of judicial workload, I cannot support increasing the number of district court judges.

State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 1004 and LB 1004A without my signature and with my objections.

LB 1004 creates a pseudorabies eradication program with a General Fund fiscal impact of \$766,188 for FY 1991 and \$928,167 for FY 1992. This would be in addition to about \$710,000 of General Funds which presently goes towards pseudorabies control and testing.

While the State should assume some responsibility in this area, the swine industry needs to consider ways to share more responsibility for the success of the program. Interim study resolution LR 292 offers an opportunity for the industry and other interested parties to express their concerns and desires. It would appear that identifying alternative funding sources for pseudorabies eradication could be included within the scope of LR 292, the results of which could be brought to the Legislature at a later date.

Dear Mr. President and Senators:

I am returning LB 1019 and LB 1019A without my signature and with my objections.

LB 1019 would create an International Trade Division in the Department of Economic Development to promote exports and to establish an international trade office.

While I applaud efforts to increase export of Nebraska products, I have concerns with the bill. It may be unwise to establish and fund a foreign trade office without a careful evaluation of alternatives or of the resources and support needed to successfully run the office.

SIXTIETH DAY - APRIL 9, 1990

Moreover, the bill creates a division in DED. This runs counter to the policy established by the Legislature last year in LB 639 which eliminated the mandated divisions within DED.

I am returning LB 1080A without my signature and with my objections.

LB 1080 allows for waiver of nurse staffing requirements for nursing facilities under certain conditions, and changes the certification provisions for social workers.

LB 1080A appropriates funds from the State General Fund to implement the changes authorized by LB 1080 in the licensing and certification programs. Since both programs are supported by revenues generated from fees, no General Fund appropriations are required.

Dear Mr. President and Senators:

I am returning LB 1222 and LB 1222A without my signature and with my objections.

LB 1222 and LB 1222A would expand the role of the Foster Care Review Board to allow it to participate directly in court proceedings that involve children placed in foster care.

The concerns of the proponents of this bill for appropriate and timely action to protect foster children from abuse and neglect are shared by me. However, it is my belief that the solution to the issues is much broader than increased authority for the Board. We have begun to address many of the issues raised by the bill through the commitment of funding for foster parent training, recruitment, and support; improving caseloads for the Child Protective Service's staff; and improve the reimbursement provided to foster parents. This approach provides better investment of State resources to address the needs of foster children and families than the financing of additional confrontation and legal dispute between State Agencies.

LB 571A would appropriate \$18,900 from the General Fund for FY 1990-91 and \$17,400 from the General Fund for FY 1991-92 to the Nebraska State Patrol for Program 100, to aid in carrying out the provisions of LB 571.

Mr. President, Mr. Speaker

Dear Mr. President and Senators:

I am returning LB 834 without my signature and with my objections.

LB 834 would lower to 20 years the voluntary age for participation in the State Employees' Retirement System. Last year I vetoed a similar bill, LB 388, and there are compelling reasons to do so again, aside from the fact that it simply is not fiscally prudent to expand and fund this program at this time.

Under the current law, any Nebraska state employee who is 25 years old or older may join the Retirement System. There is no evidence that the rationale used to set the current age for entry into the System is now invalid; in fact, a lowered age for entry would not benefit the younger employee, the current members of the State Employees' Retirement System, or the System itself.

Five years are required to become vested in the Retirement System. Due to the high turnover rates among younger employees entering government service, participation would be of no benefit if they leave state service prior to that time.

Moreover, LB 834 would increase the administrative costs of the Retirement System by requiring the maintenance of accounts for these young people leaving the System. These increased costs would be passed on to all other members of the State Employees' Retirement System.

State employees under the age of 25 have other savings and investment opportunities -- as do all young Nebraskans -- and we should encourage them to save wisely for their futures.

LEGISLATIVE JOURNAL

Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 843 and LB 843A without my signature and with my objections.

Last year, after much debate, Nebraska adopted a self-funded school choice program. LB 843, however, takes a different approach that requires a new appropriation of a million dollars, with potential increases in the future. Depending on whether or not LB 1059 becomes law, the required new funds either would come from new taxes or would place yet another claim on currently budgeted revenues. To paraphrase what one Senator said during the debate on this bill. "I have a concern that simply to make this program work, we will have to throw more state aid into it."

The obligation for us to emerge from this legislative session with a balanced budget and the required three percent reserve leaves me no choice but to veto this legislation. Furthermore, LB 843 is one more instance of a shift of a local responsibility to the state.

You are urged to sustain my veto.

Dear Mr. President and Senators:

I am returning LB 855 and LB 855A without my signature and with my objections.

LB 855 reinstates cooperative state funding for the animal damage control program operated by the Animal and Plant Inspection Service (APHIS) of the United States Department of Agriculture. 25 counties currently support the program on a voluntary basis through local contributions to the federal program.

LB 855 is essentially the same legislation as LB 162 which was passed by the Legislature during the 1989 Session and which I vetoed because of budget constraints. This year the competition for declining

state revenues in the middle of the biennium budget cycle forces us to be even more cautious. I am hopeful that the joint federal and local funding base will continue since the program serves a valuable function in many parts of the state.

intended activity of the commission. Caution is advisable whenever one is dealing with an entity such as the commission which can issue large amounts of bonds without a vote of the people.

LB 1090 began as a technical revisions measure on behalf of the Department of Education. Other measures were amended in during the legislative process, some of which--including a new program--require increased expenditures. The need to hold the line on spending necessitates a close review of the funding provisions in LB 1090A.

The proposed \$61,440 GF in FY 90-91 and \$58,812 GF in FY 91-92 for two educational technology satellite centers was not included in the Department of Education's budget request and is not justified under the circumstances.

1997

Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I am returning LB 920 with my signature but with line-item reductions.

The purpose of LB 920 is to reimburse governmental subdivisions for property tax losses due to the 1988 pipeline lawsuits. Following the precedent set by the Legislature in 1988 concerning revenue losses due to railroad and carline legal actions, the amount of State assistance for the larger subdivisions should not exceed the equivalent of 1 percent of their property tax revenues. This limitation applies to school districts, counties, cities, technical community colleges, and natural resource districts. All other subdivisions will be reimbursed for all of their property tax losses from pipelines.

The total appropriations for property tax reimbursements in LB 920 are reduced by my line-item reduction from \$4,350,000 to \$2,600,000. The amount included in LB 920 that represents the transfer of forfeitures to the State Patrol's Public Safety Cash Fund is not affected by my reductions.

LEGISLATIVE RESOLUTION 11CA.

A Resolution to propose an amendment to the Constitution of Nebraska by amending Article XIII, section 2.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

Section 1. That at the general election in November 1990 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska by amending Article XIII, section 2, which is hereby proposed by the Legislature:

CXIII-2 "Notwithstanding any other provision in the Constitution, the Legislature may authorize any county, or incorporated city or village, including cities operating under home rule charters, to acquire, own, develop, and lease real and personal property suitable for use by manufacturing or industrial enterprises and to issue revenue bonds for the purpose of defraying the cost of acquiring and developing such property by construction, purchase, or otherwise. The Legislature may also authorize such county, city, or village to acquire, own, develop, and lease real and personal property suitable for use by enterprises as determined by law if such property is located in blighted areas as determined by law and to issue revenue bonds for the purpose of defraying the cost of acquiring and developing or financing such property by construction, purchase, or otherwise. Such bonds shall not become general obligation bonds of the governmental subdivision by which such bonds are issued. Any real or personal property acquired, owned, developed, or used by any such county, city, or village pursuant to this section, shall be subject

to taxation to the same extent as private property during the time it is leased to or held by private interests, notwithstanding the provisions of Article VIII, section 2, of the Constitution. The acquiring, owning, developing, and leasing of such property shall be deemed for a public purpose, but the governmental subdivision shall not have the right to acquire such property by condemnation. The principal of and interest on any bonds issued may be secured by a pledge of the lease and the revenue therefrom and by mortgage upon such property. No such governmental subdivision shall have the power to operate any such property as a business or in any manner except as the lessor thereof.

Notwithstanding any other provision in the Constitution, the Legislature may also authorize any incorporated city or village, including cities operating under home rule charters, to appropriate from local sources of revenue such funds as may be deemed necessary for an economic or industrial development project or program subject to approval by a vote of a majority of the registered voters of such city or village voting upon the question. For purposes of this provision, funds from local sources of revenue shall mean funds raised from general taxes levied by the city or village and shall not include any funds received by the city or village which are derived from state or federal sources."

Sec. 2. That the proposed amendment shall be submitted to the electors in the manner prescribed by the Constitution of Nebraska, Article XVI, section 1. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

"A constitutional amendment to empower the Legislature to authorize incorporated cities and villages to use local sources of revenue for economic and industrial development with voter approval.

Against"

Sec. 3. That the proposed amendment, if adopted, shall be in force and take effect immediately upon the completion of the canvass of the votes, at which time it shall be the duty of the Governor to proclaim it as a part of the Constitution of Nebraska.

Whereupon the President stated: "All provisions of law relative to procedure having been complied with, the question is, 'Shall the resolution pass?'"

Had I been present, I would have voted yes on the override of Aging funding, to LB 1031.

(Signed) David Landis

RESOLUTION

LEGISLATIVE RESOLUTION 427. Introduced by Banking, Commerce and Insurance Committee: Landis, 46th District, Chairperson; Abboud, 12th District; Conway, 17th District; Haberman, 44th District; Lynch, 13th District; Schmit, 23rd District; Weihing, 48th District; Wesely, 26th District.

PURPOSE: The purposes of this study are to (1) review the performance of the Nebraska Investment Finance Authority, NIFA, in light of its statutory responsibilities, (2) examine the responsibility and liability of the State of Nebraska for NIFA action, and (3) consider appropriate legislative changes in the statutes to enhance the ability of NIFA to fulfill its public purpose.

NIFA was created as a quasi-public corporation pursuant to enabling legislation passed by the Legislature for the specific purpose of providing low-interest loans to Nebraskans for home ownership, agricultural development, and business development and was created as a conduit to take advantage of federal laws relating to tax-exempt bonds. The federal government, through changes in national tax policy, has limited the opportunity to use NIFA in providing low-interest financing to Nebraskans for various activities and industries. Therefore, the Legislature should review NIFA's place in public policy taking into consideration changing economic conditions and tax policy.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

I have decided to allow LB 931 to become law without my signature.

LB 931 allows certain elected officials to hold more than one elected office. While such a provision might be useful in less populated areas of the state, LB 931 seemed to be passed without a careful consideration of the negative consequences. I am not comfortable signing it and would hope that we can work together to correct any problems should they occur.

Sincerely,
(Signed) KAY A. ORR

April 14, 1990

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Today I signed LB 1055.

LB 1055 would modify the parimutuel tax on the racetracks and allow the racetracks to retain a larger share of the betting pool. The purpose of the bill is to help the horse-racing industry survive for a few more years until it can become profitable.

In 1987, the race tracks were given a tax exemption to help them survive. This exemption was to expire at the end of this year. Instead of expiring, the exemption is continued in modified form by LB 1055 until 1994 when a slightly higher tax is imposed.

Although I signed LB 1055, I view it as another short term solution to the problems of the racing industry. These problems need to be addressed immediately and long term solutions need to be implemented. The racing industry is important in Nebraska. We cannot wait, however, until 1994 to see whether another band-aid is needed to let the industry survive another few years. All of the parties involved must begin at once to determine how the industry can survive. If it is to survive, it must be determined how it should be structured. If it is not going to survive, plans must be made to help those communities and persons involved in the industry through the transition.

These problems must be resolved. Temporary fixes every few years are not an answer.

Sincerely,
(Signed) KAY A. ORR
Governor

April 14, 1990

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President and Senators:

Today I signed LB 1124.

LB 1124 would establish a transferable production credit program for ethanol produced in the state, would set forth new mandates for oxygenate levels and aromatics in reformulated gasoline, and would expand the existing authorities of the Ethanol Development Authority to include the acquisition of ethanol production facilities.

The primary intent of this legislation is to facilitate the development of ethanol production facilities in Nebraska, a goal to which I am firmly committed to support. Our state has been a leader

in ethanol use and research since the inception of the industry, and ethanol production belongs in the state.

While I have signed this measure to promote ethanol production in the state, there are several potential problems with the bill that must be addressed. The Attorney General has issued Opinion # 90027 which states that the producer incentive contained in Section 1 of the bill may be unconstitutional. This raises some questions which need to be answered. If the production credit is mired down in a legal challenge, the severability clause contained in the bill would allow the reduction of the retail incentive from \$.03 to \$.02 per gallon to take effect. Such a scenario could erode the existing market share for ethanol blend gasoline without the benefit of stimulating ethanol production in the state.

In addition, Section 8 would mandate that reformulated gasoline sold in the state after January 1, 1992 have oxygenate levels of 3.1% and a maximum aromatic content of 20%. This provision raises several issues that were not discussed until the bill was on Final Reading. First, no definition is given for reformulated gasoline. This by itself may make the mandates unenforceable. Second, both of these mandates are more stringent than those dealing with the same subject included in the recently passed Senate version of the federal Clean Air Act. While clean air is a laudable objective that I fully support, Nebraska has no areas that are in non-attainment with EPA air quality standards, partly due to the high usage of ethanol blend fuels in our urban areas. It is also possible that these mandates could impact the supply of gasoline to the state.

These problems must be addressed so that they can be resolved in the next Legislative session. By working together we can refine the provisions of the bill to clear up any questions. It is essential to continue to support this very important industry, and I pledge my assistance to that regard.

Sincerely,
(Signed) KAY A. ORR
Governor
