

benefit and they're going to be selling more cars, obviously we are going to be enhancing the status for the customer and obviously they're going to be in a position that if the dealer is going to be selling them, somebody is going to be buying them and it allows an opportunity for people in this state to upgrade, move into an automobile that may be, give them a little more peace of mind, maybe through its accessories and its conveniences or maybe through its safety standards and the situations that follow with that.
