LB 245, 510, 511, 512, 719

think the emergency clause is here as a result of the...the Accountability Commission work. But I do agree that it is probably necessary, if you buy Senator Wickersham's argument, which we apparently do, that we do need to reenact 511 to...which was a bill last year dealing with affiliation of school districts. If we do need to reenact that, we probably should get it back into statute as quickly as we can so that if the school districts that are going through these affiliation processes, up in, you know, Senator Lamb's district and out around Senator Wickersham's district, Senator Schellpeper's district, see if I can name any other names of people that voted no on this who probably, for the best interest of the people in their district, should try to get the emergency clause into effect. The reversing of a...a couple people reversing their vote and giving a couple of votes for the E clause would not change anything at all about the Accountability Commission. But it would give us our assurance that the affiliation bill is in place as it should properly be. So, I would urge you to support the reconsideration motion.

SPEAKER BAACK: Senator Hall, that was last year's bill.

SENATOR HALL: And last year's bills are in these books? Is that correct?

SPEAKER BAACK: Yes, but to find the contents of 511 you have to look at LB 719. (Laughter.)

SENATOR HALL: Ah, Mr. Speaker, that's where I made my mistake. (Laughter.) I'm sorry.

SPEAKER BAACK: Senator Withem.

SENATOR WITHEM: Yes, yes, Mr. Speaker, who is on first? Can you...can you...(laughter). Yeah, let me...I thought we tried to...to explain that, but I...and I know people come and go and
