LB 1061  
LR 219

Bernard-Stevens, you're sure one to talk about persistence. I mean, I think it was you that changed your vote and got, finally got LR 219CA to swing over to the last three votes to carry it on the ballot. If I remember rightly you stood up and changed your vote for matters of reconsideration. I mean talk about persistence, that was the greatest form, example of persistence I've ever seen. And that's all I'm doing here. I'm just being persistent. I really feel strongly about having more than three members on a commission, any commission. Look at your counties for heaven's sakes, this is one of the biggest commissions in the state that runs the biggest gambling outfits there are. They run not only the racetrack, but they practically run keno and bingo and everything else. So I really think that...I mean, you know, persistence does pay off sometimes. And I don't understand why you need a commission, a study to see if we need two more commissioners. I just can't understand why you need a study. I mean, you either...I don't know what a study would prove. Were people going to come in and say we don't need five and some people are going to say we need three? I just can't...I can understand a study on maybe the things that the race commission does, but the number of commissioners don't need to be studied. I...also, I just ask for support of my amendment, thank you.
