

SPEAKER BAACK: Thank you, Senator Robinson. Senator Crosby, on the resolution.

SENATOR CROSBY: Thank you, Mr. Speaker and members. It's a real pleasure to support this resolution this morning. And I think I'm going to use this opportunity to say something that I've been saying for the last couple of weeks, as we were watching the Olympics. I go way back with Legion ball. We had it in Hastings. I think all the small towns and the larger ones, even Omaha and Lincoln, it's a long time program in the State of Nebraska and across the country. And what I like about this, and all the other athletic and 4-H organizations and so on that involve young people, is that these young people are doing something significant, and they are working hard to accomplish their goal. So often all we hear are the terrible things and the bad things that young people do. So here's an opportunity for us, just with this resolution, to thank those young people that participate, and also all the parents and volunteers who coach and see to it that the kids are there on time to play, and that their uniforms are clean, and that they are comforted afterward if they lose, in any kind of organization there is always losers. So, I just...I just...during the Olympics I thought of that. Here it's so great to see all these people from our country and other countries doing something positive and doing something really good, and being proud of their country, being proud of their state, and being proud of the town that they live in. So, thank you, Senator Robinson, for giving us an opportunity to express our thanks to all those people.
