

February 11, 1991 LB 68

son who made the freshman squad, the traveling squad and, yes, it did take a lot of his time. It took a lot of his time away from his studies, his social life and everything else. But he chose to do this, Senator Chambers, I didn't choose to do it, he chose to do it, and I supported him. If he would have not chose to do it, I still would have supported him. Senator Chambers made the remark expel, well, Senator Chambers, forced to withdraw and expelled is exactly the same thing, they both mean the same thing. I have a question of Senator Chambers, if he would yield, please.

SPEAKER BAACK: Senator Chambers.

SENATOR CHAMBERS: I deliver myself into your hands, Senator Haberman.

SENATOR HABERMAN: You're too far away, Senator Chambers, but anyway...

SENATOR CHAMBERS: That's a figure of speech.

SENATOR HABERMAN: Would these players come underneath workmen's compensaticn, if they're paid?

S.NATOR CHAMBERS: No, not with the way this is drafted, no.

SENATOR HABERMAN: Well, would they have a case to go to court, if they were injured and they're being paid to not come underneath workman's compensation?

SENATOR CHAMBERS: Well, Senator Hefner, I mean Senator Haberman, be...when Senator Hefner was speaking I was saying Haberman, now it's Haberman, I say Hefner. But, Senator Haberman, there already is on the books a requirement that insurance be provided for these players and, in some cases, actual cash payments to help them make it through the problems that would result from an injury. And that law covers all athletes.

SENATOR HABERMAN: Is that workmen's comp...

SENATOR CHAMBERS: And we don't need to talk...

SENATOR HABERMAN: Now are you talking about workmen's compensation, or are you talking about a cash fund?
