

SENATOR WARNER: ...of one particular agency which is what always happens. I'm not picking on Senator Schmit if it means some other program, I would have done the same thing, but that's what always happens. The way you keep government from growing is not stopped by repealing what you've already approved. The way you cut a program is by never starting it. That's the only effective way and it's been demonstrated time and time again that once it is started, they provide a valuable service. Those who benefit from that service appreciate it and the request is to expand it and collectively it adds up all of those programs together, obviously add up more than what many people feel should be done. That's how it is. But if you cut the state budget...

SPEAKER BAACK: Time.

SENATOR WARNER: ...that has no help to local government and this is what we're talking about, how to fund local government. Their budget is another issue.

SPEAKER BAACK: Thank you, Senator Warner. Senator Rogers.

SENATOR ROGERS: Mr. Speaker and members, just want to make a couple comments. I know Senator Warner has been here pretty near as many years as I've been alive, but he keeps commenting on that this may not be legal and this may not be legal and the CA may not work and this one might work. I still hear no comments from the other side I guess, you know, what's wrong with a little sales or income tax and we'd solve all of our problems. It seems like, you know, the country I come from, that's all I hear out there, why not a little income and sales tax? And I have asked Senator Warner and he had an answer. Whether it was a legal answer or an answer he actually believes in, but why do we have to worry about the Constitution and some of the things that may happen with the CA and some things that may not happen? Why don't we just go back to Senator Hall's bill or income and sales tax and advance it and go home happy? Thank you. Do you want some? Senator Morrissey wants some of the time.

SPEAKER BAACK: Senator Morrissey.

SENATOR MORRISSEY: Thank you. Thank you, Senator Rogers. Again, I just am still seriously wondering about the 4-R aspects of 1063 and waiting for the answer. Again from MAPCO, they
