

plate to drive. Now there are some protections in here for abuse. One of them is, is that you have to have the plate itself. It's a temporary plate and you can't be the owner of the vehicle. So, in other words, a repair shop can't go and get a "repair shop vehicle plate". They have to get the regular plate. They have to pay the registration and they have to pay their own fees so they can't just go get a special plate as a repair shop, protection number one. Protection number two is to use this plate, and then you will look down here on page 7, lines 21 and 22, they have to have a written authorization by the people whose car they're driving. So they just can't go out, put this on anybody's car or a special car and get around registration and license fees. They have to have their own plate and they have to have a written authorization by the people whose car they have done some work on or doing the repairing for. So those are two of the protections that you have at this time. Senator Nelson has talked to the committee. We've also talked to the Department of Motor Vehicles. It's a rather simple amendment. It probably would save another bill coming back in next year. And, with that, I would support Senator Nelson's motion to return.

PRESIDENT MOUL: Thank you, Senator Kristensen. Senator Morrissey.

SENATOR MORRISSEY: Thank you, Madam Chair, and members, I support Senator Nelson's effort. We didn't...things moved a little quickly last time and we didn't quite get all our ducks in a row to do this on Final Reading the last time. And as long as everybody promises not to do this again on this vehicle bill, Senator Robak's got one. (Laughter.) Third time's a charm, Senator, that's when it will fail. I would support Senator Nelson in her effort. It will, in the long run, save us time and effort. It's simply the same as Senator Schimek wanted to do with just a minor addition of people...I'm sure if you check in your district, you all would have similar situations that we're trying to take care of here. I would urge you to support the return to Select File and support Senator Nelson's amendment. Thank you.

PRESIDENT MOUL: Thank you, Senator Morrissey. Seeing no one else wishing to speak on this motion, do you have closing, Senator Nelson?

SENATOR NELSON: No. Very rapid, when I spoke to the Motor
