SENATOR KRISTENSEN: Well, normally, normally...

SENATOR NELSON: ...plate on it, sure.

SENATOR KRISTENSEN: ...they would have their plate on because...

SENATOR NELSON: They normally would have it on, and this was brought to me about a year ago and I didn't, you know how it is, I didn't give it a lot of thought until this opportunity came up, that hey, we're having a terrible problem with the...and actually it's in the city. I could hardly see where the sheriff, that they're somewhat watching for us, and when we go out to test these cars, frankly, Anderson Radiator Company, at home, and, Arlene, can't you do something about it because of the fact that we're being fined, and I think fairly heavy, for operating these cars and not properly licensed. I'm sorry it's on Final Reading, and I get as perturbed as anyone else for anyone bringing something up on Final Reading.

SENATOR KRISTENSEN: Well I'm not...I'm not...that's not my problem. My problem is that's just something I haven't examined or, like Senator Schimek's, we...the Department of Motor Vehicles had gone through, drafted that language,...

SENATOR NELSON: Sure.

SENATOR KRISTENSEN: ...had looked at it from the administrative point of view. This is one that, I mean I hate to stand up and say something like that, but I think that's true, that maybe that is something that needs to have a little better look at it, because I'm not sure I understand the problem that a dealer played, or someone's regular license couldn't have, and I...

SENATOR NELSON: Senator Kristensen, I have to agree with you, and I have to say that I've not gone in this in depth, that it was a year ago, and they presented it to me as a real concern and a problem, and that they were getting fined and penalized for not having the right license plate. And I fully have to agree with you, but I know it's just for testing when they have all this electronic equipment to test the cars.

SENATOR KRISTENSEN: Well I guess that's my concern, is that...
