

does...oh, the sunshine district does, but, folks, they did it wrong, they knew they were doing it wrong, and they just went ahead and violated the law, violated the mandate and the orders of this body and the Governor and distributed the money improperly. And their argument that they couldn't stop the process, because it was too far along, is wrong, and they know it, and this money should be paid back to these folks, and all the people that...

SPEAKER BAACK: Time.

SENATOR MORRISSEY: ...are owed. Thank you.

SPEAKER BAACK: Senator Coordsen, do you...did you wish to discuss this amendment further?

SENATOR COORDSEN: Very briefly. Can I talk for five or ten minutes now, having said very briefly, that seems to be the opening for a long statement. If you decide to support Senator Morrissey's amendment; and I cannot in good conscience, but the amount of money that we're talking about is unknown at this time. I would share with you that \$100,000 was distributed, as required by LB 761. The amount in question is \$200,000, part of which, part of which went to government entities who would have received funding under the requirements of 761. A guess, I repeat, a guess may be a total expenditure, this year and next year, out of whatever fund that might be,....Senator Morrissey, question, please.

SPEAKER BAACK: Senator Morrissey, would you respond, please.

SENATOR COORDSEN: Did I understand you to say that your amendment provides that the amount of money is to come from the...whatever the correct name for the...

SENATOR MORRISSEY: The Low-Level Radioactive Waste Cash Fund, fund number 4840.

SENATOR COORDSEN: Okay, so you have that in your amendment.

SENATOR MORRISSEY: Yes.

SENATOR COORDSEN: Okay. I would suggest that if this amendment is adopted, that there will be an amount of money requested by the other taxing entities. And I read through the list in
