

to help because we don't even care about them, don't care at all, but you let some prosecutors run in here and say we need this bill and they get it. The court says, we need a new appellate division and they get it, because those are the kind of people that are understood. But the helpless, the weak, the misfortunate, this Legislature would have been a good group to have around Job...

SENATOR CHAMBERS: ...criticizing and ridiculing him when his foot is about to slip and theirs is secure because he had some people like that around him.
