ASSISTANT CLERK: (Roll call vote taken. See page 1263-64 of the Legislative Journal.) The vote is 11 ayes, 20 nays, Madam President.

PRESIDENT MOUL: The amendment fails. I will raise the call. Next amendment, please.

SENATOR SCHMIT: The next amendment is AM3315 and the amendment proposes to identify dairy animals as inventory. I want to make a little comment relative to my question of Senator Warner. I believe there is a distinct definition, as he has indicated, between inventory and livestock, and I do not exactly understand his reference to the expansion, possible expansion of the tax on farm equipment and livestock and business equipment, without putting it on "everything else." It is my opinion that based upon the statute as I read it, based upon my doubt that the depreciation schedule in 1063 will stand scrutiny, that we will have to do something else if we are going to try to tax personal property again. I would guess I would like to ask someone, maybe Senator...I will ask Senator Warner. Senator Warner, where do we get the depreciation schedule that is in LB 829?
