

February 7, 1991 LB 233

Council of Compensation Insurance, they remove their objections to the bill, "and upon further review, it is our opinion that our concerns are adequately addressed within the Data Reporting Act." So they've removed their objections to the measure.

SENATOR PIRSCH: Thank you.

SPEAKER BAACK: Thank you, Senator Pirsch. Further discussion, Senator Landis. Yes, if your name is Senator Landis, that is you, yes.

SENATOR LANDIS: You know, when I voted for you for speaker, Denny, I didn't know that we would be getting this kind of treatment from the Chair.

SPEAKER BAACK: I am sorry. I will have a little more decorum here.

SENATOR LANDIS: I'll put my light on only for the purpose of closing and answer questions between now and then.

SPEAKER BAACK: Thank you, Senator Landis. Next we have Senator Dierks.

SENATOR DIERKS: Thank you, Mr. Speaker and members of the body. I'd just like to direct a question to Senator Landis, and I am not sure that this is even proper, but I had some experience, personally, with property casualty insurance, and I don't think I was unique in this. At one time a number of years ago, five or six or maybe seven years ago, property casualty companies were touting an "umbrella" package of insurance for landowners, ranchers, and farmers, and this included not only property insurance but it required a certain amount of liability and you had to, for instance, carry a minimum liability insurance on all of your vehicles that were registered to you or insured by you. But very abruptly, this package of umbrella insurance was stopped. All the companies stopped doing this, and the one that I was insured with I believe was St. Paul. Now I don't think these type of insurance policies are even available. And I thought at the time that they did have some validity and I wondered if this type of legislation had any affect on that sort of thing?

SPEAKER BAACK: Senator Landis.
