

suspend the rules and overrule the agenda. That is fine. I can live with that. But what Senator Chambers has done is he has taken the first rule of debate and he has used it to his advantage because what he has done is he has defined the terms, he has used his position to say these are the definitions, folks, and we are going to play by this. He has said this is an abortion vote. If that be the case, then I guess I am in what we might call deep trouble and, in my opinion, that is not what that vote was. It was a procedural vote. As you all know, we all have the ability to vote any way we want to on a procedural motion for whatever purposes we might have. Maybe it is LB 854, as Senator Labeledz has so forthrightly stated on her behalf, maybe it is another bill down the agenda on Select file, maybe it is another bill on General File, or one that is on Final Reading. Whatever the purpose, we each have our own reason for voting the way we did on those proposals, but don't let Senator Chambers define the terms for you in terms of what that vote was. It clearly, Senator Schmit, was not my masochistic tendencies that got me to vote with Senator Chambers. If you look what you are going to be doing in terms of this next vote, what will happen is we will move these bills off General File, all nine of them, and you will move them behind all the bills that are currently on Select File. So they will go off the list being second from the very top of General File, very likely we could have been to LB 854 by now, with some of the amendments I understood were on LB 976, and be debating that bill presently, which I have no problem that I would like to be able to do. But with this motion, we are going to move them to the bottom of Select File. They are going to fall behind the approximately 15, 17 other bills. Instead of being second from the top on General File, which we would go back to after the one-thirty proposal, which I am not going to support either, excuse me, Mr. Speaker, but I am not, that motion, they are now going to be ranked about 18th and 19th and that is the way they will come in order. That is exactly what we are doing. That is exactly where we will be. That is what the vote on this proposal will do. You will take, if you think it is an abortion issue, or if you think it is a LB 1062 issue, or if you think it is a radioactive waste disposal issue, or in Senator Lamb's case, if you think it is a pride of authorship issue, that is where it is going to be when it comes to Select File, and all you do is you delay the inevitable. You, basically, put off the debate until Select File. That is fine. I don't have any problem with that. You are not going to change the outcome.
