

pay a premium? They don't. They don't.

SENATOR CHAMBERS: I'm not...okay, so I'm not saying make them pay a premium price, I'm just saying buy their corn from Nebraska farmers. Let me ask you this, and based on what you just said, and enlighten me, because it's obvious you're a much greater expert than I am, if they can purchase grain cheaper on a regional market, then they can purchase it in Nebraska, why should they purchase it in Nebraska if they can purchase it cheaper somewhere else?

SENATOR HABERMAN: They should not. They should make a profit and if they can...

SENATOR CHAMBERS: Okay,...

SENATOR HABERMAN: ...freight it in and make more money buying regional corn, they're going to do that.

SENATOR CHAMBERS: And suppose they could import it, just suppose they could import some of this that's dumped on the world market and get it cheaper than they can get it in America?

SENATOR HABERMAN: They're going to do that also.

SENATOR CHAMBERS: So then what is going to be the benefit to Nebraska if that should happen?

SENATOR HABERMAN: What did he say, 160 jobs?

SENATOR CHAMBERS: Okay, and are you supporting the resolution to create a 160 jobs?

SENATOR HABERMAN: I didn't say I was going to support this resolution, Senator Chambers.

SENATOR CHAMBERS: Oh, so you're going to vote against the farmers' interest, huh? Thank you, Senator Haberman. Here's why I did that, to show that there are legitimate issues to be considered here and whatever happens in north Omaha has nothing to do with it. Senator Haberman takes his digs when he can, and I accept that and I can take it. But I don't want us, in the meantime, to get distracted from what it is we're talking about in this resolution and we should have clearly and focus what it is we're after. If you want to create a 160 jobs and in
