

SPEAKER BAACK: Debate has ceased. Senator Lindsay to close on your amendment.

SENATOR LINDSAY: Thank you, Mr. Speaker. Members, this...this amendment is consistent with the intent of what the members adopted earlier. The Moore rationale for opposing this amendment is the same rationale for opposing the amendment we adopted earlier. If you want to have high growth or accelerated growth districts get...have that considered in their treatment for state aid then this amendment is consistent with that rationale. What this does is says if you have that high growth, you're not going to get hurt under the formula. I think what Senator Warner was talking about is just not accurate if you support the high growth. This does not lead us any further along the road of getting rid of 1059's reasoning than did the amendment this morning. The two go hand-in-hand. What this does is simply says that if a school district meets the criteria that we set forth earlier today, if it meets those criteria then it is protected from losing money. It still is not going to get an increase in money, but it's going to be protected from losing money. It's not, I don't think, an unreasonable amendment. You can certainly vote against this amendment. I would simply ask that if you do so, be consistent with the way you voted earlier on the AM39...or 3762. I just ask you to be consistent on it. We either support the high growth districts or we don't, but let's not treat them differently. Let's just be consistent on it. I'd urge that the amendment be adopted.

SPEAKER BAACK: You've heard the closing on the Lindsay amendment. We will now vote on that amendment. All those in favor vote aye, opposed vote no. We are voting on the Lindsay amendment. Have you all voted? Have you all voted? Senator Lindsay.

SENATOR LINDSAY: Mr. Speaker, I would ask for a call of the house, accept call-ins.

SPEAKER BAACK: A call of the house has been requested. All those in favor vote aye, opposed vote no. Record, Mr. Clerk.

CLERK: 18 ayes, 0 nays, Mr. President, to go under call.

SPEAKER BAACK: The house is under call. All members, please report to the Chamber and record your presence. The house is
