

SENATOR WEIHING: ...at the end of the line. That's where that...that's an error. What happens there is this becomes committees, the way it is written, and so it would read "monitoring committees with oversight and review of the sampling, analysis and testing related to the site and characterization and selecting process". So if you simply take out lines 6, 7, 8 and 9 and replace that with that which is underlined on that amendment that you see.

SENATOR MORRISSEY: All right. And it also then...it eliminates the language that says...I'm on the wrong page here.

SENATOR WEIHING: It eliminates the language on 6, 7...

SENATOR MORRISSEY: Yeah.

SENATOR WEIHING: ...8 and 9.

SENATOR MORRISSEY: Technical assistance of the local monitoring committee with the sampling, analysis and testing provided for in Section 15 of this act, including but not limited to monitoring and performance of such sampling, analysis and testing, and the new language is committee...technical assistance of the local monitoring committees with oversight and review of the sampling, analysis and testing related to the site characterization and selection process. So the Section 15 refers to the department shall offer to landowners directly adjacent to the facility's boundary of the annual well and water service sampling and analysis of any domestic water supply at no cost to the landowner. So we are no longer allowing the local monitoring committees to participate in that water sampling?

SENATOR WEIHING: It doesn't change the local monitoring committee at all. It should not. It should not.

SENATOR MORRISSEY: Okay...okay, we're restricting the Conservation and Survey then from participating in the local...in the water and well service.

PRESIDENT: One minute.

SENATOR WEIHING: Well, the Section 15 still applies to the monitoring committee but the Division of Conservation and Survey will not be doing drilling. The drilling will be done by the
