

CLERK: 25 ayes, 0 nays, Madam President, on adoption of Senator Withem's amendment.

PRESIDENT MOUL: The Withem amendment is adopted. Senator Will.

SENATOR WILL: Madam President, I move the readvancement of LB 829 to E & R for engrossment.

PRESIDENT MOUL: You've heard the motion to readvance. All those in favor please say aye. Opposed nay. LB 829 is readvanced.

CLERK: Madam President, the next motion I have is by Senator Moore. He would move to return the bill for a specific amendment. (The Moore amendment, AM2249, appears on pages 2781-83 of the Legislative Journal.)

PRESIDENT MOUL: Senator Moore.

SENATOR MOORE: Well, Madam President and members, I guess I need to begin by maybe apologizing to Senator Hall for not being totally true to my word. I think I told him before the noon hour if he got 25 votes and his amendment got on, there was no reason to run mine. And I guess if, indeed, the vote on his amendment was as unanimous as it appeared, I really have no purpose to run this. But I guess I don't...obviously, I was caught a little off guard that that adopted with no debate but that's certainly not Senator Hall's fault at all, obviously, his plan, I think. But other than that, regardless of that, my amendment is the same one that we visited before dealing with trying to collect this money for the income side. And I think a variety of things have changed since Select File. One of the biggest problems that whatever package we advance today I think needs to address or at least we need to address it if we don't address it on the revenue side, we need to address it on the spending side because, as you remember, when it passed on Friday there was somewhat of a cash flow problem with 829 as it was sitting when we started today. We're not exactly sure, Senator Hall's amendment that we just adopted I think still has, though not quite as acute, I still think you're talking about a, you know, a \$13 million gap for this biennium that you still have there, but what I'm saying is that not the total amount of money for this biennium comes in this biennium and because of that, you know, unless there's some other scheme to make it cash flow, quite honestly, what happens is the Governor has to veto
