

Senator Morrissey and, Senator Morrissey, I agree with you. I wish that there would be a way that we would actually find out the true information on LB 775. I would really want to know, was it helpful, was it not helpful, was the Governor, you know, should the Governor be a heroine because of what was done; should she not be; should those that oppose 775, were they absolutely right? I would like to know the answer to the question about what really was the benefit of 775. The point I'm trying to make is through a hearing that we had in the Government Committee last year, and it was a rather extensive hearing, I don't believe, members of the body, you're ever going to know that. I really don't believe you'll ever know that. Example would be, when 775, LB 773 was passed, I was not in the body. I did not vote on the measure. I suspect if I would have been in the body I would have voted in favor of the measure. I don't know, those are unknowns. But I do know at that particular time the economy in the Midwest and the agriculture community, before that time, was in a deep, deep recession, some would call it a depression, if you look at the economic indicators over a four-month period, and at that point the recession began an upswing, as all cycles do in the economic sector. We were due for an upswing. Was that upswing because of 775? I don't know. Was that upswing because the economy was simply ready to do that on its own? I don't know. The reporting information we get from 775, will that tell us the true story? Will we ever really know if a company was going to provide new jobs anyway, but took advantage of 775 at the same time, or did they use 775 tax benefits in order to create the new jobs? We'll never know, members of the body. Senator Wesely's bill will simply give us 49 different people will give a booklet for expanded information of subjective information that you can come to whatever conclusion you want, and you can use that for whatever agenda you have. And that is all this bill is going to do. It will not give you any better information. It will not solidify the issues so we have a clear understanding. It will simply be a vehicle to be able to make whatever points we want to make for whatever agenda we have. I don't think that's important at this point. I don't think it's going to be advantageous for the body to do it, and I don't think it will help the state in any way whatsoever as well. And I hope the body goes along and votes to indefinitely postpone 431. And I'd like to have a call of the house and a roll call vote.

PRESIDENT: All right, the question is, shall the house go under
