

February 12, 1991 LB 88, 262, 404

bill.

SPEAKER BAACK: Senator Will.

SENATOR WILL: I am sorry, were there E & R amendments?

CLERK: There are none.

SENATOR WILL: I move the advancement of LB 404 to E & R for engrossment.

SPEAKER BAACK: Is there any discussion on the advancement of 404? Seeing none, all those in favor vote aye. Opposed no. It is advanced. We will now go back to LB 88.

CLERK: Mr. President, I have other amendments. I do have a motion from Senator Hefner. Senator Hefner would move to bracket LB 88 until LB 262 is advanced to Select File.

SPEAKER BAACK: Senator Hefner.

SENATOR HEFNER: Mr. President and members of the body, I gave this motion to our Clerk because I feel that we need to get these two bills up at the same time. We are spending a lot of time on LB 88, and now I have an amendment on my desk, an amendment to LB 262. Well, LB 262 isn't even on the...hasn't even been debated on General File yet, or I don't believe it has anyway. And so what this motion does is says to bracket LB 88 until LB 262 is advanced to Select File because I think this will give us an opportunity to mesh the two bills together. I don't know exactly what is in LB 88 now, and I don't know exactly what's in LB 262. If we don't do this, I feel we will be plowing the same ground again and again. And time is too valuable in this body to be doing it. This bracket motion will give the parties involved a little more time to work together and decide what amendments we want in LB 88 and what amendments we want on LB 262. I usually don't put a bracket motion up on a bill but I feel, in this case, it is very important that we hold up LB 88 until we have had a chance to debate and discuss LB 262. We have used up a lot of time already. I don't know how much time we spent on LB 88 on General File, and now we are spending a lot of time on Select File. So I would encourage you to vote for this bracket motion. Thank you.

SPEAKER BAACK: Senator Lindsay, do you have a point of order?
