

the paper, Madam President, that you might be interested in, \$10 million in damage last year, but it is not important. It only affects those old farmers who have a lot of money anyway because they are going to buy the quarter across the road, whenever it comes up for sale. I didn't introduce a \$500,000 addendum to the appropriations bill to finish the renovation of the greenhouse-project, which has an uncounted dollar value to the State of Nebraska, because we don't have the money, because we don't have the money. If you want to vote for this, that is fine with me. It is not a big deal. It is only \$225,000, and I, you know, kind of buy on to what was said about the beauty and the appearance and all of that. I walk that street, by the way, every morning because I am a low income person, and I have to live over there in the low income area, and I really don't care that those people that are currently renting apartments in these buildings are going to have to find someplace else to live. That is not an issue. Vote your conscience. I don't care, but I thought it was something that needed to be addressed at a time when we are talking about increasing taxes for some reasons, shifting burdens around, and certainly curtailing some good programs that we have currently in operation in the State of Nebraska. Thank you, Madam President.

PRESIDENT MOUL: Thank you, Senator Coordsen. Senator Nelson.

SENATOR NELSON: Question, please.

PRESIDENT MOUL: We do have sufficient seconds and the question is, shall we cease debate? All those in favor please vote aye, opposed nay. Have you all voted? Please record, Mr. Clerk.

CLERK: 26 ayes, 0 nays to cease debate, Madam President.

PRESIDENT MOUL: Debate has ceased. Senator Moore, do you have closing?

SENATOR MOORE: Yes, Madam President. I certainly cannot sit here and give a sterling closing for this and disagree with hardly any of the things Senator Coordsen said. He makes a very good point and this certainly deserves the attention it has received. Now one thing you have to remember, that I don't care how much money there is in the State of Nebraska, the amount of requests will always be more than the amount of money available. Every year, I don't care if we would have a 15 percent revenue growth, we would have more requests than we could afford to
