

CLERK: Mr. President, the...

SPEAKER BAACK: The call is raised.

CLERK: The next amendment, Mr. President, is by Senator Conway. Senator, I have a note, the amendment you gave me, Senator, was the one that was filed last night, I understand you want to withdraw that and substitute AM1803, is that correct?

SENATOR CONWAY: Yes, I would like unanimous consent to substitute AM1803 for what was filed last night.

SPEAKER BAACK: Any objection? No objection, so ordered. Senator Conway.

SENATOR CONWAY: Thank you, Mr. Speaker and members. AM1803 is co-introduced by Senator Warner and embodies much of the concept of a simpler attempt to address where we go at the end of the period. In the event that there is something more substantive that they cannot do, why it can be changed on E & R. But the concept and the provisions which I have been talking about, which would return the situation for January 1, 1972 (sic) to be the same as we are in
