

good look at our tax system and I think we have got to throw out personal property tax. Maybe that won't happen but I think we have to take a good look at it. And I have been taking a good look at...on who is going to vote and so forth. It is real close, but I went to the show the other night. It was called "Point Break" and it reminded me of the remark that Senator Moore was talking about Senator Lamb going out to sea, and I want to include Senator Peterson, who is back behind the glass also. Patrick Swayze was a surfer. I don't know if you saw the show but he was involved in several robberies, and I think they were hunting for him for the robberies and I think for murder. Well, when the show ended, he was over in Australia and they had this huge storm, and they had these great waves. His one goal in life was to surf this...surf on this huge wave. Well, I will tell you, as the show ended, Patrick Swayze was on a surfboard and he was going out to sea, and I can just see it now. Senator Lamb still has a chance. I can see him up on that high wave now, but you know he could still turn that surfboard around and coming behind on a rope would be Senator Peterson. We could get them both. We need them both. I want you to know that but, Senator Lamb, you go see that, and that would be a perfect picture for you if you don't vote for this now. I want you to know that. I stand and I want to come out supporting LR 1. I think it is very essential because of what devastation it would do to the state aid formula, to rural schools, and also to rural America. Thank you.

PRESIDENT MOUL: Thank you, Senator Robinson. Senator Lamb, followed by Senators Coordsen and Landis.

SENATOR LAMB: Thank you, Madam Chair. What a coincidence. Senator Robinson, what dire things are going to happen if we don't pass the constitutional amendment? Just enumerate those for me so I will be better informed.

SENATOR ROBINSON: Well, if everything stays on, maybe a few of my people from Burt County are listening, we'd lose over a half a million dollars in state aid there. Every school in Thurston County would lose money if we keep everything back on and don't take a good look at the tax system. That is one thing. I don't know...I found out I have close to 100,000 cattle. Now I talked to one person I know down by Fort Calhoun, it could cost him around \$18 a head if everything stays on, along with everything else that is on. I know that everything will work out, Senator Lamb, but I haven't been convinced of that yet. Now, those are
