

October 2, 1992      LB 1, 2

basically dealing in next biennium so we're really only dealing with intent language. But as a result of the bonding of the LB 760 projects, the amounts shown on pages 83 and 84 which are 2.9 million and 4.38 million are the amounts associated with the committee's original 6-year bond proposal. As you remember late on Wednesday, we amended that with Senator Warner's plan. The correct amounts are now 1.8 million and 3.2 million pursuant to Senator Warner's 4-year proposal as opposed to our original 6-year proposal. Since the transfers actually cannot occur until after July 1, '93-94 and '94-95 and it's beyond the actual effect of LB 1 because it's really just intent language, we'll have to deal with this next biennium anyway and that's when we can deal with...and the correct transfer amounts are actually acknowledged in our financial status and so it will show that way. But those two items are mistakes granted, but they are inconsequential. I see no reason to bring the bill back. They can easily be corrected in January with our early deficit bill or even if it's our late deficit bill in June, neither one of them will cause anybody any pain either in DSS or on those capital construction projects. Obviously we apologize for our not being quite perfect, but we continue to strive for that. And so with that, unless there's any questions, I withdraw the motion and ask you to vote on the bill.

PRESIDENT MOUL: Thank you, Senator Moore. If there are no questions, the motion is withdrawn. Okay, we'll proceed with Final Reading.
