LB 829

CLERK: Yes, sir, it was.

SENATOR LAMB: Okay, if I could...how do I back up here? I would like to take that one, and then substitute this one. Is that right? I would ask unanimous consent to consider the original...

SPEAKER BAACK: Any objections for Senator Lamb to back up? (Laughter.) So ordered.

CLERK: I have, Senator, 1831 in front of me.

SENATOR LAMB: 177...

SPEAKER BAACK: Senator Lamb, if I understood you, you wanted to do 1821, is that the one you want to do, or...

SENATOR LAMB: Okay, 1821, that's the one which says, on page 68, line 22,...

CLERK: Yes, sir.

SENATOR LAMB: ...strike...okay.

CLERK: Yes.

SPEAKER BAACK: Senator Lamb.

SENATOR LAMB: 1821, 1821.

SPEAKER BAACK: Senator Lamb, you may proceed.

SENATOR LAMB: Thank you, and I'm sorry about the confusion here. But this is a very simple amendment which merely removes the provision that, if nothing is done, everything goes back on the tax roll. That's all it does. Takes away that what some people call a hammer. I don't think that, as I mentioned yesterday I believe it was, on the floor of the Legislature, in regard to another bill, that sort of hammer is not necessary and should not be used to entice this body to pass legislation. So all it does is take away that provision that, if no bill...if nothing is done, then everything would go back on the tax roll.

SPEAKER BAACK: Thank you, Senator Lamb. Next speaker is Senator Hall.
