realize that any business venture, the railroads included, has to on the bottom line be profitable, and that before we expend any state money or allow bonded indebtedness that might be guaranteed by the state or anything like that, that we would have to have firm satisfaction that this is a viable project. And I do believe that we need to go ahead with what we have proposed here and would urge the advancement of LB 783 to Select File.

SPEAKER BAACK: Thank you, Senator Elmer. For the sake of Senator Wickersham and Senator Lamb, there are 22 members that are excused right now. There are a number of them...Omaha was having a meeting right across the street and there are a number of them that are going to be back in a few minutes. I think we will stand at ease until a quarter till one and then we will try and resume then and see if that will work, so...because I think it's only fair that they get a fair hearing on this. So we will stand at ease until a quarter till one and see if we can get some people back in here.
