SENATOR LYNCH: Mr. Speaker and members, thank you all for your input, for debate, for your patience and your willingness to stick around to listen to it. I will be brief. I...quick little things like, for example, every two years even though authority exists in the state we have to reconsider how we fund everything. In a sense, in that way, LB 91 will be treated the same as everyone else and, in fact, reconsidered after two years. Seriously, I've got to tell you this too, I was going to offer an amendment to my old friend Chris Abboud's amendment and since it was on General File a simple majority would have prevailed which would have simply said that we would have students evaluate administrators and school boards and teachers and everybody evaluate everybody else so we would exactly know. But then I was worried it might pass and then what would we do. So I didn't think I should do that at all. One of the solutions to this spending or any other, of course, is to go back to zero-based budgeting for one year and make every agency that exists in the state, all 81 code agencies and the other programs
