Senator Bernard-Stevens, Senator Beutler, Senator Peterson, Senator Chambers, Senator Robak, Senator Warner. We're looking for Senator Chambers, Senator Peterson and, Senator Haberman, would you check in, and Senator Beutler. We're still looking for Senator Beutler.   Senator Moore, we cannot find Senator Beutler. Do you want to proceed?

SENATOR MOORE: Do we have any idea where he may be? I just saw him, briefly ago. But in essence of time, if we can't find him, we can't find him.

PRESIDENT MOUL: We'll proceed with roll call vote in reverse order on the Moore amendment to 503.

CLERK: (Roll call vote taken.   See pages 706-07 of the Legislative Journal.) 23 ayes, 16 nays, Mr. President.

PRESIDENT MOUL: The amendment fails. I will raise the call. Do you have further amendments on the desk?

CLERK: I do, Madam President. Senator Schellpeper would move to amend the bill. (Schellpeper amendment, AM2358, appears on pages 707-09 of the Legislative Journal.)

PRESIDENT MOUL: Senator Schellpeper.

SENATOR SCHELLPEPER: Thank you, Madam President and members. Once again I want to tell you what this amendment does. We are putting in the education that was taken out last year.   Last year the amendment that was adopted on the floor took the education part out. That's put back in, or we are going to put that back in because I think that needs to be made part of the bill. We also have that there is an advisory committee with two ophthalmologists and two optometrists, and we will then be under the board of medicine, where the bill is at right now, with the head of the Department of Health.   This advisory board will decide what path that they will take when they are educated enough to treat glaucoma. Now I think we can work something out with this bill. I had told the optometrists that if they would have some way that the ophthalmologists could have some say so when they are educated, I could go along with the bill. They did not bring me that amendment. And I think that's something that we can work out. We need to have some way to work this out where they can...can treat. We just need to make sure that they are educated. I think that can happen. Maybe we should bracket
