

oh, this is a terrible type of endeavor to get into, you're going to, you know, just bring down the entire moral structure or fabric of the state if you adopt this proposal. Although every type of lottery, or every type of gambling that we have is generated through some kind of a machine, name one that isn't, where some portion of that game or that gambling enterprise doesn't involve a machine. But here in this aspect, when we talk about video lotteries, the curtain comes down and we say, oh, no, not under our watch, we won't let that happen. It is short-sighted at best. And we will be back here, and folks, like Senator Will, will again be on the right side of the issue, and will again sponsor the bill, and probably will again get cold feet and back off before it's all said and done, but I hope not. And, Senator Smith, I hope you really do see the light on this issue, because this is where we're moving. I would urge adoption of the amendment.

SPEAKER BAACK: Okay, we have heard Senator Hall's closing. We will now vote on the amendment offered by Senator Hall. All those in favor vote aye, opposed vote no.

SENATOR HALL: I'd like a call of the house and a board vote, to begin with.
