by different standards, you must spend whatever is necessary to
comply but the rest of them don't have to even though the
majority of the nonfirst class cities and villages have adopted
and done something about their solid waste.   I have a kill
motion on the bill because I don't think you should advance the
bill in the condition it is today.   I don't like to put a kill
motion on my own bill but sometimes you have to do what has to
be done.   Since no one here really knows what they want to do,
this is not the time nor place to harass and harangue and argue
over this issue and we should not advance the bill to Select
File by adopting...after we have adopted the   committee
amendments, which I assume...

PRESIDENT MOUL: One minute.

SENATOR SCHMIT: ...we will do. But I'm not going to embarrass
anyone by asking any one of you to explain the committee
amendments.   I can look down this row here.   I could start with
Senator Pirsch and go on down.   If I said I'm going to go down
that row and ask you to explain the committee amendments, as
amended, I would challenge any one of those persons to tell me
what's there and there's a brilliant bunch of legislators there.
At least someone agrees with me today.   Thank you, Senator
Lindsay. That's the first time. You might try voting with me
sometime.   So I'm going to tell you this, why do you want to
adopt the amendments and advance a bill which you don't
understand?   We had 350 pages of banking bills in Banking
Committee the other day and I told Senator Landis...

PRESIDENT MOUL: Time.

SENATOR SCHMIT: ...they moved without any hitch.   But bring a
little four or five-page bill in that does what it's supposed to
do and we will all drag it around.   I still oppose the committee
amendments.

PRESIDENT MOUL: Thank you, Senator Schmit.   I will now
recognize Senator Morrissey, followed by Senators Beutler,
Hefner, Hartnett and Crosby.   Senator Morrissey.

SENATOR MORRISSEY: Thank you, Madam President, and members, the
committee amendments are perfectly clear.   All you have to do is
look at them.   I explained it more than once today.   I would
like to explain them one more time, the thrust of 67 with the
committee amendments.   We've got a problem.   We need to send a
