

that has introduced a bill that is still in committee on informed consent, as a member of the Judiciary Committee you heard the bill. I don't know if you were present that day, but it's informed consent. In other words, if we want to inform the pregnant girl of all options available to her, of the judiciary bypass and so forth, why shouldn't she also see a film on the development of the child and informed consent, as introduced by Senator Lindsay? Would you support an amendment to add Senator Lindsay's bill to LB 425, which would be informed consent and the development of the child and the...the...maybe shown a film of a pregnancy, early pregnancy?

SPEAKER BAACK: Senator Chambers.

SENATOR LABEDZ: Would you...would you support the informed consent?

SENATOR LABEDZ: Both.

SENATOR CHAMBERS: All right, and let me tell you why I say that. My feeling, Senator Labeledz, is that pregnancy is a very serious thing to the young woman involved. She does not need to have a bad situation made worse. And regardless of how we, personally, feel... and the reality...

SENATOR LABEDZ: You didn't answer my question. Would you support...

SENATOR CHAMBERS: ...confronting the young lady...

SENATOR LABEDZ: Would you support informed consent?

SENATOR CHAMBERS: And I would not support Senator Lindsay's bill, which you refer to as informed consent, but really is
