SENATOR LAMB: The Chair recognizes Senator Schmit.

SENATOR SCHMIT: Mr. President, and members, this amendment is an amendment which provides \$24,000 to be included to support an academic counseling position and related costs to serve the academic and other counseling needs of students, who at the present time are attending the Nebraska Indian Community College, and this money would be provided to provide a position at Wayne for persons who will transfer to baccalaureate programs of study at Wayne State College and other postsecondary institutions. As you know, there is an institution that is called the Nebraska Indian Community College and it is provided...it is federally funded, provides for the needs of the persons from the Indian community, but there are a large number of students who are not Indian who attend that facility and then frequently transfer to Wayne and to other institutions. This would provide for a position to serve actually all of the students but principally those students who are non-Native Americans, who would then be transferring to other institutions.
