LB 1001, 1071, 1072

I have no problem. And I will talk to, I don't know who, but thanks.

SPEAKER BAACK: Thanks, Senator Nelson. Senator Abboud.

SENATOR ABOUD: Yes, Mr. President, colleagues, would Senator Warner yield to a couple of questions? Senator Warner, I didn't have a copy of the amendment and apparently it wasn't handed out and it was not printed in the Journal. And so I went down to the Clerk's desk and read through the amendment. Could you tell me which bill numbers were amending into LB 1001?

SENATOR WARNER: I indicated in my remarks, Senator, that it was 1071 and 1072 and then I said, in addition, this also affects community colleges with the same concept that was in 1072 that those special levies could be the construction levies that they have as would be true of the K-12 could be extended to the requirements of the Americans for Disability Act as well as hazardous material.

SENATOR ABOUD: And the level of...the level of increase as far as with the use of property...

SENATOR WARNER: The...the bill does not amend the current authorized levy with the exception that these construction, where they're mandated to do some of these things can exceed the lid as it would pertain to their construction levy or the levy limit, in some cases, in order to be able to comply.

SENATOR ABOUD: When you (interruption).

SENATOR WARNER: But that does not affect their operating budget lids.

SENATOR ABOUD: Now when you address the American Disabilities Act, are you referring to the federal legislation mandating the removal of barriers for individuals that are handicapped?

SENATOR WARNER: I'm sorry, Senator, I...

SENATOR ABOUD: Well, I was just trying to tie down here maybe more for legislative history than anything else the...

SENATOR WARNER: Sure.
