

February 10, 1992 LB 349

different. Sure, Uncle Sam pays part of the bill, sometimes we get a little scared, does Uncle Sam continue to pay the bill on something like that? I have had assurance from Washington D.C. that it's one program that Uncle Sam is very unlikely to cut. I think you should all realize that, as far as I'm concerned and a lot of the members, the bottom line of this is clean water. We're blessed in this state with clean water. It's something that I think we ought to continue to control because there's no other state in the nation and I think if we have to spend a few dollars to protect that water, I think all the citizens of Nebraska will benefit from this. Now there's been some claims of how much we're spending for certification now. These figures are a little misleading, it hasn't been that many dollars yet, I see no reason why it should be. There's no reason of what we know now that this bill will cost the state \$3.5 million. There's no data to support these figures. And, with that, I ask for the adoption of the amendment.

SPEAKER BAACK: You've heard Senator Rogers closing on his amendment to the committee amendments. We will now vote on that amendment. All those in favor vote aye, opposed vote no. Record, Mr. Clerk.

CLERK: 32 ayes, 1 nay, Mr. President, on adoption of Senator Rogers' amendment to the committee amendments.

SPEAKER BAACK: The amendment is adopted. I will raise the call. Members, please stay close to the Chamber so we may finish up our business this morning.

CLERK: Mr. President, Senator Elmer would move to amend the committee amendments. Senator, I have your amendment that reads, "On line 11, page 19", starts that way, after the word "Commercial" add "or Private". (The Elmer amendment appears on page 757 of the Legislative Journal.)

SPEAKER BAACK: Senator Elmer.

SENATOR ELMER: Thank you, Mr. Speaker. This is a relatively simple amendment and involves the section that is dealing with restricted-use pesticides. Restricted use means that only a person that's registered and has taken the education to apply these pesticides may apply them. Within the...within this section, there is recordkeeping requirements that are imposed on commercial operators that apply restricted-use pesticides. And
