LB 99, 392

Bernard-Stevens' problem with the bill. But I think that we're finding that I am very surprised to hear that there are teachers that haven't had any handicapped students in their classroom for that many years. I can't hardly believe that. But they do have to deal with these students on a daily...even if they're not in their own classroom, they still have to deal with them in the other functions that a teacher has, counseling service, or counseling, some of those kind of things that they do on a day to day basis in visiting with these children. Now in fact what you own is not the certificate, it's the portion of ownership in the company itself. If the stock burns up, if the piece of paper burns up, you get another piece of paper. It's not the piece of paper that's important, it's the share of the ownership that's on record with the
