

record your presence. Senator Moore has authorized call in votes. And the question is, shall debate cease?

CLERK: Senator Landis voting yes. Senator Lindsay voting yes. Senator Abboud voting yes. Senator Hefner voting yes. Senator Wesely voting yes. Senator Schellpeper voting yes. Senator Rogers voting yes.

SPEAKER BARRETT: Record, please.

CLERK: 25 ayes, 7 nays to cease debate, Mr. President.

SPEAKER BARRETT: Debate ceases. Senator Hartnett.

SENATOR HARTNETT: Mr. Speaker, I will leave my closing to Senator Hannibal.

SPEAKER BARRETT: Senator Hannibal.

SENATOR HANNIBAL: Mr. Speaker, I'm going to say a couple words and I'm going to yield the rest of it to Senator Chambers. The points being brought out I think are quite good. I did take the time to sit in on the hearing with the Judiciary Committee to hear whether or not there would be something new coming out than what we had heard. And, quite frankly, Senator Chambers, I did not hear anything new. I think with all the talk about trying to come up with some new programs and new diversions I want to go in length with what Senator Smith had said and Senator Hall said in the next issue up, I don't see any way of getting around this because to not fund this, to me, says we leave the existing unsafe and unaccredited facility. Now you might argue about population as far as whether there should be more beds or less, but to have the same facility sit there with less than adequate facilities, less than adequate square footage, unsafe locking procedures and to have no visitation area, this would put a new one in, no outside or no inside recreation area, to me doesn't make any sense. It seems to me that to say no to this is not serving anybody's good cause. The rest of the time I will give to Senator Chambers.

SPEAKER BARRETT: Senator Chambers.

SENATOR CHAMBERS: Mr. Chairman and members of the Legislature, thank you, Senator Hannibal, and Senator Hartnett. Senator Hannibal is going by what the Director of Corrections has told
