

February 5, 1991 LB 69

isn't any. Like the case of the young man that I talked about yesterday. He had been given practically lead pipe assurance that there would be aid available for him, and then it wasn't, so he had to make that choice. In mythology, there was a..you went between Scylla and Charybdis or Scylla (pronounced shilla) and Charybdis, depending on how you want to pronounce the names, either one, who got you. You went...

SPEAKER BAACK: One minute.

SENATOR CHAMBERS: ..between the two and one or the other is going to get you, and for this Legislature to consent to having our young people confronted with these kind of unconscionable dilemmas is unconscionable on our part. There will come other times when we discuss the matter of education, and you are going to hear a different line. We are going to be told about the importance of education, but there is going to be the caveat, provided the Athletic Department is not offended by it. Senator Beutler's motion to change the effective date to June 1st will not hurt the bill, and if they try to do something in the way of shenanigans next semes...I meant, next session, I will be here, the Almighty willing, Senator Hefner,...

SPEAKER BAACK: Time.

SENATOR CHAMBERS: ..to fight and protect that which I think should be protected for the benefit of the students.

SPEAKER BAACK: Thank you, Senator Chambers. Now the next speaker is Senator Robinson. Do you wish to speak to the Beutler amendment?

SENATOR ROBINSON: I may be out of order on this. I want to ask someone a question about the Pell grant. Do you want me to wait till...Mr. President?

SPEAKER BAACK: You can do that now if you like.

SENATOR ROBINSON: Okay, Senator Chambers, may I ask you a question, please.

SPEAKER BAACK: Senator Chambers, would you respond?

SENATOR CHAMBERS: Yes, I will.
