

minutes and was supposed to be a minute amount of money and what's the difference? If the check is to have someone, a fellow or someone to own a gun and I have mixed emotions on this bill but the school districts that have asked for this, particularly in bus drivers and so on, it makes a lot of sense, but I have mixed emotions and I know how the teachers and other professions might feel, but can anyone answer that question for me? Senator Stevens, can you answer that question for me?
