

enforcement, but forbidden to private citizens.

SENATOR ABOUD: So a private citizen at this time can use a blue flashing light.

SENATOR CHAMBERS: Yes.

SENATOR ABOUD: And...

SENATOR CHAMBERS: Oh, Senator Smith said, no, they can't so maybe she is the one who ought to...oh, okay. Okay, go ahead, Senator Abboud.

SENATOR ABOUD: And by the passage of this bill there would not be any restrictions on an individual's use of blue flashing lights?

SENATOR CHAMBERS: Maybe we ought to ask Senator Robak because it's her bill and I don't know what all they're doing in terms of that aspect of it, I really don't. I'm just opposed to them even if they make it permissive for law enforcement.

SENATOR ABOUD: Thank you. Senator Chambers, I appreciate you sharing your knowledge on these lights with us. Senator, would you respond to that question, Senator Robak?

PRESIDENT: Are you addressing Senator Robak?

SENATOR ABOUD: Yes.

PRESIDENT: Okay, Senator Robak.

SENATOR ROBAK: I didn't hear the question.

SENATOR ABOUD: The question is, would there...at the current time, it was my understanding as well that an individual, a private citizen can use blue lights on their automobile, let's say for a volunteer fireman or a private security guard and would there be any restriction on a private citizen using those blue lights if this bill became law?

SENATOR ROBAK: No, a private citizen cannot. It can only be a volunteer fire fighter or a law enforcement officer, only after it has been authorized in writing by the sheriff.
