

will change in this time when we're in a transition period or a fluctuation period as far as our valuations, our property tax are concerned. So we did have a lot of debate on this the other day. The motion to advance this part of the amendment got a substantial vote. This is technically a reconsideration which should not even be up before us at this time. So I would just ask you not to spend a lot of time on this. Let's just vote it up or down, preferably down.

**SPEAKER BAACK:** Thank you, Senator Lamb. Senator Morrissey.

**SENATOR MORRISSEY:** Thank you, Mr. Speaker, and members, just briefly, I sure don't want to take an inordinate amount of time on this bill but I agree completely with the concept that Senator Robinson brought forward. If, indeed, 1059 was a needs based type of situation, I really disagree with the hold harmless. I agree with the proof of the need that Senator Schrock's amendment brought. I think these, the hold harmless and Senator Schrock's amendment are just complete opposites and in conflict with each other. I would support the amendment.

**SPEAKER BAACK:** Thank you, Senator Morrissey. Senator Abboud. Senator Robinson. Senator Schimek. That won't be necessary. Yours is the last light on. Senator Robinson, did you wish to close?

**SENATOR ROBINSON:** We come to the 57th day, I guess it was the 56th or the 54th when Senator Lamb slithered this one in on us. And it's like Senator Morrissey said, it's not consistent. It's a conflict. Just let me read you a few of them. Remember, you're going to lose this for two years. York Schools will lose...they will lose \$50,000. I know these figures don't mean anything. Lincoln Schools are going to lose close to a million; Columbus over \$100,000. I wonder if they know they're going to lose this money; OPS, oh, close to \$1.4 million; south Sarpy, \$42,000, on we go; Beatrice, sixty some thousand dollars; Hastings, \$85,000; Norfolk, \$104,000 and on we go, to \$109,000, over half a million dollars for the Millard Schools. Kearney is going to lose \$100,000, on we go. Grand Island, \$160,000; Papillion LaVista, \$120,000; Bellevue, 150,000. Why? Because we're inconsistent. We speed it up on one side to help someone out. We put the roadblock on the other side, put the old roadblock there. Senator Lamb, are you coming back? No, I...no, that's right, you're not coming back next year. I'll bet that next guy will get schooled well on this issue. Do you
