

SPEAKER BAACK: Senator Crosby's.

SENATOR PIRSCH: They get it to the composting...

SENATOR CROSBY: No, but you have some picked up?

SENATOR PIRSCH: ..the way every other garbage is carried...

SENATOR CROSBY: You get it picked up.

SENATOR PIRSCH: ..in a garbage truck. There's no other way to get it from here to there.

SENATOR CROSBY: Well, no, but I mean like the individual person is going to leave it in some separate container or what? How does the plant get the...

SENATOR PIRSCH: No. No, this wouldn't...this would not necessarily, particularly by the vessel cooking because it takes...

SPEAKER BAACK: Time.

SENATOR PIRSCH: ..all varieties. It would all be together.

SENATOR CROSBY: Okay. Thank you.

SPEAKER BAACK: Senator Nelson, did you wish to address the Pirsch amendment?

SENATOR NELSON: No, I guess maybe I'm like Senator Crosby, I better take the opportunity while I can. I guess the longer I sit here, the more disturbed or agitated or disgusted that I get. I have to concur with Senator Withem. I certainly don't know why we're discussing this topic today and with such words and terminology that I don't think there's a one of us here in the body...maybe Senator Johnson or Beutler or someone understands what we're doing, but I have the feeling that something's being pushed down our neck that we're not exactly knowledgeable on and that we may be letting the cat out of the bag and be very sorry in what we're doing. And I know that Senator Hefner worked a long time on this the other day, some time ago, and I guess that it's just my opportunity since I had my light on before. I think it's almost a disgrace to the body to be taking this much time on something like this when we only
