

was drawing down her strength and it would make it unlikely she could not...that she would come out of this coma and her life might even be threatened. Two pro-life interlopers went to court to have themselves declared guardians, one for the woman and one for the fetus, despite the fact that the woman's husband and her family, her blood family, not in-laws, agreed that the abortion was the thing to occur and they made the decision in consultation with family members, clergy and the medical professionals treating the woman. They were able to delay this abortion. The man went to court where these interlopers compelled him to go. Here are two outsiders so arrogant, they are going to say they have more right to determine what is best for a man's wife. It's good that that man wasn't like a pro-lifer, and you see how mean they can be, or he would have ended their lives. So these hypocrites go to court and they may have gotten one of these low-level lunkhead judges to go along with them, but there was an appeal. And the judges, look, they said, why this is the most outrageous thing I have ever heard of, there is no way these fools are going to intervene in this family situation and stop this which is in the best interest of the woman from being done. So they said, well, we've got Judge Rehnquist, he's as dumb as we are, he is as hardhearted as we are, we'll ask him to let us require this woman to keep this fetus in her, even if it means she dies because we're pro-life. The Supreme Court didn't even look at it, wouldn't even accept it, and the abortion was performed. And the lady came out of the coma and she is recovering right now. And I would much rather be on that side than on this other side of these self-righteous, pompous hypocrites who run around here talking about their concern for children.

PRESIDENT: One minute.

SENATOR CHAMBERS: And they have no concern for the young women who live right now who are in the kind of situations that Senator Labeledz and I saw some of them being placed in as we looked into the Franklin situation. Why couldn't she answer the question about sending the young women back into that situation? Because she had no answer and it focuses in a very graphic way on the hypocrisy of her position, pro-life and loving a fetus, crying for these young women but sending them back to a situation where they had been brutalized in the way that we saw. Those are the kind of realities that we're dealing with, and some of us are so serious about this that we're going to do all that we can to stop this State Legislature from enacting a law
