

particular bill. On page 3, from lines 1 through 9, talk about the specific vocational, rehabilitation or job training programs.

SENATOR CHAMBERS: No, I mean where are those provided for in the bill, where the bill itself provides for such programs?

SENATOR ABOUD: Well, Senator Chambers, it's enabling legislation.

SENATOR CHAMBERS: No, I'm not arguing. I'm asking are there such provisions in the bill, that's what my question is.

SENATOR ABOUD: Lines 1 through 9 on page 3.

SENATOR CHAMBERS: On page 3, lines 1 through 9.

SENATOR ABOUD: That's what I said.

SENATOR CHAMBERS: I don't see where it sets up any program for training or assist anybody in finding their way there. It says...

SENATOR ABOUD: Would you like me to read it?

SENATOR CHAMBERS: Yes, if you would because maybe I'm not looking at it.

SENATOR ABOUD: Okay, on line 2 it starts, satisfactory participation in approved program of vocational, rehabilitation or job training.

SENATOR CHAMBERS: But this bill doesn't set that up. It says that if anybody is engaged in one of those programs, they don't have to be sent out on these "make work" jobs. What I'm asking, and not to argue the point, but just to see if I understand the bill correctly, this bill does not establish any programs of that kind, rehabilitation, vocational or any other kind, does it, the bill itself?

SENATOR ABOUD: Senator Chambers, as I said from the beginning, it's enabling legislation. Hopefully the state will come in and pick up this program, but allow up to this time, the state can't even provide this type of program to these people that really need it.
