LB 181

half a million. We should take that half a million dollars, make judges do a decent day's work, take that half a million dollars and put it into some productive forms of rural development. I'd be the first to admit that those judges will come, generally, from the rural areas, because that's the way the population shifts have been going. But it doesn't help economic development to keep half-worked judges out there. It doesn't do your constituents any good, service wise. They're getting plenty of service in that regard, the work load statistics prove that. Seize that money, make them work, seize the money, use it for productive efforts for rural development. Would ask the adoption of the amendment. Thank you.
