

and when you want to talk about somebody being hard-hearted and unjust you can't beat a judge who fits that description but, eventually, he even got tired and asked the woman what it was that she wanted in order that he could have some peace. And she told him to avenge her of her adversary and the judge said, though I neither fear God nor regard man, lest this woman wear me out, I will accede to her desire. This Legislature is more hard-hearted than a judge. I think of all the days that Christian prayers are given in this body and all that old person, he was a young person but he'd be old now, 33 years old, wiped out, thanks to the death penalty that so many Christians support. All he did was told people to love one another. That's all from everything I've ever read, not set up over a hundred different denominations each claiming that the others are going to hell, yet all of them put together in his name. I listen to that stuff and I listen to them wail and bawl and moan about Christianity being the light of the world and Jesus being the light of the world. Senator Beck and some others who read the Bible as I used to read it when I was during...in my naive years, First Corinthians, 13:13: Though I speak with the tongue of men and angels and have not love, I'm a sounding brass and a tinkling cymbal. Though you give your body to be burned and you don't have love, it's for nothing. And yet these Christians are the ones who come in with so much hatefulness to these young women. I can just picture Jesus sitting up there, wherever he is sitting, if he went someplace, just shaking his head saying, these people are doing this in my name? They say that that's what I would do if I were there? A young woman comes to me in ignorance and I would point at her and glare at her and say stay in your ignorance? She needs information and I, Jesus, would say I deny you that information, and that's what these hypocrites are about. And you know why I use these terms? Because the kind of bill that we have here today is done in the name of religion. So much hatefulness, so much harm and injury, so much suffering is wrought in the name of religion. The very church today that is responsible for this bill being here burned people at the stake because they challenged the church. Poor old Galileo stretched on the rack because he said what every child knows now, that the earth moves around the sun. And that same hateful spirit that motivated the Spanish Inquisition which was the most powerful arm of the Catholic Church, Cardinal Ximenes, Torquemada, and all of their underlings torturing people in a way that even the so-called heathen were aghast at and for a difference of opinion about a matter of church doctrine. And now we have a church doctrine before us today,
