

be my priority bill, I get a little bit testy too. I have said from the beginning that LB 1059 was a bad bill and I still believe that and we're still suffering from the consequences of it. I don't think it's gotten better with the two amendments that have been put on it and I don't think it's fair that we extend hold harmless to some and not to everyone. We had our chance to do that with the Lindsay amendment and I think that would have settled the issue. What's fair for one is fair for all, and if we're going to extend the hold harmless for some then I think that we also ought to hold harmless all. I will be voting for the reconsider motion and I'm sorry that it had to come to that because I think it could have been settled quite simply by just adopting the Lindsay amendment.

SENATOR CONWAY: Thank you, Senator Pirsch. Senator Withem.

SENATOR WITHEM: I would temporarily set aside my reconsideration motion. I understand there is one for the purpose of reconsidering the Lindsay amendment and I would let that go ahead of this one if I could temporarily withdraw this motion.

SENATOR CONWAY: It is withdrawn. Mr. Clerk.

CLERK: Mr. President, a priority motion by Senator Baack, we would reconsider the vote on the Lindsay amendment.

SENATOR CONWAY: Senator Baack.

SENATOR BAACK: Yes, Mr. Chairman and colleagues, I did file this reconsideration motion in the essence of making the process work a little better more than anything, plus it is a...I think it is a fairness issue and, as I reflected upon my vote on the Lindsay amendment, it probably was very inconsistent. And I think that what we need to do to provide for the kind of consistency that we have been working on today with the rapid growth amendment this morning, I think to be consistent we probably do need the Lindsay amendment and so I am asking you to reconsider the Lindsay amendment now and have that amendment back before us so we can revote on that. Thank you.

SENATOR CONWAY: Thank you, Senator Baack. The lights that have come on begin with Senator Robinson. He waives off. Senator Baack, would you...pass for now? Senator Schimek then.
